The residents of the Sixth Ward, being the southern portion of District No. 3, the region afterward known as the Washington-school district, in May, 1850, petitioned for a school, claiming that the number of clildren in their proposed district exceeded five hundred. An appropriation of \$400 was made in July, 1850, for the employment of an instructor in the elementary principles of music. Frank Lombard and Mr. Warner were en-

gaged as music teachers.

During the month of December, 1850, a petition was presented to the Council, signed by residents of the district west of the Southwest Plank Road, (the Brownschool district,) representing that they were one and a half mile distant from the nearest school; that they had a school room furnished, which had been built by the inhabitants, and asking that a teacher be assigned to teach in said school. During the same month the Council passed an order authorizing the Trustees of District No. 3, in connection with the Inspectors, to employ a competent teacher to take charge of the school. The school was continued during the winter, but in May, 1851, the Council ordered its discontinuance.

The number and pay of teachers was:

Teachers.	Pav
District No. 1	. \$1.627.75
District No. 24	
District No. 35	. 1,513.59
District No. 45	. 1,462.13
_	-
Total20	\$5,989.90

The music teachers are not included in the above.

A teachers' association was organized in this city in the winter of 1850-51, with a membership of twenty-four, which included four private instructors. This was done in compliance with an order of the Council, passed December, 1850, compelling the public teachers to meet weekly for consultation, under the direction of the Inspectors.

In February, 1851, the Council authorized the committee on schools to advertise for proposals for a school site in the Sixth Ward, north of Kinzie Street, and about the same distance west of the river as School No. 3; and also to procure plans for a building, and at the meeting of the Council, April 28, 1851, a proposition of Henry Smith, Agent, to sell Lots 12 to 16 (both inclusive) in Block 14, Ogden's addition, for the sum of \$1,25 was accepted, and the Mayor and Clerk were authorized to issue a city bond for this amount, payable in one year, bearing ten per cent interest. This is the site now occupied by the Sangamon school, formerly known as the Washington, corner of Indiana and Sangamon streets.

By an act approved in February, 1851, the School Agent was given the custody of the school fund, subject to the direction of the Council. In September of the same year an ordinance was passed establishing at least one common school in each district; and giving the Council authority to appoint seven Inspectors for the city and three trustees for each school district. It was made the duties of the inspectors to superintend the schools, examine and employ teachers, divide the schools into grades, etc., and of the Trustees to take charge of the property and recommend improvements in buildings or appliances.

May 30, 1851, the Council passed an order authorizing the committee on schools and the Mayor to negotiate a loan of \$8,000 to be expended in erecting schoolhouses in the North and West divisions of the city, payable in two years from the first day of June, 1851; and also an order authorizing the committee, together with the Inspectors, to adopt plans for such buildings, to advertise for proposals for their erection and let the same to the lowest bidder, providing the cost of the buildings did not exceed \$4,000 each. The order authorizing the loaning of \$8,000 was repealed at a subsequent meeting of the Council, September 19, 1851. An order was adopted instead authorizing the issue of city bonds, payable in two years from June 1, 1851. July 2, 1851, the committee on schools report proposals received for the erection of these buildings, one to be located corner of Division and Sedgwick streets Franklin school and the other corner of Indiana and Sangamon streets (now known as Sangamon-street school, formerly known as the Washington and an order was passed authorizing the award of contracts at a slight advance on the amount fixed, \$4,000 each. An ordinance was passed by the Council, September 8, 1851, defining the powers of the Trustees and Inspectors. It was essentially the same as that of 1849. One change was the provision fixing the salary of assistant principals at \$250, instead \$400 per annum.

February, 1852, the people of the extreme western portion of the city the Brown District) secured a \$75 appropriation for a teacher. Miss Case was appointed, who received \$54 for her services. In December Miss M. E. Hartley was assigned to this school, in a building temporarily obtained. An appropriation of \$171 was made and added to the unexpended balance, \$21 of the former sum set apart for this purpose.

The Washington (Sangamon) school was completed in December, 1851. It was located on the corner of Indiana and Sangamon streets, in the West Division, and was opened in January, 1852. The Franklin school, on the corner of Division and Sedgwick streets, was completed and opened simultaneously with the Washington building. The cost of these houses was about \$4,000 each.

In February, 1853, W. H. Brown, who for thirteen years had held the position of School Agent, resigned his office to the great regret of the Council and citizens of Chicago. The condition of the school fund, at this time, was as follows: Loans secured by real estate \$28,527,18; loans on personal security, \$7,437.59; balance, cash on hand, \$5,158.43: total, \$41,123.20. James Long succeeded Mr. Brown in office.

May 30, 1853, the residents of the southern part of the city, in the vicinity of the works of the American Car Company, petitioned the Council to take immediate steps for the purchase of a site, and the erection of a building somewhere in Section 27, in the vicinity of said works; and the Council, June 27, 1853, directed the committee on schools to procure propositions to sell suitable grounds in this vicinity, and report at its earliest convenience.

In November, 1853, the Teachers' Association reached a commendable degree of efficiency, and was thoroughly organized. The Council then permitted semi-monthly meetings. L. Walker acted as secretary of the body.

A period is now reached where a more detailed review of educational work can be begun. The close of the school year in 1853 saw an enrollment of over three thousand pupil, and the public schools were maintained at a cost of §12,129.

The rapid increase of population and the enhanced importance of the educational interests of the city demanded a more systematic management of details than was permissable under the then existing regulations. It was deemed no longer desirable to rely solely upon the Inspectors, who were men of active pursuits, and could therefore give but partial attention to the duties of their office. Governed by that lofty spirit which has always characterized the conduct of school affairs in this city, the Council determined to place some one at the head of the educational department, and on the 28th of November, 1853, the office of Superintendent of Schools was created, with a salary of \$1,000 attached.

June 23, 1854, the ordinance was so amended that instead of fixing the salary at \$1,000 per annum, it was provided that the salary should be fixed from time to time, by the Inspectors with the proviso that the salary

must not exceed \$1,500 per annum.

In October, 1853, a school was established near the works of the American Car Company, that corporation furnishing the room. This was called District No. 7, afterward known as the Moseley-school district. In December of that year a site was purchased on Warren Avenue, between Page and Wood streets, subsequently occupied by the Brown school. The price paid was \$2,800. January 3, 1854, an appropriation of \$150 was made to support the school.

The Inspectors invited John D. Philbrick, principal of the State Normal School at New Britain, Conn., to fill the Superintendent's office, but the invitation was declined. On the 6th of March, 1854, John C. Dore, principal of the Boylston grammar school, Boston, was elected at a salary of \$1.500. Mr. Dore assumed the duties of the position in May. Under his management the work of classifying and grading the schools was ef-

fected.

From Mr. Dore's first report, which consisted simply of a review of his labors during 1854, is gathered an interesting statement of the condition of the schools at that time. There were in all the schools thirty-five teachers regularly employed, but each school was inde-pendently governed. Some of the schools, however, were totally deficient in system, many of the pupils attending one department in the morning and another in the afternoon of the same day. No registers were kept, and it was impossible to tell what pupils did or did not belong to specified schools, except as they were seen in actual attendance. Mr. Dore said: "As much time was consumed in going to and from recitations as was devoted to recitation." The principals did little more than govern the filing in and out of classes. A rigid examination was instituted, in which fair results were shown, except in English grammar. This was "virtually a sealed book in several of the schools." In the lower departments little attention was paid to oral arithmetic or even to the multiplication table. Neither examination nor age governed the promotion of pupils from one class to another. Mr. Dore continued: "The pupils in the schools have been classified, and the several classes apportioned among the several teachers, so as to secure a proper division of labor and individual responsibility. A system of promotion has been adopted, depending upon the qualifications of the pupils, determined by examination." Class books were adopted, and a general system devised. The Teachers' Institute, which was then somewhat neglected, was revived.

Among the most important recommendations made by Mr. Dore was the establishment of a high school. The inspectors manifested the warmest spirit of co-operation with the new Superintendent, and endeavored to

secure the best teachers. The report contained an able argument for the advancement of interest in the public schools, which were declared to be needed from a philanthropic standpoint, no less than a political one. The high school would serve as a stimulus to the pupils of the lower grades, and create a feeling of commendable rivalry among the students. Mr. Dore evinced a broad and comprehensive conception of his duties, and of the duties of the parents and the public generally.

In April, 1854, an ordinance was passed increasing teachers' salaries as follows: Principal (male) of higher departments, \$1,000; assistants, \$300; principal of primary departments, \$350; assistants, \$250. There were, at that time, seven public schools owned or leased by the city, but the seating was inadequate by at least one thousand. In addition to that number, there were many more who should attend. The schools were designated by number.

Number 1-J. P. Brooks, principal, salary, \$1,000; assistants, Mrs. A. E. Whittier, Misses S. A. LeBosquet, M. Cooper, A. L. Graves and E. McClure.

Number 2—I. Claffin, principal, \$1,000; assistants, Misses C. McArthur, F. A. Cogswell, A. E. Lowery, E. A. Kent and L.

Number 3—D. S. Wentworth, principal, \$1,000; assistants, Misses L. M. Reed, H. Culver, S. E. Tibbetts, N. M. Hill, Mrs. R. M. Wight.

Number 4—A. G. Wilder, principal, \$1,000; assistants, Misses A. M. Duffy, D. A. Dean, E. Hall, J. Richards, F. Brown. Number 5 — D. C. Ferguson, principal, \$900; assistants, Misses L. Everden, Mr. Shields, and E. Dickerman.

Number 6 — II. McChesney, principal, \$1,000; assistants. Misses J. Williams, F. Smith, A. Duncan, — Hunter, and Mrs. J. E. Seymour.

Number 7-Miss C. C. Fox.

The site of the Foster school was purchased, in-

cluding two lots, for \$5,800, in May, 1854.

With the exception of the portion occupied by the Scammon school, Block I was occupied by squatters, up to March, 1855, when the Council passed an order for their removal and the subdivision of the land into lots, to be leased for the benefit of the school fund.

The committee on schools in their report on the annual report of the Agent for the year ending February 1, 1855, speaks in the following manner on the matter

of the sale of school lands:

"But the real estate belonging to the school fund, though heretofore yielding less revenue, is by far the most important, as in it are the elements of growth in value, commensurate with the growth of the city and surrounding country. If the real estate yet belonging to the school fund, though but a fraction of what it belonging to the school fund, mough out a fraction of what is once was, shall be judiciously managed and kept, and it cost nothing to keep it, the next generation may be in possession of a revenue adequate for the support of the grandest system of public schools of any city in the world. A comparison of the small cash school fund now on hand (about \$40,000), with the value of lots, nearly all of the school section addition to Chicago, that were sold but a few years ago, now worth at low estimate six million dollars, and almost certain to quadruple in the next twenty years, will show in the strongest possible light the folly of selling school lots of lands in a growing city or country to obtain a revenue for school purposes; and yet the whole country is dotted over with marks of similar, though generally less disastrous, strokes of policy

In August, 1855, the purchase of what is now known as the Ogden-school lot was organized, but the business

was not carried out at that time.

In 1855 the Council decided in favor of the establishment of a high school, and an ordinance to that effect was passed by that body. The site still occupied on West Monroe Street was then chosen. It was proposed to embrace in this institution an English high, a normal and a classical department. For convenience of reference, we omit the chronological action concerning the high school at this time, and give all matters relating to it at the conclusion of this paper, that a complete record may be preserved on that topic,

Recurring to the general school work done in 1855, it is found that the Teachers' Institute was well attended, monthly meetings being then held. The exercises consisted of instruction in the branches taught in the schools, discussions, and exhibitions of model classes, taken alternately from the primary and grammar departments, which proved beneficial as a stimulus to the

The lower grades were in a prosperous condition, great improvements being shown in scholarship, order and discipline. The Press spoke encouragingly of the change in the tone of the schools, and both Council and the Inspectors joined heartily and liberally in the effort to advance the cause of public education.

During the year 1855 two minor schools were added to the list, increasing the number to nine. Forty-two teachers were employed and the enrollment was 6,826.

Flavel Moseley, an active supporter of the schools, and a member of the Board from 1850 to 1864, donated \$1,000, December 29, 1855, to establish the "Moseley public school fund," the interest of which was to be

I. Mosely!

expended in the purchase of school books for pupils whose parents were unable to furnish the necessary Upon his death, in 1867, Mr. Moseley increased this fund by the bequest of \$10,000, making the sum of this noble charity \$11,000.

Superintendent Dore resigned his office March 15, 1856, and was succeeded by William H. Wells, principal

of the Normal School at Westfield, Mass.

WILLIAM HARVEY WELLS was born in Tolland, Conn., February 27, 1812. His father was a farmer in moderate circumstances, and the son received no educational advantages, beyond a few weeks each year at a district school, until he was seventeen years of age. After spending one winter at an academy at Vernon, Conn., and one at a similar institution in his native town, he then began teaching district school. Shortly afterward he was an assistant teacher in a school in East Hartford, under the principalship of Theophilus L. Wright. Here he began preparing himself for college; he taught in the daytime and pursued his studies evenings. His labors were, however, too much for his physical strength, and he was soon compelled to abandon his hopes of taking a thorough collegiate course. Turning his ambition now to teaching, a pro-

WH Wells

fession for which he then exhibited marked capabilities, he, in 1834, entered the Teachers' Seminary at Andover, Mass. remained here eight months, when he returned to East Hartford, where he stayed until the fall of 1836, when he again returned to Andover as a teacher in the seminary already mentioned. He now began an extensive course of study in grammar, English liturature and composition, and, in 1846, published his "School Grammar," of which, since its issue, half a million copies have been sold. In 1845 the trustees of Dartmouth College conferred upon him the degree of Master of Arts, and two years later he was elected principal of the Putnam Free School at Newburyport, Mass. This cipai of the Furnam Free School at NewDuryport, Mass. This school was founded by the munificence of Oliver Putnam, and opened in April, 1848. It was as principal of this institution that Mr. Wells fully developed his abilities as a thoroughly progressive educator. He remained here six years, during which time he was an active member of the Essex County Teachers' Association, two vears its president, and was also for two years president of the Massachusetts State Teachers' Association. In 1854 he was elected principal of the Westfield State Normal School, and in two years, under bis excellent management, the Trustees were compelled to enlarge the buildings to accommodate the fast-increasing number

of pupils. In 1856, he was appointed Superintendent of the Public Schools of Chicago, since which time he has been closely identified with the deucational interests of not only the city, but the State as well. It was while principal of the Chicago schools that he fully developed his system of graded courses, a system which is now adopted by leading educators all over the country. He delivered many lectures on this system, which have since been published in book form under the title of "The Graded School," and has become a standard volume in almost every teacher's library. In 1863 he was president of the Illinois State Teachers' Association. In the following year he resigned his position as Superintendent of the Schools to engage in business. This move, however, did not wholly sever his connection with educational matters, as he for years afterward was a member of the School Board, and always an energetic, earnest worker in behalf of the city schools, whose interests he has ever had prominently in view. He, during the interval since his resignation, has published several text books of such excellence that they at once were recognized as standard authorities on the subjects treated. Mr. Wells has done a noble work for the schools of Chicago. His reward is in the appreciation in which he is held to-day by all who know him.

The first report submitted by Mr. Wells for the year 1856, opened with the statement:

"We find abundant evidence of the deep and abiding interest of our citizens in the cause of education. No reasonable expense has been spared to provide for the moral and intellectual training of the children and youth of the city. Not a single request has been made for the support and improvement of schools, that has not been cheerfully and promptly granted. The high school building has been completed, and the school itself organized, and welcomed to the hearts of our citizens. Two large and commodious grammar and primary school buildings bave also been erected; and no investment has been made more freely. But so rapid has been the growth of the city that, notwithstanding the large provision which has been made for increasing our school accommodations during the past year, there has never been a period when the demand was greater for additional houses to meet the wants of the 4,394 children, between five and fifteen, that have not been found a single day in any school of the city, either public or private.

Mr. Wells made a careful examination of the statistics of the city, and concluded that there were fully "three thousand children in our city who were utterly destitute of school instruction or any equivalent for it. In other words, liberal as had been the conduct of the Council, the average daily attendance of children in the public schools was equaled by the number who did not avail themselves of the educational advantages offered.

February 7, 1856, the Mayor was authorized to purchase two hundred by one hundred and fifty feet on the southwest corner of Wolcott and Elm streets (Sheldon

school at a price not to exceed \$9,000.

The grammar and primary schools completed this year were the Ogden, in the North Division, and the Moseley, in the South Division, in accordance with the public demand. It was in March, 1856, that contracts were awarded for the erection of these buildings, and in April of the same year a petition of residents of the North Division was presented asking that the Ogden building be erected on the lot on Chestnut Street, east of Clark; and the site which was ordered purchased in August, 1855, at \$11,041.25, was purchased at this time at a cost of \$11,790.79; the advance in price being allowed for interest during the period elapsing since the original order to purchase was passed.

In April, 1856, Elias Greenebaum was elected School

The Board of Inspectors had, since its organization, consisted of seven members. In February, 1857, the Legislature passed a bill amending the charter, and increasing the number to fifteen. The bill also abolished the Board of Trustees.

During the month of February, 1857, Dr. John H. Foster, a member of the Board of Education, donated to the city \$1,000, the interest on which was to be used by the Board of Education and the Superintendent of Schools in the purchase of gold, silver or bronze medals, or diplomas, to be awarded to the most deserving scholars in the different departments of the public grammar schools of the city.

March 23, 1857, authority was granted by the Council to procure plans for permanent buildings in Districts No. 8 and 9 (Brown and Foster schools), and in July of the same year authority was granted to heat the school building in District No. 8 with steam. This was the first school building heated by that method. These buildings were opened about the commencement of the year 1858.

The two-story frame buildings which had been used by the Brown school since 1855, was removed shortly after the completion of the new building, to the Wellsschool lot, corner of Ashland Avenue and Cornelia Street, a little over one mile north, and after the erection of the permanent building on the Wells-school lot, in 1866, it was again removed to the Burr-school lot, corner of Ashland and Waubansia avenues, about a mile distant, remaining in this location till the permanent building was erected on this lot, in 1873, when it was again removed to Wicker-Park lot, on Evergreen Avenue, near Robey Street, a little over a mile, where it is still in use, an addition having been made to the building while on the Burr-school lot.

The plan of this History, which is so comprehensive in character as to necessitate its division into several volumes, arbitrarily terminates the present chapter at the close of the year 1857-an epoch in the commercial world, owing to the financial depression of that period. The narrative of school progress is, therefore, brought to a summary halt, with a review of the condition of the schools at that date. The selection of this year as a dividing line seems appropriate for the reason that, with the beginning of 1858, the designation of schools was by name, instead of number, as was observed from the foundation of the graded system.

At the close of 1857 there were ten public schools with two minor branches of schools of the grammar and primary grades. They were located and governed as

follows:

School No. 1-On Madison, between State and Dearborn; O. B. Hewett, principal, aided by five lady assistants. Salaries paid, \$2,900.

School No. 2-Corner of Clark and Harrison; Willard Woodard, principal, aided by five lady assistants. Salaries paid, \$2,925. School No. 3—On Madison, between Halsted and Union; Daniel S. Wentworth, principal, aided by six lady assistants. Salaries paid, \$3,600. Branch of No. 3-In the Jefferson-street church, between

Washington and Madison; Sarah A. Culver and one assistant.

Salaries paid, \$650. School No. 4—Corner of Ohio and La Salle; Alden G. Wilder, principal, aided by five assistant teachers. Salaries paid, \$3,100. School No. 5-Corner of Division and Sedgwick; William Drake, principal, aided by five lady assistants. Salaries paid, \$2,850.

Branch of No. 5—On Larabee; Emma Hooke. Salary, \$325. School No. 6—Corner of Owen and Sangamon; A. D. Sturdevant, principal, aided by five lady assistants. Salaries paid, \$3,-

School No. 7—Corner of Michigan Avenue and Monterey; B. V. Averill, principal, aided by two lady assistants. Salaries paid,

\$1,750. School No 8—Corner of Warren and Wood; Henry M. Keith, principal, aided by Julia E. W. Keith. Salaries paid, \$1,-

School No. 9—On Union, near Twellth; George W. Spofford, principal, aided by two lady assistants. Salaries paid, \$1,500. School No. 10—Corner of Chestnut and Wolcott; A. II. Fitch, principal, aided by five lady assistants. Salaries paid \$2,-

William Tillinghast, teacher of music. Salary, \$1,000. .

Notwithstanding the fact that two large buildings

were erected in 1857, to accommodate about one thousand five hundred pupils, the demand for seats was far in excess of the supply Recommendations were made for two new houses, one in the North and one in the South Division; for an addition to the Scammon school; and for the removal of the frame buildings from the Brown and Foster lots to more convenient localities.

The conditions of the schools, so far as training and discipline were concerned, received the commendation

of the public.

The whole number of pupils enrolled in 1857 was 10,636; the average belonging, 4,380; the average daily attending, 3,318. A rule was adopted by the Board making it the duty of teachers to report monthly to parents and guardians the attendance, scholarship and deportment of pupils.

William Jones in 1857 donated \$1,000, the interest of which was to be devoted to the purchase of text books for poor children attending School No. 2, subsequently

called the Jones.

The school fund, in 1857, was reported as follows: Amount of real estate then belonging to the school fund, within the city limits, estimated .....\$900,000 Amount of real estate outside the city limits, estimated at..... Money loaned, principal.....

Total fund.....\$977,000 A considerable portion of the real estate was not then available, and much was leased at low rates. Block 87 was leased to the city for \$800 per annum until 1862; Block 88 was leased to private par-

ties for \$8,500 per annum. The high, the Scammon and the Jones schools, were situated on lots belonging to the school fund. The interest, State dividend, and rentals for the year ending February 1, 1858, were: Interest on \$52,000.....\$ 6,240 00

ing Superintendent and School Agent.... \$36,079 18

In March, 1857, Eugene C. Long was appointed

School Agent.

The total expense of running the schools during

1857 was: Incidentals, fuel, repairs, office expenses, etc.... 9,622 Rents, including interest on buildings and lots belonging to the city, estimated..... 17,000

Total amount.....\$62,701 This was an average of \$5.81 per pupil, or lower

than any large city in the Union.

The experiment of evening schools was begun in the winter of 1856-57. The charge of the school was voluntarily assumed by B. S. Wentworth, principal of No. 3, assisted by Misses Kennicott, Reed, Bickford, Wadsworth and Culver, and Messrs. Moore, Delano and Woodard, all teachers in the public schools; and by Messrs. Pearson, Culver and Sheilling, from other institutions. The use of West Market Hall was gratuitously furnished by the city. Sixty scholars assembled, and an average of that number attended, with an enrollment of two hundred and eight. The pupils were, many of them, adults and all were from the classes employed in mechanical and domestic services during the day. The experiment was regarded as highly satisfactory.

AN INDUSTRIAL SCHOOL was maintained in each of the three divisions of the city, during 1857, an outgrowth of a charitable movement commenced in 1854, by benevolently inclined ladies. These schools were supported by private bounty.

THE REFORM SCHOOL, located five miles south of the city, was then under the supervision of Mr. Nichols, and was referred to by Superintendent Wells as an institution worthy of the aid and support of the city

educators.

Mr. Wells, in his report of 1858, paid the following tribute to certain prominent educators:

"When in the far distant future the philosophic historian shall write the history of our city; when the character and acts of successive generations shall be weighed in the scales of impartial judgment; when material wealth shall be regarded in its true light, as the means to an end; when social enjoyment and intellectual cultivation and moral worth shall be rightly estimated as essential elements of prosperity in every community—then will the wisdom of those who have laid the foundation of our public school system be held in grateful remembrance; then will the names of Scanimon and Brown, and Jones, and Miltimore, and Moseley, and Foster, and their coadjutors, be honored as among the truest and most worthy benefactors of Chicago."

The subjoined table will give an idea of the comparative development of the schools, up to the close of

1857:

FOR YEAR ENDING	Total Population of the City.	Number under 21 years of age.	Total Enrollment in the Public Schools.	Average Daily Membership.	Number of Teachers.	Total Amount Paid for Tuition.	Total Amount Paid for all Current Ex- penses.
1837	4 170						
1840	4,479	2,109					
1841			410		5	\$1,889 82	\$2,676 75

Feb. 1, 1858			10,786	4,464	81	36,079 00	45,701 00

OFFICERS OF THE BOARD.-The written record of the Board of Education does not extend back of 1840. In November of that year a meeting was held at the office of William Jones, upon which occasion that gentleman was elected president and Isaac N. Arnold, secretary. Until April, 1843, the meetings were held weekly, thereafter monthly. From 1840 to 1857, inclusive, the officers of the Board have been as follows: President, William Jones, 1840–43; Jonathan T. Scammon, 1843–45; William Jones, 1845–48; Dr. E. S. Kimberly, 1848-50 ?) Record of 1849 lost); Henry Smith, 1850-51; William Jones, 1851-52; Flavel Moseley 1852-53; William H. Brown, 1853-54; Flavel Moseley, 1854-58. Secretaries—Isaac N. Arnold, 1840-41; Jonathan

T. Scammon, 1841-43; George W. Meeker, 1843-49; (1850 lost; Andrew J. Brown, 1850-52; Edward C. Larned, 1852-54; John C. Dore, 1854-56; William H.

Wells, 1856-64.

School Agents-William H. Brown, 1840-53; James Long, 1853-56; Elias Greenebaum, 1856-57; Eugene Long, elected in March, 1857.

Superintendents—John C. Dore, 1854–56; William H. Wells, 1856–64.

THE HIGH SCHOOL.—Although the high school was not formally inaugurated until 1856, the inception of the plan dates from the period of 1840. The attention of the Inspectors was directed to the subject as early as that year, when the scattered schools began to assume a more advanced character. The time was not yet ripe, however, and no definite action was taken. The In-

In December, 1846, the Inspectors, in their quarterly report to the Council, again call attention to the need of "at least one school where the ordinary academic studies may be taught."

February 7, 1847, the committee in their report on the quarterly report of the Inspectors, after commending the general condition of the schools, further report:

"In reference to a high school they are of the opinion that there are insuperable objections to the establishment of such a

CHICAGO HIGH SCHOOL

spectors first allude to the topic in their report of 1843, as follows:

"Had we the means, the establishment of a high school, with wo good teachers, into which might be placed a hundred of the best instructed scholars from the different schools, would remedy this increasing evil."

In May, 1844, in a report of the committee on schools, Ira Militimore, chairman, to the Council on the subject of the erection of a permanent school building in the First Ward, the question of providing for the more advanced scholars is spoken of as follows:

"The lower story to be divided into two rooms, one for small boys and the other for small girls, the upper room to be so divided as to give necessary recitation rooms for a high school, so that one principal teacher and two or three assistants shall be able to conduct the several schools, and thus give us a high school in which may be placed the more advanced scholars, and in a good degree remedy a very serious difficulty that has heretofore been the general complaint of teachers and Inspectors, namely, that our schools are too much crowded and that the smaller scholars must necessarily be neglected, or justice cannot be done to those who are more advanced."

school, independent of the inability of the city at the present time to build one."

The subject seems to have been dropped until November, 1852, when the Inspectors appointed W. H. Brown, J. E. McGirr and G. W. Southworth a committee to enquire into the expediency of presenting a plan for such a school. Report was made December 27, favoring the establishment of a high school, to be located in "the central part of the city." This report was attended with no immediate good results.

In September, 1854, the Board renewed the question, and the Council ordered the preparation of an ordinance for the establishment of the school. This was done, and the local law passed the Council January 23, 1855. February 19, an order was issued by the Council for the drafting of plans for the building, and on March 5 the final steps were taken to secure legal permission to proceed. The edifice was begun in 1855 and completed the following year.

The school was organized October 8, 1856, under

the charge of C. A. Dupee, as principal.

It was designed to open the building with appropriate inauguration ceremonies, but unexpected delays prevented this. The first examination for admission to the school was held July 15, 1856, and was largely attended by applicants and their friends. The per cent of correct answers required was fifty; and a special examination was held October 1, for the benefit of those who, through embarrassment, failed during the original trial, as well as for those who were unable to attend at that time. The number first applying was one hundred and fifty-eight, of whom one hundred and fourteen were admitted. Of those who failed thirty-five made a second attempt, and eleven were successful. A third examination was made, for the winter term, December 19. Out of two hundred and four applicants, but fiftyone were able to sustain the requisite scholarship. It is worthy of record that the average per cent of admissions from the public schools was forty-eight, while from private schools it was fifty; proving the efficiency of the public schools almost equal to that where pupils were enabled to avail themselves of special preparation, in classes numbering considerably less in the per cent of pupils to teachers.

Vocal Music.—The question of adding vocal music to the list of regular studies received attention officially in December, 1841, at which time a committee, consisting of N. H. Bolles, William Jones, John Gray and H. S. Rucker, reported favorably thereon. first instructor was N. Gilbert, who was appointed in December of that year at a salary of \$16 per month. In September, 1842, Mr. Gilbert was re-engaged for six months, at the rate of \$400 per annum. The opposition encountered, however, induced the discontinuance of the study after the first quarter of 1843. In July, 1845, an unsuccessful attempt was made to revive the classes. In 1846 the Council refused to supply funds, and the Inspectors granted permission to a "competent teacher of music to teach music in the schools for a small remuneration afforded him by the scholars, or as many of them as can or will pay; that the scholars are very fond of this new exercise, and it is believed to exert a most beneficial influence upon their tastes and

feelings.'

And in their next quarterly report, submitted in De-

cember, 1846, they say:

"From what we have seen of the influence and effect of introducing music into our schools as a part of the education of all, we would strongly recommend that a teacher be permanenly employed to devote his whole attention to the several schools of our city. Mr. Whitman has for some months past been giving lessons in music to a large number of scholars in the several districts, and the effect has been of the most salutary character."

The Choral Union Musical Society, in June, 1846, were allowed to occupy the recitation room in the building in District No. 1, for singing, on agreement that they give one concert a year for the benefit of the

common school library.

In November, 1847, the sum of \$250 was appropriated for the employment of a vocal music teacher. Frank Lombard received appointment January 1, 1848. The sentiment of the Inspectors was favorable to a continuance of this work, but financial restrictions compelled a relinquishment of the office. It was not until July, 1850, that another appropriation was made, being \$400. On the 28th of December, 1850, Mr. Lombard was re-elected. April 19, 1852, the salary was increased to \$500.

Mr. Lombard continued in charge of instruction in vocal music till December, 1853, and was succeeded by Christopher Plagge. Mr. Plagge resigned March, 1854, and was succeeded by J. L. Slayton, who served till July, 1856. In September, 1856, William Tillinghast was elected at a salary of \$1,000 per annum, and remained till the middle of October, 1860.

Private Schools.—In 1848, the Chicago Academy, under the management of J. E. H. Chapman and two assistants, was located in the basement of Clark-street Methodist church. This school had sixty pupils.

The Sutton Female Seminary, with forty pupils, was located at the corner of Madison and State streets; principal, Mrs. Marion L. Gaylord; assistant, Miss Ade-

laide M. Crary.

Miss Mary A. Nelson also taught a select school of about thirty pupils at 94 Michigan Avenue. Schools of the same character were taught by Miss Morse, on Michigan Street, between Clark and LaSalle streets; by the Misses Bennett and Chandler on the same street between Cass and Wolcott streets; by Miss A. W. Walker on Canal Street, between West Randolph and West Washington streets; by Miss E. Moore, 152 Washington Street; by Miss Pearce at 52 Randolph Street; and by Mrs. M. A. Warner at 167 Clark Street. This school had fifty pupils. Mrs. H. M. Shaw also taught a select school on Wabash Avenue, between Monroe and Adams streets. With exception of the one just above mentioned, the number of pupils in the select schools ranged from twenty to thirty in daily attendance. The Chicago Normal School, Professor M. B. Gleeson, principal; Miss Jane Stewart, assistant, had at that time forty pupils, and was situated on Jefferson Street.

A German school with sixty pupils, was taught by

A. Unterhrer at 134 Wells Street.

Linnear College was conducted by Rev. A. M.

Stewart, in 1846, at 73 Lake Street.

In 1850 an English classical and high school, the number of pupils limited to forty, was taught by Daniel H. Temple in the basement of the First Presbyterian church. In this year the Chicago Academy was taught by W. N. Dunham and Mrs. E. Cornwell; and a select school for both sexes was taught by Rev. Charles

Reighley, A. B. In 1853 the Northwestern University, now at Evanston, was located in this city. This institution was under the management of the Iowa, Wisconsin, Michigan and Rock River conferences, of the Methodist Episcopal Church. Each conference selected four of the trustees to constitute the general board and this board appointed twelve others to act with them. At this time the faculty of the University had not been appointed, but the officers of the Board of Trustees were Dr. John Evans, president; A. S. Sherman, vice-president; and A. J. Brown, secretary. Grant Goodrich, George F. Foster, Dr. N. S. Davis, with the president and vicepresident, ex officio, constituted the executive committee. The then proposed site for the university buildings was on a lot situated between Quincy and Jackson streets, west of Clark Street. In 1854, however, the University was removed to Evanston, where it now is. That year a part only of the faculty had been chosen, as follows: Rev. C. T. Hinman, D. D., president and professor of moral philosophy and logic; Rev. Abel Stevens, professor of rhetoric and English literature; Rev. William Godman, professor of Greek; and Rev. Henry S. Noyes, professor of chemistry.\*

In 1853 a mathematical and classical school, conducted by W. G. Hatheway, principal, assisted by J. R.

<sup>\*</sup> The Northwestern University will be treated of fully in subsequent volumes.

Livingston, was opened at 56 Lake Street; and the English and classical high school, already mentioned, situated in the basement of the First Presbyterian church, was taught by Alonzo J. Sawyer. In that year Bell's Commercial College, situated at the southwest corner of State and Randolph streets, was incorporated, although the college had been instituted three years before. This was the largest institution of its kind in the city, and was a most excellent school. Its faculty was as follows: Digby V. Bell, president, and professor of double-entry book-keeping and commercial calculation and lecturer on the general laws of trade Hon. Andrew Horvil, A. M., professor of commercia. law: John F. Starr, professor of penmanship; James Bowes, William Scott Stewart and Dwight S. Heald were also assistant teachers in the book-keeping department. The trustees were Digby V. Bell, William B. Ogden, Walter S. Gurnee, Henry A. Tucker, John P. Chapin, John H. Dunham, B. W. Raymond, C. V. Dyer, John H. Kinzie and Edward I. Tinkham. The following gentlemen composed the board of examiners: Hiram Brown, Franklin Hatheway, H. C. Munch, J. Q. Adams, M. F. Talbot, J. Dyhenfurth and Edward H. The officers of the college, in 1857, were Theodore M. Ford, president; Elisha B. Wallace, vice-president; Robert C. Furman, secretary and treasurer.

The Garden City Institute was established in 1853. Henry H. Lee was principal, and teacher of mental and moral science and literature. This institution of learning was situated at Nos. 69 to 71 Adams Street, and was in the nature of a preparatory school, fitting its students to enter college. It had an excellent and efficient corps of teachers, as follows: W. M. Blenkairon, M. A., teacher of ancient languages and mathematics; W. C. Hunt, M.D., lecturer and demonstrator of chemistry, physiology and anatomy; Leopold Mayer, teacher of German and Hebrew; Miss M. E. Powell, principal of female department and teacher of French and ornamental branches; Miss Juline M. Johnson, teacher of mathematics and English; Miss E. S. Smith, principal of primary department; Miss F. A. Cogswell, assistant; and Miss E. Parsons, teacher of vocal and instrumental music. The officers of the institute were Jacob Russel, president; E. L. Sherman, secretary; and W. S. Gurnee, Dr. Charles V. Dyer and Dr. L. D. Boone, trustees. Two years later, H. O. Snow became the principal, and was at the head of the institute in 1857.

Dearborn Seminary was organized in January, 1854, and in 1857 had erected a building on Wabbash Avenue, which cost \$20,000. This sum was raised entirely by the sale of scholarships. Its trustees, eighteen in number, were J. H. Dunham, president of the board; Amzi Benedict, secretary; Orrington Lunt, Rev. R. W. Patterson, Rev. R. H. Clarkson, Tuthill King, E. S. Williams, E. C. Larned, William B. Ogden, George E. Shipman, Stiles Burton, Timothy Wright, Rev. H. Curtis, Charles Cleaver and N. P. Wilder.

There were in 1859 the following private schools: a boys' classical school, T. W. Bruce, A.M., principal, situated in basement of the First Presbyterian clurrof, fifty pupils; the Chicago Female Seminary, A. J. Sawyer, principal, with assistants, located at 168 and 170 Clark Street, eighty pupils; Miss Fisher's select school on Lake Street, thirty pupils; the Green-street Seminary, D. R. Clendenin, principal, eighty pupils; the Misses Stevens' select school for young ladies, at 158 Washington Street, sixty pupils; Miss Hodley's high school, corner State and Harrison streets, sixty pupils; Union high school, located in the vestry of the Jefferson-street Methodist Episcopal church, Mrs. Sarah G.

Cleveland, principal, with three assistant teachers; a German school on the alley between Indiana and Ohio streets, George H. Fisher, teacher, seventy-five scholars; also a German school, corner of LaSalle and Ohio streets, C. P. Weber, teacher, one hundred and twenty scholars. With this it will be seen that, in addition to the efficient system of public schools, there was at no time between 1848 and 1859 a dearth of private institutions affording splendid educational advantages.

## VOLUNTEER FIRE DEPARTMENT.

The memories clustering around the old volunteer companies of any city can never be effaced by the achievements of a paid department, however grand. In the days when the property owners of Chicago-her men of brains as well as brawn-were her firemen and "run the machines for all they were worth," there was an affection felt for the very apparatus, as if it were alive. There were favorite companies and favorite firemen, upon which men, women and children gazed as on heroes of old. A reflection made upon the capacity of an engine or a company was enough to bring the indignant flush to many cheeks, and often was esteemed an insult which could only be wiped out by blood. There were friendly and there were bitter contests of skill, speed and endurance between engine and hose companies, as to which should get first to a fire, which should throw the farthest stream, which should "wash" or be "washed." In their determination to acquit themselves with credit, to even cover themselves with glory at a fire, the "boys" strove with awful determination for commanding and daring positions; sometimes, it would appear, entirely forgetting that the prime object of their existence was to quench the flames. But at fire or festival the spirit of rivalry was never at rest. And when, upon a particularly grand occasion some company would indisputably triumph in a decisive test, how the breasts of her boys would swell with pride! For instance, few of the old volunteers will forget the review of the department in 1848, when the River and Harbor Convention was being held, and how "Red Jacket" triumphed over all rivals by throwing a stream over the flagstaff in the center of the public square. Sometimes it was "Niagara" ("the kid-glove" company of the North Side) and sometimes the "Fire Kings" (No. 1) who would carry off the laurels; or perhaps "Protector" (No. 6) would make a spurt for fame. To give variety to the contests of the department it might be that the fleet boys of "Hope" (Hose No. 2) or "Lafayette" (No. 4), would have a brush, and one or the other of the companies arrive at the scene of conflagration far ahead of its competitor, but minus the hind wheels of the cart. Perhaps some of the boys will call to mind the contest which took place in presence of the Racine companies (October, 1856), at which these incidents occurred: No. 3 played into the tank two minutes, when the watch of the judge stopped, and the company re-fused to proceed; No. 4 broke twice; No. 7 tried once and broke; No. 10, after playing about one minute, "heard something crack," stopped, went on again, and finally, after trying to get a good stream, took the machine to pieces and found three sticks of wood inside. No. 3 was induced to make another attempt, and put the most gallons of water in the tank-1,323. And perhaps the older members will recall the contest in October, 1857. Then it was that No. 4 bursted her hose four times, and No. 3 five times, when, the twenty minutes being wasted, she did not have time to play. No. 10 came and had just commenced to gain on the engine "when her packing flew out." No. 7 gained the day. And so the sport went on. Then there were the processions, upon public occasions, when the boys would put on their best clothes, polish their engines to a blinding brightness, deck them with flowers, and look their sweetest and best generally. And again the festivals when firemen from other cities would come to show themselves and their darlings. These were the young, by-gone days, when the blood of the city was warm; days which many veterans still remember as their jolliest and best; when the old Unitarian church bell, in 1844, and, later, the Baptist church bell and the court-house bell (1855), were to them as bugle calls to war-horses, who "snuff the battle afar off."

But before the boys had any engines, or fire bells, or processions, or contests, or jealousies, or fights, or sociables, or anything of enjoyment whatever, they had laws which authorized them to inaugurate this programme, composed of triumphs and humiliations, pleas-

ure and pain.

In January, 1831, an act was passed by the Legislature authorizing the trustees of any incorporated town or village in the State to organize fire companies, not exceeding thirty members, and exempting them from jury service, or military service except in time of war. The "Washington Volunteers" organized in 1832, but merely had an existence on paper. They had no apparatus. They had no need of any, for there were not more than half a dozen frame buildings in Chicago. Chicago was not yet a town, and so the company was not formed under the general State law. The "Washington Volunteers," in fact, had so "immaterial" an existence that they are looked upon as the veriest ghost of a company by the oldest firemen now living, who remember nothing about it. All that is left of it is the following notice:

"A. V. Knickerbocker, Sir:-You are hereby notified that C. Boardman has applied to become a member of Washington Volunteer Fire Company in the place of H. Williams, and a meeting is called by order of the capacity four o'clock P. M., January 8, 1833.

"J. J. Gilluffy, Secretary." called by order of the captain for that purpose, on Thursday, at

Chicago became a town August to, 1833, and on November 6 an ordinance was passed forbidding, after December 10, "the passing of any stove-pipe through the roof, partition or side of any building, unless guarded by tin or sheet iron, six inches from wood, under penalty of \$5; the cause of complaint to be removed within forty-eight hours, or fine to be repeated. This was the town's first fire ordinance, and under it Benjamin Jones was appointed Fire Warden. September 25, 1834, the town was divided into four wards, and the stove pipe ordinance of November 6, 1833, was reenacted with a few slight changes. The following Wardens were appointed for each district: First Ward, W. Worthington; Second, E. E. Hunter; Third, Samuel Resique; Fourth, James Kinzie. These Wardens were charged with the duty of enforcing the ordinance previously passed, and of directing the movements of citizens who responded to the alarm of fire. By sections 4, 5 and 6 it was made the duty of the Wardens on the first Monday of each month to make a tour of inspection to see that the stove pipe ordinance was properly enforced. They were paid according to the time thus employed.

An account of the first fire which ever occurred in the town of Chicago appears in the Democrat of Octo-

ber 12, 1834:

"On Saturday last, about 10 o'clock A. M., a building on the corner of Lake and LaSalle streets, and the one attached, were discovered to be in flames. Our citizens repaired to the scene of conflagration with a promptitude worthy of commendation and succeeded in arresting its progress, after destroying two other buildings adjoining. The wind being high at the time, threatened the destruction of a number of the surrounding houses, but, by the exertions of our citizens, were saved from the devastation. of the sufferers will be severely felt, as some of them lost their all. A building on the corner, occupied as a dwelling, loss \$300. There was in the house \$220 in money, \$125, being in Jackson money, was found in the ruins. The remainder, the rag currency, was destroyed. A building owned and occupied as a cabinet shop, and another building as a grocery by H. Rhines, together with dwelling, furniture and tools, loss \$1,200. A building owned and occupied as a dwelling by James Spence, loss \$500. The fire commenced by a coal from a shovel in carrying from one building to the other. The want of suitable officers to take charge and oversee in cases of fire is much felt, and we understand the Trustees have suitable regulations in respect to it.

Two days after the fire the Board of Trustees held a meeting at the Tremont House and adopted their third fire ordinance, by which Wardens were empowered to summon by-standers to assist in suppressing fires, making the Warden of the ward in which the fire occurred the "chief," for the time being, and obliging fire wardens to wear badges of office. A short time afterward Mrs. Hopkins was fined for violating the "stove pipe ordinance," in the district ruled by Fire Warden No. The October fire appears to have stirred up the town authorities to unusual activity, for on November 3, the Board of Trustees had another meeting at the "Exchange" and adopted the following "ordinance for precaution against fires:"

"WHEREAS, It has been represented by sundry citizens, householders and owners of property in the town of Chicago, that great danger of destruction to their property and to that of the community at large exists, by means of a practice too generally indulged in, viz.: that of carrying fire from one house to another without care or caution, and, WHEREAS, The President and Trustees of the town of Chicago have been called upon by their fellow-citizens to adopt measures for the prevention of the said practice in the future;

"Be it, and it is hereby ordained by the President and Trustees of the town of Chicago, that hereafter it shall not be lawful for any person or persons to convey fire brands or coals of fire from one house or building to another within the limits of the corporation, unless the same be carried or conveyed in a covered earthen or fireproof vessel. Any person offending against the provisions of this ordinance shall be liable to a fine of \$5 for each and every offense, to be recovered before any Justice of the Peace in like manner as This ordinance to take effect other fines are by law recoverable. and be in force from and after the 12th day of November, A. D. 1834.

"INO. II. KINZIE, President Board of Trustees, (Attest:) "E. W. CASEY, Clerk Pro. Tem."

On February 12, 1835, the Legislature passed an act authorizing any number of persons not exceeding forty to form themselves into a fire company. It also exempted them from military duty during the time of their service; and all persons who should serve twenty years were forever exempt. Yet laws and ordinances did not make a fire department, and even so late as May, 1835, the Chicago Democrat complains that "there is not even a fire bucket" in the city. The first practical step taken toward the organization of other than a "paper fire department, was when, on September 19, 1835, the Board of Trustees resolved that "the President order two engines for the use of the corporation, of such description as he shall deem necessary, and also one thousand feet of hose, on the credit of the corporation." Whereupon William B. Ogden, as agent of the corporation, was vested with authority to make such purchase. On October 7 the Board of Trustees, at a meeting held at Trowbridge's Eagle Hotel, ordered the purchase of two fire-hooks, with chains and ropes, two ladders sixteen feet long, four axes and four hand saws, at a total

cost of \$29.63. On the same date P. F. W. Peck, Joseph L. Hanson, Silas B. Cobb, James A. Smith, J. K. Botsford, Joseph Meeker, and J. McCord signed their names as the first members of the "Pioneer" hook and ladder company. Soon afterward John L. Wilson, E. C. Brackett, John Holbrook, T. Jenkins, T. F. Spalding, Isaac Cook, J. J. Garland, George Smith, J. K. Palmer, Thomas S. Ells, John R. Livingston, Henry G. Hubbard, George W. Snow, Thomas J. King, N. F. L. Monroe, George W. Merrill, Samuel S. Lathrop and Thomas S. Hyde joined the company. These feeble steps were

preliminary to the passage of the ordinance of November 4, 1835, by which the first regular fire department of Chicago was organized. By its provisions the Department was made to consist of a chief engineer, two assistants, four fire wardens, in addition to the Town Trustees who were ex officio, Wardens. The Board

of Trustees had the power to appoint the members of the department.

Section 35 of the ordinance made it incumbent upon every dwelling-house or other building, containing one fire-place or stove to have one good painted leathern fire bucket, with the initials of the owner's name painted thereon; every building with two or more such places, The penalty for breaking this order was a fine of "\$2 for each deficient bucket, and the further

Alfabband

sum of \$1 for each month he shall neglect to provide himself with such bucket or buckets after he shall have been notified by a fire warden so to do." Everyablebodied male inhabitant possessing a bucket, who did not repair to the place of fire and work under the direction of the fire wardens or other officers of the department was liable to pay a penalty of \$2. These provisions contained in sections 35 and 36 of the ordinance, comprised the authority for the formation of the first bucket company, which was not disbanded until 1840. The only one of these old leather buckets known to be in existence hangs in the Historical rooms. Although in appearance a modest enough instrument for the extinguishment of a serious conflagration, even in its old age it looks tough and serviceable. Its general shape is that of a clown's long hat, with the picked end somewhat flattened. The handle consists of a plain leather strap, fastened to each side of the mouth by a simple iron buckle. Appearing in a scroll on the side is the

name "C. Stose," and underneath, "Relic of the Volunteer Fire Department of Chicago, used by C. Stose until the disbandment of the bucket company in 1840.

It may be that attention was called to the great necessity of some such embryonic organization as could be effected under this ordinance, by the fact that, during October, the prairie fires had been raging in alarming proximity to the limits of the town.

In September the authorities had ordered the purchase of a fire engine. It was bought of Hubbard & Co., December 10, for \$894.38, payable in two annual installments. Two days thereafter, under the fire ordinance, the "Fire Kings" (No. 1) organized. The first members whose names appeared on the roll were H. G.

H. H. Magw

Loomis, H. H. Magie, J. M. Morrison, W. H. Clarke, John Calhoun, Alvin Calhoun, W. H. Stow, C. Beers, Peter L. Updike, A. Gilbert and J. C. Walters. But the machines ordered by the corporation through Mr. Ogden were slow in arriving, and the hook and ladder company was slow in organizing. The American of December 12, accordingly, has this paragraph:

"The engine ordered by the corporation cannot arrive until next year, and no efforts are made, as we understand, to fit and man the one already in town for use on a sudden emergency. Why is

has become of the hook and ladder company?"

Before December 17, when the hook and ladder company effected an organization under the ordinance, the "boys" had been without officers. Upon that date, Hiram Hugunin, President of the Board, became chief engineer; William Jones, first assistant, and Peter L. Updike, second assistant. On the 23d, the Fire King Company reported to the Board, in addition to the same general officers of the "department," recommended by the hook and ladder company, the following names: S. G. Trowbridge, foreman of Engine Company No. 1; H. G. Loomis, treasurer; A. C. Hamilton, clerk; Ira Kimberly, steward; William Worthington, S. Lincoln, William Forsythe and W. A. Norton, fire wardens. The motto of the company was, " Pro bono publico."

The committee appointed to select a site for an engine house reported that that the County Commissioners would give them "leave to erect an engine house on the public square, on LaSalle Street, to occupy the same for and during the term of five years, without paying rent therefor." The clerk called for proposals for the erection of an engine house twelve by eighteen feet. The company, however, not wishing to be so closely confined, induced the Board to expand the limits to twenty-four by twelve feet, and to agree that it should also have a cistern "to hold two hogsheads of water, to be made of good pine lumber." On the 30th of December, 1835, Levi Blake contracted to build the engine house for \$220. Before it was fairly completed, however, and before the department was formed, Mr. Hugunin thought best to resign his position as chief engineer (February 17, 1836), and George W. Snow, of the "Pioneer," was appointed to the vacancy. The feeling had become general among the members of the department that they should be allowed to elect their own chief. Mr. Hugunin's action was occasioned more particularly by the following communication, addressed to the Board, through him :

"Mr. President,-I am directed by the chairman of the joint committee of the Engine and Hook and Ladder Company No. 1 to ask of the Honorable Corporation of the town of Chicago to grant the said companies the privilege of electing their engineer and other officers, in which the committee ask the concurrence of the Honorable President and Trustees of the Town of Chicago.

"P. PRUNNE, Secretary."

In March, 1836, Company No. 1 adopted by-laws making its officers to consist of a foreman, assistant foreman, clerk, treasurer and steward, to be elected annually. The treasurer was to keep the apparatus in good order, or be fined \$2 for each neglect; to see that all the men did their duty, enforce all the laws, and audit all bills against the company, or pay a fine of \$1 for each neglect. The fines were to be voted by the company, and any member fined by the foreman could appeal to the popular will of his fellows. The duty of the assistant foreman was, particularly, to attend to the pipe and leaders, when the engine was at fires. To the clerk and treasurer appertained the usual duties of such offices. The steward was "to provide suitable refreshments, so far as the officer in command may think reasonable." Fines were provided for members of the company who did not respond promptly to the alarm of fire. At the alarm of fire the member first arriving at the engine was entitled to the pipe of hose and in case of the absence of the foreman and assistant foreman, the member arriving second took command of the company. No other fire organizations were effected for over a

On February 9, 1837, before the city charter was in force, the department elected candidates for chief engineer and assistants. A special committee consisting

Mi & Juylor

of A. Calhoun, T. O. Davis and J. K. Botsford, on March 3, reported to the Board the following names: Chief engineer, John M. Turner; first assistant, Jeremiah Price; second assistant, P. F. W. Peck. The Board approved the department's choice of chief engineer, made February 9, but sent back the names of the assistants, with a request that they report other names, to be taken from each of the other districts of the town. The report of Hook and Ladder Company No. 1, from their secretary, George W. Merrill, was presented and accepted. It announced the following individuals as officers and members of the company: John M. Turner, foreman; J. K. Botsford, assistant;

John L. Wilson

S. B. Cobb, secretary; S. F. Spaulding, steward; John L. Wilson, J. Meeker, W. H. Taylor, W. Osborne, E. C. Brockett, Joseph L. Hanson, Grant Goodrich, Charles Adams, Charles Cleaver, P. F. W. Peck, James A. Smith, J. McCord, S. J. Sherwood, Isaac Cook and Tuthill King.

John Calhoun, clerk of Engine Company No. 1, reported that at the annual election, held on the first Monday of December, 1836, the following officers were chosen: Alvin Calhoun, foreman; Thomas O. Davis, first assistant; John Calhoun, clerk; A. C. Hamilton, treasurer; John Rice, steward. In April, however, N.

R. Norton and David Cox were confirmed, as first and second assistant engineers of Engine and Hook and Ladder companies No. 1, in other words of the Fire Department.

Under the provisions of the charter, passed March 4, 1837, the Council were given power to organize fire companies, and were named as Fire Wardens, with power to appoint others. The Chief Engineer and two assistants were to be chosen annually thereafter. In May an ordinance was passed making more stringent regulations in regard to the prevention of fires, and defining more in detail the duties of the members of the department. The four Wardens were required, under

Lutter Nichols

the direction of the Council, to see that the new regulations were enforced. In the fall a Rochester engine was purchased for \$775, and the Hook and Ladder Company was fitted up anew. A second company, the "Tradesmen's," was organized December 4, 1837. Its name was afterward changed to the "Metamora," and its headquarters was on Lake Street, east of the river. In December, Alexander Loyd was chosen Chief Engineer; S. J. Lowe, first assistant. They continued in office until 1839, when Alvin Calhoun became Chief Engineer and Isaac Cook assistant. The next year Luther Nichols was elected Chief, but there was no further increase of the organizations until in September,

J. S. Lowe.

1841, when the Chicago Bag and Fire Guard Company (afterward better known as the "Forty Thieves") was formed. With canvas bag, cord and wrench they fought fires, rescued and guarded property, and gave delightful "socials" for five years.

October 27, 1839, the department fought one large fire that broke out on Lake Street, extending west to B. W. Raymond's brick store, and east to the corner of Lake and Dearborn, consuming the Tremont House. Eighteen buildings were laid in ruins. The loss was about \$60,000.

A. S. Sherman acted as Chief from 1841 to 1844. On September 7 of the former year, Bucket Company No. 1, "Neptune," was organized. Its original members were twenty-five in number, its headquarters on the river at the foot of La Salle Street, and there were one hundred and sixty buckets. "Neptune" was provided with a carriage, was neatly uniformed, and admitted into the department in October. F. T. Sherman was its first foreman. In November, 1846, "Neptune" gave up the ghost, and her members breathed the breath of life into the "Red Jackets," a company famous in the annals of the volunteer department for twelve years thereafter. "Neptune's" uniform was a red jacket, white belt and cap.

Engine Company No. 3, "Osceolo," afterward called "Niagara," was organized November 21, 1844. It was at first stationed at the foot of North Dearborn Street, and subsequently removed to the corner of Kinzie and North Wells. G. F. Foster was chosen foreman and W. M. Larrabee, assistant. No 3 was known

as the "kid-glove company," because its members were drawn from the very best material which the North Side afforded. No company was braver, more intelligent or more respected. The "Red Jackets" No. 4' had not yet made their appearance to contest the field with No. 1, the "Fire Kings." But when No. 3 had organized and procured their engine, at the first fire which they attended, they had the supreme joy of being stationed next to the river, and pumped with such vigor into the hose of No. 1 that the latter's machine was in-undated—" washed " clean.

From 1844 to 1847 Stephen F. Gale acted as Chief.

Arption It Sale

Philadelphia Hose Company No. 1 was organized in January, 1845, its headquarters being on the North Side, near Clark-street bridge. Jacob B. Johnson was foreman.

In March, 1846, the Council was requested to disband the Chicago Fire Guards bucket company), as it was thought they were no longer necessary. This was done, and they were assigned to other companies.

As previously noticed, on November 13, 1846, the members of "Neptune" Bucket Company No. 1 combined to form Engine Company No. 4, the "Red Jackets." From the start they worked to win success, and won it. They had worthy rivals to contend with in Nos. 1 and 3, and were especially anxious to triumph in some decisive way, over the former. The headquarters of No. 4 were at the foot of Clark Street, near the bridge; and they were furnished with an old goose-neck engine which had been used by the "Fire Kings." They were afterward transferred to new quarters on the southeast corner of Washington and LaSalle. In May, 1852, the "Red Jackets" were made happy by a fine "piano" engine, Therefter the contests with No. 1 were carried on under more favorable auspices. The following extract from the Fireman's Journal of July 3, 1880, gives a few incidents illustrating the rivalry between No. 1 and No. 4; also of the latter's great triumph in New York:

Once when it was nip and tuck between the "Fire Kings" and "Red Jackets" for the supremacy, a bet was made by the respective foreman. They bet an oyster supper for the two companies, each that his own engine would be first to reach the spot wherever the next fire was. The time soon came, and it caught No. I napping. A "still" was given the Red Jackets, and away they went for the locality designated. With muffled bells they hurried along the sidewalks, and as they ran, nowhere could they discern their rivals. Unfortunately they were compelled to pass Bradley's house, and just when they were in front of the place the sidewalk gave way, and the engine broke through. The sudden wrench loosened a muffler, one of the bells sounded its unwelcome warning. Bradley heard the sound, and in another moment, half dressed, and hardly awake, was on his way for No. I's house. Bu No. 4 beat them for all that, and after the fire had been put out the two companies went down to the St. Charles and ate oysters till they couldn't eat any more.

Subsequently No. 1 gave No. 4 a beating. There was a fire in the neighborhood of Fifteenth Street, on the South Side. They started about even from Washington Street, with the "Fire Kings" having much the best of it all the way up town. Coming home, No. 4 took the sidewalk on State, and No. 1 the walk on Clark Street. It was a lively run. As one company crossed each intersecting street a glance to the right or left revealed their rivals on equal terms with them. Each company was endeavoring to reach first the corner of Washington Street. When No. 4 dashed across Madison they could see nothing of No. 1. They had crossed Monroe together, and No. 4 could not understand how it was the

others had so soon disappeared. But when they reached Washington Street corner, to their grief and astonishment, they were greeted with a terrible shout from No. 1's boys, who had already reached the goal. Soon afterward it was discovered, however, that only a portion of No. 1 Engine had reached Washington Street. Just after the "Fire King" had crossed Monroe, the king-pin broke, and the heavier part of the machine dropped upon the walk. Determined not to be defeated, the boys kept on with the front wheels, and easily reached the corner in advance of their competitors. Only a short time previous to the big fire of 1871, in front of the Little Giant (steamer) engine-house on Dearborn Street, while some of the boys were relating certain things which happened in the past, spoke one of the crowd: "Well, there is one thing I wish had never happened. I wish we had never had that row at the Rock Island depot. It was all well enough at the time, and I ain't going to say No. 1 boys didn't get their dues." The fight was one of the most desperate in the history of the Chicago department. The old feeling toward "Fire King" No. 1 had broken out badly among No. 4's boys, and when all came together at the big fire above Twelfth Street, there were a few old heads who scented a coming battle. Only a few minutes later and the rival companies were at each other with all their freceness. Spanners were freely used, and many a fellow's head was swelled that night. The battle was with the strong, and they were the "Red Jackets." They not only whipped the "Fire Kings," but they captured the engine and they "truet the engine and the true and the true and the true and the true and the engine and the true and the engine

who scented a coming battle. Only a few minutes later and the rival companies were at each other with all theit fiercreness. Spanners were freely used, and many a fellow's head was swelled that night. They not only whipped the "Fire Kings," but they captured the engine and they "just turned her over "in the ditch. Sometime in 1852 "Red Jacket' went East. There was to be a grand tournament in Providence, R. I., and they were desirous to win first prize. On their arrival in New York City the "Red Jackets" learned that the tournament was postponed. In no hurry to return they remained in New York one week, the guest of the "Live Oaks," U. P. Harris, who was Chief at the time, was of the party. The result was they received an invitation from the New York chief to show their skill in competing with some of the crack engines of that city. The afternoon of their debut before a New York audience arrived, and the "Red Jackets" were in fine spirits, thousands of persons had assembled in and around the spirits, thousands of persons had assembled in and around the city hall park to witness the skill of the Western company. Only a very few of the spectators had ever heard of such an engine, and it was considered absurd to attempt to beat New York's crack organizations. In the park there was a pole, it is forgotten how many feet in height. At the summit was a figure of Justice with her scales in hand. There was never an engine company in New York that could force a stream as high as those scales. Presently it came to the turn of the Chicago company. Three of the New York engines had tried and failed to throw a stream to the feet of Justice. Eighty "Red Jackets" were on the brakes, whose determination, individually and collectively, was to win a victory. When everything was in readiness "U. P." made them a speech, it are breakes against the lift than 6.11. in substance saying that if they failed never again would he recognize them as Chicagoans. Charley Moore, with trumpet in hand, stood midway of the pipe and the engine. The crowd was quiet, almost painfully still. "Play away!" The brakes came up, then down, faster and faster, not a misstroke or a hit. Soon the lead of hose is stretched, then the stream is seen to leave the nozzle. ward and upward it climbs toward the gilded figure The people begin to shout, and Eastern firemen were fast realizing that the Western men were mighty. "Down on her, 'Red Jackets,'" Western men were mighty. Western men were mighty. "Down on her, 'Red Jackets,'" shouted Charley Moore, and the strokes grew faster and more furious. Then Chieftain Harris seized the trumpet and with one of his well-remembered shouts, he yelled: "Work for your lives, you Red Jacketed sons of Chicago," and with that there was renewed vigor imparted to the men. Already the stream had reached the feet of Justice. A few more strokes and water would be where it feet of Justice. A few more strokes and water would be where it had never been before. Jack McLain and Robert Brown, of Utica, held the pipe, the nozzle pointing at the apex of the staff. Then there was a grand shout from many mouths. It grew louder untilit was heard from all parts of the park. The New York laddies took it up, and helped to swell the volume of sound. For the stream had not only reached the scales, but it had ascended even higher. A few moments later the "Red Jackets" were receiving numerous congratulations, nor were they permitted to drag home their engine. That was done by New Vorkers who had witnessed the triumph of a comparatively unknown engine company.

Excelsior Engine Company No. 5 was organized in November, 1846; headquarters on Clinton Street, between Randolph and Washington; A. S. Sherman, foreman.

In 1855 the first steam fire engine was brought from Cincinnati and given a trial. A special committee had been sent to that city to examine into the excellencies of "the machines." The Chicago firemen were hospitably entertained, and an engine, the "Joe Ross,"

was fired up, but the engineer was so careless that the boiler burst and he was instantly killed A second trial was entirely successful. Subsequently a trial was arranged between the steamer sent to Chicago and the hand engines of the department. The result was that

AN EARLY STEAMER.

No. 2, No. 8 and No. 10 beat the interloper. No. 10's horizontal stream was greater than either of her competitors, while her perpendicular attempt was equal to that of the "Fire King." The steamer did not give satisfaction and was subsequently sold to the city of St. Louis.

"Rough-and-Ready" Bucket Company No. 1 was formed in January, 1847; Charles Harpell, foreman.

Because of the numerous incendiary fires which occurred in October, 1847, especially in the vicinity of the lumber and ship yards, a special committee of the Council was directed to take into consideration the expediency of passing an ordinance to prevent the establishment of planing factories, lumber yards and other dangerous mercantile business in thickly settled portions of the city. Two years thereafter (October, 1849) an ordinance was passed to "prevent the erection of wooden buildings within the following limits: South of the center of the Chicago River, and east of the center of the South Branch thereof, and north of Randolph and west of Wabash." Buildings used for warehouse purposes upon the so-called "wharfing privileges" were not subject to the provisions of this ordinance.

In October, 1847, was formed the Firemen's Benevo-lent Association; S. F. Gale, president.

In March, 1848, the friends of Mr. Gale, to whose efficiency and zeal much of the good standing of the department was due, urged him to allow his name to be used as a candidate for the position of Chief. This was done, but, on account of ill health, he was obliged to withdraw, and the following ticket was elected: Charles E. Peck, Chief; Charles M. Gray, first assistant; James H. Rees, second assistant. Mr. Peck served from 1847 to 1849. During his administration—in March, 1848-"Hope" Hose Company No. 2 commenced its brilliant career. Says the Fireman's Journal:

"Hope" was always the brag company, not only of Chicago, but of the West. In St. Louis, "Tiger" No. 4; in Alton, "Dolphin" No. 4; in Springfield, "Young America" No. 1, and in Keokuk, "Liberty," were the crack hose companies of these cities. But they could never be induced to meet "Hope" boys. Not only ween the Chicago, expensely, the quiffent of foot the factor in ly was the Chicago company the swiftest of foot, the fastest in making a coupling, the speediest in affixing the pipe, and the handiest in working at fires, but they were thoroughly imbued with the idea that only by strict discipline could they maintain their supremacy. The strictest rules were laid down, and he who neglect-

ed these was unceremoniously expelled. The members were in sympathy with each other only so far as they strove to perpetuate the good name of their society. Having tired of the old cart purchased for them by the city, they raised a large sum of money and secured in Philadelphia probably the finest hose carriage ever manufactured. She was a beauty-enriched with pure silver mountings; her woodwork polished to perfection; her reel was the admiration of every beholder. She was the pride of every member's heart, and the outsider who was permitted to look upon her charms was considered a favored being. was considered a favored being. So highly was she prized, that it was but seldom the laddies trolled her to fires. She was used oftenest on State occasions—such as parades and annual reviews. Previous to her making an appearance the boys arranged her for inspection. You could see your face in the woodwork, while the silver shone almost as brightly as the noonday sun. The flaxen rope was so clean that white kid gloves were not soiled while grasping it; and the sweet-sounding bells with which she was adorned, how they struck chords in the souls of the hose-men; neither piano nor violin were so musical as were those bells, which rang so blithely with every move of the pride of No. 2. Occasionally there was something the matter with their every-day cart, and then "Hope" boys were obliged to run out their darling. It is something singular, but nevertheless a fact, that almost every time the boys went anywhere with their silver carriage she got upset. If it were muddy, then her appearance was anything but pleasing; and, until she had been cleaned and brightened up, not one of the company was The company remained in service until the fall of 1860, when the cart was sold to a company in Michigan. The greatest achievement of "Hope" Hose was when she ran five hundred yards and made connection with three hundred feet of hose in one minute and seven seconds, or the second best time on record. For a long time "Hope" boys occupied a house at the corner of Franklin and Washington streets; but they afterwards gave up the place to "Illinois" No. 3, and made their own quarters in No. 4 engine house on La Salle Street, in the rear of the Baptist church.

The Legislature of Illinois passed an act February 10, 1849, exempting the firemen of Chicago from working out any street or road tax, or from paying any money in lieu thereof. "Protector" Engine Company No. 6 was organized in August, 1849, while Ashley Gilbert was Chief. Mr. Gilbert was succeeded the next year by Cyrus P. Bradley, who remained in office for two terms.

At a meeting of the Council held August 1, 1850, the fire limits of the city were extended "so as to include the district east of the South Branch of the Chicago River and west of State Street, north of the alley running between Randolph and Washington streets."

The Firemen's festival of October, 1850, was a grand affair for the boys who "run the machines" here. There were twenty-three companies in line, representatives being present from Buffalo, Detroit, Milwaukee, Racine and Kenosha. The hospitalities of the city were tendered by Alderman Page, who had been an honored member of the "fraternity" for ten years. The dinner was at the Tremont. Among the organizations which received a great share of the admiration were "Lafayette" Engine Company No. 4 of Detroit, "Ocean" Fire Company and Supply Hose Company,
"Milwaukee," of the Cream City. The attempt to successfully engineer a torch-light procession in the evening, however, was a failure on account of the windy condition of the atmosphere. "Lawrence" Engine Company No. 7 was organized in September, 1850, and re-organized as the "Eagle," in 1852. In December, 1851, a third hose company was formed, called the "Lone Star," afterward, the "Illinois."

"Phœnix" Engine Company No. 8, organized December 22, 1851, was changed to "Cataract" in October, 1853. The company was composed principally of sailors, and consequently could not be depended upon during the season of navigation. "Illinois" Hose No. 3 was formed the next day. No further organizations were effected until February, 1854, when the "New England," subsequently known as the "America" No. 9, sprang into being. From 1852 until 1854 two terms

U. P. Harris was Chief, being succeeded by J. M. Donnelly, who served but one term in 1854. In January, 1855, was formed "Washington" Engine Company No. 10. An ordinance was passed by the Council July 23, 1855, dividing the city into six fire districts: No. 1, South Division, north of Madison Street; No. 2, South Division, south of Madison; No. 3, West Division, south of Randolph; No. 4, West Division, north of Randolph; No. 5, North Division, west of Clark; No. 6, North Division, east of Clark. Eight strokes of the bell constituted the alarm, the additional strokes indicating the number of the district. At this time the alarms of fire were sounded from the First Baptist church, which had a powerful bell. In February, 1855, the large bell was hung in the tower of the new court-house, and the honor of possessing the town fire alarm was transferred to that structure soon afterwards. A watchman was also continually on duty there to fling out his flags by day or his lanterns by night, in order to direct the firemen to the locality in which he had discovered the flames.

Silas McBride was Chief for three terms, 1855, 1856 and 1857. He was a great favorite with the department, and during his incumbency many new organizations were formed. In September, 1855, "Lafayette" Hose No. 4, "Hope's" worthy rival, was organized and stationed at the corner of Clinton and Washington streets; in November came "Rescue" Hook and Ladder No. 2; "Neptune" No. 11, "Wide Awake" No. 12, and "Torrent" No. 13, in January and February, 1856; "Lady Washington" Hose No. 5 and "Liberty" Hose No. 6, in January, 1857, and in March of the same year, "Empire" Hook and Ladder No. 3. On March 2, 1857, occurred one of the most destructive fires heretofore experienced. It originated in the fivestory brick block corner of South Water and State streets, occupied by Hale's Chair Factory, and Dix & Harris, wholesale grocers. This was destroyed with the adjoining store west, occupied by Tuttle, Hibbard & Co., wholesale hardware dealers, and Jewett, Root & Co., a stove warehouse firm. The east wall of the first-named structure fell and crushed Mrs. James Carney's dwelling-house, the family narrowly escaping with their lives. O'Neill's Brewery, in the rear, was also somewhat damaged. The loss by this fire is covered by the first annual report of the department from March 1, 1856, to May 1, 1857. The entire loss by fire for that period was \$553,000; insurance, \$385,100. Ten engines were reported in good condition; three in ordinary repairs, and two in process of building; also six good hose carriages, connected with engines, and six more supply hose-carts. There were ten thousand feet of hose in use. The last contest of a purely volunteer department took place at the county fair October 12, 1857. The Cook County Agricultural Society had offered a \$200-silver trumpet to the engine which should throw a horizontal steam of water, through five hundred feet of hose, the longest distance. The contest was exciting, and No. 7 (J. M. Reis, foreman) triumphed, the engine throwing the stream to a distance of over two hundred feet. Nos. 3 and 4 burst their hose, and Nos. 6 and 10 their air-chambers. As the reader will soon see, the effects of this contest were seriously felt by the city.

A GREAT CONFLAGRATION.—Up to the year 1858, the most destructive fire which Chicago had suffered occurred October 19, 1857. It entailed upon the city not only a great loss of property, but a distressing loss of life. The fire originated in a large brick store, Nos. 109 and 111 South Water Street. Though reports and

rumors as to the origin of the conflagration are conflicting, the weight of testimony goes to show that in a room in the second story of the building four abandoned men and women were indulging in a drunken carousal, and one of their number overturned a lamp. The flames spread rapidly in all directions, and in a very short time the occupants of the building, among whom were other men and women of ill fame, were pouring out of their disgraceful haunts. Some escaped to the street, others leaped from the windows to adjacent buildings, and thence reached the ground. So far as is known, no lives were lost in this locality. The scarcity of the water supply, and the inability of the Fire Department, made the progress of the flames a complete triumphal march, and it was not long before some of the finest and most costly business edifices in the city were heaps of ruins. Nearly half a million dollars' worth of property was destroyed, and twentythree lives were lost. Early in the morning, John B. Dickey, foreman of "Liberty" Hose Company No. 6, was in the act of getting a new lead of hose to bear upon Edward Hempstead's wholesale grocery building, on South Water Street, when the rear and side walls of the structure fell, instantly killing the unfortunate fireman. Shortly after this accident, a terrible casualty occurred on Lake Street, by which several lives were lost, and which caused the greatest consternation. A large number of persons were engaged in removing dry goods from the four-story brick store occupied by Mr. Barnum, when suddenly the roof and upper floors came down with a terrible crash, burying some twenty men beneath the ruins; and, a moment after, a portion of the side walls also fell in, adding still more to the horror of the scene. Instantly the most intense excitement prevailed, and the people rushed wildly around the burning building, in the vain effort to save, if possible, the lives of those beneath the ruins. The fire was so intensely hot that no one could enter the building. As soon as practicable, streams were brought to bear, and after a short time a crowd of men rushed in and began to search for the bodies among the hot bricks and burning rubbish. This was a work of great danger, as the walls on either side were tottering and liable to fall any moment; and indeed, when they did come down, many persons had a narrow escape from being buried with those for whom they were searching. The dangerous portions of the walls left standing by the fire were thrown down by means of ropes passed across them, and the work of rescuing the bodies was systematically commenced. Before dark the bodies of the following had been recovered: Timothy Buckley, member of Hook and Ladder Company No. 1; Auguste Wolf, Hook and Ladder Company No. 3; E. R. Clark, of the firm of Clark & Metz, stove and tinware dealers; Dudley C. White, employed in Joseph Fisk & Co.'s hardware store; John Tar, gas-fitter, with Gerould & Co., Jean Jungers; H. S. Bradley, jeweler. The bodies, as fast as recovered from the ruins, were carried to the grand-jury room in the court-house. Coroner Hansen at once summoned a jury of inquest, and the following additional bodies were identified: Marcus D. Grants, of Lady Washington Hose Company No. 5; Matthias Marsh, clerk with Beckwith & Co.; John A. Raymond; D. C. Emerson, a painter; Ezra H. Barnum, of the firm Barnum Bros.; John High, retired merchant; Lawrence Griebel, sailor; John Keegan; Alfred H. P. Corning, clerk with Merchants' Loan and Trust Co., cousin of Erastus Corning, of Albany, N. Y.; Abram Bogart, foreman for Campbell & Co., silver platers. On the evening of the 20th, the various officers of the Fire Department met at the Comptroller's office, to make arrangements for the burial of their dead comrades. The obsequies were fittingly observed on the 21st.

The testimony adduced at the Coroner's inquest proved the utter helplessness of the Fire Department, as then organized, to cope with a wide-spread conflagration. It brought out the fact that the two engines Nos. 6 and 10, were out of order and did not work. While competing at the fair for the \$200-silver trumpet they were broken. Besides having burst considerable hose at the fair ground, which had not been replaced, about five hundred feet of it had been taken away and left. On the morning of the fire the Chief sent an express wagon for it, but it came too late to be of any essential service. The immense amount of property lost by the unorganized exertions of those who even were attempting to save goods, as well as the impossibility of protecting valuables from thieves, induced the business men and insurance companies to form at once a "fire brigade." The movement was inaugurated by E. E. Ellsworth, who suggested that the brigade consist of one hundred picked men, invested with police powers, and divided into companies and squads, commanded by captain, lieutenants and sergeants. The brigade was to be provided with a carriage for carrying one fire escape apparatus, six ladders, one hundred fire axes, etc. The officers were to have general supervision of the men at work in removing property from buildings, and were required to set a good example of coolness and presence of mind. They were to prevent to the greatest possible extent all hurry and confusion, to select the most valuable goods for removal first, and, in the language of Mr. Ellsworth, "see that the men work in concert, and do not occupy themselves in removing coal, old iron, stone flooring, etc., when anything more valuable is to be found; and take especial pains to prevent the destruction of furniture, as it is not considered good policy to throw mirrors from the fourth story windows, or like Doesticks's hero, knock pianos to pieces in order to save the castors." An organization was accordingly effected and gentlemen were appointed to canvass each of the six fire districts in the city for subscriptions. November 19, a constitution was adopted, christening the association as the "Citizens' Fire Brigade of Chicago, Ill." The officers selected were as follows: President and captain, Arthur C. Ducat; L. K. Sanborn, S. B. Raymond and Henry Bandt, vicepresidents and lieutenants; secretary, Grafton Fenno; treasurer, W. G. Hibbard; finance committee, Charles H. Hunt, Frederick Fisher, H. G. Williams, F. W. Wadsworth and J. B. Shay. Among the original members of the brigade were, H. O. Smith, L. S. Burton, Shaw Williams, J. W. Davis, H. N. May, G. W. Gardner, S. B. Raymond and William Thompson. The brigade was not long lived.

"Red Jacket" No. 4 and "Red Rover" No. 14 at this time, came in for a large share of public censure, the former being generally suspected of having burned down their engine house in the fall of 1857. According to the report made by the committee on fire and water, in November of that year, No. 14 is represented "as being composed of a very inferior class of beings, all more or less being given to intoxication and guilty of rowdyism generally." The question of dishanding these companies, which was demanded by many citizens, was left with the Mayor. And there was a serious cause of complaint against the system which was made by citizens as a body, whether they were firemen or not. The Department had become to some

extent a harbor of refuge for idlers from distant cities—a sort of hospital for the encouragement of laziness. In the words of the committee, "there appears to be too many outsiders, as they are termed; men and boys coming from other cities to this, who either cannot or do not seek for employment. Consequently the first step they take is to run with the machine. The present arrangement in our city provides for them at least a sleeping place for the night, if nothing more." It was suggested that the Chief Engineer and his assistants make a thorough examination, throughout all companies, and whenever they found anybody "so infringing upon the rights of our firemen" to arrest him, have him brought before a proper tribunal and justly punished. Another difficulty to be overcome, if possible, was the excessive use of free whisky in times of fire.

Previous to 1858 it had been customary for the firemen to meet in convention and nominate candidates to be supported by the people. The Chief called the meeting. Accordingly, on January 26, the usual call appeared for a convention to be held on the 28th. As the firemen considered that longer notice should be given, they requested the Chief to postpone the convention for a week or ten days. This Mr. McBride refused to do, and the firemen accordingly assembled, on the day named, at the South Side Market Hall. There

I Domeiie

were three candidates in the field, D. J. Swenie, Peter Casey, the then assistant, and John Egan, foreman of No. 4. Some of Mr. Swenie's friends charged that Companies Nos. 4 and 14 (Egan's warmest supporters) had brought a large number of non-members to vote their favorites into office. A resolution which was introduced to prevent anyone from voting who could not show a badge, created a great uproar and resulted in many of the companies leaving the hall. The "bolters" adjourned to Dearborn Park, and resolved to meet at North Market Hall the next day. In the meantime those who had remained had chosen Egan as their standard-bearer, but the Chief declared the election informal. Mr. Egan attempted to effect a compromise with the Swenie (or paid department) element, by offering to resign in favor of U. P. Harris. Mr. Swenie refused to do so, as he said he had already solicited Mr. Harris to become a candidate, without success. day therefore, at North Market Hall, Mr. Swenie's friends met and nominated him, with L. Walters for first assistant and M. W. Powell second assistant. February 11, John Egan was formally nominated to head a second ticket; John Shank, first assistant; Jacob Held, second assistant. The Swenie ticket was elected.

The first steam fire-engine which was retained by the city was the "Long John." It was tested at the foot of South LaSalle Street on February 5, 1858, and approved by experts and the city generally. The boys of the volunteer department saw in its every puff a death blow to their own system. None of them will deny even at this late day that they felt, and acted, "ugly." After Mr. Swenie had been chosen engineer in March, the feeling reached such a height that it seemed, for a time, as though it would culminate in a riot. On the 6th of that month Engine Companies No. 4, 10 and 14, Hose

Companies No. 3 and 5 and Hook and Ladder No. 3 met on Clark Street. After forming in line they marched down that thoroughfare, headed by the Great Western Band, and traversing the principal streets of the city, marched into the court-house square. A large crowd had collected there, and were becoming more and more

THE "LONG JOHN" FIRE ENGINE.

excited. Fearing a disturbance, the Mayor dispatched an extra force of two hundred policemen. He ordered the arrest of the firemen for disorderly conduct, and they fled, abandoning their machines to the city. No. 14 only partially owned its engine, and when the proceedings of the volunteer department were thus informally broken into by the representatives of the law, her boys ran off with their machine to the Central depot, intending to ship it East to the maker, "to whom they are in-debted for it," spitefully says the Tribune. Some dozen arrests were made, but the prisoners were afterwards released by order of the Mayor. The police took the engines to the Armory and locked them up, arrangements being made with special policemen to man them in case of fire. Four horses were provided for the use of the new steam fire engine. A police force was placed in the different engine and hose houses to protect them, should any demonstration be made against the new regime. No further trouble occurred however. The organizations which took part in the procession were disbanded by the Council, March 22, 1858, which action may be called the beginning of the death of the old volunteer department.

On August 2, 1858, the Council passed the ordinance organizing the paid department. December 4, 1858, "Northern Liberty" Engine Company No. 15 was created, and was the last of the volunteer engine companies. The headquarters were on the corner of Larrabee Street and North Avenue. The first foreman was Conrad Folz.

The last two hose companies to organize in the volunteer department, in fact the last organizations to be effected, were, "Northern," No. 7 and "Union," No. 8. They were both formed in February, 1859, and disbanded in 1862.

FIRE COMPANY SKETCHES.—The original members of "Pioneer" Hook and Ladder No. 1 signed their names to the roll, October 7, 1835. They have already been given; also those who joined the company up to the time it was regularly organized, under the or-dinance of November, 1835. During the fifteen succeeding years more than seventy citizens entered its ranks. The following names and those of other companies) are taken from the several old records, as the lists which have heretofore appeared in print are unreliable: Grant Goodrich, William Osborne, W. H. Taylor, Charles Cleaver, S. J. Sherwood, Starr Foot, J. Price, J. W. Hooker, A. Peck, Benjamin W. Raymond, T. Whitlock, T. Church, B. Briggs, S. P. Warner, A. C. Wood, O. Sherman, H. O. Stone, J. Campbell, T. B. Carter, Alexander Loyd, J. Wadsworth, L. B. Goodsell, S. Sawyer, W. King, N. Sherman, Jr., J. M. Underwood, Darius Knights, George Collins, C. M. Gray, T. King,

## 1) Sherman

J. Keen, J. S. Root, J. H. Rochester, P. C. Sheldon, C. N. Holden, S. M. Davis, A. D. Sturtevant, A. Bent, J. D. Davis, H. Witbeck, R. P. Hamilton, L. M. Boyce, J. M. Adsit, S. B. Collins, A. G. Downs, A. E. Fuller, E. W. Herrick, E. Bestwick, S. W. Peck, J. B. Jackson, T. W. Goodrich, J. S. Vanduser, W. H. Cheeseman, I. L. Milliken, S. J. Surdam, W. Lock, George Smith, G. M. Rogers, C. Adams, J. H. Reed, J. H. Kinzie, R. Freeman, G. G. Randolph and J. Brooks. Hook and Ladder No. 1 did good service until the disbandment of the volunteer department. John M. Turner, J. W.

Hooker, C. M. Gray, George Collins, Darius Knights, Charles Burley, B. W. Seaton, and Charles E. Provost were foremen. When disbanded, in 1859, the company was using a truck built in 1856, and consisted of about thirty-five men. The house was located on La Salle Street, between Madison and Washington.

Engine Company No. 1, the first, and in many respects the best, of the volunteer companies, was organized December 12, 1835. Its first foreman was S. G. Trowbridge. A. Gilbert, Cyrus P. Bradley and J. M. Donnelly, foremen of this company at different times, were afterwards Chiefs of the Department. Alvin Calhoun, on the other hand, who served as Chief in 1839, six years later held the position of foreman of No. 1 with almost as much pride. Asher Rossiter, James J. Langdon and F. A. Bragg also held the position of foremen. As its motto indicated, No. 1 worked for the "public good" for many years. The company was not disbanded until February, 1860. Its engine house was then on Dearborn Street, between Washington and Randolph, and the organization went out of the department about eighty strong. Among the earliest members of No. 1, in addition to those given in the general sketch of the Department, were: S. G. Trowbridge, E. Morrison, Joel Wicks, H. B. Clarke, John S. C. Hogan, W. A. Neff, T. O. Davis, Peter Pruyne, Ira Kimberly, M. B. Beaubien, A. V. Knickerbocker, Seth W. Paine, Ebenezer Peck, H. C. Pearsons, George Davis, J. C. Hamilton, Luther Nichols, E. B. Hurlbut, A. G. Burley, A. Rossiter, C. E. Peck, Isaac Cook, C. P. Bradley and N. Sturtevant. There were also in the ranks, at a later period, their service in some cases stretching over many years, H. H. Vates, J. Beecher, Peter Page, G. Randolph, C. P. Albee, C. Skinner, G. R. Bills, J. W. Steele,

A. Loomis, N. C. Walton, J. Harmon, P. P. Chapin, E. Bowen, D. D. Stanton, D. M. Wooster, T. D. Grey, G. W. Fish, S. James, C. G. Carpenter, Thomas Smith, Prentiss Law, William R. Green, E. P. Groom, G. A. Robb, E. W. Newhall, W. Butz, J. L. Howe, J. Volf, W. Keith, A. Spencer, J. Martindale, A. Ferguson, M. Hubbard, B. Benton, R. P. Hamilton, W. L. White, O. C. Moody, H. Pike, W. M. Butler, H. Warner, George Stephens, G. C. Wicker, P. Myer, P. Canfield, S. S. Durfee, W. W. Jackson, J. Tiffany, H. Rodcap, J. Rosenberg, S. H. Jennings, J. E. Weber, G. F. White, Charles Wood, R. Bell, A. Stow, J. G. Patterson, A. Crawford, William Carson, V. A. Boyer, M. Shapley, H. McGraw, A. F. Bradley, P. Casey, S. J. Noble, H. H. Lubbeker, F. Lubbeker, C. Chovin, C. Baldwin,

Martin Hale, C. Dole and J. McDonald.

"Metamora" Engine Company No. 2 was organized December 4, 1837. Among its original members were Nat King, A. S. Bates, P. Graff, A. G. Hobbie, T. E. Tucker, C. Sauter, J. Cruver, A. D. Sturtevant, S. B. Collins, S. Johnson, J. Sauter, F. E. Seybold, F. Rose, Ira Coleman, E. H. Sammons, C. Buhl, A. S. Sherman, E. A. Rider, B. W. Raymond and George L. Campbell. Mr. Rider was its first foreman. The "Metamora" retained its organization until 1859, the last diplomas being issued in April of that year: Sanford Johnson, A. S. Sherman and John T. Edwards will be remembered as among its best foremen. J. L. Gerber and J. L. Wagonberger served for several years previous to the disbanding of the company. Among other early members were: S. Lind, J. Martindale, George Collins, Thomas Melvin, A. Batz, A. Pierce, G. R. Bills, John Waite, S. S. Hovey, C. Mann, Loomis Andrews, J. E. Keisling, Henry Gekler, William Crawford, A. Scongale, A. G. Downs, J. W. Kraff, J. W. Steele, Chris. Hoffman, S. S.

I Lind

Barry, S. Burton, Joseph Berg, S. S. Robinson, J. C. Brantigan, A. Burnham, P. L. Yoe, B. Blazey, O. F. Geer, J. Letz, John Hettinger, J. A. M. Hoisington, Charles Hoag, Fred Letz, J. F. Jewett, I. Shaw, S. N. Stebbins, Z. Martin, J. Hogan, H. R. Davis, C. V. Ware, J. W. Poulton, Joseph Purdy, E. J. Van Alstien, C. Charleston, J. T. Edwards, L. Jackson, J. H. Martin, B. G. Johnson, B. W. Brunker, H. Webber, W. H. Adams, William Blank, William Wetsell, George Peterman, George R. Roberts, M. Schram, G. M. Vandercook, J. H. Toogood, C. Arnold, W. Dunn, P. Groll, G. Vandercook, Lewis Haas, Fred Sween, Casper Lauer, A. Kroeger, P. Apfel, M. Schaub, J. Thomme, Fritz Muhlhausen, J. R. Thomas, M. Moran, D. Leonard, J. M.

Hannahs, A. Woods and J. Schank.

The Chicago Bag and Fire Guard was organized in September, 1841, and was disbanded in July, 1846. Among its foremen were G. A. Robb and L. M. Boyce. Mr. Boyce was the last to hold the position and was among the original members of the so-called "Forty Thieves." The duties of the company were similar to those of the Citizen's Fire Brigade, formed after the disastrous fire of 1857. The names of the famous "forty" were as follows: L. M. Boyce, D. S. Lee, W. H. Adams, J. C. Haines, L. P. Hillard, J. Goss, J. B. Mitchell, W. Dunlop, W. M. Larrabee, Ira Couch, J. B. Wier, F. A. Howe, J. W. Strail, J. H. Rees, George Raymond, A. Follansbee, C. N. Holden, E. I. Tinkham, A. H. Burley, Sol. Taylor, A. McClure, T. P. Robb, H. M. Stow, S. J. Surdam, H. W. Bigelow, R. P. Hamilton,

Thomas George, A. E. Fuller, P. C. Sheldon, I. S. Harbley, E. K. Rogers, C. R. Vandercook, E. G. Hall, J. C.

Hodge, W. S. Newberry, J. H. Burch, J. E. Davis, J. H. Dunham, E. Emerson and Luther Nichols.

"Neptune" Bucket Company No. 1 was organized September 7, 1841, with F. T. Sherman, foreman; W. J. Hamilton, assistant; S. J. Lowe, William H. Jones and S. Woodworth were also foremen. Among its leading members were: F. T. Sherman, Charles Whitlock, Charles Hodgson, B. Sammons, W. H. Jones, J. K. Murphy, D. N. Chappell, G. H. Laflin, Ed. Sherman, F. W. Getzler, W. J. Hamilton, C. D. Grannis, James Woodbury, H. B. Payne, W. H. Wachter, W. H. Green, O. F. Lowe, G. W. Beecher, W. J. Thompson, C. C. P. Holden, Jerome Butler, J. J. Clarkson, Joel A. Kinney, B. F. Wells, C. H. Getzler, Philip Fry, J. F. Gunter, Sam Lowe, James Doyle, H. Woodbury, W. F. Hughes, John Patterson, W. Ewen, Sam Beach, W. Walton, H. C. Tiffany, F. W. Taylor, G. W. Pike.

Engine Company No. 3 was organized November 21, 1844, and was not disbanded until February 13, 1860. The company had for its motto: "Semper Promptus," and when the boys were not prompt it was only because there was a "Niagara" of difficulties in the way. George F. Foster, its first foreman, was followed by such men as William M. Larrabee, Julian S. Rumsey, A. H. Burley, J. M. Johnson, and E. P. Wood.

J. Minnsey

Mr. Foster also served a second term in 1850–51. No. 3 was one of the last volunteer companies to go out of the Department, and maintained its reputation to the end. It occupied a house on the corner of North Wells and Kinzie streets, and used a piano-style two-craneneck engine, built in 1854. Among its earliest members were John H. Kinzie, G. F. Foster, A. H. Burley, George F. Rumsey, J. S. Rumsey, G. S. Hubbard, Alex Wolcott, J. M. Van Osdel, U. P. Harris, S. A. Lowe, M. Scranton, Jr., J. E. Bishop, John Turner, J. B. Preston, J. B. Doggett, E. I. Tinkham, J. O. Shaw, W. H. Macy, C. R. Vandercook, J. S. Farwell, Benjamin Bourland, L. Turner, P. Kelsey, T. P. Robb, W. M. Larrabee, J. Magill and Denis J. Swenie. Mr. Swenie became a member December 2, 1810.

member December 3, 1849.

"Philadelphia" Hose Company No. 1 was organized January 30, 1845; with headquarters on the North Side, near Clark-street bridge. J. B. Johnson was foreman. After 1849 it occupied part of Engine House No. 3, corner of Kinzie and Wells. In 1855 it was removed to the Kinzie school lot, corner of Ohio and LaSalle streets. "We strive to save" was the talisman by which the company accomplished many brave deeds. Following Mr. Johnson as foreman may be mentioned T. J. Holt, James V. Boyer, John F. Fitzpatrick and E. Baggott.

Its original members were William Smith, Jacob B. Johnson, Al. L. Scranton, Francis Jordan, Hugh K. Henry, Julian Dunham, John Stockton, George Crane, William O. Snell, Samuel Warner, Thomas Cann, John Nicholson. In the spring and summer of the same year James K. Webster, Thomas Holt, Charles Williamson, William Alverson, C. Anderson, C. Hodgson, H. Butterfield, R. Alverson, and R. N. Garrett joined the com-

"Red Jacket" Engine Company No. 4 was formed November 13, 1846, the organization being composed mostly of members of the disbanded "Neptune" Bucket Company. F. T. Sherman was the first foreman, and Hiram Jones, J. L. Marsh, Edwin Sherman, D. N. Chappel, C. E. Moore, John Eagan and William H. Wachter, subsequently held the office. The plucky ones under them made No. 4 what it was from the time of its organization until its disbandment by the Council, March 22, 1858. The "Red Jackets" were disbanded September 5, 1854, but re-organized in May, 1855, as the "Humane Company," with William Wachter, foreman. There was so much feeling, however, against those who had abandoned the old name that when the "Humanes" first appeared at a fire, it was with difficulty that a lot of "Red Jacket" supporters were prevented from mob-

Co N. Holden

bing them. The boys soon re-christened themselves the "Red Jackets" and again became public favorites, retaining their former warm place in the city's heart until the paid department came in. In 1858 the company worked a piano-style engine, built in 1848. Their house was at the armory, on South Franklin Street. In addition to names already mentioned, No. 4 enrolled Charles Whitlock, C. B. Sammons, W. H. Jones, J. K. Murphy, G. H. Laflin, E. Sherman, F. W. Getzler, W. J. Hamilton, C. N. Holden, J. A. M. Hoisington, K. K. Jones, J. N. Harmon, J. J. Wilkie, H. B. Paine, W. H. Charles, C. W. Brecher, W. Green, C. D. Grannis, O. F. Lowe, G. W. Beecher, W. J. Thompson, J. Butler, I. J. Clarkson, J. A. Kinney, B. F. Wells, C. H. Getzler, P. Fry, J. F. Gunter, J. C.

Church and S. C. Bliss.

"Excelsior" Engine Company No. 5 was organized November 23, 1846, with headquarters at Clinton Street, between Randolph and Washington; A. S. Sherman, foreman. The company was afterward located on Jackson Street, between Jefferson and Clinton. Succeeding Mr. Sherman in office were Charles Morton, R. Green, Silas McBride, Lewis Dodge, William H. Ostin and James Kehoe. No. 5 was disbanded June 10, 1859. Among its early and well-known members may be mentioned A. D. Sturtevant, A. Pierce, M. Keith, E. L. Clarke, C. D. Robinson, C. Morrison, R. B. Barnes, George Reynolds, John P. Fish, J. M. Edwards, E. Edwards, "Captain" Cringle, George Walral, Thomas George, E. J. Chapin, E. Sullivan, G. R. Sloat, A. G. Throop, A. A. Dexter, Charles Marston, E. M. Gregory, H. Witheck, N. Sturtevant and J. H. Rees. "Rough and Ready" Bucket Company No. 1 was

formed in January, 1847, and during the succeeding April was received into the Department. Charles Harpell was the first foreman. Its headquarters were at the foot of La Salle Street. In 1849 it went out of service. Charles S. Perry, Henry Gybe, and Sanders Woodworth also were foremen. This company was the immediate successor of "Neptune." Among the more prominent members were S. O. Gibbs, F. Townsend,

H. Blaney, S. S. Williams, Charles Harpell, Matt Conley, H. C. Kelly, W. S. West, E. Grubb, J. Battery, Dennis Morris, John McGraw, James Barry, Hiram Scoville, Edward Flood, J. E. McGinnis, S. George, Patrick Barry and Samuel Scott. No. 1 was put into service by the Common Council, and its membership was limited, as were also its duties. It was disbanded

for non-attendance at fires.

THE FIREMEN'S BENEVOLENT ASSOCIATION WAS formed in October, 1847; S. F. Gale, president; J. H. Kinzie, vice-president; C. E. Griswold, secretary; A. Gilbert, treasurer. The members (and the association included nearly the entire Department) were assessed at first an initiation fee of \$1, with annual dues of fifty cents. In 1850 the initiation fee was abolished, and the fees reduced to twenty-five cents. The association was incorporated by the Legislature June 21, 1852, and a new constitution and by-laws were adopted. These confined the benefits of the association to the volunteer department, and refused to recognize the "Citizen's Brigade as firemen of the city of Chicago." A life membership was acquired by paying three dollars into the treasury. After the great fire of October, 1857, the association undertook the erection of a monument in Rosehill Cemetery, in memory of the brave men who lost their lives in that casualty. It was not completed until seven years after the idea was conceived, but even then it was the first monument of the kind ever erected in the United States. In July, 1853, two physicians for each division of the city were appointed by the association to attend to firemen who should suffer injuries in the discharge of their duties-Dr. W. B. Herrick and Dr. J. V. Z. Blaney, North Division; Dr. Philip Maxwell and Dr. C. G. Smith, South Division; Dr. V. L. Hurlbut and Dr. E. McArthur, West Division. The officers of the association up to 1857 were, Presidentsofficers of the association up to 1857 were, Presidents—S. F. Gale, 1847–1850; C. E. Peck, 1851–1854; U. P. Harris, 1855; John T. Edwards, 1856–1863. Vice-Presidents, C. E. Peck, 1847–1850; U. P. Harris, (resigned before term expired,) 1851; P. L. Voe, 1851–1852; U. P. Harris, 1853–1854; J. M. Donnelly, 1855; J. M. Johnston, 1856; J. M. Donnelly, 1857. Second Vice-Presidents, J. H. Kinzie, 1847; C. M. Gray, (resigned before term expired), 1848; James H. Rees, 1848, 1849. (Office abolished in 1850.) Secretaries 1848-1849. (Office abolished in 1850.) Secretaries, C. E. Griswold, 1847-51 (resigned before the latter term expired); J. H. Rees, 1851-52; G. H. Rankin, 1852; T. W. Wadsworth, 1853-54; C. P. Bradley, 1855; Isaac Brown, 1856; P. P. Wood, 1857. Treasurers, A. Gilbert, 1847-55; H. Greenbaum, 1856; J. M. Johnston, 1857.

"Hope" Hose Company No 2 was organized March 24, 1848, by George R. Sloat, Hugh Dunlop, P. O. Donahue, Daniel Day, William Lull, Eben Lewis, James Thomas, D. E. Kelly, James S. Gibson, William Mix, Joshua White, J. R. Hamlin, A. P. Penny, George Penny, Noah Sturtevant and W. H. Sadler. In January, 1849, the company resigned, but was re-organized again in October, 1850, with Samuel O. Eames as foreman. The members of the company again resigned but re-organized in November, 1854, and were finally disbanded in 1859. "Hope" was considered the most perfect organization of the kind in the West. S. A. Lowe, George Sloat, Noah Sturtevant and William James, Jr., were among some of the best remembered foremen. At its re-organization, November 27, 1854, the original members were R. S. Johnson, N. G. Tucker, W. W. Billy, H. Meyer, B. F. White, J. E. Martin, D. W. Jenkinson, B. E. Dye, A. Seligman, J. D. Davis and W. Stebbins. August 1, 1849, "Protector" Engine Company No.

6 was formed; with Charles Morton, foreman; W. H. Hannahs, assistant; T. P. Plantz, secretary; Henry Nettleton, treasurer. Mr. Morton was succeeded in 1850 by W. H. Hannahs. Afterward came E. A. Webber, G. P. Groff, R. A. Williams (Chief in 1868), W. J. McMillan and Edward Mendson. Among the members who joined the first year were E. A. Webber, H. M. Nottleton, J. Mitchell, F. J. Hannahs, D. H. Neff, A. H. Dufer, J. Crawford, J. McGinn, L. W. Fish, H. Cook, J. McCafferty, M. P. Coughran, C. Haysen, S. Baker, M. Lynch, B. Rum, J. Braily, H. Renney, E. Waggoner, E. Low, J. Curtiss, E. O'Rourke, D. W. Coney, J. M. Hannahs, H. B. Bacon, T. Santes, G. B. Stole, P. Willard, F. M. Justice, G. W. Neff, O. Neff, Erwin Fowler, G. Kenderick, C. Hamlin, A. Warner, and B. Kurn. The company was disbanded June 10, 1859. Its house was then located on West Lake Street,

between Clinton and Jefferson. "Lawrence" Engine Company No. 7 was formed September 2, 1850. On January 6, 1852, it was re-organized as the "Eagle." Matthew Conley was its first foreman, and C. E. Peck, Nicholas Gross and John M. Reis also had charge of the company. For a time its headquarters were on LaSalle Street, but afterward a house was built on State, near Harrison. As an efficient organization this company never took the lead, but among its members were several active men. As they were most decidedly "on the muscle," they were often prominently before the public. Once, to the surprise of everyone (themselves most of all), it is related that No. 7 captured the prize at the State fair. This puffed them up with pride and they demanded a new machine. The demand was refused. A few weeks later their engine house was burned to the ground, and the "old machine" was found chained to the floor. The point has never been definitely settled whether these circumstances had any relation to each other, or whether they formed a mere coincidence. The "Eagles" disbanded July 9, 1859, numbering then about forty men.

"Wabansia" afterward "Phœnix" No. 8 was organized December 22, 1851, among its original members being J. B. Sanford, E. B. McCagg, S. S. Durfee, C. Charleston, J. R. Hugunin, W. M. Larrabee, S. H. Kerfoot, H. A. Mitchell, F. Hathaway, W. E. and J. B. Doggett, F. A. Benson, W. Whitney, J. Magill, G. P. Rumsey, G. L. Hubbard and A. V. G. De Wolf. In June, 1853, the "Phoenix" disbanded and October 17. of the same year, "Cataract" was organized from its remains. Among the foremen of the two companies may be mentioned S. S. Durfee, Silas McBride and O. Durfee. "Cataract" went to pieces October 4, 1858.

Hose Company No. 3 was organized as the "Lone Star," December 23, 1851, moving into the house of No. 2 on Franklin Street. Among its original members were: H. Thiele, William Nemeyer, H. Wellmann, F. Busch, D. Tung, W. Sorgenfree, C. Flentze, C. Batz, A. Beck, F. Iselind and E. Kiesling. A. Meyers, A. Balsom, J. Tyler and William Warlich were foreman. In 1859 the company numbered about fifteen members.

"Illinois" was one of the companies which opposed Mr. Swenie and the paid system, and was among those which turned over their apparatus to the city, and was disbanded by the Common Council on March 22, 1858.

"New England" Engine Company No. 9 was organized February 6, 1854, and disbanded March 5, 1855. Among its original members were N. Tryon, J. W. Boutwell, R. W. Sperry, C. Whitcomb, S. Parker, C. D. French, L. M. Emerson, A. P. Grover, N. Mc-Pherson, J. M. Caldwell, B. F. Davis, S. M. Marble, J. P. Garland, H. P. Norton, H. L. Sweat and George

"America" No. 9 was organized August 24, 1857, and was disbanded in 1863. W. F. Beecher, W. D. Smith, D. S. Hadley, F. B. Clapp, G. W. Fuller, R. B. Hill, John Lawless, Ed Sanders, W. H. Eddy, W. B. Bateham, D. H. Curtiss, B. M. Green and J. T. Morris were some of its earliest members. The "America's" headquarters were at "Carville," a settlement composed principally of employés of the Illinois Central Railroad Company. The company was organized by Mr. Bateham.

"Washington" Engine Company No. 10 was organized January 8, 1855, John Schank, foreman. Several members of "No. 2" were taken into the ranks, but it was composed mostly of Germans. "Washington's" house was located on Wells Street, near Polk, in the locality of the old Bridewell. The early members of the company, those who joined January 8, were: John Schank, John McCue, John Hainlain, S. J. Noble, Henry Riners, R. Van Riper, Anton Berg, J. Murrita, Jacob Buck, Peter Moulter, John Cook, P. J. Bishop, J. Bear, F. Lubeky, Jacob Pool, F. Schoch, F. Leinkenheld, G. Hartmann, A. Hackfelt, M. Hickey, John Collins, F. Hagemann, F. Shilthorn, W. Voltmer, R. Pannell, N. Kramer, G. Murray, C. Nickle, D. Baker, J. Brunst, G. Colkbrewer, N. J. Kreigh, A. Kramer, J. Wayant, C. Leodding, H. Brinckman, W. Blanke, R. Slagle, A. Matress, W. Koch, C. Koch, F. Jacobson, S. Caswell, S. Young, Frederick Jahn, Justice Jahn, T. Kiley, and P. Kehre. John Schank was foreman of No. 10, which was one of the strongest companies in the Department. Tom Buckley was one of its best-known members, being its secretary for many years. L. J. North, the circus man, was also one of the company, and an honorary member of the hose company attached to it. No. 10 was disbanded by the Council March 22, 1858.

Next, September 10, 1855, came "Lafayette" Hose Company No. 4, a rival of "Hope;" M. Powell was foreman. George Irvine held that office at a latter date. The company was stationed on the corner of Clinton and Washington streets. Its original members were: M. Powell, J. Connell, I. G. Carter, George Haden, J. Powell, H. B. Carter, R. Hackett, J. Stevens, A. McFarlin, H. Taylor, H. Cole, W. D. Francis, T. Maddy and William Curlet. "Lafayette" was one of the last companies to go out of the service.

"Rescue" Hook and Ladder Company No. 2, was admitted to service November 20, 1855. Following is a list of the original members: H. Warlick, P. Leannarde, C. Stroot, W. Fletcher, B. Weigselbaum, N. Schank, W. Tillman, R. Weiland, A. Hegnar, S. Davis, D. Tung, A. Dube, C. Neugart, H. Tias and O. Shelmeir. Mr. Warlick was the first foreman, and F. Lunnatz subsequently held the place. This company formed a portion of the paid Department.

"Neptune" Engine Company No. 11 was organized February 8, 1856, and was not disbanded until 1860. Original members: T. Scheiner, T. Bahr, F. Rabach, F. Gerbing, J. Rehm, W. Busch, B. Nitchman, J. Sebastian, P. Weber, F. Gebel, J. Kuhn and T. Schreiner. N. Siemon and H. Bebee were early foremen. The house

was on Dearborn Avenue.

"Wide Awake" Engine Company No 12 was organized January 31, 1856, with headquarters on Liberty Street, at Third Avenue; John Wagner, foreman. Original members: George Walter, J. Doetsch, J. Pollak, F. Ross, N. Claris, P. Stevens, F. Miller, J. O'Brien, L.

Allan, O. Swartz, H. Sudorf, J. Frantz, S. Harper, Charles Rose, H. M. Peters, A. Driz, P. Sullivan, J. Ryan, T Lvons, E. Hays, M. Doharty, and John McMurty George Ross, Charles Rose and Nicholas Claris also act-

ed as foremen. It was disbanded August 15, 1859.
"Torrent" Engine Company No. 13 dated from
January 31, 1856; headquarters on Third Street, near Milwaukee Avenue. It disbanded in April, 1859, but it was again organized. J. M. Lambien, F. Marcus, P. Lambien, H. Nash, M. Waller, George Hettinger, P. Eveling, H. Johnson, H. Nettleton, Peter Miller and E. H. Wagoner, were among its earliest members. J. M. Lambien was its first foreman No. 13 survived most of

the volunteer organizations.

"Lady Washington" Hose Company No. 5 was organized January 5, 1857; John R. Clark, foreman. Its house was located on the corner of Pacific Avenue and Harrison Street. Original members: J. R. Clark, J. P. Bishop, J. H. Clapp, G. D. Enis, D. Young, O. P. Hull, J. C. Pilot, W. E. Livingston, George Simmons, P. Ludwig, J. D. W. Howard, M. Grant, J. Comfort, J. Hart, M. A. Seymour, N. H. Waden, C. R. Cummings, A. Watt, W. H. Sears, S. Walker and W. Nowland. was disbanded March 22, 1858.

Although organized previous to the "Lady Washington," December 5, 1856, "Liberty" Hose No. 6 was not recognized until a few days afterward; hence its number. The company had its house near the Union depot, at the foot of Lake Street. Being so near the lake, the location was not conductive to distinctly catching sounds of the fire alarms. Sometimes the boys

missed the bells altogether; but when "the scouts" were out, and "Liberty" was duly notified of the alarm of the bells, they "made the dirt fly," and created a commotion in the breasts of "Hope" and "Lafayette." The company remained intact until November, 1858. Its gallant foreman, John B. Dickey, lost his life in the fire W. R. Goodnough, M. B. Mills, H. C. Hatch, H. C. Doty, P. Somers, T. O. Wilson, Robert Gardner, C. P. Bower, E. A. Tillibine, A. Greer and J. Thomas. W. Shay, assistant marshal in the paid Department, join-

"Red Rover" Engine Company No. 14 entered the service January 24, 1857; Thomas E. Courtney, foreman. The headquarters were corner of Blue Island Avenue and Polk Street. The company was distance of the service January 24, 1857; Thomas E. Courtney, foreman. banded March 22, 1858, by the Council. In that year James Ready was foreman. The engine was thirdclass, goose-neck, Wright's style; the number of men forty-seven. Among its early members may be mentioned T. E. Courtney, M. P. Ryan, J. H. McCarty, William Foley, J. Magee, George Powell, M. Scanlon, William Day, D. Hays, J. Laughlin, M. Hanley, M. Hays, J. Ready, J. Hogan, P. Walsh, E. Murphy and E. Casey.

"Empire" Hook and Ladder Company No. 3 was added to the Department March 9, 1857: A Reary, foreman. Its headquarters were on Clinton Street, corner of West Washington. The company went out of the Department, with other dissatisfied organizations, in March, 1858. No. 3 was the last organization to be ef-

fected in the Department during 1857.

## HARBOR AND MARINE.

### CHICAGO HARBOR.

Like other works of public utility the improvements and protection of Chicago harbor were accomplished only after many years of experiment and at great expense. The canal and the harbor were twin enterprises. The former would be almost worthless if there were no clear way of exit into Lake Michigan; and without a good harbor to shelter vessels from the storms which raged over the lake, it was early seen that Chicago could never become a port of entry. Previous to the voyages of Joliet and LaSalle, the accretions which had fallen to the lake bottom as they rested upon the ice piled up in the river's mouth, added to the natural formations caused by the lake currents, had formed a large sandbar, and, at times, blocked navigation.\* LaSalle, from his observations in 1682, fails to see how a shallow cut canal could supply navigable water for the Illinois River during the dry season, or if that should be accomplished, how commerce would be benefited, since even in a rainy reason the surplus water which flowed over the portage from the Desplaines (the "Chicago," he calls it, would not cover the sandbar at the mouth of the channel. † It is reasonable to suppose that all the early travelers noticed and commented upon this impediment to navigation, but until Fort Dearborn became one of the most famous of the Government trading-posts no decisive movement was made for the improvement of the river's mouth. In 1805 the agent at the United States Indian Factory, which was established that year, suggested to the Government the necessity of clearing away the obstruction, in a limited way, from the mouth of Chicago River. But his idea of a harbor was just as limited as his dreams of what the location was destined to be. All that was necessary to insure a safe entrance to the river was a narrow ditch, which might permit the easy passage of a Mackinaw boat up to the very door of the trading house; and, this effected, his conception of improvement was fulfilled. In a few years, however, keen observers traveling over the Western country saw the geographical advantages which this muddy point possessed, and realized and prophesied its future importance. The canal enterprise was therefore not only pressed to public notice, but the ideas of the new generation in regard to a harbor expanded prodigiously. In 1816 came Colonel Long, and he had something to say about the canal and the harbor. During the next year Samuel A. Storrow, Judge Advocate, traveled through the West, and like many another enterprising man since then, visited "Chicago" and talked about it. He admired the wonderful portage which separated the waters of the Great Lakes from the waters of the Great River, and said that the canal should be a matter of national concern. The Judge also described the site of Fort Dearborn, and as all observers were beginning to do with unanimity bewailed the fact that "it had no advantage of harbor, the river itself being always choaked, and frequently barred." Then, in 1818, William Darby,

\* Pierre Margry, in Magazine of American History. + Ibid.

a New York author, took a trip through the West, and by him there was further expatiating on the wonderful portage and the importance of the canal. The United States commissioners, with their surveyor, Mr. Sullivan, were then running their lines to mark the lands which had been ceded by the Indians in 1816.\* A map was therefore made of Chicago and vicinity. The main river flowed northeast and east, for about three-fifths of a mile, to a point nine hundred feet west of the parade ground. From that point it commenced to make a complete bend around Fort Dearborn, and entering upon its direct course south, flowed between the great sand-bank on the east and the marsh on the west, entering the lake (when it could), about eight hundred yards south of a line drawn east from the present southwest corner of River Street and Michigan Avenue, Some two hundred and fifty yards from the confluence of the river and the North Branch a small creek entered the main channel from the north, while from the south, at a point north of the present Wabash Avenue, another stream entered the river. Opposite Fort Dearborn a small bayou stretched back from the river to the northwest. The entire length of the main river in 1818 was about one and a half miles. No suggestion was made, however, to improve the harbor. It was reserved for H. R. Schoolcraft, secretary of the Indian commission which visited Chicago in 1821, to first call attention to the matter as a measure of general utility and humanity. It is observed that he expressed some doubt as to whether a harbor could ever be formed, but his plan was definite and bordered upon the prophetic:

"We allude," he says, "to the formation of a harbor on Lake Michigan where vessels may lie in safety while they are discharging the commodities destined for Illinois, or encountering the delays which commerce frequently imposes. It is well known that after passing the Manitou Islands there is no harbor or shelter for vessels in the southern part of Lake Michigan, and that every vessel which passes into that lake after the month of September, runs an imminent hazard of shipwreck. Vessels bound to Chicago come to anchor upon a gravelly bottom in the lake, and, discharging with all possible speed, hasten on their return. The sand which is driven up into the mouth of Chicago Creek will admit boats only to pass over the bar, though the water is deep enough to allow vessels to lie above. Among the expedients which have been proposed for keeping the mouth of the river clear of sand, one of the most ingenious, and perhaps practicable, is that of turning the Konomic (Calumet), by a canal of sixteen miles, into the Chicago, above the fort, and by the increased body and pressure of water, drive out the accumulated sands. It is yet somewhat problematical whether a safe and permanent harbor can be constructed by any effort of human ingenuity, upon the bleak and naked shores of these lakes, ex-posed, as they are, to the most furious tempests. And we are inclined to think it would be feasible to construct an artificial island off the mouth of the Chicago Creek, which might be connected by a bridge with the main land, with more permanent benefit to the country at large, if not with less expense, than to keep the Chicago clear of sand. Stone for such a work is abundant near the entrance into Green Bay, and, if built on a scale sufficiently liberal. it would afford convenient sites for all storehouses required.

The Government breakwater, with the sandbars which it has been the means of forming, may be likened to Schoolcraft's bridge connecting the artificial island

<sup>\*</sup> The map of 1813 was presented in the case of George C. Eates vs. Illinois Central Railroad Company, before the United States Circuit Court, Northern District of Illinois, in October, 1859.

with the main land, and his storehouses to the huge elevators which now cover those convenient sites. when Schoolcraft wrote, there was little to be seen but an old stockade fort and John Kinzie's block-house; and although his general idea of protecting the river's mouth seems to have been the correct one, he did not see the necessity of forming an artificial channel, so that the river's course could be made more direct to the lake, and its current thereby strengthened. This idea, however, was left to be clearly brought out by the engineers who made the surveys for the canal route in 1830. In February of that year William Howard, U. S. C. E., proposed a plan for "improving the mouth of Chicago River." His idea was to close the original outlet, and cut a channel through the conformation of sand and gravel which prevented the river from flowing eastwardly, in nearly a direct course, north and south piers were to extend out into the lake, in a direction south of east; the artificial channel being somewhat over one thousand feet north of the natural outlet of the river. The map, and a well-conceived correspondence between residents of the settlement and influential members of Congress, caused general attention to be called to the improvement of the harbor, in connection with the building of the canal. When in August of this year 1830 the town of Chicago was surveyed, provision was made for a public levee on the general plan adopted by Western river villages, and extending along South Water Street. But the system applicable to the light-draught river boats was not applicable to the large lake craft. So the levee plan was abandoned, and the location became a part of the wharfing property, which, in later years, gave the corporation so much trouble. The continued efforts made to improve Chicago's harbor bore fruit in 1833. For the purpose of obtaining an appropriation, a map was sent to Congress, designed to show what a growing town Chicago was. It indicated the course of the river, the platted sections of the town, and the contemplated subdivisions. This map, undoubtedly, assisted in securing the appropriation of \$25,000, which was obtained from Congress, March 2, 1833. The works were immediately put in charge of Major George Bender, his assistant superintendent being Henry S. Handy. Samuel Jackson was foreman of construction, and held the position for some time. A. V. Knickerbocker was appointed clerk, and continued so to act for a number of years.\* Mr. Jackson arrived from Buffalo June 27, 1833, in company with Joseph Chandler and Morgan L. Shapley, and work was at once commenced on the south side of the river, in front of the fort. The first stone was procured about three miles up the South Branch. The ties and timber were cut upon the Calumet, and were rafted down the river into the lake and thence along its shore to the harbor, under the direction of Jones & McGregory, the contractors for the wood work. Major Bender resigned October 31, 1833; but under his direction between four hundred and five hundred feet of the south pier were

of Allen

finished.† Lieutenant James Allen took charge of the works in January, 1834, serving until September, 1838. During this season the appropriation of \$32,801 was ap-

plied chiefly upon the work of extending the north pier; and, as a rule, for several years that structure was kept from two hundred to three hundred feet ahead of the south pier. The most of the stone was taken from the quarry opened up on the South Branch. Subsequently ties and timber were procured in Wisconsin and Michigan, with the exception of a small lot taken from the North Branch in 1834-35. The appropriation of 1835 amounted to \$32,800, and under Lieutenant Allen's energetic management the work progressed most favorably.\* By the close of the season the north, or weather, pier had been extended one thousand two hundred and sixty feet into the lake, where a depth of twelve feet of water was found, and most of the structure had been completed to its full height of seven feet. The pierhead was not constructed, for the reason that a new bar commenced to form in the spring, at a point on the lake shore about half a mile from the pier, and was now running obliquely, in a direction which threatened to form an obstruction across the harbor entrance, a short distance from the end of the work. Already the depth of the water on the line of the pier had been reduced from ten and twelve feet to eight. It was therefore resolved to wait until winter was over, when it could be determined whether it would be necessary to extend the pier across the new sandbar and shut out the threatened formation from the harbor entrance. It is to be remarked, however, that at the end of the north pier constructed in 1834, and for sixty feet beyond, nine feet of sand had been washed away, leaving a clear clay bottom, at a depth of eighteen feet from the surface. Many vessels had already found shelter there while discharging their cargoes. The south pier, in 1835, was extended five hundred feet, making its total length into the lake seven hundred feet. It will be remembered that during the season of 1833 a portion of it had been constructed across the river and bar. The two piers now enclosed a channel of two hundred feet in breadth, containing from three to seven feet of water, and all was ready for the dredging machines. Up to that time the current of the river had made no great impression upon the sand in the channel. Lieutenant Allen noticed that when the season's work was completed \$6,900 of the \$32,000 would remain to be applied in 1836, and that \$6,000 had been reserved for dredging purposes. Since the opening of navigation until September, two hundred and twelve vessels had arrived and discharged their cargoes at the harbor. Concerning the effects of the "land craze" upon his workmen he said:

"The great and continued emigration to the town and country has kept all kinds of grain and provisions scarce and dear, and often difficult to procure at any price. The very great demand for laborers and mechanics on the buildings and improvements of the town has maintained a very high rate of wages for workmen. The influx of this class of emigrants has been great, too; but the apparent facilities offered them of securing valuable portions of public land by settling on it—and which were confirmed to settlers and claimants at the recent land sales here—have encouraged mechanics and laborers on arriving, or soon after, to abandon their appropriate trades or occupations for a bright hope of soon making their fortunes under the pre-emption laws. Some of my best workmen, and who had been on the works since their commencement, have, since the sales at this place, refused to continue at a rate of wages from \$1.50 to \$2 per day. They have gone to Milwaukee and elsewhere to make locations on public lands. The constant changes of workmen thus made has been embarrassing and expensive to the work."

Captain Allen's map, drawn in October, 1837, indicates that, at this time, the south pier had been finished from a point opposite Fort Dearborn, across the old channel of the river, and so on out into the lake, a total

<sup>\*</sup> Morgan L. Shapley's letter to John Wentworth, May 19, 1879. † Subsequently he was commissioned Captain of the First Dragoons, and died at Fort Leavenworth August 23, 1845.

<sup>\*</sup> See report of Lieutenant Allen to Brigadier-General C. Gratiot, chief engineer, dated September 30, 1835,

distance of one thousand eight hundred and fifty feet. Some five hundred feet of the lake end with the bulk-head was unfinished or only projected. The shore end of the north pier for seven hundred feet had not been finished, but it had been pushed out into the lake for twelve hundred feet, with four hundred feet of pier and bulkhead projected, in order to shut out the outer sandbar, which now extended beyond the end of this, the weather pier. Of the old sandbar, between the river and the lake, only a small tongue remained, about one hundred and seventy-five by one hundred and twelve feet. Although the eastern bank of the original channel was mostly washed away, its western boundary (the swamp east of the fort) was visible then. In 1838 \$30,000 was appropriated, but it became now evident that the improvement was progressing under a wrong plan. The prevailing currents of the lake had been rapidly depositing sediment in the shape of sandbars, which were backing up against the north pier, their general trend being a little more to the north than the old sandbar. Within the outer sandbar, which in 1837 extended beyond the finished portion of the north pier, had been formed two bars. By the continued process of deposit these were lifted further and further into view, and the intervening space filled with sand, until the second bar of 1837 virtually became the shore line of 1838. Since the commencement of improvements in 1833, the shore line had extended seven hundred feet out into the lake along the north pier, and was rapidly pushing farther in that direction. It was only a question of short time before the third sandbar, which had already been formed beyond the pier, would become a new shore line; and it would seem, unless the direction of the work was changed, that the task of protecting the harbor entrance would be an indefinite contest between the governmental purse and the natural forces of wind, wave and current. As the sandbars and the shore line extended out into the lake, the pier, in order to be of any benefit, would have to keep pace with its progress. It was therefore decided to change the direction of the pier 251/2° more to the north\* but the appropriation of 1838 having been expended in extending the under-work four hundred and five feet in the new direction and dredging the bar already formed, it was found that this plan was no better than the old. The bar continued to form not only because of the currents of the lake, but the wind blowing from the north across the pier carried the sand from the beach into the harbor itself. Vessels now made the entrance with great difficulty in fair weather, and were entirely excluded from shelter during storms. At the commencement of operations in 1839 it was found that the bar had extended across the entrance to the channel, and four hundred and fifty yards beyond. In the latter part of March, 1839, Lieutenant (now General) A. A. Humphreys, who had succeeded Captain Allen, was relieved, at his own request, by Captain T. J. Cram. Under him Captain J. H. Leavenworth acted as agent in charge of the harbor works, the only thing attempted up to 1842 being to preserve the protections already built. Under him the superstructure of the pier was extended in the new direction, and then further appropriations were cut off. In April the board of engineers decided that all expenditures upon the harbor would be for only such work as might be necessary to protect what had been completed up to that date. A few days later, lake captains were notified of the formation of the bar across the harbor's entrance. Under date of September 1, 1839, when work was entirely suspended, Captain Cram

reported as still unfinished several hundred feet on the west end and four hundred and five feet on the east end of the north pier; also two hundred and fifty feet on the west, and three hundred and eighty feet on the east end of the south pier. Repeated but unsuccessful efforts were made by Chicago citizens to obtain appropriations in 1839 and 1840; the apathy of Congress and the evident attempt of that body to ignore the claims of Chicago creating much dissatisfaction, and suggesting the memorial of 1841. This document was signed by Mayor Sherman, the Board of Aldermen and City Clerk Hoyne. It exhibited the commercial importance of Chicago, showing that her average import trade for the past six years had reached \$1,500,000, her export trade \$348,362. The progress of work upon the harbor was reviewed and the deplorable condition of affairs at that time noticed. Piles and timbers from the upper end of the north pier were being carried away, and the dredging machines and sand scows were going to pieces. Not less than \$4,000 would repair the damage already done. The appropriation had run out and a permanent sandbar was rapidly forming. If assistance should not be granted soon, "commerce would be without shelter and human life and property endangered to a lamentable extent." The memorialists not only prayed for "immediate temporary," but for "immediate permanent" relief. Chicago's claims continued to be pressed upon Congress, and the result was that in 1843 an "item" of \$25,000 was obtained, to be expended upon the harbor. With this sum a series of repairs and some new work was effected, under the superintendence of Captain George B. McClellan. Another appropriation (\$30,000) was obtained in 1844, and during that year and the next the height of the north pier was increased from one to two feet. The appropriation was soon exhausted and Congress was again begged for assistance. Citizens of Chicago poured in upon that body facts and figures, showing her importance as a lake port and the supremacy of the commerce of the Great Lakes in which this city led the way.

Including the appropriation of 1844 over \$247,000 had been expended upon the harbor, with what results the reader is informed. Two years followed, during which the engineers made estimates, and the citizens presented memorials. Even Congressman Wentworth's speech in favor of the river and harbor bill, in February, 1846, did not break the monotony of the "Noappropriation" period. President Jackson, the friend of internal improvement, was dead, and President Polk was his antipode. The estimate of 1846 to provide for the completion of the north pier and for necessary repairs was \$24,297. It is well known that in August of that year the river and harbor bill received the presidential veto, which included \$12,000 to be expended on Chicago harbor and \$15,000 for a steam dredge boat to be used on Lake Michigan. The bill had, through the endeavors of Mr. Wentworth, received the powerful support of Daniel Webster, who addressed an able letter to the convention which met in 1847. This statesman had visited Chicago in 1837, had a fair knowledge of the lake region, and was thoroughly able to lay before the Senate his reasons for supporting the appropriation. He pictured a terrific storm on Lake Michigan, the despair of the crew, the wreck of the vessel and remarked: "What but a merciful Providence saved me from such a catastrophe when 1 passed over Lake Michigan in 1837?" Notwithstanding the able support which the bill received, and the decisive majority which it obtained, President Polk vetoed it and the whole Northwest arose against him. The summary

<sup>\*</sup> Memorial to Congress of 1841.

action of the Chief Executive attracted the attention of the people, and, within a year, the great River and Harbor Convention was an accomplished fact.\* William M. Hall, agent of the Lake Steamboat Association, with headquarters in St. Louis, is the acknowledged father of this gathering, wherein was assembled much of the political and commercial ability of the country, protesting against the narrow views and action of the President of the United States.

At the close of the season of 1846 Mr. Hall gave an editorial dinner in the city of St. Louis, at which the proceedings of the River and Harbor Convention, lately held in Memphis, came up for informal discussion. The conference concluded by Colonel A. B. Chambers, of the Missouri Republican, turning to Mr. Hall, and suggesting that the latter was the man of all others best fitted to move in the matter of calling a river and harbor convention, irrespective of party, to urge upon Congress the necessity of improving the water-ways of the West, Mr. Hall thereupon visited Chicago, where he met R. L. Wilson, Dr. W. B. Egan, S. Lisle Smith, and others, who approved of the plan, and pledged themselves to support the enterprise. Captain E. B. Ward and Oliver Newberry, of Detroit, Millard Fillmore and E.G. Spaulding of Buffalo-in fact most of the influential commercial and broad-minded men of the lake cities, of Springfield, of Boston and of New York, were as a unit in recognizing the grandeur and the beneficial effects of the movement. Finally, at New York, Mr. Hall met William Duane Wilson, Robert Fergus and a few other Western gentlemen, and made arrangements to hold a meeting, in furtherance of his project, at Rathbun's Hotel. The meeting was quite largely attended, and the committee recommended that a convention be held in Chicago, June 17. The time was subsequently changed to July 5. The committees on arrangements appointed were as follows: Chicago, William B. Ogden, S. Lisle Smith, George W. Dole; Milwaukee, Byron Kilbourne, W. D. Wilson; Detroit, Augustus J. Porter; Cleveland, J. W. Allen; Buffalo, James L. Barton; St. Louis, David Chambers. The Chicago committee called a meeting in this city on November 13. It was largely attended, and resulted in the preparation of an address, which so fairly presents the prevailing sentiment and the aims of the July convention that it is given entire :

"The high prices of freight, taken in connection with the loss of life and property upon the Western waters last season, caused several public meetings to be held in various sections of the country, for the purpose of devising the best means of remedying those and other evils of which the great mass of the people interested in commerce were complaining. At all these meetings the propriety of holding a convention at some convenient point was discussed and universally concurred in. In consequence of Chicago having been generally named as the proper point, its citizens called a meeting, named the 5th of July as the appropriate time, and chose the undersigned a committee to draft an address, setting forth the objects of the convention. The movers in this matter have been, from the from there being, even in the remotest degree, any political design in the contemplated convention, one of the chief objects of it is to call together for a common object the men of all parties, and to convince the people everywhere that the improvements desired are not now, never have been, and never should be, connected with 'party politics,' in the ordinary use of that term. Such a connection would, in the minds of all interested, have a very deleterious tenden-It can not be denied that there is a predisposition among all politicians to support the measure of a chief magistrate of their own party, and hence we have seen Western representatives, originally supporting harbor and river improvements, and elected upon ex press pledges to do so, finally vote to support a veto of bills providing for that purpose, and assigning as a reason therefor that it was their duty to sustain an executive of their own selection, even

\* For full, reliable and interesting account of River and Harbor Convention of 1847, see Fergus's Historical Series.

though it be in express opposition to the wishes and interests of their constituents. Repeated instances of this kind must eventually give this question somewhat of a political cast, which the under signed and all who co

The construction of harbors upon our northern lakes, as well as upon the Atlantic, with the improvement of our great rivers, where commerce is of a national character, necessarily involves no where commerce is of a national character, necessarily involves no questions of party difference. They are matters that must interest all parties, as they do all classes, alike, and harbor and river bills have been supported by the ablest men of both the great political parties which divide this country. This subject has never entered into any presidential canvass, since each party has always taken it for granted that the candidate of the other was above suspicion upon a matter of such preëminent importance. The first congress that ever assembled under the present constitution, many of whose members helped to frame it, passed a law defraying all expenses which should accrue after the 15th of August, 1789, in the necessary support, maintenance, and repairs of all light-houses, beacons, buoys, and public piers, erected, placed, or sunk, before the passage of this act, at the entrance of, or within any bay, inlet, harbor, or ports of the United States, for rendering the navigation thereof easy and safe. General Washington signed this bill, and bills for the post-invariance of which hardwards the post-invariance of the contract of the production of the post-invariance of the continuance of such work were also successively signed by presidents the elder Adams, Jefferson, and Madison. The first lake harbor bill was signed by Mr. Monroe. He never raised the constitutional question, nor do the congressional debates of those days show that any members of either branch of Congress made any distinction between salt and fresh water improvements, or between foreign and domestic commerce. All at that time were acknowledged alike deserving the fostering care of the General Government, as they also were during the administrations of the younger Adams, General Jackson and Mr. Van Buren. Though remarkably scrupulous as to the extent of which the power to construct works of internal improvements should be exercised, General Jackson and Mr. Van Buren signed bills for the improvement of rivers and construction of harbors to the amount of \$7,800,000, and the two bills signed by General Jackson in 1836 contained no less than eighty-nine items, and the bill of 1837 no less than fifty-nine. After the General Government has expended upward of seventeen millions of dollars for works of internal improvement, and mostly in the old States, by the consent and support of the very framers of the constitution and their cotemporaries, and by men, too, of all political parties, there can now be but little consideration due the cry that 'it is unconstitutional,' or the plan of a single political party to extend the advantages of such works to the new States, and to such portions of the old States as have thus far been neglected.

"Thus disposing of the constitutional and political question, the friends of harbor and river improvements arrive at the only one which can rightfully be raised, and that is merely the question of necessity. Is IT NECESSARY to protect our domestic as well as our foreign commerce? Shall we protect the lesser and neglect the greater? For the past thee years, petitions have been presented to Congress in vain: Senators and Representatives in Congress have spoken in vain. The present Secretary of War, in his official reports, has recommended in vain; and the whole topographical corps have sestimated in vain; our bills have invariably been vetoed, and we have been unable to secure two-thirds of the popular branch. Confident that there is wanting a knowledge of the necessity of these improvements among the people or their representatives, since all efforts at success have failed, it has been thought that a general convention, and consultation, with personal observation, might do much for us. There is not a State in the confederacy but that touches the lakes, the ocean, or the great rivers of the West. The lakes line almost our entire northern frontier, and separate us from a foreign country; and the rivers, like a terries run through the whole country, constituting an extent of navigation sufficient to

reach round the globe.

"These great waters, for whose safe navigation this Convention is called, are soon to be united by the completion of the Illinois & Michigan Canal. The commerce of Boston, of Philadelphia, of Baltimore, of New York, of New Orleans, Cincinnati, St. Louis, and, indeed, of the whole country, thence becomes in a great measure connected. It has a common interest, and no injury could, and the greatest advantages might rise from a common consultation. It is a notorious fact that statements, during the pendency of harbor and river bills before Congress, are made on the highest personal authority, which never would be made if the authors had any personal observation of the great inland waters of this country, or could realize the necessity of the millions whose lives and property are jeopardized by them. Delegates in attendance will not only have the advantages of their own observation to take back with them, but they can profit others meeting them here by a consultation as to the best means of redressing existing wrongs. Having done this, they can impart the proper feelings to their neighbors, and thus aid in arousing the people to take this matter into their own hands, and see that their chief interests are no longer

It is confidently hoped that a more intimate acquaintance with the claims of these great waters, formed by men congregated for this special purpose from all parts of the Union, will result in sufficiently convicting and awakening the public mind to secure the constitutional majority, should a harbor bill ever again be vetoed. This Convention is designed to be one of free discussion, and it is hoped that the *opponents* as well as the *friends* of lake and river improvements will attend, and more especially since it is generally believed that they have only to see for themselves in order to be convinced that these demands, coming from all our great waters, are founded in justice.

"Although the construction of harbors and the improvement of

rivers will be the prominent subject before the Convention, yet, whatever matters appertain to the prosperity of the West, and to the development of its resources, will come properly before it, and all plans and suggestions will be freely entertained. The committee invite a general attendance from all sections of the Union, and tender, in behalf of their fellow-citizens, the hospitalities of the city of Chicago to such, as impelled by a common interest, see fit

to honor them by their presence on this occasion. "JOHN WENTWORTH,

"GEORGE MANIERRE,

" I. YOUNG SCAMMON,

"ISAAC N. ARNOLD, "GRANT GOODRICH.

As the date for holding the convention approached, it was obvious that the aim of its originators to avoid making it of any political significance had been realized. Previous to its opening, letters were re-

George Manien

ceived from Daniel Webster and Thomas H. Benton, one the leading statesmen of the East, and the other a leading statesman of the West, warmly endorsing the objects of the convention and recognizing its national character.

The first day of the convention was marked by the reception of delegates by Mayor Curtiss. The procession took up the line of march, through the principal streets of the city, to the court-house square. Its order was as follows: Marshal Maxwell; band; Cleveland Light Ar-

of Manwell

tillery; Montgomery Guards, under Captain W. B. Snowhook; cavalry under R. K. Swift; Ship-Convention; Engineers' Department, under Stephen F. Gale; Fire Department; band; Committee of Reception; Illinois delegation, six hundred strong; other delegations;

societies and orders of Chicago, etc. In the words of the editor of the Evening Journal, July 6, 1847:

"Never was the birthday of our National Independence more befittingly celebrated than on this day—to give freedom and tone to the pulse of commerce—to cheer the mariner on his airy shrouds—to brighten the homes and the hopes of thousands. there, can there, be a nobler cause under which freemen can rally in behalf of the State? That vessel with sails all set, and signals flying to the breeze, drawn by eight horses and manned throughout by sailors, bore a banner eloquent of the object of this Convention. It was a sea roughened by storms that lifted the waves to the very heaven in a distance, but hard by was a Harbor where 'the winds and the waves lay together asleep,' and a light-house lifting its star of joy and hope upon the rocky cliffs. Over all was inscribed the significant words, 'What we want.' Ah! that ship 'Convention' had a speech and an argument that appealed to the eye and reached even to the heart; and we are sure that it will not be the fault of the body of delegates now assembled, if many a gallant craft does not plough these inland seas and nobly breast the storm, in the good hope of a light to guide it, and a safe harbor at

When the delegates had taken their places in the pavilion, William B. Ogden, of the Committee of Nine,

OR. N. Dioiff

appointed at New York, September 28, moved that James L. Barton, of Buffalo, be temporary chairman; Colonel A. B. Chambers, of St. Louis, and Hans Crocker, of Milwaukee, secretaries. This motion was carried, rules were adopted for governing the proceedings of the convention, and the committee on permanent officers presented a ticket to the convention, headed by Edward Bates, of Missouri. A motion made to substitute Thomas Corwin, of Ohio, in place of Mr. Bates, was thwarted by Mr. Corwin himself, who peremptorily declined serving, under the circumstances. Mr. Bates, although he had withdrawn from public life many years previously, had been a resident of the West since early manhood and having resided in St. Louis, was especially interested in all matters connected with the improve-ment and protection of navigation. While acting as the sole congressional representative of Missouri, in the days of the elder Adams, Mr. Bates had felt it his duty to cast the vote of his State for that gentleman. To use a phrase much in vogue among the politicians, Mr. Bates was therefore " retired " from public life, and had since resided in St. Louis, a respected and distinguished member of the Bar. When called to the chair few members of the convention were aware of his eminent fitness to guide the deliberations of so distinguished an assemblage. It is not within the province of this article to go into details with regard to the proceedings of this convention. Suffice it to say, that never before had there been a grander gathering of men, so free from political aims; nor has there been one since where the statesman so predominated over the party politician. The convention was held in an immense tent pitched in the public square. It is estimated that the attendance was fully twenty thousand, of whom one-half were members of the convention. Represented in that assemblage were leading men from Massachusetts, New York, Kentucky, Indiana, Missouri, Rhode Island, Iowa, Ohio, Connecticut, Pennsylvania, Wisconsin, Georgia, Florida, Michigan, Maine, Illinois, New Jersey and New Hampshire. It was a direct and national protest against the attitude of President Polk toward the improvements of the rivers and harbors of the West, and indicated how weakly he was supported. The sensations of the convention, however, were the wonderfully eloquent speech delivered by Hon, Edward Bates, chairman of the meeting, and the short, not to say curt, letter of regret, received from Hon. Lewis Cass, of Michigan. Governor Cass evidently forgot the resources of the times, failing to remember that an internal improvement convention of 1847 was not to be conducted upon the basis of 1837, when the wild fever swept over the State of Michigan as well as Illinois. The session lasted three days, and an excutive committee, consisting of two members of the convention from each of the eighteen States represented,

was appointed to make known to Congress the principles and views of this national gathering. As far as the Chicago harbor is concerned, the convention apparently did not effect it until 1852. In October, 1849, Colonel J. J. Abert made an estimate for necessary improvements up to June 30, 1851; but the matter rested with the estimate and no further appropriation was obtained until 1852. This amounted to \$20,000 and was expended in improving the inner harbor. Another estimate was made for the year ending June, 1853, but the subject passed unheeded by Congress and was not reconsidered for the fourteen years intervening between 1852 and 1866. During this period slight improvements continued to be made on the inner harbor, under the act of July 21, 1852. The works of the harbor from 1848 to 1854 were under the superintendence of Lieutenant J. D. Webster, of the Topographical Engineer Corps. Lieutenant-Colonel J. D. Graham was in active charge of the harbor improvements from April, 1854, to 1855, and from December 11, 1856, to April 20, 1864. During his term of service the deepening of the river at the cost of the city was effected. He came two years after the appropriation of 1852 was made, and ceased connection with the work two years before the appropriation of 1866 was granted.\* The improvements effected during the season of 1854 consisted of the dredging of a ship canal through the bar which obstructed the direct entrance of vessels to the inner harbor of over seven feet draught, repairing harbor machinery, and preparing for the defense of the piers beyond the line of accretion on the North Side. Work was commenced in May, and the channel was completed in July. Before the canal was cut vessels from the north, drawing over nine feet of water, were compelled to run down one-fifth of a mile south of the north pier-head, and then double on a northwardly course to enable them to enter the harbor. Vessels drawing twelve feet of water were compelled to make the double of the bar a half mile south of the north pier head. This oftentimes occasioned serious delays, as the north wind which brought them south opposed an attempt to sail northwest to the entrance of the harbor and, in fact, compelled them to anchor off the bar until the wind changed or a steamboat was hired to tow them into the inner harbor. In October, 1854, the Common Council ordered the excavation of the bank to be begun, under the grant made by Congress for the purpose of widening the river. The city superintendent began the work immediately, but the officer in charge of Fort Dearborn-Colonel Graham being then absent-informed him that further action by Congress, or the War Department, was necessary before any work could be done, and forbade him to proceed. A few weeks' work was accomplished on the excavation, later, but it was not regularly begun until the following year. The line for the excavation at Fort Dearborn, for widening the river, was not located until August 29, 1855. The line, as laid, gave the river an additional width of one hundred and fifty feet, below the Lake House ferry. It gave also a new shore on the south to a portion of the river, and rendered the turns easy for shipping. The whole of River Street was thus secured. In 1856 the improvement of the harbor at Fort Dearborn was accomplished at a cost of \$40,000, while the improvements in the vicinity of Blocks No. 6, 7 and 14, original town, cost \$43,000. The estimate furnished to Congress of funds required for repairing piers and otherwise improving the harbor, for the fiscal year ending June 30, 1857, was \$138,516.68.

At the time of the survey of April, 1857, the north \*Colonel J. D. Graham's Report to the chief engineer, December 31, 1855.

pier had been extended about two thousand eight hundred feet into the lake. In the map drawn during that year is shown the tide gauge at the shore end of the pier. Some five hundred feet of the shore end of the south pier remained uncompleted, while over one thousand five hundred feet had been constructed, provision having been made for two openings. The map of April, 1857, also shows the pier of the Illinois Central Railroad Company, commencing four hundred feet from the shore end of the south pier, extending one thousand three hundred feet south, seven hundred feet west, about one hundred and fifty feet southwest and then some one thousand two hundred feet south again. The water basin beyond the pier was in progress of being filled with earth.

By the foregoing it will be seen that the work of improving Chicago harbor was one continued series of experiments. From various surveys made from 1821 to 1857, it is shown that the difficulties were of no slight nature. The following figures indicate the progress of accretion, or the rate of motion of the shore line eastward:\*

WHARFING PRIVILEGES,-Closely connected with the subject of the river and harbor improvement of Chicago is the building of docks and the litigation in regard to wharfage property. For many years the land fronting on the river was such an object of controversy between the city and the alleged owners that no uniform dockage improvements were made. In 1833 the town first defined the wharfing privileges so that owners of lots fronting on the river, when the street run down to it, might use all but eighty feet of the thoroughfare for wharfing purposes, on payment of \$15 per year. Stipulations were also made for the purchase, by the corporation, of any improvements on lots leased from the town. In 1835 the canal trustees, under an act of the Legislature, caused a strip of land, lying south of the river (one hundred feet to two hundred feet wide) to be laid out into lots and leased for nine hundred and ninety-nine years. The lessees were to pay quite a consideration and an annual rental of one barley corn: and were also bound to build in two years a dock five feet wide, fronting on the river, which was to be kept open as a tow path. The trustees were required to dredge the river, ten feet in front of the docks, within four years from the sale, the lessees to erect good docks, five feet wide and three feet above the water, within two years from the time of the lease. The sale took place November 26, 1835, at the store of Messrs. Jones, King & Co. Soon afterward the trustees resolved that they would not dredge the river in making leases on North Water Street, and therefore they lowered the price of the lots. To aid in paying for leases, secured notes were taken for from three to six months, for the first quarter of the payment, and three years were allowed in which to pay off the balance. The sale was three times postponed, and when it did take place only six lots remained in market. In November, 1836, the time for payment was extended four months, and when the four months had expired the time was extended indefinitely. Under these and other arrangements a large amount of wharfing property changed hands, and, within a decade, most of it was in dispute either between private parties and the city of Chicago, or between the

\* See topographical description of the locality, and the shore-line map in preceding portion of this work.

city and the trustees of the Illinois & Michigan Canal. The authorities rightly decided that something must be done, and done quickly, to settle the validity of titles, as on account of the bitter disputes, some of the property had been abandoned completely, and the benefits were being derived to a great extent by non-owners. The act approved February 27, 1847, was designed to adjust these titles and settle these disputes. It narrates how those portions of land on South, North, East and West Water streets, in the original town of Chicago, bordering on the river, called wharfing privileges, were a fruitful source of discord, dissatisfaction and illegal violence, and that the owners were not getting the benefits of the property. Power was therefore given the Common Council to vacate these streets, provided that nothing should be done to deprive any one or any corporation (particularly the trustees of the Illinois & Michigan Canal) of any property, without his or their consent. Persons or corporations having claims against the wharfing property were to file them in court, and to abide by its decision, unless an appeal should be taken within ninety days from the entering of the final decree. The principal reason why it was necessary that the title should be settled to this property, as soon as possible, was that the city desired to widen the river in several places, and, it is obvious, that, in order to condemn land for that purpose, it was necessary to fix the ownership of the water lots. Power having been granted to the Common Council to vacate the water streets in October, 1847, that body proceeded, by ordinance, to describe the land, in detail, which it was proposed to condemn for the purpose of widening the river and of forming several artificial basins. The lots on South Water Street were to be fifty-five feet; East Water and Market streets were to be united and called Market Street, whose width was to be one hundred and forty feet; and lots between Randolph and Madison streets were to be sold to owners who were required to excavate to within five feet of the channel of the river. To facilitate the construction of a commodious basin, by the canal trustees, on the North Side, and to deepen and widen the channel of the main river, the city assented to the following street alterations: all of North Water Street west of Wolcott; all of Carroll Street east of the North Branch and east of Water Street from North Water to Kinzie to be vacated, the contemplated basin to be commenced at the channel of the North Branch of the Chicago River, opposite the center of Carroll Street, east to the east point of Block 15, south along the channel of the main river, thence west and north along that channel and North Branch to the place of beginning. The line of the lots in Blocks 1 to 7, of the old town, and Lot 2, Block 1, of Kinzie's addition, be shifted forty feet south of the present line, and the owners of the lots east of the east line of the contemplated canal basin to excavate the ground in front of the new line to the channel of the river, within five years from January 1, 1848. A new street, to be called North Water, was to be laid out and opened from Wolcott Street west to within one hundred feet of the North Branch. In October, 1848, workmen commenced widening the river to the center of North Water Street.

As to the wharfing privileges of the West Side, in January, 1849, the Common Council ordered the dredging of the west bank of the South Branch, from Madison Street to Randolph, thence to Lake and Fulton. The city was to lay out a new street extending from Madison Street to Fulton, and discontinue that part of West Water Street lying between the east line of the new street and the river. As these improvements were

made and the dockage of the city somewhat extended, ordinances were passed imposing fines upon any one who should occupy or obstruct this property without authority from the Common Council. Although these energetic measures had the effect of inducing the improvement of water property, up to 1857 there was only about six miles of dockage built along the Chicago River and its branches, including the improvements in the artificial basins.

### MARINE INTERESTS.

The pioneer of everything in this country of the Northwest is traced to some one of the French explorers. Thus in 1679 LaSalle built the first sailing vessel of the Upper Lakes, and, launching it from Cayuga Creek, a tributary of the Niagara River, departed from "Buffalo harbor" for Green Bay. The figure-head of this crude sailing-craft - a "griffin" - indicated its name. The "Griffin" was therefore the father of the numerous progeny which now cover the Great Lakes, and stretch their wings toward Chicago. The next navigating craft which should be dignified by the name of the "marine of the lakes" were suggested by the requirements of the fur trade, which called for a heavier vessel than the light bark canoe of the early explorers and missionaries. The Mackinaw barge therefore appeared upon the lakes and with it the voyageurs.

"A wild-looking set were these rangers of the woods and waters," says a well-known writer. "Their wierdness was often enhanced by the dash of Indian blood. Picturesque, too, they were in their red flannel or leather shirts, and cloth caps of some gay color, finished to a point, which hung over on one side with a depending tassel. They had a genuine love for this occupation, and muscles that seemed never to tire at the paddle and oar. dawn to sunset, with only a short interval, and sometimes no midday rest, they would ply these implements, causing the canoe or barge to fly through the water like a thing of life; but often con-tending against head-winds and gaining but little progress in a day's rowing. But how sweet was the rest, when a favoring breeze sprung up enabling the little craft to carry sail. Then in came the oars, down lopped each, and in a few minutes all were in the enjoyment of a sound snooze. The morning and evening meal consisted, almost universally, and from choice, of bouillon, a soup made from beans, peas or hulled corn, with a piece of pork boiled in it, and hard bread, or sea-biscuit. To the Northern voyageurs rations were generally served out of one quart of hulled corn and half a pint of bear's grease or oil, this being the daily and only food. The traveler, Henry, says (1776): 'A bushel of hulled food. The traveler, Henry, says (1776): A bushel of hulled corn, with two pounds of fat, is reckoned to be a month's subsistence No other allowance is made, of any kind, not even salt, and bread is never thought of. After supper, pipes were lighted, and, seated on logs, or squatted around the camp-fre, they chatted until bed-time. This came early and required little preparation. To wrap a blanket around the person, placing coat or shoe-pacs beneath the head, and a little greasy pillow—the only bed that was carried—constituted the whole ceremony; and speedy and sound was the sleep, beneath the watchful stars. The labor of the oar was relieved by songs, to which each stroke kept time, with added vigor. The poet Moore has well caught the spirit of the vov-ageurs' melodious chant in his "Boat-song upon the St. Lawrence." But to appreciate its wild sweetness one should listen to the melody, as it wings its way over the waters softened by distance, yet every measured cadence falling distinct upon the air. These songs. usually half ballad or ditty, and love, of course, the main theme, express the natural feelings of a people little governed by the restraints of civilization.'

These barges and sailors were known at Chicago for many years, but about the year 1830 both boats and voyageurs ceased to visit the settlement, as the sloops and schooners then introduced monopolized the lake trade. As regards local marine interests, they, of course, commenced with the arrival of the first vessel at the mouth of Chicago River, after the Government had determined to establish a post and a fort here. In 1795, by treaty with the Indians, the Government came into

possession of a tract of land six miles square at the mouth of that river. To this locality, in the summer of 1803. Captain John Whistler's company was ordered from Detroit to build a fort. While the troops under Lieutenant Swearingen went overland to this point, the schooner "Tracy," under its master, Dorr, was dispatched with supplies, having also on board the family of Whistlers. At St. Joseph River they left the vessel and took a row boat to Fort Dearborn.\* On arriving at Chicago the "Tracy" anchored about half a mile from the shore, and sent her cargo ashore in boats. A sandbar shut up the mouth of the river, but there is no recollection of a sandy island at the mouth, sometimes spoken of. The schooner remained here four or five days, the stores she brought, which were sufficient to last the garrison a twelvemonth, being placed in tents. The soldiers soon made a stockade to protect the supplies from the Indians. While the vessel was there, some two thousand Indians visited the locality, being attracted by so unusual an occurrence as the appearance in these waters of "a big canoe with wings," Lieutenant Swearingen returned with the "Tracy" to Detroit. Being the first vessel of any size which visited Chicago, it is not out of place to say that this schooner and a brig were owned by the Government and were the only craft under national control on the lakes. On its return voyage, the "Tracy" stopped at Mackinaw. A boisterous storm nearly destroyed the little schooner, of only about ninety tons burden, but she finally reached Detroit in safety. In 1809 Ramsey Crooks arrived at the fort on board the "Selina." In 1814 the first merchant brig "Union" was placed on the lakes, but being considered too large (96 tons) she was laid up until the growth of trade called her again into service. Late in November, 1816, the schooner "Hercules" was wrecked in the lake between the two Calumet rivers, and all on board perished. The first intelligence of the fatal catastrophe was communicated by finding the wreck of the vessel, and the bodies of the passengers strewed along the shore. Several days, however, had elapsed before this discovery was made, and the bodies were so beaten and bruised by the spars of the wreck, that the deceased could not be recognized by their features. Among these was Lieutenant William S. Evileth, an intelligent and promising young officer of engineers, whose death was much lamented. He had been employed in the rebuilding of the fort, and had embarked the day previous to the shipwreck, at Chicago, to return to his friends, after a summer spent in arduous and useful service. When the unfortunate young man was found, his face had been so gnawed by wolves that he could not have been identified, had it not been for the military buttons of his clothes.

The "marine interests" of Chicago during these early years were centered in the Mackinaw tradingboats, which belonged to the American Fur Company, and an occasional craft which stopped at the fort on Government business. During a few years succeeding the rebuilding of the fort, quite a number of vessels were built for lake service, but they mostly plied below Niagara Falls. In 1817, very soon after Fort Dearborn had been reconstructed, the schooner "Heartless" arrived off the lake shore. Attempting to run up the river she was beached in the sand. Efforts to float her proved unavailing, and there she remained, a complete wreck, and the first one which occurred within sight of Fort Dearborn. A great event in the history

\* Chicago "Antiquities," interview with Mrs. William Whistler. Also Colonel James S. Swearingen's statements to Rev. Dr. Barry.

\* See Schoolcraft's Narrative Journal for 1820, pp. 393, 394 By other authorities the wreck is said to have occurred early in October, 1818.

of the marine of the upper lakes was the trip made by the first steamboat in the fall of 1818. The "Walkin-the-water," built at Black Rock, arrived at Detroit on August 27, her general appearance being that of a schooner with an engine and two side-wheels. Her engine was not powerful enough to take her from the wharf at Black Rock up the rapids to the lake; so a dozen yokes or so of oxen were employed to assist. The "Walk-in-the-water" was wrecked in Buffalo Bay, November 1, 1821. That boat left Detroit July 31, of this year, and arrived at Green Bay August 5.3 tonnage was three hundred and forty-two, and her engines were what are known as "low pressure." Some time previous to 1819, a few months before Jean Baptiste Beaubien was transferred from the American Fur Company's post at Milwaukee to Chicago, the United States revenue cutter "Fairplay" arrived outside the bar, and then proceeded to enter the river. This task was successfully accomplished, and for the first time a sailing vessel, other than a yawl or Mackinaw boat, was anchored in the river just north of Fort Dearborn. A few years after the "Walk-in-the-water" had been wrecked, various schooners, such as the "Chicago Packet" and the "Virginia," plied in these waters. In 1829, an Ohio distiller, who had touched at Mackinaw, Detroit and Milwaukee, in a vain attempt to dispose of a load of whisky, reached Chicago in his boat. After ridding himself of all but ten barrels, he proceeded on his way to Grand River. But it was not this brisk trade of 1829 which gave an impetus to lake interests; the opening of communication between Lakes Ontario and Erie was what accomplished it. Communication was first established in 1831, via Port Robinson and Chippewa, thence via Niagara River to Lake Erie. The first vessels which passed through were the "Erie" and the "Ontario," two American schooners, followed by the Canadian craft, "Anne and Jane."

During March, 1831, after the United States engineers had suggested a plan for the improvement of the harbor, an appropriation of \$5,000 was obtained for the erection of a light-house. Before it was fairly completed, however, on October 30, of that year, the structure fell. A few hours before it toppled over, so confident were many there was no danger of its falling, that several went upon the top of it, some of the visitors being women. The walls were three feet thick, and the tower had been raised to a height of fifty feet. Samuel Jackson was the contractor. He claimed that the light-house was built on quick sand, which caused the building to settle and fall; others held that the cause was the defective manner in which it was built. Another tower, forty feet high, was begun and completed by Mr. Jackson in 1832. It boasted of a fourteen-inch reflector. Samuel S. Lasby was the first, and Mark Beaubien the last, keeper of the old light-house. During the year 1831 three vessels arrived in Chicago. The first, which came May 20, took away the troops to Green Bay, leaving the garrison in charge of Colonel T. J. V. Owen, the Indian Agent. The year 1832, however, may be considered the commencement of the importance of the lake marine. Not only had communication been fairly established between the Upper and the Lower lakes, but the excitement of the Black Hawk War had caused considerable travel, soldiers coming from the East to the scene of the troubles, and fugitives scattering from the western country towards the East. This Black Hawk campaign was the occasion of the arrival of Chicago's first steamer, the "Sheldon Thompson," in command of Captain A.

\*Letter of A. H. Edwards, page 42, John Wentworth's "Fort Dearborn."

1 statow

Walker. He brought a boat load of General Scott's soldiers, July 10, 1832; also the Asiatic cholera, whose ravages are sufficiently detailed in the article on sanitary affairs. At that time there was a fleet of vessels at anchor in the offing. Some eight days after the arrival of the "Sheldon Thompson" the "William Penn" appeared in Chicago harbor, with troops and supplies. From the year 1832 different steamboats made occasional trips to Chicago, the "Daniel Webster," "Monroe," "Columbus," "Anthony Wayne," "Bunker Hill," and others. In the year 1833, three brothers, Leonard C., Peter D., and Hiram Hugunin, sailed a yacht, named the "Westward Ho," from Oswego to Chicago. After a voyage of nearly three months, they in August arrived outside the sandbar, went ashore, hired eight yoke of oxen, and hauled their vessel over the barricade into the river. The "Westward Ho" may therefore be considered the first lake boat, belonging to private parties, to fairly enter the river. The next year, when immigration to Chicago was active, the vessel interests received added impetus. Early in April a schooner arrived from St. Joseph, Mich., and two vessels cleared for that port. Between the 20th and the 30th of that month no less than one hundred immigrants arrived by boat at Chicago. The most noted of early steamers was the old "Michigan," built by Oliver Newberry, of Detroit, who, for many years, was largely engaged in the commerce of the lakes. This was the first steamboat which entered the river below Dearborn Street, arriving in June, 1834. The appearance of the first schooner, as it sailed up the river to Wolf Point was greeted with even more enthusiasm than hailed this craft. The date was July 12, 1834, and about nine o'clock in the morning the hearts of Chicago's citizens, in the language of the Democrat, were gladdened by the appearance of the splendid schooner 'Illinois," as she came gliding up the river into the heart of the town, under full sail. She was a vessel of nearly one hundred tons, launched during the spring, at Sackett's Harbor, N. Y., and commanded by Captain Pickering. Her topmast was covered with streamers, and her canvas was spread to invite the gentle breeze, the banks of the river were crowded with a delighted crowd, and as she reached the wharf of Newberry & Dole, where she stopped, she was greeted with loud and repeated cheers. Her decks were immediately crowded by the citizens, all anxious to greet her commander with a warm and hearty welcome. The draw-bridge was soon raised, and she passed on to the upper end of the town, came to Ingersoll's wharf in front of the Western Stage Company. On her passage up the river more than two hundred visitors were on board. Two days after the arrival of the "Illinois," came the "Phil-In the fall of 1834 the "Illinois" made her return trip from Cleveland, bringing provisions to the settlers at Chicago and Milwaukee. The old steamer "Michigan," made one or more pleasure trips around Lake Michigan, and she, with her veteran commander, Captain Blake, were great favorites with the traveling public. In 1834 three steamboats landed at Chicago and two at Green Bay. Such was the advent of steamers and schooners into Chicago River, and the heart of the growing town was at last connected with the navigable heart of the great Northwest. Soon afterward a large class of steamers commenced making regular trips from Buffalo, touching most of the intermediate ports. Among the number was the "James Madison," owned by Charles M. Reed, of Erie, and built with particular reference to the upper-lake trade. Her capacity for freight and passengers was the largest upon the lake at

that time. Still later in 1837 came the steamer "Illinois," owned and built by Oliver Newberry and designed for the Chicago trade. She combined strength, speed and beauty, and, under Captain Blake was a favorite for many years. Says Captain Walker (formerly of the "Sheldon Thompson") in regard to the development of steamboat navigation:

"From year to year emigration to Illinois and Wisconsin continued to increase, until a daily line of boats was established between Buffalo and Chicago, while at the same time the public demands were such as to require a still further advance, and a different class and style of boat with better accommodations and increased facilities, suited to the condition and circumstances of a large class of the more refined and wealthy, who were then emigrating and settling throughout your and the adjoining states. And hence the necessity of introducing the upper-cabin boat. When the 'Great Western' first made her appearance upon the lakes, and during the two years in which she was being built, many, who claimed to be judges, expressed doubts of the practicability and seaworthiness of that class of boats. But in a few trips she became a favorite with the public, and, notwithstanding the opinions and prejudices of a few, was the means of bringing about an entire revolution in the constrution of our steam marine upon the lakes, causing all the boats in commission and contemporary with her, to convert their lower-cabins in steerages and freight-holds, and substitute the upper-cabin. \* \* \* 1t is proper here to say that the 'Great Western' was built expressly for the upper-lake trade, and continued to make regular trips for ten successive years. Of the estimation placed upon her during those years, it is not my province here to speak, more than to say that she was designed, modeled by, and under my command during that period. At that time (1838) the principal forwarding houses in the city were Kinzie & Hunter, Newberry & Dole, Gurdon S. Hubbard, Esq., Bristol & Porter, the latter of whom were then agents and consignees for the above-named boats, Mr. Hubbard being the agent for the "Great Western." Subsequently she ran to the docks of Messrs, Walker, Smith and others as her agents and consignees.'

A regular line of steamboats was established between Chicago and Buffalo in July, 1839, a boat leaving and arriving at Chicago every alternate day during the season of navigation. On the 6th of that month General Winfield Scott arrived at Chicago on the steamer "Illinois." The "Thomas Jefferson," "James Madison," "Buffalo" and "Illinois" were put upon the route.

Ship building, according to Captain Peter F. Flood, who arrived from Oswego in June, 1835, commenced in Chicago during that year. The "Clarissa" was begun in the spring of 1835, by Nelson R. Norton, but was not completed, or launched, until May 18, 1836. The "Detroit", Captain John Crawford, was built at Milwaukee in 1836-37 for the Chicago trade, at a cost of \$50,-000. This vessel was lost off Kenosha in November, 1837, after only six months' service. About this time (1836) an association of the then young, energetic and enterprising citizens was formed, and they commenced the building of the steamer "James Allen." It was completed in 1838, Captain C. H. Case having charge of its construction. The boat was built for a company comprising George W. Dole and J. H. Kinzie. Captain Pickering was master of the steamer. The ship-yard was on "Goose Island." The "Allen" was built to be fast, and to run across Lake Michigan from St. Joseph to Chicago, in connection with the stage and mail line. Her hull was narrow and sharp in form, and light in Two powerful, low pressure, horizontal material engines were put on the guards, on the main deck. The boilers were small, and, on trial, proved to be insufficient. When the "Jim Allen" had steam up and started on her trial trip for St. Joseph, she went out of Chicago at a speed that pleased, as well as astonished, her owner and designer. The first fourteen miles were run inside of an hour. Then the engines began to "slow up" and the voyage took about ten hours. Every effort was made to keep up the supply of steam to the two large engines, but the result was the same as experienced during the outward trip. To use the expression of her commander, she would run the first thirty minutes "like a skeered dog," then her speed would gradally slacken to about seven miles an hour, and nothing could coax her to do any better. For two seasons, notwithstanding the utmost exertions taken, there was no improvement in the "Allen's" average rate of speed, and

she was then sold and taken to the lower lakes.

The "George W. Dole" was also built by Captain Case, soon after the completion of the "James Allen," and the two run together over the St. Joseph and Michigan City route. The former was sunk at Buffalo, in 1856, having previously been changed into a sailing vessel. These were the first and only steamers built in Chicago previous to 1842. Captain Case afterward went

to St. Louis.

Among the early ship chandlers were Hugunin & Pierce, Foster & Robb and Dodge & Tucker. George F. Foster came to Chicago in July, 1837, and with his nephew, George A. Robb, opened a sail loft in the attic of a two-and-a-half-story building on North Water Street. In the spring of 1839 they bought out the old firm of Hugunin & Pierce, ship chandlers and grocers, and established the first sail-making house in the West. His sons still continue in the same business.

William Avery, who built the steamboat "Chicago" arrrived at Chicago, February 25, 1837. He was a prominent steamboat builder from 1837 up to the time

of his death in 1840.

In 1842 Captain James Averell established a shipyard, on the North Side, just below Rush-street bridge,\* and very soon after Thomas Lamb commenced business near the same place. In July of that year the "Independence," the first propeller built on Lake Michigan, and the third one ever run on the lake, was launched from this ship-yard. She was a large vessel for those days, being of two hundred and sixty-two tons burden. Abaft the cabin in the "after-run" was placed an engine with which to run a propeller wheel, in case of head winds. The "Independence" was for years a successful sailing vessel, and it is claimed that she was the first steam barge of the lakes. She was wrecked on Lake Superior in 1853. In 1845–46 Captain Averill built the brigantine "S. F. Gale" for George F. Foster. He also constructed many other vessels, and of large size for those days. Among them were the schooner "Maria Hilliard," the brigs "Sultan," "Minnesota," and "Mary," the barque "Utica" and the scow "Ark," one of the first, if not the pioneer craft of that character ever constructed to navigate Lake Michigan.

Until 1841 the steam marine held sway over the lakes, and steamboats were the favorites. The old "North America," "Commodore Perry," "Illinois" and "Michigan," are well remembered. The great line between Buffalo and Chicago, with such masters as Captains Blake and Appleby, served to sustain the reputation of that kind of craft for speed and safety. was sometimes positively thrilling," says Levi Bishop, "to see old Captain Blake on the upper deck in a storm, as he maintained his perfect self-possession and directed the ship beneath him. \* \* The owner of the 'Illinois' was a well known citizen. He was popularly known as the 'Commodore of the Lakes.' was a Whig of the Henry Clay, Daniel Webster, and John J. Crittenden school. He was a patriotic citizen, and, as expressing his sentiments and the true spirit of the State and National government, he placed at the masthead of the 'Illinois,' a steamer nearly or quite forty feet long, with the words 'State Sovereignty and

" Colbert's " Chicago."

National Union' inscribed upon it in large and conspicuous letters. That old steamboat and the national sentiment were the pride of Oliver Newberry, as well as

the pride and boast of all beholders."

The fall of 1841 was marked by a series of obstacles and disasters in communicating with the lower lake ports, and public opinion commenced, especially to be set against steamboat navigation. Many of the boats had already served their day, and their large and ungainly sidewheels were evidently too good marks for the heavy waves of the lakes to miss. The old steamers "United States" and "Chesapeake" and other ancient craft, on their way from Lake Erie to Chicago, were disabled more or less, and in August occurred the burning of the "Erie."

Commencing with 1843, the steamboat had a serious competitor to contend with-the propeller. The "Vandalia," of Oswego, a sloop-rigged craft of one hundred and fifty tons was the first propeller to appear on Lake Erie, and the "Independence," built in Chicago, was launched soon afterward. Within the next two years over twenty new propellers were placed upon the lakes; one, the "A. Rosseter," coming from Chicago. This boat was wrecked on Lake Michigan in 1855.

The ship-yards of Chicago were now beginning to present unusual signs of activity. In 1845 there were constructed the schooners "Maria Hilliard," "J. Young Scammon," and "Ark;" in 1846 the barque "Utica," brig "Ellen Parker" and schooner "N. C. Walton." In 1847 eight schooners had been, or were being built, in Chicago, one brig and one propeller-the "A. Rosseter"—a total tonnage of 4,833. Nineteen schooners, one propeller and one brig owned by Chicago people. The leading ship-builders at this time were Messrs. Jordan, Miller & Conners. The latter afterward formed a partnership with Riordan & Dunn, on the South Side, near Van Buren-street bridge.

The Congressional act for the erection of lighthouses was passed March 1, 1847, when \$3,500 was

appropriated for Chicago.

The year previous Chicago had been changed from a port of delivery, to a port of entry. In 1850 the district was divided so that Milwaukee also became a port

of entry.

Chicago's importance as a marine port was further recognized by Congress in an appropriation of \$10,000 for the erection of a hospital, the act being passed in 1848. The Marine Hospital was built on the east side of Michigan Averue, in the north part of Block 5, Lots 2, 3, 4, and 5, and the south ten feet of Lot 1. These grounds were sold to the Michigan Central Railroad Company, and the building was destroyed during the fire

of 1871.

From 1850 the building of vessels at Chicago, and for the Chicago trade, and their arrivals and departures formed so large an element of her commerce that it is impossible to trace each craft from the stocks to the bottom of the lake, or to record each arrival and departure, as a noteworthy event. It is not only impossible but unnecessary, and only the most important steps in the growth of the lake marine will hereafter be noticed. In March, 1853, daily communication was established with Milwaukee by a line of boats, and in July two vessels of Ward's line were put on. The opposition line started the steamer "Garden City," August 1, and a few days later direct weekly communications were opened between Chicago and Sault Ste. Marie. The "Garden City" was wrecked on a sunken reef off St. Mary River,

<sup>\*</sup> Statistics prepared by Jusse B. Thomas, by authority of the River and Harbor Convention of 1847.

May 19, 1854. Fortunately, all the passengers were saved. At this time Chicago had no life-boat, but was obliged to depend, in time of storm, when vessels were grounded on the bar and the lives of the crews in peril, upon such boats as steamers or propellers then in the harbor might have to send out. After the terrible storm of April 27, 1854, however, by which seven vessels were wrecked and seven lives lost, almost within sight of Chicago, it was urgently suggested by the Press of the city that the Government furnish a life-boat to the port. The harbor master, Captain Edward Kelly, immediately undertook the circulation of a petition for a boat. Two months In October two life-boats were supplied. previous to the time when they were obtained, Colonel Graham, in charge of the harbor improvements, had perfected his plan for the construction of a light-house. It was proposed to extend from the north pier head, crib work north and then west, in order to protect the light from the influence of storms and from contact with spars of vessels. Within this projection he proposed to build the light-house upon nine iron screw piles, eight of them forming an octagon thirty-three feet in diameter, with one in the center. The light-house was to be in the shape of a right prism, five feet above the water level. Above this it was to assume the form of a truncated pyramid, to the height of fifty-seven feet. Upon this a framework was to be erected supporting the watch-house and lantern, and giving seventy-three feet above the surface of the lake for the focal flame.

The increase of tonnage in the district including Chicago, Waukegan and Michigan City, in 1854, was very great. From the 1st of January to the 15th of May there were enrolled at the custom house forty-six vessels, with an aggregate tonnage of 9,496. With a few exceptions these were all owned in Chicago. The

total tonnage of the district was 44,602. Collins

The season of navigation for 1855 was disastrous, the storms raging with unusual fierceness during September and November. Among the casualties of local concern were the wrecking of the brig "Tuscarora" and the explosion of the steam tug "Seneca." The "Tuscarora" went to pieces in the storm of September 18, just outside the harbor, but all the crew were saved. The "Seneca" blew up while passing Randolph-street bridge, October 16, 1855. The explosion tore the upper works of the boat to pieces, and killed the captain and engineer. The "Seneca" was an old boat, having been in use since 18 7. The cause of the explosion was not known, owing to the death of the engineer; but from the fact that the boiler was subsequently taken out of the river, and found to be intact, it is supposed that the explosion was due to a defective steam pipe. During October the schooner "Mark H. Sibley" and the barque "Pathfinder" were sunk in the outer harbor. The season of 1856 was even more fruitful of disasters than the previous year. In May the propeller "Bay State," in approaching the harbor, struck a sunken anchor about forty rods from the pier, and went down in five minutes. The steamer "Northern Indiana" took fire near Toledo, in July, and burned to the water's edge. Some Chicago citizens were on board. The brigs "A. R. Cobb" and "Happy Go Lucky" went to pieces on the pier, October 13. During the storm of October 24, several vessels were wrecked outside Chicago harbor. The scow "Yankee," the schooner "General Taylor" and the barque "Quebec" were all more or less disabled. Several vessels were also scuttled and sunk while attempting to enter the harbor during the storm of November The schooners "N. C. Walton" and "Charles Howard" were wrecked on the pier of the outer harbor, December 2, and a few days afterward navigation closed.

It was during this year (July, 1856) that the first direct clearance was made from Lake Michigan for Europe by the steamer "Dean Richmond." The consignor was C. J. Kershaw, of Montreal, who hoped to ship a full cargo of wheat from Chicago; but here he could only obtain 5,000 bushels and was forced to seek the balance-9,320 bushels-at Milwaukee. She left Chicago about July 14, had her full cargo on the 18th, and sailed for Europe on the 19th. The "Dean Richmond" was a new vessel. She arrived in Liverpool on the 29th of September; the trip from her docks at Cleveland to Chicago being her first, and her European voyage her second. The trade between Chicago and Canada was now gathering considerable volume. In 1857 it amounted to over \$222,000. The vessels regularly engaged in the trade between Chicago and the other lake ports during this year were those of the American Transportation, Western Transportation, Northern Transportation, the Clement Steamboat. and the Lake Navigation companies; and those of the People's Buffalo and Chicago, Old Oswego, Chicago and Lake Superior lines. Quite a noted foreign arrival was that of the "Madeira Pet," which left Liverpool April 24 and arrived off Chicago harbor July 14, 1857, entering the river in the afternoon and anchoring at the north pier. About this time the Democratic Press describes the measures taken to protect the lake marine as:

"First the light-house, well enough when it was built twenty years ago, but now surrounded and shut from the view of the marier by a number of higher buildings between it and the lake—perfectly useless—but lighted up punctually and carefully every night. Then came sundry old houses and any quantity of scows and old dredging machines and piles of timber, rotten and falling to pieces. One cannot help thinking how much good they might have done, if worn out in actual service, or calculating how many dollars were 'sunk' in their construction and accumulation. Then come the piers—gone to decay, under the power of the clements, until it is scarcely possible for sailors to walk along them to carry their lines, and hardly a 'snubbing post' where they can 'take a turn' or 'make fast.' Outside lies the bar. It cannot be seen, it is true, but there it is, and has been these many years, periling property and life, while for more than a year \$18,600 tnexpended appropriation for this harbor has lain in the treasury, and not even a buoy has been placed to mark out the dangers to the tempest-tossed seeking for safety."

The Press drew attention to the effective work which was being accomplished by the Illinois Central Railroad, in the way of piers, breakwater, etc., and suggested that the company and the city take hold of the harbor improvements and "snap their fingers in the face of niggardly Uncle Sam." This crushing course of procedure, however, was not taken, and eventually Uncle Sam came to his senses.

LIGHT-HOUSE KEEPERS.—The first light-house keeper was Samuel C. Lasby, then William M. Stevens was keeper, then John C. Gibson; then William M. Stevens again held the office. The directories of Chicago give the following as light-house keepers, during the periods specified, and John Wentworth\* gives the names of the Presidents appointing them, as prefixed to their names: Harrison—Silas Meacham, 1844; Polk—James Long, 1845 to 1849; Taylor—Charles Douglass, 1850 to 1852; Pierce—Henry Fuller, 1853 to 1855; Buchanan—Mark Beaubien, February 19, 1855, to October 7, 1859, at which latter date he resigned.

CUSTOM HOUSE AND COLLECTORS.†—Before the establishment of Chicago as a port of entry, the town

a" Fort Dearborn," by John Wentworth, LL. D., Fergus's Histrical Series, +Hon. Charles T. Folger, Secretary of the Treasury, courteously furnished valuable information on this subject.

was a tributary to the Detroit District, and the revenue was collected by Seth Johnson, formerly an officer of the garrison, with the office at 38 Clark street. Upon April 1, 1846, William B. Snowhook was appointed special surveyor of the port of Chicago, and after the making of Chicago as a port of entry by the act of July

S. Solmon

16, 1846, on August 10, 1846, he was appointed Collector of the Port; some time during his administration removing the custom-house to No. 3 Clark Street.

WILLIAM B. SNOWHOOK was born in Raheen, Queen's County, Ireland, on March 25, 1804, and left the land of his birth when only eight or nine years old, for New York. At the printing office of Thomas McElrath, he learned the trade, under the tuition of William F. Porter; William B. Snowhook and Horace Greeley working together in this office for some time. About the age of sixteen, Mr. Snowhook paid a visit to Ireland, where he remained for two years, and then went to New Orleans and engaged in building levees by contract, afterward returning to New York and contracting for the building of a portion of the Morris & Essex Canal. The performance of this work gained him a reputation, and he received a contract for building a portion of the Maumee Canal; upon the completion of which he came to Chicago, in the early part of 1836, and, with William B. Ogden, George W. Snow and others, he took a contract on the construction of the Illinois & Michigan Canal. In the directory for 1844 he is designated as a grocer, with his store on Clark Street, near South Water; about 1848 the firm becoming Lonergan & Snowhook, remaining under this style until about 1851, when Thomas Lonergan retired, and Mr. Snowhook gave his attention to the produce commission business, in which branch of business he was a pioneer. Mr. Snowhook raised and equipped the Montgomery Guards, of which company he was Fourth Sergeant, warranted April 8, 1842; First Lieutenant, commissioned May 2, 1842, and Captain, commissioned April 3, 1847, and in 1846, during the Mormon disturbances at Nauvoo, Governor Ford commissioned him Colonel on his staff, Adderman of the Eighth Ward. In 1855 he gave up active business to follow the study of the law, and in 1857 was admitted to ness to follow the study of the law, and in 1557 was admitted to the Bar, varying his legal studies by running against John L. Wilson for Sheriff, in 1556, by whom he was defeated. He also took a course of lectures in the law department of the Chicago University, graduating from that institution with honor in 1858. In 1560 he associated himself with Samuel A, Irvin. In 1861, at the outbreak of the Civil War, Colonel Snowhook was authorized to recruit men for the volunteer service, and was largely instru-mental in raising men for the famed Irish Brigade. For his work mental in raising men for the famed Irish Brigade. For his work in this behalf he received the thanks of the Governor. In 1865 the firm of Irvin & Snowhook was dissolved, and Colonel Snowhook took George W. Gray as a law partner, the firm subsequently becoming Snowhook, Johnston & Gray, and so remaining until the day of his death. on May 5, 1832. Colonel Snowhook was twice married, his second wife dying in 1870. He left two children, Patrick W. Snowhook, a member of the law firm, and Mrs. Mary Tuttle.

On May 3, 1849, Jacob Russell was appointed Collector, and Valentine A. Boyer was Deputy Collector,

VA Boyer

which latter position was occupied by James Breck, Jr., in 1850. In 1852 the custom-house was located at 129 South Water Street. Upon March 18, 1853, William B. Snowhook was re-appointed Collector, Philip Conly succeeding him on July 10, 1855; and in the year 1856 the custom-house was removed to 13 LaSalle Street. In 1856, Philip Conly is designated as sub-treasurer of the United States, and in this year Thomas J. Kinsella was Deputy Collector. March 31, 1857, Jacob Fry was

appointed Collector, retaining that position until June 15, 1858, when Bolton F. Strother was appointed, at which time Frederick C. Russell was Deputy Collector. In 1836, the exports were \$1,000.64, and the imports \$325,203.90; while in 1857 the imports from Canada were \$326,325, and the duties on imports at Chicago were \$143,009.23; while the value of exports, in 1857, was \$1,585,096.

In 1843, there was a Government agent resident at Fort Dearborn named Charles L. Schlatter, who was succeeded by William Gamble, in 1845, whose province was to oversee the improvements made in the harbor; William Gamble remained in charge until the work was taken charge of by the topographical engineers.

## RAILROAD vs. CANAL.

It took many years for the people of Illinois to decide the proper highway over which the wealth of the Northwest was to pass, should be a combination of lake and railroad, rather than of lake, canal and river. The river towns had, since the first settlement, enjoyed a monopoly of the public favor, and even for some time after a few railroads had been chartered, these proposed highways seemed to push towards the river and to promise most of their benefits to the river sections. St. Louis, especially, which had for many years enjoyed a large river trade, was looking for still greater commercial supremacy, whether the rich State to the east should decide to throw its energies into the improvement of the Illinois & Michigan Canal or into the development of a grand railway system. The handiwork of this wealthy Missouri town is early seen in the legislative proceedings of Illinois. The first movement in this State looking toward the construction of a railway was an act passed in January, 1831, authorizing a survey from the bluffs of St. Clair County, along the American bottom, to the Mississippi River, near St. Commissioners were appointed for this purpose. At the same session the commissioners of the Illinois & Michigan Canal were to ascertain whether a railroad or a canal would be preferable between the Chicago and Desplaines rivers. A canal was deemed most desirable. Even the plank roads through Illinois seemed to be naturally tending toward the great river town. Already a State road had been built from Vincennes, Ind., to St. Louis, and was much traveled. In 1832 the Springfield & Alton Turnpike road was incorporated, its river terminus to be in St. Clair County, opposite St. Louis. Chicago was, however, early alive to the necessity of constructing a system of railways which should cut the many ties then binding her own legitimate territory to her old rival. There was yet, another candiate for commercial supremacy in the field, and the State was, for some time, undetermined as to whether the harbor and the canal of Chicago would tend to develop this city into a greater business center than the lead mines would the village of Galena. As previously remarked, the friends of Chicago saw the necessity of doing something to bring her naturally tributary territory into close communication with herself, and, also, by some system which should not pour a flood of advantages into the rich city which sat by the river, waiting to be made wealthier. The agitation of a great central railroad through the State therefore commenced, which was to be operated in connection with the Illinois & Michigan Canal, and to strike the southern border of Illinois, at or near the junction of the Ohio and Mississippi rivers, there to connect with the railway system of the South. The Illinois Central

Railroad may be called the first great "St. Louis cutoff," and as such placed Chicago firmly upon her throne as the magnificent Queen of the West. The preface to this triumphant undertaking was the introduction of a bill in the State Senate, in 1832, by Lieutenant-Governor A. M. Jenkins, for the survey of a central railroad from Cairo to Peru. But public opinion had not yet been molded to see its necessity, and there the project rested. In 1834 the Chicago and Vincennes Railroad was incorporated, but the work was not commenced for many years thereafter. Interest in the Central road was revived by an enthusiastic letter, which appeared in the public prints, written by Sidney Breese, Circuit Judge, afterward Judge of the State Supreme Court, and United States Senator. It is as follows:

"VANDALIA, October 16, 1835.

"John T. Sawyer, Esq.,
"Dear Sir:—Having some leisure from the labors of my circuit, I am induced to devote a portion of it in giving to the public a plan, the outline of which was suggested to me by an intelligent friend in Bond County a few days since (Mr. Waite of Greenville), by which the North may get their long-wished-for canal, and the southern and interior counties a channel of communication quite as essential to their prosperity. In doing so, I have not stopped to inquire if my motives may not be assailed, and myself subjected to unkind remarks, believing, as I do, that the subject is of so much importance as to throw all personal considerations into the shade. The plan then is this: At the junction of the canal with the Illinois River let a railroad be constructed, to extend to the confluence of the Ohio and Mississippi, following, as near as may be, the third principal meridian, and let the credit of the State be pledged for the funds necessary to complete both works. would be doing equal and impartial justice to three of the most prominent portions of our State, and would create a unity of effort and concert of action that would overcome every obstacle. The General Government also would grant some of the unappropriated land on the contemplated road throughout its whole extent in aid of the undertaking, and that it can be accomplished with the means we can raise there can be no manner of doubt. When made its benefits will be incalculable. It will make the southern and interior counties, cause them to settle, raise the value of their lands (which are intrinsically as good as any), and furnish the means of transportation for their products either to a Northern or Southern market, of which they are now destitute. It is a stupendous project, but one so easy of accomplishment, so just, so equal, and so well calculated to revive the drooping energies of the South and of the interior, that no doubt can be entertained, if our effort is made at the approaching session of the Legislature, but that the canal and the road will be under contract in less than six months after the

"No sectional objections can operate successfully against the project, nor will the people complain of a loan the benefits of which are to be so general and so important. Posterity will have no cause of complaint if we do leave them a debt to pay, when at the same time we leave them the most ample means for discharging it. These things have not been regarded in the proper light. No objection should ever be made to incurring such debts when the fund is left out of which to pay them. As well might the heir object to taking his estate of half a million because encumbered by a mortgage of \$200,000. By a united, zealous effort at the next session, an artificial artery through the heart of our State, the fairest and richest in the Union, can be made, which will not be surpassed by the stu-pendous achievements of a similar kind in the other and older States. To avoid jealousies and heart-burnings, let the expenditures on both works commence at the same time and be prosecuted with equal energy, and when this main artery is finished it will not be long before smaller ones branching off to the Wabash and Upper Mississippi will be constructed. Then Illinois will rival any other State of our vast confederacy, not excepting even that which is so

proudly, yet so justly styled the 'Empire State.'
"To ascertain the interests that can be brought to bear in its favor take a map of the State and trace upon it the proposed route, and notice the many important and flourishing counties and towns

it will pass through and which it will benefit.

Assuming Utica or Ottawa as the point at which the canal will terminate, the mouth of the Ohio bears from it some few miles west. To reach it, the road would pass through LaSalle, McLean, west. To reach it, the road would pass through Lassier, steeled, Macon, a part of Shelby, Fayette, a part of Sond, Clinton, Washington, Perry, Jackson, Union, and terminate as above in Alexander County. Pursuing nearly a direct line, it would pass through Bloomington, Decatur, and Vandalia, where it would intersect the National Road, Carlyle, New Nashville, Pickneyville, Brownsville,

Jonesboro, all seats of justice of the counties in which they are situate. Along the whole route, especially on the southern portion of it, abundant materials of the best kind can be had to construct the work. The distance from one extreme to the other, on a straight line, is only three hundred miles, and the necessary deviations from that course will not make it more than three hundred and fifty miles. Three-fourths of it, that is to say, from Utica or Ottawa to Pinckneyville, in Perry County, the surface of the country, of a ray you can determine by the eye, is level or undulating; the remainder is hilly, but by no means mountainons. Taking the estimated cost of the Alton & Springfield road as data (which is on an average a fraction over \$7,000 per mile), the cost of this will not exceed \$2,500,000, a sum insignificant indeed, when we consider the immense benefits to ourselves and to posterity that must flow from its expenditure for such an object. Allowing fifteen miles an hour as the maximum of speed upon it, a locomotive with its train of cars can kindle its fire at Ottawa in the morning and on the next rekindle it at the junction of the Ohio. From this point an uninterrupted communication exists at all seasons with every part of the world, and when the canal and the lakes of the North are locked up by ice the markets of the South can be reached with certainty and speed by the railway and the Mississippi. Let then the South, the interior, and the North unite-let the project be submitted at the coming session, let the loan be authorized, and let us all enter upon it with that determined spirit which should characterize all great undertakings, and success is certain. They who shall be instrumental in its commencement and completion will have erected for themselves a monument more durable than marble, and throughout all future time will receive, as they well deserve, the grateful thanks of a generous people. I hope some gentlemen may feel sufficient interest in this matter to consider it maturely and give the result of their deliberations to the public through the newspapers. It is a great, magnificent, and feasible project. It can, it will, be accomplished.

"I am, sir, very respectfully your obedient servant, "SIDNEY BREESE."

#### THE RAILROAD SYSTEM.

This able letter renewed the waning interest in railroad matters: Meetings were held throughout the State, conventions pronounced in favor of railroad and canal building, and as a result the files of the Legislature were literally weighed down with bills and notices of bills to provide for railroad and canal construction. Many opposed the enterprise in the central part of the State, because it was seen that such a north-and-south line would divert much of the traffic which that section might derive from a road crossing Illinois from east to west. Some localities were pledged to the support of the Wabash & Mississippi. The line of road as traced in Judge Breese's letter did not touch Springfield, and therefore was not looked upon with great favor by the citizens of that place. Those also who were most ardent in their support of the Illinois & Michigan Canal feared that its construction would be delayed by the prosecution of this "stupendous project." Judge Breese never tired in his efforts to acquaint the people living along the proposed route of the road with the advantages of this central artery. He was the prime agent in obtaining the support of Senator Douglas. Chicago also was stretching her arms out toward the South and the West. "Internal improvement" was the cry of every one. With the meeting of the Legislature at Vandalia, in 1836, came also the convention which proposed wilder schemes (for those times, than the "internal improvement" act, which became a law the next year. And the people and the Press were with the convention, for under the plans proposed there was not a "cross-road" in the State which would not in some way be benefited.

The first railroad chartered out of Chicago, upon which work was immediately commenced, and which afterward became an important section of her great transportation system, was the Galena & Chicago Union Railroad, which was chartered January 16, 1836. The document was prepared by Ebenezer Peck and T. W.

Smith, with the object of increasing the value of real estate at both points; but Galena being then the leading village of the West, obtained precedence in the naming of the road. The capital stock was placed at \$100,000, but could be increased to \$1,000,000, and the incorporators were given the choice of operating the road by animal or steam power. They were allowed three years from January 16, 1836, in which to begin work. E. D. Taylor, Jesse B. Thomas, Jr., J. C. Goodhue, Peter Temple, William Bennett, Thomas Drummond and J.

Petro Imple

W. Turner were named as commissioners to receive subscriptions. The survey of the road was begun in February, 1837, by Engineer James Seymour, with his assistants, from the foot of North Dearborn Street, and run due west to the Desplaines River. In June, 1837, surveyors and laborers were discharged. In 1838 work was resumed, piles being driven along the line of Madison Street and stringers placed upon them. These operations were continued, under the direction of E. K. Hubbard, until the collapse of the enterprise during the same year. The ambition of Chicago was evidently a little ahead of her means, and the Galena & Chicago Union had to wait ten years before it was fairly placed upon a successful basis.

On January 18, 1836 two days after the incorporation of the Galena & Chicago Union, the Illinois Central was incorporated. The incorporators numbered fifty-eight and they were empowered to construct a railroad from a point on the Ohio to a point on the Illinois, near LaSalle, with the object of forming a connection between the canal, then projected, and the Ohio and Mississippi rivers, and thence to the Gulf of Mexico. But the charter and the fifty-eight incorporators failed to accomplish anything in the way of railroad building and the "stupendous project" collapsed, remaining in that lamentable condition until revived by its

immense land grant, in September, 1850.

Up to the latter part of 1837 the only road in the State which had been made a success was the "Coal Mine Bluff Railroad," built by ex-Governor Reynolds and friends, and extending from his coal-fields six miles from the Mississippi River, to East St. Louis. Among other difficulties overcome by the energetic young men was the bridging of a lake over two thousand feet across. The road was worked without iron, and with horse-power; was regulary chartered in 1841, and long afterward became known as the "Illinois & St. Louis Railroad." Governor Reynolds' railroad is claimed to be the first one actually constructed in the Mississippi Valley, and within the circumstances, he appropriately asserts "that it was the greatest work or enterprise ever performed in Illinois. But," he adds, "it well nigh broke us all," And the experience of these pioneers with that little six-mile section of road was the experience of hundreds of other would-be railroad builders, who made more ambitious attempts within the next dozen of years.

But the enthusiasm and the sentiment most prevalent during 1836-37 are all incorporated in the "Internal Improvement Act" of February 27, 1837. The canal was progressing; thirteen hundred and forty miles of railroad were to be built; rivers and creeks were to be rendered navigable, and no less than \$200,000 were to be distributed throughout the townships of the State,

which were doomed to exist far away from the line of canals, railroads or navigable streams. To prove the magnificence of this legislative dream, the railroads were to be begun at both ends at the same moment; so that the Illinoisians from east and west and from north to south could experience the greatest happiness in their consciousness of the impartiality and wisdom of their Legislature.

The act appropriated \$250,000 to the Great Western Railroad from Vincennes to St. Louis; \$3,500,000 for a road from Cairo to the southern terminus of the canal and to Galena; \$1,600,000 for a "southern cross railroad" from Alton to Mount Carmel and to Shawneetown; \$1,850,000 for a "northern cross railroad" from Quincy to Springfield and thence to the Indiana line, in the direction of LaFayette; \$650,000 for a branch of the Central road, in the direction of Terre Haute; \$700,000 for a railroad from Peoria to Warsaw, on the Mississippi; \$600,000 from Lower Alton to the Central; \$150,000 for a railroad from Belleville to intersect the Alton & Mount Carmel line; \$350,000 for a railroad from Bloomington to Mackinaw, and a branch through Tremont to Pekin. The total amount appropriated for railroad building was \$9,650,000. William K. Ackerman, in a paper read before the Chicago Historical Society, February 20, 1883, gives the following extract from the report of Murray McConnel, commissioner, to the fund commissioners, which is dated August 11, 1837:

"The kind of iron wanted is of the width and thickness that requires twenty-two tons to the mile, including plates, bolts, etc.

\* \* \* \* If you should believe that iron will decline in price so that the same may be bought next year for less than at present, you may contract for the delivery of thirty miles, say six hundred and sixty tons or thereabouts, as we may not want to use more than that quantity in this district through the next season. \* \* \* \* You will also contract for the building of one locomotive of the most improved plan, and a suitable number of passenger and burthen cars to be shipped via New Orleans to the house of McConnel, Ormsbee & Co., Xaples, Ill."

"The commissioners' report to Governor Carlin of December 26, 1838, gives the estimated cost of this four hundred and fiftyseven miles of road (which covers only a portion of the present line of the Illinois Central) to be \$3,800,145, an average cost per mile of \$3,326. The commissioners, in their report to the Governor, say, 'In making these estimates the board has included all the expend-Easy grades have in general been adopted, and in all cases calculations have been made for the most useful and durable structures; and the board has no doubt but that the works may be constructed upon the most approved plans at the cost estimated upon each work. It is believed that in every instance the lines may be improved, locations changed, and improvements made in the construction that may lessen the cost far below these prices. same piece of road has cost properly built and equipped as it stands to-day \$23,950,456, or an average of \$52,408 per mile. \* \* \* If slight defects have been found in the law organizing the system, or if errors shall have been committed in carrying it into execution, it is what might reasonably have been expected in a system so extended. In locating 1,300 miles of road and performing other duties equally difficult, it could not well be otherwise than that errors of judgment should occur, and that we should be brought into contact with private interests and become the unwilling (though necessary and unavoidable) cause of disappointment to some, and the prostration of splendid but visionary schemes of speculation in

Engineer T. B. Ransom, in his report of December 3, 1838, after noticing the progress of work upon the only section of the great system ever completed by the State a portion of the Northern Cross Railroad), concludes as follows:

"Believing, conscientiously, that the future prosperity and hapiness of the people will be greatly promoted by carrying out the system to its full and entire completion, I am bound to advocate it to the extent of my abilities. So far from its being too large and extended, I believe that it might be enlarged with great propriety and decided advantage to the general welfare of the whole

State (if suitable appropriations were made in addition to those already granted by the Legislature), not only to improve the navigation of our rivers, but in connection with the same to drain the ponds and lakes, which can be accomplished with an inconsiderable expense in comparison to the general utility, health and pecuniary prosperity of the whole State. \* \* \* And it appears to me that even at a period when steamboats are in full operation, the time and risk of life which could be saved by traveling on our roads would enable them effectually to compete with the river communication.

The Northern Cross road from Meredosia, on the Illinois River, to Springfield, was completed in February, 1842, the survey having been commenced in May, 1837. The road cost the State for actual construction \$1,000,000, was operated for five years at a loss, and in 1847 realized \$21,100 in State indebtedness. The attempt to allay local jealousies by starting the different roads simultaneously from each terminus, was one cause of the collapse of the stupendous scheme; as, to do this, immediate and large appropriations were required. The result was that in two years from the passage of the act, the State was checkered with patches of road and had virtually nothing to show for the \$6,000,000 of indebtedness, except a solitary locomotive running over a few miles of the Northern Cross road from Meredosia eastward. The act which had caused all this mischief was repealed in 1839. Far from lifting every community into an unexampled condition of prosperity, the operations of the law laid the basis of the present debt of the State, and the formal abandonment of the improvements undoubtedly retarded its growth.

Upon the suspension of operations on the Galena & Chicago Union Railroad, the people of the Rock River country made several attempts to avail themselves of Chicago's increasing commercial importance. First a plank road was urged to be built from Chicago to the Rock River, at a cost of over \$300,000. Next, in 1843. a survey was made between Joliet and Aurora for a canal to connect the Fox River with the Illinois & Michigan Canal; and the suggestion was favorably received that it would be a plausible undertaking to extend the improvements to Rockford. But these schemes were abandoned, and in 1846, the Chicago & Galena Union was revived by the convention held at Rockford, in January of that year. Delegates, to the number of three hundred and nineteen, attended from all the counties on the proposed line between Galena and Chicago. The officers selected were: President, Thomas Drummond, of Jo Daviess; vice-presidents, William H. Brown, of Cook, Joel Walker, of Boone, Spooner Ruggles, of Ogle, and Elijah Wilcox, of Kane; secretaries, T. D. Robertson, of Winnebago, J. B. F. Russell,

Sto FIT wood W

of Cook, and S. P. Hyde, of McHenry. A resolution was adopted that the members of the convention obtain subscriptions to the stock of the company, if satisfactory arrangements could be made with its holders; and resolutions were also passed, presented by J. Young Scammon, showing the necessity of a general subscription to the stock by the farmers along the proposed route. Galena and Chicago vied with each other in the renewed enthusiasm with which the enterprise was taken up. But about this time Messrs. Townsend and Mather offered the improvements, land and charter of the road to Chicago citizens for \$20,000. The offer was accepted under the following conditions: The payment of the entire sum in full-paid stock of the company-\$10,000 immediately after the organization of the board of directors, and \$10,000 on the completion of the road to Rock River, or as soon as a dividend of six per cent would be earned. On December 15, 1846, the persons named above subscribed toward the expenses of a survey, and had one made during the suc-

ceeding year, by Richard P. Morgan.\*

The Alton & Springfield road had been commenced the previous year, and on February 27, 1847, a charter was granted to the Alton & Sangamon Company, now a portion of the Chicago & Alton system. On the same day the Rock Island and LaSalle line was chartered, the nucleus of the Chicago, Rock Island & Pacific Railroad Company. The "Pacific" termination of the name was early foreshadowed, by the hopeful, publicspirited and, as it seemed to the more conservative, the "crazy" sentiment of the times. During the legislative session of 1847 the following joint resolution was adopted:

" Resolved by the House of Representatives of the State of Illinois, the Senate concurring herein, That we have seen and read with pleasure the very interesting report of our worthy and intelligent Senator Breese, upon the proposition of Mr. Whitney, of New York, on the subject of a railroad from Lake Michigan to the Pacific Ocean, and heartily concur in the sentiments and ideas therein

"Resolved, Further, That our Senators and Representatives in Congress, be, and they are hereby, requested and instructed to use their influence in sustaining the propositions of Mr. Whitney, which have been submitted to the Congress of the United States for a railroad from Lake Michigan to the Pacific Ocean.

"Resolved, That a copy of the above resolutions be transmitted by the Governor of this State to each of our Senators and

Representatives in Congress.

Subscription books were opened at settlements along the proposed line of the Galena & Chicago Union. August 10, 1847, William B. Ogden and J. Young Scammon solicited subscriptions in the city, but could only obtain promises for \$20,000 from all the real estate men or others particularly interested. Some merchants opposed the scheme, fearing it would take the sale of goods from Chicago to points on the line of the road. Up to April 1, 1848, twelve hundred and six subscribers guaranteed \$351,800, on which sum payments amounting to \$20,817.68 were made up to that date. Outside the city there was scarcely any money, and the payment for subscriptions beyond the first installment of two and one-half per cent had to depend upon future crops. The people subscribed as liberally as their limited means would permit, and succeeded in raising a fair amount. Railroad meetings were not frequent in those days, the settlers residing so far apart that they could not assemble on short notice, and those interested in placing the stock were obliged to travel the county to secure its taking. In many settlements the residents were found willing to co-operate, the ladies vieing with the men in their readiness to render assistance. They appreciated how necessary it was to have the road built, and were prepared to make any personal sacrifice to further the undertaking. Many of them helped to pay for the stock subscribed for at their solicitation from the profits derived from the sale of butter, cheese and other household productions, even depriving themselves of the means required to educate their children, that a railroad might be built for the good of that and future generations.

In the first annual report of the Galena & Chicago Union Railroad Company, dated April 5, 1848, William

B. Ogden, the president, said:

"The Michigan Central Railroad Company decided to ter-\*Richard P, Morgan, who died about two years ago, was one of the oldest civil encineers in the United States, and assisted in laying out many of the principal railroads in the Union. He made the experimental survey of the Galena Air Line road, the first railway emanating from Chicago. At the time of his death he was over aintery-two years of age.

minate their road at New Buffalo in July last, and steps were taken preparing the way for an extension of their road to Chicago about the same time. Upon this your directors proceeded at once to announce their intention of opening books of subscription to stock; for the extension of this continuous line of railroad from Chicago westward to Galena. Books were accordingly opened at Chicago and Galena, and at the towns intermediate, on the 10th day of August last and about \$250,000 of stock were then sub-scribed. The first expectation of the board was to obtain a general subscription from the citizens of northern Illinois and southern Wisconsin residing along the line of the contemplated road, and in its vicinity, as indicative of their faith in the profitable character of the roads when constructed, and of the general interest of the people in its construction; and with the aid of this subscription, to open negotiations with and solicit other subscriptions or loans from Eastern capitalists, sufficient in amount to justify the commencement of the work. The amount subscribed, however, on the opening of the books, was so liberal, and the feeling manifested along the line, so ardent and so universal, that it was quite apparent the country and the people immediately interested in the construction of the road, were able to, and would increase their subscriptions to an amount sufficient, in connection with the credits on iron and engines then offered us, to build the road from Chicago to Elgin at once, and own it ourselves. Experienced parties at the East largely interested in railroad stock, and decidedly friendly to the success of the Galena & Chicago road, were consulted, and made acquainted with the particulars of our position at this juncture, and with the proposed plan of obtaining the additional means at the East necessary to secure the completion of the road to Fox River. They were clearly and decidedly of the opinion that the wisest and surest way to accomplish the speedy extension and completion of the entire route to Galena was for the inhabitants along the line of the road to raise means themselves for its commencement and completion to the Fox River and Elgin, forty-one miles, when there was everything to assure us that the comparatively small cost of construction and extreme productiveness of the country tributary to the road would secure such large returns as would enable us to command capital from any quarter, or loans or increased subscriptions to stock for the extension of the road to Rock Island, and to Galena, without delay. This course was adopted, the object explained and approved by subscribers, and further subscriptions solicited and obtained on this basis of operation, to an extent exceeding altogether the sum of \$350,000 (about \$10,000 of stock subscriptions have since been added) and the work was commenced in earnest. A corps of engineers was then (September last) immediately employed to survey and locate the line from Chicago to the Fox River, and prepare it for letting. The time occupied in doing so, has somewhat exceeded what was at first supposed to be necessary, and the road, except the first seven miles, was not prepared for letting until the first of March last, when the grading and bridging of the first thirty-two miles (inclusive of the seven miles let last fall) was put under contract, and on very favorable terms, as will appear by reference to the report of the Chief Engineer."

Under the provisions of the amended charter of February, 1847, the owners of stock met April 5, 1848, and elected the following-named directors: William B. Ogden, president; Walter L. Newberry, Charles Walker, James H. Collins, J. Young Scammon, William H. Brown, John B. Turner, Thomas Dyer, Benjamin W. Raymond, George Smith, all of Chicago; Charles S. Hempstead and Thomas Drummond, of Galena; Allen Robbins, of New York. Francis Howe was chosen secretary and treasurer. Thomas D. Robertson, of Rockford was elected director vice Allen Robbins, resigned, in April, 1849; Dexter A. Knowlton, of Freeport, vice J. Young Scammon, resigned in 1850.

The early canvassing along the proposed line of the Galena & Chicago Union Railroad for subscriptions toward building the road was made by Messrs. Ogden and Scammon, who traveled the whole distance from Chicago to Galena for this purpose, holding meetings and obtaining subscriptions at all considerable places on the route. Subsequently Charles Walker, Isaac N. Arnold, John Locke Scripps, John B. Turner and others canvassed at points on the line of the road. B. W. Raymond and John B. Turner visited the East in 1848, with the object of securing subscriptions to the stock. Their efforts resulted in the sale of \$15,000 of stock, and a

loan of \$7,000. This money completed the road across the marsh to the foot of Cottage Hili. Again they purchased two locomotives from the Baldwin Works. In the meantime, Mr. Ogden, then a member of the Common Council, had introduced an ordinance into that body, which was voted down, proposing to grant the right of way to the road from the west into the city on a line with Kinzie Street, with the necessary privileges for constructing tracks, drawbridges and depots. Notwithstanding which, the contract for the first thirty-two miles of road from Chicago was let March 1, 1848, the first sixteen miles to be finished by August 1, and the balance by October 1, 1848. John Van Nortwick had

Jo Van Motenca

been appointed engineer. George W. Waite, assistant engineer, drove the first grade-peg, near the corner of Kinzie and Halsted streets, in June, 1848, then a point outside the city limits. The Council had refused the entrance of the road into the city; but granted leave to build a temporary track east to the river so that one of the two engines could be brought to the head of the road.

In September the management purchased a locomotive of the Tonawanda (N. Y.) Company, and also one of the Auburn & Syracuse Company. These were fitted up with new gearing and boilers, and the first one was placed on the section between Chicago and the Desplaines River, in November. The "Pioneer" arrived on the brig "Buffalo," October 10, 1848. The engine was taken off the boat on Sunday by Redmond Prindiville, Wells Lake, George W. Waite, George C. Morgan and John Ebert, the engineer. This engine was sold by the Baldwin Company on commission for the Rochester & Tonawanda Railroad Company. It served its purpose well and is in existence to-day, as if waiting some signal act of public approbation.

When the Desplaines River division was in working order, the rolling stock consisted of six old freight cars and the "Pioneer." By November 21 the engine was running daily on the ten miles of completed road, west of Chicago, conveying materials and laborers to carry on the work. The day previous Chicago received the first wheat ever transported by rail. Upon the invitation of the board of directors, a number of stockholders and editors of the city, took a "flying trip" over Chicago's system of railways, then extending ten miles west to the Desplaines River! A couple of baggage wagons had been provided with seats, and at about four o'clock P. M., the train bearing away about one hundred persons, moved from the foot of North Dearborn Street, where a crowd had collected to witness the novel spectacle. On the return trip a load of wheat was transferred from a farmer's wagon to one of the cars, and this was the first grain transported by rail to Chicago. This fact soon became known to the farmers living west of the city, and the company made arrangements to accommodate the expected increase of their business, They at once placed covered cars upon the track, and about a week after the line was open to travel, the business men of Chicago were electrified by the announcement that over thirty loads of wheat were at the Desplaines River waiting to be transported to the city. The expected receipts of the road would amount to

\$15 per day for the winter, and wheat-buyers were informed (partly with a view of increasing the passenger traffic) that they must now take their stations at the Desplaines River instead of at Randolph-street bridge. Facts and statistics were pouring in from Galena also, showing the benefits that would accrue when the line should reach that flourishing city. For instance, in January, 1849, the public were informed that the arrivals in Galena from March 17 to December 6, 1848, were: Keel-boats, 158; flat-boats, 107; that the revenue was \$1,950, and the value of the exports for 1848 was \$1,602,050,40. Furthermore that "a large portion of these will seek an Eastern market by railroad." The citizens of Galena were shoulder to shoulder with Chicago in the building of this road, but rumors were soon affoat that there was a disposition in certain quarters to cut off that thriving town from the benefits of the road which she was doing so much to build. To allay these suspicions, at the annual meeting held April 5, 1849, the stockholders resolved that Galena was the true terminus of the road and that "any diversion would be a violation of good faith, a fraud on the stockholders and an illegal perversion of the charter." \$150,000 loan, authorized in May, 1848, to be negotiated, \$71,700 had then been expended.

Henry W. Clarke, DeWitt Lane, now of Lane's Island, and Major James Mulford, were the commissioners appointed to procure the right-of-way for the Galena & Chicago Union Railroad, and to assess damages within Cook County. This work was undertaken in March, 1849. The commissioners were accompanied by William B. Ogden, John B. Turner, John Van Nortwick, engineer, James H. Rees, "Ogden's own surveyor," and a few others. When the party reached Harlem, then called Oak Ridge, the commissioners agreed that the assessment of damages for right-of-way should be merely nominal, and from this agreement resulted the offer of six cents to each land-owner along the route. This offer was accepted without dissent, quit-claim deeds were made to the company, and the

roadway was secured.

The total earnings of the road from the commencement of business in January, 1849, to December 1, 1849, were \$23,763.74; from December 1, 1849, to December 1, 1850, \$104,359.62. By January, 1850,\* the main line had been extended to Elgin, forty miles west of Chi-cago, and Galena was still cut off from railroad communication; her ambition, finally, was not to be realized through the instrumentality of the road which she was helping to build. Another rival for popular favor was reaching out its giant arms to embrace, at least, the

territory of a great State.

The superstructure of the road was completed to Elgin, January 22, 1850, the length of the main track from the North Branch of the Chicago River to the western terminus being 42.44 miles, which, with side track 1.88 miles, gave a roadway of 44.32 miles. The amount expended on this superstructure was \$164,131.87. The stock of locomotives and cars May 1, 1850, was as follows: One ten-ton locomotive (second hand), sixwheeled, two drivers; three fifteen-ton locomotives (new Norris's) eight-wheeled, four drivers; thirteen double covered freight cars; sixteen double platform freight cars; three single covered freight cars; six single platform freight cars; eleven gravel repairing cars; four hand cars; two passenger cars (new), one of fifty-six and one of sixty seats; two passenger cars (old) forty seats each; two baggage and accommodation cars of eight wheels each.

The progress of the road from June, 1848, to April 31, 1850, is shown in the following table:

from June 1, 1849, to April 30, 1850, was 37,524. The inner history of the Galena & Chicago Union Railroad is most valuable, for the reason that it goes into such details as are not generally given in annual reports. Such facts, as a reminiscence could only contain, have been fortunately noted down by one who was himself a most important pillar of Chicago enterprise. In J. Young Scammon's biography of William B. Ogden this history appears to be well and impartially treated; and, therefore, in justice to the men named, is here given so much of that sketch as relates to this road and its builders.\*

"In the winter of 1846 a convention was held at Rockford, the half-way house between Chicago and Galena, to favor the There was a large meeting, attended by persons from Galena to Chicago. Thomas Drummond, then residing at Galena, presided over the assembly. The late William H. Brown, always a director and subsequently a president of the Galena Company and of the Chicago Historical Society; with Benjamin W. Raymond, our ever public-spirited citizen, and more than once Mayor of the city, and a director of the road till it merged in the Northwestern, and who still remains among us to witness and rejoice with others over the success of his faithful public efforts, was among the active men there. Isaac N. Arnold, so long and favoramong the active men there. Isaac N. Arnold, so long and lavorably known in the politics of Illinois, and as a Representative in the late War Congress of the United States, and long a leader at the Chicago Bar, now President of the Chicago Historical Society, and devoting the calm of mature years to literary work, with Gen eral Hart L. Stewart, one of Chicago's oldest citizens, whose whole life has been spent in building public works west of Lake Erie, in Michigan, upon the Illinois & Michigan Canal and elsewere—and in the public councils of the State or official positions under the Government-rode in the same carriage with the writer, and were active participants in the work of the convention, as was Thomas D. Robertson, of Rockford, for many years a director of the road. We were two days on our journey each way, spending the night at Elgin, then a little hamlet. The landlord there told us that he was against railroads They were bad things for farmers and hotel-keepers, but good for 'big fellows at the ends of the road.' He 'intended to make money while the road was building and then sell out and go beyond them.' He declared that Elgin would cease to

be a place of business as soon as the railroad went beyond it.
"The meeting was harmonious and quite unanimous in its action; the only exception being a tavern-keeper at Marengo, who, fearing that his business would be injured by the road, appeared with his friends in the convention and denounced railroads as 'un-democratic aristocratic institutions that would ride rough-shod over the people and grind them to powder. The only shod over the people and grind them to powder. The only roads,' said he, 'that the people want are good common or plank

roads, upon which everybody can travel.

"In the fall of 1847, Mr. Ogden and the writer traveled the entire distance from Chicago to Galena together, stopping at all the principal intermediate places, making speeches for the road, and going into the highways to compel men to come in and help the enterprise, even if they could not take more than a single share of stock. Many farmers and other persons, be it said to their credit, did come forward and subscribe, though they had to borrow the first installment of two dollars and fifty cents on a share

<sup>\*</sup> See Bross's History, page 121.

<sup>\*</sup> Fergus's Series, Biography of William B. Ogden.

and get trusted 'till after harvest,' for the same. Mr. Ogden was in his element in such enterprises. His go-a-headativeness here Mr. Ogden was gave full play to his imagination, and filled not only himself, but his hearers with high hopes and generous courage. When it is remembered that it cost five bushels of wheat, and often from four days' to a week's journey to Chicago with a load of grain to get the first installment of a single or few shares of stock, none ean doubt

the public interest in the enterprise.

At Galena, business men and bankers were fearful of the effect of the railroad upon their town. Among its chief advocates there were Judge Drummond, C. M. Hempstead, Elihu B. Washburne, and Thomas Hoyne. Galena had long been a very prosperous town at the head of navigation on Fever River, and the great lead-mining center and mercantile distributer for northwest Illinois and southwest Wisconsid, and the country north in the mines. The great obstacles we met there were two; one the local effect upon the town, and the other the fear that before the road should be completed the en-terprise would break down, the small stockholders sacrificed, and the road pass into the hands of the large capitalists. We had to meet these objections by the promise to respect and protect the local interests of Galena, to whose capital we were much indebted in starting the work, and a pledge that until the stock rose to par, and was saleable at that price, we would never allow the work to proceed faster than its ready means would justify without endangering the capital invested. This promise was faithfully kept so long as these two persons remained in the directory. It has been said in justification of the abandoning of the west end of the line to the Illinois Central Railroad, that Galena was doomed, and a different course could not have saved it. The writer dissents from this proposition, and believes that if the pledges Mr. Ogden and he made at Galena had been faithfully, energetically, and courageously earried out, Galena would have been greatly benefited, and its importance and business permanently advanced. But whether this opinion be correct or not, Galena was a pioneer in the work, and the company had no right to sell her birthright to the Illinois Central Company, would not have been done had the two most active directors, who were among the largest subscribers to the stock, when the company was re-organized in the writer's office, on the southeast corner of Lake and Clark streets, in the old Saloon Building, in the city of Chicago, in 1847, remained in their positions in its management,

"In a paper read before the Chicago Historical Society, by Mr. Arnold, December 20, 1881, on the occasion of the presentation, by Mrs. Ogden, of a portrait of her late husband, it is said the officers of the road, after he [Mr. Ogden] had been compelled to retire, had received a public dinner (1 think at Elgin) in which they drank toasts to each other and everybody except Mr. Ogden. The omission of his name, the man who everyone knew had built the road, only made nim the more prominent.' If such an occasion took place, the occasion must have been more marked by the absence of the original and most efficient projectors of the road than their presence. There were officers of the road that were engaged in speculating along its line, as was confessed some years later, when one of them was made a scapegoat. Public allusion having been thus made to these personal troubles in the board of directors, it becomes proper to explain the same somewhat, as in doing so a trait in Mr. Ogden's character and conduct presents him in very bold and advantageous relief, when compared with that of in very bold and advantageous rener, when compared on some of his associates. Chicago at that time was a comparatively small and very ambitious city. It had three divisions, occasioned by the river and its North and South branches, which run almost at right angles with the main river, leaving east of them the North and South divisions, and west of them the West Division, extending the whole length of the eity. Such divisions always create local jealousies, and the selfish interests excited are often difficult to manage or control. Mr. Ogden resided on the north side of the river, as did three other directors, Walter L. Newberry, Thomas Dyer, and John B. Turner. Two, Thomas Drummond and Charles M. Hempstead, lived in Galena, and one, Thomas D. Robertson, in Rockford, while the five others, Benjamin W. Raymond, George Smith, Charles Walker, James 11. Collins, and J. Voung Scammon, lived in the South Division, which was then, as now, the principal bus iness and commercial portion of the town. Mr. Ogden being especially identified with the North Side could not exercise as much influence in obtaining subscriptions to stock in the business portion of the town as some of the South Side directors, as he was accused, by those who never suppose other than solely selfish motives can influence action, of 'wanting to build a railroad that would never pay, to help him sell his lots.' The gentlemen on the North Side naturally desired the road to cross the North Branch, and locate its depots or stations in the North Division; while the West Siders could see no necessity of expending money to cross the river, because the West Side was the largest division of the city and the nearest to the country. In the railroad work, either because Ogden and Scammon had more time to devote to it, or for some other reason, they became the specially active representatives of the road on their respective

sides of the river. The out-of-town directors could rarely attend its meetings, or only when very important questions demanded their presence. These two men gave very much of their time to the en-prise; Mr. Ogden receiving a small salary in stock, and the writer no compensation, except for legal services when required by the Ogden and Scammon traveled over the country together; board. visited Albany and Boston in the interests of the road in company visited Albany and Boston in the interests of the road in company with the late Erastus Corning, then president of the New York Central Railroad and the controlling spirit in the Michigan Central, the only road then in operation west of Lake Erie. They hoped to interest the Boston gentlemen who were stockholders in and engaged in extending the Michigan Central to aid in building the Galena. They called upon the Michigan Central directors, and especially upon William F. Weld, an iron merchant in Boston, who had then the reputation of being 'the Railroad King.' They were very kindly received and entertained by John M. Forbes, then a director of the Michigan Central and a wealthy East India merdirector of the Michigan Central, and a wealthy East India merchant, and since long identified with the Chicago Burlington & Quincy road, and one of its principal stockholders, Mr. Weld said to us: 'Gentlemen, I do not remember any enterprise of this kind we Boston people have taken hold of upon statistics. You must go home, raise what money you can, expend it upon your road, and when it breaks down, as it surely, or in all probability will; come and give it to us, and we will take hold of it and complete it, as we are completing the Michigan Central. A resolution was then formed though not publicly expressed, that the Galena should not break down. We came home, sought and obtained subscriptions to the stock of the road upon the pledge that the stock should never be endangered until it rose to par, and the holders had an opportunity of selling their shares at that price. This pledge

"An opportunity occurred, as we were commencing the work, of buying the old strap rail which was being removed from the Rochester & Canandaigua road, to be replaced with T iron, together with two little second-hand passenger cars and two like engines, for \$150,000, on a credit of five years, if the writer recollects correctly, provided two of the directors would endorse the This would require each of the thirteen directors to make himself responsible for a little over one-sixth part of that sum as guarantee of the Galena company. There was one director who said 'he never endorsed other people's paper,' and declined to do so, though he was subsequently made president and claimed credit for building the road, with what propriety and how justly, in comparison with the endorsers, let others judge. All the others made the requisite endorsement, with the understanding that we were to stick together and re-elect the old board until these bonds should be paid. We went ahead with the road and had got out west nine or ten miles, across the wet prairie, to the sand ridge, where the teams from the country met us, and transferred their loads to the cars, making the road pay as soon as the first section was completed. We were so encouraged that we thought there ought to be no doubt about raising money to push the work. Mr. Ogden, as president, had boldly made some contracts with McCagg, Reed & Co., and others, for ties and lumber, based upon expectations of raising money in New York or at the East. A committee, consistraising money in New York or at the East. A committee, consisting perhaps of Messrs. Ogden and Raymond, went to the East for that purpose. They returned unsuccesful. A meeting of the directors was called. It looked blue. To go ahead would endanger the stock. To stop entirely would be a fulfilment of the Rallroad King's prophecy. Mr. Ogden was embarrassed. He knew that many of the public had no faith in the railroad, and believed it to be, on his part, an undertaking to aid him in selling his town lots, they saying that he could well afford to lose his stock if it would help him to sell his land. Most of the other directors were fearful. Mr. Raymond was hopeful, and Walker, Collins and Scammon, courageous. The latter said he believed arrangements could be made to defer or extend the contracts, and to bridge over the time till the installments on the stock that would be paid after the harvest should be realized, when the work on the road could proceed slowly, yet successfully. Mr. Dyer, who then owned the Lake House in the North Division, and was very anxious that the work should go on and the road be extended to the lake, so as to benefit his property, lost faith. The writer called him 'a doubting He replied, 'If Mr. Scammon has so much faith in the road, I move that a committee of five be appointed, with full power to do anything which they deem expedient, in regard to the road, and that Mr. Scammon be chairman of that committee, and be authorized to appoint his associates.' This was agreed to, and committee, consisting of Mr. Scammon, James H. Collins, Charles Walker, Thomas Dyer, and Mr. Raymond, appointed to have charge of the subject. This committee gave the writer carte-blanche. He immediately applied to George Smith, the only banker in the place who could make such a loan, \$20,000 for six months, to enable him to go on with the road. Mr. Smith declined, though director of the road, and desirous of seeing it completed. He was asked why; if he had not the money. He replied, 'Yes, but I do not wish to lose it. I have no confidence in the road.' Mr. S. rejoined, 'Don't you think I can build the road to Elgin with the \$\frac{8}{3}\),000 stock subscriptions we have of farmers, which are good and sure to be paid? He answered, 'Ves, but you are not the president of the road.' Mr. Scammon rejoined, 'bon't you think Mr. Ogden can?' Mr. Smith said, 'He can, but he won't,' adding, 'Mr. Scammon, I will lend you the money.' The writer replied, 'Make out your note, and let me have it.' He did so, and the money was taken and placed in the treasury of the company, no other person in the road, except those connected with the loan, knowing from whence it came, except the treasurer the late Frank Howe. This, with arrangements that were made for extending contracts, enabled the road to meet its engagements, and prevented any suspension of work thereon. The road was pushed and completed to Elgin. It did not cost much money in those days to build a flat railroad on mostly level land. Yet to obtain the small amount necessary, required, at that time, more courage and perseverance than is now requisite to build a road across the continent. The careful economy exercised in the building of this forty miles was nevertheless very conspicuous. We had money enough only to build the track with very few accessories 1t was a single straight line—hardly mcre. Station-houses, sidings, turn-outs and turn-tables had to be, for the most part, deferred to the future.

"An incident occurs to the writer which may be worth recalling. Upon the completion of the road to Elgin, a general invitation was given for an excursion over the forty miles between Chicago and that place. Among the party was an Irish engineer, who had published, in Dublin, a work on railroad engineering, which he had with him in bright red binding. On alighting from the cars in Chicago, on our return, the writer asked him what he thought of our road. He replied: 'If it is the engineering you're asking about, I don't think anything of it. We would spend more in the old country, upon the engineering of a single mile, than you

have spent upon your entire road.

In the meantime rivalries between the west and north sides of the river had sprung up, and some of the North-Side directors became suspicious that Mr. Ogden did not want to extend the road across the North Branch into the North Division, because his greater interest was on the West Side. The temporary depot was then there. Some of the directors proposed to the writer to accept the presidency of the road. Upon this being declined, it was proposed to make him treasurer and financial agent. This was also declined, for the reason that it would too much interfere with professional work, which the writer was unwilling to give up. Meanwhile, certain officers of the road had been busy misrepresenting Mr. Ogden's actions and intentions to Mr. Scammon and Mr. Scammon's to Mr. Ogden, until the latter was led to believe that there was a conspiracy to turn him out of the presidency and elect the writer in his stead. A counter movement was therefore undertaken by Mr. Ogden and the few who were in his confidence. This movement was not discovered until a few days before the election. Nine of the directors were very much surprised to learn it, and all of these nine sided with the writer. What combinations had been made, and how many proxies were held by the parties in this movement, were unknown. We started for Elgin, where the meeting was to be held. Mr. Ogden's party, with Mr. Arnold as their attorney, went in one car, the other Chicago directors in another. On the way out, the writer said to the directors who were in the car with him, that he had been thinking over the matter, and had come to the conclusion that inasmuch as we did not know how strong the other party were, and what they intended ultimately to do, the better way would be to propose to them that the writer would decline a re-election upon condition that all the other directors should be re-elected without opposition; and he said he would name, as his successor, Mr. Knowlton, of Freeport. other party would be obliged to accept this, or lose Mr. Knowlton's and the other Freeport votes, which would certainly defeat them. That we could not afford to have an open quarrel, which might hurt our credit and embarrass the progress of the road. The directors with the writer replied, if Mr. Scammon is willing to make this proposition they thought it would succeed, but no one could ask it of him. He replied, that he was more interested in the completion and success of the road than in any personal question; that he had worked solely in the interest of the road as a public improvement demanded by the country, and had no selfish axes to grind, and he would make that proposition, and trust to time for his justification. It was made, much to the surprise of the other party, and after some hesitation or consideration, as it 'broke their slate,' it was accepted. Mr. Ogden was re-elected president; but no sooner was Mr. Scammon out of the directory than all the bat-teries of the conspirators were turned against Mr. Ogden, and his place was made so uncomfortable that at the end of the year he left the road. Immediately after the election, the nine directors called the conspirators to account; and there was a confession that the writer had been grossly misrepresented and improperly treated, and a promise made that a proper explanation should be made. never done. But William B. Ogden acted otherwise. When he learned the facts, and that we had both been made the victims of ambitious and designing men, who wished to get rid of the writer, because he had nipped in the bud their first attempt at speculation in the location of the road, and prevented its repetition, and because they knew that they were watched, and so long as he was in the board such movements were likely to be detected and defeated, Mr. Ogden came directly to the writer, and, on learning what statements these parties had made to the latter, relative to Mr. Ogden, at once frankly acknowledged that in his action he had been misled and imposed upon by those he trusted, and that the writer's conduct, to which he had taken so grave exception that he felt justified in self-defense to enter into combination to defeat his re-election, was entirely in the path of right and duty, if the writer believed the representations made to him, as he was bound to do within the circumstances.

THE ILLINOIS CENTRAL RAILROAD COMPANY. Judge Breese's stupendous project, which had been lying dormant, but not dead, since the bursting of the internal improvement bubble in 1839, was taken up with renewed energy in 1848. John S. Wright, who had early taken a deep interest in public enterprises, and was a man of great foresight, energy and enthusiasm, was actively employed in circulating petitions and documents in favor of a land grant from the General Government to assist in the construction of the road, while the father of the enterprise, Judge Breese, was giving his time and energies to it in the Senate of the United States. Mr. Wright flooded the country with documents laying the matter before every class of people. He is said to have distributed at his own expense six thousand copies of petitions to Congress for a grant of land in aid of a railroad from the Upper and Lower Mississippi to Chicago. Three different ones were prepared-for the South, Illinois and the East. Judge Douglas said they came to Washington by the hundreds, numerously signed and had much influence, being the earliest move-ment for this object outside of Congress, except by the Cairo company. Arrangements were then January, 1848), being made to continue the Michigan Central Railroad from New Buffalo to Chicago, sixty miles, which, with the road then building across Canada, would connect the city with the East. The Galena & Chicago Union Railroad had been surveyed. The proposed Buffalo & Mississippi road via Chicago to the mouth of Rock River was to be extended, in time, to Council Bluffs. An ardent admirer of this project and a warm practical supporter, and a hard worker to make the enterprise a success was Hon. Stephen A. Douglas. The Illinois Central from Cairo at the mouth of the Mississippi to the canal was designed to be a most important link in the great system of communication between the lakes and the Mississippi, as that river as far south as Cairo was open to the gulf at all seasons of the year.

The original bills, introduced by Judge Breese, as he himself says in a letter to Senator Douglas, published in January, 1851, did not contemplate a connection with Chicago. They confined the roads to the routes from Cairo, by Vandalia, Shelbyville, Decatur, Bloomington, Peru and Dixon, to Galena. In 1847 Senator Douglas made Chicago his home, and he, in connection with other large property owners, determined to establish a line binding the Northwest with the lakes. Thus many friends were secured for the measure in the northeastern and middle States, who did not favor a proposition having for its natural tendency the diversion of trade from the Upper Mississippi toward New Orleans alone.\*

The bill was reported by Judge Breese, chairman

<sup>\*</sup> See letter from Senator Douglas to Judge Breese, published in Weekly Democrat, March 1, 1851.

of the committee on public lands, the same year, but did not meet with further consideration.

On the 11th of December, 1848, in the United States Senate, Mr. Douglas gave notice that he would introduce a bill granting the right of way and making a grant of land to the States of Illinois, Mississippi and Alabama in aid of the construction of a railroad from Chicago to Mobile. The bill was introduced on the 18th of the same month, read twice, and referred to the committee on public land, of which Judge Breese was

In Douglus

chairman. On the 19th of December Judge Breese reported back the bill without amendment and it was ordered to be printed. On the 30th of January, 1849, Judge Breese moved that the prior orders be postponed for the purpose of taking up the bill. The Senate was in committee of the whole proceeded to its consideration. Mr. Breese submitted sundry amendments, but moved that the printing of them be dispensed with. Mr. Dodge, of Iowa, suggested a further amendment so as to provide for terminating the road at Dubuque, on the Mississippi River. Mr. Breese then amended by inserting after the word "Galena" the words "to the Mississippi River opposite Dubuque." No further amendments being submitted the bill was reported to the Senate, when the several amendments were concurred in. The bill was then ordered to be engrossed and read a third time, and was subsequently by unanimous consent taken up and passed in the Senate. In the House at this session it failed, but the matter having been so fully and fairly presented, ripened it for its subsequent passage in 1850.

General James Shields was sent to Congress as the the successor of Judge Breese. In December, 1849, Congressman Shields and Senator Douglas, supported by the other Illinois members, prepared the bill, which was introduced into the Senate by Mr. Douglas in January, 1850. It passed the enate May 2, and the House of Representatives September 20, 1850. Its triumph in that body was largely due to the energy and ability of Hon. John Wentworth, the Representative of this district, and the late Governor Bissell, then a member of the House. At the same time a strip of land between LaSalle and Cairo, two hundred feet wide, was granted to the State for the uses of road-bed, side-tracks, and stations of the Central Railroad. The main grant of which this was supplementary, was 2,595,000 acres in the heart of the State, or alternate sections designated by even numbers for six sections deep on each side of the main line and its branches, and for lands sold or preempted within those sections, an equal quantity within fifteen miles on each side of the line, on condition that the grant would be controlled by Illinois, and when the road should be built would be free to the General Gov-

Sivry Beese

ernment. The minimum price was fixed at \$2.50 per acre, but in 1852 \$5.00 per acre was realized.

This was the precedent of railroad grants, refused to the roads then completed, viz.: Chicago & Galena from Chicago to Elgin; a section of the Northern Cross Railroad, from Naples and Meredosia to Springfield, and six miles of Governor Reynolds's track from a point opposite St. Louis to the Bluff coal mines. What new hopes the great land grant built up may be learned from the repeal of the act canceling the Great Western Railroad Company's charter, and the regranting of the charter to the Cairo City & Canal Company, with additional privileges. This transaction, known as the "Holbrook Charter," became notorious; so much so that Douglas prevailed upon D. B. Holbrook, president of the Cairo company, to yield up to the State the charter, which surrender was made December 24, 1849.

During the previous month, November 5, 1849, the act to provide for "a general system of railroad incorporations" went into effect. It provided that not less than twenty-five persons might form a railroad corporation, and elect directors when \$1,000 of stock per mile should be subscribed, and ten per cent paid in. Thirteen directors were to be chosen, at least seven of whom must reside in the counties through which the road was to run. Rules were laid down for the conduct of the directors, making the stockholders individually liable to the creditors of the company to the amount of stock held by them. Every company before proceeding to construct their road through any county was to make a map of its route and file it in the County Clerk's office. The corporation was not to interfere with navigable streams, or obstruct roads and highways. The compensation for any passenger and his ordinary baggage was not to exceed "three cents per mile, unless by special act of the Legislature." Rules were also laid down for obtaining the right of way Each employé was to be appropriately "labeled" with his company's badge. Annual reports were required to be made to the Secretary of State, and the railroad property listed by the proper officer, the State having a lien upon appurtenances and stock, for penalties, dues and taxes. The act admitted the right of the Legislature to alter rates, if the profits were not reduced less than fifteen per cent per annum on the paid up capital. Three commissioners, appointed by the Governor, were to fix the rates of transportation for the United States mail, in case the railroad could not agree with the General Government. Should a passenger not pay his fare the conductor was authorized to "put him off." Under no circumstances were freight cars to be placed behind passenger coaches, and at least a thirty-two-pound bell or a steam whistle was to be placed on the locomotive, and worked at least eighty rods from a railroad crossing. Penalties were provided for a violation of these sections. "Warning boards" were to be erected, on which were to be painted, in capital letters of at least the size of nine inches-" Railroad Crossing-Look out for the cars while the bell rings, or the whistle sounds." This was not to apply to city streets.

By act of the General Assembly, approved February 17, 1851, an act entitled "An act to incorporate the Great Western Railway Company," approved March 6,

1843; "An act to amend an act entitled an act to incorporate the Great Western Railway Company," approved February 10, 1849, and "An act to incorporate the Illinois Central Railroad Company," approved January 16, 1836, were repealed. By section 3 of the same act the grant of Congress approved Sep-

tember 20, 1850, was accepted.

Prior to the passage of this wholesale repealing act, a memorial was presented to the General Assembly. It is dated December 28, 1850, and signed by Robert Schuyler, George Griswold, Gouverneur Morris, of Morrisania, Franklin Haven, David A. Neal, R. Rantoul, Jr., J. Sturges, Thomas W. Ludlow and John F. A. Sanford. The memorialists offer to build a road from Cairo to Galena, with a branch to Chicago, on or before July 4, 1854, "as well and thoroughly built as the railroad running from Boston to Albany," agreeing furthermore, in consideration of the charter and the land grant to "pay annually — per cent of the gross earnings of the said road." The general reader may be glad to learn that this blank was filled with a "seven" and that this agreement became one of the corner-stones of the financial stability of the State of Illinois.\* On February 10, 1851, the Legislature, declaring that in its judgment the object of incorporating the Central Railroad Company could not be attained under general laws, passed an act incorporating the Illinois Central Railroad Company. The event was celebrated in Chicago by a popular demonstration of favor. The corporators were the memorialists mentioned above, and Henry Grinnell, William H. Aspinwall, Leroy Wiley and Joseph W. Alsop. These gentlemen, with the Governor of the State for the time being, were constituted the first board of directors.

To this company the congressional grant of right of way and public lands, together with "the right of way which the State of Illinois has heretofore obtained;" the lot of land obtained by the State within the city of Cairo for a depot; "all the grading, embankments, excavations, surveys, work, materials, personal property, profiles, plats and papers constructed, procured, furnished and done by or in behalf of the State of Illinois, for or an account of said road and branches, and the right of way over and through lands owned by the State," were "ceded and granted," and the company were required to execute a deed of trust of all this property, together with "the railroad which may be built," to Morris Ketchum, John Moore and Samuel D. Lockwood, trustees, to secure to the State the first lien on the property so conveyed, the construction of the road, and the indemnification of the State against the claims of the United States, in case the road should not be completed within ten years as required by the act of Congress of September 20, 1850. Thus the magnificent grant to the State was relinquished to a private corporation, not without strong opposition, however, for there was a deep feeling against the measure. The magnitude of the grant was so overpowering to the minds of many good citizens, that they argued earnestly that by proper management the State might not only build the seven hundred miles of railroad, but from the proceeds of the lands pay off a burdensome State debt of many millions of dollars besides. Doubtless this might have been possible, but the opportunities for "steals" might not have been easily resisted. John S. Wright published a pamphlet in which he insisted that the State would be "everlastingly dishonored if the Legislature did not devise laws to build the road, and disenthral the State of its enormous debt besides, out of the avails of this grant." The company negotiated a loan of \$400,000, but the money could not be realized until there should be a conveyance of the lands from the General Government. In this there was some delay. Justin Butterfield, the commissioner of the general land office, at Washington, who was from Chicago, construed the grant as entitling the company to lands for the Chicago branch, on a straight line to Chicago, which would avoid the junction with the Michigan Central. After some vexatious delay this construction of the act was overruled by the President and Secretary of the Interior, and in March, 1852, the necessary patents were issued, contracts were awarded, work commenced and the road pushed forward to completion with little interruption.

In March, 1851, the board of directors had chosen Roswell B. Mason,\* of Bridgeport, Conn., engineer in chief. It is entirely fitting that he should himself give an account of the survey and building of the line, as he was at the head of the work from its commencement to its conclusion. The following letter to a personal friend explains itself:

"CHICAGO, October 12, 1883.

"C. C. P. Holden,
"Dear Sir: In compliance with your request, 1 give you very briefly a few facts and incidents connected with the early operation

of the engineer department of the Illinois Central Railroad.

"I received my appointment as chief engineer of the Illinois Central Railroad on the 22d of March, 1851, and entered at once npon the duty of selecting my assistants and making preparations for the journey to what was then considered this far off Western country. Leaving New York on the Lith of May with a party of ten or twelve young gentlemen, we traveled by steamer to Albany, tel of twelve young gentlement, we tracted by scalar to Manyllo by rail to Buffalo, by steamer to Detroit, by rail to New Buffalo, on the east side of Lake Michigan, and thence by steamer to Chicago, arriving on the 19th of May. My assistant engineers were appointed over the work as follows:

"N. B. Porter, from Chicago to Rantoul, headquarters Chicago; L. W. Ashley, Rantoul to Mattoon, headquarters Urbana; C. Floyd Jones, Mattoon to main line Junction, and main line from Ramsay to Richview, headquarters Vandalia; Arthur S. Ormsby, Richview to Cairo, headquarters Jonesboro; H. B. Plant, Ramsay to Bloomington, headquarters Decatur; T. B. Blackstone, Bloomington to Eldena, headquarters LaSalle; B. B. Provoost, Eldena to Dunleith, headquarters Freeport. Henry Bacon, after a few months, took the place of N. B. Porter at Chicago, and L. W. Ashley took the place of Arthur S. Ormsby at Jonesboro. The solicitors of the company were W. H. Bissel and Mason Brayman of Springfield; the trustees, John Moore, S. D. Lockwood and Morris Ketchum,

"After seeing my assistants on their way to their several locations, I went by packet-boat on the Illinois & Michigan Canal from Chicago to LaSalle, and then took a private conveyance to Cairo and back to Chicago. We traveled very nearly on the line of the road as now located south of LaSalle through Bloomington and Clinton to Decatur. From Decatur I went to Springfield to have a consultation with the solicitors, Messrs. Bissel & Brayman, and on my return to Decatur I was joined by W. H. Bissel, Esq., who went with me to Cairo and a part of the way back south of Decatur we traveled substantially on the present line of the road through Vandalia and near Richview and Jonesboro. But owing to high water we could not drive to Cairo and went to Mound City on the Ohio River, and thence by steamer to Cairo. Owing to cholera, which then prevailed there, and what appeared to me a very fair prospect of being drowned, I made a short visit, returning by steamer to Mound City; then followed back substantially on our route to near Decatur, thence to Urbana. The expectation at that time being to have the Chicago branch leave the main line at some point between Decatur and Vandalia.

"Going north from Urbana, we traveled over an unbroken prairie, almost the entire distance to Chicago, with no settlement in view on the whole one hundred and twenty-eight miles except at Spring Creek and baurbonia until you came near Chicago, where we arrived in about one month from the time I left there, traveling by private conveyance between seven hundred and eight hundred miles. During the journey I met all my assistants except B. B. Provoost, and found them well equipped and entering very heartily

into a vigorous prosecution of their work.

"After spending a few days at Chicago, I went again by packetboat to LaSalle and thence by private conveyance to Dubuque, through Dixon, Freeport and Galena, meeting Mr. Provoost at Freeport, who had his work well in hand; returning to Chicago after about ten days, where I spent several weeks. But during the summer and fall I visited different portions of the line several times and was able to complete the location substantially and get my profiles and maps ready to take with me to New York late in the

"On the 2d of February, 1852, I went to Washington to deposit the map of our location with the Commissioner of the Land Department as required by law, and to get his approval of the selection and quantity of the land. This was not accomplished until

<sup>\*</sup> The amount thus paid over to the State has been over \$9,000,000.

<sup>\*</sup>Hon. Roswell B. Mason, the builder of the road and who located in Chi-cago during the construction of the same, was called by the people of this city to the Mayor's chair in the fall of 1865, where he served the city for two years with the same fidelity that characterized all his acts in the construction of the Illinois Central Railroad in the years 1851-56.

the 14th of March. While in Washington in the early part of March, I directed the work to be put under contract from Chicago to Calumet, in order to enable the Michigan Central Railroad to reach the city. Spending a few days with my family in Connecticut after leaving Washington, I started for Chicago again on the 17th of March via Philadelphia and Pittsburgh, and after a tedious journey of seven or eight days reached Chicago. effort was made to complete the work from Chicago to Calumet as soon as possible, and on the 21st of May, 1852, the first pas-senger train from Detroit entered Chicago, using the Illinois Cen-tral Railroad track from Calumet to about Twenty-second Street, and from thence by a temporary track over the prairie almost in a direct line to the east side of Michigan Avenue, immediately south of Thirteenth Street, where a temporary passenger depot was provided and occupied for something more than a year, until the road was completed to the present depot at the foot of Lake Street.

The only towns of importance on the main line were Galena, Freeport, Dixon, La Salle, Bloomington, Clinton, Decatur, Vandalia, Richview, Jonesboro and Cairo. Richview and Jonesboro were not immediately on the line, but within about one mile. We did not go through a single settlement on the branch, but passed near Urbana and Bourbonnais. With the exception of more or less timber in the immediate vicinity of the towns mentioned above, we passed over prairies from Galena to Big Muddy River within about sixty miles of Cairo. This sixty miles was quite heavily timbered almost the entire distance. In going north on the Chicago Branch from the main line we passed over patches of timber and prairie to a point a little south of Mattoon, and from there to Chicago it was entirely prairie, except for a short distance at Spring Creek and Kankakee. In going south from La Salle we soon came on to a prairie and traveled forty miles without seeing a house of any kind, and generally there was scarcely any settlement between the towns mentioned above, which are from twenty-five to fifty or sixty miles apart. On the branch I think there was no settlement immediately on the line of the road from where it leaves the main line until you come within about twenty miles of Chicago. There were quite a number of places from twenty to forty miles without a settlement. The only railroads in Illinois in the spring of 1851 were the Chicago & Galena, extending from Chicago to Elgin, about forty miles, laid with strap-rail; and a road from Jacksonville to the Illinois River, also laid with strap-rail, and pretty much abandoned, I think, at that time.

The land offices in 1851 were Chicago, Dixon, Danville,

Vandalia and Kaskaskia.

"Chicago was estimated to contain about 40,000 inhabitants

in 1851.

'In June, 1852, the contract was let for grading the road from La Salle to Bloomington. But owing to the high elevation in crossing the Illinois River and the expensive grading on each side of the river for several miles, a temporary track was laid from the main line a few miles south of La Salle to the top of the bluff immediately opposite to La Salle, and an inclined plane was constructed from the top of the bluff down to the Illinois River, so that iron and other material for the construction of the road could be loaded on cars at the foot of the plane and drawn up by stationary power at the head of the plane and then distributed with an engine and cars that had previously been taken up the plane. This road was completed to Bloomington in the early part of 1853, and on the completion of the Rock Island road to LaSalle a temporary bridge was constructed over the Illinois River and a track laid from the foot of the plane to connect with the Rock Island Railroad, making a continuous railroad track from Chicago to Bloomington.

"During 1352 the entire line was put under contract and was completed on the 27th of September, 1856, but owing to the few settlements it was very difficult to get men and teams and supplies for them. Agents were sent to New York and New Orleans to get men, and in some cases their fare was paid, with the promise of refunding it out of their work. But these promises were frequently entirely disregarded. Some men would not even go on to the work a few miles only from the steamboat landing; others would come on perhaps at evening and get their supper, lodging and breakfast and start off the next morning for other quarters, but notwithstanding these drawbacks many men were procured in this way. In the early construction of the road, large supplies for men and teams came from St. Louis for the main line south of Decatur, and from Indiana for the Chicago Branch. In many cases flour and other supplies were hauled nearly or quite one hundred miles. The iron for the road from LaSalle to Bloomington was sent from New York by Hudson River, Eric Canal and the lakes to Chicago and by Illinois & Michigan Canal to LaSalle. On the 5th of March, 1853, I was advised that from twelve to fifteen thousand tons of railroad iron would soon arrive in New Orleans, subject to my order. This iron was distributed to all points where the line of the road could be reached by water, for instance to Cairo; to

the mouth of the Cash River, a few miles north of Cairo; to the mouth of the Big Muddy River, from whence it was taken by flat boats up to the line of the road, to Galena and Dunlieth, and track laying was commenced at all of these points as soon as the grading was completed, and on the completion of the Ohio & Mississippi Railroad from St. Louis to the main line, rails were sent to St. Louis and over that road, and track laying was commenced both north and south from that point; and when in 1853 the Great Western Railroad was completed from Springfield to Decatur, and the Chicago, Burlington & Quincy from Chicago to Mendota, and the Galena Railroad from Chicago to Freeport, iron was sent over those roads to each one of those connecting points, enabling us to lay track each way from each point. Track laying was continued south from Bloomington with iron sent from LaSalle, and south of Chicago as fast as the grading was ready. On the completion of the Chicago. Burlington & Quincy to Mendota the track was laid on the Illinois Central south to the top of the bluff north of La-Salle, and thence a temporary track into LaSalle making a continuous railroad track from Chicago to LaSalle, which was operated by the Chicago, Burlington & Quincy Railroad for a year or more.

Several engines were sent from the East to Buffalo, thence by the Lake to Detroit and by Michigan Central Railroad to Chicago. And for the southern portion of the line an engine was sent to Cincinnati and taken down the Ohio River on a flat-boat to the mouth of Cash River, and thence up that to the line of the road. Some cars were sent from the East, but the greater part were built here in Illinois. The road was completed in detached pieces, that part of it from Freeport to Dunlieth being operated for some

time by the Galena Railroad,
"To give you some idea of the pleasure of traveling in Illi-nois at that early day, I will describe a trip made with David A. Neal, Jr., vice-president of the Illinois Central Railroad Company, in the fall of 1852. Leaving Chicago November 10, 1852, we went by packet-boat on the Illinois & Michigan Canal to LaSalle, thence by steamer on the Illinois and Mississippi rivers to Cairo, arriving at St. Louis on the 14th and Cairo on the 17th of November, a very comfortable journey. But our plan was to return by private conveyance near the line of the railroad to Chicago. Leaving Cairo on the 18th, we reached Vandalia on the 23d, and Decatur the 25th with our team nearly exhausted, and unable to go any further. The roads were so bad it was thought nearly impossible to get through and it was determined to go to Springfield and then by railroad, which had just been completed to Alton, and then by the Illinois River and Illinois & Michigan Canal to Chicago. We found it difficult to get a team to take us to Springfield, but an offer of \$15 induced a livery-man to agree to take us through to Springfield, about forty miles, in a day. Leaving Decatur Friday morning, November 26, we toiled through the mud, water and ice to a small town within twelve miles of Springfield, arriving there about dark with our team tired out and entirely unable to go any further. The train left Springfield Saturday morning at eight o'clock and an offer of \$15 more induced a man who had a good team to agree to take us there in time for the train, or else forfeit the \$15. We agreeing to go at once or let him fix the time of starting; he named two o'clock in the morning as the time to start. So getting a little rest we were under way at two o'clock. It was then very cold, and ice of considerable thickness formed on the water cutting the horses legs quite badly to go through it. And in some cases the horses legs quite badly to go through it. And in some cases the driver would go through on foot and break the ice before driving through it. We arrived at Springfield about twenty minutes before the train left. He earned his \$15 and we had a comfortable journey from there to St. Louis, where we staid over Sunday and took a steamer Monday morning for Lasalle, thence by packetboad to Chicago, where we arrived December 4, 1852.

"It was some considerable time after the work was commenced before, a local treasurer was appointed to be stationed at Chicago. And in the mean time all the funds for the payment of the engineers and contractors passed through my hands, so that 1 carried large amounts of money to all parts of the road in my carpet-bag. In going into the extreme southern part of the State I went to St. Louis with my funds or sometimes procured them there by drafts on New York and then secured a reliable police officer to go with me until I had disbursed them. But after a time I was very much re-lieved by having John B. Calhoun sent out to Chicago as local treasurer. He was a competent, faithful, reliable man, and I am not aware that one dollar was ever lost or misappropriated during

the construction of the road.

'There were important reasons for completing the main line of the road by January 1, 1856, and some months previous to that I was authorized to use every possible effort to complete it by that time, regardless of expense. On consultation with the grading contractors a time was fixed for the completion of their work, reserving only time enough to lay the track, and a bonus was offered them for every day it was completed before the time. The work was completed within the time, but the contractors did not secure a very large bonus. Extra track layers were engaged and teams employed to cart iron a few miles in advance of the regular party. When the extra party would commence and when the regular party reached that point they would go on a few miles in advance of the extra party and commence again. So by this and various other methods the track was completed on the 28th of December, 1855, and a telegram was sent to New Vork announcing the completion of the main line of the Illinois Central Railroad on that day.

Engine No. 42, with four cars, was the first to run over the high bridge at LaSalle on the 21st of August, 1854, at 5;30 P. M.
Engine No. 5 was the first to run into Cairo on the 26th of

August, 1854. Yours Truly,

Rasingel D. Messey

The successive steps by which the Illinois Central has obtained a property foothold in Chicago commenced with the payment of \$45,000 to the General Government, in October, 1850, in consideration for which the company obtained possession of the unoccupied portion of the Fort Dearborn reservation. The railroad company paid the sum under protest, claiming that this tract was included in the Congressional grant. Suit was brought in the Court of Claims for the recovery of the money, but the decision went against the company. In 1852 the Legislature empowered the company to build a branch from the terminus at Twelfth Street to the south pier of the inner harbor, and the City Council supplemented the action of the Legislature in June of the same year by an ordinance admitting the company to lay tracks parallel with the lake shore, the condition being that the road should enter the city at or near the intersection of the southern limits and the lake, and pursue a course along the shore to the southern limit of Lake Park, in front of Canal Section No. 15, and continue due north to the proposed site within the Fort Dearborn addition to Chicago, between the line of Randolph Street and the main river. This actually handed over to the company the right to use a strip of shore three hundred feet wide, east of a line drawn parallel with Michigan Avenue, four hundred distant from the west line of that thoroughfare.

In September, 1852, the Illinois Central commenced work on the lake-shore protection, or breakwater, which was completed in two years, under the superintendency of Colonel R. B. Mason, chief engineer. Mr. Bross, in speaking of the great work, says:

"This great work commences at the south pier, four hundred feet inside of its extreme east end and extends south one thousand two hundred and fifty-seven feet into the lake; thence west six hundred and seventy-five feet on the north line of Randolph Street; thence southwest one hundred and fifty feet; thence to a point opposite the American Car Factory, making fourteen thousand three hundred and seventy-seven—in all sixteen thousand four hundred and fifty-nine feet. From the pier to the engine-house the breakwater is twelve feet wide; thence down to the car company's works half that width. The upper portion of the crib work is built of square timber twelve by twelve, locked together every ten feet, and the intermediate space filled by stone, piles being driven on the outside to keep it in place. The first piece of crib work sunk, in building the breakwater, has a very stout plank bottom. The water line of the crib work, south of Randolph Street, is six hundred feet east of the east side of Michigan Avenue, and the outer line of the crib work, between Randolph Street and the river, is one thousand three hundred and seventy-five feet. The area thus inclosed, and rescued from the dominion of the lake is about thirty-three acres."

In 1855 the Common Council gave the company permission to use a triangular piece of land, which lay north of Randolph and a short distance west of the land granted in 1852. In 1856 the city granted a right to use the space between the breakwater, from a point seven hundred feet south of the north line of Randolph

Street, branching out and running thence to the southeast corner of the company's breakwater as then established, and thence to the river. In February of this year, passenger trains over the Illinois Central, the Michigan Central and the Chicago & St. Louis roads, commenced to run into the new depot of the first named company. After that year the company continued to improve and possess submerged and other lands east of the east line of the two hundred feet granted in the original ordinance.

This company was the first to take action in the matter of suburban trains. A time table was issued June 1, 1856, and three trains placed on the line between the city and Hyde Park.

The gross earnings of the Illinois Central Railroad from March 24 to October 31, 1855, were \$595,633.86; the amount of State tax paid into the State treasury, \$29,751.59, the rate levied being five per cent. For the six months ending April 30, 1856, the gross earnings were \$630,580.02 and the tax \$31,529. The earnings for the half year ending October 31, 1856, aggregated \$922,053.30 and the taxes paid \$46,102.66. For the six months ending April 30, 1857, the total earnings were \$935,386.69; the rate of tax varied from five to seven per cent, yielding to the State a revenue of \$59,196.82. During the half year ending October 31, 1857, the gross earnings amounted to \$1,234,986, and the tax, levied at the rate of seven per cent, to \$86,449.02.

Land Sales.—C. C. P. Holden furnishes the following interesting facts in regard to the early sales of Illinois Central Railroad lands, and their marked effect upon the prosperity of the State:

"The foundation upon which rested the corner stone of the Illinois Central Railroad was the grant of lands from the General Government to the State of Illinois—under the act of Congress of September 20, 1850, and from the State of Illinois to the company, by act approved February 10, 1851. This grant consisted of 2,595,000 acres of land selected from the public domain and lying on each side of their road, within fifteen miles thereof. The grant of this large body of land gave the company a credit which otherwise it might not have been able to obtain. With these lands as a foundation upon which to guarantee the payment of their bonds at maturity and the interest on the same as it became due, their credit took immediate shape and they readily placed their bonds, of which there were ten thousand of \$1,000 cach, and fourteen thousand of \$500, each, in all for \$17,000,000. The payment of these bonds was secured by a mortgage pledging 2,000,000 acres of the company's lands therefor. The residue of \$505,000 acres of said lands were at the disposal of John Moore, S. D. Lockwood, and Morris Ketchum, trustees named in the bill, the proceeds to be used in paying the interest on the above bonds, and to 'meet such demands as the exigencies of the company may demand.' With this advantage secured, the company rook immediate shape and went forward to carry out the object of the grant, under the act of Congress and of

our own State Legislature.

"The writer hereof having been for a long period of years connected with the sale and management of these lands, it may not be amiss to briefly review some of the results accruing to the rail-road company, to the State of Illinois, and finally to the great Northwest through the sale and settlement of the lands of this corporation. The State of Illinois at the time the grant was made had a population of \$51,470; and the counties through which the road was located—to-wit, Jo Daviess, Stephenson, Ogle, Lee, La-Salle, Marshall, Woodford, McLean, Dewitt, Macon, Christian, Shelby, Fayette, Marion, Washington, Perry, Jackson, Union, Alexander, Pulaski, Clay, Efingham, Cumberland, Coles, Champaign, Vermillion, Iroquois, Will and Cook—had a population of 255,281. The State debt at that time was \$15,000,000. In the early spring of 1851, the company fully organized, when its officers and board of directors took immediate steps for the construction of the road and the branches thereof, a task that would have appalled the most of men; but the directors were fully equal to the occasion, and one of their first acts was to select Colonel Roswell B. Mason, to locate and build the road.

"In 1852, 1853 and 1854 the company's lands were selected and platted, under the supervision of John C. Dodge, of Chicago, with local agencies at Freeport, Dixon, LaSalle, Bloomington, Clinton, Richview, Jonesboro, Urbana and Kankakee. Those

who were living upon the lands prior to September 20, 1850, had the right to prove up their claim, pay \$2.50 per acre and take deeds therefor. The agents at the above points were John A. Clark, Freeport; Silas Noble, Dixon; S. B. Carter, LaSalle; A. Gridley, Bloomington; C. H. Moore, Clinton; B. G. Roots, Richview; D. L. Phillips, Jonesboro; John Campbell, Urbana, and A. Chester, Kankakee. They also made sales of other lands

belonging to the company in their respective districts. '

Early in 1855, under the administration of J. N. A. Griswold, president of the road, the Land Department was thoroughly
organized under the immediate supervision of Charles M. Dupuy.
The lands of the entire grant were divided into districts where
engineering parties examined each and every tract, reporting the
result of their labors to the Chicago office. These examinations
were made for the purpose of ascertaining the quality of the soil,
whether timber or prairie, its nearness to any settlement, proximity
to water, with any other information bearing upon the value of the
same. When these examinations had been completed and copied
in books furnished for that purpose at the Chicago office, prices
were attached to each tract, and then the land was thrown into
market. Mr. Dupuy thoroughly systematized the work, and by a
judicious system of advertising both at home and abroad, the demands for the lands of this company soon commenced to increase.
People came from all parts of the country—from the North and
from the South, from the East and from Europe—seeking homes
for themselves and their families along the line of the Illinois
Central

"By the first of May, 1855, emigration began to pour into the State, especially seeking the lands of this company. It was about the 5th of that month that the writer hereof was detailed to locate for Adam Smith thirty-two tracts of three hundred and twenty acres each, between Ashkum Station, on the north, and Rantoul on the south. The lands were to be located in the following manner: Each tract to be three miles from the railroad, three miles from timber, and three miles from any improvement whatever; that is, we have a distance of forty miles north and south in which to make the selections. We started out and succeeded in making nearly all of the locations. There were a few tracts, however, which had to come inside the three-mile limits, and we had the order so changed as to allow this to be done. When the land grant was made, from a few miles south of Chicago to the south line of Coles County, below Mattoon, the country was one bleak wilderness, save small settlements along the timber belts, which were off from the line of railroad; from the Boubornais settlement to the timber southwest of Paxton, inside the fifteen-mile limits on the west side of the railroad, there were but two families living at the time. The same condition of things existed on the main line, especially so between LaSalle and Pana. Along the timber belts and water-ways there were meagre settlements, while, in the great open prairie, settle-ments had not begun. This was the condition of the country ments had not begun. along the line of the Illinois Central in the beginning of 1855. It was a common occurrence in those days for the writer to have a train stop in the great open prairie to allow himself and a party of land hunters to get off, and start out over the prairie from section to section, making sales if it was possible to do so. Then striking the road at some other point, with a red handkerchief as a flag, the first train that came along would be stopped, and the party taken aboard. In nearly every instance of this kind, sales of the company's lands were effected before returning to Chicago, when the purchasers received their contracts or deeds, Colonel Mason located the line of road not a single railroad crossed the right-of-way of this company from Chicago to Cairo, and from Centralia to Dunleith; but the face of the country was bound to The settlers were continually pouring into the State and seeking the lands of this company. Many bought large tracts, being encouraged so to do by the low rate of interest charged, which was only two per cent per annum. Two years, interest paid at the time of purchase was all that was required down, but the great majority bought from eighty to one hundred and sixty acres each. During the years 1855-56 the number of seekers for these lands was very great, and as many as twenty and thirty frequently took the train from great, and as many as welly and thirty frequently took the train from Chicago, generally in charge of a land salesman to select homes for themselves and their families. By the close of 1856 more than 1,000,000 acres had been sold. Early in 1856, W. H. Osborn had to succeeded J. N. A. Griswold as president of the road, and the Hoa. John Wilson from the General Land Office at Washington had succeeded Charles M. Dupuy as commissioner in charge of the land department of the company. Mr. Wilson, like his predecessor, put forth every effort known in the way of advertising, to Mr. Wilson, like his predeattract the attention of the general Eastern, Southern and European public to the lands of the Illinois Central Railroad. The very large sums of money expended in this way had their effect ten-fold, not only in attracting the people of the country to the lands of this company but to the great undeveloped Northwest where not a railroad then existed. Many of the travelers and explorers, after looking over the country tributary to the Illinois Central followed the water-courses to the far West and Northwest, and saw the endless plains and the beautiful countries now embraced within the boundaries of Minnesota, Nebraska, Dakota, and even the far-off country beyond."

Chalu C. P. Volden.

Galena & Chicago Union Railroad Company.—
The year 1850 is the commencement of an era in the railroad history of Chicago and Illinois. Then the obtaining of the land grant by the Illinois Central made the building of that road an assurance, and the construction of the Galena & Chicago Union Railroad to Elgin, forty miles west, placed that line on a paying basis from the start. The hearts of the stockholders were gladdened, even in 1850, by their pocket-books receiving a dividend of ten per centum. It already was assuming so independent an air that when, in December, 1850, the Michigan Southern made a proposition to build a road to the Indiana State-line, using the grant of the Galena & Chicago Union Railroad in its construction, that corporation flatly refused the offer, saying that it could build the road itself.

During the year ending June 3, 1851, the company purchased Block 1, original town of Chicago, one-half mile east of the then depot. A drawbridge over the North Branch was constructed in 1851, and the tracks laid through new North Water Street. On that day william B. Ogden resigned the presidency of the road, and John B. Turner, among its earliest and most faithful friends, was elected to the position. In November a fine passenger depot, fifty by two hundred and thirty feet in size, was constructed on North Water Street.

west of Clark.

The road was finally completed to Belvidere, when the management was called upon to encounter greater vexations than any it had been able to dispose of up to that time. At this point an effort was made to divert the road from its original route to Savannah, which would leave Stephenson County without the benefits her people had so industriously labored for and liberally con-tributed to obtaining. Those who had urged the taking of stock were discouraged at the apparent failure of the scheme, while those who had subscribed were bitter in their expressions of disappointment. Finally, a committee of gentlemen from Freeport, composed of J. H. Addams, D. A. Knowlton, O. H. Wright and John A. Clark, visited Rockford to endeavor to procure the execution of the original contract, and secured the indorsement of the people that so far as they could influence a decision it should be done. The trip was continued to Chicago, and after labors that were effectual as were the laborers deserving of the public thanks, the project of diverting the road was abandoned. Labor was continued on the route, and in August, 1853, the iron horse entered Freeport amid the rejoicings that such an occasion would bring forth.

In 1848 a charter was procured by the officers of the Galena & Chicago Union Railroad to extend their road between Beloit and Madison—subsequently known as the Rock River Valley Railroad. In 1851 the Illinois & Wisconsin Railroad Company was incorporated, and, with the Rock River Valley, was consolidated with the Chicago, St. Paul & Fond du Lac, in 1855. This system was in turn consolidated with the Wisconsin &

Superior.

A contract was made between the Galena & Chicago Union and Chicago & Aurora railroads, December 13, 1851, for carrying on a joint business. This contract 1851, for carrying on a joint business. This contract was signed by E. S. Wadsworth, president, of the Aurora Branch road, and John B. Turner, president of the Galena & Chicago Union. On June 28, 1856, the company entered into an arrangement with the Chicago, Burlington & Quincy Railroad Company through James F. Joy, amending the contract made with this company or its predecessor in 1851. Moses M. Strong, president of the Mineral Point Railroad; W. P. Burrall, president of the Illinois Central, and John B. Turner, president of the Galena & Chicago Union, entered into a contract October 10, 1853, regulating the business of the Mineral Point road so far as it related to the two principal roads named.

The contract with the Beloit & Madison Railroad Company providing for the building of that road, was made January 2, 1854, J. B. Turner, president of both roads, signing on behalf of each.

The contract with the Fox River Valley Railroad Company was entered into March 15, 1854, and signed by J. B. Turner on the part of the Galena & Chicago Union, and B. W. Raymond on that of the Fox River Valley. This contract provided for the construction of the road by the latter and its equipment by the former company, and also laid down rules for the division of revenues and special privileges.

The Dixon Air Line, a branch of the Galena & Chicago Union, was built in 1854. It was subsequently purchased by the Chicago & North Western.

The Chicago, St. Charles & Mississippi Air Line Railroad was before the people in 1854; but the only work done on the road was its grading from Chicago to St. Charles, after which it was sold to the Galena & Chicago Union, and in 1864 was purchased by the Chicago & North-Western.

The progress of the road from 1849 to 1857 is shown

in the following table:

Year.	Gross Earnings.	Expenditures.
1849-50 1850-51	\$ 48,331 96 127,685 78	\$ 18,519 82 48,904 24
1851-52	211.310 55	87,361 67 187,396 39
1853-54 1854-55		359,199 04 686,516 86
1855-56	2,315,786 96	1,063,744 85
May to Dec., 1857		921,251 82

The rewards which waited on the projectors were fully A railroad conceived, equipped, and successfully managed during those early years, without aid from the State or General Government, pointed out its projectors to be men at once self-reliant, energetic, enterprising and intelligent. Michigan, Illinois, and in fact all States and private companies, that entered on such enterprises, were driven to the verge of ruin, the Galena & Chicago Union Railroad Company alone making their enterprise successful from the moment work was begun. The history of the road up to 1864, when it was consolidated with the North-Western Railroad, is considered in the history of that immense railroad sys-

CHICAGO & NORTH-WESTERN RAILROAD, 1854-57. The Chicago, St. Paul & Fond du Lac Railroad, now the Chicago & North-Western, was originated in 1854. The Elgin & State Line Company's road, B. W. Raymond, president, was begun in 1854. It appears that the Galena & Chicago Union Railroad Company designed to build an air line from Elgin to Chicago, and the object of the Elgin & State Line road was to connect the air line with the Wisconsin Central Railroad, then being constructed from the Illinois boundary to Stevens Point, Wis. The Galena & Chicago Union Railroad Company, however, refused to build the air line; when its place was supplied by the Chicago, St. Paul & Fond du Lac. W. B. Ogden was president of this company, which must be considered identical with the Illinois & Wisconsin Railroad Company, chartered under the concurrent acts of Illinois and Wisconsin. On the 13th of March, 1851, the Legislature of Wisconsin granted a charter to Levi Blossom, Charles H. Wheeler and others, as a corporation called the Green Bay, Milwaukee & Chicago Railroad Company. At about the same time the Illinois Legislature granted a charter to the Chicago & Milwaukee Railroad Company, with authority to build a line from Chicago to the State line between Wisconsin and Illinois, where it would meet the line built by the Green Bay, Milwaukee & Chicago Railroad Company. Both corporations began the work of construction at once, and before the close of 1855 the two lines were completed and met at the State line. They operated the road together until 1863, when the two companies consolidated. It was in operation to Barrington January 1, 1855, and on March 1 to Cary—thirty-eight miles. In June and July, 1855, the gauge was changed, the line extended to Woodstock, fifty-two miles from Chicago, and opened July 11, 1855.

The Beloit & Madison Railroad, subsequently the Rock River Valley Railroad, was built under the charter of 1848. The principals of the enterprise were John B. Macy, T. L. Gillett and A. Hyatt Smith, the two first of Fond du Lac and the latter of Janesville, Wis. Books were opened December 19, 1850, and on July 10, 1851, ground was broken at Fond du Lac by Timothy F. Strong, Sr., for a six-foot gauge railroad. The road was first laid with wooden and strap-iron rails, over which the old "Winnebago" drew the first train. The little engine weighed fifteen tons. On her arrival at Sheboygan from Buffalo in 1851, fourteen yoke of oxen were attached to the wagon on which she was placed, and after six weeks of laborious effort over the forty-two miles of road her arrival was reported at Fond du Lac. This road was consolidated with the Illinois & Wisconsin in 1855, and both with the Chicago, St. Paul & Fond du Lac, September 6, 1855. In 1857 the Chicago, St. Paul & Fond du Lac absorbed

the Wisconsin & Superior Railroad.

After the consolidation of the Illinois & Wisconsin and the Rock River Valley Railroad in 1855, under the name of the Chicago, St. Paul & Fond du Lac Railroad Company, the progress of the road became remarkable. In 1856 the divisions from the State line to Janesville and from Fond du Lac to Minnesota Junction were completed; the grade was changed from six feet to four feet eight and a half inches, and through-passenger trains run from Chicago to Mississippi, via Milton Junction and Janesville, over the track of the Milwaukee & Mississippi, or Prairie du Chien Railroad. At this time the contest for the possession of the seven hundred thousand acres of railroad lands in Wisconsin took place. The influence of Milwaukee opposed the pretentious claims of the Chicago, St. Paul & Fond du Lac road; and to meet their opposition a policy was adopted which was attended with success. The Wisconsin & Superior Railroad Company was incorporated, seven hundred thousand acres of land secured, and in 1857 the charter and lands were placed in possession of the ambitious Chicago line. In addition to this the Marquette State line and the Ontonagon & State line roads were consolidated. This policy of absorption was carried on unremittingly, until at length the road became known throughout the world as the Chicago & North-Western.

CHICAGO, BURLINGTON & QUINCY RAILROAD, 1849-57.—This great system, which, in these times embraces 4,126 miles of road, and brings the commerce of great portions of Illinois, Iowa, Nebraska, Kansas and Colorado into the heart of this city, may be said to have formed a nucleus in 1849. The Aurora Branch Railroad was incorporated February 12,1849, and empowered to build a road from Aurora to the Galena & Chicago Union Railroad in Du Page County. The first directors were: S. F. Gale, I. H. Burch, Allen Robbins, E. S. Wadsworth, John Frink, E. C. Larned, John Van Nortwick, B. Hackney, L. D. Brady, J. W. Brooks, and Gilbert C. Davidson. On November 1, 1850, this branch was completed and cars from Aurora passed into Chicago over the Galena & Chicago Union Company's track.

December 13, 1851, the Aurora Branch Railroad Company and the Galena & Chicago Union Railroad Company entered into an agreement, to be in force for thirty years from January 1, 1852, containing those stipulations referred to in the history of the last-named

road for the transaction of a joint business.

A contract made October 3, 1854, between George C. Bestor, president of the Peoria & Oquawka Railroad; James F. Joy, president of the Chicago & Aurora Railroad, and J. W. Brooks, by J. F. Joy, president of the Central Military Tract, provided for the joint business of these roads. On January 1, 1856, the Northern Crossroads, the Central Military Tract and the Chicago & Aurora, entered into further contracts for the regulation of joint business and for the disposal of the bonds then authorized.

The gross earnings of the Chicago & Aurora Railroad from January to December, 1854, were \$300,042.62, of which sum \$152,105.98 were disbursed on account of

general expenditures.

The Peoria & Oquawka Railroad, (chartered in 1849,) from Peoria through Galesburg to Burlington, was graded and several miles of track laid by January 31, 1854, to Galesburg, in December, 1854, and in 1856 was consolidated with the Chicago, Burlington & Quincy. This road was taken into the Chicago, Burlington & Quincy system in 1863, thus opening a through route

from East Burlington to Peoria.

The act to incorporate the Central Military Tract Railroad was approved February 13, 1851, with William McMurtry, C. S. Colton, James Bunce, W. S. Gale, H. H. May, G. C. Lamphere, W. A. Wood, Alfred Brown, Alva Wheeler, Peter Grouse, Amos Ward, Patrick Dunn, Daniel Meeks, Silas Willard and A. C. Wiley incorporators. In an amendment to this act, approved June 19, 1852, the names of Sylvester Blish, Barney M. Jackson, Myrtle G. Brace, Edward Holister, Edwin G. Ellet and William Maxwell were added to the list of incorporators. The road was built by Colton & Brooks and opened in 1855. The consolidation of the Chicago, Burlington & Quincy with the Central Military Tract line was effected July 9, 1856; but for convenience in rendering the accounts for receipts and disbursements, the actual consolidation dates from July 1, 1856. The earnings of the Central Military Tract Railroad for eight months, ending December 31, 1855, amounted to \$314,529.56, of which \$134,293.11 formed the aggregate expenditures.

Railroad connection between Chicago and Burlington, Iowa, was established the first week in March,

1855. During the same year the Northern Cross road from Galesburg to Quincy was completed. During the session of the Legislature of 1855, a law had been passed consolidating the Aurora & Chicago, the Central Military Tract, the western end of the Peoria & Oquawka, and the Northern Cross Railroad companies into a single corporation under the name of the Chicago, Burlington & Quincy Railroad Company. The Chicago & Aurora Railroad extended from Chicago to Mendota, the Central Military Tract from Mendota to Galesburg, the west end of the Peoria & Oquawka from Galesburg to Burlington, and the Northern Cross Railroad from Galesburg to Quincy. This consolidation gave Chicago five points of connection with the Mississippi Valley, and a road two hundred and ten miles in length. In 1856 arrangements were fully completed and trains running into Chicago, from Geneva Junction, over the tracks of the Galena & Chicago Union Railroad. The tracks of the Chicago, Burlington & Quincy, via Sixteenth Street, were laid into the city in 1863.

The Rock Island & Alton Railroad Company, to whom aid was granted along its proposed line in 1856 (but in many instances the bonds representing this aid were returned to the people), was completed over a different route from that selected in the first instance, under the name of Rock Island & St. Louis Railroad. The line was carried on under varied fortunes until in 1876 the Rock Island & St. Louis Company adopted the title St. Louis, Rock Island & Chicago Railroad Company, and the same year the line was purchased by the Chicago, Burlington & Quincy Railroad Company.

The income of the Chicago, Burlington & Quincy Railroad for 1855, including balance of \$82,473.35 carried forward from December 31, 1855, was \$806,611.95, of which \$592,630.29 were expended in dividends, interest on bonds, sinking fund, taxes and operating expenses in 1854–55, leaving a balance of \$213,981.66 to be credited to the company's account on January 1, 1856. The expenditures of the Chicago, Burlington & Quincy (consolidated) from July 1, 1856, to April 30, 1857, were \$716,288.61, while the earnings reached \$1,380,292.90.

\$1,389,292.99.

The rolling stock in 1857 comprised eleven coalburning locomotives, forty-three wood-burning locomotives, twenty-six first-class passenger coaches, five second-class passenger cars, eight baggage cars, five hundred and ninety-four freight-house cars, one hundred and sixteen platform cars, and fifty coal cars.

The directors of the road in 1857 were Erastus Corning, New York; Edward L. Baker, U. Thayer, R. B. Forbes, S. H. Perkins, J. M. Forbes, J. W. Brooks, Massachusetts; James F. Joy, Detroit; Isaac H. Burch, Chicago; John Van Nortwick, Batavia, Ill., and C. S. Colton, Galesburg, Ill. The officers were John Van Nortwick, president; C. G. Hammond, superintendent;

and Amos T. Hall, treasurer and secretary.

CHICAGO, ROCK ISLAND & PACIFIC RAILROAD, 1847–1857.—This road had its origin in the Rock Island & LaSalle Railroad Company, chartered February 27, 1847. Although nothing was done toward the construction of the road under this charter, attention was drawn to the project, and enthusiastic meetings and conventions were held during the year in Chicago, in favor of a railroad to the Pacific, Hon. Stephen A. Douglas occasionally lending his presence to them. In 1850, during the marked revival in railroad matters occasioned by the Illinois Central land grant, Henry Farnum came to Chicago from New Haven, upon William B. Ogden's invitation, to assist in the construction of the Galena & Chicago Union road. While here he examined the

Rock Island route, and was so impressed with its advantages that he wrote to his friend, Joseph E. Sheffield, a rich capitalist of New Haven, to come to Chicago and also look over the proposed route. This resulted in

obtaining a charter and building the road.

On February 7, 1851, at the suggestion of Eastern capitalists and from motives prompted by general commercial foresight, the charter of the Rock Island & La Salle Company was amended so that the road could be continued from Peru, LaSalle County, by way of Ottawa and Joliet, to Chicago. The name was also changed to the Chicago, Rock Island & Pacific Railroad Company, additional subscriptions of \$300,000 being required. By the 13th of the month the requisite amount of new stock had been taken. Surveys of the road under Richard P. Morgan, chief engineer, from Rock Island to Peru, had been going on since December, 1850, and were now in April nearly completed. Upon the re-organization of the company in April, 1851, J. B. Jervis was chosen president and William Jervis chief engineer. On account of high water the survey was not entirely completed until June 26. In August all surveys and estimates for the line to Chicago had been made, and on the 25th of that month the executive committee met Messrs. Farnum and Sheffield in New York city, and concluded a contract with them for the construction and equipment of the road. This contract was approved by the board of directors, meeting at Rock Island, on September 17. In January, 1852, the company contracted for the building of the Rock-river bridge. Contracts were also made for iron for the whole road, ten thousand tons to be delivered in 1852 (sufficient to furnish the road to Peru) and the remainder in 1853. A large enough force was to be put on the road to have it completed to Joliet by August 1, and to Ottawa by October 1. Work was finally begun, April 10, 1852, under the superintendency of Mr. Farnum. Although it did not progress quite as rapidly as was anticipated, the progress made was encouraging. On October 18, the road was open from Chicago to Joliet, a distance of forty miles; January 5, 1853, to Morris, sixty-two miles; February 14, to Ottawa, eighty-four miles; March 21, to LaSalle, ninetyeight miles; March 21, to Peru, one hundred miles; September 12, to Tiskilwa, one hundred and twenty-two miles; October 12, to Sheffield, one hundred and thirtyseven miles; December 19, to Geneseo, one hundred and fifty-nine miles; and to Rock Island, one hundred and eighty-one miles, February 22, 1854.

The completion of the road to LaSalle and Peru afforded a full opportunity to calculate the advantages which its construction to the Mississippi would confer upon Chicago, as well as the extent to which the interest of the company would be served. Indeed, from that day in October, 1852, when the first passenger train passed down to Joliet, the success which waited upon the enterprise was manifest. In February, 1854, the road was opened to the Mississippi, and the nucleus of the magnificent system, known as the Chicago, Rock Island & Pacific Railroad was firmly founded. From 1854 to 1857, nothing occurred to mar the harmony of progress, beyond the shocking accident, near Joliet, November 1, 1854. This catastrophe cost eight pass-engers their lives, and the company a large sum of money. In the fall of 1853 the company in union with the Michigan Southern Railroad Company, built their depot between Clark and Sherman streets, on VanBuren Street. This building incurred an expenditure of about \$60,000 and gave the young city another substantial

token of her enterprise and prospects.

CHICAGO & ALTON RAILROAD, 1846-57.—The

Alton & Springfield road was commenced in 1846 upon promises of money and paid-up stock by local subscribers. During the progress of the road examples of perseverance and self-sacrifice were given, which partake of the nature of romance rather than of actual history. Captain Godfrey mortgaged all his property, lived in a construction car, and labored as a hired workman from the beginning of work, in 1846, to the completion of the road in 1852. The charter was granted to the Alton & Sangamon Railroad February 27, 1847.

The Chicago & Mississippi Railroad Company was chartered June 19, 1852. Henry Dwight was the leading spirit in the extension of the Alton road from Springfield to Bloomington and Joliet. Having succeeded in the organization of a board of directors, in 1856, bonds were issued, amounting to \$3,500,000, and with the moneys obtained on such bonds, the road was finished to Joliet, as the Chicago, Alton & St. Louis, the new company leasing the entire line. The Alton & Sangamon road, from Alton to Springfield, was completed in 1853, and the Chicago & Mississippi, from Springfield to Bloomington, in 1854, and from Bloomington to Joliet in 1856.

The Joliet & Chicago Railroad Company was chartered by the Legislature of 1854-55 and empowered to construct a road from Joliet via Lockport, to Chicago, on the condition that a perpetual lease of it should be granted to the Chicago & Alton Railroad Company. This connecting was subsequently completed, the city granting a

right-of-way into Chicago in April, 1857.

In December, 1857, Governor Mattison and one or two others, purchased the road at auction, for \$5,000, or less than one-ninth of the cost of building one mile, the total sum expended upon the line being \$9,535,000. The St. Louis, Alton & Chicago Railroad Company, however, which was then organized, survived but a few years; the company being re-organized in 1862, as the Chicago & Alton.

THE MICHIGAN SOUTHERN & NORTHERN INDIANA RAILROAD, 1833-57.—The Michigan Southern was completed to Chicago February 20, 1852, and was the first Eastern trunk line introduced here. The depot was built on the prairie near Gurnee's tannery, opposite the Rock Island Railroad depot, the same year. The history of this road, which is the early history of the present corporation known as the Lake Shore & Michigan Southern Railroad Company, embraces the record of the Erie & Kalamazoo, 1833 to 1849; Michigan Southern, 1837 to 1855; Atlantic & Pacific, or Buffalo & Mississippi, or Northern Indiana, 1835-1855; and the Michigan Southern & Northern Indiana, 1855-57.

The Erie & Kalamazoo Railroad Company was incorporated in April, 1833, by the Michigan Legislative Council, with power to build a road thirty-three miles long, from Port Lawrence, now Toledo, to Adrian, Mich. The road was opened as a one-horse railroad in the summer of 1837; but in August of that year the engine, "Adrian Baldwin No. 1," was placed on the road. This enterprise, added to the one undertaken by the company, known as the Palmyra & Jacksonburg Railroad Company, was pregnant with troubles to the company. In 1842 W. J. Daniels was appointed receiver, and the latter road was sold to the State of Michigan for \$22,000, the amount due to the State. In 1848 financial troubles brought ruin to the company, and the road was sold to Washington Lunt, of New York, and George Bliss, of Massachusetts. The Michigan Southern Railroad Company leased the road August 1, 1849, and has continued in possession of it, paying a rental of \$30,000 annually. This Michigan Southern was one

of the old lines, which, like the Michigan Central, passed from the State into the hands of a corporation. In 1837 the track of the Michigan Southern Railroad was laid with strap-rail. In 1839 it was completed to Petersburg; in 1840 to Adrian; and in 1843 to Hillsdale. Sixty-six miles were in operation in 1843 from Monroe to Hillsdale, owned and operated by the State of Michigan. It was the original plan to build the road from Monroe to New Buffalo; but, owing to the crisis which the extravagant dreams of 1837 created, the State was forced to cease work on the road in 1843. In 1844 the State took possession of the Palmyra & Jacksonburg Railroad, in lieu of the loan and interest thereon, made by the State to the Erie & Kalamazoo Railroad Company, who projected and built the Palmyra & Jacksonburg Railroad. This last-named road was opened to Tecumseh August 9, 1838, and the branch to Jackson in 1856. In 1846 the road was purchased by Edwin C. Litchfield & Co., of New York, the State agreeing to receive the sum of \$500,000 payable in ten installments of \$50,000 each, within ten years. In 1850 the new company had added only four miles of track, but within the two succeeding years the Michigan Southern was built from Toledo to Chicago, a distance of two hundred and forty-three miles.

A bill for the incorporation of the Atlantic & Pacific Railroad Company, was introduced in 1835 by John B. Chapman to the legislators of Indiana. The Legislature would not consider the bill under that heading, but subsequently granted certain privileges to the Buf-

falo & Mississippi Railroad Company.

On May 25, 1835, a number of incorporators met at Elkhart, Ind., to consider the subject of building a railroad from Maumee Bay to the Mississippi. From this meeting sprung the organization of a company in February, 1837, with Robert Stewart as president. The road was located and contracts let June 14, 1837. About one mile of the proposed road west of LaPorte was graded. In 1838 work was suspended; but a line from Goshen to the eastern boundary of the State was located. In 1847 a new company was organized with William B. Ogden, J. Y. Scammon, J. W. Brooks, C. B. Blair, E. D. Taylor, John B. Niles, and A. L. Osborn, directors. Up to 1849 nothing was done on the road, so the company re-organized under the title Northern Indiana Railroad Company. During this year the Rail-road Charter & Insolvent Railroad Purchasing Company, known as Edwin C. Litchfield & Co., of New York, turned their attention from fallen public railroad works in Michigan to fallen private railroads in Ohio and Indiana, and soon had control of the Northern Indiana Railroad Company, the more humble title substituted for the Buffalo & Mississippi,

In October, 1849, the Northern Indiana Railroad Company was organized by Judge Niles, and a charter obtained from the Ohio Legislature, March 3, 1851. At the same time the Northern Indiana & Chicago Railroad Company was organized in Illinois and consolidated with the former under the title of Northern Indiana Railroad Company. Work was begun in earnest and on May 22, 1852, a passenger train, drawn by the engine "Adrian," passed over the line from Toledo to Chicago. Within two years following, the company reconstructed fifty miles of the old road and built one hundred and sixty miles of new road. The consolidation of the Northern Indiana with the Michigan Southern was effected April 25, 1855. Between the years 1353 and 1856 the road was extended to Jackson, and

According to the Herald of October 21, 1855, the

to Three Rivers, Mich.

depot of the two roads then known as the Michigan Southern and the Rock Island Railroad, was projected with frontage on Van Buren Street. The Herald's description of the building was substantially as follows: "It will be three hundred and fifty-five feet in length exclusive of offices at the end of the building. The span of the roof from the side walls is one hundred and sixteen feet. It will have but a single support in the entire building, as it will be constructed on the principle of Howe's patent truss. The ventilators will be in the roof. The height of the walls will be twenty-two feet, while from the floor to the center of the arch will be forty-two feet. The roof alone will cost \$23,000. This building was used as the depot for the two lines of rail-

road named above, until October, 1871.

The collision of April 25, 1853, at the Michigan Southern and Central Crossing, gave rise to much argument concerning the right of the railroads here. About the first of June, the Michigan Southern Railroad Company applied to Judge Morris for an injunction to restrain the Illinois Central Railroad from running their cars across the track of the Southern road. This case was decided in June, 1853. The presidents of the road from the date of its incorporation to 1855, were: Robert Stewart, 1837; Joseph Orr, 1837-41; Jonathan Burr, 1841; (eight years unorganized); W. B. Ogden, 1847; (two years unorganized); E. W. Chamberlain, 1850; Janies H. Barnes, 1851; John Stryker, 1851; George Bliss, 1852; John B. Jervis, 1852-55; John B. Niles, H. P. Andrew, Jr., Ezekiel Morrison, W. J. Walker, W. C. Hannah, Havilah Beardsley, John H. Defrees and T. S. Stanfeld. Schuyler Colfax was a director in 1858-59 and Philo Morehouse, 1860-69.

The Michigan Southern & Northern Indiana Company did not rest satisfied with this progress. The Air Line, the Detroit, Monroe & Toledo Railroad, and the building of the great lake vessels-"Western Metropolis" and "City of Buffalo"-marked the progress of the corporation. The panic of 1857 came to destroy all this enterprise. No less than one hundred and fiftyfive heavy claims were pressed against the company by creditors, the board of directors resigned, the road went to protest and the affairs of the Michigan Southern & Northern Indiana Railroad seemed dark indeed. A new directory was elected; but so poor in worldly goods was the company that when the directors assembled to hold their first meeting, October 1, 1857, a few chairs were borrowed from offices convenient, to replace those carried off by the Sheriff.

The Erie & Northeastern was opened January 19, 1852, and operated as a six-foot gauge road until December 7, 1853, when the Erie war took place. The company was, however, successful, and the standard gauge completed February 1, 1854, between Buffalo and Erie. The other railroads forming the Michigan Southern & Northern Indiana Railroad in 1857 named above were all consolidated or leased by the company previous

to that year.

THE MICHIGAN CENTRAL RAILROAD, 1831-57 .-The Michigan Central road may be said to have its origin in the Detroit & St. Joseph Railroad, chartered in 1831, with a nominal capital stock of \$1,500,000. The good intentions of this corporation were borne testimony to, by the fact that, previous to 1837, a sum approximating to \$117,000 was expended on the roads. The Detroit & St. Joseph Railroad Company, bowed down under the reverses of 1837, sold their interest in the road to the State of Michigan. The State expended \$400,000 on permanent-way and rolling-stock during 1837-38, and completed and opened the road to God-

frey's (now Ypsilanti), February 5, 1838. The receipts for the first four months, ending June 5, 1838, reached \$23,963.56. During the months of June, July and August, no less than ten thousand passengers were carried over the road. The extension of Ann Arbor was completed in October, 1839, and work on the extension to Jackson was in progress. The track at this time was carried forward on a wooden stringer of sawn timber. This rail stringer was fitted into sawed ties held to the tie in a trapezoidal groove by wooden wedges. On the top of this continuous stringer was spiked the old iron strap-rail when the directors had it, and when they did not have the iron, a one and a half by three inch oak ribbon nailed to the tie, did duty in its place. The passenger car of that day resembled an omnibus, placed at right angles to the track, moving sidewise on four wheels. The conductor walked a platform in front and along the end of the omnibus, and collected his fares, hanging by his arm to the window.

During the first nine months of the year 1844, the road was in operation to Jackson, a distance of seventy-seven miles, and during the last three months was in operation to Marshall, a distance of one hundred and nine miles. The receipts from freight and passenger business of the Michigan Central Railroad in 1844 were \$206,867.48, exclusive of payments made by the United

States Postal Department.

An act of the Michigan Legislature, approved April 30, 1839, provided for the appointment of a committee or commission to consider the expediency of discontinuing certain public works. A policy of retrenchment followed. One improvement after another was cast off, until the Central and Southern railroads alone remained persistent beggars for aid and from an exhausted treasury. The board of internal improvements in their last report to the Legislature, December 7, 1846, say that from December 1, 1845, to September 4, 1846, the gross receipts of the Central Railroad were \$239,663. 75. During the eight months preceding the sale of this road to the Michigan Central Railroad Company the State was compelled to expend upon it no less a sum than \$143,314.59. A very intelligent committee of the Senate reported in January, 1846, that the sum total of the expenditures upon the different works of internal improvements was about \$4,500,000, and three hundred and five thousand of the five hundred thousand acres of land granted by Congress to the State in 1841. When the Legislature began to agitate the question of the sale of the public works, parties were numerous who desired to lease the Central and Southern railroads; but it was decided that the whole system of internal improvements by the State for the purpose of revenue, was, at any rate, a fallacy, and that the sale of the two railroads was dictated by sound political economy and the exigencies of the State. Finally the Michigan Central Railroad Company bought the line for \$2,000,000, and not long after the Michigan Southern Railroad Company bought the Southern road for \$500,000. After this transaction Eastern capitalists looked to what they termed the insolvent West as the reservation for their investments. Stephen F. Gale, during a visit to Boston, was asked by President Wilkins, of a Boston bank, regarding Western investments. The former advised him to invest in Michigan bonds at seventy cents per dollar, and gain control of the Michigan roads. This was effected, and gave rise to the boast of the Boston capitalists that "when the Western States and their people fail to complete a railroad, Boston steps in with her capital and assumes con-trol." The road was completed to Chicago, and opened

May 21, 1852. At that time a temporary depot was erected on the lake shore, south of Twelfth Street. which was used until the ordinance was passed admitting the Illinois Central Company to construct their road to the Chicago River. In April, 1856, the Illinois Central depot, at the foot of Lake Street, was completed, when, under an arrangement with that company, the Michigan Central trains ran north to that point. This track along the lake front, in the building of which the Michigan Central Company participated indirectly, was two and a half miles long, one and a half miles running parallel with Michigan Avenue. The track running parallel with Michigan Avenue was double, while the remainder was single. The northern or double track rested on four lines of piles, driven into the sand, immediately inside of the breakwater, securely fastened together. The single track was built on two lines of piles continued along the southern portion of the breakwater.

A charter for the New Albany & Salem Railroad was granted by the Indiana Legislature for a road thirty-five miles in length from the Ohio River. This was extended to Michigan City, and thence, under a charter from Illinois, to the Union Railroad Company. The total length of the road operated by the Michigan Central Railroad Company in 1857 was two hundred and

eighty-eight miles.

The conspiracy cases growing out of the disaffection of the farmers of Leoni Township, Jackson Co., Mich., whose property bordered on the unfenced road, formed the sensational history of the company during this period. Several farmers were ruined in their efforts to defend themselves from charges which the most subtle lawyers, connected with the road, arranged and placed before the Judges of the Wayne County Circuit.

The history of the road up to 1857 is one which shows what indomitable energy and perseverance may accomplish. Its principal projector, James F. Joy, is resident of Detroit. John W. Brooks, who died a few years ago at Boston, was also an active spirit in building

up the interests of the road.

THE PITTSBURGH, FORT WAYNE & CHICAGO RAILROAD, 1852-57.—The organization of the Fort Wayne & Chicago Railroad Company was effected October 14, 1852, the engineers completing their survey in November. In 1853 contracts were granted for one hundred and forty-five miles of track. In 1855 twenty miles were built, and in 1856 three hundred and sixtythree miles were added, owing to the consolidation with the Pittsburgh division on November 10, bringing the total mileage up to three hundred and eighty-three in 1857. During the year 1856 the road was infested by a pack of ruffians, who made it a practice to plunder express and baggage cars. Their mode of operating was less sensational than that of modern train-robbers. They would enter the train at way stations, hurl packages out of the baggage or express cars, at points where their accomplices were stationed, and ultimately hurl themselves out. Trainmen were never able to succeed in capturing one of them; but on February 26, 1857, Allen Pinkerton succeeded in arresting eighteen of the criminals. The disclosures made before the court implicated many persons holding good positions, and the whole proceedings were so entertaining as to engage the attention of all residents along the road, if not the stockholders themselves. So far was this carried that the company awoke from a dream of trainrobbers to learn that a great financial crisis had swept over the country, and to realize that their road escaped the evils of the period of depression only to bear them subsequently.

CHICAGO'S RAILROAD SYSTEM IN 1857.-In 1857 Chicago had nearly four thousand miles of railroad tributary to herself, and the joint earnings of the companies amounted to over eighteen and a half millions of dollars! When the railroad spirit of the State, which had been crushed by the failure of the "internal improvement" act of 1837, revived in the Rockford Convention of 1847, Chicago had not a mile of road. In 1848 she operated ten miles of railroad to the Desplaines River. In 1850 the ten had been increased to nearly forty-five. Then the Illinois Central entered the field, and trunk lines from all parts of the State and the country commenced to stretch their giant arms toward Chicago; and with a readiness which astonished the world, floods of capital from the East poured into the Garden City and enabled her to meet all advances more than half-way; so that by 1855 the forty-five miles of iron road had been extended to almost three thousand, while, within a period of two years more, another thousand was added to the three. The world never before saw such a stride made toward commercial supremacy. At that time the resources of the West were limited, and the fact that Eastern capital, with the exception, perhaps, of the Galena & Chicago Union road, covered the State with this net-work of arteries, making Chicago their great heart, only sustained her citizens in their unbounded confidence, and in what had sometimes seemed the wildest visions of a glorious future. Twenty years had converted into substantial facts the "impossibilities" of 1837. Then they were impossibilities, but two decades had demonstrated to the world that the members of the Vandalia Convention and the originators of the act of 1837 were prophets instead of madmen.

The conditions of the case, in 1857, were these: The first grand trunk line into the city, the Chicago & Milwaukee Railroad, was in fine running order-W. S. Gurnee, president; M. L. Sykes, superintendent; A. S. Downs, secretary; H. A. Tucker, secretary. There were two roads connecting with each other at the Wisconsin State-line, mainly under the same management. For the first ten months of the year the total receipts of the Illinois end of the line (forty-five miles) amounted to \$282,731.92. The total number of through passengers over the line for November, 1856, to November, 1857, was about one hundred and eighty thousand. The first branch of this road from the west was the Kenosha & Rockford Railroad-Josiah Bond, president; Levi Burnell, secretary; Charles H. Sholes, treasurer; C. L. Prescott, superintendent; W. H. Noble, chief engineer, all of Kenosha. This road was to connect at Rockford with a projected line to Rock Island. Eleven miles of the proposed eighty miles of road were completed and in operation.

The second trunk leaving the city was the Chicago, St. Paul & Fond du Lac Railroad, Hon William B. Ogden, president; S. F. Johnson, superintendent and chief engineer; J. W. Currier, secretary; Charles Butler, treasurer. The southern division of the road was operated from Chicago to Janesville, ninety-one miles. The northern division from the junction of the LaCrosse & Milwaukee road to Fond du Lac, thirty miles, made one hundred and twenty-one miles in operation by the latter part of 1857. The road was then completed to Van Dyne, ten miles north of Fond du Lac, giving a total of one hundred and thirty-one miles. Thirty-six miles of additional grading was ready for the iron, when operations should again be commenced in the spring. As yet the directors had received no benefit from their munificent land grant of two million acres. According to

the provisions of the act the directors were not to come into possession of the land until the road should be completed to Oshkosh. For the year the receipts of this line amounted to \$429,305.39. Nearly 170,000 passengers were carried without the least accident to any one

The Milwaukee & Mississippi and the Milwaukee & LaCrosse roads formed, with the Fond du Lac, a direct line to Chicago. There was a daily train running between Chicago and Prairie du Chien over the former road. A branch of the Milwaukee & LaCrosse road (Hudson & Superior Railroad) was already projected from Hudson, on Lake St. Croix, where it was to connect with the LaCrosse road to Superior, at the head of the lake of that name. The company had obtained a

grant of lands to aid in its construction.

Galena & Chicago Union Railroad, the origin of Chicago's magnificent system, extended from Chicago to Freeport, forming with the Illinois Central a direct route between Chicago and Dubuque. The officers of this road were: John B. Turner, president; William H. Brown, vice-president; William J. McAlpine, assistant president and chief engineer; Philip A. Hall, superintendent; William M. Larrabee, secretary; Henry Tucker, treasurer; George M. Wheeler, auditor. The receipts for the year amounted to \$2,117,904.97. Over this line two hundred and fifty-five thousand passengers went westward and two hundred and sixteen thousand eastward. In 1856 the number of persons taken west on this road exceeded those returning by sixty thousand, thus proving that the tide westward had fairly set in.

The first branch road west of the city and north of the main line was the Fox River Valley Railroad, runing from Elgin up that beautiful valley to Richmond, and from thence the Wisconsin was completed to Geneva, in that State. Its officers were: B. W. Raymond, Chicago, president; G. H. Merrill, Elgin, superintend ent; A. J. Waldron, Elgin, secretary and treasurer. At Geneva, Wis., it connected with the projected Wisconsin Central. The Beloit Branch of the Galena Railroad connected at Belvidere seventy-eight miles west of Chicago, with the Beloit & Wisconsin; officers the same

as those of the Galena road.

The Beloit & Madison road was in operation to Footville, seventeen miles, and was designed to connect with the Milwaukee & Mississippi road running to Prairie du Chien. The Mineral Point Railroad connected with the Galena & Freeport, running to Mineral Point, Wis. An important extension of the Galena road was the Dubuque & Pacific line, opened for business to Nottingham, thirty-seven miles from Dubuque, on January 1, 1858. The entire length of the projected line from Dubuque to Sioux City, on the Missouri, was one hundred and thirty-one miles. The company had been aided with a land grant of over one and a quarter million acres. The Galena (Fulton) Air Line was the direct route from Chicago to Fulton, on the Mississippi, one hundred and thirty-six miles. In May, 1857, the Chicago, Iowa & Nebraska line was completed from Clinton to DeWitt, twenty miles. It was supposed that the road could be completed to Cedar Rapids and equipped for \$20,000 per mile. From thence it was expected to bend north, up the valley of the Cedar, and form, with a northand-south road in Minnesota, a direct line to St. Paul. The Sterling & Rock Island road was a proposed line running down the Valley of the Rock River.

The fifth grand trunk line in 1857 was the Chicago, Burlington & Quincy Railroad. Its officers were: John Van Nortwick, Batavia, Illinois, president and chief engineer; Charles G. Hammond, superintendent; Amos T. Hall, secretary and treasurer. No finer portion of the Mississippi Valley can be found than the "Military Tract," through the center of which this road passed. During the year 1857, the receipts amounted to \$1,899,586.49, and four hundred and twelve thousand passengers were transported. As an extension across Iowa, the Chicago, Burlington & Quincy was to connect with the Burlington & Missouri. The Quincy & Chicago line connected with the Burlington road at Galesburg, one hundred and sixty-eight miles, and extended thence to Quincy. This was formerly the "Northern Cross." The Hannibal & St. Joe road had been built sixty-five miles west, by November, 1857.

The sixth grand trunk from Chicago was the Chicago & Rock Island. Its officers were: Henry Farnum, Chicago, president; John F. Tracy, Chicago, superintendent; F. H. Tows, New York, secretary; A. C. Flagg, New York, treasurer. The earnings for the year amounted to \$1,681,101.57. Over three hundred and ninety thousand passengers were carried on its lines. The road stretched down the Valley of the Illinois to Peru, where it swept across the "Military Tract," and at Rock Island, one hundred and eighty-one miles from Chicago, crossed the Mississippi by a splendid bridge, the only railway structure that had, as yet, been thrown across the "Father of Waters," and the only one of any kind below St. Anthony. The Peoria & Bureau Valley Railroad was leased to the Rock Island Company at an annual rental of \$125,000. The Peoria & Oquawka line ran nearly east and west and connected with all the north and south lines leading into the city. A branch of the Bureau Valley road, the Illinois River line, was being pushed forward from Jacksonville to LaSalle, about ninety miles.

The Chicago, Alton & St. Louis Railroad, the seventh grand trunk line connecting Chicago with the country in 1857, was officered as follows: Hon J. A. Matteson, Springfield, president; A. H. Moore, Bloomington, superintendent: J. K. Alexander, Bloomington, secretary; R. E. Goodell, Joliet, treasurer; J. C. Smith, Bloomington, auditor; L. Darling, Chicago, general agent. The total receipts for the year amounted to \$998,399.47.

The eighth grand western trunk line was the Illinois Central. Its officers were: W. H. Osborn, New York,

Mowthon

president; G. B. McClellan, vice-president and chief engineer; James C. Clark, master of transportation; W. K. Ackerman, New York, secretary; I. N. Perkins, New York, treasurer; John Wilson, land commissioner. At this time (1857) the Illinois Central was the longest road owned by one company in America. Its total receipts for the year were \$2,293,964.57, and nearly seven hundred and fifteen thousand passengers were transported over its lines. Up to January 1, 1858, nearly one-half of the two and a half million acres comprising its land grant had been sold for \$15,311,-440.40. The sales for the year amounted to \$4,598,-211.99. Of the Pittsburgh, Fort Wayne & Chicago road all except eighty-two miles was completed by the latter part of 1857. It had been operated during the year by using the line of the Michigan Southern road as far

east as LaPorte and thence connected by the Cincinnati & Peru road. The Michigan Southern and Northern Indiana connecting with the roads south of Lake

A. C. Clark

Erie; The Michigan Central, connecting with the Canada, Great Western, New York Central and the Erie railroads, and with the Grand Trunk to Montreal, Quebec and Portland were the most important trunk lines to the East.

#### TELEGRAPH AND EXPRESS.

The first telegram received in Chicago was upon January 15, 1848, from Milwaukee; the succeeding day complimentary and flamboyant telegrams passed between the bachelors and ladies of the two cities. The first through telegram from the East was received April 6, 1848.\* The Chicago office was Colonel J. J. Speed's telegraph office at the Saloon Building, corner of Lake and Clark.

On April 3, 1843, Miller & Company started a triweekly express between Chicago and the East; in 1845 the service was augmented to daily and A. H. Burley, of S. F. Gale & Co., 166 Lake, was the agent.

The following are the first greetings which passed between the cities of Detroit and Chicago;

"To Milwaukee, Racine, Southport and Chicago.—We hail you by lightning as fair sisters—as bright stars of West. Time has been annihilated. Let no element of discord divide us. May your prosperity as heretofore be onward. What Morse has devised and Speed joined let no man put asunder."

To which the following was sent in reply:

"We return the greetings of our sister of the Straits, and trust that lightning may never prove an element of discord between us. As sisters, may we be joined by bonds as holy as those which unite maidens to the object of their love, but unlike that love may our course always run smoothly."

The charge appears to have been: Twenty-five cents for ten words; two cents for every additional word; and two for the delivery at the residence of the person to whom the message was sent.

On January 1, 1851, the American Express Company, S. D. Lockwood agent, advertises as follows: Messengers will leave the office Tremont Buildings, Dearborn Street, for New York and intermediate places, via Michigan Central Railroad, Tuesday and Friday mornings at 8 o'clock.

For Milwaukee, Tuesdays and Fridays at 1 o'clock

For St. Louis, Wednesday mornings at 8 o'clock. Packages for the East should be left at the office on Monday and Thursday evenings. This appears to be the first introduction of the American Express Company.

The companies increased, however, and in 1857 were represented as follows: American Express Company, J. C. Fargo, agent, 20 Dearborn Street; City Express Post, postage two cents per letter, an arant-courier of the city delivery.) Bronson and Forbes, Masonic Temple; Illinois & Wisconsin Express, (J. H. Durfee, proprietor,) daily between Woodstock, McHenry Co., and Chicago, office 18 Dearborn Street; Merchant's Despatch, Hall & Co., agents, 96 and 98 South Water Street; Union Express Company, T. F. Craig, agent, 14 South Water Street; United States Express Company, H. D. Colvin, agent, 14 Dearborn Street.

# EARLY MILITARY HISTORY.

It is the purpose in what follows to put in order and preserve in history all that can be gathered from records, early publications and the memories of men still living, concerning the citizen-soldiery of Chicago and Cook County; to make therefrom as complete a record as is possible of the various military organizations; to note their exploits and parades, in times of peace; and to record their arduous and patriotic service in times of war, when, putting off the war-like appearance they became invested with the full armor of the warrior, and, soldiers in deed as well as in name, won the imperishable renown accorded in the war aunals of the centuries to those only who have fallen un-

conquered or returned victorious.

A garrison of soldiers, trained in the arts of war, and subject to strict military discipline and drill even in times of peace, constituted the first civilized white community of Chicago. A fort had been built and occupied, destroyed and rebuilt years before the village of Chicago boasted more than half a dozen huts and shanties outside the garrison. The influence of such a garrison has ever most depressing effect on the innate military ardor of the private citizen. Seldom does the civilian so far acquire the spirit of self-abasement as to put on his sword, and sash, and pompons, and epaulets under the critical and supercilious gaze of the regular, except under the urgent stress of danger to be met or duty to be performed, demanding other service than those involved in a dress parade. So it happened that for many years the fighting qualities of the Chicago militiaman were unostentatiously held in abeyance, and the waiting heroes, hidden in citizen's garb, quietly threaded the paths of life even to the end, un-heralded and unsung. But, remote from the protection of the garrison, the militia has ever been found, hilariously noisy, gaudy, and ostentatious in its preparatory demonstrations, but in emergency, the fearless and unflinching defender of the fireside, home, and country.

Even as far back as 1812, the militia, with its characteristic reliability in time of extremity, makes its first appearance in the annals of Chicago. The massacre attending the evacuation of Fort Dearborn, August 15, 1812, numbered among its victims "twelve militiamen. Captain Nathan Heald, the commandant of Fort Dearborn at the time of its evacuation, in a letter written from Pittsburgh, November 7, 1812, details the losses as

follows:

"Our strength was about fifty-four regulars and twelve militia, out of which twenty-six regulars and all the militia were killed in the action, with two women and twelve children. Ensign George Ronau and Dr. Isaac Van Voorhis, of my company, with Captain Wells, of Fort Wayne, to my great sorrow, are numbered among the dead.

It is not believed that of the twelve militia heroes who thus early baptized the soil of Chicago with their life-blood, the name of a single one has been rescued from oblivion. Whether their homes had been in Chicago or its vicinity, or whether, at the call of danger, they came from a distance to the scene of peril may never be known.

There was not at that time, nor for many years after, any enrollment of the militia of Chicago, or of the men subject to military duty in the territory now embraced in Cook County. In 1827 quite a panic occurred at Chicago on account of the hostilities with the Winnebagoes, who were on the war-path during the summer of that year. Fort Dearborn was not at that time occupied as a military post, but was under the charge of Dr. Alexander Wolcott, the Indian Government Agent. The few traders and the families who then made up the settlement were defenseless in case of an attack. There was no militia organization at that time. Gurdon S. Hubbard, still a resident of the city, tells the story of the reception of the news and the efforts to meet the

expected or probable attack as follows:\*

"At the breaking out of the Winnebago war, early in July, 1827, Fort Dearborn was without military occupation. Dr. Alexander Wolcott, Indian Agent, had charge of the fort living in the brick building, just within the north stockade previously occupied by the commanding officers. The old officers' quarters built of logs on the west, and within the pickets, were occupied by Russel E. Hearberg of the property of t cock, and one other American family, while a number of voyageurs with their families were living in the soldiers' quarters, on the east side of the inclosure. The store-house and guard-house were on either side of the southern gate; the sutler's store was east of the north gate, and north of the soldiers' barracks; the block-house was located at the southwest and the bastion at the northwest corners of the fort, and the magazine, of brick, was situated about half way between the west end of the guard and block-houses. The annual payment of the Pottawatomie Indians occurred in September of the year 1827. A large body of them had assembled, according to custom, to receive their aunuity. These left after the payment for their respective villages, except a portion of Big Foot's band. The night following the payment, there was a dance in the soldiers' barracks, during the progress of which a violent storm of wind and rain arose; and about midnight, these quarters were struck by lightning and totally consumed, together with the store-house and a portion of the guard-house. The sleeping inmates of Mr. Kinzie's house, on the opposite bank of the river, were aroused by the cry of "fire," from Mrs. Helm, one of their number, who, from her window, had seen the flames. On hearing the alarm I, with Robert Kinzie, late Paymaster of United States' Army, hastily To our dismay arose, and only partially dressed, ran to the river. we found the canoe, which was used for crossing the river, filled with water; it had been partially drawn up on the beach and became filled by the dashing of the waves. Not being able to turn it over, and having nothing with which to bail it out, we lost no time, but swam the stream. Entering by the north gate we saw at a glance the situation. The barracks and store-house being wrapped in flames, we directed our energies to the saving of the guard-house. the east end of which was on fire. Mr. Kinzie, rolling himself in a wet blanket, got upon the roof. The men and women, about 40 in number formed a line to the river, and with buckets, tubs, and every available utensil, passed the water to him; this was kept up till daylight before the flames were subdued, Mr. Kinzie main-taining his dangerous position with great fortitude, though his hands, face and portions of his body were severely burned. His father, mother, and sister, Mrs. Helm, had meanwhile freed the canoe from water, and crossing in it, fell into line with those carrying water. Some of the Big Foot band of Indians were present at the fire; but merely as spectators, and could not be prevailed upon to assist. They all left next day for their homes. The strangeness of their behavior was the subject of discussion among us. Six or eight days after this event, while at breakfast in Mr. Kinzie's house, we heard singing, faintly at first, but gradually growing louder as the singers approached. Mr. Kinzie recognized the leading voice as that of Bob Forsyth, and left the table for the piazza of the house, where we all followed. About where Wells Street now crosses the

<sup>\*</sup> See Fergus's Historical Series, No. 10, pp. 41-46.

river, in plain sight from where we stood, was a light birch bark canoe, manned by thirteen men, rapidly approaching, the men keeping time with their paddles to one of the Canadian boat songs; it proved to be Governor Cass and his boat songs; it proved to be Governor Cass and his secretary, Robert Forsyth, and they landed and soon joined us. From them we first learned of the breaking out of the Winnebago war, and the massacre on the Upper Mississippi. Governor Cass was at Green Bay by appointment, to hold a treaty with the Winnebagoes and Menonionee tribes, who, however, did not appear to meet him in council. News of hostilities reaching the Governor there, he immediately procured a light birch bark canoe, purposely made for speed, manned it with twelve men at the paddles and a steersman, and started up the river, making a portage into the Wisconsin, then down it and the Mississippi to Jefferson Barracks, below St. Louis. Here he persuaded the commanding officer to charter a steamer, and embarking troops on it, ascended the Mississippi in search of the hostile Indians, and to give aid to the troops at Fort Snelling On reaching the mouth of the Illinois River, the Governor (with his men and canoe, having been brought so far on the steamer,) here left it, and ascending that stream and the Desplaines, passed through Mud Lake into the South Branch of the Chicago River, reached Chicago. This trip from Green Bay round was performed in about thirteen days, the Governor's party sleeping only five to seven hours, and averaging sixty to seventy miles travel each day. On the Wisconsin River they passed Win-They did not stop to nebago encampments without molestation. parley, passing rapidly by, singing their boat-songs; the Indians were so taken by surprise that, before they recovered from their astonishment, the canoe was out of danger. Governor Cass remained at Chicago but a few hours, coasting Lake Michigan back to Green Bay. As soon as he left, the inhabitants of Chicago assembled for consultation. Big Foot was suspected of acting in concert with the Winnebagoes, as he was known to be friendly to them, and many of his band had intermarried with that tribe. Shawbonee was not here at the payment, his money having been drawn for him by his friend, Billy Caldwell. The evening before Governor Cass's visit, however, he was in Chicago, and then the guest of Caldwell. At my suggestion, he and Caldwell were engaged to visit Big Foot's village (Geneva Lake), and get what information they could of the plans of the Winnebagoes; and also learn what action Big Foot's band intended taking. They left immediately, and on nearing Geneva Lake arranged that Shawbonee should enter the village alone, Caldwell remaining hidden. Upon entering the village, Shawbonee was made a prisoner, and accused of being a friend of the Americans and a spy. He affected great indignation at these charges and said to Big Foot: 'I was not at the payment, but was told by my braves that you desired us to join the Winnebagoes and make war on the Americans. I think the Winnebagoes have been foolish; alone they cannot succeed. So I have come to council with you, hear what you have to say, when I will return to my people and report all you tell me; if they shall then say, we will join you, I will consent.' After talking nearly all night they agreed to let him go, provided he was accom-panied by one of their own number; to this proposal Shawbonee readily consented, though it placed him in a dangerous position. His friend Caldwell was waiting for him in the outskirts of the village, and his presence must not be known, as it would endanger both of their lives. Shawbonee was equal to the emergency, After leaving, in company with one of Big Foot's braves, as the place of Caldwell's concealment was neared, he commenced complaining in a loud voice of being suspected and made a prisoner, and when quite near said: 'We must have no one with us in going to Chicago. Should we meet any one of your band or any one else, we must tell them to go away; we must go by ourselves, and get to Chicago by noon to-morrow. Kinzie will give us something to eat, and we can go on next day. well heard and understood the meaning of this, and started alone by another route. Strategy was still to be used, as Shawbonee desired to report; so on nearing Chicago, he said to his companion, desired to report, so on nearing circusts, it said to the vil Kinzie sees you, he will ask why your band did not assist in putting out the fire? Maybe he has heard news of the war and is angry with Big Foot jet us camp here, for our horses are very tired. This they did, and after a little, the Big Foot brave suggested that Shawbonee should go to the fort for food and informa-This was what he wanted to do, and he lost no time in reporting the result of his expedition, and procuring food returned to his camp. Starting the next morning with his companion for his own village; on reaching it he called a council of his Indians, who were addressed by Big Foot's emissary; but they declined to take part with the Winnebagoes, advising Big Foot to remain neutral.

"On receiving Shawbonee's report, the inhabitants of Chicago were greatly excited; fearing an attack, we assembled for consultation, when I suggested sending to the Wabash for assistance, and tendered my services as messenger. This was at first objected

to, on the ground that a majority of the men at the fort were in my employ, and in case of an attack, no one could manage them or enforce their aid but myself. It was, however, decided that I should go as I knew the route and all the settlers. An attack would probably not be made until Big Foot's embassador had returned with his report; this would give at least two weeks' security, and in that time I could, if successful, make the trip and return. I started between four and five P. M., reaching my trading house on the Iroquois River by midnight, where I changed my horse and went on; it was a dark, rainy night. On reaching Sugar Creek, I found the stream swollen out of its banks, and my horse refusing to cross, I was obliged to wait till daylight, when I discovered that a large tree had fallen across the trail, making the ford impassable. I swam the stream and went on, reaching my friend Mr. Spencer's house at noon, tired out. Mr. Spencer started immediately to give the alarm, asking for volunteers to meet at Danville the next evening, with five days' rations. By the day following at the hour appointed, one hundred men were organized into a company, and appointing a Mr. Morgan, an old frontier fighter, as their captain, we immediately started for Chicago, camping that night on the north fork of the Vermillion River. It rained continually, the trail was very muddy, and we were obliged to swim most of the streams and many of the large sloughs, but we still pushed on, reaching Fort Dearborn the seventh day after my departure, to the great joy of the waiting people. We re-organized, and had a force of about one hundred and fifty men, Morgan commanding. At the end of thirty days, news came of the defeat of the Winnebagoes, and of their treaty with the commanding officer, who went from Jefferson Barracks, as before stated. hearing this, Morgan disbanded his company, who returned to their homes, leaving Fort Dearborn in charge of the Indian Agent as before.

The following extracts from the supplementary narrative of Hezekiah Cunningham was furnished by H. W. Beckwith;\*

"In the night time, about the 15th or 20th of July, † 1827, I was awakened by my brother-in-law, Alexander McDonald, telling me that Mr. Hubbard had just come in from Chicago with the word that the Indians were about to massacre the people there, and that men were wanted for their protection at once. The inhabitants of the country capable of bearing arms had been enrolled under the militia laws of the State, and organized as 'The Vermillion County Battalion,' in which I held a commission as Captain. I dressed myself and started forthwith to notify all the men belonging to my company to meet at Butler's Point (six miles southwest of Danville), the place where the country business was then conducted and where the militia met to muster. The Captains of the other companies were notified the same as myself, and they warned out their respective companies the same as myself, and they be tremainder of the night at this work, up and down the Little Vermillion.

"At noon the next day, the battalion was at Butler's Point;

most of the men lived on the Little Vermillion River, and had to ride or walk from six to twelve miles to the place of rendezvous. Volunteers were called for, and in a little while fifty men, the required number, were raised. Those who agreed to go then held an election of their officers for the campaign, choosing Achilles Morgan, Captain; Major Bayles, First Lieutenant; and Colonel Isaac R. Moores, as Second. The names of the private men, as far as I now remember them, are as follows: George M. Beckwith, John Beasley, myself (Hezekiah Cunningham), Julian Ellis, Seaman Cox, James Dixon, Asa Elliott, Francis Foley, William Foley, a Mr. Hammers, Jacob Heater, a Mr. Davis, Evin Morgan, Isaac Goen, Jonathan Phelps, Joshua Parish, William Reed, John Myers ('Little Vermillion John'), John Saulsbury, a Mr. Kirkman, Anthony Swisher, George Swisher, Joseph Price, George Weir, John Vaughn, Newton Wright and Abel Williams. Many of the men were without horses, and the neighbors who had horses and did not go, loaned their animals to those who did; still there were five men who started afoot, as there were no horses to be had for them. We disbanded, after we were mustered in, and went home to cook five days' rations, and were ordered to be at Danville the next day. The men all had a pint of whisky, believing it essential to mix a little of it with the slough water we were to drink on our route, Abel Williams, however, was smart enough to take some ground coffee, and a tin cup along, using no stimulants whatever; he had warm drinks on the way up to Chicago, and coming back all of us had the same.

"We arrived at the Vermillion River about noon on Sunday, the day after assembling at Butler's Point. The river was up, running, bank full, about a hundred yards wide, with a strong current. Our men and saddles were taken over in a canoe. We undertook

\*Fergus's Historical Series, No. 10. † The month must have been September or October. (See Narrative of G. S. Hubbard.)

to swim our horses, and as they were driven into the water the current would strike them and they would swim in a circle and return to the shore a few rods below. Mr. Hubbard, provoked at this delay, threw off his coat and said, 'Give me old Charley, meaning a large, steady-going horse, owned by James Butler and loaned to Jacob Heater. Mr. Hubbard, mounting this horse, boldly dashed into the stream, and the other horses were quickly crowded after him. The water was so swift that 'old Charley' became unmanageable, when Mr. Hubbard dismounted on the upper side and seized the horse, by the mane, near the animal's head, and swimming with his left arm, guided the horse in the direction of the opposite shore. We were afraid he would be washed under the horse or struck by his feet and be drowned; but he got over without damage, except the wetting of his broadcloth pants and moccasins.

age, except the wetting of his broadcoot pants and incompared to the five the set of the integrity, were so well known and appreciated that he had the confidence and good will of everybody, and was a well-recognized

leader among us pioneers.

"At this time there were no persons living on the north bank of the Vermillion River near Danville, except Robert Trickle and George Weir, up near the present woolen factory, and William Reed and Dan Beckwith; the latter had a little log cabin on the bluff of the Vermillion near the present highway bridge, or rather on the edge of the hill east of the highway some rods. Here he kept store, in addition to his official duties as Constable and Connty Surveyor. The store contained a small assortment of such articles as were suitable for barter with the Indians who were the principal customers. We called it "The Saddle-Bags Store," because the supplies were brought up from Terre Haute in saddle-bags, that indispensable accompaniment of every rider in those days before highways were provided for the use of vehicles. "Mr. Reed had been elected Sheriff the previous March, re-

ceiving fifty-seven out of the eighty votes that were cast at the election, and which represented about the entire voting population of the county at that time. Both Reed and Dan wanted to go with us, and after quite a warm controversy between them, as it was impossible for them both to leave, it was agreed that Reed should go and that Beckwith should look after the affairs of both until Reed's return. Amos Williams was building his house at Danville at this time, the sale of lots having taken place the previous April.

"Crossing the North Fork at Denmark, three miles north of Danville, we passed the cabin of Seymour Treat. He was building a mill at that place; and his house was the last one in which a family was living until we reached Hubbard's Trading-Post on the north bank of the Iroquois River, near what has since been known as the town of Buncombe; and from this trading-house there was no other habitation, Indian wigwams excepted, on the line of our

march until we reached Fort Dearborn. \*

We reached Chicago about four o'clock on the evening of the fourth day, in the midst of one of the most severe rainstorms I ever experienced, accompanied by thunder and vicious lightning. The rain we did not mind, we were without tents and were used to wetting. The water we took within us hurt us more than that which fell upon us, as drinking it made many of us sick. The people of Chicago were very glad to see us. They were expecting an attack every hour since Colonel Hubbard had left them, and as we They were expecting an approached they did not know whether we were enemies or friends, and when they learned that we were friends they gave us a shout of welcome.\* They had organized a company of thirty or fifty men, composed mostly of Canadian half-breeds, interspersed with a few Americans, all under the command of Captain Beaubien.
The Americans seeing that we were a better looking crowd, wanted to leave their associates and join our company. This feeling caused quite a row, but the officers finally restored harmony and the discontented men went back to their old command. The town of Chi-cago was composed at this time of six or seven American families, cago was composed at this time of six of seven American ramines, a number of half-breeds, and a lot of idle, vagabond Indians loitering about. I made the acquaintance of Robert and James Kinzie, and their father, John Kinzie. We kept guard day and night for some eight or ten days, when a runner came in—I think from Green Bay—bringing word that General Cass had concluded a treaty with the Winnebagos, and that we might now disband and go home. The citizens were overjoyed at the news; and in their gladness they turned out one barrel of giri, one barrel of brandy, one barrel of whisky, knocking the heads of the barrels in. Everybody was invited to take a free drink; and, to tell the plain truth, every-body did drink. The ladies at Fort Dearborn treated us especially well. I say this without disparaging the good and cordial conduct of the men toward us. The ladies gave us all manner of good things to eat. They loaded us with provisions and gave us all those delicate attentions that the kindness of woman's heart would sug-

\* The distance traveled by Colonel Hubbard on this expedition was not less than two hundred and fifty miles,

Some of them-three ladies whom I understood were recently from New York, distributed tracts and other reading matter among our company, and interested themselves zealously in our spiritual as well as temporal welfare.

The company mentioned in the foregoing as organized while Hubbard had gone for relief, was the first

M.B.

militia company ever organized in Chicago of which any tradition or record is preserved. The commander of this company was Jean Baptiste Beaubien.

The first, truest and bravest volunteer militiamen of Cook County were Shawbonee and his friend "Billy Caldwell." Their names appear on no muster rolls, but their services as protectors of the whites against their savage foes have enrolled them in the hearts of their descendants forever. But for them the first families of Chicago would have had no descendants to perpetuate their lives or tell the story of their preservation. Merited mention of these friends of early Chicago, ever true and brave, appears elsewhere.

In October, 1828, Fort Dearborn was again garrisoned and so remained with the exception of May and a part of June, 1832, until its final evacuation, May 10, 1837. When the Black Hawk War broke out, in the early spring of 1832, threatening the entire devastation of all the white settlements in the country west and northwest of the great lakes, the regular army was found inadequate to repel the threatened danger, and the militia were again called into requisition. Under the call for troops the State of Illinois furnished one hundred and seventy-four companies of volunteers, which appear on the muster rolls of the United States, and served in some capacity during the war. In addition, many companies of State Militia were under arms, who performed

meritorious services, but were not mustered into the service by any United States officer. No rolls of these companies are preserved in the archives of the Government. Fortunately, through the industrious historic research of Hon. John Wentworth and others, the roster of one of these companies, made up of early residents of Chicago, has been rescued from oblivion, as will appear in its proper connection. The participation of residents of Chicago in the war is detailed in the following sketch:

CHICAGO DURING THE BLACK HAWK WAR.—Black Hawk, \*a leading chief of the Sacs, had refused, in 1831, to comply with the terms of the treaty with his tribe, which he himself never signed for his band, which required him to remove west of the Mississippi and relinquish forever all title to lands heretofore owned by him or his band in Illinois. He claimed, with reasons that might have substantiated his claims in any court of law, had he been white, that neither he nor his band ever sold or intended to sell their town, near Rock Island, nor the adjacent farms. On returning from a hunt, in the summer of 1831, he found his village and the adjacent fields occupied by white settlers, who, under the treaty as proclaimed, had come in and taken possession of the cabins and the growing crops he and his band had planted. He determined, at all hazards, to reinstate his band in possession of their ancient homes. The Governor of Illinois, under the terms of the treaty, took a different view of the case, proclaimed the invasion of the State, and called on the United States to help expel the invaders. The result was the burning of the village, the defeat of Black Hawk, his retreat to the west bank of the Mississippi, and a treaty; Black Hawk agreeing by its terms to remain on the west banks of the great river and to relinquish all claims to any part of the domain of Illinois ever after.

The treaty was confirmed by the giving and receiving of presents, and it was believed that the trouble was at an end.

The following spring, Black Hawk's band having had a poor hunt, and having lost the crops they had planted the previous season, found themselves poorer even than poor Indians usually were. They were poverty-stricken. They could not pay their debts to the Indian traders, and had run short of provisions and ammunition. In their destitute condition, it is not strange that they looked lovingly toward their old homes, and held somewhat lightly the forced treaty they had made the fall before. It is stated, on what is deemed good authority, that George Armstrong, who had a trading-post at that time at Fort Armstrong, was a heavy creditor of the tribe, and was not averse to their return, as, out of the scare which might occur and the probable treaty which would ensue, he might, through his influence with the chiefs of the tribe, secure his debt from such subsidies as should come to them. Whether Armstrong influenced them to return is not known. It is certain, however, that he had early knowledge of their intention, and informed General Atkinson as early as April 12, 1832, when he wrote him:

"I have been informed that the British band of Sacs and Foxes (Black Hawk's) are determined to make war on the frontier

settlements. \* \* \* From every information that I have received I am of the opinion that the intention of the British band of Sac Indians is to commit depredations on the inhabitants of the frontier.

It is quite likely that Black Hawk, who was a warm friend of Armstrong, was in collusion with him to get up a scare and a new treaty. The Galenian, a paper published in Galena, under date of May 2, 1832, says that "Black Hawk was invited by the prophet," and had taken possession of a tract of forty miles upon Rock River, but did not remain long before commencing his march up the river. Captain William B. Green, afterward a citizen of Chicago, who served in Stephenson's company of mounted rangers, said that "Black Hawk and his band crossed the river with no hostile intent, but to accept an invitation from Pittawak, a friendly chief, to come over and spend the summer with his people on the head-waters of the Illinois." Whatever may have been the causes or influences which determined Black Hawk, he decided to so far violate the terms of the treaty as to return. April 6, 1832, he crossed the Mississippi with his whole band, including old men, women, children, warriors, ponies and household goods, as was common to the tribe on making a peaceful migration. The warriors numbered 386; the camp followers, probably three times that number. It is well to remember that Black Hawk's soldiers at the maximum numbered less than half a thousand. Some stopped at the village of the Prophet; many dispersed among the neighboring villages, while Black Hawk, with the remnant of his party, numbering more non-combatants than warriors, made his way up the Rock River toward the Winnebago country. His return, in violation of the treaty, and the warning of Davenport, resulted in the hasty muster of the militia by Governor Reynolds to repel the threatened invasion. On Saturday, May 9, the militia had rendezvoused, to the number of eighteen hundred men, at Dixon's Ferry, awaiting the arrival of General Atkinson's forces from Fort Armstrong. Prior to this, J. W. Stephenson, John Foley and —— Atchison had returned from a reconnoitering expedition, and reported that the Indians "had dispersed among the neighboring tribes." The Galenian, in commenting on the report of these scouts said: "It is already proved that they will not attempt to fight it out with us, as many have supposed. Will the temporary dispersion of Black Hawk's band among their neighbors cause our troops to be disbanded?" It seems to have been decided by the troops, if not by the Governor, that they would not disband until they had exterminated the trespassers. On May 10, Major Isaiah Stillman, with a force of about four hundred well-mounted volunteers, was permitted by the Governor to make a reconnoissance on the trail of the halfstarved remnant of the migratory tribe; the Galenian says, "With a fixed determination to wage a war of extermination wherever he might find any part of the hostile band." On the evening of May 12, Stillman's force encamped at White Rock Grove, in what is now Ogle County, about thirty-five miles from Dixon. They had with them a full commissary supply, including a barrel of whisky, and authorities are quite unanimous in saying that many of them were inspired by the maudlin courage they had imbibed. Black Hawk, with his war chief, Ne-o-pope, about a hundred and fifty warriors, and twice that number of women, children, and old men, His proximwas encamped but a short distance away.

\*The Prophet "White Cloud" was a Winnebago chief, then having his village at what is now Prophetstown, Ill. He was in full sympathy with Black Hawk, and although the Winnebagoes would not join him in open war against the whites, his invitation to Black Hawk to come over and plant corn in his territory did not reassure the whites. It had the appearance of duplicity on the part of White Cloud, and aroused the suspicion that a general alliance of the Winnebagoes, Pottawatomies and Foxes against the whites would be the probable sequence of Black Hawk's visit.

<sup>\*</sup> Black Hawk, although a chief of a band, was not at this time the leading chief of the Sacs. He was, according to Indian polity, subservient to Keokuk, who was the leading chief of the nation. Chiefs gained their supremacy in three ways; by inheritance, by marriage with a chief's daughter, or by bravery in war. Black Hawk was not a hereditary chief; he had gained his position by bravery in war, and had drawn around him the best families of the tribe,—the heads of which had fought with him on many a blood field. Keokuk took no part in his raid, but, although his superior in rank, was powerless to control the band which acknowledged allegiance to him.

So, among the Pottawatomies, Big Foot, chief of a band, seemed not to be under the control of any other chiefs of that nation. Although Keokuk, the head chief, desired peace, Black Hawk did not heed his advice or orders.

ity was unknown to the whites, but hearing of their arrival he determined to communicate with them. He accordingly sent a small party of his braves with a flag of truce toward Stillman's camp. On appearing in sight, some of Stillmen's men, without orders, hastily mounted and rode furiously toward them, firing as they advanced, killing two of the Indians and capturing two others. The rest of the party fled to Black Hawk's camp, pursued by the whites, and bearing tidings of the death of their comrades and the violation of the flag of truce. The war-whoop was the reply to the outrage, and an immediate sally in force was made to avenge it. The drunken squad which had done the mischief and opened the war, murdered their two prisoners, and retreated to the camp. Here a general panic ensued, and the whole battalion fled for safety. Eleven of Stillman's men were killed before the escape was effected, among whom were Captain Adams and Major Perkins. The place of slaughter, where the mutilated remains of the victims were afterward found and buried, is still known as "Stillman's Run." panic-stricken soldiers fled to Dixon and other places of safety, spreading consternation among the settlers. General Whiteside, then in command at Dixon, marched immediately to the scene of the late disaster, but the hostile band had disappeared. He had only the melancholy satisfaction of burying the mutilated remains of the victims of this ill-starred and rash encounter. Black Hawk and his braves were on the war-path. They had broken up into small parties, and, in the style of savage war-fare, were devastating the white settlements, robbing, destroying, and murdering in sweet revenge for the outrages of Stillman's men. The volunteers who thus precipitated the rupture were soon after mustered out of the service, and for a few weeks thereafter the settlers were left to defend themselves against the aroused and merciless foe. The news of the breaking out of the war soon reached the settlers of Cook County, then comprising the present counties of McHenry, Du-Page, Will and Lake. The settlers of DuPage County, being nearest the scene of danger, made a unanimous stampede for the stockades at Fort Dearborn as a place of refuge and safety. The news of the outbreak reached Naper's settlement, a few days after the discomfiture of Stillman's forces, and caused not a little anxiety. It being planting-time, the settlers, taking extra precautions against surprise, still remained to finish the work of getting in seed. On the morning of the 18th, Shata, a son of Shawbonee, a messenger sent by his father from the Pottawatomies, who remained friendly to the whites, reached the settlement with the intelligence that a party of Sacs were on the Fox River committing depredations. He stated that they had burned the dwellings and destroyed the property of Hollenbeck and Cunningham, then living at Hollenbeck's Grove (now Millbrook, Kendall County, continued their march up the river, and were then not more than ten miles from the settlement. No time was lost in hastily gathering together what few effects could be carried, and in the afternoon the families, with the exception of Christopher Payne's, started with an escort for Chicago, some of the men remaining to guard the hamlet and crops from de-struction, if possible. The following day Laughton, an Indian-trader living on the Desplaines River, came to the settlement with three Pottawatomie Indians and a half-breed named Burrasaw. They came in search of news regarding the threatened invasion. It was decided to visit the camp of the friendly Pottawatomies, and Laughton's party, joined by Captain Joseph Naper and a few other settlers, went to their camp in the Big

Woods, some ten miles away. They found the whole tribe engaged in a hig feast, but managed to gather from them the unwelcome information that a band of Sacs, three hundred in number, were encamped in the Blackberry timber only four miles distant; that they were bent on mischief; that they would try to prevail on them to spare the settlement, etc. An old squaw, more sober than her lord, said to Naper "Puc-a-che, which Naper understood as the most forcible and imperative expression in the dialect to indicate that only flight could avoid imminent peril. Translated into English it meant "be off," "go quick," or "run for your life." Laughton, who, from his intimate relations with the Pottawatomies as a trader, had no fear for himself, remained. Naper and his companions returned at once to the settlement. There they waited further developments, meantime preparing for fight if it should prove necessary. They loaded on their remaining wagons what they would carry, and hid in a well what it was necessary to leave behind. While engaged in these preparations for flight, Laughton returned, accompanied by some fifty Pottawatomies, to warn them to hasten their departure, as a band of Sacs had already crossed the Fox River, all efforts to dissuade them from hostile intent have proved unavailing. No further delay was made. The settlers hastily warned all within reach of the imminent danger, and with the family of Payne left behind the day before, followed their families in their flight to Chicago, which place was reached on the evening of the 20th. At that time the panic had become wide-spread and the fugitives were pouring in from all quarters. The arrival of the Naperville settlers brought the first reliable news of the near approach of the Indians. Fort Dearborn was at this time temporarily unoccupied as a military post. The troops of the garrison had been sent to Green Bay (Fort Howard) and Major Whistler, who had been ordered to re-garrison the fort from Fort Niagara, had not yet arrived. So the refugees took possession of the fort, several hundred finding crowded but welcome accomodations in the deserted barracks and such improvised shelter as they could erect. Some Michigan Militia also came over and garrisoned the fort in an irregular way, crowding its capacity to the utmost. The fort at this time was in charge of Colonel T. J. V. Owen, Government Agent of the Ottawa, Pottawatomie and Chippewa Indians. The means of defense at this time were certainly inadequate to the scare, to say nothing of the actual danger. The Cook County and Chicago Militia again came to the front. Already the Chicago Militia was enrolled, as appears by the following quotation from the Fergus's Historical Series, No. 16, pp. 64-65:

"CHICAGO'S EARLY DEFENDERS.—In my pursuit of the names of the early settlers of Chicago, a friend has presented me with the following, which he assures me was copied, some years ago, from the original. The officers are all dead. Captain Kercheval, once a prominent man in this city, and who represented it in the Legislature in 1838, died within a year or two in California, leaving a son who is a printer in this city. His widow resides at East St. Louis, Ill., with her sister, the widow of Colonel Thomas J. V. Owen, once Indian Agent here. The two Lieutenants having been Postmasters in this city, are well remembered. Of the soldiers, I know of but one living, David McKee, of Aurora, Ill. If there is another living, he is wanted at the Chicago Historical Society's rooms, corner of Dearborn Avenue and On-

tario Street.

"After this organization, Governor John Reynolds sent Major Daniel Bailey to Chicago, and he raised a battalion of four companies from the citizens of northern The pay-rolls of these four companies of volunteers, I am told, is still preserved at Washington, D. C., where it was sent for the purpose of procuring landwarrants. It is hoped that a copy of it will soon be in the Chicago Historical Society's library. I doubt not but the names of many persons now living are upon it.

"I am inclined to think the paper was drawn up by Colonel Richard J. Hamilton, the stepfather of our present Judge Murry F. Tuley. Thirty-seven is the number capable and willing to bear arms at that date. There was no clergyman here to be their chaplain, if "Chicago, October 17, 1879." they wanted one.\*

May 2, 1832 .- We, the undersigned, agree to submit ourselves, for the time being, to Gholson Kercheval, Captain, and George W. Dole and John S. C. Hogan, First and Second Lieutenants, as commanders of the Militia of the town of Chicago, until all apprehension of danger from the Indians may have subsided:

Richard J. Hamilton, Jeddiah Woolley, Jesse B. Brown, George H. Walker, Isaac Harmon, A. W. Taylor. Samuel Miller, James Kinzie, John F. Herndon, Davied Pemeton, Benjamin Harris, James Ginsday, S. T. Gage, Samuel Debaif. John Wellmaker Rufus Brown, William H. Adams Ieremiah Smith, Heman S. Bond, James T. Osborne, William Smith, E. D. Harmon, Charles Moselle, Isaac D. Harmon, Francis Labaque, Joseph Lafromboise, Henry Boucha, Michael Ouilmette, Claude Lafromboise, Christopher Shedaker, J. W. Zarlev, David McKee, David Wade, Ezra Bond, Robert Thompson, William Bond, Samuel Ellis.

This company never entered the service under the command of Captain Kercheval or Lieutenants Dole and Hogan, but the members were pledged to duty when-

ever and wherever required for defense. So, when the fugitives arrived from the Naper settlement, and the heads of the families indicated their intention to return immediately to look after their property, they found no difficulty in raising a company from the ranks of Ker-

cheval's volunteers to return with them. The company consisted of about thirty men, under the command of Jesse B. Brown and Richard J. Hamilton, and was made

\* There were several clergymen accessible. Rev. William Sec, and Rev. Stephen R. Beggs were at Chicago at the time.

up from the roster of high privates before given, together with a dozen Naperville settlers, among whom were John and Joseph Naper, Christopher Payne, Baley Hobson, Alanson Sweet, Israel Blodgett, and Robert

On Saturday, May 21, this Chicago Militia company, known as Captain Brown's, left Fort Dearborn for the seat of war. They stopped at night at Laughton's and on the next day reached Naper's settlement, where the, found everything had remained undisturbed since the fugitives had left the place. Thence they proceeded to Plainfield, where the settlers had erected a rough log fort and were apparently secure against attack. From there they marched to Holderman's Grove, where they spent the night and a part of the following day. While there an express from Ottawa came to them, bringing the intelligence that a party of Sacs had fallen upon the settlement at Indian Creek, and murdered all the settlers. The company immediately proceeded to Cttawa, and from thence to the scene of the tragedy, where they found, amidst a scene of complete destruction and desolation, the mangled and lifeless remains of fifteen of the settlers. The victims had all been scalped, and their bodies mutilated according to the extreme standard of savage warfare, the children being backed in pieces, the bodies of the women nailed, suspended by their feet, to the walls of the houses, and those of the men mutilated in a manner so shocking as to be indescribable. They buried the dead and returned to Ottawa. From thence, with a reinforcement of twelve volunteers, under Major Bailey, they started on their return march. At Holderman's Grove they found everything laid waste, and proceeded to Plainfield, where they found the settlers within the fort in a state of great alarm, occasioned by the news they had just received of the Indian Creek massacre. The following morning the Plainfield fort was abandoned, and the settlers, under the escort of the soldiers, set out for Fort Dearborn-all but Rev. Adam Payne, a peripatetic preacher, who refused to join the company. He started in the opposite direction for Ottawa, and was never again seen alive. His body was found some days after. His scalp and his long flowing beard had been torn off by the merciless band at whose hands he met his death. The company reached Chicago, with the new accession of fugitives and terror, on the evening of the 26th, after an arduous and heart-sickening, if not dangerous, campaign of five days.

With no regular garrison at the fort, it was deemed necessary to keep a volunteer patrol force constantly on the watch, to guard against the near approach or sudden surprise of the dreaded and wily foe. The Michigan Militia in the garrison did good picket duty, but it devolved on the Chicago men and such allies as might be drawn from the men who had their families in the fort to make more extended reconnoissance. Soon after the return of Captain Brown's company two new companies were organized to reconnoiter the country toward the Fox River. Very meager accounts of these companies appear, as they were never mustered into the regular service, and no rosters of the companies have been preserved. In one of the series of articles entitled "By-Gone Days," published in the Chicago Times, in 1875, the remembrance of these two companies is revived as follows: "Meanwhile the Chicago heroes had left no opportunity unimproved to cover themselves with laurels. Robert Kinzie had a company of fifty Pottawatomies under his command, who acted as scouts and runners, while Captain Jean Baptiste Beaubien, with a company of twenty or more whites, scoured the country about Naperville, Plainfield and Ottawa, in a

style that was exceedingly lively." Hurlbut's "Chicago Antiquities," p. 308, says: "During the Indian excitement of 1832, Mr. Beaubien had command of some twenty-five men, who, as scouts, did duty for a short time." The only extended campaign of these two companies of which any account is preserved occurred

in June, 1832.

BEAUBIEN AND KINZIE'S CAMPAIGN .- On the return of Captain Brown's company, a new company was raised to revisit the deserted settlements near Fox River, to ascertain whether the enemy had visited them, and look after the property left behind and the growing crops, if they had not been destroyed. Robert Kinzie was already on duty with a company of fifty Pottawatomie scouts, Captain Beaubien's company numbered some twentyfive mounted men, among whom were several of Brown's men who had re-enlisted. The two Napers and Alanson Sweet were members. The command set out from Chicago on the morning of June 1. At noon they reached the Desplaines River, where they found Captain Kinzie already encamped with his band of Pottawatomies. It was agreed that Kinzie with his scouts should proceed directly to the Naper settlement, while Captain Beaubien should make a detour to Captain Boardman's to look after the property there, it being expected that the latter, being better mounted, would reach the place of rendezvous first. Beaubien's company rode quite rapidly, found Boardman's property safe, and before sunset reached Ellsworth's Grove. A skirt of timber hid the settlement from view, but smoke was seen rising from the point where Naper's house was located; whether it was from its smouldering ruins or not was a question, to solve which John Naper volunteered to leave the company and go alone to the settlement. He was to fire one shot in case he found friends. He was watched by the little party until he disappeared in the woods. Soon after two shots were heard in quick succession, and, as Naper did not reappear, the natural conclusion was that the Sacs had killed him. Two of the Chicago company, one mounted on a pack mule and the other on a diminutive pony which he had borrowed from the American Fur Company, manifested great trepidation, and without orders turned the heads of their slow and unreliable steeds toward the East Branch timber. Captain Beaubien was not slow to discover the depletion in his ranks, and rose to the exigencies of the occasion. He rode rapidly after the fugitives, vociferating, "Halt! Halt!!" Disregarding the orders of their commander, they continued their flight, now hotly pursued by Captain Beaubien. He soon ran them down, drew his pistol, and brought them to a halt and return to the ranks by the following statement of the case: "You run? By Gar, you run, I shoot you." Soon after the return of the deserters Naper made his appearance bringing the relieving intelligence that friends only awaited them at the settlement. Kinzie and his Indian scouts had outmarched them, and were already encamped there. They rode with haste to the village, with light hearts and empty stomachs. A fat steer, somewhat wild, was run down by the Pottawatomies with a din of yells, dispatched and brought in with great exultation over the success of the hunt, and the commissary still further supplied by breaking into the log store which had escaped the depredations of the Sacs, and bringing forth ample supplies of rum and tobacco for the Indians. In the evening the Pottawatomie scouts were prevailed upon to perform the "war dance" with all the variations that free rum and tobacco could suggest, after which entertainment the tired soldiers slept the sound sleep which

only fatigue can bring. The following morning Beaubien's company rose refreshed. They had slept off the fatigue of the day before, and with renewed strength came renewed ardor for a conflict with the Sacs of whom they had failed to find traces thus far. Fearing that in the heat of some possible conflict, they might slay some of their allies, the Pottawatomies, they took from the stores a web of sheeting, tore it in strips, and as a precautionary insignia, tied them about the head and waist of each friendly Indian. Thus having secured the safety of Kinzie's Indian scouts, Captain Beaubien and his company left them, and started for the Big Woods in search of the enemy. All day they scoured the plains, without meeting a trace of the foe, returning quite jaded and disheartened to the Naper settlement late in the evening. On the following morning they set out on their return to Chicago, leaving Kinzie and his Indian scouts to keep watch for the Sacs, who never afterward appeared in force in that region. They had already gone up the Rock River, beyond the present boundaries of Illinois. Nothing exciting occurred during the return journey except a slight emeute in the ranks. One of the soldiers who had hastily enlisted without any preliminary drill in the manual of arms, placed the whole command in jeopardy by allowing his gun to fire itself off at unseasonable and unexpected times. As the guns were all strapped to the horse's sides, each had the full range of such members of the company as happened to go before. It is not strange that three unexpected discharges from the young man's gun before reaching Brush Hill, a distance of ten miles, should spread discontent in the front ranks. They had steeled their hearts to all the terrors of Indian warfare, the deadly ambush, the savage assaults, the tomahawk and the scalping knife; but this new element of annihilation which belched from an unmanageable gun at such uncertain seasons, and with such uncertain aim had a most demoralizing effect on the entire force. When, on reaching Brush Hill, and dismounting, the young man's gun fired itself off for the fourth time, Captain Beaubien asserted his authority and ordered him to give up the dangerous weapon, which, in a mutinous and defiant manner, he refused to do, whereupon he was collared by the Captain, and after an exhibition of ground and lofty tumbling, such as the prairies had never smiled on before, disarmed. Equanimity, discipline, and safety being thus restored, the company resumed their march, reaching Chicago the same evening. The fugitives were re-assured by their return that there was no immediate danger. Occasional excursions were made during the succeeding weeks to the deserted settlements, each party returning with the welcome news that they had discovered no traces of Indians and that the crops were growing undisturbed. It was, nevertheless, not deemed prudent for the settlers to return to their homes, while the hostile Sacs were known to be still unconquered only one hundred and fifty miles away. They might return and repeat on some defenseless hamlet the horrors of Indian Creek. So all through the summer days of June the fugitives remained quar-tered in and about Fort Dearborn. Major Whistler arrived July 2, with a small detachment of soldiers from Niagara, to re-occupy the fort as a military post and prepare quarters for General Scott and his command, whose arrival was daily expected. He arrived July 8, and on the following morning the dread news was known that with him had come an enemy more terrible than that from which they had fled. It was the scourge of cholera in its most fatal form. The soldiers died off like distempered sheep. The corpses were too

numerous for formal or Christian burial, and were huddled hastily into common graves. The terror of this new enemy, which was the only one before which the hero Scott ever quailed, drove the refugees from the fort. They chose to face the possible danger of the tomahawk and scalping knife, rather than the ghostly pestilence that "walked at noon-day," striking the silent death-blow with unseen hand. The settlers accordingly returned precipitately to their deserted homes, and, by the 10th, Chicago was abandoned to the pest-stricken garrison and the few stouthearted residents who, in the interests of humanity, chose to remain, to assist in caring for the sick and burying the dead. August 3, Black Hawk's fugitives were surrounded and utterly routed at the mouth of Bad Axe River, and the war was at an end. It is not the purpose here to give a full sketch even of the Black Hawk War, except so far as may be necessary to show the participation in it of Chicago soldiers. From the story as told, it is shown that every able-bodied citizen volunteered,\* and nearly all in some capacity did service until the danger had passed away. Gholson Kercheval, Colonel Owen, and many others were kept busy in providing for the wants of the homeless fugitives as they

Gurdon S. Hubbard, still surviving, and residing in Chicago, did service in Colonel Moore's regiment of Illinois volunteers. He was at time living at Danville, although his business brought him frequently to Chicago. He was Second Lieutenant in Captain Alexander Bailey's company, and, according to the records, was mustered into the service May 23, 1832, and was mustered out June 23. The record would be incomplete without the roster of Captain Joseph Naper's company. It was raised during July, too late to take active part in the war. The members were all residents of Cook County, and many of them afterward residents of Chicago. The roster appears in the "Record of the Services of Illinois Soldiers in the Black Hawk War (1831-32) and in the Mexican War (1846-48)," by Isaac Elliott, Adjutant-General of the State of Illinois, pp. 149-50. In March, 1880, it was published in the Chicago Evening Journal, with the following letter:

To the Editor of the Chicago Evening Journal:

I send you a list of the soldiers who volunteered from this county to go with General Scott in pursuit of Black Hawk. most of these gentlemen are dead, but they have left descendents who constitute some of our most valuable citizens. There are many citizens of Chicago now living who had a personal acquaintance with nearly all of them. I have given the residence of those whom I know are now living. Probably others are living whose residence I do not know. This list has been sent to Washington and compared with the original. Many of them resided in that part of Cook County which is now DuPage County

The Fourth Corporal is now the County Judge of DuPage County, and would be a good man for gentlemen of historical tastes to interview.

JOHN WENTWORTH.

CHICAGO, March 2, 1880.

MUSTER ROLL of a Company of Mounted Volunteers in the Service of the United States, in defense of the Northern frontier of the State of Illinois, against the Sac and Fox Indians, from the County of Cook, in said State, in the year 1832, under the command of Captain Joseph Noper:

Joseph Naper, Captain, afterward member of Legislature. Alanson Sweet, First-Lieutenant, now living at Evanston, Ill. Sherman King, Second-Lieutenant, lived at Brush Hill, Ill. S. M. Salisbury, First-Sergeant, afterward Cook County Commissioner, at Wheeling, Ill.

John Manning, Second-Sergeant. Walter Stowell, Third-Sergeant, afterward Postmaster, at Newark, Ill.

John Naper, Fourth-Sergeant, lived at Naperville, brother of Joseph.

T. E. Parsons, First-Corporal. Lyman Butterfield, Second-Corporal.

(\*) See roster of Kercheval's company.

I. P. Blodgett, Third-Corporal, father of Judge II. W. Blodgett. Robert Nelson Murray (Naperville), Fourth-Corporal, now County Judge.

P. F. W. Peck, died at Chicago, Uriah Paine (Naperville), William Barber, Richard M. Sweet, John Stevens Seth Westcott. Henry T. Wilson (Wheaton), John Stevens, Jr.

Calvin M. Stowell. Christopher Paine, John Fox, Basley Hobson, Josiah H. Giddings Denis Clark, Caleb Foster, Anson Ament, Augustine Stowell, Calvin Ament, George Fox, Edmund Harrison, T. Parsons, Williard Scott (Naperville),

Daniel Langdon, Perez Hawley, William Gault, Peter Wicoffe.

Organization of the Cook County Militia.— In 1829 the Legislature of the State of Illinois enacted the following law regulating the militia of the

SECTION 1. Be it enacted by the people of the State of Illinois, represented in the General Assembly, That there shall be one regimental and one company muster, and one regimental muster of officers in each year; the company muster shall be held on the first Saturday in September, unless changed to some other day by order of the commandants of regiments or odd battalions, in which case sixty days notice of each change shall be given to the commandants of each company. Regimental drill musters shall be held on the Friday and Saturday next preceding the regimental musters. Hereafter, no brigade inspector shall be required to attend regimental or drill musters.

Section 2. For the purpose of review or drill inspection, the brigadier-general may change the time fixed by law for regimental musters, by giving to the several commandants of regiments, or odd battalions, under their command, a notice to that effect, on or before the first day of March in each year.

Section 3. Commandants of companies may receive any lawful excuse of non-commissioned officers or privates under their command, for a failure to attend muster, or for not being properly equipped.

SECTION 4. No non-commissioned officer or private shall be fined more than one dollar for failing to attend any regimental muster nor more than fifty cents for failing to atttend any company muster.

Section 5. No person conscientiously opposed to doing military duty by reason of religious opinions, shall be compelled so to do in times of peace; Provided such person shall work two days in each year, on the public roads, in the district in which such person or persons may reside, in addition to the road labor now required of them, under the regulations prescribed in the second section of "An act for the relief of persons having conscientious scruples against act for the reflect of persons having conscientious scrippes against bearing arms," or pay into the county treasury seventy-five cents. The first section of the act, entitled "An act for the relief of per-sons having conscientious scruples against bearing arms," approved February 6, 1827, is hereby repealed.

SECTION 6. So much of the act, to which this is an amendment,

as required battalion musters to be held; so much of said act as fixes the time for holding regimental drill musters; so much thereof as allows compensation to division and brigade inspectors; so much thereof as requires two company musters to be held in each year, and prescribing the holding of the same; be and the same are hereby repealed. This act to be in force from and after its

(Approved, January 9, 1829.)

The above law was certainly not calculated to bring the militia of the State to any great degree of efficiency, as it provided cheap ways and means whereby every soldier enrolled could be exempt from service. Under this general law a special act was passed by the Illinois Legislature in 1833, organizing the militia in Cook County. The act was as follows:

SECTION 1. Be it enacted by the people of the State of Illinois, represented in the General Assembly, that all the citizens of Cook County liable to perform militia duty, shall organize themselves into a regiment, two battalions, and not less than four nor more than eight companies. After the election of colonel, which shall be held on the 20th day of March next, at the house of David Lorton, on the Desplaines River, in said county, and before the people separate, the colonel elect, and the people present, may divide the county off into two battalion districts, and not less than four nor more than eight company districts, and the militia present, when the bounds of the said battalions and companies are described in

writing, shall proceed forthwith to elect two majors, and not less than four nor more than eight captains, and a first and second lieutenant to each company: Provided always, that none shall be eligible to the several offices herein provided for, unless he shall at the time of said election be a resident citizen in such battalion district, if a major, or in said company district if a captain or lieutenant; nor shall any militiaman, not residing in the battalion or company district, be allowed to vote for any officer, so to be elected, but in all cases the militamen shall elect their own officers in their own district.

SEC. 2. After the organization of the militia so to be made at the house of David Lorton, on the said 20th day of March next, the colonel elect shall give to each major, captain, and lieutenant, a certificate of election; and if they cannot elect all their officers in one day, they may continue said election from day to day, not exceeding three days. After said elections shall be closed, and the results ascertained, the colonel shall cause each captain to furnish him within three days a company roll: Provided, that in no case shall any company be recognized as such, unless there be

thirty-two privates in the same.

SEC. 3. The said colonel, when so elected, shall be allowed to receive, for the use of the militiamen of his regiment, two hundred stand of the State arms, to wit: one hundred rifles and one hun-

dred muskets with their acconterments.

SEC. 4. The Governor is hereby authorized, whenever in his discretion he shall deem it necessary, to deliver to the colonel of Cook County the complement of arms mentioned in the preceding section of this act; but the colonel, before he shall receive said arms, shall execute to the Governor a bond, in the penal sum of \$3,200, conditioned that the said arms shall be at all times hereafter forthcoming to the order of the Governor; after which, each captain shall execute a bond in the penal sum of \$16 for each gun, to the colonel, conditioned that said gun shall be at all times hereafter forthcoming to the order of the colonel; and each private, before he shall receive from his captain any of the said arms, shall give him a receipt for the gun, describing it, conditioned that if he fails or refuses to return it to the order of his captain, he will pay, or cause to be paid to his said captain, the sum of \$16 as a penalty for such failure or refusal: Provided always, that the said arms, or any of them, be lost in battle, or by any unavoidable accident, the said bonds, or receipts, to that extent, shall be null and void: Provided also, that the said colonel shall be allowed to execute the bond herein required of him in the Clerk's office of the county commissioner's court, with sureties to be approved by the Clerk thereof, payable to the Governor of this State for the use of the people; which bond shall be filed in the office of the Secretary of State within sixty days, after which certificate of said colonel's bond, by the said Clerk, the quota of arms herein allowed to said county of Cook shall be delivered to the order of said colonel, who shall make equal distribution of them among the captains, who shall distribute them to those who have no arms in the several companies, as shall be equal and just: Provided, that the cost of transportation of said arms shall be paid by the county requiring them.

SEC. 5. The provisions of this act, so far as it confers the

SEC. 5. The provisions of this act, so far as it confers the power on the Governor to deliver State arms to the militia of this State, as provided in this act, shall be general. All bonds to be taken under the provisions of this act, shall be conditioned for the return of the arms in good order.

(Approved February 22, 1833.)

The organization under the provisions of the foregoing law was not completed until more than a year after its passage. In the spring of 1834, by order of the Military Commandant of the State an election was held at the house of David Lorton, (Laughton) on June 7, 1834. The law was by no means popular. part of the community were adverse to training on general principles, and did not care to be bothered with the responsibility of enrolled soldiery which involved the custody of arms and the payment of fines in case of failure to perform the required drill duty at the time specified. The non-military party were in a large majority, and, as they could not ignore a quasi election under the law, determined to elect if possible a colonel after their own heart. The day appointed for their election brought such a crowd of citizens as had never been assembled in Cook County before. Laughton's tavern,\* the place appointed, was situated some twelve miles from Fort Dearborn, near the present suburb of Riverside, on what was known for many years as the

Southwestern Plank Road-now Ogden Avenue. All the able-bodied citizens of Chicago attended; and they went prepared for a short, sharp and decisive campaign. In addition to ordinary commissary stores of crackers, cheese, dried beef, etc., a large supply of strong beverages was taken along to strengthen the soldiery in case of a prolonged contest. A part of the outfit was, according to an aged chronicler, "one keg of brandy, four packages of loaf sugar, and sixteen dozen lemons." The election was entirely a one-sided affair, and was quickly over. The anti-militia party were triumphant. The successful candidate for the Colonel was the chivalrous, good-natured, Jean Baptiste Beaubien, then the most popular man in Cook County and one who it was believed could be depended upon for lax dicipline and light fines in time of peace. The election was celebrated with all the hilarity that the occasion demanded. A barrel set in a spring which gushed from the bluff near Laughton's house was utilized as a punch bowl. Into it the brandy and lemons and sugar were poured, and from it the crowd drank to the Colonel elect, until the spring water again asserted its supremacy. The story is apocryphal; but it is here repeated, nevertheless, as one version of an o'er true tale. It is certain that on the occasion a larger majority of the citizens of Chicago got gloriously tipsy than at any other epoch in her history, before or since. The regiment at that time organized was, for a quarter of a century thereafter, known as the Sixtieth Regiment of Illinois Militia.

Its childhood, under the lax discipline of its over indulgent and big-hearted Colonel, showed a somewhat spontaneous growth, untrammeled and unpestered with the rigors of military discipline, except at intervals so rare as to render them novel episodes in the otherwise free and easy existence. There is mention of but one regimental muster of the Sixtieth in its early days in the military annals of the time, and the date, or even the military annals of the time, and the date, or even the unmilitary but hospitable speech of the good-natured Colonel on dismissing his command is well remembered by old settlers and often quoted. The recollections of K. Jones concerning it were given in a letter which appeared in the Chicago Tribune sometime in 1876 or

1877. The letter is as follows:

"In the year '41 or '42 an attempt was made to organize the militia, and those liable to military were warned out. Ex-Sheriff Sam Lowe had been commissioned as one of the Captains, and was full of military zeal, but the people were determined to 'bust' the whole arrangement somehow. Captain Lowe's company met inside Fort Dearborn, which was then but recently abandoned by the regular troops. The men liable to do military duty did not desire to train, but we boys did, and we fell into the ranks promptly. Presently along comes the Captain, taking down the names, age, occupation, and hearing excuses, if any. When the Captain came to me, he said, with great emphasis: 'Are yon eighteen?' 'N-n-n-0-0 Sir.' 'Stand aside.' And thus he served all the boys who were willing, and had only those in the ranks who looked upon the whole thing as a nuisance, and were decidedly unruly. The Captain threatened to put some of them under arrest, and was fast losing his temper, when five recruits marched on to the parade ground, took the left of the line and saluted without a wink or a smile. As Falstaff says, 'such a lot.' Every one was uniformed on his own hook, and regardless of any regulations, ancient or modern. It is impossible for me to describe the scene that followed. The militia broke ranks and gathered around that army and shouted and laughed and clapped their hands. The Captain was mad, and at last succeeded in getting his company in line, made a speech as to their and his duty. All this time the five scouts, all well-known young men, stood like statues and looked gravely at the Captain; who, white with passion, ordered a corporal (C. R. Vander-cook) to take charge of that squad, and drill them hard and fast. Van is still living, and you just ask him who did the drilling; the Corporal, or that fantastical squad. He will promptly answer. 'That squad came out ahead every time.' Four of the squad are now dead, and the other is still an honored citizen of Chicago. It is impossible for me to describe the scene that followed. now dead, and the other is still an honored citizen of Chicago.

<sup>\*</sup> The house was owned by Bernardus H. Laughton, and kept by Stephen J. Scott—" Early Chicago," p. 57.

This burlesque put the town in great good humor, and, as was intended, 'knocked the spots off' of any more militain trainings in Chicago. The next day was battalion drill, and a new company of fantastics numbering about one hundred, took the place of that squad, and, as no questions were asked, we boys joined, and were at Colonel Beaubien's first and last regimental parade. . . . . . At the close of that regimental parade Colonel Beaubien made the boys a speech about as follow: 'Boys, you have been good soldiers to-day, so we will all go down to my friend George Chackfield's and take some whisky. George, he got some good. I try it this morning.'"

At the time of the organization of the Militia of Cook County, in 1834, the county embraced what is now Will, DuPage, McHenry, and Lake counties, and for many years, until Chicago had grown to be quite a village, the Chicago quota of militia attached to the regiment consisted of but a single company. For the four years succeeding the election of Colonel Beaubien it does not appear that there was any effort made to formally complete the organization by the election of subordinate field officers, or the organization of companies. Until 1838 the Colonel enjoyed his title and held autocratic and undivided command over his unenrolled and uncounted cohorts. The records of the State Adjutant General show the first full regimental staff, and the officers of the first Chicago company which formed a part of the regiment, with dates of commissions and rank, to have been as follows:

REGIMENTAL AND STAFF OFFICERS.

NAME.	RANK.		DATE OF COMMISSION.
John B. Beaubien	Colonel	lune 7, 1833	May 13, 1835
Seth Johnson			
Seth T. Otis .	Major	May 1, 1838	Feb. 19, 1840
George Raymond			
Josiah Salishury			
Charles Dyer			
Valentine A. Boyer			
Julius Wadsworth Chicago Company.	l'aymaster	June 1, 1838	Feb. 19, 1840
David Hunter	Captain	April 28, 1838	Feb. 19, 1840
W. M. Larrabee	1st Lieutenant	April 28, 1838	Feb. 19, 1840
John M. Van Osdell.			
Henry L. Rucker	2d Lieutenant	April 28, 1838	Feb. 19, 1840

It would appear from the above that a second regimental election was held May 1, 1838, and a company election held in Chicago April 28, 1838, the date of rank being recorded on the date of election. It does not appear that the commissions, except that of Colonel Beaubien, were issued until nearly two years after the elections; a sad reflection on the laxity of martial spirit and military pride in Chicagoans at that time. The receiving of the commissions and the partial organization of the regiment in February, 1840, came opportunely. Soon after, a detachment of the regiment was ordered by the Governor to perform guard duty at the execution of John Stone, the first murderer convicted and executed in Cook County. He had been convicted of the crimes of rape and the subsequent murder of his victim, a Mrs. Thompson; the crimes having been committed in the present town of Jefferson, Cook County. He was tried at the May term of court, convicted, and sentenced to be hung May 29. An appeal was made to the Supreme Court, with motion for a new trial. The motion was refused, but, pending the decision, a reprieve was granted, postponing the time of execution to July 10, at which time the culprit was hung. The command of the regiment on this occasion was, by public notice from Colonel Beaubien, given to Lieutenant-Colonel Seth Johnson. The notice transferring the command appeared in the Chicago American of July 8, 1840, and read as follows:

MILITARY MILITIA ORDER No. 1. Headquarters,

Until further orders, the command of the 60th Regiment of Illinois Militia is transferred to Lieutenant-Colonel Seth Johnson, of the same regiment. He will be obeyed and respected accordingly. By order,

J. B. BEAUBIEN, Colonel Commanding, George Raymond, Adjutant.

On the same paper appeared the following:

MILITARY ORDER No. 2. Headquarters,

CHICAGO, July 7, 1840.

In compliance with Regimental Order No. 1, issued July 6, 1840, Lieutenant-Colonel Seth Johnson assumes command of the 60th Regiment Illinois Militia, and directs that an election be held at the Mansion House, Chicago, for the purpose of electing four captains, four first lieutenants, and two second lieutenants in

the above regiment. By order, SETH JOHNSON, *I.t.-Colonel Commanding*, GEORGE RAYMOND, *Adjulant*.

In an account of the execution which appeared in the Chicago American of July 17, 1840, the services of the militia were noticed as follows: "The prisoner was hung Friday afternoon (July 10), three miles from the city, near the lake shore. At the request of the Sheriff, nearly two hundred citizens assembled on horseback, with sixty armed militiamen, under command of Colonels Johnson and Beaubien, and Captain Hunter. Colonel Johnson appeared in full uniform and much credit is due to him and Captain Hunter for their active and successful services in maintaining quiet and order upon this occasion." How long after the execution of Stone Lieutenant-Colonel Johnson held command is not a matter of record. It appears from a regimental order published in the Daily American of August 10, 1842, that Lieutenant-Colonel Johnson at that date still held command. The order was as follows:

Headquarters 60th Regiment. Chicago, May 28, 1842. Regimental Orders No. 2.

For the further organization of the 60th Regiment of Illinois Militia in Cook County, the commandant of said regiment hereby orders an election to be held at the several places herein specified, on the 15th of June, 1842, for the purpose of electing one captain, one second lieutenant, for each company district laid off as follows:

Athens precinct will form Company F district. The election will be at McKay's.

York and Thornton precincts will form Company G district. The election will be held at N. Rexford's,

Lyons and Monroe precincts will form Company H district. The election will be at Spencer's,

Hanover and Barrington precincts will form Company I district. The election will be held at Christopher Branham's,

Grosse Point and Lake precincts will form Company K district.
The election will be held at Shrigley's North Branch Hotel.

Desplaines and Salt Creek precincts will form Company L district. The election will be held at Wilcox's.

The polls will open in each company district at the above named places at 9 o'clock A. M., on the 15th of June, 1842, and will continue open to receive votes until sunset, and all electors must vote viva voce. Three judges of election and one clerk must be chosen and sworn in for each poll, as in ordinary elections. No person shall be eligible to a command in the militia in this State who is not a citizen of the United States, and has not resided in the proper bounds at least ten days. By order of SETH JOHNSON, Lieutenant-Colonel,

SETH JOHNSON, Lettiehaut-Cookel, 60th Regiment Cook County Militia.
GEORGE RAYMOND, Adjutant.

Not long after, Colonel Beanbien re-assumed command and determined to have a muster. Whether it was the same before mentioned, or not, is not certain. The order appeared in the Chicago Democrat and was as follows:

Chicago, August, 1842.

REGIMENTAL ORDER No. 5.
The commander of the 60th Regiment of the Illinois Militia of Cook County orders and directs that the officers appointed on

the 16th of June and also on the 23d day of July, 1842, in the above regiment, and who have been sworn into office, proceed without delay to enrol their companies within their respective company districts, and be in readiness to attend the regimental drill and muster on the 7th day of September, 1842; and on the 14th of the same month a court martial will be held to assess fines on all delinquent officers, non-commissioned officers, and privates belonging to the 60th Regiment. By order of

J. B. BEAUBIEN, Colonel Commanding both Regiment Militia.

Order No. 6, which appeared in the same paper, was as follows:

HEADQUARTERS 60TH ILLINOIS MILITIA,

CHICAGO, August 6, 1842. The commander of the 60th Regiment of Illinois Militia hereby orders and directs that an election for one captain and one first and second lieutenant be held at Doty's tavern, Lyons and Summit precinct, to form Company F district, on Saturday the 20th inst., at 10 A. M., when and where all those subject to serve in the militia residing within the bounds of said district are required to attend, and select three judges and one clerk to keep the poll on oath, and the poll so taken and certified to be returned to the commander of the regiment so soon as the law requires. The polls to be kept open until 6 P. M. By order of

Colonel Commanding 60th Regiment of Illinois Militia.

Later in the year, September 28, 1842, the following appeared in the Chicago Democrat:

Ileadquarters 60th Regiment Illinois Militia, Regimental Orders No. 12.

CHICAGO, September 26, 1842. The commander of said regiment orders and directs that an election be held in Company C, at the United States Hotel, in Chi-

1 & Shuman

cago, on the 12th of October next, at 10 A. M. for captain of said

cago, of the Table October mean, a resigned.

Also, that an election be held in Company D, at the time aforesaid, at the Lake House in Chicago for a second lieutenant of said company, in the place of D. Hatch, removed from the State.

Also that an election be held in Company B, at the Illinois Ex-

change in Chicago, at the time aforesaid, for first lieutenant of said company, in place of E. L. Sherman, resigned.

All persons subject to militia duty within bounds of the respective companies aforesaid are required to meet at the places of their respective companies aforesaid, select their judges and clerks, who, being sworn according to law, will open the polls, receive the votes of all qualified electors within their respective companies, keep the polls open until 6 P. M., certify and return the same to the commander of said regiment. By order of

J. B. BEAUBIEN, Colonel 60th Regiment Illinois Militia. (Attest), B. S. Morris, Adjutant.

The location of nine of the earliest companies of the Sixtieth regiment is shown in the foregoing orders, viz.:

Company B; Chicago, South Side, place of election, Illinois

Exchange, Lake Street, corner of Wells.

Company C; Chicago, West Side, place of election, Lake House, corner of West Randolph and West Water streets.

Company D; Chicago, North Side, place of election, United States Hotel, corner of Rush and North Water streets.

Company F; in Athens (now Lemont).

Company G; the present towns of Thornton, Bremen, Bloom, the south part of Hyde Park, etc., being the southeast corner of

Company II; the present towns of Lyons, Lake, north part of Hyde Park, and other territory adjoining.

Company J: Barrington, Palatine, Hanover, Shaumburgh and

adjacent territory, being the northwestern part of Cook County. Company K; Lake View, Jefferson, Maine, Evanston (then

Grosse Point) and adjacent territory in the northeastern part of the

Company L; Proviso, Clcero, Leyden, Norwood, and other territory directly west of Chicago.

Nine companies were named, of which number three,

companies B, C and D, were Chicago companies. alphabetical order the companies A and E do not appear, and there is a discrepancy in the orders as to companies F and H; Beaubien ordered an election to be held at Doty's tavern, Lyons and Summit, to elect officers for Company F. Johnson ordered the election to be held for Company F at McKay's, at Athens, and for Company H, at Lyons and Monroe.

Colonel Beaubien's muster, in compliance with order No. 5, given before, probably came off. There were delinquents sufficiently numerous to bring out a notice in the Chicago Democrat of October 10, 1842, from A. H. Tappan, Constable and Collector, wherein he states that a list of fines assessed by the "Court of Enquiry and Assessment for the 6oth Regiment of Militia and the Independent Companies attached" had been placed in his hands for collection. The advertisement closes with the following: "It is hoped that every person within the bounds of the regiment subject to military duty will hold himself in readiness promptly to meet his fines.

The following officers of Chicago Militia companies, appear in the State records as elected and commission-

ed, prior to 1847 and subsequent to 1842:

The names of militia officers of Chicago, outside of those of independent companies attached, which appear elsewhere, are copied from the State records, and are as follows:

MILITIA OFFICERS FROM CHICAGO, COMMISSIONED FOR THE 60TH REGIMENT OF ILLINOIS MILITIA, FROM 1842 TO 1847.

The Sixtieth, as the reader already knows, was the first militia regiment organized in Cook County. It continued its existence as a militia State organization until the breaking out of the War of the Rebellion in 1861. Its first Colonel, J. B Beaubien, held command, except at such times as he chose temporarily to abdicate, until 1847, at which time he became Brigadier-General of Second Brigade, Sixth Division, Illinois Militia,\* and J. B. F. Russell was commissioned Colonel.

Following are the names of early officers of the Sixtieth Regiment not identified as residents of Chicago:

NAME.	RANK.	DATE OF RANK,	DATE OF COMMISSION.
P. B. Spaulding Joseph Adams. Ebenezer Moore G. S. Browning Benjamin Hall. Herman Crandall R. F. Cluff. Milton Flaskett P. N. Culver. Seth W. Adams.	Captain	June 15, 1842 June 15, 1842 June 15, 1842 June 15, 1842 June 15, 1842 June 15 1842 June 15, 1842 June 15, 1842 June 15, 1842 June 15, 1842	Aug. 22, 1842 Aug. 22, 1842
John Sevinry G. G. Smith John B. Cowi Joel S. Shinian	1st Lieutenant 2d Lieutenant	July 23, 1842 June 24, 1846	Feb. 4, 1843 Aug. 28, 1846

Further lists of officers connected with the regiment during its existence appear in sketches of the independent companies which were attached to it, and in later years made up the organization.

INDEPENDENT COMPANIES UP TO 1847 .- During the summer and fall of 1842, when the foregoing orders were issued, and the muster of the Cook County Militia occurred, there was a revival of the military spirit which resulted in the organization of the first independent militia companies of Chicago. There had been, prior to this date, one or two ephemeral organizations of which only the names are preserved. In 1837, the Chicago American asked: "What has become of the Dragoon Company?" The question suggests the prior existence of such a company, although no record appears elsewhere concerning it. The same paper, August 12, 1839, asks: "What has become of the Chicago City Guards?" The answer is, as in the former case; nobody knows what has become of them, and nobody would have known that they had ever existed had not the American missed them and attempted a futile hunt for their remains. December 8, 1841, a correspondent in the American wrote:

"I am a little surprised that a city as populous and as public spirited in all other respects as Chicago is, should so long remain destitute of one or more independent military companies.

General Beaubien's staff was announced in the Chicago Democrat of May 18, 4847, as follows: George Davis, Brigade Inspector; J. H. Kinzie, Quarter-master; Peter Page, Aid-de-Camp, with rank of Major respectively.

That a city, numbering at least six thousand inhabitants, has not even one uniformed company is lamentable. In Ottawa there are two companies, and in Joliet one.

The same correspondent further discoursed on the military situation in the American of December 13, 1841. He said:

"The formation of a dragoon company would be much too expensive, for each member would be required to furnish himself with a good horse. An artillery company would not meet our wants; it being an arm of the service that moves with the heaviness of its own eighteen or twenty-four pounders. I would therefore recommend a light infantry company. As to the uniform; it is a matter of fancy or taste. A neat gray uniform need not cost each member over \$20; a felt hat or cap, with plate scales, and tassels with plumes, \$10. This is the full amount that would be required, except the officers, who would have to furnish themselves with epaulets, swords and sashes. The arsenal accounterments are furnished by the State upon requisition."

The following editorial appeared in the American of April 12, 1842.

"ILLINOIS MILITIA—This title we dare say, sounds somewhat oddly. It is rather a new thing for this portion of the State, at all events. The idea of an Illinois training has not probably been con-templated by many of our citizens. Besides, the militia system generally has been so burlesqued; there have been so many invincibles in the field that not a few have looked upon the matter as long exploded. Such views may, perhaps, be properly entertained when there is no danger of war, but they surely cannot be when a few months, nay, perhaps weeks, may possibly present us with scenes and sounds very different from those to which nearly all of us have been accustomed. The sword is already more than half-drawn from its scabbard. This matter has been suggested to us by the fact that militia officers are engaged in enrolling our citizens, and that the twenty-seventh of the present month is training day.

December 12, in the Daily American appeared the following:

"ATTENTION, COMPANY!

"The gentlemen of this city desirous of forming themselves into an Independent Volunteer Company of Light Infantry will meet at the City Hotel on Friday evening next, at seven o'clock. "MANY CITIZENS."

This meeting resulted in an attempt to organize a company. March 14, 1842, there appeared in the Daily American the following notice:

'ATTENTION, COMPANY !- The members of the Washington Guards will meet at the court-room on Randolph Street next Tuesday evening, the 15th, at seven, and it is hoped that others who feel interested in the good cause will come and assist, and also those who wish to join. BY ORDER OF THE COMMITTEE."

April 2, 1842, notice appeared in the American as follows:

"The Washington Guards will meet at the court-room, corner "The Washington Quarts will like a A. April 2, for company drill, A general attendance of members and those wishing to join is requested.

H. Townsen, Secretary. "A. H. PALMER, Instructor."

It does not appear that the Washington Guards became sufficiently organized at that time to be recognized on the State records as an independent company. From such mention as can be found, it appears that there had been in Chicago, prior to the summer of 1842, three independent military companies, viz.: a dragoon company, prior to 1837; the Chicago City Guards, prior to August 12, 1839, and the Washington Guards, in existence April 2, 1842. Quite soon after that date two independent companies were formed; one of infantry, the Montgomery Guards, and a cavalry company, first recorded on the books of the State Adjutant-General as the Chicago Cavalry. The Montgomery Guards may have succeeded the Washington Guards; at any rate it was the first independent infantry company that had sufficient vitality to become historical. It survived the Mexican War, and the long period of peace succeeding, even to the breaking out of the Rebellion in 1861, at which time it was ready as ever since its organization

in 1842 to fight the battles of its country. It has the longest record of any company in the city, was the first to organize, and never ceased its organization until it went out in the glory of actual warfare during the Rebellion. It was an Irish company, as the names of the first officers would show. They were, as appears from the official roster at Springfield, as follows: Captain, Patrick Kelley; First Lieutenant, W. B. Snowhook; Second Lieutenant, Henry Cunningham; Third Lieutenant, Michael O'Brien.

The Chicago Cavalry was also organized in the early spring of 1842. Its first officers commissioned were; Captain, Jesse Leavenworth; First Lieutenant, Isaac N. Arnold; Second Lieutenant, James Y. Sanger; Third

Lieutenant, S. B. Cobb; Cornet, S. N. Davis.

These two earliest independent companies of Chicago were attached to the Sixtieth Regiment of Illinois Militia. Both companies appeared in their new uniforms on July 4, 1842. The Chicago Cavalry headed the procession, and the Montgomery Guards were presented a flag on that occasion. The Chicago American, July 5, gives an account of the presentation ceremonies, as follows:

"On presenting the standard to the company Dr. Egan thus addressed the company: 'Gentlemen of the Montgomery Guards,you have honored me in receiving at my hands the banner-accept It is the first that has been presented in our new city, may it be the last to suffer in defeat. Behold ! it unfurls to the breeze the name of the illustrious Montgomery; it wakes up glorious associations of the chivalrous dead. It points as a beacon light to the shadowy future. Remember! humble as you are now, the disjointed times may call upon some spirit from amongst your ranks to shed his blood for a nation's rights and to leave behind him a name like that which now floats upon the breeze above you. He was but one of the many sons of Erin's Isle that planted the seed of liberty in a foreign land, and watered it with his blood. equally to the torrid regions of the hery South; the snow-clad hills of Canada; the sunny valleys of France; and the orange groves of Spain-and each bears testimony in our favor. Let the spirit that actuated such, inspire you, and hover over this banner as an heir-loom from father-land—a talisman to lead you on to glory. Remember your country has claims on you yet-she bids you be united and firm in support of your own rights, and yield an equality to all. She bids you spurn the oppressor, by whatsoever name he may be called, and to walk upright, for the eye of the stranger is upon you. Farewell and remember your God, your country, and your rights. "Capt. Kelley replied as follows:

"We receive this banner gratefully at our hands. We pledge ourselves to keep its ample folds floating in the hreeze until we shall have the honor to say that we, the Montgomery Guards, have added fresh laurels to our adopted country. We shall ever be ready to meet the enemy first in action and last out. The British flag, it is true, has dotted the globe, but it has marked it with cruelty and oppression; but the star-spangled banner is hailed everywhere as the harbinger of freedom, the hope of the oppressed and the terror of tyrants. The sympathies of the whole world are following its course as it ploughs the ocean in search of distant climes, and unborn millions will yet bless the hour when it was unfurled to wage unceasing war upon the oppressors of mankind."

In Norris's directory 1844 three independent companies are named as then existing in Chicago.

The Chicago Guards: J. B. F. Russell, Captain; W. M. Larrabee, First Lieutenant; F. A. Howe, Jr., Second Lieutenant.

The Chicago Cavalry: J. Y. Sanger, Captain; S. N. Davis, First Lieutenant; C. E. Peck, Second Lieutenant; J. G. Wicker, Third Lieutenant; J. L. Howe, Cornet; C. L. P. Hogan, Orderly Sergeant.

The Montgomery Guards: P. Kelley, Captain; W. B. Snowhook, First Lieutenant; H. Cunningham, Second

Lieutenant; M. O'Brien, Third Lieutenant.

At this epoch the military spirit sensibly waned. The city directory of 1845 names no military organizations. May 21, 1845, the Chicago Democrat inquires: "Where are the Chicago Cavalry, City Guards, and

Montgomery Guards? We should have to look to them for defense in case of the invasion of our city, and we should like to know their condition." The breaking out of the Mexican War the next year, revived the military spirit, and brought these companies again into prominence. Neither of them failed to furnish many Mexican soldiers, although the companies remained in Chicago.

CHICAGO IN THE MEXICAN WAR.—Neither the official records nor the newspapers of the day; the memories of the old soldiers of the Mexican War still surviving, nor all that can be gathered from those sources of information, give the full history of Chicago and Cook County during the years of the Mexican War. The newspapers caught such local news as was, at the time, interesting; the Adjutant-General's office at Springfield took, apparently, as much cognizance of that war as the law demanded and little more. From its records it would be impossible to tell how many men Illinois furnished, how many went from Cook County, or how many from Chicago. Neither could the number of companies raised in Chicago be ascertained, nor the names of the men who enlisted, nor the companies to which they were assigned, nor any other historic fact of local or individual importance. This is written after a careful examination of all the published reports, and a cursory examination of the records at Springfield.

Nevertheless, from the only three reliable sources for historic information known—the State records, the newspapers, and the memory of the soldiers—it is believed that most concerning the period that pertains to the history of Chicago and Cook County has been res-

cued from oblivion.

From the newspapers of Chicago the following extracts are given; showing in a quite disjointed way the war atmosphere which pervaded the city during 1846:

January 6—A. Garrett, Mayor, invited the citizens of Chicago to attend "a meeting at the court-house on Friday, January 8, to take into consideration the best method of defending our city in case of war."

January 13—Hon. John Wentworth, wrote from Washington under date of December 23, the following paragraph: "One of the military committee complains greatly that our State has made no returns of its militia. Whose business is this? If our Legislature has an extra session, it ought to re-organize our militia as the first thing. There ought to be a company with officers of its own choice in every precinct, with power to have two where the precinct is very large. The same of the wards of our city. Then there ought to be a separate body of inspection officers chosen by the precinct officers for each county. In case of a war, there must be a strong military post at Chicago. In the capacity of our Government to hold the fort at Mackinac, or in the capacity of that fort to command the straits we should not place too much dependence."

Democrat, January 13—"The war meeting called for the 8th was postponed, in the absence of a large delegation of leading citizens then at Rockford, attending a railroad meeting in the interest of the Galena &

Chicago road."

Democrat, May 26—"Congressional act passed May 13 authorized the President to accept volunteers to the maximum number of 50,000. Approved May 22, 1846."

Democrat, May 30—"Corporal Sullivan, son of J. H. Sullivan, of this city, in the midst of the late battle (Monterey?) after firing at a company of the enemy, rushed in upon them, seized a lieutenant by the collar, disarmed him and delivered him a prisoner to Lieutenant Graham. He also captured a cannon from the

enemy, rolled it out in the road and turned it over to an officer of the 5th Infantry. Napoleon would have promoted him on the field."

Democrat, June 3—"T. L. Dickey commanded a company from LaSalle County in the Mexican War."

Democrat, June 30-A. Garrett writes a letter of half a column. He states that he was appointed chairman of the citizen's committee to aid and assist in raising and equipping volunteers under the requisition of the Government. That it required no small exertion and considerable means to raise and uniform the first two companies, and that in order to do this it became necessary for a individuals, of whom he was one, to subscribe an ununlimited amount for uniforming, as the Government had made no immediate effort for this object. After this had been accomplished, a latter was received from Governor Ford stating his desire that there should be another company raised in Chicago. "Knowing the great difficulty experienced in raising, uniforming and transporting the first two companies to the State rendezyous, I offered to advance the funds myself for a third company, provided it could be raised-not otherwise." He then speaks of his first success in raising thirty-five recruits, but found that C. H Larrabee had authority to raise a company for Santa Fé. Larrabee finally decided not to go, but the effort to raise two companies at the same time prevented Mr. Garrett from raising the quota required, within the ten days allowed him by the Governor. He succeeded in recruiting fifty-eight men. A full company was required: sixty-four privates, eight non-commissioned, three commissioned officers and two musicians.

Captain Mower's company | Chicago is mentioned by a correspondent from Alton, as one of twenty com-

panies quartered there in June, 1846.

The State Register as quoted by the Democrat of June 30, said: "Governor Ford returned from St. Louis on Saturday last June 20, probably having effected arrangements with Major Lee, the commissary of subsistence, and Major Macky, the quartermaster at that place, for furnishing supplies for three regiments of volunteers who are to rendezvous at Alton. Colonel Shields has been authorized by the Governor to inspect and muster into the service the volunteers who rendezyous at Alton. The following list of companies have been reported to Colonel Shields as being those he is to receive, they being from the thirty companies first reported: 1. Captain J. L. D. Morrison, St. Clair County; 2 Captain Peter Goff, Madison County; 3 Captain Ferris Foreman, Lafayette County; 4 Captain Lyman Mower, Cook County; [5] Captain Elisha Wells, Cook County.

Democrat, July 13—"The Montgomery Guards, under Captain Snowhook, did themselves great honor on the 4th. We heard the company complimented very highly by several strangers present here. It is a strong argument against native Americanism when we see that the Sons of Erin were the only military company that turned out to celebrate the Declaration of Independence."

Democrat, September 29—" Two Illinois regiments are with General Taylor; two with General Wool."

Democrat, November 24—Captain Mower, from New Orleans, writes of his troubles with Colonel Hardin on transports, Mower claiming that Dr. White drew by lot for him a steamer, in his absence, and that Hardin put on a small brig. Mower refused and was put under arrest for insubordination.

Democrat, December 15—General J. E. Wood sends dispatches, Coahulia, Mexico, October 14, 1846, stating that Colonel Hardin, with eight companies of the 1st

Illinois, came up on evening of the 12th. "Yesterday he crossed the river, and will join us in an hour."

The following extracts are taken from the files of

18.17

Democrat, February 16—"Captain William Rogers has opened a rendezvous at Captain Russell's office on Clark Street, where the young men of the city or country desirous of attaching themselves to this company can enroll themselves,"

Democrat, February 16-"In pursuance of a call from the Mayor, Hon. John P. Chapin, a large and respectable assemblage of citizens convened at the courthouse, on Friday, the 12th of February, to take into consideration of the call of Government for troops to serve in the war with Mexico. Thomas Dyer was called to the chair and Captain Russell was appointed secretary. Mr. Gregg was called on, and in a spirited and very animated manner addressed the meeting in a way calculated to arouse the noble and patriotic feelings of every American. Mr. Rodgers, who contemplates the raising of a regiment of ten additional companies, expressed his strong desire to lead a company of troops to serve in Mexico. The meeting was also addressed by Dr. Brainard, Colonel Hamilton, Captain Russell, John H. Kinzie and others, when the following resolutions, presented by Mr. David L. Gregg, were adopted:

"Resolved, That we commend the spirit and patriotism of our fellow citizens who are ready to enroll themselves for service during the Mexican War, and that we will yield them our countenance and support in their efforts to uphold the national honor.

support in their efforts to uphold the national honor.

"Resolved, That a full company of troops ought to be raised in the city of Chicago for said service, and that we pledge ourselves individually and collectively to do everything in our power to pro-

mote that object

"Resolved, That the present war with Mexico should be vigorously prosecuted until an honorable place is secured and a full measure of redress for repeated wrongs and outrages extorted from the enemy."

"The meeting adjourned after several candidates had been enrolled."

Democrat, February 16-" Hon. John Wentworth, writing from Washington concerning the presentation of a sword to Lieutenant John Pope for gallantry at Monterey, said: 'Whilst Illinois thus remembers and rewards the valor of those born within her limits, is she going to be unmindful of the service of her sons by adoption-a poor Irish boy? He enlisted as a common soldier in the United States Army, and drew only \$7 a month. He was made a corporal of his company, which office he held at the battles of the 8th and 9th, where he performed such feats of valor as caused a notice of him by his Captain Morris in his official reports and for which the citizens of New Orleans presented him a gold medal. President Polk has promised him the first vacant Lieutenant's commission in the regular army; and in anticipation of this, I hope our Legislature will present him with a sword."

Democrat, February 16—"The Mayor calls a meeting to be held at the court-house, February 14, to raise a company for the Mexican War. We understand that Mr. Rogers, a son of the brave old commodore, who riddled the man-of-war 'Little Belt,' in the last war, with other young men of talent, are interested in the further upholding of the flag,"

Democrat, February 16-"Mr. Rogers is slowly fill-

ing his company."

On February 23—"Mr. Rogers is on his way to the country to take the names of those who wish to join his company." On March 2—"Recruiting is very slow; Rogers is still in the country." Two companies are spoken of as having been previously raised in Chicago.

Democrat, April 6-War meeting to exult over victory Buena Vista, Saturday, April 3. Two recently enlisted companies are spoken of.

Democrat, April 13-" Captain E. B. Bill's company is to rendezvous at Cairo attached to 16th Infantry.

They left on April 20, in high spirits.

Democrat, April 13-"Captain C. C. Sibley, recruiting officer, informs us that he has already enlisted one hundred men. His company is composed of men for the most part of good size. We perceive that Sergeant Kelley is an adept in military discipline. The company will, on the opening of lake navigation, take the first boat to Cleveland, thence to Newport, Ky. They are destined to fill up old regiments.'

Democrat, April-Captain Bill\* has about fifty men here, and his Lieutenants are in the country enlisting. His company is probably full, and will leave in a few

days for Cairo.

Democrat, April 27-" We notice that in the accounts of the memorable battle of Buena Vista, Captain Smith's name is mentioned in terms of warm commendation for his bold and daring conduct throughout the conflict. It will be remembered that he was slightly wounded in the battle."

Democrat, April 6-" Richard L. Wilson, one of the editors of the Chicago Journal was severely wounded by the accidental discharge of a cannon on Saturday last April 3. The two companies of volunteers recently enlisted in the city, together with a large concourse of citizens, had assembled on the public square to celebrate the recent victory of our army in Mexico, and Mr. Wilson was assisting to load and discharge the cannon, when by an accidental discharge both his thumbs and his left arm were blown off. One word about that old cannon. Six men have been wounded by it to our knowledge, and we think it should now be given to our founders, and let them use it up as old metal. This cannon was raised in 1837 from the Chicago River, and is supposed to have lain there ever since the massacre at this place in 1812. The inside of it more resembles honey-comb than anything else, and thus it is impossible to properly swab it." The cannon disappeared soon after the accident.

Democrat, May 11-"We understand that James Hugunin is raising a company of infantry to meet the late requisition of Governor French. His rendezvous for the present is on South Water Street, between Clark and

LaSalle.

Democrat, May 11-"We are requested by Isaac Cook, Esq., Sheriff of this county, to state that he has not called upon the people for volunteers, because Colonel D. S. Cady is now absent, whose duty more properly it is. But should Colonel Cady not return by Wednesday, he will then take the proper steps to organize one company or more for the county.

Democrat, June 22—"Day before yesterday we published a letter from Judge Young, stating that the President would accept of a company of cavalry from Chicago. The previous company had gone to Santa Fé as infantry. So our boys had to begin again. But the company is now ready, making the ninth! company Chicago has sent to the war."

Democrat, June 22-" The 'Shields Cadet' is the

name of the fourth\* volunteer company raised in Chi cago. Captain, George M. Cole; First Lieutenant, S. R. Wood; Second Lieutenants, S. W. Smith, and Ed ward Morey. There is room for a few more privates if application is made soon. Captain Cole wants to leave by Monday next. Captain Hugunin wishing to go to Santa Fé after his company was rejected, enlisted as a

private in Captain Kinney's company.'
Democrat, July 23—" Lieutenant William Erwin, of the first company of Chicago, has returned from the war and is now in this city as Orderly Sergeant. At Alton he was elected Second Lieutenant, and after the resignation of Lieutenant Elliott, First Lieutenant. At Presidio, he was appointed Quartermaster by Colonel Hardin, and devoted considerable time while in Mexico in that capacity. At Buena Vista he took the command of, and most gallantly led his company in that terrible fight. We understand Lieutenant Erwin intends locating permanently in DeKalb.'

Democrat, July 20-" We learn by a gentleman from New Orleans that Captain Mower from this city has been arrested in that place for murder. The story is that he killed a man in Natchez some four years ago, and that a reward of \$500 was offered for his arrest at

that time."

Democrat, July 6-Captain Kinney's company received a banner from the ladies of Alton.'

Democrat, July 15-" Among the volunteers from this city, year ago, for the Mexican War, was George Pilson, a Norwegian. Charmed with the institutions of America, when the war broke out with Mexico, he was among the first to enroll his name; and though he had plenty of work at good wages he was at work at Alderman Granger's foundry nothing could deter him from contest. In the battle of Buena Vista he distinguished himself for his bravery, and fell in the thickest of the fight. It was during the terrible charge upon the 1st Illinois Regiment made by Mexican lancers, that Pilson fell. He had slain one lancer by the discharge of his rifle, and had killed a horse and rider with the butt of his piece when three lancers pressed upon him and ran him through with their lances.

Democrat, September 20-" The war flag presented by Alderman Granger to Captain Mower was returned by him to the donor, and by him displayed in the Dem-

ocrat office.'

Democrat, November 13-"Captain C. C. Sibley left this city on Thursday, the 12th. He has been recruiting here, and has been successful in raising a large body of excellent soldiers. He leaves an interesting family in this city. Captain Sibley is attached to the 5th Regiment of United States Infantry."

Democrat, November 23—"Up to date following

members of Captain Kinney's company F 5th Regiment have died: F. McDaniels, en route to Sante Fé, David T. Blackman and James Carr, at Santa Fé,

Democrat, November 23-"Captain Swift's cavalry company, accompanied by a piece of artillery and a band of music, paraded the streets vesterday. They made a fine appearance and created an unusual stir in the city. After parading the streets the company retired without the city limits and continued firing some time. We should judge from the time between each report that the gun was well handled."

Democrat, November 23-"The cavalry and flying artillery meet to-day at the old garrison ground. We hope all who take an interest in military affairs will be in attendance. The artillery will be escorted by a band

<sup>&</sup>lt;sup>a</sup> Captain Bill was a resident of Naperville. He was a native of Catskill, General Co., N. V., and was, before coming West, a Major-General of New York State Militia, and had held the office of Inspector-General of the New York State Militia. He died October 12, 1847, of yellow fever, on hoard the ship "Tahmaroo," en rante from Brazes to Sew Orleans.

Journal, July 12—"W. N. Chambers, a young gentleman of this city, attached to Colonel Doniphan's command, returned home last evening. Mr. Chambers marched via Santa Fé and Chihuahua to Monterey, where he joined General Taylor's army after a fatiguing march of eleven months."

Journal, December 22—"A Peace Meeting was held at the Tabernacle last evening. We noticed a large number of our most worthy and respectable citizens in attendance. The Rev. Mr. Adams was chosen chairman, and an address in opposition to the continuance of the war read and adopted. A Peace Society was organized, and resolutions and a memorial to Congress presented. The meeting then adjourned till next Tuesday evening, when the memorial and resolutions will come up for discussion."

Journal, July 9—" Mexican soldiers from the war can have their papers forwarded to Washington and land warrants immediately procured, by applying at J. B. F.

Russell's land agency.'

# MR. HOLDEN'S RECOLLECTIONS OF THE MEXICAN WAR.

The following, from the pen of Charles C. P. Holden, himself a soldier of the Mexican War, is, without doubt, the best sketch of the part Chicago and Cook County took in that war that has thus far been written:

In May, 1845, on the annexation of Texas, General Taylor was ordered to place his troops in such a position as to defend that State against a threatened Mexican invasion. In August of that year he concentrated his troops at Corpus Christi, where he remained until March 11, 1846, when he broke up his encampment and moved the army of occupation westward; this was composed of only about four thousand regulars. On the 20th of March he reached and passed without resistance

the Arroya Colorado, and arrived at the Rio Grande, to which point he had been ordered by the authorities at Washington, after considerable suffering, on the 29th of that month. Here he took every means to assure the Mexicans that his purpose was neither war nor violence in any shape, but solely the occupation of the Texas territory to the Rio Grande, until the boundary should be definitely settled by the two republics.

Encamping opposite Metamoras, General Taylor prepared for Mexican aggression by erecting fortifications and planting batteries. Provisions became short, the American Army possessed but little ammunition and were in many other ways discouraged, but the battle of Palo Alto was commenced, and gloriously was it won on May 8, 1846. On the following day the two opposing armies again met at Resaca de la Palma, within three miles of Fort Brown; the battle commenced with great fury; the artillery on both sides did terrible execution, and extraordinary skill was displayed by the opposing Generals; but again conquest declared for the United States Army. These victories filled our country with exultation; Government acknowledged the distinguished services of General Taylor by making him Major-General by brevet. Congress passed resolutions of high approval; Louisiana presented him with a sword, and the Press everywhere teemed with his

War had now been actually declared between the Governments in real combat, and on May 11, 1846, Congress passed an act declaring that "By the act of the Republic of Mexico a state of war exists between that Government and the United States." Simultaneously that body appropriated \$10,000,000 to carry on the war and empowered the President to accept fifty

thousand volunteers.

It was about May 20 before the official news reached the capital of our State and also the city of Chicago. It spread like wild-fire. Governor Ford issued his proclamation calling for thirty full companies of volunteers to serve, for twelve months, with the privilege of electing their own company and regimental officers. Within ten days thirty-five full companies had organized and reported to the Governor, and by the time the place of rendezvous had been selected Alton, there had been seventy-five companies raised and each anxious to be the first in the field, of which the Governor Ford had to select thirty companies, the full quota of the State. Two of these companies were accorded to our city, one of which was headed by Captain Lyman Mower and the other by Captain Elisha Wells. When the news first reached Chicago, Captain Mower, then a thoroughgoing young merchant, seizing the opportunity unfurled his flag and established his headquarters for a company for the Mexican War. There was a great rush and Captain Mower was the lion of the day. Well does the writer remember the company of young men headed by their young and zealous commander as they marched through our streets to the stirring music of fife and drum. In that day and time those who opposed the war said that to enlist at that period for service in that distant country to fight a well-drilled and thoroughly-organized army composed of Spaniards, Mexicans and Indians, among the chaparral of Mexico was sure death. Nevertheless the rush of young men to uphold the stars and stripes in that conflict seemed to know no end. Chicago was then but in its infancy, having a population of over fourteen thousand, but her people were resolute and patriotic to the very core—only a few years had passed since the same barbaric scenes which were then of daily occurrence on the frontier of Texas had been perpetrated

at their own homes in and about where Chicago then stood.

The second company under the leadership of Captain Elisha Wells was soon raised and ready for the field. Many citizens of Chicago with their money and means aided these two companies in organizing and preparing for the front, and among those who were foremost in this laudable work was the late Augustus Garrett, who was then just retiring from a three years service three terms as Mayor of the then young city. He was full of the enthusiasm that prevailed at that time and wanted to see his young and growing city take a front rank in the conflict then pending with Mexico. The late Hon, John P. Chapin succeeded Mr. Garrett as Mayor of the city in the spring of 1846, and he too was enthusiastic for pushing on the war but just begun. It was his desire that the prairie city should be heard from in no uncertain terms in that conflict. Captain Sibley of the regular army opened a recruiting office for enlisting men for the regular army and many having failed to get into the volunteer companies, enlisted in that service being determined to aid in the subjugation of Mexico even though it were at the peril of their lives.

The following is the list of those who enlisted in Captain Mower's company and it is believed to be entirely correct. Every man in this company enlisted in Chicago. In a letter from Captain Lyman Mower, who is now living in Milwaukee, he informs the writer that they were all enlisted here and belonged in Cook County at the time. Their names were: Captain, Lyman Mower; First Lieutenant, William Erwin; Second Lieutenants, Samuel M. Parsons and Mathew Moran; Sergeants, Joshua Herrindan, Frederick Hailborn, Augustus Til-ford and Dewitt C. Davis; Corporals, Samuel Scott, Charles Banks, Benjamin Van Vrankin, and George D. Slack; musicians, John Helms, and Augustus Stemple; privates, Simon Atley, Phillip Asant, David Baker, Henry Bruner, Michael C. Brennan, George C. Bunker, Lewis Battleman, W. Cline, James Carle, James Carlin, Edward Devoe, David Dolson, John H. Durling, Isaac English, Harmon Ellering, Stephen Elain, Abraham Franks, Tina P. Fuller, Charles Fowk, Eliacune Gardner, John Gardner, Lyman Guinnip, Jonathan Groves, Luther Groves, Michael Hyde, Austin Handy, Nelson Johnson, Cyrus Lathrop, Charles Myers, John Miller, Jacob Miller, Michael McCarty, W. P. Olmstead, Christian Osmand, George Phettiplace, Henry Porter, William Phinisy, Edward F. Rowe, Frederick Roth, Frederick Rickow, W. H. H. Robinson, Frederick Shrader, Augustus Steinhouse, Harmon Secomb, John H. Temple, John Warian, Frederick Wenter, Samuel Waters, John Wells, James Walker, John Wise, Francis Burroughs, Adam Black, George Upperman, Freeman Willett, Frederick Weaver and Franklin Carney.

The soldiers raised by Captain Wells were all enlisted in Chicago, and Augustus Steinhouse, now in the United States Custom Service in this city, informs the writer that all the members of this company were enlisted and rightfully belonged to this city, where they were credited on the muster-roll of the company at that time. Their names were: Elisha Wells, Captain, who was subsequently transferred when M. P. Smith was elected to the captaincy; First Lieutenant, Patrick Higgins; Second Lieutenants, William A. Clark, Elias B. Zabriska; Sergeants, Arthur Perry, Abraham Peters, Chauncey H. Snow, Alfred Wrose; Corporals, Patrick Mehan, L. M. Mathews, George Mackenzie, George P. Wilmot; Musicians, D. M. Burdick, Levi Bixby; Privates, W. O. Anderson, Patrick Burke, James A. Blanchard, John Burkholder, Thomas J. Burr, John Bisbee,

John D. Boneby, Peter Conover, Patrick Clemens, Henry Crane, Bradley Chandler, Junius Dilley, Peter Dolan, James T. Eason, Simeon L. Ells, Leroy D. Fitch, Michael Finton, Thomas Gavin, Edward D. Garregus, Hiram Gun, Demis Griffin, Thomas Gorman, James Gitty, John Howland, W. Hodge, Edward Huzey, Michael Half, George W. Krebbs, Solomon Kirkman, Patrick Murray, John Malone, Phillip Mains, Thomas T. Moore, James O'Rourke, Francis Quinn, Joseph H. Pratt, Thomas Riley, B. A. Richards, John L. Smith, Jeremiah Sullivan, Barney Seary, O. C. Taylor, George W. Underhill, Edward Wright, Thomas P. White, S. T. Woolworth, Thomas Dilley.

These two companies were at once furnished transportation to Alton, by stage to LaSalle and thence to Alton by steamer, where they arrived about June 10, and were mustered into the United States service June 18, 1846. When the thirty full companies arrived at Alton, they were formed into three regiments, known and commanded as follows: First Regiment, Colonel John J. Hardin; Second Regiment, Colonel William H. Bissell; Third Regiment, Colonel Ferris Foreman.

In the meantime the Fourth Regiment had been formed and fully organized with Colonel Edward D. Baker as their commander. The two Chicago companies were attached to the famous First Regiment—as companies B and K. Company B was commanded by Elisha Wells, and Company K by Lyman Mower.

These four regiments were immediately pushed to the front, where they were in good time heard from in the very heart of Mexico, at Buena Vista and Cerro Gordo, where many of them fell a sacrifice to that war. Among the number may be mentioned Colonel John J. Hardin, of the First Illinois, together with one Captain, one subaltern and twenty-six enlisted men, making a total of twenty-nine killed, while two subalterns and sixteen enlisted men were wounded and three missing.

The Second Regiment, which was headed by the late Governor Bissell, lost two Captains, one subaltern, and twenty-nine enlisted men; total, thirty-two killed; had wounded two Captains, six subalterns, and sixty-three enlisted men, and four missing. The aggregate loss for this regiment was one hundred and twenty-six. The term of service having expired, the First and Second regiments, which were at Buena Vista, were discharged at Camargo, Mexico, June 17, 1847.

The Third and Fourth regiments, which were in the battle of Cerro Gordo, were discharged in New Orleans,

La., May 25, 1847.

The Secretary of War, April 19, 1847, made a requisition for six thousand more volunteers to "serve during the war" to take the place of those whose term of enlistment was to expire. Of this call but one regiment was assigned to the State of Illinois. Governor French issued his call for another regiment in conformity to the requisition of the Secretary of War early in May, and young men throughout the State, as well as many older ones, offered themselves by thousands. In Chicago they sprang up as by magic. On May 11, the Chicago Democrat said: "The Chicago cavalry embraces the very flower of our city; young men commanding the highest confidence, both for their talents and integrity. We hope these young men who did their business on ten hours' notice will be accepted."

In its issue of May 18 appeared the following: "Colonel Hamilton has just arrived from Springfield, and we learn that he has had the Chicago Horse Company accepted as a company of infantry, and that there is no probability of having our second company accepted unless the express arrived early on Monday morning,

as there was a great rush to get a chance to volunteer from all parts of the State."

At that time there were no telegraphs, and hence the long delay in communicating with the capital of our State, to say nothing about the delays in reaching Washington, from whence all war orders came. The writer was a member of "the Chicago Horse Company," and it was only by hard work and a little stategy that the late Colonel Richard J. Hamilton succeeded in having it accepted as one of the infantry companies for the new regiment. It was raised quickly, and upon receipt of the glorious news that it was accepted, an election was held for company officers, with the following results: For Captain, Thomas B. Kenney; First Lieutenant, Murray F. Tuley; Second Lieutenants, Richard N. Hamilton and James N. Hunt, with the following rank and file: Sergeants, Alvin V. Morey, John A. Knights, William Forsyth and John B. Goodrich; Corporals, Charles C. P. Holden, George Brinsmaid, George Hewitt and Levi R. Vantassell; fifer, Charles Styles; drummer, George Carson; privates, James H. Allen, William H. Black, Robert Croft, James H. Godfrey, Edgar Pool, Jeremiah Styles, Spencer Pratt, William Daniels, Hendrick Hattendorf, Ashley Anderson, Brebson W. Brunker, John M. Bour, John Burns, Nelson Barnum, Richmond S. Danforth, George W. Case, James Foster, Alfred T. Woodford, James Rote, Asa H. Cochman, George B. Bull, William P. Gregg, John P. Girard, Amos N. Griffith, Joseph Gardner, Lyman Herrick, Harvey Hall, Seth P. Huntington, Daniel Huntley, Alanson Halleck, Iver Johnson, Frederick Kratzer, Henry Lahr, William Mathews, William Mudge, Morris H. Morrison, Theophilus Michael, James V. Ramsden, Nicholas Rodholtz, Gotrich Stroh, Augustus H. Seider, Freeman Thornton, Henry Snight, Alexander H. Tappan, Christopher F. Utho, Adam Wiley, James C. Young, Erastus D. Brown, Peter Backman, August Eberhard, Stephen Emory, James R. Hugunin, John W. Hipwell, Jacob Kensling, Lorenzo D. Loring, James D. Morgan, Lorenzo D. Maynard, Charles J. McCormick, Phineas Page, Valentine Rheinhard, Julius C. Shepherd, John T. Rolph, Julius C. Shaw, Thomas Scacor, John W. Strebel, Levi R. Vantassell, James Wilson, Seymour Whitbeck, Luther G. Hagar, Alexander Freeman, Daniel Martin.

When thus organized it was at once ordered to report at Alton, Ill., the general rendezvous for all Illinois volunteers for the Mexican War. The company proceeded thither via stage, to LaSalle, where a steamer was in readiness which took it down the Illinois River to Alton, where it arrived about May 30, 1847, and immediately went into camp. And here soldier-life commenced in real earnest. The city was flooded with the new companies and many others. Indeed, there were several fragmentary companies, partly filled, which had reported at Alton with the hope of being accepted and subsequently filling their companies to the maximum number. These companies were doomed to disappointment, as only the ten companies which had reported to the Governor in the first instance could be accepted at this time. James R. Hugunin, of this city, had the nucleus of a fine company which he tendered to the State for service in Mexico. There were many other companies also tendered, all of which were refused, when they immediately broke up their company organizations, and the individual members applied to be admitted to the ranks of such companies as had been accepted by the State and General Government, and it is believed, a large majority of them were thus accepted, as the Chicago company had more than one hundred upon its rolls, eighty-five of whom belonged in Chicago and the towns immediately surrounding the city, and were credited to Chicago.

The regiment was now ready to complete its organization, and Captain Edward W. B. Newby, of the Brown County company, was elected Colonel of the same. Henderson B. Boyakin, a private in Captain Turner's Marion County company, was elected Lieutenant Colonel, and Captain Israel B. Donaldson, of the Pike County company, was elected Major. Colonel Richard J. Hamilton, of Chicago, who had been father of the Chicago company, was a candidate for the colonelcy, but was defeated in the ballot by E. W. B. Newby.

The regiment having completed its organization, was ready to march at an hour's notice. The Chicago company was presented with a beautiful banner by the ladies of Alton, and the members were all in high spirits and anxious to move to the front, expecting to be ordered to Scott's line of the army, then en route from Vera Cruz to the City of Mexico. But judge of the surprise of the regiment when the order did come, and they were marched to the steamers for transportation down the river, and when well under way, and just opposite the mouth of the Missouri River, the transports turned suddenly into and up that stream, when for the first time their destination was known. It was Santa Fé, where they arrived after a tedious and hard journev across the plains September 16, 1847. The steamer brought them to Fort Leavenworth, where they remained, making all necessary preparations for the march across the country, which was entered upon about July 6. Fort Leavenworth at that time was on the eastern border of the Indian Territory, and upon starting out from that post the command took a southerly direction until it had crossed the Kaw River, which crossing was at a point below where the city of Lawrence, Kan., now stands. Soon after crossing the river they took the Santa Fé trail. Thus far they had traveled through the country occupied by the civilized Indians, but soon after entered that of the hostiles. On passing Council Grove, and from that point to Los Vegas, the country through which they passed was occupied by the worst tribes of Indians that ever infested the plains. There were traveling under the protection of this command a large number of traders en route to Santa Fé. They had elegant trains, consisting of six mule teams, heavily loaded with goods for New Mexico and the lower coun-They sought the company of this detachment of soldiers to protect them from the savages, of whom they always had mortal fear, but during the entire distance through this hostile country the writer has no recollection of having seen or even heard of an Indian. They gave the army a wide berth, fearing, no doubt, the old flint-lock muskets with which it was armed.

About the time the Fifth Regiment left Alton another was forming—the Sixth Regiment—composed in a large part of those companies and men that had failed to be accepted in the Fifth. This regiment was commanded by Colonel James Collins, who had brought a company from Galena, Ill., as Captain of the same. He was elected Colonel August 3, 1847. There were many Chicagoans in that regiment. Among the number were: In Company A, Martin Clark, Lewis Johnson, Damon C. Kennedy, Aaron Messechar, Thomas Mullen, Martin McRorgh, James McDonald, Job A. Orton, William A. Thornton; in Company E, Thomas C. Jones, Lockwood Kellogg, Frank Smith, John Worrell, Charles Brown, George Robinson; in Company F, Andrew Bauder, James R. Ross, Vernon J. Hopkins, William A. Hedges, James M. Johnson, Henry McGuire, Andrew Mackay, James A. Nelson, John Reynolds; in Company I, Joseph R. Anderson, Artemus L. Benjamin, Henry Blowney, Lafayette Lock, Thomas Pollard, Hugh Riley; in Company K. Edward Connuff, John Reed, Clark W. Roberts, Timothy Ryan, Hiram Shook. This regiment was ordered to Scott's line, and suffered terribly by sickness and disease, and some were killed in the battle at San Juan, Mexico. When they went into the field the regiment numbered 1,046, officers and men. Of those, four Captains, nine Lieutenants, and two hundred and eighty non-commissioned officers and privates died of disease and were killed between the City of Mexico and Vera Cruz. The wreck of this regiment returned to Alton, Ill., where it was mustered out of the service July 24, 1848.

Under the act of Congress, approved May 13, 1846, the following companies of mounted volunteers were raised at various points in the State, to-wit: Captain A. Dunlap, company numbering 138 officers and men; Captain M. K. Lawler's, 121 officers and men; Captain Josiah Littell's, 103 officers and men; Captain Wyatt B. Stapps's, 97 officers and men; and Lieutenant G. C. Lamphere's, 31 officers and men; a total of 490.

During the spring of 1846 Captain C. C. Sibley came to Chicago and opened a recruiting office. He enlisted a large number of men, and in the winter and spring of 1847 he continued enlistments in Chicago. Captain E B, Bills, of Naperville, Ills., under the act of Congress known as the "ten regiment bill" enlisted a full com-

pany in Cook County for service in Mexico.

All the record that the writer is able to find of these enlistments is to be found on pages 314, 315 and 316 of the Adjutant-General's report, State of Illinois, which is very imperfect. Three pages are devoted to these enlistments and the list contains 343 names. Further than that the record is silent. Not a date is given, nor where the recruits were from, nor what became of them. They appear to have been about equally credited to three companies, to-wit: Company G, 16th Infantry, were allowed 118; Company A, 16th Infantry, 124, and Company E, 14th Infantry, 101—giving a total of 343. No record is to be found of the company raised by Captain E. B. Bills, though his full company was raised in Cook and adjoining counties, in the spring of 1847, and the zealous Captain led his company to Mexico. And this is all the writer is able to say of Captain Bills and his company, or of the 343 men enlisted by Captain C. C. Sibley. General Isaac H. Elliott, Adjutant-General of the State, on page 314 of his report, says, concerning these men: "The Adjutant-General of the army when applied to for data as to the killed, wounded, discharged, etc., stated 'I have the honor to inform you by direction of the Secretary of War that the request cannot be complied with; it being contrary to the well established practice of the office and not consistent with the interest of the public service." This is simply a disgraceful blot on the fair fame and honor of Illinois, whose sons went forth at the call of the President to fight and die, if need be, for their country's aggrandizement, and this is the only State record left to their heirs and country. There were many other enlistments in Chicago and Cook County, but the above number are all that can be traced by any printed record.

There were two small companies of regulars, consisting of 115 men, enlisted here in the winter of 1847, by Captain C. C. Sibley, of which, no record is to be found. They were assigned to companies B, 16th Infantry, and D, 3d Infantry. Mr. D. L. Juergens, then and now a resident of this city, was one of the last-named company, and is authority for the statement that they were pushed

to the front with all possible dispatch, being in all the battles from San Antonio and Contreras to the City of Mexico, which they helped to take September 14, 1847. He says that two-thirds of the number were killed and died of disease and from wounds received in battle. He names the following, which he remembers as from Chicago: Bernard Althower, Theodore Bohnenkemp, Fond, William Heldman, --- Hacks, - Greenhard, Marahan Jansen, D. L. Juergens, John McKinney, John Moriarty, G. W. Savory, Fred Schmidt, Phillip Schweitzer, Theodore Tehts, William Wolf. There is no record of either of these companies in General Elliott's report, and they were all Illinoisans. The following is the number of officers and enlisted men that went to Mexico to serve in the war with that country from Illinois, to

First Illinois Regiment 76	63
Second Illinois Regiment 7:	
Third Illinois Regiment 9:	24
Fourth Illinois Regiment 8.	
Fifth Illinois Regiment	
Sixth Illinois Regiment	16
Mounted Volunteers 4	go
Regulars, etc 4	58

Grand total of all troops from Illinois.... 6,315

The record of the War Department shows total number of volunteers from Illinois 6,123, which number is 226 in excess of those reported by the Adjutant-General of our State. The records of the War Department as to our own volunteers are undoubtedly correct. It is safe to assume that one-eighth of the enlistments, including those for the regular army and also those who enlisted under the ten regiment act, were from Chicago and Cook County, or 700, officers and men.

This county did its full share in furnishing men for the Mexican War. Of the 790 young men that went into that struggle from this county not more than 500 returned to the homes they had left in 1846 and 1847 and of these 500 not more than 62 are survivors at this

time.

Company F, the Chicago company in the Fifth Regiment, lost by death many of its best men, and among the number were William A. Black, who died at Santa Fé October 9, 1847; James H. Allen, who died in Socoro, on the Rio Grande, December 10, 1847; James H. Godfrey, who died in Santa Fé January 29, 1848; Robert Croft, May 31, 1847; William Daniels, August 19, 1847; Hendrick Hattendorf, June 11, 1847; Spencer Pratt, September 19, 1847; Edgar Poole, September 30, 1847; Jeremiah Styles, November 3, 1847; John W. Wheat, September 29, 1847. Thus was ten per cent of the company wiped out, while on foreign soil, by disease and death.

The havoc by death since that time would seem is thought to be strictly true. Of the staff officers, Colonel Newby, Colonel Boyakin and Major Donaldson are dead. The Hon, William H. Snyder, now of St. Clair County, this State, who was the Adjutant, only survives. Of Company F, Captain T. B. Kenney and Lieutenants R. N. Hamilton, Alvin V. Morey, James N. Hunt, and John A. Knights are dead. Hon. Murray F. Tuley, First Lieutenant Company F, still survives, and is one of our honored Judges at the present time. No doubt the same ratio of disease and death has prevailed among the officers of the other companies of the Fifth Regiment of which the writer has no definite knowledge.

Three of Company F deserted, to wit: Luther C. Hager, Alexander Freeman, and Daniel Martin. During

the last days of October or early in November, 1847, seven companies of the Fifth Regiment Illinois Volunteers, Easton's Battalion of Missouri Volunteers and a battery of artillery of six pieces with supply trains were ordered to move out of Santa Fé and to march southerly down the Rio Grande. This news when known by the various companies that were to go was hailed with delight, as it was thought that they were to take the route of Colonel Doniphan, who with his regiment had preceded them but a short time, and whose campaign in Mexico, as subsequent events proved, stood second to none in that service.

A paymaster was ordered to accompany the expedition which boded a long journey for the command. All being in readiness, they started off with banners flying and all in the highest spirits. They hoped that they were en route for Chihuahua and further on toward Saltillo, where they expected to join the army of General Zachary Taylor. Major Donaldson was in command of the expedition, Colonel E. W. B. Newby remaining in Santa Fé, where he was in temporary command of the Post and the Department of New Mexico. In seven weeks they made but one hundred and seventy-five miles, or a trifle more than four miles per day, arriving at Valverde, below Limitaa, near the entrance of the desert which had to be crossed before reaching El Paso, about the middle of December. This long time had not been consumed in marching, as the time was principally spent in the various camps, watching the decimation of their ranks by disease and death, caused by the prevailing fevers of the country. During January, 1848, General Sterling Price arrived in Santa Fé and took command of the Post and Department, at once relieving Colonel Newby. The Fifth still remained in camp near Limitaa. They were ordered back to Santa Fé during the winter much to their disgust. Easton's Battalion and the artillery company went forward, and the writer thinks that they reached Chihuahua, where it was reported they had a fight. It was the last battle of the Mexican War, and, of course, they came out victorious. No part or parcel of the United States Army was ever whipped during that war. It was a series of victories from beginning to end.

The Fifth remained in Santa Fé until late in the spring of 1848 when a detachment, about three hundred strong, was ordered mounted and were sent something like three hundred miles west of Santa Fé to conquer a peace with the Navajo Indians, who were killing the Spaniards in the valleys, carrying off into bondage their women and children, plundering, and running off their stock. The detail took in a large portion of Company F the Chicago company. It was an interesting cam-The marauding Indians were found in their strongholds, three hundred miles west of Santa Fé, thoroughly whipped and subjugated and brought back to Santa Fé together with the captured women and children. A treaty of peace was negotiated with the tribe and a guard detailed to escort them back to their country. The writer was one of the guard, Judge Tuley, of Chicago, being in command of the same. The guard accompanied the tribe seventy-five miles into the Jamaz Valley, where it bid them adieu, when they took to the mountains and the escort returned to Santa Fé. News of the peace reached the regiment early in August, when preparations were begun for the return of the regiment to the United States. Trains for the transportation of the commissary and company supplies had to be got in readiness before it could leave for the recrossing of the plains. In the meantime many of the officers and men of the regiment applied for their discharges,

.n order that they might proceed westerly to California, or elsewhere as they might determine. Many of the Chicago company were among the number, to wit: First Lieutenant, Murray F. Tuley; Second Lieutenant, James N. Hunt; Sergeant, John D. Goodrich; Corporad, Levi R. Vantassell; musician, George Carson; privates, Peter Backman, Stephen Emory, James R. Hugunin, John W. Hipwell, Jacob Kesling, James D. Morgan, Lorenzo D. Maynard, Charles J. McCormick, Phineas Page, Valentine C. Shaw, Thomas Seacor. Sergeant Alvin V. Morey was elected First Lieutenant; John A. Knights, Second Lieutenant. Charles C. P. Holden was appointed Sergeant and James Rote was appointed Corporal, before the return march commenced.

Everything being in readiness orders were given for the regiment to report at Fort Leavenworth and Alton, Ill., for final discharge from the service of the United States Government, and on or about August 20, the command, in three detatchments, left for home, and re-crossed the plains to Fort Leavenworth, where transports were in waiting. The regiment in detachments, reached Alton, Ill, where they were mustered out of the United States service October 18, 1848. Many of the best men in the regiment, and in the Chicago company, had died in the service of their country and lay buried in their graves in the valley of the Rio Grande, in the mountains and on the plains. Such was life in the army in Mexico in 1846–47 and 1848.

The Chicago Evening Journal in its issue of October 28, 1848, said :

"The Fifth Regiment Illinois Volunteers, under Colonel Newby, were mustered out of the service at Alton, Monday last, October 18. General Churchill remarked: "It is with much reluctance that I award to any soldiers more credit for good, orderly and soldiers like conduct than I have heretofore ascribed to the regiments commanded by the lamented Colonel Ilardin and the gallant Colonel Bissell; but I feel constrained by a sense of justice to say, that I have never in my life mustered a regiment superior in solviety and good order and conduct to that I have just been engaged in mustering out of the service. Both officers and men can equal the finest discipline found amongst old regulars."

Under same date the Journal also said:

"Captain Kenney's company of volunteers recently mustered out at Alton, have returned to their homes and we recognize many an old face, etc." "Steele, of the Exchange, tendered them a banquet on their return."

Colonel Richard J. Hamilton, who had done so much in raising this company, gave a magnificent dinner to a large number of the company.

There were many soldiers in the Mexican War from Illinois who subsequently became noted for their fame as officers in the late war or as statesmen, or both, and a few may be mentioned as among the many from this State, to wit:

General U. S. Grant, 2d Lieut. 4th Infantry. Major-General John Pope, 2d Lieut. Regulars. William H. Bissell, late Governor of Illinois, Colonel 2d Illi-

General Edward D. Baker, Colonel 4th Illinois. Ferris Foreman, Colonel 3d Illinois. William A. Richardson, Major 1st Illinois,

General Isham N. Haynie, late Adjutant-General State of Illinois, 1st Lieut. Company C, 5th Illinois. General Richard J. Oglesby, late Governor of Illinois, 1st

General Richard J. Oglesby, late Governor of Illinois, 1st Lieut. Company C., 4th Illinois. General W. H. L. Wallace, Adjutant 1st Illinois.

Murray F. Tuley, 1st Lieut. Company F, 5th Illinois. General John Morrill, private, Company I, 1st Illinois. James L. D. Morrison, Lieutenant-Colonel, 2d Illinois. R. E. Goodell, private, Company I, 1st Illinois. T. Lyle Dickey, Captain, 1st Illinois. General John A. Logan, 2d Lieut. Company II, 5th Illinois. John A. Prickett, Lieutenant Company E, 4th Illinois.

Lewis W. Ross, Captain Company K, 4th Illinois, General James D. Morgan, Captain Company A, 1st Illinois, James T. B. Staff, Adjutant 3d Illinois, Major-General Michael K. Lawler, Captain Company G, 3d Illinois 1546, and Captain Lawler's Cavalry 1847. George C. Lamphere, Lieutenant Captain W. B. Staff's Cavalry

John S. Hacker, Captain Company F, 2d Illinois. John G. Fonda, 2d Lieut, Staff's Cavalry Company, Arthur I, Gallagher, private, Company G, 2d Illinois Artour I. Gauagner, private, Company G. 20 Hillions. Colonel Daniel G. Burr, Sergeant Company H., 4th Illinois. Captain W. H. Ursey, private, Company C, 4th Illinois. W. J. Wyatt, Captain Company G, 1st Illinois. John W. Hartley, Drummer, Company A, 6th Illinois. General James B. Fry, late Provost Marshal-General, Lieuten-George W. Prickett, 1st Lieut, Company D, 2d Illinois.

ant in Regulars Benjamin F. Marshall, 2d Lieut. Company C, 5th Illinois W. R. Morrison, private, Company H, 2d Illinois. John Reddick, Lieutenant 1st Illinois. James S. Martin, Sergeant Company C, 5th Illinois. William H. Snyder, Adjutant 5th Illinois. Thomas L. Harris, Major 4th Illinois. John Moore, Lieutenant-Colonel 4th Illinois. William B. Fondey, Adjutant 4th Illinois. Captain George R. Webber, private, Company A. 4th Illinois. Dudley Wickersham, Corporal Company A, 4th Illinois. General Stephen G. Hicks, Lieutenaut-Colonel 2d Illinois. Major Samuel D, Marshall, 3d Illinois.

The conquest of Mexico in 1846-48 by the army of the United States, composed as it was of regular and volunteer soldiers, is a matter of great pride to all the survivors of that army at the present day, and to none more than to those who went into that service from Illinois. Chicago and Cook County too, may well look back with pride to the part taken by their sons in that conflict-a conflict out of which came so much to their common country. First, Through that war the boundary line between Mexico and Texas was definitely settled and established, and a long contest of deadly strife on the western boundary of Texas decided. Second, There was acquired by the treaty 937,000 square miles of territory, consisting of mineral, agricultural, timber and stock lands, the richest and best in the known world, all of which was so much added to the public domain of this country. Third, The acquirement of this vast domain made possible the construction of railroads and thereby the connection of the Atlantic and Pacific oceans by bands of steel never to be severed, which, without the acquisition of this territory, never could have been done. Fourth, There has been taken from the mines of the States and Territories acquired through that acquisition more than \$2,000,000,000 in gold and silver. Fifth, There has been paid into the Treasury of the United States over and above all expenses for collecting the same, for custom dues and internal revenue, from the Pacific States and Territories which were acquired through the Mexican War \$220,-505,217.19, which fabulous sum is a clear gain to the revenues of this nation, for without that vast domain there would have been nothing to have taxed. Sixth, Improvements have sprung up in all parts of the acquired territory that surpasses all belief, including some of the foremost cities of the nation, and also the construction and operation of more than 9,000 miles of railways, running to many parts of that vast domain. All this was acquired through the Mexican War.

The army that went to Mexico consisted of a trifle more than 100,000 regulars and volunteers. To have belonged to that great army in those perilous times and on the distant soil of a foreign and treacherous foe, to have accomplished so much for our common country, should be cherished as honor enough for any American citizen who participated in that national conflict.

### LOCAL MILITARY COMPANIES.

REGISTER OF REGIMENTS.—After the close of the Mexican War a long season of peace ensued. Not again, until the breaking out of the Rebellion in 1861, was the militia called into requisition for any work more serious than to quell some local disturbance, or to add to the impressiveness of some holiday parade. For two years after the close of the war there was hardly sufficient military enthusiasm to keep alive any military organization in the city. In 1850, sufficient interest was evolved in military matters to result in the organization of a few new companies. The old Sixtieth Regiment still held its position on the records of the State Adjutant-General, and in 1854 was supplemented by the Washington Independent Regiment. Some of the companies attached to these regiments did not survive long enough to be tried by the stern test of actual war; others-indeed nearly all-were practically extinct by the close of 1860, but all those retaining even a nominal organization, aroused by the peril that threatened the country, and drawing fresh vitality from the great flood of patriotism that swept over the country, answered to its call, and, with solid ranks, marched with more enthusiasm to the battle field, than ever in the listless days of peace to the holiday parade or drill.

Following are the rosters of these regiments, and all military companies which had a recognized existence in Chicago, from 1848 to the close of 1860, so far as

these records are to be obtained:

SINTIETH REGIMENT-Second Brigade, I. S. M., General J. B. Beaubien.

(1848-49.) Colonel, J. B. F. Russell; Major, William L. Church; Adjutant, George Raymond; Quartermaster, George A. Rumsey; Surgeon, W. B. Herrick.

(1850-51.) Colonel, J. B. F. Russell; Lieutenant-Colonel, D. S. Cady; Major, William L. Church.

(1852.) Colonel, William H. Davis; Major, James M. Donnelly.

(1853.)
Colonel, James M. Donnelly; Major, Matthew Conley; Adjutant, Rudolph Wehrli; Quartermaster, William S. Davis; Paymaster, Thomas Shirley.

(1854.) Colonel, James M. Donnelly; Major, Matthew Conley; Adjutant, Thomas Shirley; Paymaster, Theodore O. Wilson.

Colonel, James M. Donnelly; Lieutenant-Colonel, Matthew Conley; Major, John E. Kimberly; Adjutant, Joel H. Dix; commissary, Joseph H. Martin.

(1850-61.)

Colonel, Ezra Taylor; Lieutenant-Colonel, Herman D. Booth; Senior Major, Frederick J. Hurlburt; Junior Major, Elijah W. Hadley; Adjutant, Joel H. Dix; commissary, Joseph 11. Mar-

#### COMPANIES OF SIXTIETH REGIMENT.

Montgomery Guards (Organized in spring of 1842, by Captain Patrick Kelly).

Captain, W. B. Snowhook; 1st Lieut., Michael O'Brien; 2d Lieut., John O'Neill; 3d Lieut., Eugene O'Sullivan.

(1849.)
Captain, T. J. Kinsella; 1st Lieut., Michael Gleeson; 2d Lieut., Eugene O'Sullivan; 3d Lieut., M. Cooney; ensign, Patrick O'Mally.

(1850-52.) Captain, Michael Gleeson; 1st Lieut., Bernard Curran; 2d Lieut., Patrick Coffey; 3d Lieut., Michael Cooney.

Captain, Michael Gleeson; 1st Lieut., Patrick Coffee; 2d Lieut., Daniel McShellop; 3d Lieut., James McMullen.

(No record 1854-56. Officers in 1857.) Captain, Michael Gleeson; 1st Lieut., Patrick Coffee; 2d

Lieut., Michael Hickey; Ensign, Matthew Lynch; Sergeant, William Lewis.

(1858.)

Captain, Michael Gleeson; 1st Lieut., Michael Hickey; 2d
Lieut., James Stenson; 3d Lieut., Patrick Nugent.

(No farther record until the breaking out of the Rebellion, when the company was reorganized and entered the United States service as Company B, 23d Illinois Infantry.)

CHICAGO HUSSARS AND LIGHT ARTILLERY.

(Organized November, 1847.)
Captain, R. K. Swift; 1st Lieut., James Smith; 2d Lieut.,
Nelson Buchanan; 3d Lieut., C. F. Howe; cornet, John A. Rei-

(1849-51.)

Captain, R. K. Swift; 1st Lieut., Nelson Buchanan; 2d Lieut., C. B. Welsh; 3d Lieut., John A. Reichart; cornet, Rushley Wield. dolph Wehrli.

(1852–1853.) Captain, R. K. Swift; 1st Lieut., Nelson Buchanan; 2d Lieut., C. B. Welsh.

CHICAGO LIGHT ARTILLERY.

(Organized May 5, 1854.) Captain, James Smith; 1st Lieut., Ezra Taylor; 2d Lieut., E. W. Hadley; commissary, H. S. Spears.

(1856-1857.)

Captain, James Smith; 1st Lieut, Ezra Taylor; 2d Lieut, Amos Grannis; 3d Lieut, Darius Knights; Sergeant, C. T. Brad-ley: 2d Sergeant, Alex. Davidson; secretary, T. A. Hoyne; ley; 2d Sergeant, Alex. Davidson; secretary, T. A. treasurer, John R. Botsford; commissary, David Horen.

(1858–1860.)

Captain, James Smith; 1st Lieut., Amos Grannis; 2d Lieut., Darius Knights; 3d Lieut., C. T. Bradley; Orderly Sergeant, C. J. Stalbrand; secretary, Charles Horen; treasurer, John R. Bots-

ford commissary, David Horen.

(The "Chicago Light Artillery" was re-organized by Ezra Taylor in the spring of 1861, and was afterward known as "Old Battery A" and "Old Battery B".)

Washington Lægers, German.

(Organized in 1847.)
Captain, Frederick Schaefer; 1st Lieut., R. P. Denker; 2d Lieut., Christian Kotz; 3d Lieut., Jacob Eich; Surgeon, F. C. Hageman.

CHICAGO J.EGERS.
(Organized September 7, 1847.)
Captain, Michael Diversey; 1st Lieut., Jacob Eich; 2d Lieut.,
Anthony Huck; 3d Lieut., F. Manch; 4th Lieut., M. Best.

In November, 1849, these German companies organized in two battalions, each made up of "Grenadiers" and "Jægers," and known as the Chicago Battalion and the Washington Battalion-the two forming the "Chicago German Odd Battalion" 20th, which remained attached to the Sixtieth Regiment until 1854, when it was transferred to the newly formed "Washington Independent Regiment No. 1."

CHICAGO GERMAN ODD BATTALION.

(1850.)

Major, Michael Diversey; Adjutant, Arno Voss; Surgeon, C. A. Helmuth; Quartermaster, Jacob Eich; Paymaster, P. Schut-

CHICAGO BATTALION. (1850.)

Captain of Grenadiers, Frederick Schaefer; 1st Lieut., Joseph N. Becker; 2d Lieut., Henry Lutzi; 3d Lieut., Nicholas Barth. Captain of Jægers, Jacob Eich; 1st Lieut., Anthony Huck; 2d Lieut., Dietrich Moench; 3d Lieut., Martin Best.

Washington Battalion.

(1850.)

Captain of Grenadiers, Theodore Weiler; 1st Lieut., John E. Webber; 2d Lieut., Louis Bacher. Captain of Jægers, Christian Kotz; 1st Lieut., George Feiler; 2d Lieut., Louis Horn.

CHICAGO BATTALION. (1852.)

Captain of Grenadiers, Anthony Huck; 1st Lieut., John Diversey; 2d Lieut., Henry Lutzi; 3d Lieut., Nicholas Barth. Captain of Jagers, F. Manch; 1st Lieut., Fred Kurth; 2d Lieut., Ilenry Stupp; 3d Lieut., J. Barbien.

WASHINGTON BATTALION.

Captain of Grenadiers, Theodore Weiler; 1st Lieut., John Schneider; 2d Lieut., Jacob Tull. Captain of Jægers, George Feiler; 1st Lieut., Louis Horn; 2d Lieut., Fred Mattern.

RINGGOLD GUARDS. (Organized in 1847.)

Captain, William II, Davis; 1st Lieut., J. J. Russell; 2d Lieut., J. Sherman; 4th Lieut., George Davis. (This company was short-lived.)

GARDEN CITY GUARDS.

(Organized August, 1852.) Captain, Thomas Shirleey; tst Lieut, David R. Crego; 2d Lieut, Elijah Leran; 3d Lieut, M. H. Baker.

(James Beldin was the second Captain of the Company. No further record.)

JACKSON GUARDS. (IRISH.)
(Organized March 7, 1853.)
(Captain, Francis McMurray; 1st Lieut., John Dunlap; 2d
Lieut., William Heffron; 3d Lieut., George Stewart.
(No farther record of this company until the breaking out of

the War of the Rebellion. It was then re-organized and entered the service under Captain McMurray, as Company C, 23d Illinois Volunteer Infantry.)

CHICAGO LIGHT GUARD.

(Organized February 22, 1854.)

Captain, John B. Wyman; 1st Lieut., Frederick Harding; 2d Lieut., H. H. Loring; 3d Lieut., H. D. Booth; 4th Lieut., William H. Rass; Orderly Sergeant, J. E. Kimberly; Surgeon, W. B. Herrick.

(1856-1857.) Captain, John B. Wyman; 1st Lieut., Herman D. Booth; 2d Lieut., George W. Gage; 3d Lieut., F. Sherman.

Captain, Herman D. Booth; 1st Lieut., George W. Gage; 2d Lieut., F. Sherman; 3d Lieut., Philip Wadsworth; 4th Lieut., J. H. Dix; secretary, H. M. Flint; treasurer, G. S. Thurston; Surgeon, William B. Egan; commissary, William R. King.

(1860)

1st Lieut., George W. Gage; Commanding Orderly Sergeant, Frederick Harding.

EMMET GUARDS.

Captain, Patrick O'Connor; 1st Lieut., John Murphy; 2d Lieut., Daniel M. Ward; 3d Lieut., Thomas Dolen.

(1855.)

Captain, James A. Collins; 1st Lieut., Michael Kelly.

(1856.)

Captain, D. C. Skelly; 1st Lieut., Michael Kelly; 2d Lieut., John Clary; 3d Lieut., Patrick McGuinness.

Captain, D. C. Skelly; 1st Lieut, O. Stuart; 2d Lieut, Patrick McGuinness; 3d Lieut, A. E. Skelly; ensign, P. Cor-coran; Orderly Sergeant, P. J. Holohan.

(No farther record of the company.)

NATIONAL GUARDS.

(Organized April 25, 1854.)

John Lewis Peyton, Major; E. B. Stevens, Sergeant-Major; W. W. Danenhower, Sergeant; J. C. Morfit, M. D., Surgeon; E. C. Henderson, color-bearer; E. R. Smith, Adjutant; W. D. Wilson, Quartermaster; J. A. Thompson, Paymaster; C. W. Hunt, M. D., Surgeon's-mate.

Company A. Thomas Shirley, Capt.: G. S. Wright, 1st Lieut.; J. T. Baker, 2d Lieut.; M. P. Roberts, 3d Lieut.; W. W. Kennedy, 4th Lieut.

Company B. Sylvester Sexton, Capt.; William McMillan, 1st Lieut.; George Glasner, 2d Lieut.; W. D. Lawyer, 3d Lieut. (No farther record.)

SHIELDS GUARDS.

(Organized November 25, 1854.)

Captain, Charles E. Moore; 1st Lieut.; James A. Mulligan; 2d Lieut., James Quirk; 3d Lieut., B. S. Dolan.

(1858.) Captain, Charles E. Moore; 1st Lieut., James A. Mulligan; 2d Lieut., John Reiley; 3d Lieut., John S. Quin; ensign, Daniel Harrington; Quartermaster, William H. Savage; Surgeon, Martin J. Bray; commissary, James Barry; paymaster, Charles O'Connor. Civil Officers—President, J. J. Sullivan; vice-president, John Sweenie; recording secretary, John Hickey; corresponding secre-

tary, James A. Mulligan.
(Organized in two companies in 1861—I and K 23d Illinois Volunteer Infantry.)

NATIONAL GUARDS CADETS.

Captain, S. W. Stryker; 1st Lieut., W. B. Smith; 2d Lieut., G. L. Sanborne; 3d Lieut., H. Turner; Color Sergeant, B. Botsford; Orderly Sergeant; J. R. Scott; 2d Sergeant, J. R. Hay-

den; 3d Sergeant, E. B. Knox; 4th Sergeant, J. A. Clybourne; Corporal, B. Forseth; 2d Corporal, A. G. Comstock. Staff Officers, Colporal, B. Potent, at Corporal, A. Collislox, San Olitery, Quartermaster, A. D. Wass; paymaster, W. T. Roath; Surgeon, Dr. J. A. Collins; commissary, S. G. Myers, Civil Officers—President, R. Ross; vice-president, J. R. Floyd; secretary, E. B. Knox; treasurer, H. Turner. Drill every Tuesday and Friday evenings, at their armory, 16 and 18 South Dearborn Street, (Merged in the Zouave Cadets-a sketch of which organization appears in the following volume.)

CHICAGO DRAGOONS. (Organized April, 1856.)

Captain, C. W. Barker.

(1860.) Captain, C. W. Barker; 1st Lieut., S. H. Turrill; 2d Lieut., E. D. Osband; Orderly Sergeant, J. C. Kelley; surgeon, H. B. Pike; president, W. H. Eddy; vice-president, A. T. Gage; setretary, J. F. Dutch; treasurer, S. H. Turrill. (Entered United States service in 1861. The above were all attached to the 60th Regiment.)

WASHINGTON INDEPENDENT REGIMENT, No. 1.

(Organized September 29, 1854.) Colonel, William II. Davis; Lieutenant-Colonel, Michael Diversy; Major, John L. Peyton; Adjutant, Arno Voss; Quarter-master, William S. Davis; Paymaster, O. J. Rose; Surgeon, C. A. Helmuth

Composed of the following companies:

WILLIAM TELL GUARDS (Bohemian).

(Organized February 1, 1855.)
Captain, Anton Sten; 1st Lieut., John Korber; 2d Lieut.,
Christoff Demon; 3d Lieut., Simon Eichenscher.

CHICAGO GUARDS OF LIBERTY,

(Organized May 3, 1855.) Captain, George W. I. Cone; 1st Lieut., John Short; 2d Lieut., W. H. Read.

CHICAGO HIGHLAND GUARDS.

(Organized August 10, 1855.) Captain, John McKay; 1st Lieut., A. B. McLean; 2d Lieut., William Lochart; 3d Lieut., John McArthur; ensign, Mexander

(1856–1857.) Captain, John McKay: 1st Lieut., John McArthur; 2d Lieut., Alexander W. Raffen; 3d Lieut., John Wood.

Captain, John McArthur; 1st Lieut., Alexander W. Raffen; 2d Lieut., John Wood; 3d Lieut., John T. Raffen.

(1859-1860.)

Captain, John McArthur; 1st Lieut, Alexander W. Raffen; 2d Lieut., J. T. Voung; 3d Lieut, Andrew Quade; 4th Lieut, Robert Wilson; Secretary, T. McFarland; Treasurer, John Wood,

(Mustered into the service of Government in 1861, as Company E, 19th Illinois Volunteer Infantry.)

TWENTIETH ODD BATTALION. (Transferred to W. I. Regiment February, 1856.) Major, George W. I. Cone; Adjutant, John Short; Quarter-master, P. A. Taylor; paymaster, Oliver P. Booth. The Companies of Battalion were:

"GUARD OF LIBERTY."
(Organized May, 1855.)
Captain, George W. I. Cone.

Company A (Rifles)—Captain, William C. Leyburn; 1st Lieut., Judson W. Reed; 2d Lieut., Frederick Lyman.
Company B (Rifles)—Captain, Henry M. Kirke; 1st Lieut.,
Charles M. Helliker.
Company C (Dragoons)—Captain, Reuben Cleveland; 1st Lieut., James T. Hoyt; 2d Lieut., William E. Judd; 3d Lieut.,
X. Rirown.
X. So farther record

No farther record.

WASHINGTON GRENADIERS.

(1856.) Captain, Theodore Weiler; 1st Lieut., George Reifschneider; 2d Lieut., Henry Willin; 3d Lieut., John Schmidt.

Washington Rifles.

(1856.) Captain, Antony Sten; 1st Lieut., Frederick Mattern; 2d Lieut., Martin Zieland.

CHICAGO GRENADIERS. Captain, Augustus Haggerman; 1st Lieut., John Diversy; 2d Lieut., Peter Rink.

Washington Light Guards.

(Organized November 30, 1855.) Captain, John Kerber; 1st Lieut., William Heil; 2d Lieut., John Brown.

(1857.) Captain, William Heil; 1st Lieut., Ernad Adams; 2d Lieut.,

John Bolman; 3d Lieut., George Rosenbergen. CHICAGO ARTILLERY COMPANY (German).

(Organized December, 1856.) Captain, Michael Mueller; 1st Lieut., August Freuer; 2d Lieut., Franz Ehlbrucht; 3d Lieut., Iaios Link.

Washington Light Cavalry (German).

(Organized July 19, 1858.) Captain, Frederick Schambeck; 1st Lieut., William T. Stoeber; 2d Lieut., Alexander Weite.

(The Washington Independent Regiment was offered entire to Governor Vates at the breaking out of the Rebellion, and accepted-many of the German companies doing service at Cairo.)

# RELIGIOUS HISTORY.

## PRE-CHURCH PERIOD.

The religious zeal of the Jesuits carried their missionaries first to many of the heathen races. They were first to visit the Indians of the great Northwest; but on account of the meagerness of data, it is difficult to decide positively with reference to the first missionary or priest who set foot on the soil of the then future city of Chicago. It seems certain, however, that the author of "Pioneers of Illinois" repeats an error in the sentence:
"It is said Father Nicolet, a French Jesuit priest, preached to the Indians at the mouth of the Chicago River in 1640, and in all probability he was the first white man that ever rowed a canoe on the waters of Lake Michigan, or trod the soil of Illinois." The researches of Benjamin Sulté, of Ottawa Canada, prove the inaccuracy of the above quotation, with reference to the time of John Nicolet's visit to the mouth of the Chicago River. Mr. Sulté says:

"Nicolet is at Three Rivers (Canada) again on the 26th of January, 1640. He died two years after that date; and during all that time we trace him month by month in the parish register at Three Rivers. In brief, Nicolet must have traveled to the Mississippi in the year 1634-35, from July to July, because that period is the only one during which we cannot find him on the shore of the St. Lawrence."

But if in 1634-35, Nicolet visited the mouth of the Chicago River, he did not then, nor at any other time or place, preach to the Indians. The following quotations from the same author is conclusive on this point:

"At Quebec, 7th of October, 1637, Nicolet marries Marguerite Couillard. The marriage contract is dated in that city, 22d of October, 1637.... From that moment his wife is present at church every month in Three Rivers up to 1642, the date of Nicolet's death, as the register shows."

The fact of Nicolet's marriage proves that he was not a priest, and Mr. Sulté says he was not a Jesuit. The name "Father Nicolet," is therefore a misnomer. Hence it is necessary to look to later times for the first Chicago priest, or missionary. His visit to the Indian tribes of the Northwest was made in the cause of commerce, not religion.\*

The gentle, earnest and courageous Father Jacques Marquette was the first priest appointed to the Illinois mission. It is probable, however, that he never celebrated mass, preached or gave religious instruction to the Indians on any portion of the territory now comprised within the limits of Chicago; but one of his biographers says of him: "Upon returning from his last expedition he took up his residence and pursued the vocation of a missionary among the Miamis in the neighborhood of Chicago." Supposing this to be authentic, the missionary services of this zealous and pious Jesuit father must have been rendered to the Miami Indians in the fall of 1673, as he started on his return up the Mississippi July 17 of that year. As has been said of him: "It was the lofty aim of Marquette to be of enduring service to his fellow-men; it was his integrity, his unselfishness, his untiring zeal, his gentel

See chapter on Early Explorations,
 His famous expedition of discovery down the Mississippi River in 1673.

and uncomplaining disposition, and his early self-sacrifice near akin to martyrdom, that command our sympathies, and these are what made him truly great." Marquette died May 18, 1675, and Father Claude Allonez succeeded to the Illinois mission. After journeying, in the months of March and April, 1676, seventy-six leagues on Lake Michigan, Allonez, with his Indian companions and guides, entered the Chicago River, probably about the roth of April. Upon landing he was met and handsomely received by about eighty Indians. The chief of this band advanced to meet him with a fire-brand in one hand and a feathered calumet in the other. He led the reverend father to his cabin and thus addressed him.

"Father! take pity on me; let me return with thee, to accomparent thee and lead thee to my village; my meeting with thee to-day will be fatal to me unless I profit by it. Thou bearest to us the gospel and the prayer; if I lose the occasion of hearing thee, I shall be punished by the loss of my nephews, whom thou seest so numerous, but who will assuredly be defeated by the enemy. Embark then with us that I may profit by thy coming into our land."

Father Allouez, unfortunately, fails to mention who it was that thus addressed him; and thus the name of the orator who delivered this, the first reception speech in this locality, and the first to allude to "the gospel and prayer" within the limits of Chicago, is lost forever. The father and the chief at once embarked and soon reached the village of the latter.

Father Claudius Dablon, who was Superior-General of the Missions of the Society of Jesus, who founded Sault Ste. Marie and visited Green Bay, came as far as the Wisconsin with Allouez, but does not appear to have reached Chicago. Of Father Louis Hennepin it may also be said that he probably never visited Chicago, although in 1679, in company with LaSalle, he perhaps sailed along the western shore of the lake on the way to St. Joseph, Mich. It is not easy to determine who was the next after Allouez to visit Chicago, but it seems credible that it was one or both of the Rev. Fathers Pinet and Bineteau. This appears from the journal of Rev. John Francis Buisson de St. Cosme, who was a member of the party which, in 1699, under the leadership of M. de Montigny, visited Chicago on their way to the Mississippi. This party disembarked half a league from Chicago, and a few of them, M. de Montigny, St. Cosme and Davion, went by land to the house of the Jesuit fathers. St. Cosme says:

"We found the Rev. Father Pinet and Rev. Father Bineteau, who had recently come in from Illinois, and were slightly sick. I cannot explain to you, Monseigneur, with what cordiality and marks of esteem these reverend Jesuit fathers received and caressed us during the time that we had the consolation of staying with them. Their house is built on the banks of the small lake, having the lake on one side and a fine large prairie on the other. The Indian village is of over one hundred and fifty cabins, and one league on the river there is another village almost as large. They are both of the Miamis. Rev. Father Pinet makes it his ordinary residence, except in the winter, when the Indians all go hunting, and which he goes and spends at the Illinois."

From this extract it would appear that Father Pinet, at least, had been in this part of the country some years, as it had become his custom "to make his ordinary resi-

dence" with the Miamis, and "to spend his winters with the Illinois." And, as in 1685, at the time when it is alleged De la Durantave erected a fort at the mouth of the Chicago River, which became a kind of depot, Father Allouez revisited the place, there can have been no long time when the Indians were without the presence of some zealous Jesuit among them during the latter part of the seventeenth century. Besides those already mentioned as accompanying M. de Montigny on his journey to the Mississippi, there were the Rev. Fathers de la Ribourde, Membré, Gravier and LaSource, all of whom may have ministered to the spiritual necessities of the Indians, though what was the nature of their religious exercises and duties, or how long they were continued, is not known.

There now occurs an hiatus in the religious history of this vicinity of nearly one hundred years. The next name to be found is that of Rev. Stephen D. Badin, who lirst visited Chicago in 1796. He was ordained in 1793, at Baltimore, and was the first Catholic priest ordained in the United States. He does not appear to have become a resident priest. But in 1822 he again visited Chicago, and during his visit baptized Alexander Beaubien, in Fort Dearborn, which was the first baptism in Chicago of which there is any definite knowledge. The above mentioned missionaries were all Catholics.

The next to arrive, and the first Protestant to preach a sermon in Chicago, was the Rev. Isaac McCoy, a Baptist clergyman, who had established and was conducting the mission school at Carey, near Niles, Mich. With reference to this first sermon his own language is as follows:

"In the fore part of October I attended, at Chicago, the payment of an annuity by Dr. Wolcott, United States Indian Agent, and, through his politieness, addressed the Indians on the subject of our mission. On the 9th of October, 1825, I preached in English, which, as I am informed, was the first sermon ever delivered at or near that place."

So far as is known this was the only sermon preached by Mr. McCov in Chicago.

Rev. Jesse Walker, who was at the time superintendent of the Fox River Methodist mission, came up on his boat from Peoria to Chicago, in the spring of 1826, for

Jesse Valkn

the purpose of preaching. It is not known that he preached, but, as he remained some time, it is probable that he did. On the way up from Peoria, according to the Rev. Stephen R. Beggs, "He had all the hands on board cease work till they could attend prayers, and all joined in singing, and then a fervent prayer was offered up in their behalf, asking the merciful protection of a divine Providence throughout the day."

In 1828 Rev. Jesse Walker was succeeded as superintendent by the Rev. Isaac Scarritt. About midsummer of that year Mr. Scarritt, as he says in a letter to Mr. Beggs:

"Planned a trip to Chicago, distant some seventy or eighty miles. The next evening we entered Chicago, which, in addition to the buildings constituting Fort Dearborn, contained the old Kinzie house, a new house of Colonel Hamilton's, with perhaps one or two others in that quarter, and those of J. Kinzie and J. Miller up at the Point. The latter two gentlemen seemed to be upon a strife with each other, which should excel in honor of popularity, whereby to promote their individual interests. I took up

my residence at Miller's, who, with laudable generosity, undertook was the Sabbath, and I sent word to the Lieutenant that if it were his wish the superintendent of the Indian mission would preach to the soldiers and others, at such place and hour as he might appoint. Answer was returned that he should not forbid the preaching, but that he should neither authorize nor make any arrangements for it. Not to be outdone by the honorable Lieutenant on the point of independence, I declined going to the garrison under such circumstances, and made an appointment for preaching at Miller's at night. Most of the citizens and some of the soldiers were present, and gave respectful attention; but in the matter of congregation we received rather more than we bargained for. During religious services a gang of boatmen, with their vociferous 'yo-hes,' commenced landing and rolling up barrels, etc., near the door. This was a trick of Kinzie's, so Miller said, out of spite to him for having the honor of entertaining the missionary, and for the agency he took in promoting the religion of the place."

In 1830 the Illinois Conference had a "Chicago Mission District," In the fall of this year the Rev.

Stephen R BEggs

Jesse Walker was appointed to this mission as its superintendent; and in June, 1831, accompanied by Rev. Stephen R. Beggs, set out on horse-back from Plainfield to Chicago, forty miles distant. With reference to this visit Mr. Beggs writes;

"When we arrived, Brother Walker gave out an appointment for me to preach in the garrison, in old Dr. Harmon's room. After the sermon was over, he gave it out that I was to preach again next morning at nine o'clock; and this was the beginning of a happy time here. I opened the door for the reception, and I think ten joined the church."

These two sermons were preached, the one on the evening of the 15th, the other on the morning of the 16th of June, 1831. Among the number of those who joined this, the first, church society or class organized in Chicago, were: Rev. William See and wife, Elijah Wentworth, Jr., his mother and two sisters, and Mrs. Dr. Elijah D. Harmon. Rev. William See, a regularly ordained clergyman of the Methodist Episcopal Church, in the absence of other clergymen, preached as occasion offered or required. He was by trade a blacksmith and poor in purse, but of good moral character and highly esteemed. Rev. Jesse Walker, being superintendent of the mission work from Peoria to Chicago, could preach in the latter place only a few times a year, and so, at his request, Bishop R. R. Roberts, in the fall of 1831, appointed Rev. Stephen R. Beggs to the mission at Chicago. Probably in October, Mr. Beggs came to this field, and found awaiting him the small class he had formed the preceding June. No house of worship having been as yet erected, religious services were generally conducted in the fort. In January, 1832, the first quarterly meeting was held; and an ox-team was employed, and driven by T. B. Clark, to draw provisions from Plainfield to assist in sustaining the people during the continuance of the meeting. Mr. Beggs says:

"The meeting commenced with power, and increased in interest till Sunday morning. My first sermon was preached on Sabbath morning, at ten o'clock, after which Brother Walker invited the people around the sacramental board. It was a season long to be remembered. Every one seemed to be baptised and consecrated anew to the great work to be accomplished in the village that was destined to become a mighty city."

Mr. Beggs brought Mrs. Beggs to Chicago in May, 1832, and made the village his home, nearly or quite a year. A number of additions was made to the membership of his class or society; six in the early winter of

1831-32. A portion of the time meetings were held in the log school-house. In the year 1832, Rev. Jesse Walker was appointed to the Chicago mission to succeed Mr. Beggs. As soon as practicable he moved to Chicago, and entered upon his labors. His first quarterly meeting was held in a log building, subsequently known as "Father Walker's" log cabin. It stood on the West Side, near the bank of the river where the North and South branches meet, near what is now the southwest corner of Kinzie and Canal streets. building was used by Mr. Walker as a parsonage, parlor, kitchen and church. At his first quarterly meeting, held in the fall of 1833, there were present, besides himself, Rev. John Sinclair, presiding elder, Rev. William See, local elder, Henry Whitehead, who was licensed to preach at that meeting, Charles Wisencraft, Mrs. R. J. Hamilton, and Mrs. Harmon. Mr. Whitehead was the first minister licensed in Chicago to preach. Mr. Walker became superannuated in 1834 and died in 1835.

Aside from the religious services outlined above, and in connection with a debating society, a religious meeting was held generally once a week at the house of Mark Noble, Sr., who had arrived in Chicago in August, 1831, and moved into the old cabin of the Kinzies'. These meetings were held to provide for those who had no taste for literary matters and dancing then indulged in at Fort Dearborn, and were the first prayer meetings in Chicago. In conducting them Mr. Noble was assisted by his wife and two daughters, and Mrs. R. J. Hamilton, all of them being members of the Methodist Episcopal Church. Mrs. Hamilton contributed very largely to the interest and success of the meetings, being a lady of great intelligence, comprehensive views and devoted piety. She was for many years among the first in all religious and benevolent enterprises, and furnished the first pulpit in Chicago with necessary articles. Mr. Noble also, was very zealous in his piety, and was the principal speaker at these meetings. He was a man of large experience, and of great practical common sense. Thus it will be seen that the Methodists, when continued effort is considered, were the pioneers in Christian work, though they did not have the first completely organized society, nor erect the first church edifice.

In addition to the efforts made to improve the religious characters of adults, the moral and religious training of the children was not neglected. A Sunday school, the first in Chicago, was organized on the 19th of August, 1832, by Luther Childs, Mrs. Seth Johnson, Mrs. Charles Taylor, the Misses Noble and Philo Carpenter. The school first assembled in a small frame building then lately erected on the Reservation, near Mr. Noble's house, by Mark Beaubien. At this time the building was not completed; it had a floor, was sided up, and had on some of the roof-boards, but it was not shingled and had neither windows nor doors. The school afterward met in the fort, at the house of Rufus Brown, at Rev. Jesse Walker's cabin, and in the upper

story of P. F. W. Peck's store, as occasion offered. Since that 10th of August, 1832, few Sundays have passed

story of P. F. W. Peck's store, as occasion offered. Since that 19th of August, 1832, few Sundays have passed without witnessing the assembling of children for religious and moral instruction. The library of this first Sunday school contained about twenty small volumes, but as there were only thirteen children in the school, each scholar and teacher could have a book. John S. Wright acted as secretary and librarian, and was accustomed to carry the library to and from the temporary place of meeting in his pocket handkerchief. The poverty of the library in volumes was observed by two gentlemen from New York, Charles Butler and Arthur Bronson, visiting in Chicago, who upon their return home sent two hundred volumes as a donation.

Having thus traced the religious movements of Chicago from the time of the noble and self-sacrificing Jacques Marquette, in 1673, down to that of the equally zealous and laborious "Pathfinder," Rev. Jesse Walker, in 1833, it will now be our province to trace, with such accuracy as we may, and with such minuteness as is compatible with the design of this work, the particular history of each individual church organization that has been or is now within the limits of Chicago. They are given as nearly as practicable in the chronological order of their organization.

#### CATHOLICISM.

In 1833, the first year in which regular church organizations existed in Chicago, three churches were formed—a Catholic, a Presbyterian and a Baptist, in the order named; the first in May, the second in June, and the third in October.

St. Mary's Church.—This was the first Catholic society organized in Chicago. Its first priest was Father John Mary Irenaeus St. Cyr, who was born at Lyons, France, November 2, 1803, and educated in that country. He left France in June, 1831, reached St. Louis August 1, of the same year, and was there made a subdeacon. He was ordained at St. Mary's the Barrens by Bishop Rosatti in 1832, and on April 6, 1833, was by the same Bishop ordained priest. The period between these two dates was spent by St. Cyr in studying the English language. In the meantime Catholics were increasing in numbers in Chicago, and were becoming desirous of receiving the ministrations of a resident Catholic priest. To accomplish their desires they prepared and forwarded to St. Louis the following petition:

"To the Right Rev. Catholic Bishop of the Diocese of Mis-

souri, of St. Louis, etc., etc.

We, the Catholics of Chicago, Cook Co., Ill., lay before you the necessity there exists to have a pastor in this new and flourishing city. There are here several families of French descent, born and brought up in the Roman Catholic faith, and others quite willing to aid us in supporting a pastor, who ought to be sent here before other sects obtain the upper hand, which very likely they will try to do. We have heard several persons say were there a priest here they would join our religion in preference to any other. We count about one hundred Catholics in this town. We will not cease to pray until you have taken our important request in

This petition was signed by the following persons for themselves and their families, the number of members in each individual's family being appended to his name: Thomas J. V. Owen, 9; J. Bt. Beaubien, 14; Joseph Laframboise, 7; Jean Pothier, 5; Alexander Robstein and Pothier, 5; Alexander Robst

consideration.

Bt. Tabeaux, 1; J. Bt. Duvocher, 1; J. Bt. Brodeur, 1; Mathias Smith, 1; Antoine

vocher, 1; J. Bt. Brodeur, 1; Mathias Smith, 1; Antoine St. Ours, 1; Bazille Deplat, 1; Charles Monselle, 1; John Hondorf, 1; Dexter Assgood, 1; Nelson Peter Perry, 1; John S. C. Hogan, 1; Anson H. Taylor, 1; and Louis

Francheres, 1; a total of 122. The original petition written in French bears on its back the memoranda, "Received April 16, 1833." "Answered April 17, 1833."

In response to this petition, Bishop Rosatti appointed St. Cyr priest of Chicago, in the following language:

JOSEPH ROSATTI, of the Congregation of Missions, by the grace of God and of the Apostolic See, Bishop of St. Louis, to the Rev. Mr. John Irenaeus St. Cyr, priest of our diocese; health in the Lord:

Rev. Sir;—Whereas, not a few Catholic men inhabiting the town commonly called Chicago, and its vicinage, in the State of Illinois, have laid before me that they, deprived of all spiritual consolation, vehemently desire that I should send thither a priest, who, by the exercise of his pastoral gifts, should supply to them the means of performing the offices of the Christian religion and providing for their eternal salvation. Wishing, as far as in me lies, to satisfy such a desire at once pious and praiseworthy, by virtue of the powers of Vicar-General to me granted by the most illustrious and most reverend Bishop of Bardstown (Ky), I depute you to the mission of Chicago and the adjoining regions within the State of Illinois, all of which have hitherto been under the spiritual administration of the said most illustrious and most reverend Bishop of Bardstown, grant you, until revoked, all the powers as described in the next page, with this condition, however, that as soon soever as it shall become known to you that a new Episcopal See shall have been erected and established by the holy Apostolic See from the territory of other Sees now existing, to that Bishop within the limits of whose diocese the aforesaid Chicago mission is included, you shall render an account of all those things which shall have been transacted by you, and surrender the place to such priest as shall be by him deputed to the same mission, and you, with

God's favor, shall return to our diocese from which we declare you to be by no means separated by this present mission.

Given at St. Louis, from the Episcopal buildings, the 17th

Given at St. Louis, from the Episcopal buildings, and day of April, 1833.

OSEPH,

Bishop of St. Louis.

Jos. A. Lutz, Secretary.

From the date of this appointment, Catholics consider that the organization, or establishment, of their church in Chicago should be reckoned, although St. Cyr did not reach the city until Wednesday, May 1, accomplishing the journey part of the way on horseback and part of the way on foot. Having made the necessary arrangements, St. Cyr collected together the Catholics and celebrated his first mass, in a little log cabin, twelve feet square, belonging to Mark Beaubien, on Sunday, May 5, 1833. On the 22d of May occurred his first baptism, the subject being George Beaubien, son of Mr. and Mrs. Mark Beaubien. Father St. Cyr immediately commenced preparations for building a church. The first site selected was on Lake Street, near Market, upon which stood the log cabin above referred to. This lot was promised St. Cyr by Colonel J. B. Beaubien for the nominal sum of \$200, but being unable to raise that amount among the one hundred Catholics who petitioned for his appointment, and others, he was obliged to look for another location. About a year afterward the same lot was sold by Colonel Beaubien for \$300, to Dr. William B. Egan, who, in 1836, sold it to Tertius Wadsworth, of Hartford, Connecticut, for \$60,000. According to the advice of Colonel Beaubien and Thomas J. V. Owen, St. Cyr selected a canal lot near the southwest corner of Lake and State streets, near the military reservation, where now (1883) stands the printing establishment of Cameron, Amberg & Co. The privilege was accorded St. Cyr of buying this lot at the canal commissioners' valuation; but when that price was announced it was still farther beyond the reach of the Catholics than was that first selected, and it was purchased by Dexter Graves for \$10,000. In the meantime, not anticipating the high price at which the lot would be appraised, they erected thereon a church building, twenty-five by thirty-five feet in size. The lumber for this building was brought in a scow across the lake from St. Joseph, Mich., where it cost \$12 per thousand. The lumber having arrived, Anson Taylor, a brother of Augustine Deodat Taylor, with his own team, hauled it from the schooner to the site of the prospective church. Augustine D. Taylor was the architect and builder. The total cost of the edifice was about \$400, but though small and inexpensive it was not completed sufficiently for occupancy and dedication until in October. Catholic Indians assisted at the first mass celebrated therein. Indian women had cleaned and prepared the modest building for the celebration of the sacred rite, and Deacon John Wright, a strong supporter of Rev. Jeremiah Porter, pastor of the First Presbyterian Church, had, in August, assisted in raising the frame of the building. At this dedication-service there were present about one hundred persons. The church itself was not plastered, it had only rough benches for pews and the simplest of tables for altar and pulpit. The outside of the building was not painted and it had neither steeple nor tower. Some time afterwards, it was surmounted by a low, open tower, in which a small bell was hung, being the first bell used in Chicago to call the pious together for religious worship. It was about the size of an ordinary locomotive bell of the present, and could be heard only for a short distance. It was of no use for sounding an alarm in case of fire, and nearly ten years elapsed before the first one which could be used for that purpose was hung in the steeple of the Unitarian church. The church building stood on this lot until sometime during the priesthood of Father O'Meara, when it was removed by him to a lot at the southwest corner of Michigan Avenue and Madison Street. Here it was enlarged and soon afterward, was moved to the southwest corner of Wabash Avenue and

ST. MARY'S CHURCH.

Madison Street. When the new St. Mary's, a brick building, was erected the frame church was again moved, this time to the westward in the same block. The removal from the corner of Lake and State streets to Michigan Avenue and Madison Street, by Father O'Meara, together with the circumstances of the removal, caused great dissatisfaction to a portion of the Catholics. The dissatisfied ones refused to accompany the church to its new location, and engaged a room of Charles Chapman, in the second story of a building standing at the corner of Randolph and Wells streets, in which mass was celebrated during the summer by Rev. Maurice de St. Palais. Among those who thus separated themselves from the church under Father O'Meara were Augustine D. Taylor, A. M. Talley, Samuel Parry and John Davlin. After the trouble caused by Father O'Meara's course had been overcome, the two portions of the church were re-united, under Rev. de St. Palais.

St. Xavier Academy, at 131 Wabash Avenue, stood on the adjoining lot south of the church. St. Palais, in 1843, commenced the erection of St. Mary's brick church, corner of Madison Street and Wabash Avenue. This edifice had a substantial stone foundation, and was fifty-five feet wide by one hundred and twelve feet long, including a portico twelve feet wide, supported by four Ionic columns, and cost \$4,000. The brick work was done by Peter Page, and the wood work by Augustine D. Taylor. This church was opened for divine service December 25, 1843. It was consecrated by Bishop Quarter, December 5, 1845. In September, 1845, Felix Inglesby, a wealthy merchant of New York City, donated a bell to this church worth \$785.

St. Cyr remained in Chicago until 1837, when he

went to St. Louis. From the latter part of October, 1836, he was assisted by Rev. Leander Schaffer, who attended the German Catholics. He was himself succeeded for the English-speaking Catholics by Rev. Father O'Meara, who was succeeded, in 1840, by Rev. Maurice de St. Palais. St. Palais was succeeded, May 5, 1844, by Rt. Rev. William Quarter, Chicago's first Catholic Bishop, who died April 10, 1848. According to his desire his remains were deposited in the cathedral he had consecrated, which ceremony had occurred October 5, 1845. Bishop Quarter was eminently successful in the management of the affairs of his diocese. Under him its growth was remarkable. When he arrived at Chicago there were less than twenty priests in the State of Illinois, and only two priests in Chicago—Rev. Maurice de St. Palais and Rev. Mr. Fischer, and only two seminarians-Patrick McMahon and B. McGorish. These two students were immediately ordained and raised to the priesthood May 16, 1844. Two years later there were present at the first diocesan synod thirty-two priests, and nine others from sickness and other causes, were unable to attend. In 1844 there was but one Catholic church in Chicago; in 1846 three new Catholic churches were erected-St. Patrick's, St. Peter's and St. Joseph's, the last two for the Germans. In 1848, when the bishop died, thirty new churches had been erected in the diocese, ten of them being either brick or stone, making a total number of sixty-eight. These were presided over by fifty-three priests.

To Bishop Quarter is also due the credit of establishing the University of St. Mary's of the Lake, the germ of which, the college, was established within thirty days from the time of his arrival in Chicago, and for which a charter was granted in December of the same year. The university building, with seminary attachment, was completed in June, 1845, and was opened with appropriate ceremonies July 4, following. This was the first institution for higher learning in the city.

Bishop Quarter also instituted the first community of nuns. This community was established with six Sisters of Mercy, whose names will be elsewhere found, who came from Pittsburgh, Penn., in 1848 from the first house of the Sisters of Mercy opened in the United States.

To Bishop Quarter is due the credit of having secured the passage of the law under which the Catholic Bishop of Chicago was incorporated as a "Corporation Sole," with power to "hold real and other property in trust for religious purposes."

Bishop Quarter was succeeded in 1848, by the Rt. Rev. James Oliver Van de Velde, who was formally installed as Bishop of the See, in the Cathedral of St. Mary's, in 1849. Bishop Van de Velde was a member of the Society of Jesus, in which he held many important positions. He was a man of great learning and zeal, but the active duties of the bishopric were not congenial to his tastes and he constantly yearned after the quiet and seclusion of a religious life. His adminstration, moreover, of the affairs of the diocese was troubled with dissensions and difficulties, which were in part the reason of his resignation and of his assignment to another field -the See of Natchez, where his labors were less arduous, and where he could devote himself entirely to study and preaching. He left Chicago for his new field of labor November 4, 1853, and died in 1855. Bishop Van de Velde was succeeded in Chicago by

Bishop Van de Velde was succeeded in Chicago by the Rt. Rev. Anthony O'Regan, who was consecrated Bishop of Chicago July 25, 1854. Bishop O'Regan, like his immediate predecessor, found the administration of the affairs of the diocese an arduous task. His labors constantly increased. Besides the care of the diocese of Chicago, he was charged with the administration of the new See of Quincy, erected in 1852, but which continued to be administered by the Ordinary of Chicago, until the erection of the See of Alton, in 1857. His administration of the affairs of the diocese of Chicago was soon marred by difficulties with some of the leading Catholic priests of the city, in consequence of which Rev. Fathers Kinsella, Clowry and Breen left the diocese. But the troubles continuing, Bishop O'Regan sought peace by following the example of his predecessor. He resigned, and was assigned to a See, i. p. i., in Ireland with which he had been connected in his early days, and where he spent the remainder of his life, dying in London, England, in 1865. He was succeeded by Rev. Matthew Dillon, an amiable and popular clergyman, who filled the post of administrator until succeeded by the Rt. Rev. Clement J. Smythe, Bishop of Dubuque, who remained until 1859, when he gave place to the Rt. Rev. James Duggan, an account of whose labors will be found in the succeeding volume of this History.

Besides the bishops and priests already mentioned as being connected with the parish of St. Mary's, were the following, each of whom officiated for a time: Fathers DePontevieux, Quequew and Lawrence Hoey in 1844; Father P. T. McElhearne, with the occasional assistance of Father Fitzgerald, from 1852 to July 9, 1854. In 1854 Rev. Matthew Dillon was assisted by Fathers Michael Hurley, Fitzgibbon and Carrol; in 1855 Fathers Patrick Sherry, Magan, and McGuire officiated, in 1856 Fathers John Waldron, Tierman, and Bolger, and in 1857 Fath-

ers T. D. Butler and Thomas Burke.

The Catholic Church in its earlier days had a more serious difficulty to contend with than any of those incidentally referred to in connection with the names of some of its bishops. Cupidity appears to have taken possession of one of its early priests, Rev. Father O'Meara. Rev. Father St. Cyr refers to Father O'Meara, in a letter to Henry H. Hurlbut, under date of February 8, 1875, in the following not very complimentary terms: "I was succeeded for the English speaking congregation by Father O'Meara, who proved to be a notorious scoundrel. May God preserve Chicago from such a priest."

The following extract from the pen of Hon. J. S. Buckingham, Member of the English Parliament, who was in Chicago at the time [1840] gives an account of

the troubles with their result:

" Considerable excitement was occasioned during our stay here by an unexpected riot among the Irish Catholies, on behalf of a priest," (Father O'Meara), "who was a great favorite with them. It appears that this reverend father had in some manner caused the church of which he was pastor, and certain lands, house and furniture attached to it, to be made, by legal instrument, his own individual and exclusive property; and deeming himself thus in secure and immovable possession, he defied all his exclesiastical superiors. He had been for some time habitually intemperate, and it was alleged that he had also committed extensive frauds. is certain, the Catholic Bishop of the diocese, and the Vicar-General from St. Lonis, had come on to Chicago, from the south, for the from 50. 12018, and the priest to surrender the property which he un-iawfully held, and then publicly excommunicating him. The expectation of this ecremony drew crowds of Protestants on the Sun-day morning it was appointed to take place; and the sympathy felt by the Irish laborers on the canal, here pretty numerous" (for the priest), "who freely drank whisky with them, was such that they had declared they would clear the church if any attempt were made to excommunicate their favorite. The Bishop and Vicar-General hearing this, went among these men, and addressed them upon the subject, reminding them of their allegiance to the Church, and of the duty of their obedience to its decrees; told them they knew no distinction of nation or habit among Catholies, but that the only distinction which must be maintained, was between the worthy and unworthy, the faithful and unfaithful sons of the Church; and concluding by warning them that if they offered the slightest resistance to any public ceremony enjoined by the Church, they would themselves incur the guilt of sacrilege, and be accordingly subjected to the very pains and penaities of excommunication which they wished to avert from another. This had the effect of ealming them into submission, and the priest, learning this, consented to assign over to his superiors the property of the Church which he had unlawfully withheld from it, and to leave the town on the following day, so that all proceedings were stayed against him."

RIGHT REV. WILLIAM QUARTER, D.D., the first Bishop of Chicago, was born at Killurine, Kings County, Ireland, January 21, 1806. His father's name was Michael Quarter, and his mother's maiden name Ann Bennett, who were the parents of four sons; John, the eldest of the four; Walter Joseph, Vicar-General of the diocese of Chicago, and administrator of the diocese after the death of his brother William; William, the subject of this memoir, and James. The Quarter family was a most respectable one, the maternal branch of it especially having given many priests and bishops to the Church. Mrs. Quarter devoted herself to the early training of her children in the path in which she desired them to walk; and besides the principles and precepts she continuously in-stilled into their minds, her life itself was a continual precept, and her virtuous example, pious life and tender love made a deep and ineffaceable impression upon the hearts of her children. Bishop Quarter was frequently heard to say, "I owe all to my mother; I should never have been a priest, never have been a bishop, but for her." Mrs. Quarter, having received an excellent education in the schools of a religious community, assumed the task of instructing young William, believing that the common schools were to the moral like a Siberian desert to the tender plant, transplanted thither from a sunny elime. He was as assiduous in his studies as she was earnest and industrious in her teaching, and he overeame the difficulties he found in his way with an ease that indicated the possession of a high order of mind. At the age of eight years he was prepared to enter a boarding school at Tullamore. Before leaving home to enter this school he partook of his first communion, and at the same time expressed his determination to live henceforth for God alone, and to enter the holy order of the priesthood. He immediately left home for Tullamore, and there entered the academy of Rev. Mr. Deran, a retired Presbyterian elergyman, one of the best classical scholars in Ireland. Here he commenced his mathematical and classical studies, and after spending about two years with Mr. Deran, he entered the aeademy of John and Thomas Fitzgerald in the same town. With the Messrs. Fitzgerald he completed his course of study prepara-tory to entering the college of Maynooth, and in his sixteenth year satisfactorily passed his examination with this purpose in view. During his preparatory course his demeanor had been so remarkable that his companions styled him the "little bishop." During the vacation between his examination preparatory to entering Maynooth College and his proposed entry therein, the Rev. Mr. Mc-Auley, brother of County McAuley, of Frankford, Kings County, Ireland, returned to Ireland from the United States. man spent much time at Miehael Quarter's house, and there young William heard given a full description of the condition of the Catholic missions in America, of the thousands of Catholic children growing up in a land where Mammon was the deity most generally worshiped-of the wandering away from the sheepfold of so many that had been sealed to the one holy church at the baptismal font in their native land-of the extent of the harvest and the paucity of the gleaners, and he at once determined to forego his contemplated course of study at Maynooth College, to forsake his mother, and all in his native country he so dearly loved, and to devote his life in America to the salvation of souls from eternal perdition. He therefore embarked for North America, April 10, 1822. The vessel landed him at Quebec. To the Bishop of Quebec he immediately applied for reception as an ecclesiastical student, but was rejected on account of his youth. The same fate awaited him at Montreal; but at Emmetsburg, Md., the reason that caused his rejection in Canada proved his first and best recommendation. The Rev. Mr. Dubois, President of St. Mary's College at Emmetsburg, himself an exile, received young Quarter as a father would receive a son. Mr. Dubois at once placed him in the seminary, which he entered September 8, 1822. So thorough was found his scholarship that he was given charge of the classes in Greek, Latin and algebra, and the second year of his residence there he was appointed professor of the Greek and Latin resuctive there he was appointed professor of the Greek and Latin languages. On the 20th of October, 1826, the Rt. Rev. Dr. Dubois was consecrated Bishop of New York, and in 1829 on the completion by young Quarter of his theological studies, Dr. Dubois called him to New York as his assistant priest. On the 14th of September he left the retirement of his mountain home and stanted to New York arealized the new York arealized to the control of New York and New York arealized to the control of New York and New York arealized to the Control of New York and New York arealized to the New York and New York arealized to the New York and New York arealized to the New York and New York and New York and New York arealized to the New York and New York arealized to the New York and New York arealized to the New York arealized to the New York and New York arealized to the New York arealized to the York and New York arealized to the New York arealized to the York and New York arealized to the York and New York arealized to the York and Y started to New York, reaching there on Wednesday evening the 16th of the same month. On Thursday morning the 17th, he received at the hands of Bishop Dubois the Clerical Tonsure, Minor Orders and Sub-Deaconship, and on Saturday morning he was

raised to the dignity of the priesthood. The next morning Bishop Dubois started for Europe, leaving his diocese in charge of the Very Rev. Dr. Power, pastor of St. Peter's, of which parish Rev. William Quarter was appointed assistant pastor. During the ravages of the cholera which visited New York with great severity in 1832, Rev. Mr. Quarter devoted himself, almost day and night, to relieving as much as was practicable the sufferings of its victims, and he gathered together the children of the dead members of his Church, placing them under the charge of the Sisters of Mercy, and contributing all of his own means to their support. St. Mary's new church building was dedicated June 9, 1833, by the Rt. Rev. Dr. Dubois, and at the close of the service the Bishop announced the appointment of Rev. William Quarter as pastor of the Church. He remained pastor of this Church until his consecration to the new See of Chicago. St. Mary's Church in New Vork is indebted new see of Cincago. St. Mary's Cintern in New York is independent to him for the introduction among them of the daughters of St. Vincent and St. Peter's in New York for the establishment there of the first colony of the Sisters of Charity. One of the most remarkable results of his labors in that city was the conversion from the Lutheran Church to Catholicism of the Rev. James Maximilian Oertel. The Provincial Council which met at Baltimore, in May 1843, found it necessary, on account of the great spread of Catholicism, to increase the number of bishops, and passed a degree recommending the formation of the Sees of Chicago, Little Rock, Hartford and Milwaukee, and the Apostolic Vicarate of Oregon Territory. The Court of Rome immediately acted upon the recommendation of the council. Apostolic letters for the consecration of three new bishops arrived in New York early in 1844, and on the 10th of March, three new bishops were consecrated in St. Patrick's Cathedral, by the Rt. Rev. John Hughes, Bishop of New York, The three newly consecrated bishops were Rt. Rev. William Quar-ter for the Diocese of Chicago; Rt. Rev. Andrew Byrne, for the Diocese of Little Rock, and Rt. Rev. John McCloskey, Coadjutor Bishop of New York. Bishop Quarter, not however without many a regret, left his parish, St. Mary's in New York, for his new field of labor, the Diocese of Chicago, in which St. Mary's was the principal church, and the only one within the city limits. 18th of April, accompanied by his brother, Very Rev. Walter J. Quarter, he left New York for Chicago, arriving there on Sunday, May 5, 1844. On the day of his arrival he said mass in the old church and preached in the new one, then unfinished and afterward Not only was the church building unfinished, but the cathedral. worse than all, the congregation was burdened with a debt, on their church of \$3,000, on an adjoining lot, where afterward stood the Convent of Mercy, of \$1,000, and on the graveyard of \$400, thus making an aggregate indebtedness of nearly \$5,000, upon some of which from ten to twelve per cent interest was being paid. Then the congregation was very poor, and it seemed impossible for them to pay off this indebtedness and to finish the church. Therefore Bishop Quarter and his brother, the Very Rev. Walter J. Quarter, united their funds and paid all the debt with their private means. The Bishop's noble example was not without its effect upon his congregation, for so harmoniously and successfully did they labor that within a year they had the satisfaction of kneeling before their new altar in their finished church, whose glittering spire and golden cross reflected the first rays of the morning sun as it rose from the bosom of Lake Michigan, and which was the first and then the only steeple in Chicago. After the departure of the two priests, Rev. Maurice de St. Palais and Rev. Mr. Fischer, at the peremptory command of the Bishop of Vincennes, Bishop Quarter was without a priest to watch over the district. However, before the end of June he ordained three, Rev. Jeremiah A. Kinsella being one of them. By the close of the year 1844, the cathedral was finished, and the college and seminary were commenced. Upon the completion of the latter, he next set about furnishing facilities for the education of the female portion of his flock. He was deeply impressed with the necessity of a proper training of young women, knowing that upon them, as wives and mothers, depends in great measure the character of the people. In order to supply this want, Bishop Quarter applied to Bishop O'Connor, of Pittsburgh, for the establishment in Chicago of a branch of the order of the Sisters of Mercy. In response to this appeal, five members of the order, accompanied by their superiorappeal, five members of the order, accompanies by the sess, Sister Mary Francis Ward, and Very Rev. Walter J. Quarter, ess, Sister Mary Francis Ward, and September, 1846. On the day of their arrival the bishop conducted them to his own residence, a low, one-story, frame house, which, with many fears as to their satisfaction with it, he resigned to them as their convent, retiring himself to an abode, compared with which, the one abandoned by him was a palace. On the 11th of November he established the Theological conferences, the first in America. to enhance the spiritual welfare of his flock, he directed the Sisters of Mercy to establish a sodality of the Blessed Virgin, by means of which the female children might the more thoroughly be in-structed in their religious duties. He also directed the instructors

in the Academy of St, Joseph to form among the male children a St. Joseph's Society, that the members of it might be taught to emulate the exalted virtues of St. Joseph. He originated the Chicago Hibernian Benevolent Emigrant Society, the object of the association being to welcome the Irish immigrant to his new home, to furnish him, if need be, with timely assistance, to advise and direct him, and guard him against imposition by sharpers who were ever ready to plunder him the moment he set foot upon our shores. In this way was the life of Bishop Quarter spent, in establishing and furthering works of charity, benevolence, improvement and progress even up to the day before his death, which occurred April 10, 1848. During Lent he was engaged in delivering a series of lectures on the "Marks of the True Church," and on Passion Sunday he lectured at last mass at the cathedral on the Apostolicity of the True Church. This was his last lecture. On leaving the pulpit he was much fatigued, and at vespers his voice

FIRST CATHOLIC CATHEDRAL.

wanted its usual fullness of tone. About two o'clock next morning, Mr. McElhearne, who resided in the house with him, was awakened by his moans, and hurrying to his apartment, found him sitting on the edge of his bed, and complaining of a severe pain in his head. Although medical aid was immediately summoned, his strength rapidly failed, and having received the consolations of religion, he sank into what seemed to those around him a deep sleep, uttering as his last words. "Lord have mercy on my poor soul." From this sleep he did not awaken, but died of cerebral congestion about three o'clock in the morning of the 10th. For two days his remains, dressed in full pontificals, lay exposed at his residence, where they were visited and viewed by Catholic and Protestant alike. At two o'clock on the 12th, they were removed to the Cathedral and placed immediately without the sanctuary in front of the altar. At three o'clock on Friday, the Feast of the Seven Dolors, the funeral ceremonies commenced and concluded about five o'clock, the funeral oration being delivered be Rev. Mr. Feely, of Peoria. body was deposited at the rear of the church in a tomb prepared for it, beneath the sanctuary and in front of the altar he himself had reared. The body of the Bishop was embalmed by Prof. John E. McGirr, of the University of St. Mary's of the Lake, and inclosed in three coffins. The inner one was black walnut with a silver cross upon it, bearing the following inscription: "Rt. Rev. iam Quarter, D. D., First Bishop of Chicago, Consecrated March 10, 1844. Died April 10, 1848. Requiescat in Pace." Over the vault, which was of brick and lined with waterproof cement, was a beautiful white marble cross about six feet high, with engravings in bas-relief of the Bible, Missal, Crosier, and Miter on the top; on the horizontal part the same inscription as was on the coffin, except the "Requiescat in Pace," which was on the lower part. On the riser of the marble step leading to the altar was a scroll bearing the inscription: "Pretiosa in Conspectu Domini, mors Sanctorum ejus." Within the cathedral was erected to his memory a nm em. Wittin the cathedral was effected to its memory a beautiful cenotaph, to defray the expense of which Protestants contributed liberally, as did the Catholics. A young Protestant poetess of rare talents, Miss Mary A. Merritt, gave a volume of her poems, the proceeds from the sale of which was added to the

contributions. On Sunday, April 30, 1848, an address was delivered by the Very Rev. Jeremiah A. Kinsella, on the necessity of transmitting to posterity the memory and virtues of this distinguished man, whose life had been so beneficial to society. Rev. Kinsella requested the gentlemen to meet in the afternoon in the basement of the cathedral to deliberate on the matter. In obe-dience to this request a large number of citizens assembled. D. L. Gregg was appointed chairman, T. J. Kinsella secretary, and a committee of five was designated to procure subscriptions. This committee suggested that a committee be appointed in each block of each ward of St. Mary's parish. The suggestion was acted upon, and John Breen was made treasurer. A central or executive committee was appointed to co-operate with and direct the different committees, and also to communicate with all who might be willing to assist. This executive committee consisted of the following gentlemen: The Very Rev. Jeremiah A. Kinsella, Rev. Mr. McElhearne, Rev. Mr. Scanlan, D. L. Gregg, and Thomas J. Kinsella. The following were appointed to act as committees in the several blocks for the procuring of subscriptions: Michael Byrne, William Flemming, John Davlin, John McGoven, Philip Carlon, James Carney, James Fitzsimmons, John Serehan, Captain Parker, James McMullen, William Corrigan, John Voung, John Quinn, C. McDonell, Michael Gleeson, John Taylor, Michael Lantry, Bartholomew Ford, John Bush, Michael Diversy, Dennis Skelly, Peter Turbot, Michael O'Brien, Michael McGuire, William B. Snowhook, George Brown, Thomas Roche, A. Getzler and B. Blasey. The monu-ment was designed by Mr. Van Osdel, and constructed at the marble manufactory of A. S. Sherman, and a bust was taken after his decease, at considerable pains and expense, by R. N. White.

St. Patrick's Church.-This Church was established early in 1846, by the Very Rev. Walter J. Quarter, V. G. A church building was erected by Augustine D. Taylor the same year, on Desplaines Street, between Randolph and Washington streets, which was opened for religious services on Easter Sunday, April 12. The parish at that time embraced the whole of the West Side of the city. In 1848 the lots upon which it stood were purchased of the canal commissioners for \$3,000. The first church building, which originally cost \$750, was enlarged by Rev. P. J. McLaughlin, who became pastor in August, 1846. In 1850, at the suggestion of the assistant pastor of the parish, the property at the corner of Desplaines and Adams streets was purchased, and also at his suggestion a house was purchased of Mr. Gleeson by Bishop Van de Velde in 1850, in which the parochial school was established. The school was opened in October of that year by Patrick Dillon, afterward the well known and popular president, for many years of Notre Dame University, Indiana. In 1854 Rev. P. J. McLaughlin commenced the erection of the present brick and stone edifice on the new lots, at the corner of Desplaines and Adams streets. This building was completed by the Very Rev. Dennis Dunne, V. G., sufficiently to be used for religious purposes in the summer of 1856. He continued to improve it until he made it one of the finest church edifices in the city at the time. Its style of architecture was the Romanesque. Stained glass windows were used, and the interior was, for the time at which the church was erected, elegantly frescoed. It is a two-story building, basement of stone, and upper story containing the main auditorium, of brick. The auditorium, including the large gallery facing the pulpit, has a seating capacity of about 1,200. Originally it was the design to ornament the building with a high spire on each front corner, but this has not yet been accomplished. old church building was moved on to the lots at the corner of Desplaines and Adams streets and employed for the purposes of the parochial school. The first baptism in St. Patrick's parish was that of Edward Carroll, son of Owen and Elizabeth Carroll, March 12, 1846; and the first marriage that of John McCunniff to Sarah Ladan, February 11, 1846. The successor of Very Rev. Walter J. Quarter was Father McLaughlin, who remained with the Church until he was himself succeeded by the Very Rev. Dennis Dunne, in September, 1854. Mr. McLaughlin's assistants were as follows: Revs. P. L. Scanlan and John O'Reilly, in 1848; Revs. Thomas Canada, James A. Drew and Francis Darwin in 1849; Rev. Patrick Terry from September, 1850, until June, 1852, and Rev. Michael Donohue from this time until the close of his term of service. The Very Rev. Dennis Dunne, V. G., became pastor September 11, 1854. His assistants were as follows; Rev. Michael Donohue until 1855; Rev. Edward O'Neil from 1855 to 1857; Rev. Michael Downey and Edward Kenney from the beginning of 1856 to the latter part of 1857; Revs. P. Gaffney, Michael P. Lyons and John Magan in 1857.

St. Peter's Church.—German Catholics began coming to Chicago, though not in large numbers, before the Revolution of 1848, but in 1846 they were sufficiently numerous to sustain two churches of their own nationality, and hence the organization of two German Catholic churches-St. Peter's on the South Side, and St. Joseph's on the North Side-in the latter year. Previously all the Catholics had assembled in St. Mary's church. Father John Jung was given permission by Bishop Quarter to build a church. Bishop Quarter gave a lot for the purpose on Washington Street, between Wells and Franklin, and here in the spring of 1846, a few industrious German Catholics began to erect an edifice for St. Peter's Society. Among them were John Gross, Joseph Yager, John Glasen, Andrew Schall, Andrew Schaller, Nicholas and Peter Reis, Joseph and Anton Berg, Hubert Maas, Michael Gleinhans, Joseph Schumacher, John Paul, Adam Amberg, John B. and Frank Bush, Casper Pfeifer, Michael Eule, and Mr. Hahn. The dimensions of the lot received by the society were eighty feet on Washington Street by one hundred and eighty on Wells. Father Jung was the first priest in charge, and through his energetic management the society succeeded in erecting not only their church, but also a rectory and school-house—all frame structures. The church was a one-story building, forty by sixty feet, capable of seating about seven hundred people; was surmounted by a small steeple containing a bell, and cost about \$900. The rectory stood on the southeast corner of the lot, back of the church, and the school-house on the southwest corner. In 1850, as speculation increased and railroads commenced to be built into the city, a large portion of the members were compelled to move south toward Twelfth Street, and also into the southern part of the city. The removal of the inhabitants rendered necessary the removal of the Permission was given to Father church property. Plathe, then priest in charge, to remove to a lot on the southwest corner of Clark and Polk streets, where the church now stands, and to this lot, in the latter part of 1853, the society removed its buildings. Here the first services were held on Christmas Day, 1853. At that time the surroundings of the church were uninviting, being swamps and wilderness, but during succeeding years improvements were made, and in 1863 the society had so increased in numbers by immigration that Father Maeger, priest in charge, erected the brick church which still stands upon the lot. The first priest in St. Peter's was Father John Jung, who officiated temporarily for both this and St. Joseph's, saying high mass on alternate Sundays in each church, and celebrating low mass when not celebrating high mass. This arrangement lasted but a few months, when Rev. Hermann Liermann became priest and remained about two years. Father Liermann was succeeded in 1849 by Rev. Antonius Volker, who remained until 1852, when Rev. James

Bernard Weikamp became priest. Father Weikamp remained until 1854, when Rev. G. H. Plathe succeeded him, and remained until September 23, 1855, when he was succeeded by Rev. C. Schilling. Rev. Father Schilling remained until the 5th of the following October, when Rev. G. H. Osllangerberg became priest, and was himself succeeded by Rev. Hermann Liermann, who returned to the church on the 6th of January, 1857, and remained three years. The membership of this Church, which at first consisted of about thirty families, increased until when most prosperous, previous to the removal, it comprised about one hundred and fifty families. Besides a Sunday school there was a day school connected with St. Peter's Church, which was first taught by John Kribler, who continued with the school six or seven years, when it was taken charge of by Frederick Pryor, who remained about the same

length of time. St. Joseph's Church German was established early in 1846. Among the original members of the society were Peter Gebel, Michael Diversy, Augustine Gauer, Jacob Miller, Maurice Baumgarten, John S. Vogt, Frank Spohr, Motts Kriezer, Mathias Miller, Michael Hoffman, Peter Annen, Mr. Lauks, Jacob Raskop, and Henry Gherkin. The society purchased a lot at the northeast corner of Chicago Avenue and Cass Street, upon which they erected a frame building thirtysix by sixty-five feet in size, capable of accommodating about six hundred people, at a cost of nearly \$900. Upon this edifice was erected a small steeple, in which a bell was hung. The church building served the purposes of the congregation until after the Benedictine Fathers took charge of the organization in 1861. The first pastor was Father John Jung, who remained between one and two years, when he left the city and was succeeded by Schaeffer Platte and Father Kopp, who remained about seven years. During the most of Father Jung's pastorate he was without assistants. The records of this Church made previous to 1856 having been lost or destroyed, it is difficult to give a complete history of it previous to that time; but in September of this year Rev. John Baptiste Mager became its priest. His assistant was Rev. E. B. Kilroy, a member of the Order of the Holy Cross. In May, 1857, Father Mager was superseded by Rev. Andrew Tusch, who was replaced by Rev. Bernard J. Force, who remained until August, 1858, and who during a portion of his pastorate was assisted by Rev. J. Hoefflinger. Rev. B. Schnyder became pastor in August, 1858; Rev. N. H. Gillespie in January, 1859; and in September, 1859, Rev. John Baptiste Mager returned to the pastorate. He was assisted by Rev. P. Exel, a member of the Order of the Holy Cross, from February, 1860, to June following, when he was succeeded by Rev. Peter Hartlaub, who remained until October of that year. Father Hartlaub was succeeded in October, 1860, by Father Storr, who remained until May, 1861, when Rev. Charles Schafooth became pastor and remained until June 15, when the Church passed under the care of the Benedictine Fathers, who still remain in charge. During the pastorate of Father Kopp the Church grew until its membership, in 1850, was about sixty families, or nearly three hundred and sixty individuals. Under his successors, on account of the frequent change of pastors, the Church, while it did not decline, remained about at a standstill. In addition to the Sunday school which was started immediately on the organization of the Church, a day school was established, in a small building, about twenty by thirty feet in size, erected for the purpose, contiguous to the church building. The

first teacher in this school was Joseph Stommell, who was succeeded in regular order by Mr. Weinmann, Mr. Schmidt, Conrad L. Niehoff, who taught from May, 1850, to May, 1852, and by John Ketter, who taught until the school passed into the hands of the Sisters of the Holy Cross, in 1861, at the time the Church passed into the charge of the Benedictine Fathers.

St. Michael's Church.—Early in the year 1852, a number of members of St. Joseph's Church desired the formation of a new society. This was on account of the crowded condition of their own congregation. The fulfillment of their desires was facilitated by Michael Diversy, who, at the suggestion of Henry Gherkin, donated to the proposed new Church, a lot, eighty-seven and one-half by one hundred and thirty feet in size, on the northwest corner of North Avenue and Church Street; he having in that vicinity fourteen acres of Thus encouraged, those who favored the enterprise held their first regular meeting June 20, 1852, at the invitation of Rev. Anthony Kopp, then priest of St. Joseph's Church, acting as Vicar-General for the German Catholics. At this meeting a committee of collectors was appointed, who collected \$750 for the purpose of erecting a church building on the lot donated. With the approbation of Bishop Van de Velde, a frame building forty by sixty feet in size was erected at a cost of \$730. On the 17th of October, 1852, this church was dedicated by Rev. Father Kopp. Upon the church was erected a tower in which a small bell was hung, and in about six years from the time of its erection, it was enlarged by an addition at the north end. As thus enlarged it served the purposes of the congregation until the erection of the new brick church at the corner of Hurlbut and Eugenie streets, when it was used as a school-house until destroyed by the fire of 1871. Among the original members of this Church were William Dussmann, William Faymoville, Michael Diversy, John Kuhn, John Fossel, Christian Kuhn, Nicholas Hansen, John Schummer, Mathias Miller, Conrad Folz, Peter Brachtendorf, Peter Schimberg and Mr. Franzen. At the time of the dedication of the church the number of parishioners had increased to eight hundred. Rev. Anthony Kopp first celebrated mass in this church, and served temporarily as pastor until in November, 1852, when Rev. August Kroemer was appointed its pastor. He remained but a short time. On the 15th of May, 1853, Rev. Eusebius Kaiser, took charge of the congregation and remained until September 29, 1854, when he was succeeded by the Rev. Joseph Zoegel, from Alsace. According to a German historian of this Church, his management was marred, and there were literally "sorrowful appearances against him and the Church directors, in consequence of which he was dismissed in November, 1858." The successor of Father Zoegel was Rev. Anthony Saeger, who come about the 1st of December, 1858, and with the permission of the Bishop left in the beginning of April, 1859. His successor was Rev. Alois Hatala, an Hungarian, who on account of difficulties remained but nine months. The society was then for a long time without a pastor, until in February, 1860, the Redemptorist Fathers took charge of the church. Soon after the building of the church, the lot on the corner of North Avenue and the alley was bought of Michael Diversy for \$250. Of this amount \$115 was collected among the parishioners, and at the solicitation of the pastor, Cardinal Reisach, of Munich, Bavaria, donated \$240. Upon this lot the priest's house was erected. During the pastorate of Rev. Eusebius Kaiser, another lot was purchased, to the north of those already in possession of the congregation. On this a

school-house was built. The first teacher was a German from Milwaukee, named Gartner, who could not speak English. He remained until 1854, and was succeeded by Charles Ranker, who taught the school until 1858, commencing with forty scholars and closing with one hundred and eighty. Mr. Ranker was succeeded by a Mr. Homes, under whom the number of scholars increased to two hundred and fifty. Mr. Homes's successor remained until the school passed into the hands

of the Redemptorist Fathers in 1860. St. Louis Church was established as an independent organization in 1850. For about two years previous to the building of their own church, quite a number of French Catholics had worshiped in St. Mary's old church building, which then stood in the rear of St. Mary's Cathedral, recently completed by Bishop Quarter, and was used as a convent by the Sisters of Mercy. Rev. Isidore A. Lebel, came to Chicago in 1848; under authority from Bishop Van de Velde, he commenced the erection of a church for his congregation, on a lot leased for the purpose, of Captain Bigelow. This lot was on the east side of Clark Street, between Adams and Jackson. The church was a one-story frame, twenty-five feet wide by seventy-five feet in depth, and cost about \$3,000, of which sum P. F. Rofinot contributed \$2,000. For about two years it remained in an unfinished condition, but in 1852 the congregation became able to complete it, and made it a very neat and comfortable house of worship. The Democratic Press of December 1, 1852, said: "Thislittle edifice on Clark Street, under Rev. Isidore A. Lebel, has lately been refitted and completely altered and renovated. It has been decorated interiorly in the neatest and most appropriate manner, and with the taste and artistic effect which are natural to the French.' The body of the church, sanetuary and galleries were neatly painted and papered, and on the whole it was considered one of prettiest churches in the city. A fine organ was built in the church by Mr. Helinkamp and for the building and completion of the church, for the erection of the organ and of the priest's house, great credit was accorded to Mr. Lebel. In the latter part of 1856, Father Lebel was dismissed by Bishop O'Regan. He went to the Bishop of Michigan at Detroit, and was immediately given one of the best churches in that diocese at Kalamazoo, where he remained until his death He was succeeded in the St. Louis Church in 1878. by Father Le Meister, in October, 1857, who declined to have anything to do with the management of the financial affairs of the Church, and to relieve himself therefrom appointed a committee to act as collectors and disbursers of the funds of the Church. This committee consisted of Daniel Franchere, Toussaint Menard, Narcisse Lebeau, J. B. Valiquette and P. F. Rofinot; the latter of whom was elected chairman of the committee. In May, 1857, the pews were sold for six months, and on the first Sunday of November, Father Le Meister announced from the pulpit that immediately after mass they would be again sold for the ensuing six months, Mr. Rofinot attended to the sale, and collected the money, as the priest would have nothing to do with the finances. Money enough was realized from the sale of the pews to pay off the church debt, and to pay the rent upon the lot, so liberal was the response, and besides this, Mr. Rofinot paid the agent for putting up the organ, and took his receipts for the money expended and the balance of money on hand to Bishop O'Regan, who complimented him very highly for the ability manifested in the management of the business. In May, 1858, the pews were sold again, but this time the money received did not exceed the expenses, and the Bishop told Father

Le Meister that the church would have to be moved from the lot on which it then stood, because he did not want it to stand on a leased lot. Learning that the church was to be moved, Mr. Donahue and others who had property near the corner of Polk and Sherman streets, persuaded the Bishop to purchase two of their lots on Sherman Street, north of those fronting on Polk Street, for which the Bishop paid the money. He then wanted the church moved to the lots bought by him. One Sunday some of the communicants remained after church to consult with the priest. As a result of the consultation, the priest went to the Bishop with the advice that a committee be appointed to act as collectors, and to buy one or more lots upon which to move the church. The committee appointed was composed of the priest, Le Meister; Mr. Poncelet, the Belgian Consul; Dr. Henroten, Dr. Roger and P. F. Rofinot. This committee went to work on that very day (Sunday), and received seven or eight dollars in eash and \$100 in subscriptions toward the purchase of a lot. In order to obtain subscriptions from the French, it was necessary to promise them that the Church should remain a French Catholic Church, and should have a French priest, or the money should be refunded. On Monday afternoon Dr. Henroten and Poncelet had selected and agreed to buy three lots for the use of the church at the corner of Franklin and Quincy streets, payments to be one-fourth eash, balance in three equal annual installments, and they had also secured the privilege of buying two other lots on the same terms, within two years. On the same afternoon Bishop O'Regan had the church placed on rollers preparatory to its removal to the lots purchased by himself. He also the same afternoon notified Father LeMeister that he was silenced. That evening LeMeister went to see Mr. Rofinot, told him he was going away, handed to him his subscription-book and the money he had collected, and the next morning left Chicago. He was next heard from in New Orleans. On Monday evening the com-mittee met, and learned from Dr. Henroten and Mr. Poncelet of their agreement with reference to the three lots at the corner of Franklin and Quincy streets, and approved of the proposed purchase. On their way to the Bishop's to report the progress of their plans they discovered the church on rollers. Having made their report to the Bishop, that official responded: "Well, gentlemen, I shall not allow you to move the church, until you bring me the deed of the lots in my own To this Mr. Rofinot replied, "Bishop, you are asking an impossibility. We can not get the deed until we have paid for the lots, and we can not now do more than make the first payment." To this the Bishop excitedly, and with a plentitude of energetic gesticulation, replied: "I want you to understand, Mr. Rofinot, that I can sell all the churches in my diocese, put the money in my pocket, and spend it wherever I please." Mr. Rofinot, to this sally of the Bishop, said: "Yes, Bishop, that is the law in our State, because the Catholies are too trustful of their bishops. But when you came into the diocese did you not take an oath that you would leave all the property to your successors in office forever?" To this the Bishop responded, "I want no insults from you, Mr. Rofinot," and made a hurried movement to leave the room, but was prevented from so doing by the three members of the committee present. At length the interview terminated, the Bishop firm in his determination to move the church on to lots purchased by himself, unless the lots bargained for by the committee were deeded to him before it was moved to them, the committee equally determined that the

church should not be moved to the Bishop's lots. In order to prevent the Bishop from carrying out his designs, Mr. Rofinot consulted his attorney and stated his case, reciting the manner in which the church was built originally, who contributed the money that paid for its erection, etc. But his attorney could give him no encouragement. He cited to Mr. Rofinot a parallel case in Quincy, which on an appeal to the Supreme Court by the Bishop of St. Louis had been decided in his favor. The committee therefore abandoned their opposition to the Bishop's desires, and he soon had the church moved to his lots at the corner of Polk and Sherman streets. In order to make sure that the French should not occupy the pews for which they had paid on the first Sunday in May, the Bishop had the church raised some four feet from the ground. In this condition it remained unoccupied until the following November, when Rev. John Waldron was made priest for the purpose of occupying the church. Then commenced the contest between Mr. Rofinot and Bishop O'Regan, in which so much interest was taken by the French Catholics, and which lasted until the Bishop left Chicago, the results of which will be detailed in the

succeeding volume of this History. St. Francis D'Assisium.-This church was established in the year 1853, and was located at the corner of Clinton and Mather streets. The first church built by the organization was a small frame structure, having a seating capacity of about four hundred, and cost about \$2,000. At the time of the organization there were about fifty families connected with the society. The first priest was Rev. John Bernard Weikamp, then late priest of St. Peter's Church. Reverend Father Weikamp remained until 1857, when he was succeeded by Rev. G. H. Ostlangerberg, who also had charge of St. Peter's just before being assigned to St. Francis' Church. Reverend Father Ostlangerberg was succeeded in 1858 by Rev. Ignatz Schnirch, who remained until 1859, and was succeeded, July 19 of this year, by Rev. Ferdinand Kalvelage, who has been ever since, and is still 1883 in charge of the congregation. At the time Mr. Kalvelage took charge, the society consisted of about one hundred families, since which time it has increased to eight hundred families, or four thousand members. In 1867, the first church building becoming too small, and the location unsatisfactory, a new and much more substantial church edifice was erected at the southeast corner of West Twelfth Street and Newberry Avenue. The old church building was sold to St. Paul's Catholic Church, and used by that society until swept out of existence by the fire of 1871. The new church building, which is still used by the Church of St. Francis, is of brick, sixty-six by one hundred and sixty feet in size, with walls forty-five feet high, and fifty eight and a half in the clear inside. The steeple, which was erected in 1875, is one hundred and ninety feet high, and contains a chime of three bells. The cost of the church was \$65,000. An organ was built in the church at a cost of \$5,000. The assistants of Rev. Ferdinand Kalvelage have been the following, appointed in the years appended to their names: Revs. F. L. Yunker, 1867; John Miller, in July, 1868; B. Baak, January, 1870; Charles Schnuckel, September, 1872; Anthony Schmidz, June, 1874; Augustine Wencker, September, 1874; Franciscus X. Sixt, July, 1876; Mathias W. Barth, July, 1878; George D. Heldmann, July, 1881. The societies connected with this church are, St. Francis', organized in 1856, and St. John's, organized in 1865, both for purposes of benevolence; St. Stanislaus' Young Men's Society, St. Stanislaus'

Boys' Society, St. George's Knights, St. Mary's Sodality for married women, St. Elizabeth's Association for helping the poor, St. Rosa's and St. Agnes's Sodalities for young women, the Altar Boys' Sodality, and the Society of Holy Childhood for school children. The corner-stone of a new brick school-building was laid in 1881, at the southwest corner of West Twelfth Street and Newberry Avenue. The house is seventy by one hundred and thirty feet in size, three stories high, and contains sixteen rooms, besides a large hall. The total cost of this building was \$50,000. It was inclosed in the fall of 1883, and ready for occupancy

in the spring of 1884.

CHURCH OF THE HOLY NAME.—In 1846 the North Side was made a parish and placed under the charge of the priests of the College of St. Mary's of the Lake. A small room was fitted up in the old college building, which easily contained the congregation that assisted at mass on Sundays. This was the origin of the Church of the Holy Name of Jesus. In 1848 a church building was commenced by Rev. Jeremiah A. Kinsella, who was at the same time rector of the college, and with whom there were associated the Rev. Fathers William Clowry and John Breen. This building was erected on the southwest corner of St. Mary's College grounds, at the corner of Rush and Superior streets. It was completed in 1849, and was used for divine service for the first time on Sunday, November 18, of that year. growth of Catholicism did not make itself especially manifest on the North Side until 1851, five years after the establishment of St. Joseph's, and two years after the building of the Church of the Holy Name. By this time the number of Catholics had become considerable, and in this latter year Father Kinsella built a small church at the corner of State and Superior streets. This movement gave an impetus to the settlement of Catholics on the North Side, for it is a well known and noteworthy fact that the Catholics prefer to locate near a church, often making many sacrifices in order to do so. In 1852 an addition was made to the little church, but the Catholics increased so rapidly that the necessity of a large and permanent edifice was soon felt. Consequently in the year 1853 the Rt. Rev. Bishop Van de Velde assented to the erection of a large brick church at the corner of State and Superior streets, which should be used as the cathedral of the diocese. The ceremony of laying the corner-stone of the edifice took place August 3, 1853, at 4:30 o'clock P. M. The sermon was preached by the Rt. Rev. Michael O'Connor, Bishop of Pittsburgh. Bishop Van de Velde solemnly blessed the foundation stone. At the ceremonies there were present, in addition to Bishops O'Connor and Van de Velde, the Rev. Fathers McElhearne, Kinsella, Quarter, McLaughlin, Lebel, Tucker, Dunne, Fitzgerald, Clowry, Hoey, Feely, Brady, Kopp, and Donohue. The dimensions of the church were eightyfour by one hundred and ninety feet, and the steeple was two hundred and forty-five feet in height. The material of which the church was built was Milwaukee brick, the style of architecture was Gothic, with windows of stained glass, representing scenes in Biblical history. The building was completed in the fall of 1854, at a cost of \$100,000. Catholics then living in Chicago contributed toward this enterprise with extreme liberality. The Catholics of the parish were gratified to enjoy the opportunity of celebrating mass for the first time in this church on Christmas Day, 1854. The Very Rev. Jeremiah A. Kinsella remained priest until January, 1855, when he, in connection with Rev. William Clowry and Rev. John Breen, was requested by Bishop O'Regan to

resign. The removal of the clergy was not satisfactory to many of the parishoners, and on Wednesday evening, January 17, a meeting was held in North Market Hall for the purpose of expressing adverse sentiments. A series of four resolutions was passed, the substance of which was as follows:

Expressing confidence in the priests that had been removed.
 Pledging themselves to assist in completing the new church, if the priests were permitted to remain.

3. Bowing with most profound respect and reverence to the Church and Bishop, but at the same time appealing to the Holy

Spp

 Appointing a committee to draw up a statement of their grievences and forward them to the Pope at Rome.

The committee appointed under the fourth resolution consisted of Charles O'Connor, Patrick Connelly, John Murphy, Edward D. Colgan, Edward Kelly, James Driffy, Patrick McAlpin and John Prindiville. Late in the year 1855 Charles O'Connor brought suit against the Rt. Rev. Anthony O'Regan, Bishop of Chicago, to recover under a contract which the plaintiff had made with a Catholic clergyman, formerly of the city, to build the Church of the Holy Name. The defendant denied all knowledge of such contract, as well as having authorized any party to make such contract for him, but at the same time admitted having offered to pay the plaintiff a fair and reasonable price for the labor expended on the building. On the 6th of November, 1855, a verdict was rendered the plaintiff of \$6,263.96. It was decided to take an appeal to the Supreme Court, but no decision on the subject can be found.

THE UNIVERSITY OF ST. MARY'S OF THE LAKE .--This institution of learning was established June 3, 1844, by Rt. Rev. William Quarter, the newly appointed and arrived Bishop of Chicago. At the opening, however, only the college existed, the germ of the University. The college commenced with two professors and six students, in a portion of the building formerly occupied as the old St. Mary's Church at the corner of Michigan Avenue and Madison Street. The two professors were Rev. J. A. Kinsella and B. McGorisk. The six students Patrick McMahon, B. McGorisk, Timothy Sullivan, and three others whose names cannot be ascertained. On the 19th of December, 1844, the Legislature passed a bill incorporating the "University of St. Mary's of the Lake." Having a charter for the University, Bishop Quarter wished next to establish an ecclesiastical seminary, in which young men might be educated to supply the great dearth of clergymen in the holy ministry. In order to remove the one great obstacle in the way-lack of funds-the Bishop left Chicago for New York early in April, 1845. In about four months he returned, having collected a large sum of money, which enabled him to commence the erection of the building. The foundation of the college and seminary were begun on the 17th of October, and so rapidly did the work progress that they were under roof on the 22d of November. But in order to complete the buildings more money was required, and to raise the necessary funds the Bishop directed his pastoral of 1846 to his clergymen, urging them to assist him in his undertaking. By the 4th of July the last touch of the painter's brush had been made to the new University, and on that day it was opened with appropriate ceremonies for the reception of pupils. Among the early pupils in this institution were Rev. Dr. John McMullen, late Bishop of Davenport, and General James A. Mulligan. In 1846 among the advantages named as being possessed by this institution were the following: It is situated in the city of Chicago near the borders of Lake Michigan. The location is pleasant, healthy, and sufficiently removed from the business portion of the city to make it favorable to the pursuit of study. The ample grounds and extensive meadows in the vicinity afford the student an opportunity to enjoy healthful exercise and abundant recreation. The University was situated on the northeast quarter of the block bounded by Chicago Avenue, Rush Street, Superior Street and State Street. It cost \$12,000. The course of instruction in the University embraced the Hebrew, Greek and Latin, English and French, poetry, history, mythology and geography; book-keeping, arithmetic, algebra and other branches of mathematics; intellectual and moral philosophy; natural philosophy and chemistry. German, Italian, Spanish, music and drawing were also taught, but for these there was an extra charge. Board and tuition were \$150 per year. In 1846 the officers and professors of the institution were as follows: Rev. J. A. Kinsella, president; Professors, James Kear, A. B., Latin and Greek; Rev. J. Ubrich, German, Spanish and Italian; Lawrence Hoey, A. B., French and philosophy; John Brady, mathematics; Hugh Brady, English and declamation. The faculty was George A. Hamilton, Lawrence Hoey, William Quarter, Walter J. Quarter, B. McGorisk, J. A. Kinsella, P. McMahon, J. Ingoldsby, and Thomas O'Donnell. According to the catalogue of 1846, there were forty students in the Humanities and fifteen in the Theology. In 1849 the officers and professors were as follows: Trustees—President, Rt. Rev. James O. Van de Velde; vice-president, Rt. Rev. J. A. Kinsella; Chancellor, Walter J. Quarter; treasurer, Lawrence Hoey; secretary, William Clowry; B. McGorisk, John Ingoldsby, Patrick McMahon, Thomas O'Donnell and Dennis Ryan. Faculty-Rev. J. A. Kinsella, president, and professor of dogmatic theology and sacred Scripture; William Clowry, vice-president and professor of moral theology and ecclesiastical history; Lawrence Hoey, A. M., mathematics and moral philosophy; P. Byrne, A. B, modern languages and literature; Hon. David L. Gregg, A. M., rhetoric and belles lettres; B. Rodaham, A. B., ancient languages and literature; P. Baltes, now Bishop of Alton, German language and literature; J. Tracy, English; John E. McGirr, anatomy and physiology, hygiene, chemistry and botany; John Kinsella and James Shields, professors of vocal and instrumental music; tutors, P. McMahan, P. Donohue, P. Lamacher and P. Sherry. In 1851 the faculty consisted of eight members, the president and vice-president remaining the same as in 1849; Rev. John Breen was professor of rhetoric and belles lettres; Rev. Lawrence Hoey, professor of natural philosophy and French; John E. McGirr, as in 1849; Michael Hurley, professor of Latin and Greek; Ferdinand Kalvelage, professor of German, and Mr. Peter, professor of music. There were four tutors: Thomas Clowry, Charles Fay, Patrick Sherry and William Russell. In 1852 John E. McGirr and Ferdinand Kalvelage ceased to be members of the faculty, and H. Knauers became professor of music. Otherwise the faculty and the tutors were the same. In 1853 and 1854 the faculty and tutors were the same as in 1852. About this time difficulties broke out between Bishop O'Regan and some of his priests, in consequence of which Rev. J A. Kinsella, Rev. William Clowry and Rev. Lawrence Hoey resigned their professorships and left the city. The University property was soon after rented to members of the Holy Cross, at an annual rental of \$5,000. Rev. E. Sobin, at present principal of the Notre Dame University, Indiana, was the first principal of St. Mary's University of

the Lake. In 1858 the University was still under the direction of the members of the Holy Cross, Rev. J. B. Force being the principal. After a few years it became evident that it was impossible to pay the rent, and the members of the Holy Cross retired from the management. In the fall of 1861 secular Catholics again assumed control of the institution, with a faculty organized as follows: Rev. John McMullen, late Catholic Bishop of Davenport, president: Rev. John P. Roles, vicepresident, professor of ecclesiastical history and spiritual director; Rev. Dr. McGovern, principal of the ecclesiastical department and professor of dogmatic theology; Dr. T. G. Butler, professor of moral theology. Subsequently the Rev. P. W. Riordan, present Coadjutor Archbishop of the See of San Francisco, was added to the staff. Dr. Quackenbos was professor of Greek, Dr. Beleke professor of German and philology, and Dr. Guerin, professor of English literature. In 1862 the authorities of the University commenced the erection of a building on a large scale, G. P. Randall being the architect. One wing only of this proposed building was erected, at a cost of \$35,000. After the erection of this wing, it was used for students in the lay department, while the old buildings were used for the ecclesiastical department, professors' rooms, and dormitories. In these buildings the work of the University was carried on until 1867, at which time there were twenty-three ecclesiastical students and eighty lay students. For various reasons the number of students soon became so small that it was deemed advisable to abandon the University project, which was finally done in 1868, and the buildings were thenceforward occupied by the St. Joseph Orphan Asylum. From this time the history of this property with that of the Ladies of the Sacred Heart will be found in the third volume of this History,

THE SISTERS OF MERCY.—The Catholics of Chicago are indebted to the Rt. Rev. William Quarter for the establishment of this order in the city, in 1846. The Sisters arrived on the 23d of September, 1846, in company with Sister Mary Frances Ward. Their names were Mary Agatha O'Brien, Mary Vincent McGirr, Mary Gertrude McGuire, Mary Eliza Corbitt and Mary Eva Schmidt. This small group began at once the work of dispensing the rich stores of their earthly acquisitions, opening schools which were well attended from the first. Their convent soon became too small, and Bishop Quarter in the last year of his life, completed the building they occupied in 1849, as convent and academy. It stood on a lot adjoining the cathedral on Wabash Avenue and cost \$6,000. In 1847 the convent was incorporated by the Legislature with a most ample charter and by 1849, such had been the growth of the academy, that ten Sisters were constantly engaged in teaching the two hundred children in attendance at the schools, and there were about fifteen in the community of Sisters. In 1865 a new building was erected on Wabash Avenue, adjoining the old one, which cost \$32,000. The number of pupils in this convent in 1855 was three hundred; in 1860, four hundred and fifty; and in 1865, six hundred and fifty.

THE CATHOLIC ORPHAN ASYLUM was established August 16, 1849. It was under the control of the Sisters of Mercy from its institution until October, 1863. Originally a building known as the Cumberland House, which stood at the southwest corner of Wabash Avenue and Van Buren Street, was purchased for the use of the orphans, large numbers of whom lost their parents by the cholera which ravaged the city that year. On the 13th of February, 1852, another building was opened

to the public, and on the 21st of June the Asylum was incorporated by the Legislature. Some time previous to this a benevolent association had been organized, of which Mrs. Michael Lantry was president, and Rev. John Breen secretary, to procure funds for the Asylum. In 1853 was commenced the erection of a new building which was designed to be more commodious than the old one; the cost of which when completed was \$8,000. The number of orphans in the Asylum in 1849 was one hundred and twenty-five; in 1854, one hundred and forty; in 1859, one hundred and eighty, and in 1863, two hundred. The numbers of Sisters in charge at the same time were: In 1849, five; in 1854, ten, and in 1863, sixteen. The names of the superiors were Sisters M. Stanislaus and M. Ursula.

# PROTESTANT DENOMINATIONS.

THE FIRST PRESBYTERIAN CHURCH was organized June 26, 1833, by Rev. Jeremiah Porter. This gentleman had been appointed Chaplain of the garrison at Fort Brady in the fall of 1831. In the spring of 1833, the troops at Fort Brady were transferred to Fort Dearborn. As there was a Baptist mission at the Sault Ste Marie, sufficient to meet the wants of the people at that place, Mr. Porter accepted the invitation of the soldiers to accompany them to Chicago,-the more readily, as quite a number of them were members of his church at Fort Brady, and as the Home Mission Society at Boston had requested him to explore the shores of Lake Michigan to see if there were any settlements where the gospel might be preached. Mr. Porter, therefore, in company with the troops under command of Major John Fowle, arrived off Fort Dearborn Sunday, May 12, 1833, but on account of the roughness of the lake did not land until next day. Major Fowle had come to relieve Captain Seth Johnson; and the little body of Christians in the fort were much cast down over the departure of the Captain, who was a devout Christian and a warm-hearted man. They knew what they were to lose, but did not know what they were to gain; hence it was natural that they should feel impatience and anxiety as to the religious character of those on board the schooner. On Monday, the waters of the lake being sufficiently smooth, the troops and others on the vessel landed. The surprise of those in the village of Chicago was very great and agreeable to find that the schooner brought not only a minister but also the nucleus of a church organization; and a very warm welcome was extended to the strangers. John Wright, one of the praying men in the village, taking the hand of Rev. Jeremiah Porter, said :

"Well, I do rejoice, for yesterday was the darkest day I ever saw. Captain Johnson, who had aided in our meetings, was to leave us, and I was almost alone. I have been talking about and writing for a minister for months in vain, and yesterday as we prayed with the Christians about to leave us, I was almost ready to despair, as I feared the troops coming in would all be utterly careless about religion. The fact that you and a little church were, at the hour of our meeting, riding at anchor within gunshot of the fort, is like the bursting out of the sun from behind the darkest clouds."

Temporary arrangements were made for preaching in the fort; the carpenter-shop being emptied, cleaned and seated, and on the next Sunday morning, May 19, 1833, Rev. Jeremiah Porter preached his first sermon in Chicago, from the text, John xv, 8, "Herein is My Father glorified, that ye bear much fruit; so shall ye be My disciples."

In the afternoon, by invitation of "Father Walker," Mr. Porter preached in the log school-house on the

west side of the river, at the Point, half a mile from the fort. Of this meeting Mr. Porter, in his journal, says:

"The school-house was crowded to overflowing and many that away for want of room to stand within the doors. I think I have not preached to such an audience before, only at Mackinac, since I left Detroit. There seemed profound attention. Mr. Wright said his eyes filled with tears several times to see the happy influence of the Major and his fellow-officers on this community."

With reference to other religious services on this, his first Sunday in Chicago, Mr. Porter also says:

"At six o'clock I had a prayer meeting in the fort. After candle lighting I went to Father Walker's place, where he had given notice that a Methodist minister from Xew Vork would preach. Though it was eight when I went in, I found no one but Mr. Walker, and he was grieving that he was disappointed in regard to his preacher, who having an opportunity to go on to New York that afternoon, had embraced it and left Mr. Walker to fill the appointment. If he had so little regard for the Sabbath, I think it is well he did not stay and preach. At length fifteen persons came in and Mr. Walker addressed them."

Early in the morning of the same day Mr. Porter witnessed a desecration of the Sabbath which greatly shocked him. Quoting still further from his journal:

"The first dreadful spectacle that met my eyes on going to church was a group of Indians sitting on the ground before a miserable French dram house, playing cards, and as many trifling white men standing around to witness the game."

Thus passed Mr. Porter's first Sunday in Chicago. On the next Sunday, May 26, Rev. Mr. Kent, of Galena, paid a visit to Mr. Porter, and preached for him an excellent sermon from Hebrews, xi, 24-26. On June 1 arrangements were made for public worship outside the fort. This was because many of the citizens objected to going into the fort. Father Walker consented to rent to Mr. Porter his house at the Point for one-half of each Sunday, and for some time, commencing with Sunday, June 2, he preached in the fort to the garrison at 10 A. M., and to the citizens at 2 P. M., in Father Walker's log house; held prayer meeting at 6 P. M. in the fort, and preached alternately with the Methodists on Sunday evenings at the Point. This arrangement was still unsatisfactory, and, as there was no prospect of having better accommodations, except as they should be provided by those who desired the advantages of them, Mr. Porter advised that the sums subscribed for his support should be appropriated to paying for the erection of a frame and covering it as soon as possible. The citizens interested met in the evening of June 11, and appointed a committee to carry this plan into effect, which made it necessary for Mr. Porter to look to the Home Mission Society for support for the year to come.

On Wednesday, June 26, 1833, Mr. Porter organized the First Presbyterian Church with twenty-six members, seventeen of them, including Major DeLafayette Wilcox, having been members of this church at Fort Brady, the remaining nine being citizens of the village. The names of these nine citizens were John Wright, Philo Carpenter, Rufus Brown, John S. Wright, J. H. Poor, Mrs. Elizabeth Brown, Mary Taylor, E. Clark, and Mrs. Cynthia Brown. The names of the seventeen members of the garrison were, Major DeLafayette Wilcox, Mrs. S. G. Wilcox, Miss Eliza Chappel, Lieutenant L. T. Jameson, Sergeant J. Adams, Mrs. H. Adams, Sergeant W. C. Cole, Mrs. Julia Cole, Mrs. Ruth Ward, Richard Burtis, Benjamin Briscoe, Ebenezer Ford, John Guy, Isaac Ingraham, William Johnson, David Lake, and James Murray. All of these first members were Congregationalists, except Philo Carpenter, who was a Presbyterian. John Wright, Philo Carpenter and Major Wilcox were chosen and ordained elders of the church. For some time the society continued to worship in Father Walker's log school-house at the Point. On Sunday, June 30,

Mr. Porter attempted to re-organize the Sunday-school founded the year before by Philo Carpenter, but was prevented doing so by heavy showers of rain. The first communion held in Chicago was on Sunday, July 7, 1833. The service was supplied by Major Wilcox from his table silver. Twenty-seven sat at this first communion. Mr. Porter's journal reads: "Many witnessed the solemn scene, but a majority were females, as two vessels were unloading in the harbor, causing a wanton abuse of the holy day by many who sin against clear

I wemich Porter

light, and abuse divine compassion and love." The subject of the erection of a church building having agitated the minds of the members for some time, Lot No. 1, Block 34, Original Town, southwest corner of Lake and Clark streets, was chosen and measures taken to build upon the lot, which has been described as being at that time a "lonely spot, almost inaccessible on account of surrounding sloughs and bogs." While preparations were being made for the erection of their temple of worship, they and other citizens of the village were surprised one morning to see the frame of a small building on the Lake-street front of their lot, which had been raised during the previous night. Work upon this little building was industriously continued during the day. But alas for the hopes of the prospective store-keepers! Their squatter right of occupancy was not to be recognized, and during the succeeding night, in obedience probably to the suggestion of a member of the society, a number of yokes of oxen were noiselessly marshalled in front of the trespassing store, heavy chains securely fastened to the sills of the building and to the oxen's yokes, and in the morn-

ing away down Lake Street the intruding building was seen standing, to indicate thwarted hopes and to teach the lesson that the rights of property could not with impunity be invaded. Meantime their own preparations proceeded. "The timbers were at length hewed and squared and set up on the prairie. . . . Each one, according as he was able, gave his mite to aid in the construction; one worked at the turner's lathe to prepare the columns that adorned the pulpit; some worked in the mortar-bed, and all labored who could, for a common desire actuated the members, which was not only to have a house exclusively set apart for worship, but, when done, to be free from that crushing incubus—debt." The church, when built, stood upon the southeast corner of the lot, fronting east; it was built by Joseph Meeker; its size, though not now definitely ascertainable, was about thirty by forty feet, and the cost was \$600. It was completed during the late fall or early winter months of 1833, and dedicated January 4, 1834. Notwithstanding the extreme severity of the weather, the mercury being twenty-four degrees below zero, a respectable audience assembled to participate in or witness the dedicatory services. The prayer of consecration was offered by Rev. A. B. Freeman, of the Baptist church, then recently organized, and the sermon was delivered by the pastor, Rev. Jeremiah Porter, from the text | Psalm lxxxiv, 3): "Yea, the sparrow hath found a house, and the swallow a nest for herself, where she may lay her young, even thine altars, O Lord of hosts, my King and my God."

During the following year, fifty-two persons were added to the membership, and by December, 1834, the church had become self-supporting. The following

resolution was passed in that month:

"Feeling under great obligations to the American Home Missionary Society, for its aid in sustaining the Rev. Jeremiah Porter as pastor of the church, in our infancy, we now gladly assume his support from the 1st of June of last year."

In the spring of 1835, Mr. Porter was chosen by the Presbytery of Ottawa its first delegate to the General Assembly which met that spring in Pittsburgh. After the adjournment of the Assembly, Mr. Porter was married, at Rochester, N. V., to Miss Eliza Chappel, then late of Chicago, and with his wife visited his parents who were living in Massachusetts. In the autumn of that year, he accepted a call to the Main-street Church, in Peoria, thus leaving the church without a pastor; but after deciding to leave, made efforts in various directions to supply the approaching vacancy, feeling "as if Chicago should have the best minister in the land." There were at that time one hundred and nine members

The church had considerable difficulty in finding a successor to Mr. Porter. They corresponded with Edward Humphrey, of Amherst, Rev. Dr. J. W. Adams, of Syracuse, Dr. E. N. Kirk, and Dr. Hall, of Auburn Theological Seminary, and Dr. Joel Hawes, of Hartford, Conn., all to no avail. The latter gentleman took his letter which had been written by Deacon John Wright, to Judge Williams of his own Church, with the remark, "I've got a letter from some place out west called Chickago, asking me to come there and preach. Can you tell me where it is?" Upon being informed that it was in a great swamp west of Lake Michigan, he decided to remain in Connecticut. Dr. Deric Lansing, of Auburn, once preached here, but could not be induced to remain. For some time during the year and a half that the church was without a regular pastor, Rev. Isaac T. Hinton was virtually pastor of the Presbyterian, as well as of his own, the Baptist Church. Besides these mentioned Rev. Mr. McLain preached a few times. Of this gentleman, Miss Frances L. Willard, who was one of the early teachers, wrote as follows in a letter dated May 25, 1836:

"Mr. McLain arrived in good health—receives much attention—gives good satisfaction thus far—preaches with eloquence and studied argumentative style. I have met him often, and from conversations with him suspect that even Chicago will not meet his ambition. It is plain to me that his heart is set on New Orleans."

An extract from the same authority, on the state of religion in Chicago, is as follows:

"Religion here—ah! Look at Alton, and see sister churches suffering from the same cause—worldly cares. Yet Alton is apparently more spiritual than we are. Your friend Brown (William H) seems to take the lead among the church. But all are asleep, Mr. McLain says that in all his travels he never was in a place where money was talked of as here. Ten thousand dollars is considered nothing! Fifty thousand or one hundred thousand only are named."

Again under date of August 25, 1836, Miss Willard wrote:

"I like everything here but the low state of religion. Rev. Mr. McLain has returned to Ohio, and we are without preaching in the Presbyterian society. It was a year last June since the sacrament of the Lord's Supper was administered here, and it is still neglected."

On December 25, 1836, she wrote:

"We have prospects of a minister at last. Rev. Mr. Blatchford from some town near New York City has received a call, has not accepted it but will preach here this winter. Thirty thousand dollars are subscribed for the erection of a meeting house, which is to be built of marble. It is not calculated by the committee, that it will be finished in less than two years. . . . . The building of four meeting houses (Episcopal almost finished) will abundantly occupty the public mind for two years to come."

Again under date of October 9, 1837:

"I intend to continue teaching but the fine promises of public buildings, etc., made to me before I left Alton, have never been fulfilled, nor is there now any prospect even of a meeting house within two years. Chicago is blest with four spiritual ministers, but the god of this world has blinded the eyes of the inhabitants."

At length, in 1837, the Rev. John Blatchford, who was traveling from New York and unexpectedly detained here, was called and installed pastor in July. Mr. Blatchford remained with the church until August, 1839. During his pastorate the building was removed south of Washington Street. Mr. Blatchford was succeeded by Rev. Flavel Bascom, who commenced his labors in December, 1839, and was installed as pastor in November, 1840. Mr. Bascom had preached once in Fort Dearborn, in 1833, at the request of Philo Carpenter, and when shown by Mr. Carpenter the place selected, on Clark Street, near Lake, he said it would bring the church too far out on the prairie. The building, when moved to its second site, was doubled in length, and, in the summer of 1840, was doubled in width. In 1848 the brick church, which stood at the corner of Clark and Washington streets, was so far completed that in the fall religious services were held in the basement, and in September, 1849, it was completed and dedicated. Mr. Bascom preached the dedicatory sermon from the text, Haggai, xi, 9: "The glory of this latter house shall be greater than of the former, saith the Lord of hosts." At his own request he was dismissed in December, 1849, and was succeeded by Henry Harvey Curtis, who began his ministry August 25, and was installed pastor on the 13th of October, 1850. After a successful pastorate of eight years, he retired for the purpose of assuming the presidency of Knox College, Galesburg, Ill., departing from the church June 8, 1858. His death occurred September 18, 1862.

The church building dedicated as above recited in

October, 1849, cost \$28,000. In its erection a debt was incurred which, for some years, greatly embarrassed the society. As the city prospered, business houses so encroached upon the residences that surrounded the church, that the people sought more retired localities for homes. The church itself also became inadequate to accommodate the rapidly increasing congregation, and as a result of all these causes it was resolved, in the autumn of 1855, to sell the lot and the building, pay the outstanding indebtedness, and divide the net proceeds in such manner as to secure the erection of three new church buildings, in the three divisions of the city. This plan was adopted on the supposition that those members living on the West Side would identify themselves with the Third Presbyterian Church, organized July 1, 1847; and that those living on the North Side would affiliate with a new society then in contemplation there, and which was consummated in the organization of the Westminster Presbyterian (afterward Fourth) Church. The property was sold in November, 1855, and a lot on Wabash Avenue, between Van Buren and Congress streets, was immediately purchased by the First Presbyterian Church for its own use. A new edifice was erected, of Athens marble, and of the Norman style of architecture, the front highly ornamented with richly-carved work in stone. The main audience room was sixty-three by ninety-seven feet, and fifty feet to the highest point in the vaulted ceiling. This church was dedicated October 15, 1857. The lot cost \$16,000 and the building \$115,000.

By way of review of the history of the First Presbyterian Church a brief statement as to its work and growth and relations to other Presbyterian churches in Chicago is appropriate. In the early part of 1841, a series of revival meetings was held, which were very successful in its results. The meetings were conducted by Rev. Flavel Bascom, pastor of the church, assisted by Rev. Mr. Gallaher, an itinerant revivalist. As a result of this revival one hundred new members were added. The years 1843 and 1845 were likewise distinguished by extensive revivals. In April, 1846, there were reported to the Presbytery four hundred and fifty-six members. During the next five years the membership declined to two hundred and fifty-four. This was in part owing to the organization of the Third Presbyterian Church; but only in part, as during this time the population of the city increased from 10,000 to 25,000, and the First Church should on this account have received considerable accessions to its membership. There was want of harmony within the Church itself. In the winter and spring of 1852, peace having returned, "a gentle but precious season of spiritual refreshing" took place, the Church recovered a portion of what it had lost, and made steady but sure progress until the winter and spring of 1857 and 1858, when in consequence of a powerful revival "about seventy-five were added on profession, and an impulse was imparted to the spiritual activities of the Church," which was especially perceived in the establishment of mission schools.

The first baptism in the First Presbyterian Church occurred Sunday, November 24, 1833, the subject being the infant daughter of Major Wilcox. The ceremony took place in the Major's house in Fort Dearborn, Mrs. Wilcox not being able to go to church. The little child was four months old. With reference to this baptism, Rev. Jeremiah Porter says in his journal: "The child seemed to smile with joy, after prayer and the application of the water, as though it were conscious of the act, and I hoped as an evidence that the prayer had

been answered, and that the child's heart had been baptized by the Holy Spirit."

REV. JEREMIAH PORTER was born in Hadfey, Mass., in 1804, where his ancestors had lived for nearly two centuries. Samuel Porter went to Hadley in 1639, and the house built by him is still owned by his descendants. The grandfather of Rev. Jeremiah Porter, whose name was also Samuel, married Susanna Edwards. a daughter of President Jonathan Edwards. His father, William Porter, was a physician and served during the war of 1812, as sur-Porter, was a physician and served during the array of geon in the Army of the United States, and died in Hadley, Mass., at the age of eighty-four years. His mother, Charlotte (Williams) at the age of eighty-four years. His mother, Charlotte (Williams) Porter, was a daughter of Hon. William Williams, of Hatfield, Mass, William and Mrs. Porter were the parents of twelve children, several of whom died in infancy. Of the six who lived to arrive at man's estate, most of whom lived beyond the threescore years and ten, the eldest of whom died at eighty-three, Jeremiah was the youngest. He was educated at Hopkins Academy, under Rev. Dr. Dan Huntington, father of Bishop F. D. Huntington, of the diocese of central New Vork, and in Lee, Mass., in the family of Alvan Hyde, D. D. At the age of seventeen he entered Williams College, at the beginning of the presidency of Dr. Edward Dorr Griffin. He graduated at the age of twenty-one, and in the autumn of that year, 1825, entered the Theological Seminary at Andover, Mass. At this time he had not decided upon the choice of a profession, but had not a taste for the law or medicine. After two years' study in this seminary, he passed the winter at his father's In the spring of 1828, he was induced by Dr. Griffin to accept the position of principal of the Monitorial High School, in Troy, N. V., and after spending two pleasant years in that school, he was induced by the late Henry A. Boardman, D. D., of Philadelphia, to accompany him to Princeton Theological Seminary, N. J. Here for a year Mr. Porter enjoyed the teaching of Drs. Alexander, Miller and Hodge, and graduated from this institution in 1831. In the spring of that year he was licensed by the Hampshire Congregational Association to preach the Gospel, and preached shire Congregational Association to preach the Gospel, and preached in several towns in that county. But previous to his graduating at Princeton, Rev. Dr. Absalom Peters, of New York, Secretary of the A. H. M. Society, visited the seminary in search of ministers for the West. Dr. Peters told Rev. Mr. Porter of a wish sent from Fort Brady, Sault Ste. Marie, Mich., for a minister at that place, and asked him if he would listen to that call. To this Rev. Mr. Porter replied, that if Dr. Peters failed with the gentleman at Andever to whom he had applied, and considered him a proper man over, to whom he had applied, and considered him a proper man for the place he would go. Dr. Peters soon wrote to Rev. Mr. Porter from New York, to proceed at once to his Massachusetts home to be ordained by the same association that had licensed him to preach, and go at once to the "Soo," as the Sault Ste. Marie was then usually called. After being ordained he left by stage toward then usually called. After being ordamed he left by stage toward the West, for a country of which he had heard much, but of which he knew little, leaving all his family and kindred behind, except one brother who lived at Auburn, N. Y., with whom he spent the first Sabbath of his journey, having reached there from Albany by the newly constructed New York & Eric Canal. By the same means he proceeded to Buffálo, then a city of three thousand inhabitants, and into which new life had been infused by the completed canal. He then proceeded by steamer to Cleveland, a city then containing fifteen hundred inhabitants; thence to Detroit where he waited several days for a schooner, the last one up that fall, upon which he embarked for Mackinac. Upon arriving at Mackinac he was received into and kindly entertained by the charming Christian family of Robert Stuart, of the Astor Fur Company, the company being composed of John Jacob Astor, Robert Stuart and Ramsey Crookes. In the family of Robert Stuart, Rev. Mr. Porter awaited an opportunity of going over to the Sault, and while waiting preached at an evening service at Rev. William M. Ferry's church. On Thanksgiving Day, November 24, a small bark canoe, sent from the Sault by Mr. Schoolcraft for him arrived, with orders "not to return without Mr. Porter." A larger canoe, manned by Indians, had started previously, but overtaken by a snow-storm, and delayed until the provisions were eaten up, had returned to report to Mr. Schoolcraft. Hence the sending of this small canoe in charge of three French voyageurs with the above orders. ing that he could not wait to participate in public Thanksgiving services at Mackinac, he determined to reach the Sault as early as practicable, and so, with the three Frenchmen, and a negro on his way to an army officer at Fort Brady, and with a mess basket provided by his newly-found friend, Mrs. Robert Stuart, he set out in the morning for his destination. Something over three days and nights were occupied in the voyage, forty-five miles coasting on Lake Huron, and forty-five miles ascending St. Mary's River, rest-ing each night by camp fires on shore, and pitching their tent one of the nights in snow. At the foot of the falls they found the village and fort, but landed below both, at the United States Indian Agent's beautiful home. Breaking the ice to land, Rev. Mr. Por-

ter went directly to Mr. Schoolcraft's house, where he met with a most cordial welcome. Snow then covered the ground and did not disappear until April, 1832. The boat that carried Mr. Porter also carried up the last mail of the season, and mail was received but three times during the ensuing five months. At the Sault, Rev. Mr. Porter found a Baptist mission to the Indians in charge of Rev. Abel Bingham. Rev. Mr. Bingham with his family lived in the mission house and had a school troop from the season, which for the mission house and had a school-room for a place of worship for the Indians, and such Americans as chose to attend. Invited by Mr. Bingham, Mr. Porter preached in this school-room the first Sunday after reaching the Sault, to Indians, officers and soldiers. This was Sunday, December 4, 1831. Mr. School-craft soon had a store vacated, and fitted up with seats and a pulpit, and this building so transformed was used as a church. A Presbyterian Church was at once organized, composed of three men who had been members of Mr. Ferry's church at Mackinac, Presbyterians; Mrs. Schoolcraft, an Episcopalian, two of her sisters received on confession, and one Methodist woman. Mr. Porter and Mr. Bingham co-operated with each other in religious and moral work, and encouraged by the officers at Fort Brady, enjoyed a revival. Dancing which had been indulged in winters previous was given up. The Post Commandment with Mr. Schoolcraft took the lead in furthering temperance, and all the officers and their wives took the temperance pledge, except one family, and before spring all expressed conversion to Christ except this one Lieutenant and his wife. One officer and his wife united with Mr. Bingham's church, Most of the others united with the Presbyterian Church. spring of 1832, this church numbered thirty-three, and the Baptist Church about the same number. On account of the breaking out of the Black Hawk War in 1832, one of the companies of soldiers under Captain J. B. F. Russell, was ordered to join General Winfield Scott's army at Mackinac, on its way to Chicago. The Post Commandant, Major De LaFavette Wilcox, was succeeded by Major John Fowle, who in the spring of 1833 was transferred to Fort Dearborn, Chicago, and Mr. Schoolcraft was transferred to the Indian Agency at Mackinac. Thus Mr. Porter's Fort Brady church was broken up, by the removal of its members to other fields of duty, and Mr. Porter considered it his duty to accept the invitation of Major and Mrs. Fowle to accompany them to Chicago, leaving the few remaining members to unite with Mr. Bingham's Baptist Church. On the 4th of May, 1833, Major Fowle with his company and Rev. Jeremiah Porter, left Fort Brady, and spending one day at Mackinac, proceeded up the west shore of Lake Michigan to Chicago, perceiving on the voyage no human habitation between the two points except at Milwaukee, where lived Solomon Juneau, the trader of the American Fur Company, with his Indian wife. On Saturday, May 11, the schooner dropped anchor opposite the mouth of the Chicago River. On Sunday the lake was so rough and Mr. Porter so sea-sick, that he remained on board over that day, and until about noon on Monday the 13th, when he was rowed in the ship's long-boat to the mouth of the river, about a mile south of Fort Dearborn, up the stream, and around Fort Dearborn to the junction of the North and South branches of the river, and to Wattle's small tayern on the West Side. Here Mr. Porter met many of the business men of the village, who had come there to dine, as it was their boarding house, and among them John Wright, an account of his meeting with whom may be found in the history of the First Presbyterian Church. At this time there were about three hundred people in Chicago, many of whom had fled from the country during the war of 1832, to secure pro-tection in and around Fort Dearborn. Among these was P. F. W. Peck, who invited Mr. Porter to make his temporary lodging place and study in the unfinished loft of his two-story store, standing on the southwest corner of South Water and La-Salle streets, The first building in the rear of this store was the log house of Rufus Brown, where Mr. Porter found table board, From this time forward until Mr. Porter left Chicago, in September, 1835, his history is substantially that of the First Presbyterian Church for the same period (q. v.). In that month, having accepted a call to a small new church in Peoria, he immediately commenced his labors there. In the fall of 1837, Mr. Porter attended the Synod of Illinois at Springfield, and there preached the opening sermon, an anti-slavery one; the Rev. Dr. Gideon Blackburn, a venerable anti-savery one, the Rev. 18. Shaded black and father in the church, acting as a shield to the young preacher against a pro-slavery mob. When the Synod adjourned many of its members went to Alton on horseback, where they held an anti-slavery convention for the purpose of sustaining Lovejoy in warfare against slavery and for the freedom of the Press. After passing strong resolutions in favor of the objects for which Loveiov was fighting, the ministers, including Mr. Porter, returned to their homes. This was but a few days before the murder of Lovejoy by a pro-slavery mob. On the first Sunday subsequent to this murder, and doubtless sustained by the excitement consequent upon it, Mr. Porter preached twice to his congregation under a burning typhoid fever. For weeks afterward he was prostrated, and for some time

his recovery was doubtful. About the first of January, 1838, he removed to Farmington, Ill., where he remained two years, with nessing here as at Peoria a revival and numerous accessions to his church. During these years he labored in revival work with Revs. John Spalding, Flavel Bascom, and Lucien Farnham, at Peoria; J. J. Miter, at Knoxville, and George W. Gale and Horatio Foot, at Galesburg. Upon retiring from the church at Peoria, Mr. Porter preached the sermon at the installation of his successor, Rev. John Spalding. In 1840 he accepted a call to Green Bay, Wis., where four years before some of his early friends from Mackinac had been organized into a church. He arrived at Green Bay in the summer by way of Chicago and Mackinac. In the succeedin the stiminer by way of Cheago and Stakmat. In the Successing winter he was installed and remained pastor of the Presbyterian Church eighteen years. In 1840 the "Presbyterian and Congregational Convention of Wisconsin" was formed, composed of the churches of the two denominations. In 1858, after a happy pastorate of eighteen years in Green Bay, Mr. Porter asked this convention to dissolve his connection with his church, which request was granted against the wishes of the majority of his church. Attending the General Assembly at Chicago that year he was invited to become pastor of the Edwards Congregational Church. Here he labored until the breaking out of the war in 1861, observing the results of the city's progress during its first twenty-five years, as depicted in his historical lecture delivered before the Chicago Historical Society in 1850. Four of Mr. Porter's family, a son and three nephews, entered the Union army, and Mrs. Porter said that if she had a hundred sons, and they prepared to die, she would give them all for the cause of their country and freedom. In March following, Mr. Porter was appointed by Governor Richard Vates, Chaplain of United States Volappointed by Governor Kenard Vates, Chaplain of United States volunteers, in Colonel J. D. Webster's regiment, Chicago First Light Artillery, in which his son, James W. Porter, and one of his nephews had enlisted. Mrs. Porter thinking she could be more useful near the soldiers, left her place in the Chicago Sanitary rooms to Mrs. Hoge and Mrs. Livermore and went, in 1862, with Mr. Porter to Cairo. Here she ministered to the sick from Forts Donelson and Henry after Grant's first decided victories, and then aided in caring for the wounded from the battlefields of Pittsburgh Landing and Shiloh; among the latter one of her nephews. From Cairo Mr. and Mrs. Porter followed the Union army to Paducah, Ky., to Pittsburgh Landing, Tenn., to Corinth and to Memphis, where they spent the winter of 1862-63 and spring of 1863. A "convalescent camp" was established south of and in sight of the city, on the river bluff. Dr. Edmund Andrews, surgeon of Colonel Webster's light artillery, was one of the surgeons in charge. With his approbation Mr. and Mrs. Porter opened the first school for freedmen on the borders of the Mississippi River. Fort Pickering was, during that winter, a scene of much religious interest, Mr. Porter preaching regularly at the convalescent camp and occasionally at the batteries. As the army proceeded southward Mr. Porter accompanied it to Vicksburg, and after its capture was immediately installed chaplain in the city hospital, and being granted by General Logan the use of the Presbyterian church, preached therein until the spring of 1864, alternating with Chaplain Joseph Warren, D. D., who had been a missionary in India. He then, by order of General Webster, followed General Sherman in his marches toward Atlanta, Mrs. Porter being already with that army with sanitary stores and supplies. Mr. Porter joined her at Big Shanty. From Kenesaw Mountain Mr. and Mrs. Porter went with the wounded to Marietta, Ga., and remained there in the hospital until the fall of Atlanta. On the Sunday following Mr. Porter preached to the soldiers in hospital at Marietta from the words of David, asking so anxiously after his son Absalom, "Is the young man safe?" his own son having participated in the battle be-fore Atlanta, and no word from him having been received. He afterward heard of his safety and of the bravery exhibited by him in that battle. Chaplain and Mrs. Porter, instead of following Sherman to the sea, returned to Chicago, and in the following winter went to Washington to aid in urging President Lincoln to use all his official influence to have the sick and wounded Union soldiers in Southern hospitals sent north to recover or to die and be buried by their friends. While in Washington Mrs. Porter showed to Miss Dix, the earliest mover in the magnificent Sanitary Commission, two letters-one signed by five Confederate officers, the other by twenty Confederate soldiers—testifying to the uniform kindness with which they had been treated by Mrs. Porter, while sick in hospital at Marietta, Ga. Mr. and Mrs. Porter then set sail from New York for Savannah, reaching there ten days after that city had surrendered to General Sherman. Here they remained until Sherman started for Richmond, when they proceeded by water with General Webster to Wilmington, N. C., and thence to Goldsboro by rail, overtaking General Sherman at that point. They then went to a hospital on the coast at Newbern, remaining there in attendance upon the sick until the surrender of General Lee. Their work at the South being now accomplished, they took a small steamer through the canal to Norfolk, Va., thence to Alex-

andria and Washington. Logan's corps was then ordered to Louisville, Ky. Chaplain and Mrs. Porter, with others of the Saniisvine, Ky. Chaptan and Mrs. Forter, with Jones of the short tary Commission, reported for duty at that place, and after short and pleasant service once more in Kentucky, Mr. Porter was hon-orably mustered out at Springfield, Ill., July 31, 1865. After visiting among friends a few months, Mr. and Mrs. Porter were requested by the Sanitary and Christian Commission to proceed with sanitary stores, then at Chicago, to three regiments retained on the borders of Mexico to protect the border from any encroachments of France under its Mexican emperor, Maximilian. Arriving off the coast of Texas, ten miles from the mouth of the Rio Grande, they landed at Brazos St. Iago, and waited for a small steamer from Brownsville to take them to the Rio Grande and up the river to that city. In the night a "norther" struck this small steamer, and as a measure of safety it was driven ashore on the beach of Mexico. There was so little water on the beach that the vawl could not reach the shore, and the ladies on board had to be carried to the shore on the backs of the sailors. Such was Mrs. Porter's entrance into Mexico. This was at Bagdad. Crossing the river to meet the steamer which had succeeded in entering the the river to meet the steamer which had succeeded in entering the river's mouth, Mr. Porter found assembled at Clarksville some United States colored troops, whom he addressed. From that first religious service on the Rio Grande he proceeded on the steamer up the very crooked river one hundred miles to his destination, Erownsville, Texas. Mr. and Mrs. Porter and Miss Lizzie Garey, who had accompanied them from Chicago, went into camp at the Soldiers' Hospital, Mr. Porter preaching, and Mrs. Porter and Miss Garey teaching the colored soldiers in addition to their sanitary work. Mrs. Porter soon opened a school under the name of the "Rio Grande Seminary" for boys and girls, which had been started by Miss Matilda Rankin, as the Rio Grande Female Insti-

tute, some years before the war. In the spring of 1866 President Juarez, having taken and shot Maximilian, United States troops were no longer needed on the border, the Christian and Sanitary commissions recalled their agents, and Mr. and Mrs. Porter returned to Chicago, where a reception was given them at the Sherman House. That summer while visit-ing his old parishioners at Green Bay, Mr. Porter received a call to a vacant church at Prairie De Chien. This he desired to make his permanent home, but after different members of his family had located in business in different parts of the country, and his daughter had in 1868 gone to Pekin, China, as a missionary, he himself at the earnest solicitation of friends from Brownsville, Texas, returned thither, accompanied by Mrs. Porter to rebuild the church that had been demolished by a tornado, and to preach in place of Rev. Hiram Chamberlain, who had died in 1867; taking with them generous donations from Chicago to aid in that and other enterprises. In February 1869, the new brick church was dedicated. Mr. and Mrs. Porter remained in Brownsville except during the summer of 1869, he to preach and she to teach, until 1870, when he was appointed Post Chaplain, at Brownsville, U. S. A., and assigned by General Augur to Fort Brown. In addition to his outies as Post Chaplain Mr. Porter preached in the afternoon to a church of colored people organized by himself from among the colored people of Brownsville and Matamoras, Mexico, and whose church edifice was built by the Freedmen's Bureau at a cost of \$4,000. Porter remained actively engaged in the work of teaching until the school funds of Texas became available, when the schools in Brownsville became public schools, and she severed her connection therewith. In the winter of 1873 Mr. Porter was assigned to the Chaplaincy of Fort Sill in the Indian Territory. Here he remained until the winter of 1874, when Mrs Porter, who had here, as elsewhere, engaged in teaching, was suffering from an attack of malarial fever, and in order to regain her health, she accompanied by Mr. Porter, returned to Chicago, and again visited friends in Green Bay. Mr. Porter then returned to Fort Sill, leaving Mrs. Porter in Chicago, and in the winter of 1876 was ordered to report to General J. J. Reynolds for service at Fort D. A. Russell, Wyoming Territory. There in improved health Mrs. Porter joined him from Chicago. For four years Mr. Porter remained in active service at Fort Russell, maintaining regular services on Sunday, a Sunday Fort Russell, maintaining regular services on Sunday, a Sunday and a day school for children, and part of the time an evening school for soldiers. In November, 1876, Mr. Porter's daughter, Mary H. Porter, arrived at Fort Russell, from China, after an absence of nearly nine years. She remained at Fort Russell until the following March, when she proceeded to Chicago, her return to the United States being in quest of health. Mr. Porter obtaining leave of absence from his post, overtook his missionary daughter at Chicago, made visits to various prominent checators and private persons in the Fast to various prominent educators and private persons in the East, where Miss Porter by her report to the A. B. C. F. M., which ten years before had sent her to China, and by her representations of the condition and needs of the heathen in China, awakened renewed interest in missionary labor both in the East and the West. A reunion of Mr. Porter's family occurred in Beloit, Wis. in the spring of

1879, the first in twelve years. At this reunion were—Miss Mary H. Porter, whose health was sufficiently recovered for her to return to her missionary work in China, and Rev. Henry D. Porter, M. D., a son of Rev. Jeremiah Porter, who had also been a missionary to China for six years, and who had returned to America and was at this time married to Elizabeth, the eldest daughter of Dr. A. L. Chapin, president of Beloit College. After this reunion Mr. and Mrs. Porter returned to Fort Russell and soon after went to San Francisco on leave of absence to see Dr. Henry D. Porter and his wife depart therefrom to their missionary labor in China, their daughter having returned thither three months before. They remained in California fourteen months and in the autumn of 1880 returned to Chicago. Mr. Porter was on a leave of absence from the army until he was retired on the 30th of June, 1882, when all officers over sixty-four years of age were retired. Since then he has been seeking health, making his home with his son in Detroit. Both Mr. and Mrs. Porter were present at the semi-centennial celebration of the organization of the First Presbyterian Church in Chicago, in quite vigorous health. Rev. Mr. Porter was married June 15, 1835, at Rochester, N. Y., to Miss Eliza Chappel. They have had nine children, three of whom died in infancy—one in Peoria, Ill., in 1837; two at Green Bay, Wis., one in 1843 and one in Two others died in Chicago—Robert Otto, September 25, and Charlette Flizabeth October 31, 1859. The four living 1549. Two others died in Cincago—Acobert Otto, september 25, 1859, and Charlotte Elizabeth, October 31, 1859. The four living are as follows: James W., Edwards W., Henry Dwight and Mary Hauriet. Rev. Henry Dwight Porter, M. D., has been a missionary in China since 1872, and Mary Harriet since 1868.

REV. FLAVEL BASCOM, D. D., was born June 8, 1804, at Lebanon, Conn. His parents were Abiel and Sybil (Roberts) Bascom. His childhood and youth, until he was seventeen years of age, were spent upon a farm with such advantages for education as were afspent upon a tarm with such advantages for education as were attended by a rural public school. His preparation for college was under private instruction. He entered Vale College in 1824, and graduated with honor in 1828. For the next year he was principal of an academy in New Canaan. Conn., and then pursued his theological studies in New Haven, where, in 1831, he was licensed to preach. From 1831 to 1833 he was tutor in Vale College, and in the latter year cast in his lot with the "Yale Band," who had devoted themselves to Christian education and home evangelization in Illinois. In the summer of 1833 he arrived in Illinois under commission by the American Home Missionary Society, and spent five years in pioneer missionary work, mainly in Tazewell County. He then labored two seasons in northern Illinois, as Home Missionary Agent, exploring new settlements, organizing churches and introducing missionaries to new fields of labor. In December, 1839, he became pastor of the First Presbyterian Church of Chicago, was installed November 10, 1840, and remained pastor until December, 1849. He then accepted a call to the First Presbyterian Church at Galesburg, Ill., remaining there until 1856. After spending a year as agent of the American Missionary Association he became pastor of the Congregational Church at Dover. After serving that church seven years, he accepted an invitation to the pastorate of the Congregational Church at Princeton, where he remained until 1860. Thence he removed to Hinsdale, where for several years he was in charge of the Congregational Church. Since relinquishing this charge he has been almost constantly engaged in filling vacancies and aiding destitute and feeble churches. He has been one of the executive committee of the Illinois Home Missionary Society since it became an independent auxilliary to the A. H. M. S. in 1878; was one of the founders of the Chicago Theological Seminary, and is a member of the Board of Directors and Executive Committee: has been for twenty-five years a trustee of Knox College, and was one of the founders and one of the charter trustees of Beloit College, which institution in 1869 conferred upon him the degree of lege, which institution in 180g conferred upon him the degree of Doctor of Divinity. Mr. Bascom has been married three times. His first wife was Ellen P. Cleaveland, danghter of William P. Cleaveland, of New London, Conn. They were married April 30, 1833, and Mrs. Bascom died at Pekin, Ill., December 10, 1837. Mr. Bascom's second wife was Elizabeth B. Sparhawk, daughter of Dr. Jonathan Sparhawk, of Hartford, Conn., to whom he was married August 16, 1841. She died March 27, 1851, at Galesburg, Ill. He was again married on the 21st of June, 1852, to Ruth S. Pomeroy, daughter of Samuel Pomeroy, of Southampton, Mass., and sister of Hon. S. C. Pomeroy, of Kansas. His surviving children are three sons, two of whom, the children of his second wife are graduates of Beloit College, and one, the son of his present are graduates of Beloit College, and one, the son of his present wife, is a physician at Ottawa, Ill. Rev. Mr. Bascom, though in his eightieth year, is still able to meet the frequent calls made upon him to supply temporarily vacant pulpits in his vicinity.

Rev. Join Blatchford, D. D., was born May 24, 1796, at Newfield (now Bridgeport), Conn. His father was the Rev. Samuel Blatchford, a clergyman of note in his day, resident pastor in Bridgeport, then pastor of the associated churches of Lansingburgh, Waterford and Troy. When John Blatchford was eight years old his father moved to Lansingburgh, where he spent his

childhood. Great interest in his future was manifested by the Rev. J. Romeyn, D. D., and through the liberality of William, who supplied him with \$200 per year, his expenses at Cambridge Academy, Washington Co., N. Y., were paid. He entered Union College, at Schenectady, in 1817, and graduated therefrom in 1820. In the fall of the latter year he entered Princeton College, and after three years' study was licensed to preach by the Troy Presbytery. Immediately after being licensed he accepted a call to the Pittstown

Harford Cond

Presbyterian Church, in Rensselaer County, N. Y., where he remained until the spring of 1825. On the 20th of April of this mained until the spring of 1825. On the 20th of April of this year he accepted a unanimous call to the church at Stillwater, Saratoga Co., N.Y., where he remained until 1820, when he received a call from the Congregational Church at Bridgeport, Conn. to which place he removed in 1830. In this church he labored successfully for six years, and at the close of this period on account of the illness of his wife, he resigned his charge with a view to foreign travel. Instead of carrying out this plan, however, he turned his steps westward, and spent the winter of 1836-37 at Jacksonville, Ill. In 1837 he received a call to the First Presbyterian Church at Chicago, where he labored with great success, and satisfaction to the church until 1840, but his habitually intense application to the duties of his ministry produced brain fever, from the effects of which he never fully recovered. After retiring from the pastorate of this Church, he returned to the East, with the view to permanent residence there, and spent the winter of 1840-41, in Wheeling, Va., where he was warmly solicited to remain. From 1841 to 1844 he was connected with Marion College, first as Professor of Intellectual and Moral Philosophy, and afterward as President of the institution. After the purchase of the college by the Freemasons, he was requested to remain, but preferred to remove to West Ely, where in impaired health he remained until 1847, when he removed to Quincy. In his later years he was engaged in the enterprise of establishing a Presbyterian theological seminary for the Northwest, and at the time of his death was President of the organization for this purpose. His last discourse was preached in St. Louis, about three months previous to his death, and about two months before he was attacked by his last painful illness. He died Sunday, April 8, 1855.

THE SECOND PRESBYTERIAN CHURCH.—The preliminary steps to the organization of this church were taken May 5, 1842, on which date a meeting was held to decide upon the question of organizing it, with Rev. Robert W. Patterson as pastor. The organization was effected on Wednesday, June 1, 1842, with twenty-six members, and Mr. Patterson preached his first sermon to the new Church June 5, 1842, in the third story of the "City Saloon," which stood on the southeast corner of Clark and Lake streets. Services were held part of the time in the "Saloon," and part in the Unitarian church until in September, on the 13th of which month the society's new church building was dedicated, Mr. Patterson preaching the dedicatory sermon. On the next day Mr. Patterson was ordained. This church stood on Randolph Street, near Dearborn. It was a plain frame edifice and cost the society about \$1,600, the lot having cost from \$600 to \$800. The original society consisted of twenty-six members as follows: Mr. and Mrs. William H. Brown, Mr. and Mrs. Thomas B. Carter, George W. Dole, Mrs. A. N. Fullerton, Mrs. Sarah Gage, Mr. and Mrs. John High, Mr. and Mrs. John W. Hooker, Captain and Mrs. Seth Johnson, George W. Merrill, Flavel Moseley, Mr. and Mrs. Benjamin W. Raymond, Mr. and Mrs. Charles R. Starkweather, Mrs. Ann E. Webster, Sylvester Willard, M. D., Mr. and Mrs. John C. Williams, Mrs. John Wright, John S. Wright, and Miss Frances S. Wright. The Church was organized by a committee of the Presbytery of Ottawa, consisting of Rev. Flavel Bascom and Rev.

George W. Elliott. On the same day Benjamin W. Raymond, William H. Brown and Sylvester Willard were chosen elders and Rev. Robert W. Patterson was called to the pastorate. He remained with the Church until 1873. The following extract from the pen of Hon. William Bross is instructive and interesting, showing the condition of the Church, and giving a description of Mr. Patterson in 1846:

"It was just after having taken his breakfast in Chicago, when a tall young man, made apparently taller by a cloth cloak, in which his gaunt figure seemed in danger of losing itself, and whose reserved, modest manners, were the very reverse of what we had had expected to find at the West, called on the clergy of our party and invited one of them to preach and the rest of us to attend services in the Second Presbyterian Church. That cloak would now be well filled by its owner, the Rev. Dr. Patterson, who has grown physically as well as intellectually and morally, with the growth of the city, to whose moral welfare, he has so largely contributed. Of course we all went to what by courtesy, as we thought, was called a church. It was a one-story, balloon, shanty-like structure, that had been patched out at one end to meet the wants of the increasing congregation. It stood on Randolph Street, south side, a little east of Clark. It certainly gave no promise of the antique but splendid church that before the fire stood on the corner of Washington Street and Wabash Avenue, or that still more elaborate and costly building, the Rev. Dr. Gibson's church, at the corner of Michigan Avenue and Twentieth Street."

The "antique but splendid church that before the fire stood on the corner of Washington Street and Wabash Avenue," was dedicated January 24, 1851. The corner-stone was laid with imposing ceremonies in 1849. At this time some enthusiastic persons predicted that the church would stand one thousand years, to which it was replied by some one equally enthusiastic as to the growth of the city of Chicago, that it would be displaced by business within fifty years. In a trifle over twenty years it was destroyed by the great fire. At the time of its completion this church was the most imposing and inviting church edifice in the city, but it was thought to be too far out of town. It was soon provided with a superior bell and a fine organ, and when the whole enterprise was accomplished, the congregation was left without any considerable debt. The architectural designs were by John M. Van Osdel. The building was seventy-three feet wide by one hundred and thirty feet long. There were two entrances; the main entrance on Wabash, the other fronting the public square on Michigan Avenue, at the east end of the building. The first floor contained a session-room and the second story a semi-circular lecture-room. The south side of the building faced Washington Street. The interior was lofty, the walls being fifty feet high. There were galleries along the sides and a gallery for the choir and organ facing the pulpit. A clock was erected in the church. The cost of lots, edifice, bell, organ and clock, was about \$50,000, and of the edifice alone about \$40,000. The body of the church would accommodate eighteen hundred persons, and was lighted by stained glass windows. Immediately after the organization of the society, a weekly prayer meeting was established, which was for a long time attended by a number equal to the entire membership of the church, and was evidently largely tributary to its success. Communion services were regularly held once in two months, and at each communion, with only two exceptions, during the first twenty-five years of the Church, accessions were made to the membership. Generally these were the result of quiet influences, but there were several seasons of special religious revival, when there were exceptionally large additions to the roll. These revival seasons were in the springs of 1847-50-52-55-58 and in 1864. That of 1858 was of especial interest, there having been large numbers, of converts both among the adults and

children of the congregation. During the first twentyfive years there were added to the Church nine hundred and nine members, three hundred and thirty-nine of whom were by profession of faith, and five hundred and seventy by letter. Previous to 1858 the additions by letter were considerably more numerous than those by profession. During the year 1842, in addition to the twenty-six original members, seventeen others joined, making a total membership for the first year of fortythree. Up to 1857, inclusive, there were only three years in which this number was exceeded, viz.: 1843, 1850 and 1852, when there were added fifty-seven, fortysix, and sixty-four respectively. In 1844, forty-three joined the society. The smallest number added in any one year was nineteen, in 1857. The total number added from 1842 to 1857 inclusive was five hundred and eighty-seven, and the average number added annually for the sixteen years was nearly thirty-seven. In 1843, Dr. Willard removed from the city and on April 5 John C. Williams and Captain Seth Johnson were elected elders. On the removal of Captain Johnson from Chicago, Thomas B. Carter was chosen; April, 1848, J. Ambrose Wight was elected, and in April, 1856, when Mr. Wight was ordained a minister of the gospel, three additional elders were elected, Reuben D. Jones, Elihu Baker and Devillo R. Holt, after which there were no further changes in the session until 1862.

THE THIRD PRESBYTERIAN CHURCH.—This Church was organized July 1, 1847, with thirty-five members. The first action was taken in February preceding, when a meeting was held at the house of Lawrens Kent. At this meeting Thomas Cook, a member of the First Presbyterian Church, offered to the new organization a lot on Desplaines Street, the proceeds of which when sold should be devoted to this purpose, provided the new church should be Presbyterian in polity. It was suggested by Rev. J. B. Walker, as an additional reason for the new Church being Presbyterian rather than Congregational in character, that as the former it would be more likely to receive assistance and sympathy from other Presbyterian churches here. At a subsequent meeting at which were present officers and leading members of the First and Second Presbyterian churches, a subscription paper was prepared of which the following is a copy:

"The subscribers hereto agree to pay the sums affixed to their respective names, for the purpose of building a Presbyterian church on the West Side of the Chicago River, to be under the pastoral charge of the Rev. J. B. Walker."

By the circulation of this paper and by donation, \$1,530 was raised, \$896 of which was subscribed and paid by members of other Presbyterian churches, \$196 by those who afterward joined the First Congregational Church; \$124.50 by those who continued to be members of the Third Presbyterian Church, and \$313.35 by members of other denominations and by persons not members of any Church. Formal organization was effected by a committee of the Ottawa Presbytery, consisting of Rev. R. W. Patterson, Rev. Flavel Bascom, Rev. J. B. Walker, Rev. J. Wilcox, and Rev. Mr. Henderson. There were thirty-five original members, among whom were Philo Carpenter, Henry Smith, Lawrens Kent, Gustavus W. Southworth, Henry McArthur, Mrs. Ann Carpenter, Miss Augusta Kent, Mrs. Lawrens Kent, Mrs. G. W. Southworth, Dr. Eriel McArthur, Mrs. Harriet McArthur, Mrs. Mehitable Graves, Mrs. William Stow, Mrs. Sarah Saltonstall, Mrs. Sarah Aiken, John Sheriffs, Mrs. Sarah Sheriffs, Mrs. James Curtiss, Nathaniel Norton, Mrs. Sally Ann Norton, Nelson Mason, Mrs. Desire E. Mason, and others. Philo Car-

penter, Henry Smith, Lawrens Kent, and Gustavus W. Southworth were chosen Elders. A small frame building standing on Union Street, between Washington and Randolph, together with the lot upon which it stood, was purchased for the sum of \$1,322 47, and the house of worship dedicated on Sunday, July 4, 1847, Rev. J B. Walker preaching the dedicatory sermon. From this time until November, 1849. Mr. Walker remained the regular supply of the Church, but was never installed. In this month a call was extended to Rev. Lewis H. Loss, of Rockford, to become the pastor of the Church. Mr. Loss preached his first sermon on the second Sunday of November, 1849, and was regularly installed by a committee of the Presbytery of Chicago, May 12, 1850. It was during his pastorate that the difficulties hereafter detailed with reference to the relations of the Church to the General Assembly arose and culminated, resulting in a division of the Church, and in the dissolution by the Presbytery of the pastoral relations between him and the Church June 10, 1851. Mr. Loss was succeeded by Rev. Edwin G. Moore, a licentiate of the Presbytery of Franklin, Ohio, in the following October. Being regularly called to settle as pastor on November 5, 1852, he was installed on the 14th of the same month. On account of the troubles arising out of former differences not having subsided, Mr. Moore's pastorate was short. He resigned in the autumn of 1854, and in the spring of 1855 was succeeded by Rev. Mr. Ferris, of the Dutch Reformed Church, son of Chancellor Ferris, of New York, who supplied the pulpit until the call of Rev. Asahel L. Brooks to the pastorate. Mr. Brooks was installed June 12, 1856, and remained until November 17, 1859, when his ministry was closed at his own request. Mr. Brooks was an active, earnest man, and while the Church was under his charge, its membership rapidly increased. A summary of the results of his labors will be found in the second volume of this

The first church building, already mentioned as having been dedicated July 4, 1847, during its early history stood in a cornfield. It served its purposes until 1858, when a new building was completed at the northwest corner of Washington and Carpenter streets. During the progress of the work on this edifice occurred the panic of 1857, which well-nigh prevented its completion. Business failures were numerous. Many of the principal members of the church found it impossible to redeem their pecuniary pledges, and a meeting of the trustees decided to discontinue the work; but through the efforts of Elder William Osborne this decision was reversed, and the building was completed in 1858. In order to carry the enterprise through, great individual sacrifices were made. Sanford Johnson, not then but afterward a member of the Church, mortgaged his house for \$2,000 to supply necessary means. the church members five stood firm through all the troubles, and bore the principal part of the financial burden-William Osborne, Sylvester Lind, D. J. Lake, Jacob Beidler and Nathaniel Norton. The church cost \$50,000. It was built of Athens stone. The walls were rock-faced and the towers and trimmings of dressed stone. The main tower, steeple and spire were models of taste and symmetry. The audience-room was spacious, admirably arranged and neatly and comfortably furnished. A fine organ was put into the church and it had a superior choir.

Early in the year 1850, during the pastorate of Rev. Lewis H. Loss, a division of sentiment manifested itself among the members with reference to fellowship-

ping with slaveholders, which finally led to a schism, and to the organization of the First Congregational Church. This movement, so far as it relates to the ecclesiastical history of Chicago, was so peculiar to itself, so entirely unique and important, that a detailed account of it is required in order to set forth its true character. For many years the New School Presbyterians, or at least the Congregationalists scattered through the New School Presbyterian churches of the North, had felt dissatisfaction with the attitude of the Presbyterian Church toward American slavery. They were desirous that the Church should take strong ground against the institution, and they were urgent for the General Assembly, which met at Detroit in 1850, to give them relief by emphatic denunciation of the system, and by such action as should disfellowship all slaveholders and slave-dealers. When the General Assembly met, however, its utterance on the subject was so equivocal as to cause wide-spread disappointment. The majority of the members of the Third Presbyterian Church of Chicago keenly felt the inconsistency of the position of that Church, arising out of its connection with the General Assembly, and were anxious that it should assume an attitude consistent with their convictions of duty and truth. During the year 1850 this question was uppermost in their minds. Numerous meetings were held to discuss it. At one of these meetings, held at the First Presbyterian Church for the purpose of appointing delegates to a "Christian Anti-slavery Convention," to be held in April, in Cincinnati, Philo Carpenter was appointed delegate to the Cincinnati Convention, and a series of five resolutions was passed, the principal ones, for the purpose of this History, together with the preamble, being as follows:

"Whereas, Having seen with deep solicitude and regret, a disposition in some of the judicatories and boards of our churches, to recede instead of advance, from the position taken by them in years past; and that in order to carry forward the benevolent reforms in which God has called His people of this age to engage, against the open and covert opposition which all efforts to expel sin from the world and the Church, will meet vigilant, concerted and prayerful effort is necessary-therefore,

"Resolved, That while we rejoice in the progress of free principles in connection with civil institutions of our country, and among the masses of the people, yet there is reason to fear that slavery, driven from favor in the State, may find apology and peace for its abominations in ecclesiastical judicatories and in the churches of Christ; and that in view of such indication every Christian should maintain firmly the ground assumed in the past progress of the anti-slavery reform, and continue to advance, trusting in Christ, to the point where the demon of slavery shall be expelled from

confidence and communion in our churches.

5. "Resolved, That when the judicatories and boards of our churches refuse to apply the laws of Christ's house to those who hold their fellow-beings in bondage; when their action recognizes those as in good standing who voluntarily hold and treat men as property; when such organizations tend rather to prolong, than to destroy the existence of slavery; in such circumstances it is the duty of those who support these organizations immediately to reform them, and if efforts to reform have proved hopeless, duty to Christ, the Divine Reformer, requires that Christians should cease to co-operate with those whose measures tend to sustain rather than remove a system, the principles and practices of which are in direct hostility to that Gospel which we are required to love and propagate in the world."

The series of which these two resolutions formed a part was moved by Samuel Brooks, and seconded by Rev. Lewis H. Loss, pastor of the Church. At the Cincinnati Convention, held in due time and attended by Philo Carpenter as delegate from the Third Presbyterian Church, the following resolution was passed:

"That the friends of pure Christianity ought to separate themselves from all slave-holding churches, and from all churches, ecclesiastical bodies, and missionary organizations, that are not fully devorced from the sin of slave-holding; and we who may still

be in connection with such bodies, pledge ourselves that we will, by the aid of Divine grace, conform our action in accordance with this resolution, and come out from among them, unless such hodies shall speedily separate themselves from all support of, or fellowship with slave-holding.

This resolution had considerable influence on the members of the Church, whose sentiments were in accord therewith. Throughout the remainder of the year the question of the propriety of dissolving all connection with the General Assembly was industriously discussed. In July a meeting of the Session was called, but a quorum not being present, no action was taken. On August 12, a full meeting of the Session was held, and the subject fully discussed, when it was found that the pastor and three of the five elders regarded the proposed action as unscriptural and unwise. This result caused great dissatisfaction to the remaining two elders, and also to a majority of the Church members. In November a call was signed by many of the ministers, among them Rev. L. H. Loss, and members of the Presbyterian and Congregational churches, for a convention to be held at Peoria, November 21, with the view of uniting the New School Presbyterians and Orthodox Congregationalists into an organization for the State of Illinois. The fourth article of this call was as follows:

"4. But above all it will deliver those of us who are Presbyterians from our ecclesiastical connection with slave-holders, through the General Assembly and enable us to withdraw Christian fellowship from them without incurring the charge of violating ecclesiastical constitution by so doing.

But nothing was done beyond the expression of sentiment until about the 1st of December, when a meeting called at his request was held at the pastor's house. At this meeting the subject of the relations of the Church to the General Assembly, and through that to slave-holders, was introduced and the views requested thereon of each member present. A large majority was in favor of severing all connection with the General Assembly and of uniting with some ecclesiastical bodies having no sympathy with slavery. To this bold and extreme measure the pastor and a portion of the members could not yield their assent. While not averse to a united movement in northern Illinois for the establishment of an ecclesiastical convention distinct from the General Assembly, provided such a convention could be formed without producing discord and division, they could not conscienciously participate in a movement of secession from the General Assembly, such movement embracing only their own individual Church. This the pastor characterized as an attempt to "rend the body of Christ," and not a scriptural remedy for the evils which all acknowledged to exist. Thus the two portions of the Church were brought into open conflict. This was the beginning of the schism, and the subject was thus fairly introduced into the Church. A series of meetings resulted for the further discussion of the ecclesiastical relations of the Church. A majority of the members favoring and a minority opposing withdrawal. At a meeting held February 3, 1851, the following resolutions were passed:

1. "Resolved, That this Church holds, in the language of Scripture that, 'God hath made of one blood all the nations of the

2. "Resolved, That chattel slavery is blasphemous toward God, inhuman and cruel to our fellow-men, and that Christians are especially called on to discountenance it, and have no fellowship with

those who participate in its abominations.
3. "Resolved. That this Church are dissatisfied with the present condition of our General Assembly on the subject of disciplining those guilty of holding their fellow-men in bondage: That their last acts at Detroit have been construed to represent black or white, as suited the different sections of the Church.

4. "Resolved, That this Church, so long as this vacillating policy is pursued, hereby declare their determination to stand aloof from all meetings of Presbytery, Synod and Assembly, and thus as they believe free and relieve themselves of all responsibility.

At the time these resolutions were adopted there was a resident membership of sixty-eight. Seventeen, about two-thirds of those present at the meeting, voted for the resolutions, and afterward twenty-five other members approved of them by subscribing their names thereto. The minority of the Church now thought it time to apply a constitutional remedy, if such existed. Accordingly the day following a complaint to the Chicago Presbytery was circulated by the pastor and others, among those members of the Church who had not been present at the meeting of February 3d. The nature of this complaint seems not to have been sufficiently explained, and so was signed by a considerable number under a misapprehension of the end to be attained. And although it was explained by the pastor when furnishing a list of the names signed to the complaint, by his saying; "I suppose the signers gave their names as petitioners to Presbytery only, and therefore we have no right to use them in any other way," still the complaint was used as such, and the Presbytery met to consider the difficulties therein set forth. The Presbytery was composed as follows: R. W. Patterson, pastor of the Second Presbyterian Church, moderator; H. L. Curtis, pastor of the First Presbyterian Church; L. H. Loss, pastor of the Third Presbyterian Church, J. Wilcox, W. Y. Miller, Ira M. Weed, R. W. Downs, E. Clark, delegate from First Presbyterian Church; B. W. Raymond, delegate from Second Presbyterian Church; Philo Carpenter, delegate from Third Presbyterian Church, and Mr. Marsh, delegate from the Joliet Presbyterian Church. After discussion and deliberation, the following report was adopted:

"The Presbytery regard the action of the Church in introducing and acting upon matters not embraced in the call, as irregular, inasmuch as such action conflicts with the established usages of all

organized bodies.

2. "Presbytery regards the fourth resolution of the series complained of, as although not intended by all, at least, who voted for it, to be an actual and absolute secession from the Presbyterian Church, nevertheless necessarily involving such secession in its actual working, and therefore subverting the constitutional rights of those in the Church who dissented from said resolution and wished to continue in their former connection, inasmuch as it prevents their being represented in Presbytery or Synod, and withdraws them from the supervision, advice and counsel, and, if need be, judgment of said bodies, in case of difficulty or wrong done them by their brethren. For these reasons the Presbytery are of the opinion that said fourth resolution should be rescinded, and to this end direct the Session to call a public meeting of the Church for that purpose at their earliest convenience.

In obedience to this order of the Presbytery the Church held a meeting on the 10th of March, to consider the question of rescinding the resolution. motion to rescind was set aside by the adoption of a resolution, offered by Philo Carpenter, "that the whole subject be deferred until after the next meeting of the General Assembly." This resolution was sustained by all who voted for it on the ground that the General Assembly would meet in a few weeks, and that, if at its next meeting it should take action on this subject satisfactory to them, they would then rescind the resolution, otherwise they would let it stand and abide the consequences. The minority regarded this action of the majority as a direct refusal on their part to be governed by the constitution of the Church and the requirements of the Presbytery, whose injunction they were solemnly bound as Presbyterians to obey, "so long as it involved nothing contrary to the word of God." But this was the very point upon which the majority and minority differed,

the former firmly believing that to fellowship with slaveholders and thus, even indirectly, to countenance the great crime of slavery was "contrary to the word of God," and they preferred to obey the word of God rather than the Presbytery and the constitution of the Presbyterian Church, when in their judgment there was

a plain conflict between the two.

A joint meeting of the Session and trustees was then held, which appointed a committee to consult with R. W. Patterson, Moderator of the Presbytery, as to the propriety of convening that body to consider the pastoral relations of Rev. L. H. Loss to the Church, and the difficulties arising therefrom. The request not being properly signed, the meeing was not called. A few days thereafter a meeting of the Presbytery was called, to be held in the Third Presbyterian church, "to investigate the difficulties in said Church, and to take such order thereon as the interests of the Church may seem to require; also to consider the expediency of dissolving the pastoral relations." At this meeting the report of a committee, consisting of H. Curtis, W. R. Downs and W. Y. Miller, appointed for the purpose of drafting it, was adopted. After reciting the causes which led to the difficulties, the report concluded as follows:

"And whereas, at a meeting of the Church called in pursuance of the above direction, a majority of those present did refuse to reverse their previous action, but, on the contrary, expressed their determination to abide by such action unless certain definite and prescribed action be adopted by the General Assembly. And whereas, it is manifest that this Church cannot remain together with edification to its members, or with advantage to the cause of Christ; therefore, in order to prevent further strife and reproach to religion, it is desirable that an amicable division of the Church and its property be effected. The committee would therefore recommend the appointment of a committee to confer with members of the church in order to effect such a division.

I. M. Weed, H. Curtis and B. W. Raymond were appointed the committee, and as such conferred with the members of the Church. The question asked each was, "Are you, under existing circumstances, in favor of a division of this Church at this time?" The majority of the members were opposed to a division. The committee reported to the Presbytery, expressing therein their opinion that there was no hope of effecting an amicable division. The Presbytery thereupon feeling constrained to afford relief to that portion of the Church which adhered to them and to the constitution of the Church, adopted the following resolutions:

"WHEREAS, Several members of this Church have passed a resolution involving secession from the constitutional Presbyterian Church of the United States; And whereas, such members have neglected at the direction of the Presbytery to rescind said resolutions; and whereas, all efforts to secure an amicable settlement of the difficulties existing in said Church by a division mutually agreed upon have failed, therefore

"Resolved, That those members of this Church who voted for said resolution, did, thereby, and by subsequently neglecting to rescind said resolution, disqualify themselves to act as members of the Presbyterian Church, and can no longer be recognized as such,

while retaining their present position.
2. "Resolved, That the Session, consisting of the pastor and those elders who did not vote for the resolution referred to, immediately inform those who have thus separated themselves from the Church, that if any of them still wish to walk in fellowship with this Church under the constitution of the Presbyterian Church, that wish shall be granted.

3. "Resolved, That all who do not express such wish within two weeks, be regarded as adhering to their previous action, and the Session be directed to strike their names from the roll of the

Church.

By reference to the first of these three resolutions it may be seen that it was only those who voted for the obnoxious fourth resolution of February 3 whose names were to be stricken from the Church roll, so that only a

minority of the members were thus summarily excomnumicated. Those who subscribed to it were given certificates of "good and regular standing," and letters of dismissal to enable them to join any Church of their choice. The reason for making this distinction was that the Presbytery, when directing the names of the voters for the resolution to be stricken from the rolls. had before them in the Church records full official evidence of what they had done, but not of the act of those who privately signed the resolutions.

In this connection it is proper to introduce the following paragraph from a history of the difficulties published in 1852, by the Third Presbyterian Church:

"The Presbytery were fully aware that this mode of dropping the names of seceders is not provided for in the constitution. So stitutions never provide for revolutions. But they followed a multitude of precedents which have been furnished in similar cases elsewhere. And the Session of the Church, in dropping the names of those who voted for the resolution in favor of secession only completed the unpleasant work which had been forced upon the Presbytery and upon them by the disorderly and disorganizing procedure of their brethren."

Thus was the schism consummated, and the Third Presbyterian Church left in an enfeebled condition and with a clouded prospect for the future. The names of the members remaining faithful to the constitution and discipline of their Church were the following: Gustavus W. Southworth, Mrs. Susan Southworth, Mrs. Mehitable Graves, Lawrens Kent, Mrs. Lawrens Kent, Miss Augusta Kent, Dr. Eriel McArthur, Mrs. Harriet McArthur, Miss Caroline McArthur, Miss Rhoda McArthur, Nathaniel Norton, Mrs. Sally Ann Norton, Nelson Mason, Mrs. Desire E. Mason, R. W. Downs, Mrs. Lydia E. Downs, Mrs. Henry Witbeck, Mrs. William Stow, Mrs. Sarah Aiken, Gilderoy McArthur, Miss Sarah McArthur. There were five others, whose names cannot now be ascertained.

THE WESTMINSTER PRESBYTERIAN CHURCH.-Some time during the year 1853, certain members of the First and Second Presbyterian churches thought that the necessities of Chicago required the organization of a New-School Presbyterian Church on the North Side, and in view of such proposed organization a few of the parties interested united and purchased a lot on Ohio Street, between Dearborn and State, fronting south, and eighty feet in width. Overtures were made looking toward the securing of the services of a minister to inaugurate the enterprise, but nothing took definite shape until in 1855, when the Rev. Ansel D. Eddy, D. D., of Newark, N. J., being in Chicago on a visit to a daughter, looked over the field, conversed with members of other churches, and with the pastors, and it was decided to organize. Accordingly a meeting was held at the house of B. W. Thomas, 206 Illinois Street, in July of that year, and there the necessary steps were taken. The two first elders elected were Colonel Smith, from the Second Presbyterian Church, and W. W. Evarts, who had recently come to the city. Subsequently, but during the same year, Horace F. Waite was chosen Elder. The original members were Colonel Henry Smith, Mrs. Henry Smith, Miss Phebe Smith, Mr. and Mrs. W. W. Evarts, Miss Sophia Evarts, afterward Mrs. Rev. S. E. Wishard, Mr. and Mrs. B. W. Thomas, Mrs. Mary E. Wilcox, Edward P. Wilcox, Mr. and Mrs. George Gee, Mr. and Mrs. Elijah Smith, Mrs. Nancy Pitkin, Miss Louisa R. Pitkin, Mrs. Andrew J. Brown, and a few others. Among the first who joined the church after its organization were Mr. and Mrs. Horace F. Waite. The Session of the Church was constituted of the three elders already named, to which were subsequently added Henry W. King, J. McGregor Adams,

Dr. F. Crumbaugh and Oliver H. Lee. Under the ministry of Mr. Eddy the Church made gratifying progress as regards additions to its membership, both by letter and by profession, and there united with the church some who are now well known as Presbyterians in the city: Mr. and Mrs. Henry W. King, Mr. and Mrs. Benjamin G. Page, Mr. and Mrs. William Springer, all from the Second Presbyterian Church. At first meetings were held in the lecture-room of Rush Medical College, which arrangement continued until about 1858. Some time during 1856, the lot that had been purchased on Ohio Street was exchanged for what is now known as the old Westminster lot, having one hundred and ten feet front on Dearborn Street, and one hundred and twenty-five feet depth on Ontario. A contract was entered into for the erection of a very large and expensive house of worship, the foundations of which were laid; but the panic of 1857 intervened, the subscriptions that had been procured, and which were only partially sufficient to carry the enterprise forward to completion, were found to be unavailable, and it was deemed inexpedient to attempt to proceed with the erection of so expensive an edifice. The foundations already up some feet were sold, and a small frame building was erected on the south side of the lot, capable of accommodating about two hundred and fifty persons. Rev. Mr. Eddy continued the pastor about three years, when he resigned, and the Church was without a pastor for a considerable time. But religious services were generally held on Sunday and always on Wednesday evening. The Sunday school was continued during the vacancy in the pulpit, which was, however, occasionally occupied by strangers visiting the city until October 14, 1858. At that time Rev. William H. Spencer came to this Church from the Presbytery of Rock Island, and continued to supply the pulpit until his death, February 17, 1861. During the period of his services as pastor the Church was converted into a parsonage, and a frame building erected on the corner of the lot on Dearborn and Ontario streets, under the mechanical direction of Asher Carter. Although this was an inexpensive building, it was a model for convenience and comfort. After the death of Mr. Spencer, the Church was again without a pastor until December 13, 1861, when Rev. E. A. Pierce, having a short time previously come to Chicago as a licentiate from the seminary, was ordained and installed. Mr. Pierce remained until December 22, 1865, when he received a call from Calvary Church, Chicago, and resigned his pastorate over Westminster. Under his charge the Church was blessed spiritually and materially. Church was now for the third time without a pastor until in the spring of 1866, when Rev. David Swing was called. The call was accepted, and Mr. Swing was installed pastor September 27, 1867, continuing as such until February 6, 1871, when the relation was dissolved as one of the steps preparatory to a union of the North Presbyterian Church with this Church, the union being effected on the date last above mentioned, and the new Church named the Fourth Presbyterian Church of Chicago. During Rev. David Swing's ministry the Westminster edifice was again enlarged. union of the two churches, the united Church was called the Fourth, taking the number four which Westminster would have taken had it been numbered when organized instead of being called Westminster. Upon the union of the two churches, the united Church moved to the North Presbyterian building, corner of Cass and Indiana streets, in which it continued to worship until the building was destroyed by the great fire. Westminster stood until that time unoccupied, when it was also destroyed. A Sunday school was organized soon after the founding of the Church, but it is difficult to ascertain who performed the duties of superintendent previous to 1858. Probably it was W W. Evarts. Henry W. King was elected superintendent in 1858, and under his direction, which terminated in 1862, upon his removal to Pennsylvania, the school was very successful. He was succeeded by Oliver H. Lee, who remained until the organization of the Fourth Presbyterian Church.

THE NORTH PRESBYTERIAN CHURCH. O. S. -In the month of May, 1848, the initiatory steps were taken toward the organization of this society. The first services were held Sunday, May 28, in the hall of Rush Medical College, in accordance with the following notice published in the newspapers of Saturday, May 27:

"Divine service according to the usage of the Presbyterian Church may be expected to-morrow and every Lord's Day until further notice at 10½ o'clock A. M., and 2½ o'clock P. M., in the hall of the Medical College, Dearborn Street. Preaching by the Rev. R. H. Richardson."

Religious services were continued in the college building until in the fall of the same year, when their first house of worship was erected. The Church was organized Sunday, August 6, 1848, with twenty-six members, among whom were Mr. and Mrs. O. M. Dorman, Mr. and Mrs. Clark Runyon, Mrs. Lucy Fitch Williams, Miss Lucy Maria Williams, Mrs. C. S. Wadsworth, Mrs. Jonas Clark, Mrs. Mindwell W. Gibbs, Miss Doggett, Mrs. Dr. Blaney, Derastus Harper, Mrs. R. J. Hamilton, Cyrus H. McCormick and others. During the fall of 1848, a neat edifice, in the Gothic style of architecture, was erected at the corner of North Clark and Michigan streets, at a cost of \$2,000. It was a small frame structure, with a "pepper-box" steeple, and was sold in 1852, when there was erected a similar but somewhat larger building, at the southwest corner of Illinois and Wolcott (State streets, fronting north. This edifice cost originally about \$3,000; was afterward enlarged, and finally sold at the time of the completion of the large new brick church at the corner of Indiana and Cass streets, which was dedicated about February 21, 1861. The main tower of the latter building was twenty-four feet square at the base, one hundred and four feet high, and was surmounted by an octagonal spire ninety feet high. The turret on the opposite corner was sixteen feet square and one hundred feet high. The building was seventy-one feet wide by ninety feet long, fifty-two feet high in the center and thirty-eight feet at the sides. The main audience-room would seat one thousand and one hundred persons. The lecture-room in the basement was forty-two by sixty feet, and there were in the basement in addition class-rooms, pastor's study, ladies' parlor, etc. style of architecture of this church was the Romanesque, and it was furnished with an excellent organ.

Rev. R. H. Richardson was ordained and installed pastor of this Church November 19,1848, by the Presbytery of Peoria. He remained until April 11, 1856,

Al Lela. Fra

and was succeeded by Rev. R. A. Brown, who was ordained and installed December 14, 1856. Mr. Brown resigned July 21, 1857, after which there was no regular pastor until the installation of Rev. Nathan L. Rice, D. D., October 20, 1858.

NATHAN L. RICE, D.D., was born near Bardstown, Ky., and won a national reputation in his famous debate upon "Baptism," at Lexington, Ky., with Rev. Alexander Campbell. Dr. Rice was soon afterward called to the Central Presbyterian Church, Cincinnati, Ohio, where he remained several years, when he succeeded the eminent Dr. Potts at the First Presbyterian Church, St. Louis, the eminent Dr. Potts at the Puss (Plassyream) classes.

Mo. In 1858, on account of his great ability, and at the advice of Cyrus II. McCormick, he was induced to come to Chicago and accept the pastorate of the North Presbyterian Church, to the majority of the members of which he was acceptable. The Rev. Dr. accept the pastolate of the Assaurance of the Rev. Dr. Rice remained with this Church until 1861, in April of which year he resigned in consequence of a call to the pastorate of a Presbyterian Church in New York City, left vacant by the death of Dr. Alexander.

The Rev. Dr. Gurley, of Washington, D. C., was then called, but did not respond, and the Church was without pastoral direction until November, 1862, when Rev. J. B. Stewart was called and immediately entered upon his labors. He remained pastor-elect for nearly two years but was never installed. He was succeeded in November, 1864, by Rev. David X. Junkin, D. D., who was installed on the 13th of the month. The pastoral relations between Rev. Mr. Junkin and the Church were dissolved May 1, 1866. Rev. D. S. Marquis was then called, July 18, 1866, and shortly afterward installed. Mr. Marquis remained with the Church until November 22, 1870, when he resigned, being the last pastor of the North Presbyterian Church. In February, 1871, in accordance with wishes of members of this Church and the Westminster Church, the Presbytery of Chicago consented to a union, and named the united Church the successor of these two churches, the Fourth Presbyterian Church of Chicago.

During the progress of the Civil War, differences of opinion developed among the members as to the attitude the North Church should maintain with reference to slavery, and various other questions relating to the conduct of the war. Harmony having departed, it was thought advisable by a large portion of the members to withdraw and to organize a new Church in which there would be greater unanimity of opinion with regard to the political issues of the times. These differences culminated in the early winter of 1864-65, and led to the organization of the Central Presbyterian Church, the members of which were more radically in sympathy with the United States Government in the early suppression of the rebellion against its authority, leaving in the North Presbyterian Church those members who were more conservative in their views. The Sunday school in connection with the North Presbyterian Church was usually very largely attended. One of its first superintendents was Charles A. Spring, a brother of Rev. Gardner Spring, D.D., of New York. He was succeeded, in 1854, by John Woodbridge, who was superintendent continuously for ten years, and during this time the average attendance of scholars was one hundred and fifty. The library connected with this school was exclusively religious.

THE SOUTH PRESBYTERIAN CHURCH.—Movements preliminary to the organization of this Church were made by certain members of the North Presbyterian Church and others in November, 1854. On the 12th of that month a petition, signed by A. B. Newkirk, Mrs. L. M. Newkirk, Cyrus H. McCormick, L. J. McCormick, Mary A. McCormick and others, was presented to the Session of the North Presbyterian Church, setting forth that in view of the position which Chicago held to the Presbyterian Church of the whole country and especially of the West; in view of the condition of the various quarters of the city and especially of the southern section, and of various other facts, it was deemed advisable by the petitioners that an Old School Presbyterian

Church be organized on the South Side, and asking that they be permitted and assisted to organize such a Church. After considering this petition the moderator and Elder Howe were appointed a committee to draft a minute expressive of the view of the Session, and report at the next meeting. The report submitted November 24 contained a series of three resolutions favoring the measure, which were adopted, the third resolution being as follows:

"That as a Session and as individuals, it will afford us much pleasure to give to the new enterprise our best influence and effort,

as far as may be practicable and expedient."

The Presbytery of Chicago, pursuant to a call of the moderator, Rev. R. H. Richardson, met December 19, 1854, and upon receiving the request of certain persons to be organized into a Church, with their letters of dismission from the North Presbyterian Church, resolved that the request be granted, and that said Church be called the "South Presbyterian Church of Chicago, Ill." This request was signed by the following persons, who thus became the original members: Cyrus H. McCormick, Leander J. McCormick, Adamson B. Newkirk, Charles A. Spring, Sr., John Forsythe, John Stephens, Thomas H. Beebe, Mrs. Catherine Beebe, Mrs. Mary A. McCormick, Mrs. L. N. Newkirk, Mrs. Anna M. Gibbs, Mrs. Ellen M. Spring, Mrs. Sarah C. Stephens, Mrs. Frances E. Dickson. Charles A. Spring and Thomas H. Beebe, who had been members of the Session of the North Presbyterian Church, were elected elders of the new Church. Soon after its organization, the Church made its Session, with Cyrus H. McCormick a committee of correspondence and supply, with a view to procuring a pastor. After long and patient effort, the committee was directed to Rev. R. W. Henry, of the Associate Reformed Church, at Belle Brook, Ohio, who having expressed his willingness to become pastor, was regularly installed October 16, 1855.

On March 11, 1856, the following persons were received into the Church: William S. McCormick, from the North Presbyterian Church; Mrs. Henrietta M. McCormick, from the Methodist Episcopal Church, Lexington, Va.; Mrs. Annie T. Forsythe, from the First Presbyterian Church, Springfield, Ill.; William E. Myers, from First Presbyterian Church, Georgetown, D. C.; Mrs. Mary Emma Henry, from the A. R. Presbyterian Church, Sugar Creek, Ohio; Alexander and Mrs. Isabella Bain, from the Free Church of Scotland, Roslin, Scotland; Philander W. Stubbins, from the Bowlinggreen Presbyterian Church, Ky.; and on profession of faith, George H. Spring. At this time, Thomas H. Beebe presented a form of confession of faith and covenant, for use in reception of members, which was afterwards adopted at a meeting held Saturday, March 17,1856. Previous to the completion of the church edifice on the lot at the corner of Wabash Avenue and Congress Street, religious services were held in Metropolitan Hall. The Rev. R. W. Henry remained pastor until April 2, 1860, when he resigned to accept a call from the Scotch Dr. McElroy's Presbyterian Church of New York City. During his pastorate, the Church increased rapidly in membership, especially during the earlier and later portions. Among those who became members in March, 1856, was John H. Doane, superintendent of the Illinois Central Railroad. elected elder May 14, 1856, and was killed by the cars within the year. The numbers of those who joined under Mr. Henry's pastorate were as follows: In 1854, the original members, fourteen; in 1856, fifty-one; in 1857. thirty-three; in 1858, twenty-nine; in 1859, sixteen, and in 1860, previous to the resignation of Mr,

Henry, twenty-five. The limited number which joined in 1858 and 1859 is in part to be accounted for by an unfortunate misunderstanding of certain of the members and of the pastor, with reference to the attitude of Cyrus H. McCormick toward the Church, regarding the property, ownership of which was divided between him and the Church. At the time of the organization of the Church Mr. McCormick purchased a lot at the southwest corner of Wabash Avenue and Congress Street, eighty feet on Wabash Avenue and one hundred and seventy-five feet on Congress, the purchaseprice being \$18,000, and the payments to be made onefourth cash down, the balance in three equal annual installments. Mr. McCormick made the first payment, and agreed to pay the first installment at maturity, with the understanding that the society should pay the third and fourth installments; and, having done so, to have from Mr. McCormick, who at the time of purchase became responsible for the whole amount unpaid, a deed to the lot. A similar understanding was had also between Mr. McCormick and the society with reference to the building to be erected on this lot. The understanding with respect to the building was substantially carried out, the society erecting it, paying nearly onehalf the cost of construction, and thus becoming owner of it. The edifice as first constructed was a one-story frame fronting on Wabash Avenue, and capable of seating about four hundred people. Connected with it toward the west was a small one-story frame, occupied by the pastor as a study. Still further to the west was the parsonage. The congregation continued to assemble here until March, 1859, when the building was removed to the southwest corner of Jackson Street and Edina Place, now Third Avenue. This removal, seen in the light of subsequent facts, was not wise, but it was made in consequence of a misunderstanding. Rev. Nathan L. Rice, one of the oldest and ablest Old School Presbyterian divines in the West, was called to the North Presbyterian Church early in 1858, and was installed pastor October 20, of that year. Dr. Rice was a proslavery man, in so far as denying that the relation between master and slave is necessarily sinful, constituted him such. Rev. R. W. Henry was an abolitionist, which fact was well known to the South Church when they called him to the pastorate. But neither Dr. Rice nor Mr. Henry preached politics in the pulpit. So that the question as to what were the sentiments of these gentlemen with reference to the slavery question, should not have been permitted to modify the conclusions of church members regarding the relations of the two churches or of the two ministers. But when certain members of the South Church suggested that Dr. Rice and Mr. Henry should alternate in occupying the pulpits of the respective churches, with the view of building up Old School Presbyterianism in Chicago, feeling as they did that the New School Presbyterians were exercising an undue influence in the city, and when Dr. Rice signified his readiness to exchange pulpits with Mr. Henry on the plan suggested, certain other members of Mr. Henry's Church thought they discovered in this willingness of Dr. Rice, a design on the part of the former to "set a trap for the latter and thus on account of his anti-slavery sentiments, accomplish his discharge by and from his Church." This view of the case looked very plausible to him, for which reason he declined the courtesy of the exchange, and it was not made. The North and South Presbyterian churches were thus made to assume toward each other an attitude of quasi antagonism, which was unjust to both. It was much easier to introduce trouble into the Church than to expel it, when once in, and it was also easy for difficulty to drive out members and to prevent new members from joining the Church. Depleted in its membership, it was impossible for the society to make the third and fourth payments on the lot on which their edifice was standing; and as the making of these two payments was the condition upon which Mr. McCormick had agreed to give a deed to the lot, the society was not entitled to and did not receive the deed. Mr. McCormick made the payments, retained and still retains the ownership of the lot. Many of the members losing sight of, or never having learned of, the existence of this condition, accused Mr. McCormick of violating his agreement with respect to the deed, and excited themselves to such a degree that they refused longer to worship on Mr. McCormick's property. This feeling was entertained by a majority of the members, and in consequence they purchased a lot at the southwest corner of Jackson Street and Edina Place, to which, in August or September, they moved their building, converted it into a twostory edifice by erecting under it a basement story, and which, when completed ready for occupancy in March, 1859, was worth, with the lot on which it stood, from \$12,000 to \$14,000. This new edifice was dedicated March 13, the sermon being preached in the morning by Rev. R. W. Henry, and in the afternoon by Rev. Dr. L. H. Long.

At the beginning of the difficulties in the Church over the slavery question, and partly on account of these difficulties, Cyrus H. McCormick, Leander J. McCormick, William S. McCormick, Mrs. M. A. McCormick, Mrs. H. M. McCormick, and others whose residences were near the North Presbyterian Church, to which Rev. N. L. Rice had lately been called, were dismissed by letter to unite therewith. This was on November 5, 1857, and partly on account of the calling of Dr. Rice. The retirement of Cyrus H. McCormick, its wealthiest member, was a misfortune to the society, as he had up to that time paid \$3,000 a year towards its support. The withdrawal of this generous aid was a great discouragement also, both to the remaining members and to those who might desire to become members. As a result of these difficulties the church never became able to pay its half of the purchase price for the Congress-street lot. In 1858 considerable numbers left the South Church, some to unite with the North Presbyterian Church, some to join the Second, and still others to go to other churches. Among those to unite with the North Church were the two elders of the South Church, Charles A. Spring, Sr., and Thomas H. Beebe. At a meeting held February 11, 1858, John Wilson and William G. Holmes were elected to fill the vacancies, and were ordained on Sunday, the 14th. On the 6th of October, 1858, Elder Wilson was granted a certificate of dismissal, and on June 13, 1859, John G. Law was elected to his place. The society was now finally at peace, and worshiping in a building of its own, standing on a lot for which had been given new obligations. During the balance of the year its progress, though steady, was not rapid. In the beginning of 1860 a more lively interest was worked up, twentyfive members joining during the first three months. The total number of communicants in April, 1860, was one hundred and nineteen. Rev. R. W. Henry having received a call from the Scotch Presbyterian Church of New York City, resigned his pastorate April 2 to accept the call, and was dismissed with gratitude for his selfdenying labors while here, and with the best wishes of the congregation to his new and more arduous field of duty. At this time there were one hundred children in the Sunday school and Bible class.

THE KEFORMED PRESBYTERIAN CHURCH was organized on Tuesday, September 23, 1845, with nine members, as follows: Solomon McKichen, Mrs. Margaret McKichen, Malcolm McNeil, James Lowe, Miss Agnes Lowe, Robert Miller, George Murray, William Devore, and Samuel James. This was the result of efforts which originated during the preceding spring, when Rev. John Morrison, who was located in the vicinity of Chicago, preached a number of sermons in this city, at which time there was neither Church nor members. The following extract from a brief manuscript history of this Church, by the Rev. A. M. Stewart, its first pastor, details its early history, as likewise some of his personal experience:

"At a meeting of General Synod, in Philadelphia, Penn., May, 1845, the place (Chicago) was represented as a very important one, and worthy, if possible, of being at once occupied. In accordance with this, the Synod appointed myself—then a licentiate—to come and spend a number of months in Chicago and vicinity, to see what were the prospects, and what with proper effort, might be reasonably effected. In fulfillment of this appointment, I arrived by way of the lakes in Chicago, Saturday, July 12, 1845, an entire stranger, knew no one and had an introduction to no one. Preached in the afternoon of next day, in Mr. Henderson's Seminary, to an audience of seven persons. Since which time, with occasional interruption, have been here till the present (September, 1847)."

The organization took place at the house of Solomon McKichen, at which time Mr. McKichen and Robert Miller were elected and ordained elders. On Sunday, November 30, 1845, the first communion was dispensed, Rev. John Morrison officiating, at which time twelve persons united, as follows: Robert Malcolm, Harvey Botwell, Mrs. Mary Botwell, Elizabeth Henderson, David Hood, Mrs. Maria Hood, Mrs. James Lowe, Mrs. Flora McNeil, Mrs. Agnes Miller, Mrs. Samuel James, Mrs. Janet Miller, and Miss Barbara Allison. About the beginning of 1846, as the expiration of Rev. A. M. Stewart's appointment drew near, the infant congregation, fearing that they would be left entirely without a pastor, or would at best have to depend on occasional supplies, and as a consequence soon be dispersed, extended a unanimous call to Rev. A. M. Stewart, to become their settled pastor, and promised him an annual salary of three hundred dollars; expressing the hope, however, that the salary might soon be increased. Owing to the inability of Mr. Stewart to be present at the spring meeting of the Western Presbytery, which had been requested by the Church to moderate the call, the proposition lay for a time in the hands of the Presbytery. On the 6th of June; the third communion was held, Mr. Morrison again officiating, at which time John McGilvary, Mrs. Isabella McGilvary, John McMonagle, Mrs. Sarah McMonagle, Jane Noble, Barbara Club and Anna Burnett joined the Church. During the early period of its existence the society occupied a hall at the northwest corner of Clark and Randolph streets, but as the congregation increased in size, it became necessary to find a more capacious room. Accordingly arrangements were made with Mr. Henderson, whereby the Church worshiped in his Female Seminary Building at the corner of Clark and Madison streets. Here they remained until the fall of 1846, when they removed to the third story of the "City Saloon," at the corner of Clark and Lake streets. In the fall of 1847 they re-rented the Seminary building, occupying it until December 23, 1849, when they dedicated their new church edifice, just completed, at the corner of Clinton and Fulton streets. This house was a very neat and beautiful Gothic frame building, sixtytwo by thirty-six feet in size, and quite elegantly finished. The cost of the building was about \$1,600, on which there was a debt of but \$200. A portion of the money expended in the erection of this church had been raised by Rev. A. M. Stewart in the summer and early fall of 1846, during a tour made for that purpose through the Eastern and Middle States, with the result of collecting about \$800. He returned by way of Xenia, Ohio, for the purpose of attending a meeting of the Synod, and while at Xenia the Western Presbytery held a meeting and presented to him the call of his Chicago Church, which he then accepted. But he was not ordained until May 13, 1847, the ordination taking place in the "Saloon Building." The first communion under the new relation of pastor and people was dispensed August 15, 1847, Rev. Josiah Huntington, of Pennsylvania, assisting. On this occasion twenty persons united with the congregation. The next communion was held May 21, 1848, when Mr. Stewart was assisted by Rev. James K. Campbell, missionary from Northern India. At this communion twelve new names were added to the Church-roll. In 1849, thirteen persons were received into membership; in 1850, forty-four; in 1851, fortytwo; in 1852, sixteen; in 1853, forty-four; in 1854, twenty-seven; and in 1855, the last year of Rev. A. M. Stewart's ministry, twenty, making a total number added to the Church during that time of two hundred and sixty-six. The first building erected by this Church was burned down in the year 1859, in common with a large amount of lumber, and quite a number of other buildings, at the time of the National Fair, the fire originating from a spark from the pipe or cigar of a visitor to the city, and causing a loss of about \$500,000. The Society immediately inaugurated the enterprise of erecting a brick church on the site of the one destroyed, which in six months was so far advanced toward completion as to be occupied for religious services, and which, when completed, cost about \$15,000. This was a two-story building, with a room in the basement for Sunday school, and a number of ante-rooms, and in the upper story an audience-room capable of comfortably seating six hundred people. It was surmounted with a tower containing a bell. In 1869, on account of the encroachments of railroads and various kinds of business, this church was sold for \$13,-000, the furniture being reserved, and a new frame edifice erected at the corner of Fulton and May streets, at a cost of about \$12,000, including land. This building was occupied by the Church until the time of its disorganization in 1875, when it was leased; but on account of a mortgage on the property in favor of Moses Shirra it now is a part of his estate. The Rev. A. M. Stewart retired from the pastorate of this Church in September, 1855, and for two years there was no regular pastor. During this interval Dr. Guthrie supplied the pulpit three months, when a call was accepted and almost immediately afterward his acceptance was withdrawn. Dr. Black then supplied the pulpit some months, and in July, 1857, a call was extended to Robert Patterson, D. D., of Cincinnati, Ohio, which was accepted, and he began his labors in August of the same year. In March, 1864, he received a call from George H. Stewart, of Philadelphia, to labor in the U.S. Christian Commission, and moved to Philadelphia to engage in that work. His resignation tendered to his Church was not accepted, leave of absence for one year only being granted, and he returned in May, 1865. During his absence the pulpit had been supplied six months by Rev. John McCorkel, who had just resigned his charge in Elgin, and by Dr. Van Doren. Dr. Patterson then

continued in the pastorate until the latter part of December, 1866, when with a large majority of his congregation, he left the Reformed Church, and early in January, 1867, united with the Old-School Presbyterian denomination. The secession left the Reformed Church comparatively weak in numbers and in money, but free from debt. For some months afterward the Church enjoyed the ministerial services of Dr. Van Doren, and while erecting their new church at the corner of May and Fulton streets extended a call to the Rev. G. M. Ramsey, who accepted the call January 27, 1869, and remained until 1873, when he resigned. No subsequent attempt was made to fill the pulpit, and the congregation gradually distributed themselves among other churches, until at length the Reformed Presbyterian Church ceased to exist. The first elders were Solomon McKichen and Robert Miller. On August 14, 1847, William Kennedy, who had arrived with his family from Alabama, was installed in that office. On the 17th of February, 1848, Isaac Fleming was elected elder, and ordained March 6. Mr. Fleming died of the cholera August 28, 1850. On the 9th of December, 1849, John Clark, a ruling elder from the United Secession Church of Scotland, was installed elder here. In the spring of 1850, the Session was enlarged by the addition of George Clark and Thomas Floyd. A Sunday school was organized October 5, 1845, Rev. A. M. Stewart taking the superintendency until some other person could be procured. John McGilvary afterward became superintendent, and upon his removal from the city in about a year, Robert Miller became superintendent. Mr. Miller was succeeded by William Kennedy, who was superintendent in 1849.

REV. ALEXANDER MORRISON STEWART, D.D., was born panary 22, 1814, in Beaver (now Lawrence) County, Pa., at the homestead which his grandfather, who served in the Revolutionary War, had founded in 1796, in the then new country of western Pennsylvania, going thence from Carlisle, Pa. His father, James Stewart, was a Captain in the war of 1812, and his mother was Miss Nancy Morrison, of Carlisle, Pa. At the age of eight years his school life began under the care of Master Elliott, and continued later under that of Master Sterett, well known instructors in that region, and all of his boyhood was spent on his father's farm, surrounded by the loving influence of a Christian home. When at the age of eighteen he felt himself converted and joined the Old-School Presbyterian Church at Slippery Rock, Pa., then under the pastorate of Rev. Robert Semple. During the following year he decided to prepare himself for the ministry, and in the fall of

A. M. Stewart

1833 commenced ins studies at Schellsburg Academy, Bradford Co., Pa., where his older brother, Rev. Ethan Allan Stewart, had charge of the Academy. From there he entered Franklin College at New Athens, Ohio, and after graduating, studied theology under the Pittsburgh Presbytery of the Reformed Presbyterian Church, and was licensed to preach in December, 1841. In the spring and summer of 1842 he preached throughout the various precinets of the Pittsburgh Presbytery, and in the fall received a call to settle as pastor in Centerville, Shenango Co., Pa., which he declined. In the spring of 1833 he preached in Cincinnati, and afterward filled appointments under the Philadelphia and Northern Presbytery, in Philadelphia, New York and Vermont, and in the fall declined a call from Milton, Pa. He was sent out in November, 1843, by the Presbytery, and preached in various stations throughout Ohio, Kentucky, Tennessee and Alabama, also in New Orleans, St. Louis and Chicago. Returning to Philadelphia, he attended divinity lectures under Rev. S. B. Wyle in the winter of 1844–45, and also medical lectures at Jefferson College. In April, 1845 he want to Caledonia County, Yt., and thence to western Pennsylvania, where he preached until the fall when he came to Chicago and organized the

congregation of the First Reformed Presbyterian Church in the Seminary building on Clark Street, south of Madison, where he also taught a school in the languages during the winter of 1845-46. He remained in Chicago until 1855, when his health was so broken as to compel him to seek a different climate, and after a two years, rest in Sewickley, Pa., he accepted a call to the Second Reformed Presbyterian Church of Pittsburgh, Pa., of which he was pastor at the breaking out of the War of the Rebellion. Many young men of Pittsburgh, including a considerable proportion of his own congregation, promptly volunteered to defend their country, and Rev. A. M. Stewart as promptly proposed, in a letter to Brigadier-General J. S. Negley, dated April 19, 1861, to accompany the volunteers to the field, "to comfort the sick and wounded, and to console the dying," and if necessary to handle the rifle or sword. In a week he was with the Thirteenth Regiment Pennsylvania Volunteers in York, Pa., enlisted for a three months' campaign. Rev. Mr. Stewart remained with his regiment, which when re-organized became the One Hundred and Second, until near the close of the war. In July, 1864, he was assigned to duty as local chap-lain at Gilsboro, D. C., and afterward became district secretary of the American Tract Society at Washington, D. C. In March, 1866, he accepted the pastorate of the united congregations of East Whiteland and Reesville (N. S.), Chester Co., Pa., where he remained until the spring of 1868, when he was solicited by the Board of Home Missions to become its secretary for the Pacific slope, Here he organized new churches and preached in Nevada and California during 1868. In 1869 he returned to resign his pastorate, and then resumed his secretaryship on the Pacific slope, the duties of which he performed until the re-union of the Old and New School Presbyterian assemblies. Preferring pastoral duties to those of the secretaryship, he accepted a call to the Gilroy Presbyterian Church, Santa Clara Valley, Cal., with which he remained until 1874, when he resigned with the in-tention of making a tour around the world, but upon receiving urgent calls to work in new fields at home, his sense of duty being strong and sensitive, he interpreted such as the call of his Master strong and sensitive, he interfected such as the control to put aside the pleasure of travel for a time and work yet longer in His vineyard. Thinking so, he accepted the call of the First Presbyterian Church at Chico, Butte Co., Cal., in June, 1874, of which he was pastor at the time of his death, February 24, 1875.

Dr. Stewart was married in October, 1847, to Miss N. E. Hadley, daughter of Moses Hadley, by whom he had two children, George Hadley Stewart, of San Francisco, Cal., and Mary E. Stewart, now the wife of George B. Wilson, of Delano, Cal. Mrs. N. E. Stewart died December a 1860. Stewart died December 9, 1860. Dr. Stewart was married the second time, February 25, 1864, to Miss Josephine A. Malcom, daughter of Robert Malcom, a prominent citizen of Chicago, who died during the night of the great fire. In person Dr. Stewart was tall and of distinguished presence, and his character one of mildness and tenderness, associated with great firmness and strength. He never entered into disputations, and won his hearers as much by his charm of manner as by the exercise of his superior abilities.

REV. ROBERT PATTERSON, D.D., was born in the north of Ireland, and was of Scotch-Irish parentage. He came to the United States while comparatively young, settled in Philadelphia, and engaged in mercantile pursuits. Soon, however, he abandoned business for the ministry. After due study and preparation he was licensed to preach by the Reformed Presbyterian Church, and began his labors by becoming a missionary in the then Western States. Soon he accepted a call to the pastorate of a Reformed Presbyterian Church in Cincinnati, Ohio, where he remained several years, until he removed to Chicago in 1857, and assumed charge of the First Reformed Presbyterian Church on Fulton Street in that city. The Church had been without a pastor two years, and was struggling with adverse circumstances. But Mr. Patterson was in the vigor of his young manhood, and entered upon the work of building up the Church with all the ardor and earnestness of an aggressive and bold nature. His efforts were rewarded by his thurch becoming crowded with an earnest and united congregation. In 1859 the church edifice was destroyed by fire, but soon, through his active efforts, a larger and more commodious building was erected. At the outbreak of the slaveholder's rebellion many of the members of Mr. Patterson's Church enlisted in the Union army of the members of Mr. Patterson's Churren enlisted in the Union army and in 1363 and 1864, during the country's darkest days, Dr. Patterson called a meeting of his Church, explained to its members the necessities and sufferings of the soldiers in the field, and tendered his resignation, that he might himself go to the front. The Church promptly voted him leave of absence for one year, or during the control of the Church and the characteristics. the war, and under the direction of the Christian Commission he visited many a camp hospital and battlefield. This commission, recognizing his wonderful earnestness and power as a public speaker, detailed him on special duty in California and Oregon, especially in the mining regions of the Pacific coast, to raise funds to carry on the work of ministering to the physical and spiritual necessities of the sick and wounded soldiers. Going by way of the 1sthmus he contracted malaria, which, together with the excitement and overwork attendant on his mission, impaired his health and for a time prostrated him. After the close of the war he returned to Chicago, and was heartily welcomed by his congregation; but soon both Church and pastor, feeling the influences of the war in the disintegration of religious as well as of political creeds, and mingling with other Christian denominations, became dissatisfied with the restraints of the rules of the Reformed Presbyterian Church, especially in the matter of hymn singing and close communion; and as liberty in these particulars could not be secured in the Reformed Church, Dr. Patterson and a large majority of his congregation decided to unite with the Old School Presbyterian denomination. In order to do so honorably they renounced all legal claim to the church property, which was entirely unincumbered, and permitted it to be retained by a small minority of the Church, who were content to remain under the rules of the Reformed Church. This withdrawal was the origin of the Jefferson Park Church. Dr. Patterson is a man of fine physical appearance, and has few superiors on the platform and in the pulpit, and in his magnetic power over an audience. His preaching is entirely extemporaneous, and is evidently under the inspiration of the thought that he has been divinely commissioned to proclaim the gospel to dying men. is accredited by his admirers with a Pauline fervency in his denunciations of sins, shams and hypocrisy, and yet with the possession of the tenderness of the Apostle John. During the fall and win-ter after the great fire, he was one of the leading spirits in the prosecution of the gigantic work of providing for the thousands thrown upon the charity of the world by that dire calamity, and his devotedness to the work and the exposure consequent thereon, made rapid inroads upon his health, and in the succeeding spring he was obliged to seek abroad a restoration of health. vacation was not, however, sufficient, and fearing to risk the rigors of another Northern winter, he felt compelled to sever his connection with Chicago and with the Church, between which and whom there existed such sincere regard, and to adopt California as his future home. In San Francisco he is now the pastor of a large and flourishing congregation,

OLIVET PRESBYTERIAN CHURCH .- At a meeting of the Young Men's Christian Association, connected with the Second Presbyterian Church, held February 11, 1856, Rev. J. Ambrose Wight was elected by them to serve as city missionary under their auspices. Mr. Wight was also to have in view the formation and es tablishment of a Presbyterian Church in some destitut, portion of the city. He at once entered upon his missionary labors, and in addition thereto preached or Sunday mornings in the building known as the Taylor Street Sunday-school house, standing on Taylor street, between Edina Place and Buffalo Street. The first service was held Sunday, February 16, 1856, twenty persons being present, nineteen of whom belonged to the Second Presbyterian Church. From this time until the organization of the Church was effected, about six menibers of the Second Presbyterian Church were regularly in attendance each Sunday morning, the rest of the congregation varying considerably in numbers and belonging to the floating population of the city. The purchase of a lot was considered by Mr. Wight a necessary preliminary to the organization of a society, and to accomplish this end he spent considerable time in canvassing for subscriptions; but the project met with se little encouragement that it was abandoned. It was then thought best to build upon a rented lot. Mr. Wight had several estimates made of the cost of the erection of such a home; but before anything had been done in this direction, the church hitherto occupied by the Universalists, and standing on Washington Street, was offered for sale, and after examining the structure it was thought proper to purchase this house. Accordingly, in September of the same year n was bought for \$2,750, including the church furniture and a small reed organ, and moved to a lot on the west side of Wabash Avenue, about one hundred feet north of Twelfth Street, owned by and rented of Dr. John H. Foster, for five years, at an annual rental of \$160. Trustees were now elected in the persons of S. D. Ward, F. D. Gray and S. B. Williams. Sunday, November 23, Mr. Wight preached his first sermon in the renovated house, which had then cost \$3.800, all of which sum was paid except \$400. This gratifying result was due to the persistence and

energy of Mr. Wight.

Pursuant to notice given some time previously, a meeting was held on November 27, by those interested in the movement and designing to unite with the prospective Church, to consider the feasibility of forming the proposed organization then or in the near future. An adjourned meeting was held on the 7th of December, 1856, on which day the Church was organized by Rev. R. W. Patterson, with the following exercises: Scriptural readings and sermon by Rev. Mr. Wight, from Isaiah, xxxii, 9; dedicatory prayer, by Rev. E. F. Dickinson; organization of the Church, by Rev. R. W. Patterson, and address to the Church, by Rev. Harvey Curtis. The original members were Mr. and Mrs. Stephen B. Williams, Mr. and Mrs. Ephraim H. Dennison, Mr. and Mrs. Edward Ely, Mr. and Mrs. E. L. Pomeroy, Mrs. Caroline E. Wight, R. H. How, E. A. Burbank, and Bradford T. Averill. These were all from the Second Presbyterian Church. The first regular prayer-meeting was held Wednesday, December 10. after which a business meeting was held, at which S. B. Williams was elected elder and Edward Ely deacon, both of whom were ordained on the 29th. On the 12th of the month a call was extended to Rev. I. Ambrose Wight to become pastor, at a salary of \$1,300 per year. Mr. Wight remained with this Church until July 31, 1863, when he insisted upon the acceptance of his resignation, which had been tendered six months previously. On the 7th of August a meeting of the Church was held, and the resignation reluctantly accepted. Rev. A. Eddy was called September 30, 1863, at a salary of \$2,000 per annum, payable quarterly in advance. The call was accepted, and Mr. Eddy preached his first sermon in December. He remained until September 2, 1866, when he resigned. He was succeeded by Rev. Nelson Millard, of Mont Clair, who was unanimously invited to supply the pulpit for six months from January 28, 1867, at a salary of \$4,000 per annum, pavable quarterly. On September 9, he was invited to become settled pastor, at the same salary, payable in the same manner. Mr. Millard resigned in December, 1868. In October, 1869, he was succeeded by Rev. G. P. Nichols, who remained until November, 1870, and was the last pastor of the Church.

On the 2d of December, 1857, two ruling elders and one deacon were elected, the former being E. L. Pomeroy and S. B. Williams, the latter Edward Ely. Mr. Pomeroy was ordained January 13, 1858. On the 2d of November, 1859, the Session was enlarged again by the election of N. S. Bouton as ruling elder, and at the same time Ephriam H. Dennison was elected deacon. Mr. Bouton was ordained November 13; Bradford T. Averill was elected elder November 16, 1859, and ordained December 18. George F. Ruggles and W. B. Topliff were elected elders April 29, 1864, and ordained May 1. January 5, 1866, Dr. Frederick Crumbaugh and O. S. Avery were elected elders, and George F. Ruggles, permanent elder. On the 18th of November, 1869, three ruling elders were elected—Erastus Foote, Ephraim H. Dennison and Edward Ely. Stephen B. Williams was elected clerk of Session at the time of the organization of the Church, and served until 1864. N. S. Bouton was elected clerk, January 22, 1864, and served until the union of this Church with be Second Presbyterian. During the pastorate of Rev. Mr. Eddy, a lot seventy-five by one hundred and eighty feet at the

corner of Wabash Avenue and Fourteenth Street was purchased at \$100 per foot. Upon this lot was erected a two-story brick church, without galleries, at a cost of about \$85,000. An organ was added at a cost of about The church building which had been bought of the Universalists was sold for business purposes, was moved to Wabash Avenue and Sixteenth Street, and is now used as a store and market house. At the time of the union with the Second Presbyterian, the new brick church was sold to the Wabash Avenue M. E. Church. The Sunday school was organized in January, 1857, with eighteen pupils. The membership and attendance increased with the prosperity of the Church. The school at one time had about four hundred scholars. The superintendents of the school were: S. B. Williams. from 1857 to 1860; William Tomlinson from 1860 to 1861; and N.S. Bouton, from 1861 to the time of the union of the two churches, except during 1864, when Gilbert L. Granger served a portion of the year.

The FIRST BAPTIST CHURCH was organized October 19, 1833, with nineteen members, by Rev. Allen B. Freeman. With the exception of Mrs. Rebecca Heald, wife of Captain Nathan Heald, and Rev. Isaac McCoy, Dr. John T. Temple was the first Baptist to arrive in Chicago. Dr. Temple, with his wife and four children, reached Chicago about the 4th of July, 1833. For some time after his arrival, he and his family attended the Presbyterian services in Fort Dearborn, but having, through correspondence with the American Baptist Home Mission Society, secured the appointment of a missionary for Chicago, and thinking best that the two denominations should at the first begin with separate churches, started a subscription for a building, heading it with one hundred dollars. In a few weeks the building was erected near the corner of Franklin and South

A B Greenen

Water streets. It was a two-story frame structure, the upper story for school, the lower for religious purposes, and cost about nine hundred dollars. With the exception of Rev. Jesse Walker's log house at the Point, this was the first house built for religious worship in Chicago. It was designated as the "Temple Building," and was used by the Methodists, Presbyterians and Baptists alike until the Presbyterian church was ready for occupancy. When Rev. Allen B. Freeman, with his wife, arrived on the 16th of August, he found the church building ready for use. On the first Sunday after his arrival he preached to the Rev. Jeremiah Porter's congregation, in that minister's absence, at Blackstone's Grove, twenty-eight miles south of Chicago, and from this time until Mr. Freeman's death these two ministers preached once each month to congregations in some distant village; on such occasions the two congregations uniting to hear the one remaining at home, until the Presbyterian church was dedicated January 4, 1834. At the time of the organization of the Baptist Church, October 19, 1833, there were about twenty-five Baptists in Chicago, fourteen of whom were present at the church and gave in their names as follows: Rev. Allen B. Freeman and Hannah C., his wife; S. T. Jackson, Martin D. Harmon, Peter Moore, Nathaniel Carpenter, John K. Sargents, Peter Warden, Willard Jones, Ebenezer and Betsey Crane, Susannah Rice, Samantha Harmon and Lucinda Jackson. One of the other five members was Samuel S. Lathrop.

Rev. Mr. Freeman was a graduate of Hamilton Theological Seminary. During his brief pastorate he was an earnest and efficient laborer, organizing besides the Church in Chicago, four others in as many neighboring districts. It was in returning from one of these

TEMPLE BUILDING.

services at Long Grove, fifty miles south of Chicago, early in December, 1834, where he had preached and administered the rite of baptism, that his horse was taken sick eighteen miles from home. For two nights and one day Mr. Freeman watched with the suffering animal, when it died, and he made the rest of the way home on foot. Overcome by exposure and exertion, he was himself taken sick of typhoid fever and in ten days thereafter, on December 15, 1834, died. Rev. Jeremiah Porter preached the funeral sermon in the Presbyterian church, and was assisted in the services by Rev. Isaac W. Hallam, of the Episcopal Church; Rev. John Mitchell, of the Methodist, and Rev. J. E. Ambrose, of one of the country Baptist churches organized by Mr. Freeman. The Chicago Tribune of a not very remote date, contained a communication mentioning-"a little burial ground near the North Branch on the West Side. \* \* \* That little burial ground, as I remember, was about where Indiana Street crosses the river. The little inclosure was a prominent object, on the otherwise unoccupied and open prairie, up to 1840 or later. An inscription on one head-stone, or rather head-board, as I well remember it, was that of the Rev. A. B. Freeman, who was the first Baptist minister of Chicago." A picket fence was built around this grave by Samuel S. Lathrop.

At the time of his death the membership of the Church had increased to forty; but by a year from that time, by death and by removals to other churches, it was reduced to twenty.

During the year 1835, Rev. Isaac T. Hinton became the successor of Rev. A. B. Freeman. Mr. Hinton was by birth an Englishman, but came to Chicago from Richmond, Va. He was a very able and highly exteemed preacher, and a very warm-hearted and genial man. Under his ministrations the membership of the Church and the attendance upon religious services considerably increased, so much so that they began to need

a larger building. Rev. Mr. Hinton was sent East to solicit aid for the erection of a suitable house of worship, and returned with the small sum of \$8.46.48. This disappointment nerved the members to active effort for themselves, and soon the foundations of a new house were laid, and much of the woodwork prepared; but on account of the financial crisis of 1837, the building was never completed. Instead, a frame building, which was being used as a temporary workshop, was converted into a church, and with occasional enlargements, served the purposes of the congregation until 1844, during which year a larger edifice was erected. It was a brick building and stood at the southeast corner of Washington

FIRST BAPTIST CHURCH.

and LaSalle streets, where the Chamber of Commerce afterward stood. It was fifty-five by eighty feet in size; there was a basement eight feet high, divided into two rooms, for lecture and school purposes; it had an Ionic portico of six columns; the apex of the spire was one hundred and twelve feet from the ground; in the spire were a bell and clock, the clock having five dials, one on each side of the spire, and one inside the church; the total cost of this church edifice was \$4.500.

Rev. Isaac T. Hinton remained with the Church until 1842. He was a remarkable man in many ways; exceedingly happy in disposition, of a genial temper, an excellent pastor, and an able preacher. Large congregations attended his services. His great forte was preaching on prophecy. In the year 1836, he delivered a series of Sunday-evening sermons in the Presbyterian church, on this great subject. The church although the largest in Chicago, was usually filled to its utmost capacity; everybody was desirous of hearing "Hinton on Prophecy." He taught that the then present order of things would come to an end in 1873, but did not live to see the non-fulfillment of his interpretation of the prophecies. The following extract is from a lecture delivered by Hon. John Wentworth, May 7, 1876:

"At the close of service one day, Parson Hinton said he thought Chicago people ought to know more about the Devil than

SECOND EDIFICE ERECTED BY THE FIRST BAPTIST SOCIETY.

(From the City Hall Tower, looking Southwest.)

they did. Therefore he would take up his history in four lectures, first, he would give the origin of the Devil; second, state what the Devil had done; third, state what the Devil is now doing; and fourth, prescribe how to destroy the Devil. These lectures were the sensation for the next four weeks. The house could not contain the mass that flocked to hear him; and it is a wonder to me that those four lectures have not been preserved. Chicago newspaper enterprise had not then reached here. The third evening was one never to be forgotten in this city; if one of our most eminent clergymen, with the effective manner of preaching that Mr. Hinton had, should undertake to tell us what the Devil is doing in our city to-day. The drift of his discourse was to prove that everybody had a Devil; that the Devil was in every store, and in every bank, and he did not even except the Church. He had the Devil down outside and up the middle of every dance; in the addies' curls and the gentlemen's whiskers. In fact, before he finished he proved conclusively that there were just as many devils in every pew as there were persons in it; and if it were in this our day, there would not have been swine enough in the stock yards to cast them into. When the people came out of church they would ask each other, 'What is your devil?' And they would stop one another in the streets during the week, and ask, 'What does Parson Hinton say your Devil is?' The fourth lecture contained his prescription for destroying the Devil. I remember his closing: 'Pray on, brethern and friends; pray ever. Fight as well as pray. 'Pray and fight until the Devil is dead!'

"The world, the flesh, the devil, Will prove a fatal snare, Unless we do resist him, By faith and humble prayer.'"

And quoting from another portion of the same lecture:

"He was a man who never seemed so happy as when immersing converted sinners in our frozen river or lake. It was said of his converts that no one of them was ever known to be a backslider.

\*\*\* Immersions were no uncommon thing in those days. \*\*\*
But recently our Baptist friends have made up their minds that our lake has enough to do to carry all the sewerage of the city, without washing off the sins of the people. It is also claimed for Mr. Hinton that no couple he married was ever divorced. He was just as careful in marrying as he was in baptizing; he wanted nobody to fall from grace."

But notwithstanding Rev. Mr. Hinton's ability and the high estimation placed upon his services, his Church was unable to pay him a salary sufficient to support his large family, not even when he aided them by his own efforts in teaching. So he accepted a call to St. Louis, and preached his farewell sermon in Chicago September 26, 1841. The successive pastors of the Church subsequent to Rev. Isaac T. Hinton, have been the following: Revs. C. B. Smith, 1842–43; E. H. Hamlin, 1843–45; Miles Sanford, 1845–47; Luther Stone, 1847–48; Elisha Tucker, D. D., 1848–51; John C. Burroughs, D. D., January, 1853–56; W. G. Howard D. D., 1856–59. During the vacancy in the pulpit caused by the resignation of Rev. C. B. Smith, thirty-two of the members withdrew and formed the Second, or Tabernacle, Baptist Church. This was in 1843. Of the Rev. Elisha Tucker, who was pastor from 1848 to 1851, George S. Phillips, in his book, "Chicago and her Churches," published in 1868, by E. B. Myers and Chandler, said:

"The next pastor was a man of great mental and moral endowments, who, as Byron said of Henry Kirke White, adorned even the sacred functions he was called upon to assume.\* A man of great energy and ceaseless devotion to the work of the ministry, he won many souls to Christ and the love of all good hearts to himself. He was a handsome, well-formed man, with a large and lofty forehead, an eye full of sunshine and his whole face beaming with heavenly radiations. The Baptists had never before associated with their Church a man of such strong personal attractions, eminent talents, and unobstrusive learning and piety. His eloquence in the pulpit was the theme of every tongue, while his social hearing and conduct were in the highest degree refined and conciliatory. He was not destined, however, to a long course of usefulness in this new and wide field of labor. He worked faithfully and successfully for two and a half years, when he was seized with paralysis, and cut off in the prime of his life, and the glory of his days. During his connection with the Church as many had been added to the membership as in the eighteen years of her previous history."

On October 20, 1852, the church building caught fire from sparks falling from the tobacco-pipe of a workman, who with others was engaged in re-shingling it, and it was totally destroyed. The next day a meeting was held, and a committee appointed to build a new church. The corner-stone was laid July 4, 1853, and the building was dedicated November 12, of the same year. The cost of this building was \$30,000. It was also during Rev. Mr. Burroughs's pastorate that the Wabash Avenue Baptist Church was organized, mainly by members of this Church. Dr. W. G. Howard, formerly of the Second Baptist Church of Rochester, was chosen pastor in May, 1856. In the following September Union Park Baptist Church was organized, and in November the North Baptist Church, mainly from members of the First Baptist Church. Dr. Howard resigned his pastorate in 1859, and removed to New Orleans, having added two hundred and twenty new members to the Church.

REV. ISAAC TAYLOR HINTON was born at Oxford, England, July 4, 1799. His father was the Rev. James Hinton, of Oxford, a Baptist minister. Isaac T. Hinton was apprenticed to the printing business and served at this trade the regular term of seven

years, paying for the privilege one hundred pounds. He then started a publishing house at Warwick Square, London, where he also resided. While in this business he wrote, in conjunction with his brother, Rev. John Howard Ilinton, of Loudon, a history of the United States, which was published by a Boston firm. He failed in 1832 and came to America in 1832, landing in Philadelphia in June. During his residence in England he preached occasionally but was not pastor there of any Church, nor in the United States until after moving from Philadelphia to Richmond, Va., which event occurred in September, 1833. At Richmond he was pastor of the First Baptist Church, having a membership of fourteen hundred. He remained in Richmond something over two years when he removed to Chicago, where he became pastor of the First Baptist Church, as the successor of the Rev. Allen B.

Freeman. During his pastorate, which is quite fully treated of in the history of that Church, he was appointed by the General Convention of the Baptists of the United States to write a history of Baptism, which he wrote and took to Philadelphia to be published. This was the first book written in Chicago. From Chicago he moved to St. Louis in 1843, where he had charge of the Baptist Church between three and four years. From St. Louis he removed to New Orleans, in which city he had charge of the only Baptist Church in the city until his death which occurred August 28, 1847, of yellow fever. He was urged by his friends to leave the city, but preferred to share the danger with his Church. No other member of the family died. Mr. Hinton was married in 1822, to Sarah Mursell, of Leamington, England. They had a large family of children, those now living being the following: Sarah, who at the age of sixty and a widow, recently married a Mr. Condon of San Francisco, where she now resides; Isaac T. Hinton, of New Orleans, who furnished these items for this History; Victoria, married and living near Liberty, Mississippi; William Mursell Hinton, a printer, in San Francisco; Fanny, a widow, and Albert, both of whom are living in New Orleans.

THE TABERNACLE BAPTIST CHURCH was organized August 14, 1843, by members dismissed for that purpose from the First Baptist Church. The causes which culminated in this organization were somewhat remote. As early as 1839, while the Rev. Isaac T. Hinton was pastor of the First Baptist Church, a union prayer meeting was established, composed of Baptists, Presbyterians and Methodists. Meetings were held in various places, and among those prayed for were the slaves in the Southern States. Some of the pro-slavery members considered these prayer meetings abolition meetings in disguise, and opposed all recognition of them in the Church. On one occasion, besides the regular Sunday notices, Rev. Mr. Hinton read one that a prayer meetiug for the oppressed would be held at a certain place. It was afterward discovered that the notice, as written and handed to Mr. Hinton, read, "A prayer meeting for the slaves," etc. A resolution was adopted by the Church at a subsequent meeting that "Notices of political meetings should not be read from the pulpit, under any name or guise whatever." The adoption of this

C. B. Smith

resolution created a great sensation in the Church, and caused a sharp division of its members into a pro-slavery and anti-slavery party. The latter had a majority of the members, the former the most of this world's goods. At the next business meeting the question of the reconsideration of this resolution came up, but before final action was taken, a protest previously prepared was presented by the pro-slavery party in opposition to the reconsideration, and letters of dismissal were demanded for the purpose of forming a new Church. The motion to reconsider was thereupon withdrawn, and a compromise effected, Mr. Hinton agreeing not again to present the slavery question in the pulpit. This compromise was not long satisfactory to the abolition members of the Church. Their consciences could not be silenced, nor their sympathies for the slave suppressed. Neither were they pleased with the delivery by Dr. L. D. Boone of a series of lectures to prove that slavery was in accordance with the Scriptures, nor were the pro-slavery members satisfied with the anti-slavery utterances of the Rev. C. B. Smith, who succeeded Mr. Hinton in this pulpit in September, 1842. Mr. Smith was never installed pastor. Finding that a strong minority of the members were opposed to him, he gave notice that he could not accept the call extended to him, but that at the end of his official year, during which he had agreed to supply the pulpit, he should leave the city. A Church meeting was called to make choice of a pastor, at which Mr Smith received a majority of the votes cast and was declared elected. When officially informed of this action, he promptly declined the call and advised union and consolidation. Another meeting was held the next week for the same purpose, and he was again elected by a still larger majority. Being present, Mr. Smith again declined, and stated positively that under no circumstances would be accept the pastorate of the Church. A portion of those present at the meeting left the church, but when less than a block away they received word that those remaining had reorganized and were voting for a pastor. All within hearing returned and voted with those who had remained. The result was that Mr. Hamlin received forty-two votes and Mr. Smith forty. Mr. Hamlin was declared duly elected. It was therefore determined by the friends of Mr. Smith to withdraw and form a new Church. The Tabernacle Baptist Church was organized with thirty-four members who, at a regular meeting of the First Baptist Church, held August 8, 1843, and who were, at their own request, dismissed from the said Church for the purpose, organized the second Baptist Church in the city. These members were John L. Slayton, James Knox, S. H. Knox, S. Dodson, Joseph Hogan, W. H. Sadler, John Flynn, Reuben Tuttle, Vincent H. Freeman, James Launder, William David, William Lawrence, Benjamin Briggs, Edwin Clark, J. M. Hannah, T. B. Bridges, John A. Field, Maria Slayton, Elizabeth Williams, Frances Miles, Roxana Spaulding, Maria Tuttle, Mary David, C. Gould, Catherine Woodbury, Eliza Launder, Betsey Ann Briggs, Sarah L. Freeman, Jane McIntosh, Amelia A. Clark and Charlotte Mizener. The dismission of these members was approved August 10, and on the 13th letters were granted to the following persons for the same purpose: Samuel T. Jackson, Ezra Jackson, Darius H. Paul, John Bell, Lucinda Jackson, Abigail Jackson, Ann Jackson, Grace Flint, Hepsy Ann Flint, Susan Eliza Flint, Mary Merriam, Sarah Reid, Mary S. Merriam, Mrs. Stoughton, Louisa M. Durant, Boletta Hanson, Ann Dorothy Hanson, Crecy Woodbury, Fanny Holden, Sarah Crocker, Elizabeth Johnson, Mary Ann Porter, Jeannette Burgess, Margaret Burgess, Ann Shapley, Emily Bridges and Elizabeth Slocum. On Monday, the 14th of August, at a meeting held in the First Baptist Church, the following resolution was adopted:

. "That in view of the state of this community, and the growing importance of this location and the rapid increase of its population, we fully believe that the time has come when a second Baptist Church should be organized."

The Church was thereupon organized on that day by adopting articles of faith and covenant. Immediately afterward rules and regulations were also adopted. The following officers were also chosen on the same day: Trustees, Samuel Jackson, Vincent H. Freeman, B. Briggs, H. G. Wells, and William David; clerk, pro

Samu Jackson

tem., Charles B. Smith. A building committee was chosen, consisting of Samuel Jackson, Vincent H. Freeman and Benjamin Briggs, with Charles B. Smith as general agent. A special meeting was held on Wednesday the 16th, at Samuel Jackson's house, at which the name, "Tabernacle Baptist Church," was adopted. On the 20th of August, 1843, there were received by letter; Charles Charleston, Christian R. Oliver, Angelina Waggoner and Ellen S. Mizener. H. G. Wells was received by baptism, and on the 24th of August Mr. Wells was chosen clerk of the Church. On the 31st of August the following persons were elected deacons; Vincent H. Freeman, Benjamin Briggs, Samuel

TABERNACLE BAPTIST CHURCH.

Jackson and Benjamin F. Hays, and at the same meeting Rev. Charles B. Smith was unanimously elected pastor of the Church. Measures were taken by the building committee, immediately after its appointment, looking to the erection of a house of worship. A lot was selected on the west side of LaSalle Street, between Randolph and Washington, where now 1883 stands the Merchants' National Bank, upon which was built a plain frame edifice, forty by seventy-two feet in size, at a cost of \$2,200.

On Tuesday, October 3, 1843, a council of ministers and delegates from the churches of the Northern Illinois Association, convened in this place in response to an invitation of the Tabernacle Baptist Church, for the purpose of recognizing and fellowshiping it as a regularly constituted branch of the Baptist denomination. The services were held in the evening, and consisted of an admirable discourse upon the "Union of the Church," by Rev. Thomas Powell; the extension of the hand of fellowship by Elder Blake, and an address to the Church by Rev. A. J. Joslyn. The building was dedicated October 13, within eight weeks of the commencement of work upon it, Rev. Charles B. Smith preaching the dedicatory sermon. On the 18th of October, C. N. Holden was received to membership; on the 26th he was appointed treasurer, and on the same day was chosen clerk, to succeed H. G. Wells, resigned. Rev. C. B. Smith, having given notice in March, 1844, of his intention to do so, resigned his pastorate on the 6th of April. During the interim between Mr. Smith's resignation and the procuring of a second regular pastor in August following, the pulpit was occupied the greater portion of the time by Rev. Mr. Ambrose. It was during this interim, on the 17th of May, 1844, that this Church made application to the Northern Illinois Association to be admitted as a sister Church. In order that the Association might understand their sentiments in full upon the great question then agitating the Church, the following resolution was made a part of their application:

"Resolved, That slavery is a great sin in the sight of God, and while we view it as such, we will not invite to our communion or pulpit those who advocate or justify from civil policy or the Bible the principles or practice of slavery."

They also submitted the following paragraph as a summary of the history of their Church up to that time:

"The Tabernacle Baptist Church was organized August 14, 1543, with sixty-two members, under the pastoral charge of the Rev. C. B. Smith. We have since received forty-two members by letter and fourteen by baptism. Eight have taken letters to other sister churches, one has been taken from us by death and one has been excommunicated, leaving our number one hundred and eight."

In the early days of this Church, it was as much opposed to secret societies as it was to slavery. On the 30th of May, 1844, a committee appointed to investigate the subject of Odd-Fellowship reported as follows:

"Your committee having carefully and prayerfully examined into the principles and practices of secret societies as far as they have been able to do so, have come to the following conclusions:

1. "That secret societies are calculated to retard the best inter-

 "That secret societies are calculated to retard the best inte ests of humanity, and do conflict with the civil and moral laws.

 "That their rites and ceremonies are solemn mockeries.
 "We believe they are hindrances to growth in grace to such Christians as may be united with them."

The report of the committee was accepted and adopted, and on the 29th of August one of the members was excluded from Church membership for holding connection to the society of Odd-Fellows in preference to the Church.

On the 26th of August, Rev. Caleb Blood was unanimously called to the pastorate, and during the same month assumed its charge. On March 24, 1845, he tendered his resignation, which was accepted. On the 3d of April, Rev. C. B. Smith, then at Medina, N. Y., was called to the pastorate, and proffered a salary of \$500, and expenses to Chicago. This call was accepted conditionally, and the conditions accepted by the Church. Mr. Smith began his second pastorate in July, 1845, and in the succeeding October it was terminated On the 23d of November, 1845, Rev. William H. Rice was unanimously invited to become pastor, and began his labors in July, 1846. In the meantime the pulpit was filled by Elder Edson. In April, 1846, the hand of fellowship was withdrawn from Mr. Cushing and his wife for having adopted and adhering to doctrines of the New Jerusalem as taught by Emanuel Swedenborg. On the 6th of May, 1849, Rev. W. H. Rice tendered his resignation, which on Tuesday the 15th was accepted. On the 2d of August of the same year he died of cholera, which also carried away several prominent and valuable members of the Church. On Sunday, July 1, 1849, Rev. Lewis Raymond, of Milwaukee, was unanimously elected pastor to succeed Mr. Rice. Mr. Raymond accepted the call and commenced his labors September 1. In February, March, and April, 1850, during a special revival, large numbers were added to the Church. Revivals were also experienced the two following seasons and many were brought within the fold. On the 1st of October, 1850, this Church, being unanimously of the opinion that the dictates of wisdom and duty pointed to the western division of the city as their future field of labor, appointed a committee of three to make inquiry as to the location and price of a lot and as to the terms upon which it could be purchased. The church building was destroyed by fire, June 26, 1851, and on the same day an extra meeting was held at which it was resolved to build a suitable house of worship on Desplaines Street, between Washington and Madison. In the meantime, by invitation of the First Baptist Church, received through Dr. L. D. Boone, this Church worshiped with the First Church. They also worshiped by invitation in the Third Presbyterian, and also in the Canal-street

Arilo Barpenlin

Methodist Church. The new church building fronted the west, was forty-four by seventy-two feet in size, of the Gothic style of architecture, two stories high surmounted by a short square steeple, and cost, with the lots, \$5,840. The corner-stone was laid August 14, 1851. On the 16th of November the Church commenced worshiping in the basement, and the church building was dedicated February 3, 1853. Rev. Lewis Raymond resigned his pastorate July 6, 1852, at which time the membership of the Church had increased to three hundred and thirty-nine. He was succeeded, November 1, of the same year, by Rev. A. Kenyon, of Kirtland, Ohio, who preached the dedicatory sermon of the new church building. Rev. Mr. Kenyon remained until August 5, 1856, when he resigned. His resignation was accepted. Rev. H. Harvey declined an invitation to become pastor, and Rev. I. E. Kenney, on February 24, 1857, was unanimously invited to become pastor, with a salary of \$1,500 per year. On the 20th of April he began his labors, and remained until December 7, 1858, when he resigned. The resignation was accepted, and on January 30, 1859, Rev. H. K. Green, of Danbury, Conn., was invited to become pastor, and pledged a salary of \$1,800 per year. Rev. Mr. Green was installed as pastor on Friday, March 25, 1859. On the 5th of June, 1859, this Church wrote, in their letter to the Baptist association, which met at Bloomingdale: "Our congregations are large and increasing. Unity and harmony mark our efforts. We sustain, besides the Sabbath-school connected with the Church, a mission school in a destitute part of the city. Both are enjoying a high degree of prosperity, and around them our fondest hopes center." On November 1, 1859, there were found to be one hundred and seventy-five members in good standing. Rev. H. K. Green resigned his pastorate April 30, 1861, on account of ill health, and was succeeded September 1, of the same year, by Rev. Nathaniel Colver, D.D., who remained until December 1, 1864, when he resigned. It was during this year, 1864, that the Tabernacle Baptist Church united with about fifty members of the First Baptist Church to form the Second Baptist Church, which accepted from the First society, as a free gift, its church edifice standing at the corner of Washington and LaSalle streets, and moved it and re-erected it at the southwest corner of Monroe and Morgan streets, in which they still worship. During the existence of the Tabernacle Baptist Church, as such, there were received into its membership a total of nine hundred and eighty persons.

REV. C. B. SMITH, D.D., the first pastor of the Tabernacle Baptist Church, was born October 20, 1814. He graduated at Vale College in the class of 1837, a class distinguished as containing such men as William M. Evarts, Edwards Pierrepont, Samuel J. Tilden, and Chief Justice Morrison R. Waite. He was baptised in August, 1812, and removed to Chicago and took charge of the First Baptist Church the following month. He returned to the East in 1845. During the years 1846 to 1849 he published works entitled "The Philosophy of Reform," "A Lie in Earnest," and "Scenes in Luther's Life." Subsequently he was settled in New Haven, Conn., in Malden, Mass., in New York City, and in Dubuque. He has been in Grand Rapids for twenty years, and purposes to make that city his home during the remainder of his life. He was pastor of the Baptist churches for a number of years, but is now (1833) without a charge. He preaches nearly every Sunday, without compensation, to destitute churches, and to churches of very denomination as he is requested. He received the degree of Doctor of Divinity in 1850 from Wabash College, Indiana.

THE EDINA PLACE BAPTIST CHURCH.—On the 8th of April, 1856, the first meeting of Baptists looking to the organization of this Church, was held at the house of J. S. Buchanan. The moderator of the meeting was Rev. J. A. Smith, and the clerk J. Woodworth. Rev.

Robert Boyd opened the meeting with prayer. A preamble and a series of three resolutions were adopted, the first and third resolutions being as follows:

"1. That we agree to work together as a Church of our Lord Jesus, under the designation of the Third Baptist Church of Chicago, and that the articles of faith and church covenant found in page 191, of the Encyclopedia of Religious Knowledge, be adopted.

adopted.

"3. That we give the Rev. Robert Boyd a call to become our pastor, and that we give him one thousand (\$1,000) dollars, and furnish him a parsonage as compensation in part for services, each year."

At a meeting held April 15, at the same place, the following resolution was unanimously adopted:

"That a committee of five be appointed to take a deed of trust of the lot now purchased, situated on the corner of Harrison Street and Edina Place, and hold the same for the Third Baptist Church, and that brethern Edwards, Buchanan, Gassett, Babcock and Woodworth be said committee."

At this meeting L. A. Willard and J. Woodworth were elected treasurer and clerk of the Church, respectively. At the next meeting, held April 22, 1856, at the house of J. T. Edwards, resolutions were passed to build a church edifice on the lot at the corner of Harrison Street and Edina Place, to change the name of the Church from the Third Baptist Church, to the Edina Place Baptist Church, and to appoint a building committee consisting of "brethern Buchanan, Boggs, Babcock and Gassett." A committee on religious worship was also appointed, consisting of "brethern Buchanan, Willard and Woodworth," and a committee on singing consisting of "brethren Edwards, McCall and Raymond." From this time until the completion of the new church edifice in October, meetings were held in the lecture-room of Plymouth Church. The new church was dedicated on Sunday, October 5, Rev. Robert Boyd preaching in the morning, Rev. Dr. Howard in the afternoon, and Rev. A. J. Joslyn in the evening. A council called for the purpose of publicly recognizing this Church, convened October 30. This council on motion of Rev. J. Young, recognized the Edina Place Church as a Baptist Church in Gospel order. The members at the time of its formal organization and recognition, by the Council, October 30, 1856, were: Rev. Robert and Mrs. Christina Boyd, Justin A. Smith, Mrs. Jane A. Smith, John S. Buchanan, Mabel A. Buchanan, Lucius A. Willard, Mary Ann F. Willard, John T. Edwards, Sarah Edwards, John B. George, Elizabeth Johnston, Cyril Babcock, Lydia F. Babcock, Silas B. Gassett, Susannah Gassett, Charles T. Boggs, Virginia A. Boggs, Charles Larminie, Jacob Woodworth, John M. Woodworth, E. D. Woodworth, Amelia Boggs, Ann E. Moore, Maggy Whitelaw, Murdock Morrison, Elizabeth Morrison, Samuel McCall, George Hines, Ira Revnolds, John S. Lawrence, Emma R. Lawrence and Agnes Wanless.

At a meeting of the Church, held December 5, 1856, J. T. Edwards, J. S. Buchanan, L. A. Willard and J. Woodworth, were elected deacons, and on the 31st of December, upon the resignation of J. Woodworth as clerk of the Church, J. S. Lawrence was chosen to fill the vacancy. The 8th of April, 1857, was observed as the anniversary of the organization of the Church. Justin A. Smith recounted its early history, its weakness, trials and discouragements. The society had passed through a season of almost unparalleled financial embarrassment, but in every emergency had been successful, and had not only erected and finished but had paid for its church edifice, which, according to its report to the Fox River Association, in June, 1857, cost \$15,500. On January 28, 1858, a protracted meeting of three

weeks' duration closed. The pastor conducted the meetings almost entirely without assistance, and as a result twenty persons were added to the Church. In March, 1859, another series of revival meetings was held, which added about twenty members to the Church. Early in the year 1860 the question of the removal of the Church became a subject of discussion. On the 11th of April it was decided: "That it is expedient for this Church to remove from its present location to the vicinity of Wabash Avenue and Old Street, when a suitable lot can be obtained." This resolution was re-adopted on the 10th of October, 1860, and a committee was appointed to secure a lot. But little was done until in March, 1862. At a meeting, held on the 21st of that month, the pastor urged as reasons for change of location, that on Sundays there were not regularly over twenty unconverted persons in the congregation, and that during the year last past, they had been losing some of the most active and influential members of the Church by removal. It was also stated at this meeting that a way for the completion of this long-cherished object seemed to have been opened in a providential manner, as they could then exchange their present lots for one on the northwest corner of Wabash Avenue and Old Street. A committee of three was therefore appointed to effect the exchange of property with Dr. L. D. Boone, the owner of the Wabash Avenue lot; and a building committee of four was appointed to let contracts and to make arrangements necessary to effect the removal. May 11, 1862, was the last Sunday spent in the old location. Resolutions appropriate to the occasion were passed, one of them expressing thankfulness for the continued success of the Church for so many years; for the uninterrupted peace, harmony and union which had continuously prevailed, and for the constant affection that had existed between Church and pastor. Preparations for a change were commenced on the 19th of May. The house was removed, and re-opened for worship on the 31st of August, 1862, the members in the meantime worshiping in the Plymouth Congregational Church. On the 22d of August a meeting was held at the pastor's house, at which by resolution the name of the church was changed from the Edina Place Baptist Church to the Wabash Avenue Baptist Church. The cost of the removal, including an enlargement of fourteen feet in length, a new front and other necessary repairs, was \$2,200. At the re-dedication of this church the pastor preached in the morning from the first verse of the twelfth Psalm, and Rev. Dr. Everts preached in the evening. The Sunday school was re-opened on the same day. Up to January 1, 1862, there had been received into the Church three hundred and eleven members; by baptism one hundred and twenty, by letter one hundred and eighty-three, and by experience eight. The dismissions amounted to eighty-eight, leaving the net membership at this time two hundred and twenty-three.

UNION PARK BAPTIST CHURCH.—Early in the year 1855, a mission chapel was established on the West Side, the location being West Lake Street, between Sheldon Street and Bryan Place. This chapel was erected with funds contributed by citizens living in the vicinity, and by Baptists of the city at large. The leaders in the enterprise were mainly those who afterward became constituent members of the Union Park Baptist Church. The exercises at the chapel were continued until the Church was organized, November 12, 1856. The original members of this Church, who were dismissed for the purpose of organizing it from various other churches in this city and elsewhere, were as follows: From the First

Baptist Church, Chicago, David L. Jacobus, Mrs. Eliza Jacobus, Oscar J. Jacobus, Mrs. Lydia Moody, Mrs. Sophia Bretschneider, Edward Zimmerman, Mrs. Har-riet Zimmerman and Mrs. Mary Wayman; from the Tabernacle Baptist Church, Chicago, Mrs. Prudence Creote, Mrs. Helen Hays, Mrs. Luranda Hopkins, Miss Eliza Knott, Mrs. Almeda McKay, Miss Adeline Miller, Miss Emma Price and Mrs. Henrietta Sutherland; from the First Baptist Church, Aurora, Ill., Asahel Lockwood and Mrs. Mary Lockwood; from the First Baptist Church, Lowell, Mass., Daniel Hurd, Mrs. Rosetta Hurd and Miss Betsy Hill; from the First Baptist Church, Piscataqua, N. J., Mrs. Hannah Randolph and Miss Mary Randolph. The first trustees of the Church were David L. Jacobus, Daniel Hurd, C. A. Reno, and L. H. Smith. The first deacons were, David L. Jacobus and Daniel Hurd. The first treasurer was James P. Jacobus, and the first clerk Edwin Zimmerman. The first pastor was the Rev. A. J. Joslyn, who commenced his labors one week after the organization of the Church. During his pastorate the chapel was enlarged by the addition of two wings, one on each side, by reason of which its seating capacity was increased to about three hundred. The total cost of the building up to this time was about \$2,000. During the first few years of its existence the Church encountered numerous difficulties, and was too feeble to well withstand them; but it courageously and patiently labored for success, and at length triumphed and received large accessions to its membership. There were revivals in the fall of 1857 and in the winters of 1858-59, during which especially considerable numbers were added to the rolls. Rev. Mr. Joslyn remained pastor of the Church until November 1, 1860, when he resigned, leaving it in a comparatively strong and healthy condition. During his pastorate there had been received in the aggregate two hundred and five members; one hundred and fifteen by letter, eighty by baptism and ten by experience. Rev. Mr. Joslyn was succeeded by Rev. James Dixon, who commenced his ministry January 1, 1861, and soon afterward the chapel was removed to the northeast corner of Lake and Sheldon streets, and again enlarged. It has been moved from time to time, and now stands at the corner of Noble and Superior streets. The subsequent history of this Church, which possesses far more than a common interest, will be detailed in the subsequent volumes of this History.

THE SALEM BAPTIST CHURCH had its origin in the winter of 1852-53. Its projector was the Rev. J. R. Balme, who had recently come from England. On the 27th of February, 1853, Mr. Balme preached at the opening of the Church at 170 South Clark Street, and notice was given that religious services would be regularly held at the same place thereafter by him. This Church was organized Monday, April 25, 1853, in Mrs. Balme's school-room, on Sonth Clark Street, at which time the Rev. A. Kenyon delivered an excellent and impressive address. On May 1, Elder Balme administered the ordinance of the Lord's Supper, in the district schoolhouse which stood at the corner of Clark and Harrison streets. A lot was leased in the early part of the month, on Clark Street, between Jackson and VanBuren, and it was the design to erect upon this lot, as soon as the subscription could be completed, a new church edifice. The subscription, however, was never completed, the church building never erected, and as a sufficient number of members did not rally to the standard of Mr. Balme, he surrendered the project and left the city. The few members that had joined distributed themselves

among other churches.

THE BEREAN BAPTIST CHURCH was started in 1855, by members of the Tabernacle Baptist Church, who sympathized with the Rev. A. Kenyon, on account of what they felt to be unjust treatment of him by that Church. Temporarily they worshiped in a school-house at 109 South Jefferson Street. The organization was effected December 14, 1856, and the Berean Baptist Church was recognized by a council of the Baptist churches of the city February 8, 1857. During this year they erected a frame church building on Jackson Street, between Desplaines and Halsted, which cost \$1,700. In 1859, under the pastorate of the Rev. Isaiah Rider, who was ordained November 7, 1858, this church building was removed to DeKoven Street, between Desplaines and Halsted. Here the society remained and prospered until 1867, under the pastoral ministrations of Mr. Rider and Dr. Nathaniel Colver, when, becoming ambitious and looking upon their modest edifice as quite too small for so large and prosperous a city as Chicago; and feeling, as a certain minister expressed it, that "the day of small churches in Chicago had passed," they determined to erect a large and magnificent building in order to satisfy their personal and religious pride, and to provide an elegant religious home for a large, wealthy and prosperous organization. In 1867 the Church called the Rev. N. F. Raylin to the pulpit. He remained until 1870, and succeeded in erecting and inclosing, on the corner of Harrison and Sangamon streets, where five twenty-five-foot lots had been purchased, a fine brick building, the main body of which was sixtyfive by one hundred and twenty-five feet in size, the extreme width, including the towers, one on each front corner, being seventy-five feet. When the basement of this building was completed the Church sold to a business firm their property on DeKoven Street, and moved into the basement of the building, which they hoped would soon be completed and be their permanent home, and changed the name of their society from the "Berean Baptist Church" to the "Fifth Baptist Church." Had the church been finished according to the original design it would have cost \$100,000. Including \$20,ooo borrowed of the Union Mutual Life Insurance Company, the society expended on the structure about \$45,000. In 1868 the property was estimated to be worth \$55,000; the congregation was three hundred, and the scholars in the Sunday school four hundred. It became evident about this time that it would be difficult, if not impossible, to complete the audience room of the church and towers, which would cost an additional \$25,000 or \$30,000. Members were tired of giving and were opposed to an increase of the debt. The Second Baptist Church was near, was large and wealthy and with but a small debt, and as the Fifth Church was mainly composed of people in moderate circumstances, men of means preferred to unite themselves with a Church in which the drain upon their purses would not be so constant nor so large. Still, although the members of this Church had much to discourage them, they labored on as best they could. When Mr. Ravlin retired from the pulpit in 1870, he was succeeded by Rev. J. T. Westover, who remained only six months. He was succeeded by Rev. W. J. Kermott, who came in 1870, and remained until 1872. He was succeeded in 1872 by Rev. N. F. Ravlin. During 1873, Mr. Ravlin, thinking it possible that the Church would be more prosperous under another name, proposed to the members that the title "Temple Baptist Church" be adopted in place of the "Fifth Baptist Church." The change was effected August 11, 1873. A Church paper, under the name "The Temple Call," was issued monthly, by John L.

Manning, and Pliny P. Ravlin, a son of the pastor, the first number of which appeared in January, 1874. This name was retained as long as the Church existed. During his second pastorate Mr. Ravlin had as associate pastor, Rev. A. G. Eberhart, who received the whole of Mr. Ravlin's salary. In 1875 the Church was dishanded, in part on account of the debt, and in part because of the desire of most of the members to re-organize upon a different basis. On the 25th of April, 1875, a series of preambles and resolutions were presented for consideration, and on the 7th of June, adopted. The principal preamble was as follows:

"WHEREAS, It is desirable that an opportunity should be given all true followers of Jesus who may so desire, to unite with us in an effort to have the Gospel unshackeled by stated creeds, sectarian prejudice, or denominational bands, preached and sustained, but who are now prevented from so doing by reason of the present Church organization; therefore,

"Resolved, That the present organization, known as the Temple Baptist Church, be and the same is hereby disbanded and disorganized immediately upon the passage of the necessary resolutions

following herein.

The necessary resolutions were passed, the trustees instructed to convey any property belonging to the Temple Baptist Church to any new organization that may be formed according to the statutes of the State of Illinois. A few of the members who did not approve of the disorganization of the Church, adhered to each other, and under the pastorate of the Rev. W. S. Hamlin, continued religious services for a few months in the brick building. About twenty-five of those who had favored disbandment, formed an independent organization or mission, and under Mr. Raylin's ministrations worshiped for six months at the northeast corner of Clinton and Twelfth streets. At the expiration of this period Mr. Ravlin accepted a call to the First Free-Will Baptist Church, located at the corner of Jackson and Loomis streets, where he remained nearly three years. He then started an effort in the West End Opera House, which was carried on about six months, when he removed to the Swedenborgian Temple, at the corner of Washington Street and Ogden Avenue, and finally to 431 Ogden Avenue, where he remained several months. He then accepted a call to a Baptist Church in San Jose, California, where he now resides, pastor of a large and flourishing congregation. The Temple Baptist Church building, after falling into the hands of the insurance company, was taken down and dwelling houses erected in its place.

THE OLIVET BAPTIST CHURCH had its origin, in 1853, in the "Zoar Baptist Church," which was organized that year by Rev. R. J. Robinson, who came from Alton for that purpose, remaining with the Church about a month. He was succeeded by Rev. H. H. Hawkins, who was the first permanent pastor. The church building originally stood at the corner of Buffalo and Taylor streets. In 1856 the Zoar Church had one hundred and twenty members, and for a year or two the membership was considerably increased by the influx of numerous refugees from the Southern States, and with increased numbers came trouble in reference to the government of the Church. In consequence of this difficulty about fifty or sixty of the members in 1858 seceded from the Zoar Church and formed the Mount Zion Church, being organized by Rev. Wallace Shelton, during the pastorate of Rev. D. G. Lett, who had been pastor of Zoar Church about three years. The Mount Zion Church leased, and worshiped during their separate existence, in a frame store building standing on Clark Street, near Harrison. Rev. H. H. White, who was the first pastor of the Zion Church, was succeeded

by Rev. Jesse Bolden. The Zoar Church, after the secession, had for its pastor Rev. Mr. Tansbury, who, after remaining a short time, went back to Canada. After this, through the influence of Rev. Jesse Bolden, the two separate bodies were re-united, but as neither Church would unite under the name of the other, both names, Zoar and Zion, were discarded and the name "Olivet Baptist Church" adopted by mutual consent in its stead. This re-union occurred in December, 1862, in the Edina Place Baptist Church. The Olivet Society went into a building at the corner of Harrison and Griswold streets, formerly owned by the Zoar Church, at that time having about one hundred and twenty members. Rev. Jesse Bolden remained after the reunion about three months, when he was succeeded by Rev. Richard de Baptiste, in June, 1863, who remained pastor of the Church nineteen years, retiring from the pulpit February 1, 1882. He was succeeded by Rev. James Podd, who remained until January 10, 1883, and was succeeded by Rev. H. H. White. The church building mentioned above as standing at the corner of Harrison and Griswold streets, continued to be occupied until 1865, when this society, having purchased a lot on the east side of Fourth Avenue, between Taylor and Polk streets, erected a church thereon costing \$18,000, worshiping for a few months in Witkoskey Hall, on the northwest corner of Monroe and Clark streets. This building escaped destruction by the fire of 1871, but was destroyed by that of 1874, at which time the society was in debt only \$2,500. After this fire the city passed an ordinance opening Dearborn Street to Fourteenth Street, which cut off twenty-seven feet from their fiftyfoot lot, and rendered it necessary for them to purchase an adjoining lot in order to have room to re-erect their church building. This lot cost \$4,500; and the new church building, which was completed in 1875, cost \$20,000. It is a three-story brick building, with two fronts—one of stone on Dearborn Street, the other on Fourth Avenue, and was erected without any assistance from insurance on the building destroyed in 1874, only \$2,500 having been received from that source, all of which was used in payment of debts. This building was occupied un il October, 1883, the property having been sold some time previous to the Western Indiana Railroad Company, for \$32,500. With this money the debts were paid, and the balance used in purchasing a lot on Harmon Court, between State Street and Wabash Avenue, for which \$13,500 was paid. At the time of selling their property to the Western Indiana Railroad Company, there were about five hundred members in the Church. It is their design to erect a new church edifice in the spring of 1884, a description of which will be inserted in the third volume of this History. At the time of the Rev. Mr. Podd's resignation, forty-six members were regularly dismissed from this Church to form the Bethesda Baptist Church under his pastorate, a sketch of which will be found in its proper place in this History.

FIRST ŚWEDISH BAPTIST CHURCH, was organized in 1853, in part by Swedes, who had up to that time been members of the First 'American, Baptist Church. This Church purchased for their Swedish offspring a school-house standing at the corner of LaSalle and Erie streets. Among those who united in organizing this church were Ira J. Collings, Peter Peterson, Peter Modine, Andrew Matson, F. M. Wimmerset, John Uberg, Matthew Matson, Frederick Blonquist, William Wigland, Mr. Mullen, and their wives. Rev. L. L. Frisk was the first pastor. For about a year after thus organizing themselves into a Church society they wor-

shiped at the house of their pastor, and at the houses of various members of the Church. In 1854 they took possession of the school-house purchased for and presented to them. This they moved to Bremer Street, in 1858, and continued to occupy it until 1860 or 1861, when it was destroyed by fire. They then rented a school-house, which they occupied for some years. Mr. Frisk remained pastor of the Church until 1857, when he was succeeded by the Rev. G. Palmquist, who remained about six months. After him there was no regular pastor in this Church before its disorganization, which occurred in 1864, but the members themselves conducted religous services as well as they could with an occasional sermon from a missionary. But at length a portion of the members becoming scattered, the rest became discouraged and abandoned the organization of the Church.

REV. LUTHER STONE was born in the northeast corner of the town of Oxford, Worcester Co., Mass., September 26, 1815. He and his brother Lewis, who is still living on the old homestead, are twins, and the youngest of a family of six children. Mr. Stone is a descendant in the sixth generation of Gregory Stone, who came from Cousinston, Somersetshire, England, in the ship "Increase," to Boston, in 1634, and made his homestead in Cambridge, on what is now Mt. Auburn Cemetery. He brought with him his son John, then sixteen years old, and settled him in that part of Sudbury, which is now Farmingham, on land purchased of the Indians. Here was born Hezekiah Stone, the great-grandfather of Rev. Luther Stone, who in company with seven others purchased the town of Oxford, fourteen miles long by about five miles wide, of the Huguenots, to whom it had been given by Massachusetts after

Luther Stone

their expulsion from France. John Stone, the son of Gregory, had two sons, Daniel and Nathaniel. Lois, a grand-daughter of Nathaniel, married Uriah Stone, Jr., a great-grandson of Daniel. Luther, a son of Uriah, Jr., and Lois, was the father of the subject of this sketch. He married Miss Abigail Bemis, who was born in Stones Mass. Leet her parents when were worm, and was a samed Spencer, Mass., lost her parents when very young, and was reared and educated by her uncle, Captain Jesse Smith, of Charlton, Mass. and educated by her uncle, Captain Jesse Smith, of Charlton, Mass. Luther had the advantages of a common-school education, and was prepared for college at Leicester Academy, which he entered in 1833, where he was under the tutorship of Rev. Luther Wright, formerly tutor in Vale College. He entered Brown University in 1835, graduating in 1830. He then went to Newton Theological Institution, from which he graduated in 1842. He now spent his time for a year in preaching, and was ordained at Oxford, October 3, 1843, as an evangelist, designing to make the Mississippi Valley his field of labor. In the winter of 1833-41, he preached tempo-3, 1943, as an evangenist, designing to make the straints staying this field of labor. In the winter of 1843-44, he preached temporarily at Ellsworth, Me., and in the spring of 1844 returned to Boston and made preparations to go West, leaving Oxford on Wednesday the 8th of May. He traveled by railroad to Schenectady, N. V., thence by canal packet to Buffalo, by steamer to Clevenselve and the scheme of the land, by canal packet to Portsmouth, Ohio, spending a week between these two points at Granville College with Rev. Dr. Jonathan Going, its president. Reaching Portsmouth on Saturday, he preached on Sunday, taking a steamer on Monday down the Ohio for Cincinnati, Louisville and St. Louis, in which latter place he visited the Rev. Isaac T. Hinton, who had been one of Chicago's early ministers. From St. Louis he went up the Mississippi River to Rock Island and Davenport, reaching the latter place on Thursday, the 6th of June. On the following Sunday he preached for the First Baptist Church in Davenport, which extended to him a to become its pastor. Declining the call, he made Rock Island his home until March, 1845, spending the eight months in preaching in numerous towns and pioneer settlements in the Mississippi Valley, and traveling in the meantime thirty-four hundred miles. During this time the Rock Island Baptist Association was formed, Mr. Stone being present and one of its original members. About the first of March he went to Burlington, Iowa, and preached there on Sunday, the 9th, the first Baptist sermon in the place. He preached there four months, having as large a congregation as there was in the town. He then went back from the river about eight miles to a town named Pisgah, where there was a Baptist Church, and preached there several Sundays. He then came up Rock River to Sharon, four miles from Geneseo, in Henry County, Ill., and there bought two hundred and fourteen acres of land, upon which he erected what he designed as a part of a larger building, the

whole to be used for an academy; but after remaining there several months, having chills and fever every day for four and a half weeks, he concluded the climate was not a healthy one, so bought a two-year old horse and saddle and rode to Rockford, preaching at unterent piaces on the way and reaching there in March, 1846. The Baptist Church at Rockford gave him a unanimous invitation to become its pastor, which he accepted and remained there until July, 1847. He then, on account of the differences of opinion and sentiment in the Baptist denomination at large respecting the subject of slavery, came to Chicago to establish the "Watchman of the Prairies," the first number of which he issued on the 10th of August of the same year. The majority of the Baptists were averse to the attitude of the general organizations of the denomination on this at different places on the way and reaching there in March, 1846. of the same year. The majority of the Baptists were averse to the attitude of the general organizations of the denomination on this subject, and the Watchman was established in their defense. Mr. Stone continued the publication of the paper, as sole proprietor and editor, until June 18, 1853, when he sold it to John C. Burroughs, Levi D. Boone and A. D. Titsworth. From July, 1847, to September, 1848, Mr. Stone discharged the duties as pastor of the First Baptist Church of Chicago. After disposing of his paper, Mr. Stone continued to preach in Chicago in the various institutions of the city and to supply vacant pulpits until 1861, from tions of the city, and to supply vacant pulpits until 1861, from which time to the close of the war he preached at the Soldier's Rest, at Camp Douglas, at the Marine Hospital and other places, continuing throughout this period his work at the jail and at mission schools. In 1863 he was made secretary, being one of the original fifteen trustees, of the Baptist Theological Union, which founded the Baptist Theological Seminary, now (1883) located at Morgan Park. This office he held until 1866. In September, 1864, he received an invitation to become the president of Central University, located at Pella, Iowa, but declined the honor. In November of the same year, at the request of friends of education in Iowa, he purchased college premises in the city of DesMoines, consisting of five acres of ground, beautifully situated, upon which was a brick building. In order to do this he sold twenty acres of land south of and near to the city of Chicago, running from State Street to the present Grand Boulevard between Forty-eight and Fiftieth streets. Mr. Stone paid \$3,000 for the college premises at Des Moines. The twenty acres above mentioned he sold for \$6,000, and in 1868, only four years afterward, it had a market value of \$200,ooo. In May, 1866, he went to Europe, accompanied by his wife and daughter, and spent over two years in travel. He visited Scotland, England, and all the principal countries and cities in continental Europe, crossed the Mediterranean and entered Egypt at Alexandria, and ascended the Nile eight hundred miles to Nubia, and, returning, visited Jerusalem, the Jordan, the Dead Sea, Beth-lehem, Hebron, Damascus, Beyrout, Smyrna, Constantinople, and also through the countries and principal cities of southern Europe to Hamburg, whence he embarked for home, reaching there July 3, 1868. Since this time Mr. Stone has lived the life of a retired minister, spending his days in that pleasantest of ways, perusing and studying the writings of the master minds of the past. read all the works of all the great Greek philosophers and historians-Aristotle, Plato, Herodotus, Thucydides, Demosthenes and Æschylus, the principal Roman writers from the earliest to the latest, and has made a special study of American history and politics, so that there are probably few American statesmen better read in the politics and history of their country than he. Mr. Stone was married January 26, 1854, to Mrs. Anna M. Jacobus, a widow lady who had two children by her former marriage. Her maiden name was Speer. Her mother was of Holland descent and one of the descendants of Anneke Jans, who for many years has been contesting the title to the Trinity Church property, New York, which, previous to the conquest of the Hollanders by the English, was her homestead. He has raised and educated, and assisted in raising and educating, several children not his own.

THE FIRST METHODIST CHURCH.—Reference to the "Pre-Church" history of Chicago will show that the Methodists were the first in this city to form the nucleus of a Church society, and might without impropriety have been placed first in the list of organized churches, but as their regular and permanent organization was not effected until 1834, the sketches of the churches organized in 1833 precede.

At Rev. Jesse Walker's first quarterly meeting in 1833, held in the Watkins school-house, which was located on North Water Street, between Clark and LaSalle, Rev. Henry Whitehead received his license to preach, and occasionally preached in the Temple Building. In the spring of 1834 Charles Wisencraft was appointed class-leader. For a time services were held in various places—in Billy Caldwell's log council-house, in Chester Ingersoll's tavern, or in Watkins's school-house; but

as the membership of the Church increased, the necessity for a building became more pressing and measures for its erection were soon taken. It was built at the

· Henry Whitehead

corner of North Water and Clark streets, by Henry Whitehead and John Stewart. According to the original contract it was to be a "frame building twenty-six by thirty-eight feet; twelve-foot posts; sheeted and shingled roof; a neat pulpit; a platform for table and chairs; the whole to be done in a workmanlike manner," for \$580. The contract was signed June 30, 1834. The building was finished, and religious services held therein until 1836. Rev. Jesse Walker preached regularly every Sunday most of the remainder of the year 1834, but about the beginning of the winter of 1834–35, he became superannuated and was succeeded by Rev. J. T. Mitchell. On October 4, 1835, Rev. Jesse Walker died at the age

of sixty-nine years.

During the winter of 1834-35 a number of conversions and accessions to the membership was made. Chicago Methodism is largely indebted to the zeal and efficiency of Rev. John T. Mitchell. He gave to the Church a thorough organization and laid the foundations of its future stability. He was succeeded in 1836 by Rev. O. T. Curtis. The Church that year was struck off the list of missions, and erected into an independent society. Mr. Curtis was a pious, amiable and quiet man, but not very energetic. In part for this reason the financial crisis that began to be felt that year had a peculiar effect upon the religious zeal of many of the members. At the loss of their wealth, they lost faith in God, and turned their backs on the Church. In addition to this some members lost their integrity, and the fall of others was especially ignominous and sad. Blow after blow fell with quick succession and crushing effect upon the Church and, added to the financial embarrassments, threatened to overwhelm it with confusion and shame. The faithful few were deeply humiliated. They "gathered around their almost forsaken altars, and humbling themselves before God with tears and agonizing prayers, besought the World's Redeemer for mercy and help." In answer to their prayers, as they believed, the Conference of 1837 sent Rev. Peter R. Borein to them "for a Joshua to lead them out of the wilderness." \* \* "He came in the fullness of the Gospel, burdened with the love of Christ to dying men. He gathered his feeble flock around him and breathed into them something of his own mighty faith, and with them, at the feet of the Redeemer, cried for help. Salvation was poured as in a mighty torrent upon the people.' This effect was not produced, however, at once upon the arrival of Mr. Borein. It was a year afterward that the great revival occurred. So great was the interest awakened at this revival, still vividly remembered by many now living at Chicago, that about three hundred united with the Church; the young city containing at the time a population of about three thousand. This revival commenced in December, 1838, and lasted till April, 1839. Mr. Borein died soon after its close. Those who heard it will never forget his last sermon. His subject was the vision of the dying Stephen, and during the delivery of the sermon he pictured for the congregation his own conception of heaven. In the language of Rev. S. R. Beggs, "he believed that in the next, as in this world, there were degrees in Christian attainments, and that in the land of glory some would occupy higher positions than others; that sometimes his imagination had pictured heaven as a vast amphitheatre, whose seats rose tier above tier, up to the very throne itself; and when, from the lower seats, the white-robed struck the exultant song of redemption, it was caught up from rank to rank, growing louder and sweeter as it rose, while in unison the angel choir struck their lyres, and from every golden harpstring of saint, angel, cherubim and seraphim, was poured the rapturous, jubilant, adoring song and heaven was filled with an atmosphere of melody.

During the summer of 1838, the church was moved

FIRST METHODIST EPISCOPAL CHURCH.

across the river, on scows, from its position on the North Side, to a lot at the corner of Clark and Washington streets, purchased in 1836 by Dr. R. Tripp, for \$3,250. The society purchased a portion of this lot, which was eighty by one hundred and eighty feet in size, but never paid for it, as before the payments were completed, eighty by one hundred and thirty feet of it was secured as a donation from the canal company. Subsequently a lot at the corner of Adams Street and Wabash Avenue was donated for a parsonage, by David Carver. The church building after removal was enlarged from time to time to meet the necessities of a continually increasing congregation; and in 1845, through the influence of Rev. W. M. D. Ryan, a brick building, sixty-six by ninety-five feet, was creeted at a cost of \$12,000. The corner-stone was laid on the 8th of May, and the dedication occurred in November. This

church stood at the corner of Clark and Washington streets. It had a stone basement eight feet high, and walls thirty feet high. The apex of the spire was one hundred and forty-eight feet from the ground. The

auditorium seated one thousand persons.

After the death of Rev. Mr. Borein in 1839, Rev. S. H. Stocking was appointed to the charge. He was succeeded by Rev Hooper Crews, who remained during the years 1840-41. In 1842 Rev. N. P. Cunningham was appointed, and in 1843 Rev. Luke Hitchcock. He was succeeded by Rev. W. M. D. Ryan, in 1844; Rev. Chauncey Hobart, in 1846; Rev. Philo Judson, in 1847; Rev. Richard Haney, in 1848; Rev. Stephen P. Keyes, in 1850; Rev. J. W. Clark, in 1852; Rev. Hooper Crews, in 1854, and Rev. James Baume, in 1856.

An incident in connection with early Methodism may be appropriately introduced. It was in 1836 or 1837. There was considerable excitement in the country over the slavery question, and as there were some strongly pro-slavery Kentuckians in the Church, anti-slavery agitation was avoided. If any member in his prayers ventured to "remember those that are in bonds, as bound with them," he was at once branded as an abolitionist, and made very uncomfortable generally. At the time there was present in Chicago a fugitive from slavery, whose name was William Brown. Having escaped in a box, he was known as William Box Brown. At one of their meetings, by prearrangement, William Box Brown delivered an anti-slavery address, much to the surprise, consternation and disgust of those not in the plot. Leading Methodists arose to their feet, and made frantic efforts to dismiss the meeting. "They buzzed around like enraged bumble bees, and finally put out the lights." But Mr. Brown was not to be disturbed. He remained selfpossessed and calm, and with telling power put in his words. At length he ceased and peace returned. It is not necessarily to be inferred from this incident that those who tried to keep out anti-slavery discussion were in favor of the continuance of the institution of slavery. Their main desire was to build up Methodism in Chicago, and to accomplish this most effectually they thought it necessary to exclude dissensions and promote harmony.

This Church was incorporated November 20, 1835, as the "Methodist Episcopal Church of Chicago. Being located later on Clark Street, it was popularly known as the "Clark-street M. E. Church." 14th of February, 1857, an act of the Legislature was approved, changing the name to the "First Methodist

Episcopal Church of Chicago."

REV. PETER RUBLE BOREIN was born on Sinking Creek, Washington Co., East Tennessee, November 17, 1809. His father, Greenberry Borein, was of English, and his mother, Mary (Ruble) Borein, of German descent. During his childhood and youth he was distinguished for an amiable and affectionate disposition, and for filial obedience. His early education was from necessity very limited. In August, 1828, he attended a camp-meeting, became converted and resolved henceforth to devote his life to the gospel ministry. He at once entered heartily into the social and religious exercises of the neighborhood, and conducted services in the upper story of his father's house. Previous to his conversion he had given no evidence of the possession of uncommon intellectual powers, but from that time forward, an extraordinary development of the control of the very state of very state Rev. Mr. Kirby, a Congregational minister, was attracted to him, and he was advised by this reverend gentleman to enter Jacksonville College. Mr. Borein acted upon this suggestion, and continued in connection with this college for some time, pursuing his studies with great diligence and success, but through the importu-

nity of his friends, who were impatient to see him engaged in the active duties of the ministry, he was dissuaded from completing his course of study, which it is said was afterward to him a matter of regret. Immediately after leaving college he was licensed to preach received on trial in the Illinois Annual Conference, and in the fall of 1833 appointed to travel the Canton Circuit. In 1834 he was appointed to the Rushville Circuit, and in 1835 to the Henderson River Mission. In the fall of 1835 he was appointed to the Quincy missionary station, where he labored for two years with great zeal and success and until near the close of his pastorate enjoyed almost universal popularity. But when he somewhat prominently identi fied himself with the anti-slavery movement, he alienated many of his friends and rendered himself obnoxious to a considerable portion of the community. The Conference of 1837 appointed Mr. Borein to the Chicago station. Here he commanded great attention as an able and eloquent preacher, and wielded an influence over the religious thought of the infant city which was not only new, but was deep reaching and widespread. The revival which was thus awakened spread throughout all the evangelical denominations of the town continued for many months and gathered many into the Church. About three months after the close of this remarkable revival he was taken sick, and after a seventeen days' illness died August 15, 1838, at his home. His funeral sermon was preached by the Rev. Isaac T. Hinton, and subsequently a commemorative discourse was delivered by Rev. John Blatchford. Mr. Borein was married in December, 1836, to Miss Lucinda Burns. Mr. and Mrs. Borein had two children. After Mr. Borein's death Mrs. Borein married Thomas Pope, and is now living in Alton, Ill. The family name is Boring, but the orthography of it was changed by the subject of this sketch, above facts were obtained from a sketch of the Rev. Mr. Borein in Sprague's Annals of the American Pulpit. The following with reference to his physical appearance is from the pen of the Hon. Grant Goodrich: "He was one of the handsomest men 1 ever saw. Great intellectual power was blended with a singular beauty of feature and expression. His eyes were blue, large and lustrous, and, when he was animated, they seemed the medium through which his soul was not only beaming, but actually blazing forth. His voice was like the music of running waters-when he sought to persuade, there was a deep plaintive earnestness in its tone, which was well-nigh resistless; and when he uttered the language of warning or denunciation it seemed by an indescribable power, to pierce to the inmost soul. Men of more intellectual polish and of profounder thought I have often heard, but never one so effectively eloquent—one who possessed such perfect control of the will and heart as Mr. Borein.

REV. STEPHEN R. BEGGS was born in Rockingham County, Va., March 30, 1801. His great-great-grandfather, James Beggs, was born in Ireland. His great-grandfather, Thomas Beggs, was born in New Jersey, where he married Sarah Barnes, and whence he emigrated to Virginia. Thomas Beggs had four sons and one daughter. One of these sons, John, had one son, James, and eight daughters. James married Miss Mary Custer and had four sons, one of whom was Stephen R., the subject of this sketch. In the year 1805 his father moved his family to Kentucky, where on account of his opposition to slavery he remained only two years, when he settled in Clark County, Ind., on the Ohio River, about seventeen miles above the falls at Louisville. Stephen's opportunities for obtaining an education were limited to the common schools of his time. Acting upon the advice of Rev. James Armstrong, he was educated in and graduated from the "Brush College," as was the case with most of the pioneer Methodist ministers of the West. In 1822 he was appointed to the Mt. Sterling Circuit on the Ohio River. In 1823 he traveled the Lemoin Circuit, in what was called the Boone's Lick country; in 1824 the Fishing River; in 1825 the Rushville; in 1826 the Vincennes; in 1828 the Wayne; in 1829 the Crawfordsville, and in 1830 was sent to the Logansport mission, embracing Logansport, Lafayette and Delphin. In 1831 he was appointed to Chicago, a partial account of his labors in which place is inserted in the introduction to the Church history, and an account of Mr. Beggs's troubles in connection with the Black Hawk massacre, which drove him to Plainfield, is inserted in the early history of the city. At Plainfield he bought a home. In 1832 he was appointed to the Desplaines mission, of which Jesse Walker was superintendent, and to which Mr. Beggs was re-appointed in 1834. In 1835 he was sent to the Bureau mission, and re-appointed to it in 1836. At the Conference held at Rushville in 1837, Mr. Borein delivered an effective speech in favor of the missionary cause. Mr. Beggs was located at Joliet that year, where he preached the first Methodist sermon in the place, and commenced the first church building. In 1837 he traveled the Forked Creek Circuit; In 1838 the Joliet; in 1839 the Peoria; and after traveling varions other circuits, he became in 1868, on account of his wife's illness, a superannuated, but not indigent, minister. Since then he has lived a retired life, occupying his time in part in authorship, writing and publishing an interesting volume, entitled "Pages from the Early History of the West and Northwest." Mr. Beggs was married September 1, 1831, to Miss Elizabeth Heath, who was born in Muskingsm County, Ohio. December 27, 1813, and died at Plainfield, Ill., August 7, 1866, He was married the second time to Mrs. Sarah Rheubnam Frost, who still lives. Mr. Beggs's first child was born in Fort Dearborn, and died when but thirteen mouths old. Three sons, James, George and Charles, are still living.

REV. HENRY WHITEHEAD was born June 17, 1810, in Chatham, England. Both his parents were members of the Wesleyan Methodist Church, and by them young Henry was instructed in the truths of the Bible. On the 3d of April, 1823, to use his own language, he "obtained a conscious sense of the pardoning favor of God." It then became his strongest desire "to win souls to Christ." When twenty-one years of age he began as a local He sailed from London for the United States April 24, 1832, reaching New York City June 5, in which city and in Troy he lived until June, 1833, when he left the latter place for the Sault Ste. Marie mission. From the Sault he came to Chicago, reaching here September 17, 1833. On the first Sunday after his arrival he preached in the log school-house, and received his license to preach at the first quarterly meeting of that conference year. In 1834, in partnership with a Mr. Stewart, he built the First Methodist church on the North Side. In the fall of 1835 he removed to Joliet, thence, in 1837, to Little Fort, now Wankegan, and thence, in 1839, to Racine. In 1840 he joined the Rock River Conference; 1842 was ordained deacon, and appointed to the Troy circuit in Wisconsin. In 1844 he was ordained elder and appointed to the Sylvania circuit, and in 1845 to that of Buffalo Grove. In July, 1846, he removed to Chicago, and at the next annual conference was superannuated on account of ill health. In 1851 he commenced keeping, in his store at the corner of State and Madison streets, religious books, which upon the opening of the Methodist Book Concern, in 1852, he turned over to that concern, becoming connected with it, where he remained until the fire of 1871. After the fire he became manager in Chicago for Bigelow & Main, publishers of Sunday-school and church-music books, a position which he still holds. Mr. Whitehead was married, in Chicago, to Miss Elizabeth Jenkins, July 11, 1831, by Rev. Allen B. Freeman. Mrs. Whitehead is still living. They have had five children, one of whom, Sarah Ann, the eldest, is dead. The four living are:

William H., Edward J., Eliza Jane, and Caroline N., all of whom

are married except the latter.

CANAL-STREET METHODIST EPISCOPAL CHURCH was organized in 1843 by a colony from the Clark-street Church, during the pastorate of Rev. Luke Hitchcock. The original members were nineteen, as follows: Mr. and Mrs. William Wisencraft, Mr. and Mrs. Joseph Kittlestring, Mr. and Mrs. James Robinson, Mr. and Mrs. Nathaniel Webber, Mr. and Mrs. Thomas George, Samuel Small, Mr. and Mrs. John Tressy, Mr. and Mrs. John Roe, Mr. and Mrs. Elisha B. Lane, and Mr. and Mrs. A. S. Sherman. The first church building erected by this society was situated on a lot on the west side of Canal Street, south of Randolph, purchased by A. S. Sherman for the purpose. This was the first lot pur-chased for a church on the West Side. The building was a low frame structure, thirty by sixty feet in size, capable of accommodating about three hundred people. The original cost was \$1,400. It was afterward moved back on the alley, and turned round so as to front north instead of east. The First Congregational Church was organized in this building. In 1852 the membership had increased to such an extent that it was necessary to have greater facilities, and business had so encroached upon the location that it was necessary to remove; hence a new and much larger edifice was erected in 1852 on Jefferson Street, between Washington and Madison, on a lot which had been purchased in 1851, preparatory to the removal. The Canal-street church was sold, and converted by the purchaser into a furniture factory. The change was made February 11, 1853, from which time until the removal to West Monroe Street the Church was known as the Jefferson-street Methodist Episcopal Church. The first pastor of the Canalstreet Church was Rev. Warren Oliver, appointed in 1843, who in 1844 alternated with Rev. William M. D.

Ryan, then pastor of the Clark-street Methodist Episcopal Church. In 1845 Rev. Sins Bolles was appointed pastor, and was succeeded in 1847 by Rev. Harvey S. Bronson, who was succeeded in 1848 by Rev. Richard A. Blanchard, who remained two years and was succeeded in 1850 by Rev. William Palmer, whose pastorate was terminated by death from small-pox in December, 1851. In 1852 Rev. James E. Wilson became pustor, being assisted by Rev. William Keegan. During Mr. Wilson's pastorate the Church removed to Jefferson Street. While it remained in this location the pastors were: Rev. E. H. Gamnon, appointed in 1853; Rev. Sins Bolles, in 1854; Rev. J. F. Chaffee, 1855; Rev. S. P. Keyes, 1857; Rev. R. J. White, 1858; Rev. W. W. McKaig, 1859; Rev. T. M. Eddy, D. D., and Rev. F. D. Hemenway, 1860; Rev. C. H. Fowler, 1861; Rev. Robert Bentley, 1863; Rev. Charles Shelling, 1864. During the year 1865 the pulpit was unsupplied, and on September 6, 1865, the property on Jefferson Street was sold for \$16,000. On the 21st of November, 1865, subscription was started for the building of the Monroe-street church, and at the same time a resolution was adopted by the members present that the name of the Jefferson-street Methodist Episcopal Church be changed to that of the Second Methodist Episcopal Church. This resolution, although carried unanimously, was never consummated. On March 10, 1866, the plans of W. W. Boyington, architect, for the new West Monroe-street church, were accepted, and E. H. Gammon and G. F. Foster appointed the building com-Toward the erection of this church building the First Methodist Episcopal Church appropriated \$8,000. During the year 1866 the new building was completed and dedicated, and the name of the church changed to the Centenary Methodist Episcopal Church, that title being chosen from the fact that that year was the centenary of American Methodism. A description of this edifice and a history of the Centenary Church will be inserted in the third volume of this History.

INDIANA-STREET METHODIST EPISCOPAL CHURCH. -At the time this Church was organized, there were but two Methodist churches in the city, the Clark-street and the Canal-street churches. This was in 1847. A number of members of the Clark-street Church, living on the north side of the river, became desirous of organizing a Methodist Church in the North Division, and determined so to do. With the view of carrying out this design, a meeting was held at the residence of Hon. George F. Foster, which then stood at the corner of Clark and Kinzie streets. At this meeting an organization was effected by the election of the following trustees: Hon. George F. Foster, A. J. Brown, Jeremy Hixon, John W. Senser, Charles Sweet and C. H. P. Lyman. The original members of this Church were in part the following: George F. Foster, Mary S. Foster, Jeremy Hixon, Mrs. Hixon, Andrew J. Brown, Charles H. P. Lyman, Mrs. Lyman, John W. Senser, Charles Sweet, Susan Sweet, Abner R. Scranton, M. F. Ellinwood, Miss Diana Morse, F. C. Jordan, Anna Jordan, William Gamble, Mrs. Gamble. The name adopted by this society was the Methodist Episcopal Society of Indiana-street Chapel, and immediately two lots were leased on the south side of Indiana Street, between Clark and Dearborn, upon which to erect a church. This building was completed in November, 1847, and was a small, neat frame structure, about thirty-five by forty-five feet in size, which cost \$1.300. At the dedication of this house of worship, which occurred November 14, 1847, Rev. James Mitchell preached the dedicatory sermon. At the Conference

of 1847 Rev. Freeborn Haney was appointed pastor. Soon after the dedication, the Church, having been assisted by friends to meet the financial obligations incurred in the enterprise, and being therefore full of zeal and faith, commenced a series of revival meetings, which resulted in the accession to their membership of considerable numbers. The following extract from a historical sketch of this Church written by Abner B. Scranton for John G. Collins's "Annual Compendium of Methodism," is concise and yet sufficiently full, and is therefore introduced in this place:

"In 1848 Rev. John F. Devore was appointed pastor, and in 1849 the Rev. Zadoc Hall followed him. During Rev. Mr. Hall's pastorate, payments were made upon the lots which had been bought, and a small brick parsonage was built. In 1850 the Rev. Boyd Lowe was sent to succeed Mr. Hall, and at a meeting held in the church our brother Dunham was converted, and has since remained continuously a member. The Rev. John W. Argard was appointed pastor in 1851, and remained one year. Each of the preachers, it will be observed, down to this date, served the Church but one year. At the annual conference of 1852, the Rev. Sins Bolles was appointed pastor, and served faithfully for two full years. During this pastorate the capacity of the church building was nearly doubled by an addition to the rear, extending back to the alley, making the building about thirty-six by eighty feet; this added nothing to its beauty or symmetry. In the year 1854 the Rev. Thomas Williams followed Brother Bolles and remained three years, the presiding bishop suspending or ignoring the two-years rule then limiting the pastorate term, for the reason that some of the members had informed him that the society was about to erect a new church, and that the return of Mr. Williams was necessary for the accomplishment of that purpose. A vague hope had been entertained by the more ambitious members that a new and imposing church building would be erected; that, in fact, such a building was essential. The old building, cheaply built of wood, a containing was executing. In e our counting, eneaply built of wood, was exceedingly uncomfortable, it being impossible to heat it properly in winter, and the sun lying on the low roof made it intolerably hot in summer. The society, however, had no resources adequate to the realization of their ideal, and ought not to have moved in the matter of enlargement until their means had been greatly increased. The gritation for new commediation is considered in the content of the property of the creased. The agitation for new accommodations increasing, intensified greatly by the allegation that the preacher had been sent for this specific work, the trustees, fully realizing that the site on Indiana Street was unsuitable for a permanent church home, contracted and street was unstatated of a permanent church money, contacted for the purchase, in the spring of 1857, of a lot on the southeast corner of Erie and Wolcott (now State) streets. This movement was disastrous to the society, but it undoubtedly prevented what would have been a great deal worse, namely, the premature commencement of a new building on the old lot, plans and specifications with the leaves of the contact of the tions for which had been prepared, and a pressure put upon the trustees by a number of class leaders, stewards and others, temporarily resident, to begin a work which they had not ability to accomplish, and in a manifestly improper place. In the summer of 1857 Rev. S. G. Lathrop was appointed pastor, and entered upon his work with great energy. Scarcely had he begun, however, when the great financial panic seized the people. Nearly all the members of the Church were prostrated financially. Quite a number of bers of the Church were prostrated financially. Quite a number of the members, prior to this time, had moved to Evanston, arranging, however, to pay their portion of the cost of the new lot. These all went down in the storm, and the ability of the society to pay, largely The trustees soon began to fear that they would not be able to meet the engagements they had entered into - and this apprehension was by no means groundless; for when, upon the maturity of an installment due on the lot recently contracted for, payment was demanded, there were no funds, current expenses, though reduced by the strictest, absorbing all resources. trustees were now obliged to mortgage the Indiana-street lot, as an additional security for the sums due upon the new one, and as was clearly foreseen, the result of this was that both lots were sacrificed to clearly toreseen, the result of this was that both folls were sacrinced to satisfy these claims, leaving nothing but the equity of redemption, should there be any. The society determined to pay their debts, as long as they had anything to pay with, and pledged their whole property for this purpose. The final outcome was, that the lots were sold by the mortgagees, the full claims against the society were met, with interest and costs, and \$1,087,85 was paid into the Church treasury. Brother Lathrop served the Church faithfully for two years, and several who joined it under his ministry remain as active members to the present time (1878). A change in the pastorate again occurred in 1859, the end of Brother Lathrop's time having been reached, and in the year 1861 the Church received thankfully the appointment of Rev. Dr. L.H. Bugbee, as pastor. The society having been a tenant at the will of the mortgagee for a long time, realized the necessity of making provision for the future, at the same time realizing their inability to accomplish so great a work as the providing a church and lot. Having lost all but honor, they were determined to retain that. Recovery from the effects of the panic was slow, and the wrecks were numerous that had strewn its course. All these considerations combined to make men cautious. After much deliberation, a plan, and the only one that seemed feasible, was suggested by the pastor, for raising money to purchase a lot, and was heartily adopted. It was, in brief, for the members of the congregation to subscribe as much as they would, payable monthly to such ladies of the Church as would engage in the work, and in addition, solicit from friends and the public donations and subscriptions. In furtherance of this object, a society was organized under the name of the 'Ladies' Church Aid Society.' About twenty ladies accepted subscription-books. About twenty ladies accepted subscription-books, and engaged in the work with great assiduity, many of them for three or four years. Funds immediately began to accumulate, and soon, at the request of the society, the lots on the northwestern corner of Chicago Avenue and LaSalle Street were purchased. total cost of these lots was \$9,339.39. Of this amount the sum saved from the equity in the Indiana-street lot, \$1,087.85, was paid by the Church, and the entire balance, \$8,251.54, was collected by the ladies of this society, so regularly and promptly, that the payments due upon the purchase money were made at maturity. It is not too much to say, that these ladies by their unswerving devotion to Christ's cause, laid the foundation for whatever of success our Church has since achieved.'

To this excellent sketch by Mr. Scranton, but little need be added in this volume. Having secured these new lots, the Church was re-organized on the 8th of June, 1863, and adopted the name of the "Grace Methodist Episcopal Church," and soon afterward erected a chapel, and still later a larger church edifice. A description of both, and a history of Grace Church as the successor of the Indiana-street Church will be included in the succeeding volume of this History.

THE STATE - STREET METHODIST EPISCOPAL Church originated with Orrington Lunt. In 1848 Mr. Lunt bought the lot upon which its first house of worship was located, immediately reporting its purchase to the official board of the Clark-street Methodist Episcopal Church, and offering it to them for what he paid for it, \$1,600; and also proposing to pay \$100 toward the purchase. In the spring of 1851 the Society took possession of the lot. About the same time the Clarkstreet Church instructed a few of its members to furnish a place for preaching and Sunday school. As a result of these instructions a portion of the frame building of the Second Presbyterian Church was purchased and moved to the lot, which was at the northwest corner of State and Harrison streets. The building when moved and ready for occupancy cost \$1,600, and was paid for at its dedication. During the summer of this year regular religious services and Sunday school were continued in this building, and on Sunday, August 24, 1851, the Church was organized by Rev. N. P. Heath, its first pastor. All the constituent members, twenty-eight in number, were from the Clark-street Church. Following are their names: George C. Cook, Mrs. George C. Cook, S. W. Grannis, Aurisson Grannis, George W. Reynolds, E. G. Reynolds, Christopher O'Neil, Sarah Milner, Daniel Goss, Cynthia Goss, Mary Pennington, Charles Brink, James M. Merryfield, William and Margaret Gibson, Stephen and Maria Cherry, Albert Cabery, Ruth Cabery, Levi Chipman, Mary Chipman, Sarah Chipman, R. Kegan, Margaret Kegan, Francis Kegan, Edward Kegan, Charles Busby and Arthur Hitchcock. The first trustees were Daniel Goss, C. H. Abbott, Samuel W. Grannis, George C. Cook and Elihu G. Reynolds. The first pastor was Rev. N. P. Heath, who was appointed in 1851, and remained two years, when he was succeeded by Rev. F. A. Read. Rev. Mr. Read remained two years, and was succeeded in 1855 by Rev. W. B. Slaughter. Rev. Mr. Slaughter remained until the spring of 1857, when he was succeeded by Rev. William

M. D. Ryan, a very able and popular clergyman, who was appointed to the State-street Church for the special purpose of procuring the erection of a new building on Wabash Avenue. The first subscription for the building of the Wabash-avenue Church was dated March 26, 1857, and amounted to \$32,555. The names of sixtynine persons were appended to the subscription list. The transfer and change of name from "State-street Methodist Episcopal Church" to "Wahash-avenue Methodist Episcopal Church" was made April 1, 1857, and on that day new trustees were elected as follows: Daniel Goss, C. B. Hearth, C. H. Abbott, Lott Frost, George C. Cook, H.W. Clark, William M. Doughty, E. G. Reynolds and W. B. Phillips. On the 20th of April the trustees were organized by the election of the following officers: President, E. G. Reynolds; secretary, Lott Frost; treasurer, George C. Cook. On the 11th of May the salary of the pastor, Rev. W. M. D. Ryan, who had been sent to fill out the unexpired term of Rev. W. B. Slaughter, was fixed at \$600 and use of parsonage from March 4, 1857, to the meeting of the conference in the fall. The corner-stone of the new building, which stood on the northwest corner of Wabash Avenue and Harrison Street, was laid July 13, 1857, and the edifice was completed and dedicated July 15, 1858, the dedicatory sermon being delivered by Rev. R. S. Foster, president of the Northwestern University in Evanston, At the close of the discourse a collection was taken up and subscriptions to the amount of \$5,000 received toward the cost of the pews, the galleries being made free. A description of this building, as properly belonging with the history of the Wabash-avenue Methodist Episcopal Church, will be inserted in the succeeding volume of this History, where will also be found a biographical sketch of Rev. William M. D. Ryan.

THE DESPLAINES-STREET METHODIST EPISCOPAL CHURCH. - In the year 1850 a Sunday school was started in a cooper-shop at the corner of Harrison and Clinton streets, the leaders in the movement being Henry Willard, James Robinson, and Mrs. Huntoon. The Sunday school was continued here until the spring of 1851, when it was removed to a school-house built for its special use at the corner of Polk and Clinton streets. Rev. William Palmer, at the time pastor of the Canal-street Church, assisting to build the school-house. James Robinson was superintendent of the Sunday school. In 1854 the Sunday school and mission, as it now became, were removed to the southeast corner of Harrison and Foster streets, and here, in 1855, Rev. Sins Bolles commenced his labors as missionary, continuing until October, 1856, when Rev. William Tasker was appointed for the purpose of organizing a Church. Mr. Tasker remained until September, 1857, and succeeded in organizing a Church, and erecting a church building. This being effected, the two lots and building owned by the primitive organization, or mission, at the corner of Harrison and Foster streets, were sold to Thomas Thompson for \$3,500, who sold the building to Josiah Greenwood for \$150. The original members of the Desplaines-street Church were as follows: Richard Manley, Mr. and Mrs. Thomas Manley, Mr. and Mrs. John Hustivit, Henry Robinson, Joseph Ellsworth, Mrs. Mary Ellsworth, Henry Willard, Mr. and Mrs. George Somers, Mr. and Mrs. Henry Pithey, Mr. and Mrs. Liversidge, Mr. and Mrs. Hogan, Mr. and Mrs. Needham, Mr. and Mrs. Alexander Drake and Mr. and Mrs. Alexander Shepherd and some others. The building was located at Nos. 241 and 243 South Desplaines Street, between Van Buren and Harrison, and was dedicated July 26, 1857, the morning sermon being delivered

by Bishop Ames, and that in the afternoon by Rev. R. S. Foster, president of the Northwestern University. The original cost of the church was \$5,200, the steeple being very large and expensive. Mr. Tasker was succeeded in the pastorate in September, 1857, by Rev. Henry Whipple, who re-organized the society and remained with it until 1859, when he was succeeded by Rev, David Teed, who remained until 1860. Mr. Teed was succeeded by Rev. Elijah Stone, who was pastor two years, and was succeeded in 1862 by Rev. Lucius Hawkins, who remained one year. Rev. E. M. Boring, now of Wheaton, Ill., became pastor in 1863, and remained one year. In 1864 Rev. T. L. Olmsted was appointed pastor and remained eight months, the balance of his year being filled out by Rev. Elijah Stone, who during this time discovered that the board of trustees had never been legally organized, and succeeded in having a legal organization effected. In 1865. Rev. S. Guyer, was appointed and remained one year. During his pastorate the church was removed to Maxwell Street, when the society became popularly known as the Maxwell-street Methodist Episcopal Church, though the re-organized society was incorporated under the name of St. Paul's Methodist Episcopal Church. At the time of the removal to the new location a division occurred among the members, somewhat more than one-third uniting themselves with the Centenary Church. The Desplaines-street building, which was a frame structure, forty-five by seventy feet in size, was sold to the Evangelical Lutheran organization, which occupied it for a number of years as a church. From the time of its sale, the society worshiped in Foster mission, on Polk and Jefferson streets, until 1866, when they removed to their present location on Maxwell Street, near Newberry Avenue. The pastors after the removal to Maxwell Street were Rev. A. T. Needham, appointed in 1866; Rev. E. W. Fay, appointed in 1868; Rev. W. H. Burns, in 1869.

THE OWEN-STREET METHODIST EPISCOPAL CHURCH. -The origin of this Church was in a Sunday school started in 1851, in a school-room on North Green Street. Of this Sunday school, Samuel Polkey was superintendent. In 1852 a Church was organized, consisting of the following members: Mr. and Mrs. Samuel Polkey, D. E. Lord, E. P. Lewis, Thomas Cannon, Mr. and Mrs. James Ridley, Mr. and Mrs. H. Waggoner, Mr. and Mrs. H. C. Fulton, Mr. and Mrs. D. D. Williams, John Noble, Mrs. J. Lester, Mrs. Commons and Mrs. Toops. The society purchased two lots on the northeast corner of Sangamon and Owen streets, and a building was erected fronting on Owen Street, from which fact the Church received its name. The edifice was a small frame one, twenty-five by thirty-five feet in size, and cost \$300. It had a seating capacity of three hundred. The first pastor, Rev. S. Guyon, was appointed in the fall of 1853, and remained two years, when he was succeeded, in 1855, by Rev. C. French. Rev. William Tasker was appointed to the pastorate in 1856, and in 1857 Rev. Arza Brown was appointed by the Conference. Mr. Brown remained until the year 1860. In this year the name of the street was changed from Owen to Indiana, and consequently the name of the church was changed to the Indiana-street Methodist Episcopal Church, This name it retained until its removal to Ada Street, in 1869. The successor of Rev. Arza Brown in 1860 was Rev. Jacob Hartman, who remained one year and was succeeded by Rev. D. W. Couch. In 1863 Rev. W. D. Skelton was appointed pastor, and remained three years. During his pastorate the church first erected was taken down and replaced by a much more commodious edifice,

a description of which, being built during the period covered by our second volume, will find its proper place therein. The Sunday school still continues its existence. Its first superintendent was Samuel Polkey, who has been succeeded by the following gentlemen: H. Waggoner, Mr. Wilsey, L. L. Bond, Edwin Waggoner, John Culver, Alonzo Wygant, B. T. Vincent, Mr. Goodno and H. G. Coulson.

THE WELSH CALVINISTIC METHODIST EPISCOPAL CHURCH.—On the first Sunday in 1845, about twentyfour people of Welsh origin assembled in the house of the late John Davis, at 208 West Lake Street, to hold a Sunday school, Robert Griffith, of Caernarvonshire, being instrumental in gathering them together. From this time forward a prayer meeting was held once each week, from house to house. The ministers that visited them that year were Rev. Richard Davis, of Racine, Wis., Rev. George Lewis, of Fox River, Wis., Rev. William J. Jones and Rev. John H. Evans, of Dodgeville, Wis. The names of some of those who held meetings were as follows: John Davies, John J. Roberts, John B. Thomas, Evan Lewis, Robert Owen, Henry Roberts, David L. Roberts, and Mrs. Mary Evans, all members of English churches. There is an account of preaching in the fall of 1847, by Rev. W. J. Jones, and Rev. I. H. Evans, preaching in the house of Rev. Moses Williams on Wells Street, near Washington, and about the same time there was preaching by Rev. George Roberts, in the house of Evan Lewis, and by Rev. John Price Jones, in the house of James Thomas, on Prairie Street. In 1850 Rev. David Davis, of Prairieville, Wis., preached in the lecture-room of the Third Presbyterian church, on the corner of Union and Washington streets. In the spring of this year, the people of this inchoate church organization, rented a room at the corner of Randolph and Canal streets, in which to hold regular religious services. In July, 1850, Rev. Rees Evans, of Racine, came to Chicago and organized the Church, with thirteen members. The names of a few only of these original members are ascertainable, as follows: Rev. Moses Williams and wife, John B. Thomas and wife, Mrs. James Thomas, Mrs. Samuel Williams, Richard Newell and James Morgan. The first officers were John B. Thomas and James Morgan. Rev. Moses Williams preached for them every Sunday evening. In the summer of 1852, the Church bought a lot on Desplaines Street, between Randolph and Lake, on which they built a small frame church, thirty by forty feet, which was dedicated on the 26th of July in that year. The ministers present on this occasion were Revs. Edward Evans, of Racine, David Lewis, of Utica, N. Y., John Perry, of Racine, William R. Jones, of Milwaukee, and William Williams, of Big Creek. The building cost \$781.33, which, with the exception of \$51.50, was paid at the time of the dedication. The officers of the Church at the time were John Lawrence, Edward Williams and Potter Jones, and the trustees, Edward Williams, John B. Thomas, James Thomas, Owen Griffiths and Potter Jones. On October 13, 1853, Moses Williams was ordained a regular minister, and at the same time Rev. Rees Evans accepted a call to the pastorate at a salary of \$500. Mr. Evans remained until July, 1857, when he accepted a call to Cambria, Wis. On the 5th and 6th of November, 1853, the first Welsh Presbytery in Chicago was held. From 1857 until 1864 the pulpit was supplied by various ministers from Wisconsin and other places. In October, 1864, a call was extended to the Rev. D. Williams, of Milwaukee, at a salary of \$700 and a donation. Under his ministry the Church prospered, and the building soon became too small. In March, 1867, the society purchased the prop-

erty owned by them at the present time, of the American Reformed Church, paying therefor \$9,500. It is located at the northeast corner of Sangamon and Monroe streets. The lot is seventy-five by ninety-five feet. The old church was sold for \$3,400. The new building was occupied by this congregation for the first time, on the first Sunday in 1867, the opening sermon being delivered by Rev. Howell Parnell, of Cincinnati, Ohio. Rev. D. Williams was pastor until December, 1869. He died in Chicago in 1874. From 1869 to April, 1875, the Church was without a regular pastor and relied upon supplies. In the latter month a unanimous call was extended to Rev. David Harries, the present pastor, at a salary of \$1,200 and a donation. He commenced his labors with this Church on the second Sunday of August, 1875. The society at that time owed \$3,000, and the membership was one hundred and sixty. At the present time the membership is three hundred and fifty, the debt has been liquidated and the Church is in excellent financial and social condition. The officers of the Church at the present time are: Deacons, E. W. Evans, David Jones, John Jones, and R. R. Meredith; trustees, G. M. Owen, D. Jones, R. R. Meredith, R. W. Thomas, and E. A. Francis; treasurer, David Jones; secretary, Ellis Rice.

A brief history of the denomination is not inappropriate here. At Oxford, England, in November, 1729, a great revival prevailed, in which John and Charles Wesley and George Whitfield, with others, took active part. The name "Methodists" was given them as revivalists. In 1741 the Methodists became divided into two sects, the one Calvinistic, the other, including the Wesleys, Arminian. The revival reached Wales in 1735, Rev. Howell Harris and Rev. Daniel Rowland united with Whitfield. Harris was a thunderer, but Rowland was more like Whitfield. In 1739 there were nearly three hundred churches in South Wales. After a conversation with Harris, at Cardiff, Whitfield came to America. Rev. Daniel Rowland, of Slangeiths, Cardiganshire, Rev. William Williams, of Panty-Elza, Caermarthenshire, and Rev. Howell Davies, of Pembrokeshire, were the main instruments in kindling this great revival which awakened all Wales, and now this Calvinistic Methodist, or as it is called in this country, Welsh Presbyterian Church, has in America Presbyteries, General Assemblies and funds-about one thousand five hundred churches, one hundred and thirty thousand communicants, eleven hundred ministers, and church property valued at \$6,000,000. The denomination is strong in New York, Pennsylvania, Ohio and Wisconsin, but has only one Church in Chicago.\*

THE FIRST GERMAN METHODIST EPISCOPAL CHURCH was organized August 15, 1847, with about twenty-five members, a portion of whom were A. Biedermann, Johanna Kessler, Mr. and Mrs. Anton Waller, Mrs. Baumgartner, Christian Mueller, George Krinbill, F. Rudolph, Mr. and Mrs. Bink, John Stoetzel, Andrew Krinbill, Mr. and Mrs. F. Heinz, Charles Kessler, Friedrich Muchike and Ernst Dickermann. During the first year of their history they had preaching by missionaries, but in 1848 they purchased a lot and a building on Indiana Street, for \$500, and had appointed a resident minister, Rev. Philip Barth. The first quarterly conference in Chicago was held November 20, 1848, Rev. Conrad Eisenmerger being presiding elder, and Rev. A. Korfliage, preacher in charge of this Church,

The class-leaders were Peter Heins, Conference. George Krinbill and John Stoetzel. At the conference held October 31, 1856, a resolution was passed authorizing the Church to sell their Indiana-street property and purchase other in a more desirable location. Under this resolution Revs. G. F. Mulfinger and Frederick Kopp were appointed a committee to carry its provisions into effect. In 1857 a parsonage was erected and in the same year the new building on Clybourne Avenue was erected. It was of wood, thirty by fifty feet in dimensions, and cost about \$2,000. This church was used by the congregation until 1863, when during the pastorate of Rev. William Pfaffle, it was moved to the back part of the lot, and a new brick church erected in its stead. This was a two-story building, forty by seventy feet in size, and cost about \$10,000. The fire of October, 1871, swept away all the property of the Church, including a very comfortable two-story frame parsonage, which cost about \$2,500. After Mr. Barth, the pastors have been, Revs. A. Korfliage, appointed in 1849; J. J. Dreier, in 1850; Louis Kuntz, 1851; Philip Barth, 1852-53; Christian Wentz, 1854; J. H. Westerfeld, 1855; Christian Wentz, 1856; John L. Schaeffer, 1858; Jacob Hass, 1859; Frederick Kluckhohn, 1860; William Pfaffle, 1862, who remained three years for the purpose of completing the new brick church; Jacob Bletsch, 1865; G. F. Mulfinger, 1868, and Friedrich Rinder, 1870, who became pastor one year before the fire, by which he lost \$1,000. At this time the Church consisted of one hundred and ninety members, but the great calamity was very disastrous in its effects upon this society. Its members became scattered throughout the city, and many of them were obliged to leave Chicago to obtain the means of subsistance. However, those who adhered to the society soon recovered their courage and enterprise, and erected a temporary building promptly, which was dedicated on Saturday, November 11, 1871. In this building the society worshiped about eighteen months, by which time their present building was erected. It is a frame two-story structure above the basement, forty-four by ninety feet in size, and cost about \$17,000. The basement and first story are rented for business purposes and the upper story used for regular religious services and Sunday school. The temporary church edifice was converted into a parsonage, and cost altogether about \$2,500. Mr. Rinder was succeeded in 1874 by Rev. John W. Ræcker, who remained until 1876, and was succeeded by Rev. John Schnell. In 1879, Rev. George H. Simons became pastor and remained until 1882, when he was succeeded by Rev. Friedrich Rinder, who was pastor from 1870 to 1874, and is the present pastor. There are now two hundred and nine members.

CENTER-STREET Mission, located on Dayton Street, was started by members of this Church, and a few from the VanBuren-street Church, in 1876, during the pastorate, in the First German Church, of Rev. John Schnell.

THE VAN BUREN-STREET GERMAN METHODIST Episcopal Church was organized in October, 1852, by about twenty members, among whom were Mr. and Mrs. Jacob Isele, Jacob Landauer, Mr. Baumgartner and Frederick Fisher. Soon after the organization they purchased two lots at the corner of Griswold and Van Buren streets, paying therefor \$1,400. They also erected a small house of worship, which afterward became the parsonage. In the spring of 1854 they began the erection of a church building, with stone basement and frame superstructure, with steeple and bell, which was carried forward suffi-

which was connected at the time with the Rock River \* For the facts contained in the above brief sketch of the denomination, as well as the history of the Welsh Calvinistic Methodist Episcopal Church, this history is indebted to Rev. David Harries.

ciently to be ready for plastering, when the Chicago & Rock Island Railroad Company made an offer of \$15,000 for the lots. This offer was accepted. Two lots at the corner of Van Buren Street and Fourth Avenue, upon which stood a residence, were then purchased, and to which the church and parsonage were moved. The church building was then finished, and the whole property became very valuable. The first minister in this church was Rev. August Kellner, who was appointed soon after the organization in 1852. He remained until 1854, when he was succeeded by Rev. Frederick Schuler. Rev. W. F. Koeneke was appointed in 1855, and was followed in 1856 by Rev. Christian F. Holl, who remained two years. In 1858 Rev. Leopold Lass became pastor, and was succeeded in 1861 by Rev. Frederick Kopp. Mr. Kopp was succeeded in 1864 by Rev. Isidore Lewis, who remained one year, being succeeded in 1865 by Rev. C. A. Loeber, who remained until 1867. Rev. E. Wunderlich then became pastor and remained two years, being succeeded by Rev. Mr. Fichencher, who in 1872 was succeeded by Rev. C. A. Loeber, who remained four years as pastor and one year as agent for the society's property. Rev. J. W. Roecker was appointed pastor in 1877, and was succeeded in 1878 by Rev. C. F. Allert, the last pastor of the Church. The property of the society, as completed in the year 1854, consisting of the two lots, church building, parsonage and rented residence, were used until the fire of October, 1871, destroyed them. The society at that time was in a flourishing condition, and consisted of nearly two hundred members. Like many other societies, they were to some extent scattered and weakened by the great calamity; but those who remained attached to its fortunes were by no means deprived of confidence in its future prosperity, as was shown by their refusal to accept an offer for the lots of \$70,000, although advised to do so by some of the older and more experienced members. The plan adopted by the majority of the Church, which was composed of young and enthusiastic business men, was to erect a business block, following the successful example of the First Methodist Episcopal Church, with the expectation that the income from rents would furnish the society with a handsome revenue. The lots were each fifty feet wide. Sixty feet in width was mortgaged for \$40,000, at ten per cent annual interest, and a brick block erected thereon. This block is sixty by seventy-five feet in size, and four stories high. It was completed in 1873. The panic of this year prevented the realization of the hopes of the society, and the location did not prove as favorable for business as it was expected that it would. The annual interest on the debt, \$4,000, added to the ordinary expenses of the society, proved too excessive a burden to be borne. The members became discouraged, and gradually fell away from the Church. In March, 1879, when the debt amounted to \$48,000, and the membership was reduced to sixty, the mortgage was foreclosed. These sixty members distributed themselves among other German Methodist churches, uniting mainly with the Maxwell-street and Portland-avenue churches. In 1874 the Dayton-street Mission, which in 1879 became the Center-avenue Church, was started principally by members from the Van Buren-street Church. Among those active in the matter were Henry Ricker, Christian Cander and Charles Batsche. A sketch of this mission will be introduced in the third volume of this History.

MAXWELL-STREET GERMAN METHODIST EPISCO-PART CHURCH.—Certain members of the First German Methodist Episcopal Church on Indiana Street, and of the VanBuren-street Methodist Episcopal Church, in the year 1852, united in the formation of this society. In this movement about forty German Methodists were engaged. Among the more active ones were: Mr. and Mrs. Christian Brandes, Mr. and Mrs. Henry Gils, August Theis, Henry Juengens, Mr. and Mrs. John Lange, Eliza Zempta, Conrad Ocho, William Pagenhart, William Schreiner, Philip Ralfstadt, and Eruct Dikman. This society purchased a small building at the corner of Washington and Jefferson streets, wherein they worshiped about a year, with Rev. A. Kellner as their minister, when they moved their building to the corner of Harrison and Aberdeen streets, at a cost of \$200. Here they remained until 1864, when under the supervision of Rev. P. Hinners, then in charge of the congregation, the church edifice at present owned and occupied was erected. From the sale of the old building to the completion of the new one the congregation worshiped in a school-house at the corner of Halsted and Twelfth streets. The church on Maxwell Street is a brick basement with frame superstructure, surmounted by a low tower. It is forty-five by sixty-five feet in size and cost about \$7,000. The first minister, after the removal to Harrison and Aberdeen streets, was Rev. Ernest Baar, who was succeeded by Rev. R. Fickenscher, who in turn was succeeded in 1855 by Rev. Henry Senn. Since that date the pastors have been as follows: Revs. R. Fickenscher, 1856; W. Winter, 1858; Isidore Lewis, 1860; L. Lass, 1861; P. Hinners, 1863; F. Fischer, 1866; R. Fickenscher, 1868; C. G. Becker, 1870; J. W. Roccher, 1872; G. L. Mulfinger, 1874; C. A. Loeber, 1876; Frederick Gottschalk, 1879; and J. J. Keller in 1882. Three churches have thus far sprung from this society-the Emanuel, at the corner of Laflin and Nineteenth streets, the Portland-avenue, at the corner of Portland Avenue and Twenty-eighth Street, and the church at the corner of Ullman and Thirty-first streets, dedicated September 2, 1883. A Sunday school has been connected with the German Society, or Maxwell-street Church, since its organization. There are now from three hundred to four hundred children in

SWEDISH METHODIST EPISCOPAL THE FIRST Church was organized as the Scandinavian Mission early in 1853, by the Rev. S. B. Newman. There were originally twenty-five members, among them Mr. and Mrs. C. M. Lindgren, Mr. and Mrs. Olof Westergreen, and Mr. and Mrs. John Livergreen. As early as practicable after organization Mr. Newman erected a building on Illinois Street, near Market. This was during the summer of 1854, and the dedication occurred September 24, the sermon being preached by Rev. O. G. Hedstrom from the Bethel Ship, New York City. This church was occupied by the society until burned down by the fire of 1871. Mr. Newman remained pastor until the fall of 1855, when he was followed by the Rev. Eric Shogren, who remained until 1859. Rev. J. Bredburg was then pastor from 1859 to 1861, and was succeeded by Rev. A. J. Anderson, who remained until 1864. Rev. Eric Shogren was then returned and remained until 1865. He was followed by Rev. N. O. Westergreen, from 1865 to 1868; by Rev. Nels Peterson, from 1868 to 1870, and by Rev. A. J. Anderson from 1870 to 1873. He was then again returned and remained from 1873 to 1876, having as assistant from 1873 to 1874 Rev. Alfred Anderson, and from 1874 to 1876, Rev. N. O. Westergreen, who was also editor of the Swedish Church paper, "Sandebudet." Rev. Victor Witting was then pastor from 1876 to 1877; Rev. A. J. Anderson from 1877 to 1879, and Rev. D. S. Serlin from 1879 to 1882, when the present pastor, Rev. H. W. Eklund, was appointed.

After the destruction of their church on Illinois Street by the fire, the society immediately erected a temporary building at the corner of Market and Oak streets, which was used until 1876, when it was replaced by the present brick structure, which is seventy by seventy-two feet in size, has a seating capacity of Soo, and cost \$30,000. A fine organ was put up in 1881. Adjoining the church is a two-story brick parsonage, costing about \$2,500. The property of the society is free from incumbrance. The branches from this Church are the Second Swedish Methodist Episcopal Church on May Street organized in 1876; the Fifth Avenue Methodist Episcopal Church, organized in 1876, and the Lake View Swedish Methodist Episcopal Church, organized in 1883, sketches of which will appear in the third volume of this History. The membership of this Church in 1858 was sixty; in 1872 three hundred and twenty-five; and in 1883 four hundred and thirty-six.

REV. S. B. NEWMAN was born in Sweden September 15, 1802. He came to America in 1842, and joined the Alabama Conference in 1845. He went to New York in 1851, and came to Chi-

All / Yawman L

cago in 1852. Since leaving Chicago, in 1855, he has filled various pulpits in Methodist churches, as appointed to them by the conference, and was elder of the Illinois District from 1870 to 1875. At present he is pastor of the Swedish Methodist Episcopal Church at Moline, Ill., preaching also at Rock Island.

THE METHODIST PROTESTANT CHURCH was organized in 1849. They at first worshiped in the seminary at the corner of Clark and Madison streets. Rev. Daniel Bagley was the first minister, preaching regularly in the seminary until the erection of the church building, situated at the northwest corner of Washington and Desplaines streets. Rev. Mr. Bagley, was succeeded, in 1850, by Rev. R. T. Strong; Rev. R. L. Ellis was appointed in 1851, Rev. Z. R. Ellis was appointed in 1852 and Rev. R. F. Shinn was pastor in 1853 and 1854. Mr. Shinn was succeeded by Rev. George Ridding, who remained about two years, and was succeeded by Dr. Rogers, from Canada, a man of fine appearance and address and of considerable talent. But his connection with the Church was unfortunate, as certain difficulties, taken in connection with the indebtedness of the society hastened the disbandment of the Church. During the pastorate of Mr. Shinn, the society purchased a lot upon which to erect a new church; deeding the lot in trust to him. This lot he redeeded to the trustees some time after leaving the Church, and it was lost, together with the rest of their property on account of debts. In March, 1857, they were worshiping in a church at the corner of Peoria and Fulton streets, under the pastoral charge of Rev. Robert H. Sutton. On the 26th of April, Rev. W. B. Mack preached to this congregation. In August, 1858, Rev. P. J Strong preached to them, and in September Rev. W. B. Mack was appointed by the Illinois Conference of the Methodist Protestant Church, Superintendent of the Chicago Mission, and commenced his labors in the church building of this denomination on the 26th of the month.

QUINN CHAPEL METHODIST EPISCOPAL CHURCH was organized Thursday and Friday, July 22 and 23, 1847, by the Rev. J. H. Ward, a traveling deacon ap-

pointed by Bishop William P. Quinn. The organization was effected at the house of Madison Patterson, on State Street, near Madison, who succeeded Mr. Ward as pastor. Rev. Mr. Patterson was succeeded by Rev. Aaron Parker, who was born a slave in Kentucky, sold to a St. Louis slave-holder, of whom he bought his freedom, and came to Chicago. Quinn Chapel was his first charge. The society was then occupying a building on Wells Street. Mr. Parker bought of Orrington Lunt a lot on the corner of Jackson and Buffalo streets, on which he made the first payment, \$70. Mr. Parker labored diligently to build up the Church. In 1849 he was succeeded by Rev. John Collins, of Terre Haute, Ind., who the next year was succeeded by the Rev. Y. W. Johnson, of Pennsylvania. A local historian of this chapel describes Mr. Johnson as a man having a good memory and very strong lungs, and as being well versed in the Prophecies and in Revelations, but as having a weak heart and doing nothing for the Church. The passage and approval (September 18, 1850,) of the Fugitive Slave Bill, caused considerable consternation among the colored citizens of Chicago. Enthusiastic meetings were held, one September 30 and one October 2, at the latter of which resolutions were passed intensely antagonistic to the bill. In one of these resolutions the expressions were employed, "We who have tasted freedom are ready to exclaim with Patrick Henry, 'Give us liberty or give us death;' and 'Resistance to tyrants is obedience to God.' We will stand by our liberty at the expense of our lives, and will not consent to be taken into slavery nor permit our brethren to be taken." A vigilance committee was appointed. The same local historian states further, with respect to Mr. Johnson, that, after the passage of the Fugitive Slave Bill, he went from house to house among the colored people persuading them all to flee to Canada, to prevent the provisions of the bill being enforced upon them. The Journal of November 18, 1850, stated that Mr. Johnson had been reduced to indigent circumstances in consequence of many of his congregation having left for fear of arrest under the law. In April, 1851, Mr. Johnson followed those of his congregation who had fled to Canada, where he organized a Church, and returned to Chicago to collect money for the purpose of building it up; "but he would sign no papers nor do anything toward the second payment on the Quinn Chapel lot." A committee thereupon waited upon Mr. Lunt with reference to future payments on the lot. Mr. Lunt replied: "Give yourselves no uneasiness, you shall not lose the property." Before the debt of \$500 was paid, Mr. Lunt had donated \$300 of the amount. In September, 1852, Rev. John A. Warren was appointed to this Church, and commenced the erection of a building on the lot purchased of Mr. Lunt. The corner-stone was laid April 27, 1853, on which occasion the address was delivered by Rev. James E. Wilson, of the Jefferson-street Methodist Episcopal Church. Rev. Mr. Warren did not prove to be a very satisfactory minister. During his first year he preached but fifteen sermons, and during his second year only twenty, but demanded his full salary, onethird of all he collected for the expense of erecting the church building, and when he delivered anti-slavery lectures "all belonged to John." Money, therefore, flowed but slowly into the coffers of the Church. In August, after expending \$1,500, work temporarily ceased, and at the next Conference Mr. Warren was sent to another field of labor. He was succeeded by Rev. M. M. Clark, under whom the church was completed, at a cost of \$5,000, and dedicated Sunday, November 20, 1853, by the presiding elder, Rev. William P. Quinn, after whom the chapel was named. Rev. William T. Davis was the next paster of the Church, and was succeeded in 1855 by Rev. Elisha Weaver, who labored faithfully two years, paid off the debts, bought and paid for a parsonage and moved it on to the church lot. Mr. Weaver, with a few of the trustees, introduced an organ into the church, which "created great confusion in the church until the people got used to it." In 1856 the society had seventy members, and at the time this sketch closes [1857], Rev. Mr. Clark

was its pastor.

THE GERMAN EVANGELICAL ASSOCIATION.—The initiatory steps toward the organization in the United States of this Association were taken in 1790, by Rev. Jacob Albright, a Methodist clergyman. Mr. Albright was impelled to special effort among the German residents of eastern Pennsylvania, by observing their general decline of religious life, and their corruption of Without having in view such a design, his labors resulted, ten years later, in the organization of the "Evangelical Association," which name, although unsatisfactory to most of the members, and notwithstanding numerous attempts to change it have been made, is still retained. Its first Conference was held in 1807, and its first General Conference in 1816. In doctrine and theology the Association is Arminian; with reference to sanctification, Wesleyan, and in its modes of worship it conforms very nearly to the Methodist Episcopal Church. A few of the differences between them are as follows: In the Evangelical Association the bishops are elected for four years, instead of for life; the ministers are assigned to their charges by the presiding elders instead of by the bishops, the latter however having a revisory power, and the elders are elected by the Church members, instead of being appointed by the minister. The first members of this Association to come to Chicago were Daniel and Christopher Stanger, in 1835. The former wrote back to Jacob Esher, the father of John G. and J. J. Esher, the latter of whom is the present Bishop of Chicago, describing to him the exceeding fertility of the soil of Illinois, and urging him to emigrate from the mountainous country and rocky soil of eastern Pennsylvania, and come to this fair and fertile region of the West. Mr. Esher, accompanied by a number of other Germans, came to the vicinity of Chicago in 1836. Among them were his brother Martin, Lewis Arnet and a Mr. Suther. In 1837 Jacob Ott and his sons Lawrence, Jacob and Philip came. During this year quite a number had settled in Chicago, and in August, Jacob Boaz, after riding on horseback three hundred miles, arrived in the city, having come as the first minister of the Association to preach to the members already here. The first place of preaching was the City Hall. After Mr. Boaz came Rev. Mr. Einsel, who in a few months went back, in ill health, to Ohio, and sent out Rev. John Lutz. In June, 1838, Rev. Mathias Howard commenced to preach in a wagon-shop on North Kinzie Street, between Dearborn and Clark. Rev. Isaac Hoffert succeeded Mr. Howard and was himself succeeded by the Revs. Daniel Kern and Daniel Stroh. The colleague of the latter was Christian Lintner. In 1843 Germans enough belonging to this Association had collected in Chicago to form a Church; an organization was effected and a lot secured from Hon. Grant Goodrich by donation, at the corner of Wabash Avenue and Monroe Street. This was under Rev. Frederick Wahl, who was sent out as missionary that year, and who was the first regular pastor of the Church. Rev. Mr. Wahl had as colleague Rev. George

A. Blank. A small frame building was erected on their lot, thirty by forty feet in size, at a cost of \$500. The society worshiped in this building until 1852, when it divided into two churches-the First moving their building to Clark Street, near Van Buren, and the Second Church erecting, in 1856, a building at the southeast corner of Wells Street and Chicago Avenue. While the First Church remained on Wabash Avenue its ministers were as follows: Rev. Frederick Wahl in 1843; Rev. C. Augenstein in 1844; Rev. Jacob Kopp in 1845; Rev. C. Augenstein in 1846; Rev. G. A. Blank in 1847; Rev. G. G. Platz in 1848; Rev. Christian Holl until 1850; Rev. Joseph Halacher in 1851, and Rev. J. P. Kramer in 1852, under whom the division occurred. While the Church was located on Clark Street, the ministers were as follows: Rev. Israel Kuter in 1853, and Rev. J. H. Ragatz in 1854. In 1855 this Society erected a church at the corner of Polk Street and Edina Place, in which it worshiped until the fire of 1871. At the time of its removal the pastor was the Rev. L. H. Eiterman, and its history from this point will be continued in the succeeding volumes of this History.

ST. JAMES' EPISCOPAL CHURCH was organized in 1834. The gentlemen taking part in the organization were: William B. Egan, Dr. Phillip Maxwell, Giles Spring, John H. Kinzie, Dr. Clarke, Gurdon S. Hubbard, John L. Wilcox, William Pettit, Eli B. Williams, Jacob Russell and Hans Crocker. The first eight were elected vestrymen. The first communicants were Peter Johnson, Mrs. Peter Johnson, Mrs. Juliette A. Kinzie, Mrs. Francis W. Magill, Mrs. Nancy Hullman and Mrs. Margaret Helm. Rev. Palmer Dyer arrived in Chicago on the 10th of October, 1834, and on or about the 12th, by invitation of Rev. Jeremiah Porter, preached both morning and afternoon in the Presbyterian church. These were the first Episcopal services held in Chicago. In the morning the text was Matthew, xviii, 3: "Except ye be converted, and become as little children, ye shall not enter into the kingdom of heaven." In the afternoon the text was Isaiah, xl, 8: "The grass withereth, the flowers fadeth, but the word of our God shall stand forever." After the afternoon service Mr. Dyer administered the sacrament to four Episcopalians-three lady members of Mr. Kinzie's family and one gentleman-and about twenty-five Presbyterians. Mr. Dyer did not remain in Chicago, but afterward went to Peoria, and thence to Fort Snelling as army Chaplain. On the next Sunday, October 19, Rev. Isaac W. Hallam preached his first sermon in Chicago, in the Baptist church. For some time religious services were held in a building named afterward "Tippecanoe Hall," fitted up for the purpose by John H. Kinzie, on the southeast corner of Kinzie and State streets. In 1836 Mr. Kinzie donated to the Church two lots at the corner of Cass and Illinois streets, and in 1837 the first church building of this society was erected thereon. On the 25th of June of that year the new church was dedicated by Bishop Philander Chase. The style of the building was Gothic, forty-four by sixty-four feet in size, and, though really a very modest structure, was thought to be very imposing for a frontier town. It was the first brick church built in Chicago. The tower contained a bell bearing the name and date of the erection of the church. "There was one feature about the old church which was the especial pride of the congregation; it was a large mahogany pulpit, some eighteen feet wide, six feet deep, and fifteen feet high. Before this pulpit was the reading desk, and still in front of the reading desk the communion table, a plain, honest table and nothing else. All this costly arrangement suited the eye better

than it did the officiating clergyman, and so in the early times of Mr. Clarkson it had to give way to more modern styles and usages." In connection with the reference to this pulpit an anecdote of Dr. William B. Egan is worthy of preservation. The church had been built, as elsewhere mentioned, on lots donated to the St. James' Society by John H. Kinzie, and Mr. Kinzie and his family were otherwise so closely identified with it that it was sometimes called the "Kinzie Church." Above

ST. JAMES' EPISCOPAL CHURCH.

this remarkable pulpit was painted on the wall the initials I. H. S., which seen in the dim religious light which filled the church looked not very much unlike the initials of Mr. Kinzie's name, J. H. K. Soon after the church was completed Mrs. Kinzie invited the genial, witty and somewhat irreverent Dr. Egan to attend her church, and after the conclusion of the services to accompany her home to dinner. On the way to dinner she said, "Well, Doctor, how do you like our church?" "Very much, indeed," he replied; "but is it not a little egotistical, and won't the people think it a little vain in John to put his initials so conspicuously over the pulpit?" The entire cost of the building, furnished with organ, bell, carpet and lamps, was \$15,500. By the sale of the slips and pews there was realized the sum of \$13,-860, and by means of fairs something over \$5,600 more, so that after paying for the church there was a surplus of \$4,000, which was used in 1838 for the erection of a parsonage. At the Diocesan Convention of 1838, held at Rushville, Ill., the name of J. W. C. Coffin appears as the first lay representative from this place. On the 3d and 4th of June, 1839, the fifth Diocesan Convention was held in the St. James Church, Chicago. The only lay delegates present were from that Church—Silas W. Sherman, John H. Kinzie and S. J. Sherwood. In 1842 a marble font on a mahogany base was placed in the church by the Sewing Society. The next church building erected by this congregation was a large and handsome stone structure, which was completed in 1857, and first opened for religious services in December of that year. It stood on a lot at the southeast corner of Cass and Huron streets, purchased by the society in 1855. The cost of the

church was \$60,000, exclusive of ground and tower. Rev. Isaac W. Hallam remained pastor until 1843, in August of which year he was succeeded by Rev. W. F. Walker. Mr. Walker remained but a short time, on account of certain practices of his of which the society did not approve. His habits led to certain charges being brought against him and a trial. The trial was conducted in a very able and spirited manner against him by the venerable Bishop Chase; in his defense by the equally noted, if not equally venerable attorney, Justin Butterfield. One of the charges was that of breaking the Sabbath, it being Mr. Walker's habit, when visiting outlying parishes on Sunday, to take his gun with him and to return with his buggy well laden with game. His duties terminated here on Easter Sunday, 1844, and on the first Sunday of May following he was succeeded by Rev. Ezra B. Kellogg, who established Trinity Church that year. Mr. Kellogg remained until 1848 and was succeeded by Rev. Robert H. Clarkson in 1849. Mr. Clarkson remained pastor until 1865, and under his ministrations the parish became one of the strongest Episcopal parishes in the northwest. Under the long rectorship of Rev. Isaac W. Hallam there were baptised one hundred and eighty-eight children and adults; fiftynine persons were presented for confirmation, and seventy-two marriage ceremonies were solemnized by him. Mr. Hallam had also officiated at forty-eight funerals. The membership of the Church steadily increased during the period which this volume covers. In 1852 it had become one hundred and sixty-seven; in 1853, it was one hundred and seventy-six; in 1854, one hundred and eighty; in 1855, two hundred and twenty-four; in 1856, two hundred and forty-eight, and in 1857, two hundred and sixty. The very large increase in 1855 rendered the church at Cass and Illinois streets too small for the congregation, and a new building was commenced, which was opened for religious services in December, 1857, as stated above. During this latter year the total contributions of this society for home, missionary and other purposes, amounted to \$26,925.70.

REV. ISAAC W. HALLAM was born in Stonington, Conn., November 20, 1809. In 1830 he graduated from the Washington (now Trinity) College, Hartford, and was ordained deacon, in Alexandria, D. C., by the Rt. Rev. Richard E. Moore, May 20, 1832. His first charge was St. James' Parish, New London, Conn., where he was ordained priest December 28, 1833, by Rt. Rev. Thomas C. Bunnell. On the 28th of August, 1834, he was appointed missionary to Chicago, by the Domestic Board of Missions, He arrived in Chicago with his wife and child early in October following. St. James' Parish was soon organized and a Sunday school commenced. He attended the General Convention of the Protestant Episcopal Church in Philadelphia as the first clerical deputy from the Diocese of Illinois. In the winter of 1841–42. Trinity Parish was organized, both parishes to be under one rector, with an assistant when means should be provided for his support. Satisfied that this double duty would be beyond his strength, the Rev., Mr. Hallam resigned his charge and returned to his native town October, 1843, where he commenced the first public services of the Episcopal Church, which resulted in the appointment of a missionary, the organization of a parish and the building of a church. He was subsequently rector of St. Stephen's Church, Lynn, Mass., St. Peter's Church, Clarkboro, N. J., St. John's Church, Windham, Conn., With a mission at Willimantic and St. Mark's, New Canaan, Conn. After nearly fifty years of continuous parochial work, he was obliged, on account of ill health, to retire from the regular ministry and be content with such occasional services as his strength would permit. On the 31st of May, 1853, he was present at the consecration of St. James' Church, Chicago, the third church building erected by that parish. With reference to the Rev. Mr. Hallam's ministry, the Rt. Rev. John Williams, his native town. He was married February 18, 1833, to Miss Nancy Hallam, of Richmond, Va. They have that the consecration of St. James' Church, Chicago.

iams, born in Chicago December 21, 1841; Sarah Miles, Harriet Elizabeth, Annie Courtney, Robert, and Alexander Vinton. Besides Lucy Williams, John Kinzie, Isaac Williams and Alexander Vinton have died. The rest are living.

RT, REV. ROBERT HARPER CLARKSON, at present Bishop of Nebraska and Dakota, was born at Gettysburg. Penn., November 19, 1826. He graduated at Pennsylvania College, in that place, in 1844, and in theology at St. James' College, Maryland, in 1848. Shortly after graduating he was ordained by Bishop Whittingham, of Maryland. In 1849, he became rector of St. James' Church, Chicago, remaining until 1865. On the 15th of November of this year he was consecrated Bishop of Nebraska and Dakota, since which time he has resided in Omaha, Neb. Bishop Clarkson was for some years a trustee of Racine College, Wisconsin, and is now a trustee of Nashotah Theological College, Wisconsin, to which position he was appointed in 1857. In 1866 he established Nebraska College, at Nebraska City, and in 1868, Brownell Hall, in

## arbeit H. Clarken -

Omaha. In Nebraska and Dakota he has established a large number of churches. In 1856 Racine College conferred upon him the degree of Doctor of Divinity, and in 1852 Nebraska University conferred upon him the degree of Doctor of Laws. Bishop Clarkson was married at Hagerstown, Md., May 8, 1849, to Miss Mellora McPherson, of Frederic, Md. They have two children—Mary, wife of the Rev. F. R. Millsfaugh, and Nellie, wife of F. II. Davis.

TRINITY CHURCH.—Toward the close of the year 1841, at a meeting of St. James' Church, it was voted that an Episcopal Church was necessary on the South Side. Some months later, in 1842, a parish was established, including the whole of the South Division of the city, and named 'Trinity Church. At the first election, held March 5, 1842, the following officers were chosen: Senior warden, J. Brinkerhoff; junior warden, S. J. Sherwood; vestrymen, Cyrenus Beers, Charles Sauter,

Caleb Morgan, Thomas Whitlock and W. H. Brackett. Trinity Church was finally organized about August 1, 1843, by Rev. W. F. Walker, at the time rector of St. James' Church. From this time to Easter (April 7), 1844, Mr. Walker officiated for both St. James' Church, and for Trinity Parish in the evening. The services for Trinity were held from Advent to Easter in a public "Saloon" within the parish. At Easter, having resigned the pastorate of St. James' Church, Mr. Walker became pastor only of Trinity Church. Religious services continued to be conducted in the "Saloon" until August, 1844, when the Church moved into their new house of worship just completed. The building stood on Madison Street, between Clark and LaSalle. The corner-stone had been laid June 5, by Bishop Philander Chase, D.D., and when ready for occupancy the edifice was a neat, tasteful and commodious building. Services were held in this building for the first time August 25, 1844. The original membership is not given, but in 1845 it was eighty-nine. During Mr. Walker's rectorship, which lasted until the fall of 1847, the number was reduced to sixty-one on account of difficulties and dissensions among the members. At the beginning of the winter of 1847-48, Rev. William Barlow succeeded to the rectorship, and remained with the Church until 1850. The period of his ministry was made memorable by the healing of divisions in the Church and the return of peace. In February, 1850, Mr. Barlow died, and was succeeded by Rev. Cornelius E. Swope, from St. James' College, Maryland, who remained with the Church until May, 1851, leaving Trinity, then, with that portion of his congregation who had organized Grace Church. . In the diocese which convened this year Trinity Church was represented by J. M. Wilson, Dr. Rutler and W. H. Adams. Rev. Charles Reighley succeeded Rev. C. E. Swope in 1851, and under his ministrations, which terminated in 1853, as also under those of his successor, Rev. William Augustine Smallwood, who remained until 1857, the Church made steady progress and the membership steadily increased, until the panic of the latter year, which had a depressing influence upon religious as well as upon business affairs. In 1852, the membership of the Church was sixty; in 1853, seventy-two; in 1854, one hundred and sixteen; in 1855, one hundred and fifty-two; in 1856, one hundred and eighty-six; but in 1857, under the depressing influence of the financial revulsion of that year, the membership was reduced to one hundred and twenty-one. The convention of the Diocese of Illinois was held in Trinity church in October, 1854, the unpaid balance of the debt upon the property was nearly extinguished, and the salary of the rector, Mr. Smallwood, was increased. Nearly fifty members were added to the Church rolls. By 1856, the debt was entirely extinguished, and the need of a new and larger edifice was sorely felt. In May, 1857, Mr. Smallwood was succeeded by Rev. Noah Hunt Schenck of Gambier, Ohio, who remained until January 1, 1860, when he became rector of Emanuel's Church, Baltimore. Rev. James Pratt, rector of the Church of the Covenant, Philadelphia, was elected successor of Dr. Schenck, and entered upon his duties March 15, 1860. During the pastorate of Mr. Pratt, the proposed new building was completed. A lot on Jackson Street, between Wabash and Michigan avenues, was purchased of Cyrenus Beers, for \$11,000. The corner-stone was laid September 4, 1860, by Rev. Dr. Pratt, and on the 16th of June, 1861, the society assembled in their new church for the first time. The front of the building was toward the north; the dimensions were seventy-one

feet front by one hundred and fifty feet in depth. The front and lower sections of the towers were of Athens stone, and the side and rear walls of brick. Between the towers was a spacious arched arcade; the vestibule was sixteen feet deep, and the auditorium sixty-five feet wide by one hundred and twenty-five in depth. On the main floor were one thousand seats, and in the galleries four hundred. The auditorium was lighted from the roof, there being no side windows. The effect, though solemn, was pleasing, but felt only during the day. The interior was handsomely frescoed and furnished. On the 9th of March, 1863, Dr. Pratt resigned his rectorship, on account of ill health, to take effect June 1. In May, Rev. George D. Cummins was rector. He entered upon his duties Sunday, October 4, 1863, and was instituted April 17, 1864, by Rev. Henry J. Whitehouse, Bishop of the Diocese. On the 1st of October, 1864, the debt of the society was \$17,500 In April, 1868, this entire sum was canceled, and on the 24th of the month, the edifice was consecrated by the Right Rev. Henry J. Whitehouse, assisted by several other clergymen, of this and other cities, among them, Rev. G. D. Cummins, Rev. Noah H. Schenck, Rev. E. M. Van Deusen, of Pittsburgh, Rev. Henry Safford, of Oberlin, and the Rev. Messrs. Cheney, Freeman, Stout and Smith of Chicago. Having briefly traced the history of this Church to the consecration of its elegant temple of worship, its subsequent history is reserved for the third volume of this History

THE CHURCH OF THE ATONEMENT was organized March 18, 1850, with nineteen members. The first meetings were held in Temperance Hall, at the corner of Randolph and Canal streets. Rev. Dudley Chase was the first rector and remained until 1852. For a portion of the year 1853, Rev. C. H. Gardiner served as supply, commencing April 17. The membership did not increase very rapidly for the first few years. Starting in 1850 with nineteen, in 1852 and 1853 there were forty-six; in 1854, fifty-one; in 1855, seventy; in 1856, eighty-four; and in 1857, eighty-six. The first building occupied as a house of worship was a rented one. It was fitted up by the parish in good taste, was centrally located, and capable of holding two hundred people. In 1851 the society secured a lot at a cost of \$800, the money for the first payment of which was raised by the ladies. Upon this lot a tasteful house of worship was erected in 1854. About \$800 were subscribed during this year by members of the Church and others toward the liquidation of the debt, and a fence was built around the church lot at a cost of \$200. In 1856 the Church contributed to various purposes \$580.08; and in 1857, including the rector's salary of

\$1,000, \$1,977.50.

GRACE CHURCH.—At a meeting of a number of members of the Protestant Episcopal Church of Chicago, held May 20, 1851, Grace Church was organized by the election of Henry Ritchie and Jeremiah W. Duncan, wardens, and Talman Wheeler, David S. Lee, J. W. Chickering, Caleb Morgan, H. W. Zimmerman, T. B. Peuton and L. H. Osborne, vestrymen. Rev. Cornelius E. Swope was chosen rector. Services were at first held in Warner's Hall, on Randolph Street. Mr. Swope remained until the spring of 1854, when he was succeeded by Rev. Lewis L. Noble, who commenced his rectorship June 25, 1854, and closed it September 9, 1855. Rev. John W. Clark commenced his rectorship June 8, 1856. Up to 1855 the membership remained at seventy-three. In 1856 it was one hundred; and in 1857 it in creased to one hundred and forty. During this year a lot was secured upon which to build. A description of

this edifice is introduced into the second volume of this History, as it was not completed until after the year 1857. During the year with which this volume closes, the total contributions of this Church amounted to \$7,762.71.

St. John's Church was nominally organized February 22, 1856, and was fully organized about Easter time. Rev. Hiram N. Bishop was the first minister, preaching his first sermon on the second Sunday of May. The number of members at the time of organization is not ascertainable. Three thousand dollars were subscribed for the erection of a church-one-third of which came from persons not members of any Church. A plain frame building was put up, thirty by sixty-five feet in size, capable of seating three hundred people, without incurring any debt. On the first of September, 1856, the pews were offered for rent and in a short time fifteen were taken, the rental amounting to \$1,529. In 1857 at the time of making the parochial report to the diocese, there were fifty-two members. During the year the church building had been enlarged, and the improvement paid for. Fifty-two new pews were added and the Church was thus made capable of accommodating five hundred persons. A parsonage was erected at a cost of \$1,900, on a lot given to the Church by William Carpenter, and a lot seventy-five by one hundred feet in size, contiguous to the church building was donated and deeded to the Church by Job Carpenter. A Sunday school was organized with one hundred and twenty scholars, about eighty of whom were in attendance each Sunday. The total contributions of this Church for the year 1857 amounted to \$9,901.11.

CHURCH OF THE HOLV COMMUNION was organized in April, 1857, with eighty members, as a free Church. This was the distinguished feature of the organization. The founders believed that churches should be so conducted as to present no obstacle of any kind to any one who might desire to attend church, by selling or leasing pews, or in any other way; that nothing should be done to keep the poor man from church. Rev. H. B. Whipple was called to the rectorship, and services were held in a hall rented for the purpose, no church building being erected that year. Like many others, this Church had to encounter and overcome numerous obstacles at the beginning, the chief of which was the want of a suitable house of worship, but this was in after years supplied.

CHURCH OF THE ASCENSION.—Upon an invitation extended to him in April, 1857, Rev. J. W. Cracraft came to Chicago, in May, for the purpose of organizing a parish on the North Side. He preached his initiatory sermon on the first Sunday in May. As the new edifice of St. James' Church was approaching completion, that Church made an advantageous offer of their old church building, standing on Cass Street, near Illinois, to the Church of the Ascension. This society therefore decided that no funds should be expended in erecting a temporary church, but that all their financial strength should be reserved for the purpose of removing the Old St. James' Church, when that should be vacated in the fall. Gurdon S. Hubbard gave the new organization three lots, two to be used as a church site, the other to be used toward the erection of a suitable edifice. Subsequently, the proffer of St. James' Church, with reference to their old building was withdrawn, which, on account of the lateness of the season at the time of the withdrawal of the offer, coupled with the adverse influence of the financial revolution which that year depressed all business enterprises, made it impracticable for the new Church to erect a permanent house of worship that year, and its only recourse was to seek some temporary accommodations for the then present emergency, by renting some building or erecting a cheap one on their own account. In September a parish organization was effected, taking the name of "The Church of the Ascension," but on account of the absence of the warden and secretary the proper certificate could not be obtained at the time of the meeting of the convention of the Diocese, so the Church could not be represented therein. About forty families had joined the Church by the fall of this year, and through the liberality of the trustees of Westminster Chapel, they were accommodated with a convenient and comfortable building for their incipient services.

ST. ANSGARIUS CHURCH was organized March 5, 1849. The first trustees were P. Von Schneider, W. Knudsen, Butten Markusen, Andrew Johnson, Andrew Lurson, J. Bjorkman, A. S. Sheldon and John Anderson. The members of the Church were emigrants from Norway and Sweden, about two-thirds from Norway. They were collected into a society by the Rev. Gustaf Unonius. The membership at the time of organization is not ascertainable, but in 1850 there were one hundred and sixty-three members, including men, women and children. During this year a building was erected at the corner of Franklin and Indiana streets. It was a frame structure, thirty-five by fifty feet in size, and cost \$2,500. In 1856 a fine organ was added at a cost of \$700. In 1851 this Church was represented in the Diocese of Illinois by John W. Chickering and P. Von Schneider. The membership reached one hundred and ninety-five in 1854, decreased to one hundred and seventeen in 1855, and in 1857 had increased to one hundred and forty-two. Mr. Unonius remained pastor until 1866, when he resigned and returned to Sweden, where he now resides. In the year 1851, when the society was weak financially and struggling to complete

its house of worship erected the year before, Jenny Lind, at the solicitation of the pastor, presented to

them \$1,000 in money and a silver communion set.

Toward the close of the year 1851, the question arose as to who should own the communion set, in case of a

separation of the Church into two portions, the one of Swedes the other of Norwegians. The Norwegian

members claimed an equal ownership in the set with the Swedes and that, in case of a division, they should have

paid to them half the value of the set. Mr. Unonius

claimed that the set was presented to the Church of St. Ansgarius on the condition that in case of a separation

it should belong exclusively to the Swedish portion, and

in this position he was sustained by the Swedish mem-

bers. In order to sustain this position, Mr. Unonius

presented the following letter written by Jenny Lind:

"Dear Sir: Whereas my attention has been called to the ninth section of the article of the congregations in Chicago constitution, I do hereby declare that the cup and paten which I last year donated to the Swedish and Norwegian Church congregation in Chicago, in the event of a dissolution of the said congregation, shall never be included in the value of said congregation's common property, but shall in such case belong exclusively to the Swedish portion of the congregation.
"Northampton, Mass., the 25th day of March, 1852."

Jerry Joldschmide

Mr. Unonius made affidavit to the fact as follows:

" STATE OF ILLINOIS. COOK COUNTY,

"Gustaf Unonius being duly sworn according to law says, that Mrs. Jenny Lind Goldschmidt, in presenting a silver communion set to the Church of St. Ansgarius in Chicago did so with the explicit stipulation that it should become the exclusive property of a Swedish congregation. "April 22, 1858."

Max Hjortsberg, the private secretary of Madam Goldschmidt, also made affidavit to the same effect. The result of the controversy was that the Swedish portion of the congregation retained the set. In after years the Church was divided on the line of nationality, as was anticipated. An account of the division, and a sketch of each separate portion of the Church will follow in the next volume.

BISHOP PHILANDER CHASE, D.D.—The Diocese of Illinois BISHOP PHILANDER CHASE, D.D.—The Diocese of Illinois was organized at Peoria, March o, 1335, at the primary convention held there for the purpose. This convention was composed of three clergymen and six lay delegates. The clericals were Rev. John Batchelder, rector of Trinity Church, Jacksonville; Rev. Palmer Dyer, rector of St. Jude's Church, Peoria, and Rev. James C. Richmond, rector of Christ Church, Rushville, and Grace Church, Beardstown. The lay delegates were Rudolphus Rouse, Augustus O. Garrett, Edward Worthington, Milton W. Graves, Lames Fagerweather, and Charles Derrickson. Rev. Isaac W. James Fayerweather and Charles Derrickson. Rev. Isaac W. Hallam, rector of St. James' Church, Chicago, was not present at this convention. Rev. John Batchelder was elected president, and Rev. Palmer Dyer, secretary. Committees were appointed to frame a constitution, canons and rules of order. A standing committee was elected, and also delegates to the next general convention of the Protestant Episcopal Church of the United States, which met in Philadelphia, August 19, 1835. At the time of the organization of the Diocese of Illinois, there were but six organized Episcopal parishes in the State, only three of which were at the convention, the parishes at Galena and Chicago not being represented. In the evening of that day the following resolution was adopted: "Resolved, unanimously, that this convention do hereby appoint the Right Reverend Philander Chase, D.D., a bishop of the Protestant Episcopal Church in the United States of America, to the Episcopate of Illinois, and that he be, and hereby is, invited to remove into this diocese, and to assume Episcopal jurisdiction in the same." Bishop Chase accepted the appointment April 2 in the same" Bishop Chase accepted the appointment April 3, 1835, but was not present at the second annual convention, which met at Jacksonville, Monday. May 16, 1836, being absent in Great Britain at the time, soliciting assistance toward the establishment of a theological school in his new diocese. Rev. Isaac W. Hallam who had been appointed to preach to the convention, was also abwho had been appointed to preach to the convention, was also absent, but he arrived after the adjournment of the convention. At the third annual convention, Bishop Chase was present, presided, and delivered his first address, at 'Sprigheld.' The Bishop made his first Episcopal visitation to Chicago in 1835, and his second in 1836, during the erection of St. James' Episcopal Church, preached twice, confirmed eleven persons, baptized one child and administered the sacrament of the Lord's supper to thirty persons. On the 18th of July he met with an accident which interfered with his duties as bishop for some time. This was the breaking of two ribs by the overturning of his carriage when on his way from Rockingham, Ill., to his home in Peoria County. He made his first appearance after this accident at Rushville, October 3, 1837. The fourth annual convention was held at Rushville, June 4, 1838. Bishop Chase presiding. He also presided at the fifth annual convention which was held in Chicago, June 3 and 4, 1839. No convention was held in 1810. The sixth annual convention was held in the chapel of Jubilee College, June 7 and 8, 1841, Bishop Chase presiding. The next annual convention held in Chicago was in 1850, on the 17th and 18th of June. Bishop Chase presided here, as at all those not specifically mentioned above. At this time there were four Episcopal churches in Chicago. The Church of the Atonement was a newly-formed congregation, the first on the West Side. Bishop Chase preached to this congregation on Sunday, sent, but he arrived after the adjournment of the convention.

June 9, in the morning, and in the afternoon at Trinity Church, On the same day he met the congregation of St. Ansgarius, in St. James' Church, Rev. Gustaf Unonius pastor, whose church edifice was not then completed. On the 14th of June the Bishop confirmed twenty-four persons in St. James Church. At the regular annual convention held at Pekin, September 8, of that year, Bishop Chase presided. This was the last convention at which he presided. At the annual convention held at Pekin, June 21, 1852, in the absence of Bishop Chase, the Right Reverend Henry J. Whitehones, assistant bishop of the diocese, presided. Bishop Chase died on Monday, September 20, 1852, at his residence at Jubilee College, in Peoria County, an institution which he had founded. He was succeeded as bishop by Rev. Henry J. Whitehouse, an account of whose Episcopate and residence in Chicago will be appropriately found in the second volume of this History. Bishop Chase filled the Episcopate of Illinois for seventeen years. The summary of his acts is as follows: He ordained to the priesthood, seven; to the deaconate, twelve; to both, three; total, thirteen persons. He consecrated sixteen churches, baptized two hundred and ninety infants and sixteen adults, and confirmed nine hundred and fifteen individuals. In 1835, when he was elected bishop of the diocese, it consisted of five organized parishes; in 1852, when he died, it contained fifty-two parishes, forty-three of which contained sixteen hundred and two communicants. Five of these parishes were in Chicago.

FIRST CONGREGATIONAL CHURCH was organized May 22, 1851. Its first church building was on Washington Street, between Halsted and Union, Philo Carpenter, who had always taken leading positions in religious movements, having in 1832 organized the first Sunday school in Chicago, and having assisted in organizing the First and Third Presbyterian churches, was one of the principal movers in this measure, which was the result of a schism in the Third Presbyterian Church, the particulars of which are fully developed in the sketch of that Church's history. By reference thereto the successive steps may be traced which led to the excinding by the Presbytery of the names of those who persisted in their "disorderly and disorganizing action." Technically there were but seventeen excinded, fifteen of whom joined the First Congregational Church when that was organized. Twenty-five others who subscribed to the obnoxious fourth resolution of February 3, 1851, were regularly dismissed, their action in signing the resolution not having been done openly in Church meeting, and for this reason did not come before the Presbytery in an official manner. For about one year after their exclusion from the Church, these forty-two exmembers held regular religious services in the lectureroom of the church lean-to, which had been erected principally at the private expense of Philo Carpenter, and which, according to agreement made at the time of its erection, not having been paid for at the time of the culmination of the schism, remained his private property and subject to his control. At a meeting held about the middle of April, it was decided to proceed to the organization of a Church to be called the "First Congregational Church of Chicago," and a committee was appointed to draft a constitution and articles of faith. On the 5th of May, steps were taken toward the purchase of a lot at the corner of Washington and Jefferson streets, and May 22 was fixed upon as the date for the organization of the new society. An Ecclesiastical Council, pursuant to a call, convened for the purpose in the Canal-street Methodist Episcopal church, on that day. This Council was composed of the following representatives from the several Congregational churches named below:

Churches. Pastors, Delegates, Milburn. Rev. William B. Dodge. Waukegan. Rev. B. F. Parsons, L. Fundy. Elgin Rev. N. E. Clark. H. Brooks. Downer's Grove Rev. Alanson Alvord L. H. Hatch. Newark Rev. Lucian Farnham Aurora. Rev. Daniel H. Miller. W. J. Strong. St. Charles. Rev. George S. F. Savage. Alonzo Harvey

Rev. William B. Dodge was chosen moderator, Rev. B. F. Parsons, scribe, and Rev. Timothy Lyman, from the Denmark Association, Iowa, was invited to a seat as member of the Council. The articles of faith and covenant, the credentials of those having letters, and the Christian character of those who had not, all proving satisfactory to the Council, it proceeded to the exercise of organizing the Church. Forty-eight assented to the articles of faith, and entered into covenant, thus constituting the First Congregational Church. Public religious services were held in the evening, at which a hymn was sung, composed for the occasion by B. F. Worrell. Of this hymn the first quatrain of the second stanza was as follows:

'Though by men we are rejected— Set beyond the church on earth, Should we mourn or be rejected If we be of heavenly birth?"

Of the forty-eight first members the following fifteen were received without letter: Philo Carpenter, William H. Worrell, Mrs. Mary E. Morris, Mrs. Ann T. Carpenter, John Davis, Miss Lydia Clifford, Trumbull Kent, D. E. Davis, H. B. Mills, John Sheriffs, Mrs. M. E. Davis, Walter Lull, Benjamin F. Worrell, J. H. Morris, Henry G. McArthur. The following thirty-three were received by letter: George B. Sloat, Amos Holbrook, Mrs. Isabella Warrington, Mrs. M. Mack, Elisha Clark, Mrs. Cornelia A. Clark, Hannah Bragg, Mrs. Harriet Bristol, Samuel Aiken, Mrs. S. Aiken, Cornelia G. Sloat, Mrs. Sophronia Crawford, Mrs. Jane Mason, Mrs. Ellen Holbrook, Leverett H. Holbrook, Mrs. Susan A. Holbrook, Mrs. Sophia Holbrook, Mrs. Elizabeth Ready, Mrs. Emeline Kent, Mrs. Elvira P. Belden, Mrs. Esther E. Gaffrey, Mrs. Mary Andrews, William Rawson, Mrs. S. Rawson, Mrs. M. T. Worrell, Mrs. E. Croner, Mrs. Julia A. Ensworth, Mrs. Sarah Lull, Abbey S. Dyer, Caroline Mason, Joseph F. Lawrence, Mrs. Susan Lawrence, Caroline Mills. During the month of July, 1851, eleven additional members were received, in November six, and in December six, so that on January 1, 1852, the Church had a membership of seventy-one. first deacons were Philo Carpenter and Elisha Clark, elected June 4, 1851. For one year from this time the Church had no settled pastor, but depended upon occasional supplies. Among these appear the names of Revs. Jonathan Blanchard, Julian M. Sturtevant, J. E. Roy, Epaphras Goodman, Owen Lovejoy and J. M. Davis. To the latter gentleman the Church extended a call October 13, 1851, naming \$800 as the salary. In December the call was declined, when a unanimous but ineffectual call was extended to Rev. Owen Lovejoy. On June 1, 1852, an invitation was extended to Rev. J. M. Williams to become pastor for six months. The invitation was accepted and he remained until December 1, 1853, when he resigned. On the 2d of January, 1854, Rev. W. A. Nichols was invited to supply the pulpit for six months. At the close of this period Rev. G. W. Perkins was invited to become pastor at a salary of \$1,500. He preached his first sermon on the third Sunday of September, and was regularly installed January 4, 1853. Mr. Perkins died suddenly November 13, 1856, and was succeeded by Rev. W. W. Patton, who was installed January 8, 1857. Dr. Patton remained with the Church eleven years. An account of his ministry may be found in the second volume of this History. While negotiations were pending for the lot on the corner of Washington and Jefferson streets, a plain and inexpensive building was erected on Washington Street, near Union, in 1852. Within a year from the time of its completion it was destroyed by fire, in June, 1853. The proffer of the use of two houses of worship was promptly made to the afflicted Churchthat of the Third Presbyterian and of the Tabernacle Baptist Church. The latter was chosen. Steps were taken toward the erection of a stone edifice at the southwest corner of West Washington and South Green streets, on a lot one hundred feet square, which Philo Carpenter granted to the Church in exchange for the lot at the corner of Washington and Jefferson streets, on which they originally intended to build. Meanwhile a temporary frame structure was erected on Green Street, just south of the location for the new edifice, and services were held therein until the stone church was ready for occupancy, which was completed and dedicated some time in October, 1855. Compared with the previous church edifices it was an elegant building. The total cost was \$40,000. It was built of Illinois marble. The entrance led to a vestibule, from which two flights of stairs ascended to the main audienceroom. The portion under the auditorium was admirably arranged for the various spiritual and temporal offices of the Church. It contained the Sunday school rooms, lecture room, church parlor, pastor's study, and offices. A very fine organ was erected in the church, and the Church had an excellent and accomplished choir. From a membership of seventy, on January 1, 1852, the increase was quite slow for three years. In 1852 there were nineteen additions; in 1853, forty-four; and in 1854, fourteen; while for the next three years the growth of the Church was much greater and more satisfactory. In 1855 there were thirty-six additions; in 1856, eighty-four, and in 1857, eighty-six.

PHILO CARPENTER was born February 27, 1805, in Savoy, Mass. He is a direct descendant of William Carpenter, who, in 1635, came from Southampton, England, and settled in Weymouth, Mass. Both of Mr. Carpenter's grandfathers served in the Revo-Mass. Both of Mr. Carpenter's grandiathers served in the Revo-lutionary War. His paternal grandfather, Nathaniel Carpenter, was a Captain under George 111,, but at the beginning of the strug-gle he resigned his commission, raised a company for the Colonial army and fought in many a battle during the war, and at its close army and fought in many a battle during the way was in command at West Point. Abel Carpenter, the son of Nathaniel, was the father of the subject of this sketch. Young Philo's education was for the most part obtained at the common schools, but improved at the Academy of South Adams, Mass. In 1828 Mr. Carpenter went to Troy, N. V., where he became a clerk in the drug store of Dr. Amatus Robbins, and also became a partner with Dr. Robbins and a medical student. Through the representations of a friend he decided to emigrate to the West. Packing his drugs, he started for Buffalo, embarking there for Detroit. From Detroit he came to Chicago, by way of Niles, Mich., down the St. Joseph River to its mouth, and thence to Chicago in a canoe towed round the head of the lake by two Indians hired for that purpose, accompanied by a friend from Niles. They landed in July near the present site of the Douglas monument, and were conveyed to Fort Dearborn by Joel Ellis, whom they found living in a log cabin near the place of their landing, While waiting for his goods to arrive in Chicago, Mr. Carpenter secured a log building sixteen by twenty feet in size, on Lake Street near the river, in which he opened the first drug store in Chicago. In the early winter he moved into a larger building which had just been vacated by George W. Dole. In the summer of 1533 he purchased a lot on South Water Street, between LaSalle and Wells streets, upon which he erected a small store. To his stock of drugs he now added general merchandise and hardware. In this store he remained until 1842, when he re-moved to Lake Street, where he remained about two years, when he disposed of his mercantile business to Drs. Brinkerhoof and Penton. Mr. Carpenter previous to this time invested his spare funds in real estate, and was very judicious in this line of investment. He was careful not to purchase beyond his ability to pay. His two lots of forty feet front on South Water Street cost him S55.09, and the lot on Lassalle Street, twenty-live feet by one hundred and eighty feet, bought of Mark Beaubien, cost him \$25.00, Billy Caldwell, the half-breed, owned two and a half sections of timber land up the North Branch of the river, about nine miles from the city. Mr. Carpenter, Colonel R. J. Hamilton, Capitain Seth Johnson and Lieutenant Kingsbury each bought a quarter-section of this land for \$1,25 per acre. He also entered from the Government, at the same price, the one hundred and sixty acres of land

since known as "Carpenter's Addition to Chicago," for which he was laughed at at the time as having located a farm so far away from the city, and one which seemingly never could be plowed except with an anchor. This addition is bounded by Madison, Halsted and Kinzie streets, and by a line running from Kinzie to Madisted and Kinzie streets, and by a line running from Kinzie to Madison Street, midway between Ann and Elizabeth. Contrary to Mr. Carpenter's expectations at the time of its purchase, he has lived to see it covered with buildings and to pay in taxes annually on one lot more than twice as much as the whole quarter section cost. But if always sagacious in real estate investments, he made a mistake in endorsing for some friends. These friends failed to pay their creditors at the maturity of the debt, and Mr. Carpenter borrowed money with which to pay some of them. When the crisis of 1837 came this with which to pay some of them. When the crisis of 1837 came this debt became due, and as it was not possible to sell real estate or borrow money, Mr. Carpenter in response to the demands of his creditors spread before a committee selected for the purpose, consisting of William H. Brown, and B. W. Raymond, his entire list of property from which they were to select sufficient to satisfy the debt, \$8,600. The committee selected nine hundred and sixty acres of land in Fayette County, four and a half blocks in Carpenter's Addition to Chicago, a house and lot on LaSalle Street, near Washington, his homestead, and a half block in the school section. It was then generally conceded that the property chosen was tion. It was then generally conceded that the property chosen was worth more than twice the debt. As illustrating the soundness of Mr. Carpenter's judgment with reference to the future value of Chicago real estate, his opposition to the proposed sale in 1832 of the entire school section, bounded by State, Madison, Halsted and Twelfth streets, may be mentioned. One hundred and thirty-eight blocks were sold for \$38,065. The four blocks that were not sold, bounded by Madison, State, Monroe and Dearborn streets, are now (1883) worth over \$2,000,000. Mr. Carpenter retired from are now (1883) worth over \$2,000,000. Mr. Carpenter retired from the Board of Education in 1865, and as a recognition of his services, one of Chicago's elegant school-houses was named the "Carpenter School." He has always been an advocate of education, temperance, religion and universal liberty. In 1832, he wrote and circulated the first total abstinence pledge in Chicago and so far is known delivered in the log building of the Rev. Jesse Walker, the first temperance address in the city, and on the 19th of August of the same year assisted at the organization of the first Sunday school in the city. He was one of the first members of the First Presbyterian Church of Chicago, and also one of its first elders. His work as a member of the Third Presbyterian Church and as one of the organizers of the First Congregational Church, is detailed in connection with each. What he did for the Chicago Theological Seminary is referred to in its history. He was one of the organizers and since has been one of the most liberal supporters of the National Christian Association, organized in opposition to secret societies, a sketch of which is inserted elsewhere in this History. Mr. Carpenter was which is inserted eisewhere in this transfer County, Mass., married first to Sarah F. Bridges, of Berkshire County, Mass., May 10, 1820, who died in the following November. He was May 10, 1830, who died in the following November. married to Miss Ann Thompson, of Saratoga County, N. Y., April 23, 1834. She died in 1866. They had seven children, April 23, 1834. April 23, 1834. She then it follows the plant seven clinical three of whom died in infancy. His youngest son died suddenly of heart disease September 8, 1869. Two daughters are now living, Mrs. W. W. Cheney, and Mrs. Rev. Edward Hildreth. His third daughter, Mrs. Millie C. Strong died December 31, 1880.

PLYMOUTH CONGREGATIONAL CHURCH.-During the year 1852, informal consultations were held by members of the First Presbyterian Church with reference to separating from that Church and forming a new one on the Congregational plan. In the early days of Chicago, Congregationalists arriving in the city, finding no Church of that denomination here, very generally united with Presbyterian churches, but as they increased in numbers they naturally became more desirous of founding churches similar to those of which they had been members in their former homes. The first regular meeting for the purpose of consultation upon the propriety of organizing Plymouth Church was held October 7, 1852, at the house of Joseph Johnston. At this meeting a committee was appointed whose duty it became to secure a site upon which to erect a house of worship. At a meeting held October 27, also at the house of Mr. Johnston, a committee was appointed to solicit and collect funds and to superintend the erection of the church building upon the site selected by the former committee; and another committee was appointed to prepare a plan of organization. At subsequent meetings the articles of faith, rules of the Church, etc., presented by the proper committee were adopted, and an Ecclesiastical Council convened December 1, 1852, for the purpose of creating the Church, which was organized on that day and called the "Plymouth Congregational Church of Chicago." The Ecclesiastical Council was composed of representatives from twenty-five churches. It was organized by the election of Rev. J. Gridley, moderator, and Revs. H. D. Kitchel and L. Benedict, scribes. A statement of reasons was made to the Council for the proposed organization of the Church, the main reasons being:

First. The conviction that the growth of the city warranted the establishment of another Church, professing the same fundamental doctrines of faith and practice with that from which the sep-

aration was made.

Second. A desire to be united under a Church Polity which would secure to the majority the right to carry their own acts of discipline and benevolence, and that would be free from all ecclesiastical connection with the sin of slavery.

These reasons were declared satisfactory by a unanimous vote of the Council, the articles of faith, covenant and rules and declarations of the Church were all approved, and the Council proceeded to the organization of the Church. The following order of exercises

was observed:

Reading of the Scriptures, by Rev. G. S. F. Savage; introductory prayer, by Rev. L. Farnham; sermon, by Rev. Flavel Bascom; reading minutes of council, by the scribe; reading articles of faith, etc., by moderator; consecrating prayer, by Rev. W. B. Dodge; fellowship of the churches, by Rev. L. S. Hobart; benediction, by the acting pastor, Rev. J. M. Davis. The original members were as follows, forty-eight in number: Franklin V. Pitney, Mrs. Franklin V. Pitney, Joseph Johnston, J. R. Shedd, Mrs. J. R. Shedd, Mrs. Clara M. Waldo, Orlando Davidson, Mrs. Orlando Davidson, William H. Taylor, F. T. Seeley, Silas R. Ball, Mrs. Silas R. Ball, Miss Amelia Ball, Zebina Eastman, Mrs. Zebina Eastman, Archibald Ridell, Mrs. Lucy Ridell, John H. Butler, Mrs. John H. Butler, Thomas C. Whitemarsh, Mrs. William H. Taylor, Horatio Hitchcock, Mrs. Louisa S. Hitchcock, Mrs. Emeline C. Fulton, Mrs. Anna E. Edwards, Mrs. E. C. Husted, E. C. Stowell, Benjamin Carpenter, Mrs. Benjamin Carpenter, William P. Caton, Mrs. William P. Caton, Deliver Walker, Mrs. Deliver Walker, Miss Abby Walker, Mrs. Juliette F. Whitemarsh, Mrs. S. J. Stickney, Spencer Warner, Mrs. Spencer Warner, Nathaniel S. Cushing, Mrs. Melissa W. Cushing, Mrs. Haven, Carlos Haven, Mrs. Julia Haven, Mrs. Cornelia M. Temple, George W. Richards, Mrs. Laura Richards, Mrs. Isabella Davis, A. S. Wilcox. The first forty-one of these were from the First Presbyterian Church of Chicago; the next three from the Galesburg Presbyterian Church; the next two fron the Congregational Church at Harmar; Mrs. Isabella Davis from the Congregational Church, at Woonsocket, R. I., and A. S. Wilcox, from the Methodist Church, at Chicago. Religious services were held for a few weeks in Warner's Hall, on Randolph Street, until the completion of the church building in January. This stood on the southwest corner of Madison and Dearborn streets, and was dedicated on the last Sunday in January, 1853. It was a frame structure, thirty by fifty feet in size, and cost \$2,500. In the fall of 1855, it was moved to the corner of Third Avenue and Van Buren Street, and in it there the Church continued to worship until the fall of 1864, when it was sold. Rev. J. M. Davis remained pastor until July, 1853, and was succeeded by Rev. Nathaniel H. Eggleston, who was called November 9, 1853, installed March 12, 1854, and resigned July 25, 1855. Rev. Joseph E. Roy, formerly pastor of the Congregational Church at Brimfield, Illinois, was called August 15, 1855, commenced his ministerial labors on the first Sunday in November, was installed July 1, 1856, and resigned July 1, 1860. Mr. Roy's resignation was occasioned by his having received on June 18, 1860, the appointment of District Secretary for the Northwest of the American Missionary Association, which appointment he desired to accept. The membership of this Church increased somewhat irregularly for the first few years. In 1853, there were added forty members; in 1854, ten; in 1855, twenty-one; in 1856, sixty-one; and in 1857, thirty-seven.

South Congregational Church.—During the years 1853 and 1854, a corporation known as the "American Car Company," carried on an extensive manufactory of railroad cars in Chicago. Their establishment was located on the lake shore at the foot of Rio Grande Street, now Twenty-sixth. The section of the city in the vicinity of their works, soon after they went into operation, became quite thickly settled by families connected therewith; the settlement became quite a village and received the name of Carville. A few New England men connected with the company, assisted by the residents of Carville, applied themselves to the work of forming a new Church, and the erection of a church edifice. Prominent among the movers in this enterprise were the president of the American Car Company, Timothy Dwight, and the superintendent, J. H. Lyman. Deacon Joseph Johnston, of the Plymouth Congregational Church, donated \$300 toward the enterprise, and several other leading Chicago Congregationalists ably seconded the movement. The proprietors of the Car Company donated a lot on the northeast cornet of Calumet Avenue and Rio Grande Street, and during the summer of 1853, a house of worship was erected thereon. While this was being erected, religious services were regularly held in a school-house standing near the intersection of Calumet and Cottage Grove avenues, under the ministration of Rev. E. F. Dickinson, whose labors with his people commenced early in March, 1853, and were continued until the fall of 1854. During his pastorate the new house of worship was completed and dedicated and the Church organization fully effected. The dedication occurred August 21, 1853. The following extract relating thereto is copied from the Chicago Daily Tribune, of August 24:

"The new house of worship erected near the American Car Company's works in this city, for the use of a Congregational Church and society, was dedicated to the service of God on Sunday afternoon at 3 o'clock. Rev. E. F. Dickinson conducted the introductory exercises. The sermon was preached by Rev. J. C. Holbrook, from the tooth Psalm. Subject: 'The Benefit to Society of Public Worship.' Dedicatory prayer by Rev. J. M. Williams. This is a very neat edifice, built upon the general model of the Plymouth church in this city; the dimensions are thirty-six by sixty feet and it contains sixty slips besides those for the use of the choir. The whole expense including furnishing will be about \$2,500, besides the donation of the lot; Mr. Lyman, the superintendent of the works, also generously donated a melodeon. The seats are to be free. There is also adjoining on the same lot, a small building designed for a school-house and conference room. Rev. E. F. Dickinson will preach there regularly at 10 o'clock every Sabbath morning for the present. A good audience was in attendance on the occasion of the dedication. This is the third Congregational church edifice that has been opened in this city within the last six months, and there is another on the North Side, which will be completed next month. The First Congregational Church on the West Side are also preparing to build a fine house, at an expense of about \$15,000."

The next event of importance was the organization of the Church. This was effected November 20, 1853, in the evening of which day (Sunday), a Council convened at the church and proceeded to formally recognize the Church, which at that time consisted of fourteen

members, and which increased to nineteen members at the first communion, as follows: Rev. Edmund F. Dickinson, Mrs. Harriet N. Dickinson, H. E. Dickinson, Mrs. Julia A. Dickinson, Jesse R. Langdon, Mrs. Artemisia Langdon, Mrs. Candace L. Langdon, Caleb F. Gates, Mrs. Mary E. Gates, Mrs. Mabel K. Gates, Charles Gates, Mrs. Laura Clapp, Joseph Harper, Mrs. Jane Harper, Mrs. Mary Putney, Samuel Truax, Mrs. Agnes M. Ballentine, Mrs. Harriet Chamberlain, Miss Mary Jane Haynes. After the retirement of Mr. Dickinson, a call was extended in October to Rev. Edwin E. Wells, of Bloomingdale, Ill., to occupy the field as a stated supply, and during the same month he commenced his ministry. He proved to be a zealous and acceptable pastor, and during the brief period of his pastorate, a new interest was awakened in spiritual matters, and the congregation was largely increased. But his strength was not equal to the task, his health was impaired, and he died July 18, 1855. Days of affliction and adversity now came upon the Church. In addition to a death of a faithful and beloved pastor, the society suffered from financial embarrassment. The American Car Company failed, and in consequence was unable to redeem its generous promises and pledges of support to the This unexpected calamity occurring while Church. their debts remained uncanceled, threatened the destruction of the society. But although discouraged, they did not despair, nor cease their efforts to cancel their obligations, and thus relieve themselves of their burdens. In October, 1855, Rev. Cornelius S. Cady was called to the pastorate. He accepted the invitation and remained with the Church until October, 1856, when he resigned. During the period of his engagement, a series of special religious meetings was held by Rev. J. T. Avery, of Cleveland, Ohio, an evangelist, and a number of hopeful conversions was made. For some months after the retirement of Mr. Cady, occasional preaching was had in the church by Rev. H. L. Hammond and Rev. E. Goodman, of Chicago. At length an invitation was extended to Rev. William T. Bartle, of Kewanee, Ill., to occupy the pulpit, and he commenced his ministry June 21, 1857. Mr. Bartle resigned his pastorate April 24, 1859, having thus been with the Church nearly two years. These were also years of sore trial to the Church, especially on account of the financial crisis of 1857; but as the period covered by them, and its results to this devoted band of Christians is mostly within the space of time embraced in the second volume of this History, a detailed account thereof is deferred to that volume. At the close of the year 1854 the membership of the Church was twenty-one; in 1855, there were six additions, in 1856, nine, and in 1857, ten.

THE NEW ENGLAND CHURCH,-The New England Congregational Church was organized June 15, 1853, by a council of churches called for that purpose. Its membership at the time of the organization was twentyone. The origin of the movement which resulted in the organization of this Church was as follows: The Prairie Herald, a religious newspaper published in Chicago, was offered for sale in 1852. The dedication of Plymouth Congregational Church was to occur in January, 1853, and among others there were present in Chicago to assist in the dedication, Rev. L. S. Hobert, of Michigan and Rev. John C. Holbrook, of Dubuque, Iowa. It occurred to these gentlemen to open negotiations for the purchase of the paper, hoping to make it the Congregational organ for the Northwest. At a meeting held to consider the question of purchasing the paper, it was discovered that if the purchase were made

an editor must be secured at once. Rev. Mr. Holbrook consented to accept the editorship, provided a place could be found where he could at the same time prosecute his ministry. A preliminary enterprise was there-fore started on the North Side, with a view to an ultimate Church organization, the enterprise being at first supported mainly by the members of the Plymouth Church. Services was held each Sunday afternoon at the North Market Hall, and prayer-meetings were held during the week at private houses. In the winter of 1852-53 it was deemed advisable to take steps toward the erection of a suitable house of worship. A piece of land was purchased in the name of Benjamin Carpenter at the corner of Indiana and Wolcott (now State) streets, and the necessary amount of money subscribed to make the first payment thereon and for the erection of a church building. About May 1, 1853, a committee was appointed to draft articles of faith, covenant, and rules for the government of the Church, and also a committee to call a council for the purpose of organizing a Church. The former committee consisted of Rev-John C. Holbrook, Charles G. Hammond, George C. Whitney and Lewis Broad. The second committee was composed of Rev. J. C. Holbrook, George C. Whitney and L. D. Olmsted. On the 15th of June the Council called by the second committee convened and organized the Church, with the following twenty-one members: Rev. John C. Holbrook, Mrs. Ann Louisa Holbrook, Benjamin Carpenter, Mrs. Abigail H. Carpenter, Abraham Clark, Mrs. Melicent Clark, Miss Jane Clark, James N. Davidson, Mrs. Lucy Davidson, Miss Elizabeth Davidson, Orlando Davidson, Mrs. Caroline Davidson, George C. Whitney, Miss Sarah Whitney, Miss Rockel Cole. Miss Rachel Cole, Lucius D. Olmsted, Mrs. Jesse Olmsted, Charles G. Hammond and Mrs. C. B. Hammond. On July 6, Charles G. Hammond and George C. Whitney were elected deacons, and Orlando Davidson was elected clerk. On the 9th of October, the name," The New England Church," was adopted. Rev. John C. Holbrook remained with the Church as stated supply until January 1, 1856. He declined a call to settle as pastor, and soon afterward left the city. For a considerable time thereafter the pulpit was occupied by different clergymen, Rev. Charles P. Bush, a Presbyterian, remaining nine months. At length Rev. Samuel C. Bartlett, of Manchester, N. H., after having declined the first call, accepted the second and was installed as pastor April 15, 1857. Rev. Mr. Bartlett remained two years when he resigned in order to devote himself to the duties of the Professorship of Biblical Literature in the Chicago Theological Seminary, to which office he had recently been appointed. The first church building erected at the corner of Indiana and State streets, was a frame structure forty by fifty-five feet in size, capable of seating five hundred people, and cost \$2,000. The next building was erected in 1865, a description of which will be found in the second volume of this History. The membership of this Church at the time of organization, June 15, 1853, was twenty-one; November 6, eleven were added, three on profession, eight by letter; on December 20, three were added, one on profession, two by letter. In 1854 the additions to the membership were five, in 1855, fourteen, 1856, fourteen; and in 1857 twenty-one. The total number received previous to January 1, 1858, was eighty-nine; the membership had been diminished in number twenty-three, seven by death, fifteen by dismission, mostly to join other churches, and one by excommunication, leaving the membership at the close of the first period of this History, sixty-six.

The First Universalist Church in The first attempt to organize a Universalist Church in Chicago was made in 1836. In that year Rev. William Queal preached to a small congregation, and on the 11th of June organized the society which consisted of N. H. Bolles, E. E. Hunter, A. N. Marble, Chester Tupper, S. G. Trowbridge and S. C. Bennett, who worshiped for a number of years in Mechanic's Hall, in the old Saloon Building. Other places were occasionally occupied, as Bennett's school-house, and the court-room. For a number of years the congregations were quite small, but among them were several persons who afterward became prominent and leading citizens. Previous

FIRST UNIVERSALIST CHURCH.

to 1843 the Church had no regular minister, but depended upon missionaries as supplies. The first church building erected by this society was located on Washington Street, near the Clark-street Methodist Episcopal church. It was a frame building, thirty by forty-five feet in size, and cost \$2,000. It was dedicated October 23, 1844, by Rev. William E. Manley, D. D., who had accepted a call to the Church in the preceeding January. Mr. Manley had preached for the Church in 1842. He remained pastor until 1845, when he was succeeded by Rev. Samuel P. Skinner, who was succeeded in October, 1855, by Rev. Samuel B. Mason. During Mr. Mason's pastorate the congregation had grown so large that a new church edifice became a necessity. Movements were therefore instituted looking to the erection of a building which should be a monument of architectural grandeur and beauty, and furnish the Church, which had become the leading Universalist Society of the Northwest, with a permanent religious home. A building committee was appointed consisting of R. K. Swift, Henry Vreeland, B. F. Walker, Jacob Gage, S. P. Skinner, H. H. Husted, P. B. King, and M. D. Gilman. The first board of trustees consisted of M. D. Gilman, H. H. Husted and E. G. Hall. During the pastorate of Rev. Mr. Mason the new church building, which was a remarkably attractive edifice, was completed. W. W. Boyington was the architect. The location of this building was at the southwest corner of Wabash Avenue and Van Buren Street. The dimensions of the building were seventy feet fronting on Wabash Avenue, and one hundred and eight feet deep on Van Buren Street, including the projection of the towers and turrets. The

style of architecture was Gothic, with lancet-head windows and doors. The front of the building was very graceful, the tower and spire in the center, the spire reaching to a height of one hundred and seventy-five feet. There was a turret on each front corner, and three entrances in the front, opening into a spacious vestibule. The exterior walls were of stone, rock faced, the spire and pinnacles being of wood. The main auditorium was on the second floor; was fifty-eight by seventy-five feet in size, with galleries, and afforded comfortable seating for eight hundred people. The height of the walls was twenty-eight feet, and the ceiling was forty-three feet high in the center. The pulpit was erected in an octagonal recess. There was a very fine organ, erected by Mr. Erben. The basement was ten feet feet high in the clear and was elegantly fitted up for its purposes. The cost of this building was \$60,000. The dedication occurred May 7, 1857, Rev. E. H. Chapin, of New York City, preaching the sermon. The first church building of this society was sold to the Olivet Presbyterian Church. The successor in the pulpit of Rev. Samuel B. Mason, was Rev. William W. King, who commenced his pastorate in August, 1857, and was succeeded by Rev. William H. Ryder, on Sunday, January 1, 1860. The legal title of the parish is the First Universalist Society of Chicago, but it is generally known as St. Paul's Universalist Church.

THE FIRST UNITARIAN CHURCH was organized June 29, 1836, under the laws of Illinois, and with the title of "The First Unitarian Society of Chicago," \$800 were at once subscribed for the purchase of a lot. The first Unitarian preaching in Chicago was a few days or weeks previous, but in the same month of June. The services were held in the Lake House, which stood at the corner of Rush and Michigan streets. Dr. Charles Follen preached the sermon. Miss Martineau, who was on a tour through the West at the time, refers to that occasion in the following language: "We were unexpectedly detained over the Sunday in Chicago, and Dr. F. was requested to preach. Though only two hours' notice was given, a respectable congregation was assembled in the large room of the Lake House, a new hotel then building. Our seats were a few chairs, and benches, and planks laid on trestles. The preacher stood behind a rough pine table, on which a large Bible was placed. I was never present at a more interesting service, and I know that there were others who felt with me." For some time after the organization was perfected the society had no regular pastor. Rev. Mr. Huntoon preached for some months in the summer of 1837, and in June, 1838, Rev. James Thompson, of Salem, Mass., preached a number of sermons. In 1839 Rev. Crawford Nightingale preached for some months, the society being accommodated in the Mechanics' Institute. On the 22d of June, this year, Rev. George W. Hosmer, of Buffalo, preached in the "City Saloon," on Unitarianism, and he also preached on the three succeeding Sundays. Some time afterward Rev. Mr. Barrett preached two Sundays. In October, Rev. Joseph Harrington arrived in Chicago and commenced his labor here as the pastor of the society. His first sermon was preached in the "City Saloon," to a congregation of ten persons. Religious services continued to be held in the same place until the spring of 1840, when Rev. Mr. Harrington decided to go East and solicit assistance to build a church. Upon his return a lot was purchased on Washington Street, between Clark and Dearborn, eighty by one hundred and eighty feet in size, for \$500. A contract was made with Alexander Lloyd for the erection of a building. It was erected

in the fall of 1840, and dedicated May 3, 1841, by Rev. Joseph Harrington. The cost of the church was \$3.758.45; cost of the lot, \$500; making a total cost of \$4.258.45. Of this amount there was collected at the

FIRST UNITARIAN CHURCH.

East, chiefly through the efforts of Mr. Harrington, \$2,888.46, the balance being collected in Chicago. The church was forty-two by sixty feet, and of the Doric order with the exception of the entabla-ture, which was devoid of a triglyph. The steeple, which was built in 1845, cost \$461, making the total cost of the church property \$4,719.45. There was also a large bell and an organ. This bell, with the was also a large bell and an organ. This bell, with the exception of the small bell on St. Mary's church, was the first church bell hung in Chicago. The tower of this church was erected in the latter part of 1844, and the bell was hung in it on the 31st of December, 1844, and was thereafter ready for ringing on all suitable occasions. It was the first bell in Chicago that could be heard to any considerable distance and was depended upon by other churches to denote the time of Sunday services. It was also used as a fire alarm bell until 1855, when the First Baptist Church was erected at the corner of Clark and Washington streets, and the bell belonging to it, being a larger and more powerful one, superseded the "little bell" on the Unitarian Church in case of the necessity of sounding a fire alarm. This Baptist bell continued to be used for this purpose until 1856, when the court-house was completed, in the tower of which was hung in that year a heavy bell which from that time gave the alarm of fire. Rev. Mr. Harrington closed his pastorate in the fall of 1844, and was succeeded in 1845 by Rev. William Lord, who remained only a short time, and the pulpit was supplied tem-porarily by Revs. Henry Giles, William P. Huntington, Mr. Ripley and Mr. Conant, and on November 22, 1846,

Rev. William Adam, who had been for twenty years a missionary in India, preached his first sermon for the Church. Rev. Mr. Adam remained about two years, when he was succeeded by Rev. R. R. Shippen, who commenced to preach for this Church in the fall of 1849, Rev. Mr. Shippen remained until July 1, 1857. During his pastorate such was the growth of the society that it was necessary to enlarge the church building at two separate times. Rev. George F. Noyes became pastor of this Church in September, 1857, and continued until the spring of 1859, when he resigned. Under his auspices the "ministry at large" was organized and Rev. William H. Hadley placed at its head. Mr. Hadley was followed by Rev. Robert Collyer as minister at large. When Mr. Collyer was called to the ministry of Unity Church, Miss E. P. Newcomb was called to conduct the business of the ministry at large. This charity was the means of relieving much destitution in Chicago. After the resignation of Mr. Noves, the First Unitarian Society remained without a pastor until the summer of 1861, but the pulpit was supplied most of the time by various clergymen, among them Revs. A. B. Fuller, E. H. Sears, Horatio Stebbins, Thomas Hill, A. D. Mayo, and Robert Collyer. The history of this church may appropriately close in this volume with a brief sketch of the life of Rev. Joseph Harrington, its first pastor.

REV. JOSEPH HARRINGTON was born February 21, 1813, in Roxbury, Mass. His father was for many years a successful lawyer in Norfolk and Suffolk counties, and occasionally served as Justice of the Peace. At a very early age certain elements of young Joseph's character were remarkably developed. One of these was resoluteness and determination. On one occasion, when his teacher was about to compel obedience by inflicting corporal punishment, he seized the ferrule from her hand and threw it in fragments on the floor. The next day in obedience to his parents he came to her with a very humble apology. This was in his sixth year. In after years he was an ardent devotee of the "manly art of self-defense," feared no man, and was equally possessed a genuine enthusiastic love and reverence for his mother, to whom, after being once, at the age of seven years, conquered by her by the infliction of corporal punishment, he uniformly yielded implicit obedience. "Among the instructors whose influence upon him seems to have been most permanent was Edward Bliss Emerson, a man of great purity and simplicity of character, uniting exquisite delicacy and sensitiveness with an earnest, religious purpose, sterling common sense, and a wide and generous sympathy for all."

... "Mr. Harrington often in after years mentioned with reverence and gratitude, the name of this faithful instructor, who so early passed away, the first stricken from that brilliant constellation of genius bearing his name."\*

FosephHarrington

were passed in one of the most joyous and attractive of homes, and in the excellent public schools of his native town. In September, 1827, he entered Phillips' Academy at Exeter, N. H., at the time under the charge of Drs. Benjamin Abbott and Gideon Soule. He entered Harvard University in the summer of 1829, having attained sufficient knowledge to pass a critical examination for admission to the Freshman class. His vigorous constitution, love of atheletic exercise, vivacity of temperament, and other peculiarities while they prevented him from being a recluse or bookworm, did not prevent him from being an excellent student. While he was not, at that time, especially inclined to the study of abstract science, and while metaphysics and the more recondite branches of mathematics, were pursued chiefly as a means of mental discipline, yet he was delighted with philology, and with Chaucer, Spenser, Milton and Shakespeare, and other classic poets of England. He was more interested in the study of modern than of ancient languages. The Italian was especially attractive to him because it was the language of music. He never abandoned the learning or the literature

<sup>\*</sup> From a memoir of Rev. Joseph Harrington by William Whiting.

of Germany, nor did he ever deny himself the pleasures of the studies of music and of elocution. He graduated from Harvard University, receiving the usual degree of Bachelor of Art, in the summer of 1833. Henceforth he was to depend upon his own exertions for a livelihood, as he had in part during his college years. After residing a little more than six months at East Greenwood, he took charge of the Hawes School at South Boston, January 14, 1834. This was reputed to be the most difficult of Boston schools 1034. This was repured to be the most difficult of Boston schools to manage. Some of its pupils were turbulent, refractory and profane, but after conducting it for five years, such had been the spirit with which he undertook his work and the powers he brought to bear upon his pupils, that he left it one of the best schools in the city. While engaged as teacher in the Hawes School Mr. Harrington turned his attention toward the ministry and he will rington turned his attention toward the ministry, and he relinquished charge of the school for the purpose of pursuing his theological studies. His resolution to become a public teacher of morals and religion was formed in November, 1836. Having made his choice, he at once entered upon the study of theology under the direction of Rev. George Putnam, of Roxbury. In the autumn of 1839, he was sent as missionary to Chicago by the American Unitarian Association. Here he remained until April, 1840, when he returned to New England to solicit funds for the purpose of building a church. He raised about \$2,500, which when added to the \$2,000 contributed by the citizens of Chicago made sufficient to carry the enterprise forward to a successful issue. In September he was ordained as an evangelist at Federal-street Church, Boston, and in October he returned to Chicago as pastor of the First Unitarian Society. He reached Chicago October 31, and preached his first sermon as settled pastor on Sunday, November I. In the summer of 1841, he was the first to preach the doctrines of Unitarianism at Milwaukee, Wis. In 1842 he received a call to become the colleague of the Rev. Mr. Eliott, of St. Louis. In 1843 he planted the Unitarian Church at Rockford, Illinois. In the spring of 1844, accompanied by Mrs. Harrington, he left Chicago to visit friends in the East and South, preaching several Sundays at the Unitarian Church in Baltimore, Md. During this year Mr. Harrington decided to retire from the pastorate of the Chicago Unitarian Church, because of the precarious condition of his mother's health, and because of the uncertainty of his connection with the Church. But when he left the Church it was entirely free from debt. After a brief period of repose, he was invited to take measures toward the establishment of a new Unitarian Society at the "South End," Boston. While thus engaged he was invited to supply the pulpit of the Suffolk-street Chapel, which he engaged to do for one year. During this year it was found impracticable to carry forward to a successful issue the "South End" Society pro-Society project. During the winter of 1844-45 he was invited to become pastor of a Unitarian Society at Hartford, organized less than a year previous, but feeling pledged to stand by the "South End" enterprise until its fate was decided he declined the invitation. A year later the call was repeated and accepted. On Sunday, January 4, 1846, he preached his first sermon to this congregation as his own people. Here he remained six years, laboring under peculiar difficulties in connection with his ministry, Unitarianism being then quite unpopular in Hartford, and his society being small and heavily in In March, 1852, he received a call from a Unitarian Society in San Francisco, but declined to consider the question until he had finished the work of liquidating the debt of his Hartford Church. This he accomplished in the following May, and on the 20th of July, with his wife and daughter, took passage from New York for Aspinwall. He reached San Francisco on the 27th of August, and on the 30th he preached his first sermon there in the United States District court-room, to a large congregation. Sunday the court-room was too small to accommodate the crowd that sought admittance, and a large hall was afterward engaged, which, contrary to expectation, proved too small. Mr. Harrington's experience in San Francisco was from the first very different from what it had been in New England, "The cordial hand of brotherhood was extended to him by ministers of different theological opinions, giving him for the first time since his entrance into the ministry the happiness of unrestrained association with the clergy." While laboring in Hartford to free the Church from indebtedness, he contracted the disease which, complicated with Panama fever and paralysis, resulted in his death, Tuesday, November 2, 1852. His remains were interred at San Francisco, November 4, 1852, and at Forest Hills Cemetery, Roxbury, Mass., December 13, 1853. Mr. Harrington was married April 6, 1841, to Miss Helen E. Griswold. They had three children: Helen Josephine, born in February, 1842, and two sons, both of whom died in in-

REV. RUSH RHEES SHIPPEN was born at Meadville, Penn., January 18, 1823. His paternal ancestors were of English descent, and his mother was of Welsh extraction. The subject of this sketch received his early education at Allegheny College, Meadville, but his course was interrupted in his senior year by the sus-

pension of the institution, but afterward in recognition of his attainments, it conferred upon him the degree of Master of Arts. Before he was sixteen years old he taught a district school and "boarded to the conference of the c round." In the fall of 1844 the Meadville Theological School was started under the auspices of the Unitarian denomination, Rush R. Shippen being the first student enrolled in the institution. After three years of study in this institution, desiring to extend his observation and experience, he accepted for a year the position as private teacher in the family of a wealthy planter residing near Nashville, Tenn. He then returned to Meadville to complete his theological course, and graduated in June, 1849. After a brief tour through the Eastern States he came to Chicago, and took charge as pastor of the First Unitarian Church, entering upon his duties November 13, 1840. His pastorate here continued eight years. With reference to his characteristics one of his Chicago parishioners writes of him as follows: "He was of tall and parisinoists writes of him as follows: He was of tail and powerful frame, commanding presence, with an expression of great gentleness and benignity. His voice was powerful, but of a peculiarly agreeable quality. His musical gifts as a flutist and as a bass singer, his general intelligence and genial manners made him welcome in all companies. He was a clear thinker and vigorous writer, and gave to all his utterances the force of personal conviction. Not greatly eloquent nor strikingly original, yet he rarely failed in the pulpit to interest his audiences, because his words were always well chosen and from the heart." Rev. Mr. Shippen was an able and popular speaker and a constant contributor to denominational and secular papers, and at one time assisted in the editorial charge of the New Covenant, a Universalist paper published in Chicago. He manifested a deep interest in the charitable and educational institutions of this city. In May, 1852, with other Unitarian clergy of the West, he joined in organizing the Western Unitarian Conference. While encouraged and gratified by the steady growth and prosperity of the society, which required two successive enlargements of the church, seven years of such labor proved a severe tax upon his strength and resources. Oppressed with fatigue and thinking that with a rest and change his life work as a Christian minister would be extended and enhanced, he resigned his charge in Chicago July 1, 1857. In the fall of this year he accepted a call to the Church of the Unity, Worcester, Mass, as the successor of Edward Everett Itale, D.D. He was also for many years an active member of the School Board and Chaplain at the Worcester County jail. In the spring of 1869, on account of impaired health, he was granted six months' leave of absence to travel in Europe, at the expiration of which period he returned to his duties with the vigor and zest of youth. In 1870, resigning his Worcester charge, he accepted the secretaryship of the American Unitarian Associa-tion at Boston. To the discharge of the duties of this new position he brought his experience of more than twenty years of an active ministry, and a wide personal observation of both the East and West. His broad and comprehensive views served to solve wisely the many practical questions arising for decision. At all the annual meetings and general conferences the reports of the secretary were cordially received; and largely through his leadership the denominational enterprises were planned and executed. Although Mr. Shippen has never devoted himself to authorship or distinctively literary work, he compiled and edited while in the secretaryship the Service, Hymn and Tune Book published by the Association, which has supplanted most other books, and is growing into general adoption by the Unitarian societies. He also compiled a book for domestic devotional worship entitled, "Traise and Frayer," and among other tracts of which he is the author are "Judgment Days," and "The True Liberal." He wrote for McClintock and Strong's Encyclopedia the article entitled "Unitarianism," wherein the historical development and present status as a religious body are clearly defined. Mr. Shippen married, in 1855, Zoriah Rodman at Oriskany Falls, N. V., and their surviving children are Sarah, now wife of Arthur Lord, of Plymouth, Mass., and Eugene R., who is a student at Harvard College. After eleven years spent as secretary of this Association, Mr. Shippen accepted a call in 1881 to the pastorate of All Souls Church in Washington. In this Church Rev. Mr. Shippen is now (1883) engaged.

The New Jerusalem, or Swedenborgian, Church.—Previous to 1835 there were probably no Swedenborgians in Chicago, or in northern Illinois. In September of that year J. Young Scammon arrived in the city, and for some time was alone in his belief in the doctrines of the Church of the New Jerusalem. According to Swedenborg, the Divine Love and Wisdom constitute the essential Church, and any individual who is receptive of the Divine Love and Wisdom, constitutes an external Church in its smallest entity. Upon this principle Mr. Scammon commenced to hold New

Church worship on Sundays in his office, almost immediately upon his arriving in Chicago. In 1836 he became acquainted with Vincent S. Lovell, a young merchant in Chicago, and converted him to the doctrines of the New Church. Afterward the two united in Sunday worship. In 1837 Mr. Scammon was married to Miss Mary Ann H. Dearborn, of Bath, Maine, a receiver of the doctrines of Emanuel Swedenborg. Upon bringing his wife to Chicago, he took up his residence in the City Hotel, and here, in his private parlor, Mr. Scammon, his wife and Mr. Lovell held Sunday morning worship, in company with those invited who chose to attend. In 1838 religious worship was held in Mr. Scanimon's house on Clark Street, and until he moved into his residence at the corner of Michigan Avenue and Randolph Street. Services were next held in his office in the Saloon Building, southeast corner of Lake and Clark streets; then in the Common Council room adjoining; afterward in a large room in the next story, and at last, as members increased, in the Saloon Hall itself. Up to this time however, the attendance was never very large. The general body of the Church in Illinois is known as the Illinois Association. It was formed July 6, 1839, at Canton, Fulton County, under the following call issued June 3, 1839:

To the Receivers of the Heavenly doctrines of the New Jeru-

salem in the State of Illinois

Dear Brethren :- Believing that the time has come for the Receivers of the Heavenly Doctrines in this State to take more decided measures to co-operate with the Divine Providence in disseminating the doctrines of the New Dispensation, we respectfully summaring the other sew Dispensation, we respectively invite you to assemble at Canton, Fulton County, on Saturday and Sunday, the 6th and 7th days of July next, at 10 o'clock, A. M.

The object of the meeting is to bring our scattered energies

together by forming acquaintance with each other, and thereby extending the social sphere of the Church, and to take such steps as may be deemed essential, in our isolated condition, to enable us to

come more fully into order.

It is earnestly desired that every receiver who can conveniently attend will not fail to be present, and such as cannot be present will communicate to the meeting by letter, on the following sub-

The residence of the receiver; the number of New Church books in possession; the number of receivers and readers in the vi-cinity; the names of persons to whom communications may be addressed; the disposition to contribute toward obtaining a New Church minister to visit and preach at the various places where there are receivers in this State, and such other information as may be deemed of interest to the Church.

J. Young Scammon, Jonas Rawalt, JOHN F. RANDOLPH.

Pursuant to this invitation a meeting of receivers was held in Canton, Saturday, July 6, of which John F. Randolph, of Fulton County, was elected president, and J. Young Scammon secretary. On Sunday morning the meeting was organized by the election of the following officers: John F. Randolph, president; Caleb North, of Feoria County, secretary, and Jonas Rawalt, treasurer. After divine service, and the reading of the articles of faith, an address was delivered by Mr. Scammon, setting forth what is meant by the New Jerusalem Church. No minister could be obtained in 1840, hence no meeting of the Association was held. In 1841 Rev. Lemuel C. Belding, of Pennsylvania, who was sent by the Central Convention to Illinois as a missionary, visited Canton, and formed there a small society. In 1842 the Rev. T. O. Prescott, afterward known as O. Prescott Hiller, visited Illinois and preached at the meeting of the Association. In 1843 the Rev. John Randolph Hibbard being invited by the Association came to Illinois as its general minister and was subsequently made superintendent of the Association, and remained as such until 1879. The New Church in

this State was organized and grew up chiefly under his superintendence. While connected with the Association, he was successively minister at Canton, Peoria and Chicago. During this same year, 1843, "The Chicago Society of the New Jerusalem" was organized, and formed into a legal religious body. Originally the Society consisted of J. Young Scammon, Mrs. Mary Ann H. Scammon, and Vincent S. Lovell. The Society was organized at that particular juncture for the purpose of securing the benefits of a law of the State, providing that each religious society, in any town located on the line of the Illinois & Michigan Canal, on canal lands, might receive as a donation a lot upon which to erect a church building. But the provisions of the act could not be enforced after the end of that year. The Church was incorporated September 7, 1843. Through the efforts of Mr. Scammon a lot at the corner of Wabash Avenue and Adams Street, seventy-six by one hundred and seventy-one feet in size, was secured for the use of the Church. On the day of the organization, the Society adopted for its platform, or articles of faith, the three essentials of the Church, as contained in number 259 of Swedenborg's treatise on the Divine Providence, as follows: 1. The acknowledgment of the Divine of the Lord; 2. The acknowledgment of the Sanctity of the Word; 3. The life which is called Charity. These articles were signed by J. Young Scammon, Mrs. Mary Ann H. Scammon and Vincent H. Lovell. From the time of the organization until March, 1847, no annual meetings were held, but social and religious meetings were had in the Saloon Building, the numbers in attendance gradually increasing. At the first annual meeting held March 25, 1847, the following persons became additional members of the Society by subscribing to the articles of faith: William E. Jones, Joseph K. C. Forrest, John E. Wheeler, John Sears, Jr., Franklin Scammon, Thomas L. Forrest, George R. Bills, and Prof. James V. Z. Blaney, of Rush Medical College. The first trustees of the Society were J. Young Scammon and Vincent S. Lovell. On the 25th of February, 1849, the board of trustees was enlarged to include the following members: J. Young Scammon, William E. Jones, George R. Bills, James V. Z. Blaney, John Sears, Jr., John E. Wheeler, and Hugh G. Clark, the first three of whom were made an executive committee. Thomas L. Forrest was appointed secretary, and Franklin Scammon treasurer. Joseph K. C. Forrest was appointed leader. Mr. Forrest conducted religious services in the Saloon Building for several months, and public lectures were given by Rev. George Field. In February, 1849, the Society numbered twenty-one members, but it had not yet been consecrated as a Church. Desiring to be thus consecrated, they invited the Rev. J. R. Hibbard to visit Chicago for that purpose. The consecration occurred on the 25th of February, 1849, at the residence of J. Young Scammon, at the corner of Randolph Street and Michigan Avenue. At this meeting the executive committee was authorized to invite the Rev. J. R. Hibbard to become pastor of the Society, and to make the necessary provision for his support. In accordance with the authority thus conferred, an invitation was extended to the Rev. Mr. Hibbard to assume the pastorate at an annual salary of \$500. Mr. Hibbard accepted the invitation, and himself and wife united with the Society January 1, 1850. At this time the Society numbered twenty-six members, and its expenses had been met by voluntary contributions. At the meeting of February 25, 1849, the trustees were authorized to lease the lot donated from the canal lands, for a period not exceed-

ing five years. Under this authority the trustees leased the lot to various individuals, who erected buildings upon it. The Society continued to worship in the Saloon Building until 1851, at which time church rooms were procured in a building at the northeast corner of Dearborn and Randolph streets, erected by Harrison Newhall. In this new and more commodious place of worship a large congregation collected on Sunday mornings, and it soon became evident that the Rev. Mr. Hibbard's efforts were eminently satisfactory and efficient in disseminating the doctrines of the New Jerusalem, and in awakening an interest therein in the minds of the public. In January, 1852, the treasurer reported that the Society was out of debt and had a small balance in the treasury. The Society continued to worship in Newhall's Hall until 1855, when it removed to a school-house which it had purchased on the north side of Adams Street, between Wabash Avenue and State Street (No. 69 Adams Street), where it remained until the building was destroyed by fire in the winter of 1857-58. After the burning of the schoolhouse the Society purchased an old church building which had been erected by the Second Presbyterian Church, which the Society removed to Harrison Street, between Wabash Avenue and State Street. This church it occupied until in 1861-62, when it built its new and commodious stone temple on the lot at the corner of Wabash Avenue and Adams Street. This was a very convenient building, containing, besides the audience room, a basement for social meetings, pastor's study, library room and janitor's residence. It was fifty by seventy feet in size, Norman Gothic, Hebrew inscription on the front, and cost \$18,000. tower extended to a height of 175 feet. The church stood and was occupied by this Society until the great fire of October, 1871, when it was destroyed, together with a mission church building, which the Society had purchased of the Presbyterians and removed to a lot at the junction of Clark and LaSalle streets, opposite Lincoln Park. The total loss to the Society was \$15,000. Rev. Mr. Hibbard remained continuously with the Society as pastor until 1871, when, on account of failing health, leave of absence was given him, and he went to Europe for a season of rest and recreation. For some time previous to the beginning of this vacation the Rev. Calvin Day Noble had been his assistant, and now in his absence took charge of the spiritual affairs of the Society. Upon Mr. Hibbard's return a division took place in the Society, and those membees who preferred Mr. Noble to Mr. Hibbard formed themselves into another society, under the pastoral care of Rev. Mr. Noble. Mr. Noble remained with them as pastor only a few years, when he left, and his Society was soon after dissolved.

JOHN RANDOLPH HIBBARD, D.D., was born in Jefferson County, N. V., July 23, 1815. He was a preacher by hereditary descent, both his father and grandfather, besides one maternal and two paternal uncles, having been clergymen. He was born and educated a Presbyterian, but while a minor he became a minister of the United Brethren Church. While traveling as a minister of this denomination he became familiar with the writings of Swedenborg, received the doctrines in 1839, became a member of the New Church, and in June of that year was ordained a minister at the Western Convention, in Cincinnati, Ohio. For some time after this he taught school in Rutland, Meigs Co., Ohio, preaching as opportunity offered. In 1841 he removed to northern Ohio, and on May 30, 1842, was ordained pastor and missionary. Soon afterward the members of the New Church in Illinois invited him to visit this State with the view of his remaining permanently as their minister. In response to this invitation he made a missionary visit to Illinois in 1843, and in 1844 moved to this State, making his home mainly in Canton and Peoria. In June, 1847, he was made an ordinary minister, and in 1849 he became pastor of the Chicago Society of the New Jerusalem, and moved to this city permanently to reside. Under his ministry this Society became one of the most prosperous of the New Church societies in the world. When Mr. Hibbard came to Illinois it was as minister for the whole New Church in the State, and was recognized as the superintending minister of the New Church within the Illinois Association, but his duties were extended by invitation to neighboring States. From a brief sketch of the Rev. Mr. Hibbard, written by the Ilon. J. Young Scammon, published by Wilson & St. Clair, from which some of the above facts were obtained, the following quotation is made: "The liturgy has been much improved through his efforts, and to the exertions of no one is the establishment of the New Church

J.R. Hilbourd

newspaper, the New Jerusalem Messenger, and the New Church publishing house, in New York, more indebted than to him. \* \* He enters with all his heart into the performance of his duties, is faithful and paiustaking as a pastor, and as a missionary he seems to continually hear the command: 'Go ye into all the world and preach the Gospel.' The Gospel to him is found in the doctrines of the New Church. They come down into his mind as a revelation from Heaven, explained through the rational mind of Emanuel Swedenborg. He regards Swedenborg as authority, and has no patience with those who would amend the latter's writings. While teaching that nothing can do a man any good except what he receives freely and understands rationally, yet he insists at all times that the Word of God and the writings of Swedenborg are the only sources of authority in religion in the New Church; and he seems to find in the inscription on the cross 'Jesus, King of the Jews,' in Hebrew, Greek and Latin, an intimation that the truths revealed for the New Church are crystallized in these dead languages, the Old Testament having been written in Hebrew, the New Testament in Greek, and Swedenborg's writings in Latin, the spiritual sense of the Word being revealed through the doctrine of correspondences contained in Swedenborg's writings." The Rev. Mr. Hibbard's pastorate in the Chicago Society of the New Jerusalem continued with but brief interruption, from 1849, to December 1, 1877, during which time he was promoted from the vice-presidency of the General Convention, to the presidency of the the American Conference of the New Church ministers. During this period of nearly thirty years, Mr. Hibbard's position and labors were peculiar. He performed the duties of missionary, priest, and bishop, and was the vigilant superintendent of the interests of the Swedenborgian Church. The difficulties of his position are better understood when it is considered that, while the evangelical churches make proselytes by means of an army of priests and teachers, operating directly upon the emotions of men, the Church of the ers, operating directly upon the emotions of men, the charter of the New Jerusalem depends more for the propagation of its subtler doctrines upon a deliberate and careful analysis, and a clear perception of their symmetrical proportions. The mystical superstructure the mystical superstructure that the properties of the superstructure of the superstru ure entitled the New Church reared upon the writings of Swedenborg, while it may be in a broad and practical sense, a religion of the heart, yet its teachers never resort to the excitation of the sympathies as a means of conviction, but reach the heart and enchain the emotions if at all, through the colder medium of the intellect. Viewed in this light the work accomplished by the Rev. Dr. Hibbard, during his pastorate of the Chicago Society, is a remarkable one, but he was endowed with the qualifications necessary to its accomplishment. Though but of medium stature, he has a squarely built thick-set frame, surmounted by a head that would render him a noticeable man in any gathering of his fellow-men. His forchead is broad and high, and his head is covered with full flowing, dark brown hair. His eyes are dark and eager, and deep set beneath brows sufficiently prominent to give the perceptive faculties a palpable distinctness. His nose is slightly Roman, lips firm, and features generally prominent and clearly cut. On the 4th of July, 1877, Dr. Hibbard tendered his resignation to the New Jerusalem Society of Chicago, the resignation to take effect December 1, of that year. This step was occasioned by the action of the General Convention, which had been a short time previously held in Cincinnati, Ohio. The Convention was unanimous in desiring Dr. Hibbard to devote all his time for a year to come at least, as General Superintendent of the work of Church extension. The resignation nation was reluctantly accepted, with many expressions of esteem and affection on the part of the Society and stating that they could but regard him as the spiritual father of the New Church in Illinois, and also recognizing the labors and devotion of Mrs. Hibbard.

Since his departure from Chicago, Dr. Hibbard has resided in Philadelphia.

The Jews.—Previous to 1845 there was no religious organization among the Jews in Chicago, nor were there many Jews in Chicago or even Illinois before 1840. The persecution of the people of this race in Germany, through exclusive and oppressive laws, drove large numbers of them to America, from 1830 to 1840, where they could enjoy civil and religious liberty equally with those of other faiths. Large numbers of them remained in the principal cities of the Eastern and Middle States-New York, Philadelphia and Baltimore-but gradually they emigrated in considerable numbers to the Ohio valley and the prairies of the Western States. The first considerable number of Israelites came to Cook County in 1843. This immigration was under the auspices of the Jewish Colonization Society, organized through the efforts of William Renan, of New York City, a young and enthusiastic gentleman of the Hebrew faith. The Society sent a Mr. Meyer west to select lands upon which the colony might settle. After examining different parts of the Western country, he selected and purchased one hundred and sixty acres of land in Shaumburg, Cook County. Mr. Meyer reported to the Society, and on the receipt of his report a majority of its members came to Chicago, meeting Mr. Meyer there, and learning from him more fully the nature of his plans. After numerous consultations it was discovered that many of the Jews were averse to the plans Mr. Meyers had pre-arranged and consequently did not settle in a body, but scattered in various directions. In one respect, however, the original plan was carried out, namely, with reference to agriculture. Some purchased farms partly improved, others settled upon Government lands, and still others settled in villages, and connected agriculture with commercial pursuits. Few-Jews came to Chicago previous to the completion of the Illinois & Michigan Canal, and of the Galena & Chicago Railroad to Elgin, in 1849, at which time Chicago, becoming a center of trade, attracted Jewish families in large numbers. Previous to this influx of the Jewish people, there had been residing in Chicago but two Jewish families, one of them being that of Benedict Schubert.

Among the earliest arrivals of those who now began to flock into Chicago were L. Rosenfeld, Jacob Rosenberg, the Kohn brothers, Samuel Cole, Mayer Klein, M. M. Gerstley, the Rubel brothers, the Greenebaum brothers, and Messrs. Brunneman, Clayburgh, Weineman, Weigselbaum, Zeigler and some others. The Jews by this time had become numerous enough to organize a religious society. This was in 1845. The first important action taken by them was the purchase from the city of cemetery grounds. This old Jewish cemetery was within the present limits of Lincoln Park. In 1856 the city limits having been extended so as to include it, it was abandoned as a cemetery. Soon after acquiring it the association was organized into a regular congregation, and in 1848 it was chartered under the name "Kehilath Anshe Maarev" Congregation of the Men of the West. The congregation at first held religious services in the upper story of a frame building on the southwest corner of Lake and Wells streets. In 1849 they erected a synagogue on Clark Street between Quincy and Adams streets, on a lot they had leased. At the expiration of their lease they bought a lot on the northeast corner of Adams and Wells streets, upon which they erected a second synagogue. This was in 1855. Here they remained until 1865, when the house becoming too small they sold the property and bought a church on the corner of Wabash Avenue

and Peck Court. In this church they worshiped until it was destroyed by the great fire of 1871. The first minister of this congregation was Rev. Ignatz Kunreuther, who became pastor in 1849. In 1855 he was succeeded by Rev. G. Schnerdacher, and he was succeeded in 1856 by Rev. G. M. Cohen. The following gentlemen then successively officiated as ministers of this congregation: Revs. L. Lebrecht, L. Levi, M. Mauser, M. Moses and L. Adler. The pastorates of all except the last were quite short. Mr. Adler was called in 1861 and remained until 1886.

St. Paul's German Evangelical Lutheran Church was organized in 1846 by the Rev. Augustus Selle, with about forty families as members. For some three years previous to the organization, religious servvices had been conducted by those who afterward, under Rev. Augustus Selle, became members of this Church, depending, during this time, on supplies. But during this time a small church building was erected at the corner of Ohio and LaSalle streets, where now stands Rev. Joseph Hartmann's church. This building was used, after the organization of the Church, by Mr. Selle until 1848. At this time the majority of the Church desired to change the confession from the Evangelical Lutheran to the United Evangelical, which being done, the minority, with Mr. Selle at their head, retired and formed a new congregation upon the original basis of faith. Having now no church building, they procured the use of the court-house, in which they worshiped until in June, 1849, by which time their new building was ready for occupancy. It stood on Indiana Street, between Wells and Franklin. It was a frame structure, twenty-five by fifty-five feet in size, and had a steeple fifty feet high. Mr. Selle remained pastor of this Church until August, 1851. He was succeeded by Rev. Henry Wunder, who was installed pastor on the 21st of the following month, having arrived in Chicago three days previously. The building on Indiana Street became too small in 1854, when its capacity was increased by the erection of galleries, to the extent of four hundred sittings. At the same time an organ was erected in the church at a cost of \$400. Thus enlarged the church was occupied by the congregation until 1864, when a new brick edifice was built at the corner of Superior and Franklin streets, on four lots which cost the Society \$5,400. The church building was fifty-two by one hundred and one feet in size, was furnished with galleries, and had a steeple one hundred and sixty-one feet high, the basement being occupied by the school belonging to the Church. The total cost of the building was \$30,000. This commodious and costly structure was occupied until October, 1871, when it was destroyed by the great fire, together with the property of all the members of the Church except three. On the Sunday following the fire, the members of the Society met in a German church on the West Side, and resolved to maintain their organization and to erect new church and school buildings as soon as practicable. The school-house was built at 333 Larrabee Street. It was a two-story building, into the upper story of which Mr. Wunder moved his family, the lower story being used for school purposes through the week, and for religious purposes on Sunday. It was first used for these purposes in December, 1871. Early in the spring of 1872 work was commenced on a new brick churchbuilding, upon the same site upon which stood the one burned down. On the 9th of October, 1872, the first anniversary of the fire, this new building was dedicated. It was a reproduction of the one destroyed, as to size, cost and appearance. An organ was erected in this

new church, larger than the one destroyed, costing \$1,200. On the 9th of October, 1873, a chime of three bells was erected in the steeple, costing \$1,800. At the present time the congregation of St. Paul's consists of only about three hundred families, many of the Germans having moved away from the immediate vicinity of the church to more congenial localities From this congregation three Church Societies have sprung: '1' The Immanuel Evangelical Lutheran, in 1854, located originally on Twelfth Street, where now stands the church of the Holy Family; 2 St. John's Evangelical Lutheran, in 1867, located at the corner of West Superior and Bickerdike streets; (3) St. James' Evangelical Lutheran, in 1870, situated at the corner of Fremont and Sophia streets. From the first of these three there have sprung primarily and secondarily four separate churches, and from the second, two; making nine churches that have come directly or remotely from St. Paul's. Under the administration of Rev. Augustus Selle, the day-school was established, in which, in addition to secular instruction, religious instruction is also given, according to the ancient custom in Germany, thns rendering the existence of the Sunday school unnecessary, and it is thought by the German people that better results are so obtained. There have been, since the fire, two of these day schools sustained, one at 333 Larrabee Street, where are engaged three teachers, and the other in the basement of the church, where, under Mr. Wunder, who is still pastor of the Church, there are engaged two teachers. One of Mr. Selle's teachers, Mr. Fischer, was constantly engaged from before the close of Mr. Selle's pastorate to the time of his death, in February, 1882.

REV. HENRY WUNDER, who has been continuously pastor of St. Panl's Church since September 21, 1851, was born in Woehrd, Province of Oberfranken, Bavaria, March 12, 1850, son of Conrad and Barbara (Mueller) Wunder. At the age of eleven years, Heury went to the residence of his brother-in-law to receive instruction, having the ministry in view even at this early age. He was prepared for his profession, and in 1846 arrived in Fort Wayne, Ind., and entered an institution of learning newly established especially for German students. In 1848 he was sent to an institution in Altenburg. Mo., whence he was transferred to St. Louis. In 1849 he received a call to a Church in Millstadt, St. Clair Co., Ill., where he preached until 1851, when he received a call to the St. Paul's German Evangelical Lutheran Church of Chicago, in the pastorate of which he was installed September 21, 1851. On the 21st of September, 1853, this pastorate had lasted thirty-two years. Mr. Wunder is now president of the Illinois District of the Synod of Missouri, Ohio, and other States.

THE FIRST NORWEGIAN EVANGELICAL LUTHERAN Church was organized February 14, 1848, by Rev. Paul Andersen, who arrived in Chicago January 6, of that year. At the time of its organization the Church had thirty members, as follows: Andrew Nelson, P. E. Eckstrom, George P. Hanson, L. A. Brown, Iver Lawson, B. O. Dahly, John Amundson, Iver Wikkingson, N. H. Ellickson, Knud Lawson, Ole Nelson, W. G. Norheim, O. N. Testhal, A. G. Nelson, Elias Olson, Erick Abrahamson, Hans J. Kjos, R. Henderson, Iver K. Lohme, Neil Larson, Peter Olsen, Andrew L. Flage, John Nelson, Kittel Nerison, Halvor Olson, H. I. Erickson, G. T. Gunderson, Nels Olson, Jacob Jacobs, and Peter Nelson. Religious services were at first held in the Bethel Chapel on Kinzie Street, between Kingsbury and Franklin streets, where they were continued until August, when the first church building was purchased of a congregation which had commenced its erection, but had the misfortune to have it blown down by a storm. It cost the Norwegian Church originally \$800, and the rebuilding of it cost \$1,000. It stood on Superior Street, between Wells and LaSalle, on two lots each twenty feet front, one of which was bought of Walter L. Newberry, and the other of William B Ogden. It was a frame structure, fifty by sixty feet in size. In March 1856, this property was sold to Rev. Mr. Carlson, of the Swedish Lutheran Church, for \$2,000, and a new brick edifice erected at the corner of Franklin and Erie streets. The total cost of this building was \$18,000. It was occupied by the congregation until October, 1871, when it was for the most part destroyed by the great fire. Utilizing the foundations and such portions of the walls as were sufficiently strong, the congregation rebuilt their church as soon as practicable, at a cost this time of \$15,000. This church is still standing and in use. It is of the same size and general style as the one destroyed. The pastors of this Church since its organization have been as follows: Rev. Paul Andersen, commencing in 1848 and continuing until 1860, when he was succeeded by Rev. Abraham Jacobson, who remained pastor until the fall of 1861, when he was succeeded by Rev. C. I. P. Peterson. Mr. Peterson remained until July, 1873, when he was succeeded by Rev. A. Mohn, who who in turn was succeeded in 1874 by Rev. A. Mikkleson, the present pastor. During the pastorate of the Rev. Mr. Peterson, the congregation became divided in sentiment with respect to certain ceremonies in the Church. At the time of the organization these were made to conform very nearly to the customs obtaining in American churches. Mr. Peterson, having recently come from Norway, desired to rereturn to the rites of the State of Norway Church. Winning a majority over to his wishes, the minority became dissatisfied, and a formal separation took place. This was in 1866. Suit was brought by the minority against the majority for the possession of the Church property, which after a five years' contest in the courts was, in 1871 decided by Judge McAllister in favor of the majority. About a month afterward the church was destroyed by the great fire of 1871. After the decision of the case against them, the greater portion of the minority united with the Church of the Holy Trinity on LaSalle Avenue, and the rest for the most part remain unconnected with any Church.

REV. PAUL ANDERSEN was born in Norway August 24, 1821; came to America in 1843, and arrived in Chicago, August 16, of that year. In Norway his education was obtained from private tutors, and having learned the English language, he acted as interpreter for the emigrant company during the voyage to the United States. After his arrival in this country he pursued his classical and literary studies at Beloit College for a number of years, and afterward studied theology with a private tutor. Mr. Andersen speaks fluently the English, Norwegian and German languages. The object he constantly had in view in pursuing his studies was to prepare himself for the Gospel ministry, and in his own words "he can not remember the day when he did not love the Savior." On January 6, 1848, he came to Chicago for the purpose of organizing

Paul Andersen

a Lutherau Church, and as the result of his efforts, the First Norwegian Evangelical Lutheran Church was formed February 14, 1348. In June of that year he was ordained at Schodarie, N. Y., there being no English Lutheran Synod in Chicago at that time. He remained pastor of the Church until 1560. In 1853, having collected into his Norwegian Church a large number of Swedes, he organized them into a separate Church, which was thenceforward known as the Swedish Immanuel Evangelical Lutheran Church. In 1860, on account of bronchial troubles, he retired from the pastorate of the Church he had organized in 1848, and spent several years in travel in Europe with the hope of obtaining relief. In 1864, on his return to this country, being still unable to re-enter the ministry, he became connected with the internal revenue service in which he remained until April 1, 1876, when he accepted a call to the Nor-

wegian Evangelical Lutheran Church in Milwaukee, Wis, upon the condition, however, that the Norwegian and English languages should be placed upon the same footing in the services in the Church. From that time to the present, the custom of preaching in Norwegian in the morning and in English in the evening has prevailed. Rev. Mr. Andersen remained pastor of this Church until July 2, 1853, when he retired permanently from the ministry. He now lives in Lake View, on North Clark Street, near North Fiftyninth. Upon his arrival in America, by advice of friends he dropped the last portion of his name, which he has sincerely regretted for years. His full name is Paul Andersen Norland. Mr. Andersen was first married in September, 1838, to Miss Anna Wang, of Beloit, who died sixteen days afterward. He was married the second time in the latter part of 1849, to Miss Martha Larson, who is still living. They have four children: Martin Luther Andersen, late a teacher in Lake View High School; Andrew Emanuel, with Marshall Field & Co., and two girls respectively named Emma and Lena. Mr. Andersen enjoys the distinction of having introduced into American Secandinavian Churches the practice of conducting services in the English language.

OUR SAVIOR'S NORWEGIAN EVANGELICAN LUTHERAN CHURCH, was organized by Rev. Gustav F. Dietrichson, January 18, 1858. Fifty-two persons signed the constitution and thus became members of the Church. Twenty-five years afterward, at a quarter-centennial festival held January 18, 1883, only six of these original fifty-two were living. In the same year it was organized this congregation commenced to build a church—a frame building—on the corner of West Erie and May streets. Shortly afterward this Church organized a parochial school, where the children were instructed in the common English branches, in the Norwegian language, and the Lutheran religion. This school has prospered remarkably, and is now one of the strong-

End. Carlejon

est in Chicago and indeed of the whole country. In 1871 it sold the old church and commenced the erection of the present grand structure, one of the largest and most costly Norwegian Lutheran church-buildings in America. It will seat twelve hundred people, and cost \$40,000. There is a very fine organ in the church that cost \$1,200. Together with the four lots on which the church stands this church property is worth \$50,000. congregation consists of about fourteen hundred souls, of whom nine hundred are confirmed. Rev. Gustav F. Dietrichson remained with the Church but a short time. When he left he returned to his native land. He was succeeded by Rev. A. C. Preus, who officiated as pastor until 1863. The Rev. Mr. Preus was a remarkable man, and very successful in his labors. He was for ten years president of the Synod for the Norwegian Evangelical Lutheran Church of America. Desiring to pass the decline of life in his native land, and in his mother Church, he returned to Norway in 1872, and in 1878 at the age of sixty-four he died. His death was sincerely mourned by many people on both sides of the Atlantic. His successor in Our Savior's Church was the Rev. J. I. Krohn, who served the Church faithfully for thirteen years, and it was under his administration of affairs of the Church, that in 1871 the new church building, already described and still occupied by the congregation, was erected and completed. In 1876, Mr. Krohn accepted a call to a Church in Minnesota, with the hope of receiving benefit to his health which had been much impared during his labors in Chicago. Since 1876 the Rev. O Juni has been pastor of this Church. The Swedish Immanuel Evangelical Lutheran

THE SWEDISH IMMANUEL EVANGELICAL LUTHERAN CHURCH.—The nucleus of this now large congrega-

tion consisted of emigrants from Sweden, who arrived at Chicago in the summer of 1852. Rev. Paul Andersen, of Chicago, and Rev. T. N. Hasselquist, of Galesburg, 1ll., voluntarily ministered to the spiritual necessities of these newly arrived emigrants. January, 1853, a congregation was organized consisting of about eighty persons, a portion of the members of this new Church having previously been members of Rev. Paul Andersen's Norwegian Lutheran Church. A call was extended to the Rev. Erland Carleson, the pastor of Weis Parish, Sweden, who accepted the call and arrived in Chicago August 22, of the same year. His first sermon in Chicago was delivered on the 28th of that month, to a small congregation of attentive listeners, principally Swedes. His text was Luke xvii, 11-19 inclusive. Only thirty-six persons were present at this first sermon of the young minister, the remainder of the original eighty who united in the organization having dispersed previous to his arrival. As a consequence the auspices for a successful career in his adopted country did not appear very bright; but notwithstanding this unfavorable condition of affairs, Mr. Carleson was not dismayed. The following extract from the first page of the Church records, indicates the spirit with which he entered upon the duties of his pastorate: "Relying upon divine assistance, I am determined to declare the truth openly and faithfully, whatever difficulties may be thrown in my way." The first business meeting of the congregation was held January 27, 1854. A concise constitution drawn up by the pastor was adopted at this meeting. Church officers were also elected as follows: Deacons-C. J. Anderson, John Nilson and Isaac Patterson; and for trustees—John Bjookholon, G. Svensson and Gisel Toutsson. Record of the election of the trustees was made in accordance with the law of the State, and thus was the Church legally organized. The Lutheran rite of confirmation has been maintained in this Church, and the first class that was confirmed consisted of seven young people, two boys and five girls. The first building occupied by this congregation as a place of worship was that of an American Lutheran Church on Superior Street, which they continued to occupy until 1856, when they bought the church building belonging to the First Norwegian Lutheran Church, for \$1,500. This church they used as it was when purchased until 1865, at which time it was enlarged, and within a year from this time it became again too small. In 1869 a new edifice was erected at the corner of Sedgwick and Hobbie streets, at a cost of \$34,400. The dimensions of this church were fifty-five by one hundred and seventeen feet, and it was two stories high. This building was used until the great fire of 1871, when it was destroyed. Almost immediately afterward work was commenced on the new church, which was completed sufficiently to be used for religious services in December, 1872. This was also a brick church and was dedicated April 4, 1875. The cost of this church was \$31,850, and it was built on the same site as the one burned down. It still stands and is occupied by the

The Rev. Erland Carleson, who has been mentioned as the first pastor of this Church, remained with it in that capacity twenty-two years, from 1853 to 1875. In the latter year he removed to Andover, Henry Co., Ill., where he became the pastor of a congregation of one thousand members. He is also president of the Swedish Evangelical Lutheran Augustana Synod. At the time of the dedication of the new church building in 1875, the present pastor, Rev. Carl A. Evald, was installed. From the organization of this congregation

in 1853 to January 1, 1883, 3,046 infants had been baptized; 1,019 confirmed, 3,965 communicants received, 2,292 removed; 623 children died; 252 adults died; 1075 members excommunicated, and 1,061 marriages solemnized. The membership of the Church at the same time was 1,365. The parochial school connected with this Church occupies the basement of the building, and is attended by the children of such parents as prefer to give them select instruction, which is of a religious as well as secular character. In the Sunday school, which has always been in a flourishing condition, the children are instructed in the Bible history of Dr. Barth and the catechism of Martin Luther, as well as in the usual Sunday school lessons. There are two sewing societies connected with the Church.

ST. PAUL'S EVANGELICAL UNITED CHURCH.—The four Evangelical United churches in Chicago, viz., the St. Paul's, the Zion's, the Salem and St. Peter's, belong to the German Evangelical Synod of North America. This Synod was organized at Quincy, Ill., in 1872, and from it have been formed the Synod of the West, Northwest and East. The entire Synod is divided into seven districts. Each district assembles annually in a conference, and a general conference is held triennially to which these districts send their delegates. In the summer of 1843, a meeting of citizens was held for the purpose of forming a Church. The citizens were G. Schairer, K. Teschner, John Ffund, Charles Stein, B. A. Beyer, H. H. Rantze, Arnold Kroeger, William Frank, and Jacob Letz. They immediately organized themselves into a council, or board of trustees. The last five were appointed a committee to obtain a church site. This committee secured as a donation from William B. Ogden and Walter L. Newberry a piece of land on the southwest corner of LaSalle and Ohio streets, where the church now stands. In 1843 the erection of a frame church building thirty by forty-eight feet in size was commenced. During 1844 the Society was increased by the addition of several new members, and the Church council was made to consist of G. Schairer, Charles Stein, John Reder, John Gross, Jacob Letz and Frederick Letz. Until 1846 the Society was served by itinerant preachers. On April 11, 1846, Rev. Augustus Selle was called from Columbiana County, Ohio. He was the first settled pastor of the Church. At this time there were seventy-six voting families in the Society, and many of the members are now living and known as prominent citizens of Chicago-as Louis Hass, Frederick Letz, George Atzel, Henry Weber, Philip Gross and Michael Gross. Others have left Chicago-as Henry Devermann, Clement Stose, who went to his son in California and was burned to death, and August F. Busch. In 1847 the necessity of enlarging the church became evident, and H. Rothget and John E. Strobbach took the contract. In April, 1848, a contest arose in the Church with reference to the form of confession, and in consequence Mr. Selle, with a portion of the members, withdrew and formed St. Paul's Evangelical Lutheran Church whose pastor now is the Rev. Henry Wunder. The United Evangelical Society, in August, 1848, called as its pastor Rev. Dr. Fischer from Hamilton, Ohio. He remained with the Society three years constantly combating the principles of the constitution. At length he agreed to submit the questions in dispute to the Societies of the Synod, and in August, 1851, he was dismissed. He now lives in Joliet full of years, a vigorous and beloved old man. The next pastor called was the Rev. Joseph Hartmann, a theologian of a German University, who had formerly labored in Louis County, N. Y., and who at the time was twenty-seven years of age. Under his pastorate the membership of the Society increased so rapidly that it soon became necessary to enlarge the church building, and Mr. Hartmann found his plan to erect a large brick building warmly approved. The funds were raised with great readiness and the building of the church commenced in 1854. The plans were drawn by Architect August Baver. The builder was August Wallbann. The church was consecrated on the 4th of February, 1855. The Society at this time consisted of one hundred and sixty families, and the pews were let in fourteen days. The beautiful church building, the style of which was simple yet grave, and whose interior was noted for the excellence of its workmanship, was completed in 1864, and was not spared by the great conflagation of 1871. the foundations only remaining firm Soon after being destroyed it was reconstructed upon the same foundation and upon nearly the original plan. As this rebuilt church stands to-day it is almost exactly the old one reproduced. It was consecrated February 16, 1873. The present St. Paul's Society is very strong, one of the natural results of the great growth of the city Many of the old German families with their descendants belong to it. The school occupies the basement of the church, and is taught by John C. Rahn. The present board of trustees of the Church are as follows: William Knocke, chairman; Peter Emmel, treasurer; Charles Kurg, secretary; William Bohrmann, Frederick Lewgow and Christian Kroll. The elders are Phillip Kroll, George Haaze, John Haage, Charles Lehuhardt, George Stratzheim and Kurtz. Rev. Joseph Hartmann has been the pastor continuously since November, 1851.

Uhlich's Orphan Asylum is under the auspices of St. Paul's Church It takes its name from Mr. Uhlich, deceased, who presented the Church with a piece of ground upon which to establish an orphan asylum. The donation made to the Church for this purpose was thirtytwo feet in length on LaSalle and sixteen feet on Arnold Street. The means for building the institution came from the Relief Fund. Henry Muehlke was an old and trusted friend of Mr. Uhlich. He had saved Mr. Uhlich's fortune, and had been remembered in his will to the extent of \$100,000. He enjoyed great favor among the Americans, and so brought the project of a German Orphan Asylum before the management of the Relief Fund that \$20,000 was granted for that purpose. Last year sixty-eight children were inmates. The ex-Last year sixty-eight children were inmates. penses of the Asylum for 1882 were \$4,774.55.

THE CHRISTIAN CHURCH was organized in 1850, by the following seven persons: M. H. Baldwin and wife, Dr. L. S. Major, John Saunders and wife, and the present Mrs. Dickey and her daughter Julia. regular preacher for this Church was Rev. L. Cooley. In 1852, under his ministry, the Society worshiped in the third story of J. H. Reed's drug store, at No. 148 Lake Street. After remaining in this room about a year, they removed to Gleason's school-house, standing on Jefferson Street near Monroe Street, where they conducted religious worship until they removed to the United States Court-room, in the Saloon Building. Here they remained until the completion of their new church edifice on Monroe Street between Aberdeen and Rucker streets, the latter being now called Center Avenue. After Elder Baldwin closed his services, Charles B. Egan, a brother of the noted Dr William B. Egan, succeeded to the pulpit. On account of certain difficulties between him and some members of the Society, it was broken up and the Rev. Mr. Egan retired. Only a few of the members remained true to the organization, among whom were H. H. Honore and wife, B. L. Honore and wife,

and Dr. L. S. Major. This was in 1857. While affairs were in this chaotic condition, the Rev. M. N. Lord was induced by H. H. Honore to take charge of the congregation; commencing his labors in December, 1857, and remaining until June, 1861. During this period, Allen Robbins, of Ohio, visited Chicago, and was largely instrumental in raising a subscription sufficient to erect the church edifice on Monroe Street already mentioned. It stood about one hundred feet east of Rucker Street, was a frame one-story building, thirty-six by fifty-eight feet in size, with a small tower but no bell. It was commenced May 28, 1858, and was dedicated July 4, 1858. The dedicatory sermon was delivered by Rev. D. P. Henderson. The money employed in the construction of this edifice was contributed mainly by Dr. L. S. Major and H. H. Honore. Previous to the pastorate of Elder Lord, the following elders had preached oc-casionally for this Society: John O'Kane, Love H. Jamison, S. K. Hoshouer, J. D. Benedict, Curtis J. Smith and Alexander Campbell. During his pastorate, the following occasionally preached: Elders D. P. Henderson, W. T. Moore, D. S. Burnett, Dr. W. H. Hopson, Amos Sutton Hayden and James A. Garfield. After the dedication of the new church building, the Society continued to worship in it until 1866, enjoying the ministerial services of the following pastors: N. S. Bastian, from July, 1861, to June, 1862; W. F. Black from 1862 to 1865; John S. Sweeney from 1865 to 1866, and B. H. Smith, who came in 1866. Under the Rev. Mr. Smith, the Society moved to the North Side, into the old St. James' church building, which was bought for them by H. H. Honore and Dr. L. S. Major. The church building on Monroe Street was sold to the Episcopalians, who moved it east of Canal Street, between Harrison and Twelfth, and named it St. Stephen's Church. After moving to St. James' Church, B. H. Smith was succeeded in 1867 by the Rev. D. P. Henderson. In 1868, the members became dissatisfied with the North Side, most of them living on the South Side. In order to satisfy the desire to move to another location, Dr. L. S. Major and H. H. Honore bought for the use of the Society the church edifice of St. Luke's Episcopal Mission, at the corner of Wabash Avenue and Sixteenth Street. This building had been erected by the Universalists, and sold by them to the Olivet Presbyterian Church. By them it was sold to Mr. Cole, who with the assistance of some others, started this mission. This church building was dedicated by the Christian Church the first Sunday of its occupancy by them, Rev. D. P. Henderson preaching in the morning and in the evening. In the afternoon, at the request of some of the members, the Rev. John S. Sweeney preached, which was so much against the wishes of Elder Henderson, that he resigned. His resignation was accepted, and John S. Sweeney

The Rev Mr. Henderson then organized a Church at the northwest corner of Indiana Avenue and Twentyfifth Street, a lot being purchased there by E. B. Stevens, who also furnished most of the money for the
erection thereon of a church building. This was called
the Indiana-avenue Christian Church. While the new
building was being erected they used for religious purposes the Protestant Orphan Asylum. In the fall the
new church was completed and dedicated. Here they
had as pastors, D. P. Henderson until 1870, and O. A.
Burgess until the reunion of the two portions of the
Church in October, 1871. Those remaining on Wabash
Avenue and Sixteenth Street were known from the time
of the division in 1868, as the Wabash-avenue Christian
Church. They had as pastors, John S. Sweeney until

November, 1869, and then Isaac Errett, then and now editor of the Christian Standard, published at Cincinnati, Ohio, who remained until the reunion in October, 1871. The Great Fire of October 9, 1871 served to soften the hearts of the members of the two Churches toward each other. They were made to feel the need of united action. Hence each Church appointed a committee to draft a plan of union. The committees met October 12, at the house of E. B. Stevens, and on the next evening again met and adopted the plan presented on the 12th. The Church thus formed was called the First Christian Church. Isaac Errett, though requested by a portion of the members to do so, positively declined to remain as pastor, and the Rev. O. A. Burgess, who had been pastor of the Indiana-avenue Church nearly two years, remained as pastor of the re-united organization until 1873, when he was succeeded by the Rev. W. J. Howe, who remained one year, and was himself succeeded in 1874, by Isaac Errett. Isaac Errett remained one year and was followed by Rev. Knowles Shaw. The Rev. S. M. Conner succeeded in 1876, and one year thereafter was succeeded by Rev. George W. Sweeney, who remained until 1880. But after the re-union difficulties again developed, this time in consequence of a debt incurred in the erection of the church at the corner of Indiana Avenue and Twentyfifth Street. As one result in 1878 another division occurred, and something over fifty members seceded and formed the South Side Christian Church, locating at the corner of Prairie Avenue and Thirtieth Street. The first pastor of the South Side Church was W. D. Owens, an able and excellent man, who remained until his failing health compelled him to resign in 1879. He was succeeded by the Rev. Mr. Parsons, who remained but a few months, and he by J. W. Allen, who did good work in building up the Church. In the latter part of 1882 the South Side Church and the First Church reunited, and called the Rev. Henry Schell Lobingier, the present pastor, adopting the name of the Central Church.

The First Church, during the time of this separation, had a pastor, George W. Sweeney, from 1876 to 1880, and O. A. Burgess from 1881 to the time of his death in 1882. It is now necessary to recur to the debt, as its existence had considerable influence on the history of the Church. It was incurred in the erection of the present Central Church edifice, which was erected in 1868, at a cost of \$20,000. The debt, which was bearing ten per cent interest, matured in 1874, the society was unable to liquidate it, and was also unable to pay the arrearages of interest, amounting to \$4,000. E. B. Stevens, who had for the two previous years paid most of the interest that had been paid, made arrangements with the mortgagee to renew the mortgage at seven per cent interest, and paid the arrearages of interest. He then proposed to the First Church that as they had possession of the church they should relieve him from the burden of the debt, and pay him the \$4,000 interest which he has just paid, or otherwise vacate in favor of the South Side Church, of which he was a member. The Society chose to retain possession, agreeing to pay the interest advanced by Mr. Stevens, which, however, they failed to pay. After allowing ample time for it to be paid and not receiving it, Mr. Stevens brought suit for the \$4,000 and obtained judgment for the amount. The judgment was permitted to remain as a lien upon the property, until the formation of the Central Church, when Mr. Stevens agreed to cancel the judgment upon the condition that the Church thus formed abandon forever the Indiana Avenue and Twenty-fifth Street property, and remove to Prairie Avenue and Thirtieth Street. The

condition was accepted and the removal to Thirtieth Street made about January 1, 1883. A portion of the members becoming dissatisfied with the location, a meeting was held in May, 1883, and the question of returning to Twenty-fifth Street was voted on and carried by a vote of forty-one to five, the membership being about two hundred and fifty. The majority, though opposed to returning, singularly enough refrained from voting. Since 1879, the time of the transfer of the Church property by Mr. Stevens John Gunzenhauser, by assuming the indebtedness and paying the interest annually, has enabled the Church to retain possession of its property.

OTIS ASA BURGESS, one of the ablest pastors in the Canadam Church in Chicago, was born August 26, 1829, in Thompson, Windham Co., Conn. Thomas Burgess, one of his paternal ancestors, joined the Pilgrim Colony in 1637, and his maternal ancestors were of the same stock. When eight years old, young the company of the Surgician County, N. Y. OTIS ASA BURGESS, one of the ablest pastors in the Christian From this time until he was seventeen years old Otis worked eight months of each year on the farm, and attended school the other four months. His mother's death when he was fourteen years of age made a deep impression on his mind. He had been educated to the strictest doctrines of Calvinism, but now he set aside the "doctrine of decrees," and attempted to get religion in the popular method; at the mourner's bench, but did not succeed. On account of this failure he was almost led to reject all revealed religion. At the age of seventeen he went to Norwich Academy, remaining there but a few weeks, then teaching school the balance of the year. In the spring of 1847 he returned to the Academy, and in fourteen weeks finished the entire course except the classics. In the fall he removed to Metamora and taught school until the summer of 1851. At Metamora he first heard of the Disciples, commonly called "Camp-The Campbellites were generally spoken of with disrespect by other denominations, and as Mr. Burgess was already a scoffer at religion it was an easy matter for him to join in the general outcry against them. He maintained his attitude toward them until he happened to hear "Old Father Palmer" (Henry Palmer of Illinois) preach the primitive Gospel. This was the turning point of his career. While listening to this sermon, having heard that the Disciples had a Bible of their own, he firmly believed that the text as quoted was not in his copy of the Bible; but upon examining it, found the text to be as quoted, and became convinced that the doctrines of the Disciples were true. He was immersed July 21, 1850, and in the fall of 1851 went to Bethany College, arriving there with only \$4.50 in his pocket. His determination carried him through College, and he graduated in 1854, when he returned to Illinois. He took charge of the Church of Christ in Washington, Tazewell County, where he remained one year, when he became professor in Eureka College, remaining there also one year. He then divided his time between the Churches at Washington and Metamora until 1862, when he took charge of the Church of Christ in Indianapolis. Here he remained until 1870, when he came to Chicago as pastor of the First Christian Church, in which position he remained until 1873, when he was elected President of the Northwestern Christian 1873, when he was elected resident of the University until University at Indianapolis. He was president of this University until 1880, when he was recalled to the pastorate of the First Christian Church. On account of his ardnous duties as president of the University, his health had begun to fail, but notwithstanding this he entered into the Presidential campaign of 1880, with all the energy he could command, and delivered over one hundred speeches in favor of the election of James A. Garfield to the Presidency of the United States. This labor was too severe for his enfeebled constitution to bear. A sojourn of some months in the Southern States did not restore him to health, and he died in Chicag

The Spiritualists.—The first spiritualistic medium to arrive in Chicago was Mrs. Julia Lusk, of Milwaukee, in 1849, who was a "rapping medium." The raps made in the presence of this medium were very loud and distinct, resembling the fall to and roll across the floor of a heavy croquet ball. Ira B. Eddy was her first convert in Chicago. Having been educated to believe in orthodoxy, but, being unsatisfied with certain of the doctrines, he felt greatly relieved in receiving by means of the raps negative answers to the two following questions: "Is there a personal Devil," and "Is there such a place as hell." He then obtained a communication from a departed friend, and thus became satisfied

at once that the dead still live and can communicate with the living. He at once became a full spiritual believer. Converts to Spiritualism were made slowly in Chicago in those days, but in November, 1852, when Mr. Eddy rented one of his buildings, No. 48 Clark Street, to Seth Payne for banking purposes, there were Spiritualists enough in the city to form a society, and to rent the hall in the third story of this same building for the purpose of holding meetings and hearing lectures. This hall was named by Mr. Eddy, who was the first president of the society, "Harmony Hall." Mr. Eddy remained president of the society one year, and was succeeded by Russell Green, who was assisted by A. J. and H. M. Higgins. In about two years Mr. Green became tired of the expense of the meetings and resigned. In 1852, about the time of renting Harmony Hall, a Mr. and Mrs. Herrick came to Chicago. Mrs. Herrick was the second medium to arrive. Among the lecturers on Spiritualism were Seth Payne, who though a good speaker was extremely radical; the Hon. Warren Chase; Mr. Hammond, of Rochester, N. V.; and Mrs. Cora Hatch. Mr. Hammond was the author of two books, one of them entitled "Thomas Paine in the Spirit World." Spiritualism caused considerable excitement in those years, especially in connection with Seth Payne's bank. In September, 1853, Ira B. Eddy was adjudged insane, and removed to an insane asylum in Hartford, Conn. He was accompanied by Drs. John A. Kennicott, J. P. Lyman and J. W. Freer, afterward president of Rush Medical College. One of the local papers in commenting upon this event, said: "This step has been deemed necessary in order to remove him from the influence of the Spiritualists of Chicago, by whom he has been surrounded for several months past. Seth Payne was also tried for insanity, but being notified, as Mr. Eddy was not, he obtained counsel, and in each of his trials the jury disagreed. In December, 1854, Professor Spencer delivered a series of lectures at Metropolitan Hall, "on the exciting subject of Spiritualism, demonstrating the fallacies of the Spiritual religion by performing the tricks by which the mediums deceive the credulous." His lectures drew immense crowds, and awakened a great deal of interest. Early in 1856 Andrew Jackson Davis came to Chicago to lecture under the auspices of Russell Green. That portion of the Spiritualists who favored Mr. Davis's peculiar doctrines were named by him "Harmonialists," and the announcement was made in the Democratic Press of May 10, 1856, that "the Harmonialists will hereafter hold their meetings in Har-mony Hall, 48 Clark street." During this same year Hon. Warren Chase also lectured on the Harmonial Philosophy. At this time there were fifteen mediums in Chicago. The audiences usually averaged about three hundred, but as many attended merely from motives of curiosity, and as there was no list of membership kept as in the churches, it was not known what proportion were believers in the doctrines. From this time forward for two or three years but little of moment in connection with Spiritualism occurred, but about 1860 a revival of interest took place, and the history of the subject from this time to 1870 is replete with incidents. Besides the lectures mentioned above there were a few others during the period covered by this volume. On the 14th of January, 1857, George Leach lectured in South Market Hall on the claims of Swedenborg and Andrew Jackson Davis, and upon spirit manifestations. Mrs. Streeter lectured in her spiritual capacity January 31 in a school-house near the American Car Works; Henry Weller lectured February 1 in Harmony Hall on

the Philosophy of Intercourse between the Natural and Spiritual Worlds; Mrs. Seymour, a trance medium, lectured February 22 in Metropolitan Hall. She was said to be the only medium in the West through whom the manifestation of writing upon the arm could be produced. On the 15th of March J. White lectured in Harmony Hall on the Unity of Inspiration, Revelation and Science. On April 18 A. B. Whiting, a speaking medium, lectured on Spiritualism. He was a popular speaker and an able exponent of the Harmonial Philosophy. Miss C. M. Beebe, of Boston, lectured in Light Guard Hall April 26 and 30. Joel Tiffany, of New York, lectured in the same place May 10, and Dr. Brookie, of St. Louis, on the 17th. From this time until 1860 there was comparatively little done in Chicago to disseminate the doctrines of Spiritualism.

THE BETHEL.-As early as 1842 religious work commenced among the seamen, and a building for this special feature of missionary labor was erected. 1844 a society was organized, with twenty members, and a new building was erected at the corner of Kinzie and North Franklin streets. At this time Rev. Mr. Rowlatt was the missionary in charge. In 1846 he was succeeded by Rev. J. Wilcox, and in 1848 Rev. Mr. Rowlatt returned. In 1851 Rev. Philander Griffin had charge of the Bethel, and in June of this year the church building was moved to the corner of Wells and North Water streets. The first services were held at this location on June 15. In 1853 the Rev. Mr. Rowley was in charge, and in 1854 the Rev. J. H. Leonard was sent out by the Seamen's Friend Society, whose headquarters were at Cleveland, Ohio. He had services in the Bethel Chapel, which stood on Wells Street, near the Galena & Chicago Railroad depot, where also was maintained a very interesting Sunday school. Leonard was very much encouraged with the result of his labors among the seamen, and visited the vessels with a great deal of energy and persistency, as also the boarding houses and dwellings where boatmen and sailors were to be found. On the 3d of February a revival commenced at the Bethel. There was preaching every evening, and in a short time twelve hopeful converts were reported. In the winter of 1854-55 another protracted meeting was held, the chaplain of the Bethel preaching every night for some weeks. There was a good attendance, and considerable good resulted from the special effort then made. On the 20th of May Rev. P. Stone, chaplain of the port of Boston, preached at the Bethel. Another protracted meeting was held in January, 1856, lasting one week. In 1857 and 1858 similar special efforts to convert the sailors were made. In April, 1858, one of the local papers refers to an interesting work of grace that had been in progress for a long time during the past winter. The indefatigable pastor, Rev. J. H. Leonard, had preached every night for a long time. Fifty converts had been made. The Bethel in Chicago was then one of the few in the United States that maintained a Church organization. The membership, which for some time had been about fifty, was greatly increased by this revival. The Bethel Sunday school contained about two hundred scholars, and was conducted mainly by members of the Second Presbyterian Church. Lockwood Brown was then the superintendent. The Bethel Church was Congregational in its polity, and had, besides a regular Church organization, a constitution, articles of faith and covenant. Deacons were elected annually, and its pastor was in connection with the Methodist Episcopal Church. In the history of the Chicago Bible Society quite full reference has been made to the work of the Bethel in the

distribution of Bibles and Testaments among the seamen. A continuance of its history may be found in the succeeding volumes of this History.

## CHICAGO THEOLOGICAL SEMINARY.

The history of this Seminary is naturally divided into three periods: the first lasting from the incipient discussions of the propriety of the project of establishing a theological seminary in Chicago, to the opening of the Seminary, October 6, 1858-four years of preparatory struggle. The second embraces the thirteen years between the opening of the Seminary and the great fire of October 9, 1871, and the third the thirteen years subsequent to the fire, to 1884. It is proper that the history of this Seminary should be preceded by a brief outline of the various steps taken previous to the inception of the design of founding a distinctive theological seminary in Chicago, with the view of adding theological departments to various colleges already established in different parts of the Northwest. The first attempt of this kind was made in connection with Beloit College, at Beloit, Wis., in 1852. In that year the pastor of the First Congregational Church of Beloit was elected professor of theology in the college. The expectation was that this would be the beginning of a theological department in the College, of the advantages of which both Congregationalists and Presbyterians could avail themselves, and where theological students would experience the advantages of the influence and instruction of a pastor. But the pastor declined the call, and no further attempt was made to establish a theological department in Beloit College. On account of a violent prejudice existing in the West against the clergy and the Church, the Legislature of Illinois at first refused a charter to Illinois College, and when two years later the charter was granted, it prohibited theological education in the College. Subsequently this prohibition was repealed, and a legacy was received by the College for the founding of a theological professorship, but no steps were ever taken by the trustees in that direction. It was the original design to establish a theological department in Knox College, located at Galesburg, and a fund was provided for the purpose, but the plan was abandoned. It was also under consideration to have a theological seminary located on the campus of the Michigan State University, but the design never matured. Iowa College was without a theological department, as were also Carlton, Olivet, Ripon, Wheaton, and other colleges afterward established. All of them, however, educated young men for the ministry through a thorough course of college instruction. All plans failing for the establishment of distinctive theological departments in colleges, movements were made by several evangelical denominations in the Northwest toward the establishment of theological seminaries of their own. As a result of these movements the "Garrett Biblical Institute" was established by the Methodists at Evanston, and opened in September, 1856; the "Chicago Theological Seminary," by the Congregationalists, at Chicago; the "Presbyterian Theological Seminary of the Northwest," transferred from New Albany, Ind., to Chicago, in October, 1859; and the "Baptist Union Theological Seminary," at Chicago, in October, 1867. Originally the design was entertained by certain individuals of enlarged views and liberal spirit, of founding a union theological seminary for both Congregationalists and Presbyterians, but this plan met with opposition from others more intensly denominational in their opinions. Hence the Chicago Theological Seminary, when founded, was entirely under the auspices of the Congregational Church, but open to students of all denominations. In 1853, in order to meet the demand for a larger supply of ministers for the smaller churches in Michigan, Rev. L. Smith Hobart pastor at Ann Arbor, drew up a plan, and submitted it to the General Association of Michigan in May of that year. This plan embraced the following particulars:

1. The establishment of a theological seminary in connection

with Michigan University.

The course of study to be divided into two terms for each
year—a six-months lecture term under the instruction of the faculty, and a six-months reading term with the pastor of some
Church.

3. The degree of Bachelor of Divinity to be conferred on those completing the full course.

4. Each State interested in the seminary to endow a profes-

sorship.
5 The control of the seminary to be vested in a board of trustees elected by the general associations of such States.

6. The library to be supported by annual contributions by the

This plan was reported upon favorably by a committee of the Association appointed for its consideration, consisting of H. D. Kitchel, A. S. Kedzie and D. Mussey, and then referred to another committee consisting of Revs. L. Smith Hobart, E. N. Bartlett and J. Patchin, for report at the next annual meeting of the

Association.

churches.

The plan was published in the Congregational Herald June 18, 1853, and its publication awakened considerable interest among ministers of the Northwest, many of whom began to feel that the time had come to found a theological seminary in that section of the country. The next meeting of the General Association was held in May, 1854, at Detroit, at which the committee having the plan in charge reported thereon, and called special attention to its design of combining the advantages of two methods of theological instructiontheoretical in the Seminary, and practical with pastors. The General Association highly approved the plan, adopted the report of the committee, and authorized its secretary to confer with other ecclesiastical bodies in the Northwest with the view of securing their approval and co-operation. In March, 1854, Rev. Stephen Peet, of Batavia, Ill., and Rev. George S. F. Savage, of St. Charles, Ill., after conferring with others, had sent letters to several brethren in Illinois and Wisconsin, calling a meeting to consider the question of founding a theological seminary for the Northwest. This meeting was held in March, 1854, in the rooms of the Congregational Herald, Philo Carpenter being chosen moderator, and Rev. G. S. F. Savage scribe. An adjourned meeting was held in April, in which Iowa was represented, and the Michigan movement reported. In June, Rev. H. L. Hammond laid before the General Association of Iowa, which convened at Davenport in that month, a copy of the report of the committee to the General Association of Michigan which had convened at Detroit in May. Other general associations having the same information before them in reference to the movements in Michigan and Chicago, and as a result of the deliberations of similar associations and of the adjourned meeting which met at Chicago, a large meeting was called which met in Chicago June 12, 1854. At this meeting most of the Northwestern States were represented. Rev. Asa Turner, Jr., of Iowa, was chosen moderator, and Rev. G. S. F. Savage scribe. At this meeting a committee of twenty-one was elected to mature the plan of the Seminary; to invite proposals for a site; to make other preliminary arrangements; and to submit the result of their labors to a general convention of Congregationalists in the Northwest—this convention to meet upon the commit-tee's call. This committee was composed of representatives from Illinois, Indiana, Michigan, Wisconsin, Iowa, Missouri, and Minnesota. It met at Chicago July 12, 1854, and decided to call a convention of those interested in the founding of a theological seminary at Chicago the following September. Meanwhile the project had been kept before the readers of the Congregational Herald, by Rev. J. C. Holbrook, its editor, and in anticipation of the success of the enterprise its friends had secured the services of Rev. Stephen Peet as financial agent, pledging to him a salary of \$1,200 a year and expenses. It now became evident that there was to be a theological seminary somewhere in the Northwest, and the convention called by the committee of twenty-one, fulfilled this expectant hope. This convention met at Chicago September 26, 1854, in Plymouth church. It was composed of delegates from Michigan, Indiana, Illinois, Wisconsin, Iowa and Missouri. A board of directors was elected, distributed among the States as follows: Michigan-Revs. L. Smith Hobart, Harvey D. Kitchel, Adam S. Kedzie, Judge Soloman L. Withey, and Joseph E. Beebe; Indiana-Rev. M. Augustus Jewett; Illinois-Revs. Stephen Peet, William Carter, Flavel Bascom, George W. Perkins, John C. Holbrook, Nathaniel H. Eggleston, George S. F. Savage, Philo Carpenter, and Joseph Johnston; Wisconsin—Revs. Charles W. Camp, Hiram Foote, John S. Miter, and Horace Hobart; Iowa-Revs. Alden B. Robins and Jesse Gurnsey, and John G. Foote; Minnesota-Rev. Richard Hall; Missouri-Rev. Truman Post.

The first board of visitors was composed as follows: Rev. Asa Truman, Jr., of Iowa; Rev. N. C. Clark, Rev. R. M. Pearson, and A. Comstock, of Illinois; Rev. H. M. Brinsmade and Rev. S. M. Eaton, of Wisconsin, and Rev. D. M. Bardwell, of Indiana. On the 27th of September the board of directors was organized by the election of the following officers: President, Rev. Stephen Peet; Scribe, Rev. N. H. Eggleston; Treasurer, Philo Carpenter; Executive Committee, Revs. Stephen Peet, J. C. Holbrook and G. W. Perkins, Philo Carpenter and Joseph Johnston. The work of procuring a charter devolved upon the executive committee. A committee was elected to draft a constitution, consisting of Revs. L. Smith Hobart, A. S. Kedzie, and Harvey D. Kitchel. The question of how the board of control should be elected engaged the attention of the convention, and likewise of the board of directors at their earlier meetings. Two plans were proposed-first, that of having the board elected by the General Associations; second, of having its members elected by the churches interested in the Seminary. The latter plan was adopted, on the ground that the associations were of human institution, and might not continue; while the churches were of divine institution and must continue, and that the Seminary would be best cared for and most effectually guarded against error, under the observance and control of the churches. Another question considered by the convention was that of modifying the course of study under the "Reading Term. The original design contemplated simply a course of reading under the instruction of some pastor. But later it was thought that a more important end would be attained by initiating the student into the practical work of his calling under the guidance of an experienced pastor, or by his taking charge of some vacant church or vacant missionary field as opportunity offered. Still other questions were discussed and acted upon-as

the adoption of a special course of study by which men too old or for other reasons unable to go through college, might nevertheless be educated for the ministry. The adoption of such a course was authorized by the convention. No action was taken upon the subject of the enlargement of the curriculum of theological study, and although this convention considered the question of co-operation with the New-School Presbyterians in founding a Theological Seminary and instructed the board of directors to favorably entertain any proposition looking toward such a result, nothing in that direction was accomplished. The board of directors met in Chicago, March 27, 1855, just after the sudden death of their president and financial agent, Rev. Stephen Peet. For financial agent, Rev. Adam S. Kedzie, of Michigan, was chosen to succeed him. Entering upon his work almst immediately, he continued it until July, 1862. Philo Carpenter, on account of the pressure of his own business, declined to serve longer as treasurer, and was succeeded by Lucius D. Olmsted, who held the office until his death in March, 1862. The Legislature of Illinois granted the Seminary a favorable special charter, which is dated February 15, 1855. Under its provisions, by decision of the Supreme Court of the United States, all the property of the Seminary is exempt from taxa-The second section of the charter is as follows:

"That the Seminary be located in or near the city of Chicago. The object shall be to furnish instruction and means of education to young men proparing for the Gospel ministry, and the institution shall be equally open to all denominations of Christions for this purpose."

In the year 1855 began the persistent work of securing funds, and the plan followed of creating a general fund out of which all the expenses of the Seminary should be met until such time as special endowments should be secured. The increase of assets went on with gratifying success during 1855 and 1856, and had it not been for the commercial crisis of 1857, the Seminary would have speedily attained prosperity. Not foreseeing the crisis, the executive committee in March, 1856, sent Revs. H. D. Kitchel and A. S. Kedzie East for the purpose of securing able professors for the various chairs. After the return of this special committee the board of directors in April, 1856, elected five regular professors and six lecturers, in expectation that the Seminary would be opened in the fall. But this expectation was doomed to disappointment. Various causes rendered so early an opening impracticable. Difficulties about the location of the Seminary, lack of funds in the treasury, and above all the declining of the professors elected to accept the positions tendered them, except one who held his appointment under advisement, were among these causes.

The difficulties about the location of the Seminary were not finally overcome until the year 1865. The first agreement made with reference to location was between Rev. Stephen Peet and Rush Medical college, Mr. Peet verbally agreeing to purchase their building for the use of the Seminary at the cost of \$10,000, but the agreement failed. After considering various projects, the board of directors finally, in 1856, purchased a lot at the southwest corner of West Lake Street and Ashland Avenue, relying upon local interest to assist in making payments. But as this reliance failed, and as business was crowding in that direction, exchange was made in 1858 of this lot for the entire front of the next block south, facing Union Park. The difficulty now arose, of making payments on this block, and the Seminary was brought into peril by the inability of the board of directors to make overdue collections. From this peril the Seminary was rescued by Philo Carpenter, C. G. Hammond. E. W. Blatchford, J. M. Williams, T. M. Avery, S. M. Moore and other generous friends; but their action saved the Seminary only the south seventy-five feet of its location, upon which a temporary building had been erected, but the portion saved, though inadequate, being unincumbered, was highly prized.

Having traced the struggles of the Seminary with reference to its ownership of an unincumbered site, an account of other struggles and transfers which led to permanency of location and property are deferred to

the next volume of this History.

In January, 1857, another election of professors was held for the two most important chairs, but these two professors declined, and the financial panic of that year made it again impracticable to open the Seminary as was hoped might be done that fall. While the opening was reluctantly postponed for another year, yet it was definitely fixed for the autumn of 1858. With this in view, the board of directors, at their meeting in April, 1858, elected to the chair of systematic theology, Rev. Joseph Haven, D. D., and to the chair of Biblical literature, Rev. Samuel C. Bartlett, D. D. In April, 1856, Prof. Franklin W. Fisk, D. D., had been elected to the chair of Sacred Rhetoric. Desiring to give Beloit College one year's notice before vacating his chair in that institution, in 1858, the board of directors of Chicago Theological Seminary, requested such notice to be given, so that he might be prepared to occupy his chair as early as the opening of the second year. These three professors accepted their appointments, and the prospect of opening the Seminary was brighter than at any previous period. The history of the first period of the existence of the Seminary may fittingly close with brief reference to the attempt made by the board of directors to effect a union with the theological department of Oberlin College. The following quotation is from the Quarter-Centennial Historical Sketch published by the board of directors in 1879:

of the board, but in accordance with their wishes, went to Oberlin and informally consulted with some of the tunstees of that college, with professors in the theological department, and with others, on removing that department with its professors to Chicago, and making it the nucleus of the theological seminary then about to be opened there. Refusals of professors elect to accept chairs in the seminary, led the board to be less sanguine than at the first, in their hopes of securing men fitted for the work of instruction, and for giving the seminary a commanding position in the esteem of the churches. In consequence, they were disposed to take men who had already proved themselves competent for these purposes. Hence the above proposal for union. And though no action was taken by either party, the attempt, though for other reasons, was afterwards renewed in a more formal way."

## CHICAGO BIBLE SOCIETY.

This Society was organized August 18, 1835. Pursuant to notice the ministry and a number of the members of the various religious denominations met in the Methodist Chapel in Chicago on that date to consult upon and adopt some measures for the distribution of the Bible among the people. On motion of Rev. Jeremiah Porter, Rev. J. T. Mitchell was made chairman of the meeting, and Grant Goodrich, Esq., secretary. The object of the meeting was explained by Mr. Mitchell, prayer was offered by Mr. Porter, and the following resolutions were unanimously adopted:

"Resolved, That it is the imperative duty of every Christian to extend the circulation of the Holy Scriptures to the utmost of his ability, and that this obligation will not cease till every individual who can read them is put in possession of a copy. "Resolved, That for the accomplishment of this object it is expedient that we form ourselves into a Bible Society, auxiliary to the American Bible Society."

A suitable constitution for the auxiliary Bible Society was then adopted, and fifty-one persons gave in their names as members, subscribing in the aggregate the sum of \$85,25. The Society then proceeded to the election of officers for the current year, unanimously selecting the following individuals: President, Rev. Isaac T. Hinton; vice-presidents, Messrs. John Wright and Grant Goodrich; recording secretary, Rev. J. T. Mitchell; corresponding secretary, Rev. Jeremiah Porter: treasurer, Dr. John T. Temple; executive committee, Philo Carpenter, Dr. Peter T. Temple and James Rockwell. The first annual meeting was held in the Presbyterian Church, November 25, 1835. The meeting was called to order by its President, Rev. Isaac T. Hinton, and prayer offered by Mr. Warner. The minutes of the previous meeting and the report of the treasurer were read and approved, as was also the report of the executive committee. The following resolution, moved by Rev. John T. Mitchell and seconded by Philo Carpenter, was adopted:

"Resolved, That, as the Author of the Bible is also the Governor of the world, and from whom we receive every temporal as well as spiritual blessing, the first fruits of our prosperity are justly His due, and should be devoted to the establishment of the Kingdom of God by the distribution of the Word of Life."

Rev. Isaac T. Hinton then offered and Thomas Wright seconded the following resolution:

"Resolved, That this Society regards the continued and progressive opening of Papal and Pagan countries to the distribution of the sacred Scriptures, both as a decisive testimony of Divine favor on the past and present exertions of Bible societies, and as an indispensable and urgent appeal for persevering labor and increased liberality."

Those subscribers who had not paid then handed in their subscriptions, and several new subscribers were added to the list. The following officers were then elected for the ensuing year: President, Rev. John T. Mitchell; vice-presidents, William H. Brown and Lieutenant Louis T. Jamieson; recording secretary, Thomas Wright; corresponding secretary, Rev. Isaac T. Hinton; treasurer, Dr. John T. Temple; executive committee, F. Thomas, Grant Goodrich and James Rockwell. This first organization does not appear to have been recognized as an auxiliary by the American Bible Society, presumably because the officers neglected to report to the parent society the fact of its organization; neither does it appear to have accomplished very much in the way of distributing the Bible among the destitute. But the necessity for labor in this direction continuing to be recognized and felt by Christian people, another organization was effected in November, 1837. This organization was named the "Chicago and Vicinity Bible Society." The officers of this Society were as follows: President, John Wright, Sr.; secretary, Rev. John Blatchford; treasurer, William H. Brown, and it was recognized as an auxiliary by the American Bible Society. Immediately upon its organization this Society gave great promise of efficiency and usefulness, and the foundations were laid for permanency. An invoice of Bibles was ordered from the parent society in New York, which when received were permitted to lie in the warehouse some months before any efforts were made to distribute them. A. B. Lewis, an agent of the American Bible Society, came to Chicago in 1839, to look after the interests of that Society, and it was mainly through his influence that "The Chicago Bible Society" was organized as auxiliary to the American Bible Society, on the 7th of April, 1840. This organization was effected in the Presbyterian

church, then located on Clark Street, when a constitution was adopted and the following officers were elected: President, William H. Brown; vice-presidents, Rev. S. H. Stocking; John Wright, Sr., S. J. Sherwood, Grant Goodrich and E. K. Rogers; secretary, T. B. Carter; treasurer, George W. Merrill; executive committee, Philo Carpenter, James Robinson and Tuthill King.

CONSTITUTION.

ARTICLE I.—This Society shall be called "The Chicago Bible

Society," auxiliary to the American Bible Society.

ART, 11.—The object of the Society shall be to encourage the wider circulation of the Holy Scriptures, without note or com-

ART, 111.—All persons contributing any sum annually to the

funds of the Society, shall be members of the same. Arr. IV.—All funds not wanted for circulating the Scriptures within the Society's own limits, shall be paid over, at least once a year, to the Treasurer of the American Bible Society, to aid in furnishing the Scriptures to the destitute in other places.

Akt. V.—The Society shall elect, annually, a president, three vice-presidents, a secretary and treasurer, whose duties shall be such as their several titles import; who, together with the pastor or officiating minister of each Church co-operating with the Society, shall constitute a board of managers, seven of whom shall form a quorum. The Society shall also elect, annually, a treasurer from each Church co-operating with it, who, with the pastor, or officiating minister of said Church, shall attend to all subscriptions and collections in their several Churches, and pay over the same to the treasurer of the Society. In case of a failure of an annual election, the officers then chosen shall hold their offices until a new election is made.

ART, VI.—The Board of Managers shall elect, annually, five their number, who, with the president, secretary and treasurer, shall constitute an executive committee; shall also elect an auditing committee of three, to examine and audit the accounts of the treasurer and depositary; and such other committees as may be necessary to give efficiency to the operations of the Society; and fill any vacount that the account in any of the offices of the Society.

cancy that may occur in any of the offices of the Society.

AKT, VTI.—The Executive Committee, four of whom shall form a quorum, shall appoint its own chairman; meet frequently on adjournment, or on call of its chairman; superintend the work of Bible distribution in the city and county; make arrangements for the annual and anniversary meeting; appoint a depositary; keep a good supply of books on hand; appoint colporteurs and local distributors; see that collections in some way are made annually in every congregation, and that all funds are forwarded early to the Parent Society, with a statement as to the portion designed for the payment of books, and that as a free donation; and report their doings to the board of managers before the annual meeting.

ART. VIII.—The anniversary meetings of the Society shall be held on the second Sabbath of December, or such other day in December as the board may determine; when the annual report shall be presented, addresses made, or such other exercises introduced as shall tend to advance the interests of the Bible cause within the limits of the Society.

The annual meeting of the Society for the election of officers shall be held on the Tuesday evening immediately succeeding the anniversary meeting; at which time all business connected with the Society shall be transacted.

ART. IX.—Any Branch Society or Bible Committee formed within the bounds of this auxiliary, by paying over its funds annually, shall receive Bibles and Testaments at cost prices.

ART. X.—No alteration shall be made in this Constitution except at an annual meeting, and by the consent of two-thirds of the members present.

In 1858 the following was added to article third: "The payment of fifteen dollars at one time shall constitute a member for life, and entitle the life member to two Bibles or their value in Testaments annually for distribution."

In 1871, Article VIII as above was stricken out and the following adopted in its place: "Any two members of the executive committee or of the board of managers shall have power to call a meeting of the committee, or the board, or of the Society, when business of importance requires such meeting to be held. The business to be transacted shall be stated in the call for the meeting."

At the annual business meeting held March 18, 1873, Article IX was amended so that the annual meetings should thereafter be held in March instead of in December, and that the officers may be elected at the an-

niversary meeting.

This organization, like its two predecessors, remained inactive for nearly a year, and some time afterward a committee which had been appointed to inquire into the reasons for the quiescence of these Bible societies reported as follows:

"From causes not within the knowledge of the present committee this organization (of 1537) soon began to languish; the officers were not regularly appointed, and the books which had been procured, were left undistributed, and the destitute unsupplied. This ineticency continued until the organization of the Chicago Bible Society in 1540, when the present constitution (since amended) was adopted, officers chosen, and new life apparently given to the Bible cause in this city. But with this change of organization the evil was not entirely removed. Little was done toward carrying out the designs of the institution until about twelve months afterward, when at the urgent solicitation of the agent of the Parent Society (Mr. A. B. Lewis) this Society began to work."

With reference to the failure to accomplish anything of the "Chicago and Vicinity Bible Society," organized in 1837, it would seem to be a comparatively easy matter to assign reasons. The financial crisis of 1837 occurred about the time of the organization of the Society, and the depression to all kinds of business resulting therefrom continued for some years thereafter. In Chicago it was felt with especial severity, and the efforts of the Bible Society no less than of everything else were for a time necessarily paralyzed. Even the freight on the books ordered by this Society remained unpaid, and they were held for some years by the forwarder until an efficient organization could put them in circulation.

The first order of the Chicago Bible Society after its organization April 7, 1840, amounted to \$99.73. In October, 1840, Lewis S. Swazey was employed as agent to visit every family in the city and county, to sell Bibles to those who were able to buy and to give to those unable or unwilling to buy. The agent was greatly sur-prised to find so many families destitute of the Bible, and it was not generally supposed that many families were destitute. An incident will illustrate the fact of this destitution and of the mistaken supposition with reference thereto. The agent met a non-professor of religion who declined to assist him in distributing the Bible among those who were without it, alleging that there were none of that class in his neighborhood. But finally upon the agent's persistency, the non-professor proffered to himself supply all in his neighborhood who might be found destitute. The agent soon found six families in the immediate neighborhood without the Bible. The work once begun, a thorough canvass of the county was soon accomplished, and the committee was enabled to report that every family in the county had been visited, and all who were willing to receive the Bible supplied with it. Mr. Swazev reported: "The general results are as follows: Cash received for Bibles sold \$76.89; cash received in donations to the Society \$61.73, making a total of \$138.62 received in cash. Bibles given to the destitute, value \$27.44, and subscriptions due the Society \$9.88."

The first annual meeting of the Society was held in the First Presbyterian church, December 9, 1841. From a report then made it appears that \$6.84 of the above \$9.88 had been paid in. And at this first annual meeting thirty dollars was raised to constitute Rev. Hooper Crews a life member of the American Bible Society; the first contribution of the Chicago Bible Society to the American Bible Society. The report con-

cludes in the following language:

"While the general aspect of the Biblecause in this part of the State is very favorable, and should call forth the thanksgiving of all who seek its advancement, there are still, as there ever have been, opposing obstacles to encounter. Those who reject the divine authority of the Bible, and yet see from history the mighty influence which this Book in all ages exerts, aim, of course, to impede its circulation. Those connected with the Papal Church, while they receive the Bible, and more than the true Bible as divine, are still with few exceptions unwilling to trust this Book to the common reader, unless guarded by comments which its Holy Author never sanctioned, and which the enlightened Christian rejects as a cunning device for the preservation of power. But there is much to encourage the Christian and the friends of the Bible in the prosecution of this work, that so many are willing and ready to engage in it, sustaining the committee in their operations by their purses and influence, and we but hope the interest will increase, and not die away as soon as the novelty of the enterprise is worn off."

The first exploration of the county, having for its object the supplying of the Bible to those destitute of it, and which was commenced in 1841, was completed in 1842. Somewhat more than seven hundred families were visited, ninety-two of which were found destitute of the Bible. In 1845 the second canvass of the county was made for the same purpose; six hundred and sixty-six families were visited, and seventy-four found destitute. In 1846 the first visitation and supply of the city was made; fourteen hundred and ten families and one hundred and eighty-five offices and stores were visited. Sixty-six families were found destitute, and eighty-two other families and persons so reported. These were supplied with Bibles and Testaments, likewise with Testaments two companies of volunteers for the Mexican War. In 1849 the city was again supplied, this time by Mr. Balch. Twenty-six hundred and sixty-eight families were visited, of which two hundred and ninety-five were found destitute. Ninety-six other families were found destitute and supplied by tract distributors and other persons. The next visitation of the city was made in 1851, in accordance with the following resolution:

"Resolved, That a more thorough and complete supply be furnished than has been hitherto; that in addition to the supply of destitute families, the agent be instructed to search out and supply all unmarried persons over sixteen years of age, especially clerks, mechanics, journeyman, apprentices, sailors, boatmen, and dometic servants, with a lible, and that all children under sixteen years of age who can read be supplied with a copy of the New Testament."

Mr. Hamilton and Mr. Thome were appointed agents to carry this resolution into effect. As agents they visited four thousand three hundred and eightytwo families, eight hundred and twenty of which were found destitute. Eleven hundred and ten adults were supplied with Bibles and six hundred and sixty-five children with Testaments. Of those found destitute and supplied nine hundred and fifteen families were Roman Catholics. Considerable opposition was manifested to the distribution of the Bible among the Catholics and some Bibles were reported as having been burned by them. The city was again visited in 1853, this time by Messrs. Oleson, Barth, McDevitt, and Hamilton. These gentlemen visited four thousand and twenty-one families-two thousand four hundred and forty-five Protestant and one thousand five hun-There were found dred and seventy-six Catholic. destitute one thousand one hundred and thirty-nine families, two hundred and forty-one of which refused to receive the Bible either by sale or gift. This canvass was continued into and completed in 1854. The total results of the canvass for the two years, were six thousand four hundred and thirty-nine families visitedthree thousand four hundred and twenty-two Protestant and two thousand two hundred and seventy-six Catholic. Seventeen hundred and eighty-eight families were

found destitute. This unusually large number of destitute families is probably accounted for by the exceptionally large influx of emigrants during these years. During the year 1856 the city was visited for the fifth time, Mr. Adams and Mr. Hamilton being the colporteurs. They visited eight thousand four hundred and thirty families, finding one thousand four hundred and eighty-five destitute of the Bible. Of these one hundred and eighty-two refused to accept the Bible, even

In the year 1843, the Society appears to have begun to supply with Bibles the hotels, jail, poor-house, vessels, etc., supplying during the year, besides the poorhouse and jail, eleven hotels and thirty-one vessels; two hundred and fourteen Bibles and eighty Testaments, valued at \$117.30, being supplied to them and to twenty-one destitute families and individuals besides. In 1844, fifty-one vessels, nine Sunday schools, one hotel and forty-one destitute families and individuals were supplied. In 1845, four hotels, forty-one vessels and eleven Sunday schools were supplied, and in 1846 nine hotels, fifty-two vessels and ten Sunday schools. 1847 an effort was made by this Society to procure the co-operation of similar societies in other lake cities and towns in effecting a general supply of all the vessels on the lakes with Bibles and Testaments. With this end in view, the following resolutions were passed, and a copy of them sent by the secretary to each of the Bible societies at Milwaukee, Detroit, Toledo, Sandusky, Cleveland, Erie, Buffalo and Oswego, together with the request that they would co-operate with the Chicago Bible Society in carrying them into effect:

"Resolved, That in the opinion of the committee, it is exceedingly desirable that all steamboats and vessels on our lakes should be constantly and liberally supplied with copies of the Word of God, so that those who travel, and all who do business on these waters, may have free and easy access to it.

"Assafred, That this committee will do their part for the accomplishment of this object, and that we hereby respectfully suggest to the Bible societies above named to supply the shipping belonging

to their respective ports.'

Only the societies at Milwaukee and Toledo responded to this request. Still the Chicago Bible Society continued its labors in this direction. In 1848 numerous vessels and canal boats and six Sunday schools, besides seventy-four destitute families and individuals were supplied. In 1849 three hundred and eighty Bibles were supplied to vessels, sailors and boatmen, in addition to those furnished to eight Sunday schools, the public school, jail and other institutions, and the secretary, by the direction of the executive committee, again corresponded with the Bible societies of the various lake cities and towns, with the same object as in 1847, receiving from several of them favorable responses. And the good work of distributing the Bible to all classes of those destitute of it, including public schools, Sunday schools, families, individuals, the poor-house, jail, hospital, hotels and vessels, with about the same average energy until 1857, the year of the panic, which is referred to below, and even then but a temporary and very slight check to the work was felt. In 1855 the railroad stations within the city limits were for the first time supplied, but not until 1874 were systematic efforts made to supply the trains on the various railroad lines centering in Chicago, and the stations outside the city limits. In 1857, correspondence was again opened with the other lake city Bible societies with reference to supplying all vessels and sailors engaged in lake commerce. This Society appointed Rev. J. H. Leonard, chaplain at the Bethel, to visit the sailors and supply Bibles.

Branch Societies.—The first branch societies were organized in 1847, when several of these as auxiliary to the Chicago Bible Society were organized, viz: Athens, Barrington, Blue Island, Hanover, Monroe, Salt Creek, Thornton and York. Cash subscriptions were paid into the treasury of this Society this year by these new societies to the amount of \$338. In 1849, an auxiliary society was organized in Lyons precinct, and during this year there was received from the precinct societies \$208.45. In 1851, the amount received from these sources was \$259.06; in 1852, \$287.04; in 1853, \$281.06; in 1854, \$272.18; in 1855, \$349.18; in 1856, \$636.85. At this time there were seventeen of these auxiliary societies organized. The following table shows the aggregate number of Bibles and Testaments distributed, with their value, together with the approximate total cash receipts of the society from 1841 to 1857 inclu-

Vears.	Bibles and Tes- taments Dis tributed.	Value.	Approximate Receipts.	
1841		\$114 17		
1842		134 15		
1843	434	282 80	\$492 90	
1844	2,600	559 72	798 63	
1845	2,119	579 66	878 94	
1846	2,528	680 22	972 47	
1847	2,145	439 42	841 08	
1848	2,251	608 33	1,505 84	
1849	3,569	900 48	1.548 75	
1850	1,960	456 61	927 52	
1851	4,133	977 94	1,774 98	
1852	1,670	470 71	1,544 85	
1853	4,179	1,288 61	2,566 95	
1854	4,006	808 44	3,366 34	
1855	3,686	1,129 56	3,537 91	
1856	7,582	2,447 77	6,447 74	
1857	8,003	2,095 68	6,190 48	

This table shows a gradual increase in the number of Bibles and Testaments distributed and in the amount of money received. The receipts for 1857 were slightly less than in 1856. This diminution was caused by the panic of that year. The year was one of change and disaster in the commercial world, which caused great apprehension that the benefactions of the Society would be greatly diminished, and that it would be thus far less able to circulate the Bible. But the diminution in its receipts was not so great as feared, and the Society's work went on with its accustomed energy. Still there was one feature of the Bible cause which appears to have been especially noticeable at this time, and which caused considerable alarm to Mr. E. W. Towne, the Society's agent for the county. Mr. Towne closed his report thus:

"The most alarming fact was the apparent neglect of the Bible, and this even in families who call themselves Christians. The newspapers, the monthly, the flood of light literature poured upon us, is literally pushing the Bible out of sight. Almost without an exception 1 see unmistakeable evidence of a disrelish for Bible reading, while I see periodicals and books at hand showing signs of being well read."

The Society's report then adds:

"May not this be a true picture of many families in the city as well as in the country? The possession of the Bible will not save the soul, or guide the inquirer. The Bible must be read and studied to obtain the full benefit which its possession implies." The report concludes: "If the Bible is the revelation of God's will to man, and the only revelation we shall have, how urgent then the duty to secure its widest circulation at home and abroad."

# HISTORY OF THE PRESS.

A narrative of the history of the Press of Chicago is necessarily attended with the elaboration of a vast quantity of oral tradition and personal reminiscence, for which there is no documentary evidence; the great fire of 1871 having destroyed most of the printed records, and specific dates being impossible to obtain from the the memory of individuals, where they are clouded by the events that have transpired during forty or fifty years. Insurmountable obstacles have been encountered, in the death of so many of those who filled the editorial chairs of the early periodicals, and, in numerous instances, after following a clue persistently and carefully, all attempt to obtain information has been rendered nugatory by the tombstone of the editor-a silent negative of all inquiry, a monument of the boundary beyond which the interrogatories of the interviewer can not extend. So much of the information obtained has been from contemporaneous notices in extant newspapers, either of publications projected or made, that specific dates are noticeable by their absence; and in the case of a publication to be made, it has occasionally been found impracticable to decide whether the issuance of the paper assumed form and substance, or remained inchoate in the mind of the projector. Other information having been taken from directories, it has been impossible to decide the longevity of the paper, or magazine, or its precise date of publication; and even where isolated numbers have been exhumed from the ashes of the great fire, the date of the suspension of the periodical could not be definitely ascertained.

The first utilization of the inventions of Cadmus and Faust in the city of Chicago was by John Calhoun, who issued the Chicago Democrat, from a building at the corner of Clark and South Water streets, on the 26th day of November, 1833. Through the courtesy of Mrs. Pamelia C. Calhoun, widow of the original publisher, we are permitted access to an antobiographical sketch of the founder of Chicago journalism; a document never before made public. As many of the statements therein contained relate more directly to the condition of the village in early times than to the topic whereof we write, liberty has been taken to classify the information; embodying the general matters in that portion of this work which treats of the settlement of the region, and retaining in this chapter only so much as pertains to Mr. Calhoun's work as a newspaper man, prefacing the record of his actions here with a biograph-

ical account.

JOHN CALHOUN was born at Watertown, N. Y., April
14, 1808. His parents were natives of Connecticut,
but were among the earliest settlers of Jefferson County,
N. Y. The father of Mr Calhoun was a carpenter,
and the son, in boyhood, became an adept in that business, preferring mechanical to intellectual pursuits. At
the age of sixteen, however, John entered the printingoffice of W. Woodward, who had just commenced the
publication of the Watertown Freeman, and therein
learned the printer's trade. When twenty-one years
old, Mr. Calhoun went to Albany, N. Y., and was engaged in Starr & Little's type foundry for a few weeks;
then, the nomadic spirit being strong upon him, he went

to Troy, where he worked for a short time on the city directory. From that city he returned to Watertown, and resumed his former position in the office of the Freeman. He also worked in the office of Richard Oliphant, in Oswego, for a brief period. In the summer of 1831 Mr. Calhoun purchased the materials for a job printing office, and entered into partnership with W. Woodward. The Freeman was an organ of Democratic principles, and soon after the association of Woodward and Calhoun dissensions occurred in party lines which necessitated the sale of the paper to other parties. As

John Eathonn

Mr. Calhoun's interest did not extend to a controlling degree, the transfer left him unprovided for. Acting upon the advice of Hon. Perley G. Keyes, Mr. Calhoun purchased additional materials and established the Watertown Eagle. This venture was not fortified with sufficient financial strength to insure success, and the paper was sold to Alvin Hunt, in whose hands it enjoyed a long and prosperous existence. In 1833 Harlow Kimball, brother of Walter Kimball, formerly Clerk of the County Court of Common Pleas, visited Chicago, and on his return to the East, gave such glowing accounts of the Western country, particularly of

Where Liberty dwells, there is my Country." --- Franklin.

MY'A. CLLHOUN.

CHICAGO, ILL. TUESDAY NOV. 26, 1838.

THE CALLED THE PARTY SETTION OF THE PARTY SETTION O

The control of the co

Chicago, that Mr. Calhoun decided upon removing to this place. On the 21st of September, 1833, he proceeded by the most expeditious route to Chicago, which then was by steamboat from Buffalo to Detroit, and thence by stage. The steamer upon which he took passage encountered a terrific gale on Lake Erie, and was, after being twice driven back, at last headed for Black River harbor, where she stuck upon a bar which had formed at its mouth. Her floatage being a matter of uncertainty, Mr. Calhoun, in company with other passengers, debarked and went on foot to Huron, a distance of about twenty miles. After remaining there two days, a schooner was chartered to convey the party to Detroit. From that place the journey was continued by stage, across Michigan and Indiana, by the slow conveyances of the period. The printing materials were safely bestowed on Newberry & Dole's log dock, when Mr. Calhoun arrived; the freight having come by way of the lakes, on a sailing vessel. Three weeks' time was consumed in the vovage from Sackett's Harbor, and the same period was required to reach this place by land. Two apprentices, whose names are not now remembered, had evidently accompanied the materials from the East; for Mr. Calhoun, in the autobiography, writes of finding them at the "Travellers' Home," then kept by C. Ingersoll, on Wolf Point. An office was secured in a building on the southwest corner of South Water and Clark streets, which was unfinished at the time. Mr. Calhoun assisted in the work of lathing the room, and, during the evenings, held a light by which Ashbel Steele could see to lay on the rough plaster.

Mr. Calhoun was an ardent admirer of Andrew Jackson, and a pronounced Democrat of the school which claimed that sturdy soldier as their pattern. The proposed paper was, therefore, named the Chicago Democrat. On the 26th day of November, 1833, the first issue appeared. It was a six-column folio, measuring twenty by fifty inches in size. Its motto was.

"Where Liberty dwells, there is my country."

Mr. Calhoun was not possessed of great wealth, and feelingly writes of his financial embarrassments during those days of struggle. He expresses himself under obligation to T. J. V. Owen for substantial encouragement. As an evidence of the meager support then obtainable, the appended list of subscribers to the Democrat, taken from the original book, tells a story which newspaper men of the present day will appreciate; as well as furnishing a valuable register of citizens in

Billy Caldwell, S. T. Gage.\*

In the inaugurate number Mr. Calhoun demonstrated the platform the paper would occupy under his management in a clear manner, announcing his faith in the principles of the Democratic party, unbiased by prejudice. The importance of the contemplated canal or railroad between Lake Michigan and the Mississippi River was appreciated, and the paper was pledged to favor the enterprise. As a local index, a list of the advertisers during the first three issues of the Democrat is here given: In the first number of the paper are advertisements of the Traveller's Home, kept by C. Ingersoll; powder and belts for sale by John Bates, Jr., at the post-office; hardware, crockery, boots and shoes stationery, tinware, etc., for sale, and a house to let by

\*This subscription list is copied verbatim from the original account books in the possession of the Chicago Historical Society.

John Wright; an ox wagon for sale by C. H. Chapman; drugs and medicines by Philo Carpenter; dry goods, crockery, hardware, etc., by W. Kimball; forwarding and commission by Newberry & Dole; winter clothing, provisions, groceries and liquors by P. Cohen; groceries and liquors by S. Foot: grocery and provision store and forwarding and commission store by B. Jones; sale at auction of oxen and wagons by the United States authorities at Fort Dearborn; saddle and harness making by Goss & Cobb; blacksmithing by Mathias Mason; dry goods, crockery, leather, etc., for sale by C. & I. Harmon; soap and candle manufactory, by Daniel Elston & Co.; \$25 reward for a stray horse, by P. Maxwell; stray pair of oxen, information wanted at the post-office: two estray notices by R. J. Hamilton, Clerk of the County Court of Cook County, also the village ordinances passed November 7, defining the limits of the corporation and giving the names to Madison, Monroe, Adams and Jackson streets, signed by T. J. V. Owen, president, and Isaac Harmon, secretary.

In the second number appear the advertisements of Brewster, Hogan & Co., forwarding and commission merchants and dealers in dry goods, groceries and hardware; flour for sale by Daniel Carver; dry goods, hardware, groceries, etc., by P. F. W. Peck; groceries, hardware, crockery, drugs and medicines by P. Prutne & Co.; horses wanted by John T. Temple; corn for sale by Richard M. Sweet; butchering by A. Clybourne; Chicago English and Classical Academy, by G. T. Sproat, preceptor; and a caution against cutting timber on Government lands, by H. T. Handy, asssistant

superintendent Chicago harbor.

The third number contained the following additional advertisements: J. D. Caton, attorney and counselor at law; \$10,000 to loan by R. J. Hamilton, commissioner of school lands for Cook County; J. H. Kinzie, forwarding and commission merchant; auction sale, by James Kinzie, auctioneer; pocketbook found, by J. Mann; new blacksmith shop, by Pierce & Abbott; a bakery, by John Wellmaker & Co.; Giles Spring, attorney and counselor at law; boot and shoe making, by L. W. Montgomery; administrator's notice, by J. B. Beaubien, public administrator; a public house at Flag Creek, by E. Wentworth; and J. B. Beaubien cautions all persons against trespassing upon fractional Section 29, Town 39, Range 14, commonly called "Hardscrabble," as such offenders would be severally prosecuted "without any regard." During December, 1833, a Mr. Lincoln, tailor by trade, erected a shop on the south side of Lake Street, near LaSalle, which spot was then considered out on the prairie; hence he received the sobriquet of "the Prairie Tailor."

Illustrative of the news facilities of the period, it is mentioned that the annual message of President Jackson was not received for publication until December 31,

1833, or nearly one month after its delivery.

Mr. Calhoun was married at Watertown, May 31, 1832, to Miss Pamelia C. Hathaway. Mrs. Calhoun did not accompany her husband to Chicago, but in the spring of 1834, after the measurable comforts of a home in the new village had been provided, she joined him here, and was intimately identified with the early history of the Democrat, by assisting in proof-reading and the business of the office.\* When jobs were printed on the hand-press she would smooth out the deep "impression" with a hot sad-iron.

The Democrat was designated the official paper of

"A, in Calhoun, brother of John, came to Chicag, in company with Hibbard Porter, June 12, 184, from Sackett's Harbor, on the schooner "Hiram," Capain Bassett, master. He died June 28, 1849. Of his children Mrs. J. K. C. Forrest, Captain W. A. Calhoun and Francis C. S. Calhoun are still living (1883).

the town of Chicago and the first order made for the publication of a corporation notice May 9, 1834. The advertisement was an announcement that a fine of \$5.00 would be imposed upon any one who should ride or drive over a bridge faster than a walk; and there being no policemen in those days, one-half of the fine was to

be given to the informer.

In November, 1834, the printing office was removed to above the hardware store of Jones & King, a few doors below its former location. The mail service had so far improved during the year that the presidential message was published December 23. But misfortune overtook the Democrat. The needed supply of paper failed to arrive before the close of navigation, and the issuance of the journal was compulsorily suspended from January 1, 1835, until May 20 of that year, with exception of one issue January 21 and another on March 25. It was impossible for a pioneer editor to endure the expense attending the shipment of stock by land routes, even when carriers were found willing to transport the

The monopoly enjoyed by Mr. Calhoun, as the sole occupant of the journalistic field was broken in the summer of 1835 by T. O. Davis, who established a Whig paper, called The American. The census of that year showed a town population of 3,279, and a county population of 9,773. Mr. Calhoun met his rival with a re-enforced power, by employing James Curtis, subsequently Mayor of the city, as editor of the Democrat. Dr. Daniel Brainard was also editorially associated with the paper at an early date. On the 17th of August, 1836, the Democrat was enlarged to a seven-column

As early as May, 1836, Mr. Calhoun, from personal motives, determined upon disposing of his paper, and retiring from the profession. Several leading Democrats, among whom were J. D. Caton, E. Peck, H. Hugunin, and J. C. Goodhue, in order to secure a controlling interest, proposed to make the purchase, and furnished the credit which enabled the enlargement of the paper, as before stated, but the sale was not consummated.\*

An arrangement was then made with Horatio Hill, brother of Hon. Isaac Hill, whereby he, on the 16th of November, 1836, took possession of the Democrat, and after placing Hon. John Wentworth in charge of the same until his return, left for the East, but never returned to Chicago. This is Mr. Calhoun's statement. Mr. Hill returned to Chicago subsequent to 1857.

It was only upon the return of the draft protested from New York, that Mr. Calhoun found that he had not sold his printing office. Mr. Wentworth, then in charge of the office, being anxious to purchase, and consenting to assume all payments that Mr. Hill had agreed to make, became the purchaser, and in the course of the next four years liquidated the debts owing to Mr. Calhoun. †

Digressing from the main theme, we here insert the remainder of Mr. Calhoun's biography, before continuing the history of the Democrat under its new management. In the spring of 1837, the County Commission-

ment. In the spring of 1837, the County Commission—

\*The issues of November 2 and 9, 1836, were reduced to six columns per
page, because of a failure of the paper supply.

It. Calbourn's statement does not convey the exact conditions of the case.

Mr. Martin and the propertiesty control of the paper, as that interest was
to be transferred and the propertiesty control of the paper, as that interest was
to be transferred and the propertiesty by exact of the paper, and upon his failure to fulfill the provisions of the agreement whereby
the paper was to have the proprietorship vested in him, Hon. John Wentworth
(then twenty-one years of age), was solicited to take the paper by a number of
the brading citizens of Chicago, which he did; thus the editorial succession of
the first paper of Chicago passed from John Calhoun to "Long" John Wentworth, without any lapse or hatus. Mr. Wentworth having, "sat at the receipt
of custom," during the time that Mr. Hill was doing nothing to signify his acceptance of Mr. Calhoun's proposal to sell the Demacrat to him. This fact
is shown in Mr. Calhoun's valedictory,

# Chicago Morning Democrat.

ers, having the appointing power, made application to Mr. Calhoun to accept the appointment of County Treasurer, which he did, and made the assessment for 1837 and 1838; DuPage then being a part of Cook County. That winter, the Legislature having revised the revenue laws and created the office of County Collector, whose appointment was vested in the County Commissioners, Mr. Calhoun was appointed for each of the years, 1839, 1840, and 1841. In the years 1841 and 1842, he was solicited and elected an Alderman of the Second Ward and rendered the city efficient service in reviving its credit, which was very low, and in securing to the city its cemetery grounds. In 1845 Mr. Calhoun went into the hardware store of Ira B. Eddy, and the next year was to have been a partner, but in 1846 Mr. Eddy decided to close his business, and finally sold the balance of his stock to Joseph Matteson, with whom Mr. Calhoun entered into co-partnership in August, 1847, continuing in the business until 1849. His health not being good, and he requiring an active, out-door existence, Mr. Calhoun applied for and obtained employment in the purchase of the right-of-way of the Illinois Central Railroad, continuing therein from the fall of 1851 until the spring of 1854. In the summer of 1854 Mr. Calhoun accompanied the Hon. C. C. Washburn to Georgia, hunting out the "wild-cat" banks in that State. From the autobiography is quoted the following paragraph, which reveals much to those who would study the character of this man:

"During the past season [1856] Mr. Calhoun's health has been such that it would not warrant him in engaging in any business. Being what may be called an old fogy, so far as real estate is concerned, though seeing in the past what Chicago was, in the present what she is, and from both what she is to be in the future, he nevertheless thinks that it is not impossible that we may yet see another revulsion like that of 1836. Mr. Calhoun has never had any great ambition to be rich, and thus far all his aspirations in this respect have been realized. Although not having accumulated much property, he feels that he is far richer than many who could, at the present time, buy and sell him a dozen times. Of late years he has felt the want of riches more for the good he could do with it than for any benefit to be derived to himself in its possession.'

Mr. Calhoun died February 20, 1859.

The gentleman upon whom the editorial toga descended, and whom the inhabitants of Chicago are so accustomed to associate with the history of the city-Hon. John Wentworth-graduated at Dartmouth College, N. H., in August, 1836, and reached Chicago on the 25th of October of that year. Mr. Wentworth states that the Democrat was owned in shares by a great many people, and that he was induced by them to take the paper and buy out their shares. This he achieved in about three years from the time of his taking charge, at a cost of about \$2,800. The first number of the Weekly Chicago Democrat issued under his administration was on November 23, 1836, being Volume 1, Number 1, of the New Series, and Volume III, Number 31, of the Old Series. Mr. Wentworth, who was twenty-one years and eight months old at this epoch of his life, was a law student in the office of Henry Moore. O. S. Lincoln, now residing at Waukegan, was Mr. Wentworth's roller boy, and the first newspaper carrier in the city. The earliest number of this issue known to exist is in Mr. Wentworth's possession and bears date August 16, 1837, Vol. IV, No. 15, Old Series, Vol. I, No. 37, New Series.
The Democrat was chosen, May 8, 1837, corporation

newspaper, by the Council, on the establishment of the city government.

Incidentally it is remarked that, in 1838, while Hon. Stephen A. Douglas was in the city, he desired some hand-bills printed, to announce that he was in the field. Application was made to Mr. Wentworth for the print-

JACKSON HALL. (Fac-simile of Cut in Early Issues of the Democrat.)

ing, but the facilities of the office were limited. In order to expedite the issuance of the notices, Mr. Wentworth worked the hand press and the "Little Giant" performed the menial office of roller-boy, inking the

Mr. Wentworth determined to establish a daily paper in time to precede the municipal election in the spring That being the year of the presidential of 1840. election, it was deemed of the highest importance by both parties to influence public opinion and secure votes for the municipal candidates of their respective parties, that a victory in the presidential election of the ensuing November might thereby be presaged. For this reason Mr. Wentworth started the Chicago Morning Democrat. During that time the other city papers had changed their names, but the Democrat retained its cognomen from the time of its birth, in 1833, until its discontinuance in 1861; and from the period of its inauguration until the close, was what was known as a "Hard Money Paper" of the Jackson and Benton stamp. That financial question was presented to the people at every election. The daily issue was eleven and one-fourth by seventeen and one-fourth inches in size, and was issued on February 24, 1840, from the third story of 107 Lake

Daniel M. Bradley became associated with the Demoerat October 9, 1840. He was a practical printer and of value in his position because of his mechanical

knowledge. Mr. Bradley died in 1857.

The growth and development of the Democrat was coval with that of the city, and in all questions of municipal, State or federal polity, the voice of the paper was an important factor in moulding public opinion, and its enunciations were never characterized by diffidence or instability.

In 1844, George W. Wentworth acted as assistant editor. In 1846, the issue was changed from morning to evening. September 24, 1847, the office was removed to Jackson Hall, on LaSalle Street. As an evidence of the enterprise of those days, the fact is stated that the President's message was hurried through from Mottville, Mich., a distance of one hundred and thirty miles, in nine hours; thirty-six hours ahead of the mails; and the Democrat was enabled to anticipate its publication in other journals, December 15, 1847. The first special newspaper telegram to the Democrat was received Sunday, April 9, 1848, and published the next day.\* Joseph K.C. Forrest became assistant editor in 1847, and William Osman, now of the Ottawa Free Trader, in 1853, filled that position.

During the remainder of the period treated of in this volume the Democrat pursued the even tenor of its way, gaining in circulation and potentiality, and proving itself an extremely profitable investment to its pro-

prietor.

THE CHICAGO AMERICAN.—The second newspaper established in this city was the Chicago American, which was first issued as a weekly newspaper on Monday, June 8, 1835, by T. O. Davis. The size of its pages was fifteen and one-half by twenty-one and onehalf inches, containing six columns. The issue was announced as to be made Saturday morning, the second and subsequent numbers being issued on that day. The date under the caption of the first issue is given as May 8, 1835, but in the editorial column is a statement that by an error of the printer May was inserted instead of June. The place where the office was situated is not given, but in an advertisement of Frederick Thomas, he states that he is on Water Street, near the drawbridge, two doors from the American office. Like the Democrat, the American pledged itself to the work of internal improvement, but differed in political creed from its contemporary, and was hostile to the dominant party. It declared that "office-holders are not of right, and should not be the masters, instead of the servants, of the people." The advertising patrons were: R. Stewart, A. N. Fullerton, Grant Goodrich, attorneys; J. H. Barnard, physician; J. C. Bradley, dentist; William Sabine, commission merchant; John Davis, Steamboat Hotel; W. L. Newberry, real estate; E. Brown, painter; S. B. Cobb, saddler; Harmon, Loomis & Co, merchants; J. H. Kinzie, merchant; Newberry & Dole, steamboat agents; Tuthill King, clothier; Russell Clift, bookseller; Frederick Thomas, druggist; E. K. Hubbard, real estate; Philo Carpenter, merchant; J. &. W. Crawford, brewers; and John Holbrook, clothier.

The American had its outside dated December 26, 1835, in the issue purporting to be of that date. It was, however, issued December 25, as is stated on the inside pages, in order that the public might receive the President's message printed in that number, as soon as possible. This number is an instance of a common custom in those early days, which was to print the outside sometime previous to the date of issue, and leave the inside to be struck off when it was required. In the number just proceeding the close of the first volume, it is announced that a semi-weekly issue will also be made with the commencement of the new volume. On October 15, 1836, the American displayed an eagle, between the words "Chicago" and "American," on its heading, with a scroll in its beak and the motto hyphenated on the scroll, "E Pluri-Bus Un-um." June 3, 1837, T. O. Davis states that he is desirous of selling one-half the American "the whole would be sold if wanted;" and another notice in the same paper (Vol. 2, No. 52, remarks that "the stock of paper laid in last fall is exhausted, in consequence of the subscription list having augmented more rapidly than was anticipated," and he will be compelled to suspend the paper for one or two weeks. A hiatus here occurs in the files. The next number and the only one known to be extant between Vol. 2, No. 52, and the number next hereafter adverted to), is under the publishing and editorial management of William Stuart & Co., dated Saturday morning, October 14, 1837, and is No. 13 of Vol. 3. If the issue was uninterrupted from the resumption, when paper was received and re-publication made, the first number of the third volume should have been on July 22, 1837. But a salutatory in this number

says:
"In reviving the Chicago American, which our friends must, by this time, be generally aware has been suspended for a short time for want of paper, we deem it our duty, as well as our interest, to present a few remarks as to the circumstances and prospects under which we again commence our labors. The Chicago American is now issued under a new proprietorship and under such circumstances as we trust will assure its permanent usefulness and prosperity."

Hence the most rational inference is that with this number William Stuart & Co. inaugurated their proprietorship of the paper; and an additional reason is found for this assumption, in the notice of the dissolution of the law-partnership existing between William

Montuar.

Stuart and James Curtiss, dated October 14, 1837, and the continuance of the law business by the former, at his new office, in the rear of the Chicago American office, corner of Clark and Water streets. The next

<sup>\*</sup> Telegraphic communications with Detroit began April 6, 1848. See that topic elsewhere.

attainable number is that of Friday, July 17, 1840, Vol. VI., No. 1, William Stuart, editor, with office at the same place, and the paper is designated The Chicago American, prior to which date the daily issue had been established. On July 24, 1840, a notice is published and continued through several numbers, wherein it is stated that to give every inducement for the payment of accounts and more extensive circulation of the American, butter, eggs, flour, wood, and produce generally will be received at the office, at market prices, if delivered soon. But as the history of the Weekly has now become merged in the history of the Daily American, no future reference will he made to the former issue of the paper.

The Chicago Daily American was issued from the office of the Weekly Chicago American, by William Stuart, on the ninth day of April, 1839, in the third story of Harmon & Loomis's building, at the corner of Clark and South Water streets, and was the first daily newspaper issued in Chicago, and in Illinois. The size of the page was eleven by sixteen and three-fourths inches. On December 20, the American was issued as an evening paper.\* May 11, 1840, the editor was fined \$100 by Judge John Pearson, of the Circuit Court, for contempt. July 28, 1841, William Stuart was appointed Postmaster, and relinquished his editorial work here. October 9, of that year, Alexander Stuart became proprietor, with W. W. Brackett editor. July 20, 1842, Buckner S. Morris bought the office. Mr. Brackett retired, and on October 18, 1842, the Daily American ceased.

THE CHICAGO EXPRESS was first published by William Brackett, from 92 Lake Street, on October 24, 1842, and was a daily afternoon paper, with a weekly edition published Tuesdays. It was a continuation of the old Daily American, and mounted the legend "For President, Henry Clay," at the head of its editorial column; and this fact will explain Mr. Brackett's retirement from

Im or, Grackett

the American. The Express was a five-column folio, thirteen by nineteen and a half inches in size. It was maintained until April 20, 1844, when it was sold to a company of gentlemen for \$1,500, among whom were George W. Meeker, John Frink, Buckner S. Morris, Jonathan Young Scammon, S. Lisle Smith, Jacob Russell, Walter R. Newberry, Giles Spring, Grant Goodrich, and George W. Dole. The office was then situated, it is stated, in the third story of A. Rossetter's block, 82 Lake Street, opposite the Tremont House. The weekly edition, together with the daily, was discontinued.

The Chicago Daily Journal was first issued on April 22, 1844, by an editorial committee composed of William H. Brown, George W. Meeker, Jonathan Young Scammon, S. Lisle Smith and Grant Goodrich; said committee having been appointed by the association that purchased the Daily and Weekly Express. The editorial management was entrusted to Richard L. Wilson and J. W. Norris, who were also its publishers, and these gentleman advocated those Whig principles that became as much a part of the Journal as its subscription list. The paper was published from the old office of

the Express for a few months, when it was removed to the Saloon Buildings, on the southeast corner of Lake and Clark streets. After the defeat of Henry Clay by James K. Polk, Mr. Norris withdrew from the paper and Richard L. Wilson, the pungent paragrapher, continued it alone. In the volume for 1845, the number for October 30th is numbered 254 that for October 31st is 155, the serial numbers being continued from the latter number. On December 29, 1845, Nathan C. Geer who had previously been in charge of the pressroom, was associated with Mr. Wilson, as editor and publisher, and on January 6, 1846, the caption that had been printed in Old English disappeared and plain English letters took its place. September 27, 1847, the copartnership between Messrs. Wilson & Geer was dissolved. Richard L. Wilson continued the paper alone until he was appointed Postmaster by President Zachary Taylor in 1849. In December, 1847 Benjamin F. Taylor, who is alleged to have been the first dramatic critic employed upon a Chicago newspaper, retired from the Journal force, with which he had been a long time connected, but subsequently renewed editorial labors on that paper. The Journal of April 5, 1848, announced that "the telegraph wires are at last all up to Detroit, but no communication has as yet been received beyond the South Bend," and the issue of the 6th thus comments upon a statement in the Democrat of the same date, to the effect that "the first flash from Detroit traveled along the line yesterday." "The Democrat forgot to add that the 'flash' came 'along the wires' by stage from Kalamazoo. No communication passed on the wire yesterday from Detroit, Niles being the farthest point reached." In this issue (the 6th of April), however, the Journal says: "The first flash came through from Detroit this morning at 9 A. M. By the dispatches it will be seen we have dates from New York of yesterday at 2:30 o'clock.'

Richard L. Wilson, whose health was seriously impaired by the premature discharge of a cannon, which he was helping to fire, on the 3d of April, 1847, in honor to the victory of Buena Vista, retired from the Journal on the 10th of February, 1849, and was succeeded by Charles L. Wilson. On the 8th of March, that year, George E. Brown became one of the publishers, and in July the offices were removed to the Journal building, 107 Lake Street. In September Mr. Brown retired, January 2, 1851, the editors were Richard L. Wilson and Charles L. Wilson, the former gentleman having

### Charles & Wilson

been removed from his position in the post-office department by President Millard Fillmore. January 26, 1853, the paper was published by R. L. and C. L. Wilson and R. H. Morris, and was called the Daily Chicago Journal. December 1, 1853, the publishing office was removed to 50 Dearborn Street, opposite the Tremont. On December 2, 1854, Mr. Morris retired from the editorial and publishing department of the paper, leaving R. L. and C. L. Wilson as editors, and C. H. Peirce associated with them in charge of the business department. January 4, 1855, the paper was denominated the Daily Chicago Journal, while on February 10, the title was transposed again to the Chicago Daily Journal, from a font of shaded Old English text; and in 1856 the name of the paper was The Chicago Daily

<sup>\*</sup> On June 6, 1840, William Stuart issued from the office of the Daily American, a weekly campaign paper called the Hard Cider Press. It was a strenuous supporter of Harrison and Tyler, uniform in size with the Daily American, and ran until October 24, 1840.

Journal. In December, 1856, Richard L. Wilson died, and the firm became C. L. Wilson and C. H. Peirce. At this time Andrew Shuman was associate editor. Benjamin F. Taylor literary editor, and George P. Upton city and commercial reporter. In 1857 the Journal had a severe struggle for existence, but it was evidently the ebb-tide of its prosperity, which was successfully "taken at the flood" that has since "led on to fortune."

THE FIELD-PIECE, a campaign paper, was issued from the office of the Journal about June 10, 1848, as an advocate of Whig principles and the claims of General Zach Taylor and Millard Fillmore to the Presidency and Vice-Presidency. It was continued weekly during

the campaign.

Hooper Warren, the indefatigable and earnest abolitionist, issued the first number of the CHICAGO COMMERCIAL ADVERTISER, ON October 11, 1836, as a weekly paper, of which Edward H. Rudd was the printer: the office being located on Dearborn Street, near South

K. Warren.

Water. The paper was a "liberty" paper, and lived about a year. Mr. Warren subsequently moved to Lowell, LaSalle County, and with Zebina Eastman published the Genius of Liberty, also an anti-slavery paper, in January, 1841.

On April 4, 1840, appeared The Weekly Tribune, published by Charles N. Holcomb & Co., in the third story of the Saloon Buildings, corner of Lake and Clark streets. The pages of the paper were eighteen by twenty-four and three-fourths inches in size. Of this

Man

newspaper, the first to be called the Tribune in the United States, Edward G. Ryan, subsequently Chief Justice of Wisconsin, was editor; and it is said of this gentleman that he was one of the very ablest writers ever in Illinois. The Tribune was of an excellent typographical appearance, and was a decided credit to its management during those early days of journalism. In the early part of 1841 the forms were sold to Colonel Elisha Starr, of Milwaukee, and the Milwaukee Journal arose from the debris of the Tribune. Jonathan Carver Butterfield, one of the oldest printers in the city at the time of his death, July 7, 1854, worked on this paper and K. K. Jones was roller boy and carrier.

The Union Agriculturist and Western Prai-

THE UNION AGRICULTURIST AND WESTERN PRAIRIE FYRMER WAS inaugurated in January, 1841, by the Union Agricultural Society, incorporated February 19, 1839, and to which act of incorporation an amendment was made, opproved January 31, 1840. The first trustees of the society were Abraham Holderman, Levi Hills, Joshua Collins, Salmon Rutherford, S. S. Bullock, David Shaver, B. H. Mootes, S. Delano, Benjamin B. Reynolds and Henry Green, of LaSalle County; Holder Sisson, Calvin Rowley, J. A. Gooding, William Smith, William B. Peck, Reuben Beach, John Blackstone, Charles Reed, Cornelius C. Van Horn and John Dean Caton, of Will County; William B. Ogden, Joseph Naper, Socrates Rand, E. Peck, Lewis Ellsworth, Seth Johnson, William P. Caton, R. A. Kinzie, Russell Whipple and J. S. Wright, of Cook County; Isaac Hicox,

Matthias Mason, Arthur Patterson, Mr. Bartlett, J. G. Rogan, William Jackson, Seth Washburn, Joseph Wickham, Ziba S. Beardsley and Willard Jones, of McHenry County; General McClure, James T. Gifford, Colton Knox, Rice Fay, Ira Minard, Isaac Wilson, John R. Livingston, R. C. Horr, Mr. Risk and Joel McKee, of Kane County. Under the auspices of this society The Union Agriculturist was issued, with John S. Wright, the corresponding secretary, as editor. The officers of the society, who were the official publishers of the Union Agriculturist, were: John Dean Caton, of Will County, president; Levi Hills, of LaSalle County, Holder Sisson, of Will County, Lewis Ellsworth, of DuPage County, James T. Gifford, Kane County, Seth Washburn, McHenry County, vice-presidents; William B. Ogden, Cook County, treasurer; John S. Wright, Cook County, secretary. The motto displayed at the head of the editorial column was, "In Union is Strength." There were two numbers issued, as a species of prospectus; prior to the issuance of the volumes hereafter described, and this led to the designation of the continuous issuance as the new series. These two numbers were evidently but a tentative issue, and, the journal meeting with a favorable reception, the management state that, "it was with fear and trembling that the enterprise was entered upon, but it is continued with the most perfect assurance of success." It size was fifteen and one-half by ten and three-fourth inches, eight page, of four columns. The journal was, as its name implies, devoted to agricultural, arboricultural, horticultural and pastoral interests, with the customary corner for the instruction of the Priscillas of the household. The articles in this number are ably edited and exhibit care and skill in their preparation. The typography is very creditable to Holcomb & Co., printers, Saloon Building. It is generally conceded that John S. Wright was the ablest agricultural editor of the age, but he was many times termed visionary for the utterances he made predicting the future of the city; yet these predictions have been dwarfed by its actual advance in trade, wealth and population. In October, 1841, the officers were changed, the new regime being: James T. Gifford of Kane County, president; Lewis Ellsworth of Du Page, Theron D. Brewster, LaSalle, William Smith, Will, Seth Washburn, Lake, vice-presidents; E. W. Brewster. Kendall, treasurer; John S. Wright, Cook County, secretary. In January, 1842, the size of the paper was increased to twelve pages and miscellaneous advertisements were inserted. Volume III, No. 1, January, 1843, was issued by J. S. Wright, editor and publisher, at 112 Lake Street, and John Gage, editor of the mechanical department. The name of the publication is, in this issue, simply Prairie Farmer, and it is made in magazine form of seven and one-half by ten and one-

Im G. mrgh

half inches, containing twenty-four pages, two columns to the page. In July, 1843, J. Ambrose Wight was associated with Mr. Wright in the editorial work. In October, 1844, the office was removed to No. 65 Lake Street. During the years succeeding prior to 1858, the editorship and proprietorship of the paper were substantially vested in J. S. Wright, J. A. Wight and Luther Haven, with several transpositions of authority. The horticultural department being conducted by John A. Kennicott.

THE QUID NUNC was a four page paper, size twentytwo by thirty-two inches, four columns to a page. It was the first penny paper published west of the Alleghany mountains. The initial number appeared July 5, 1842, David S. Griswold editor, David D. Griswold proprietor; Ellis, Fergus & Co., publishers. Its design was set forth in the prospectus, which enunciated the following plan: The Quid Nunc will seek to "advance the cause of Literature, the Fine Arts, Science, Commerce, Agriculture, and the Mechanical Arts; combined with such other topics, of local and general interest as circumstances may from time to time give rise to. Its columns will be open to such communications and discussions, as may be approved, on all subjects, excepting Religion and Politics; neither of these will in any shape, be admitted within them. It will contain short original essays, mainly on practical subjects, designated to do away pernicious prejudices, without reference to their origin, long standing or general acceptance. It will give no currency, nor encouragement to personalities, in any shape whatever; nevertheless as a vehicle, or instrument of general reform, it will be its pride and cue to lash folly, and expose oppression, in whatever guise appearing or by whomsoever practiced." This declaration was signed by William Ellis, Robert Fergus and David G. Griswold. The paper was discontinued August 16, 1842, after thirty-seven numbers had been issued. The similarity in names—David D, and David G. Griswold—naturally suggests an error; but none exists in this statement. The cause of the paper's suspension, as set forth by Robert Fergus, was that David D. Griswold collected and retained all the money realized from the publication of the paper, and Messrs. Ellis & Fergus, owning the type, paper, etc., and doing all the printing without receiving any cash for the same, refused to further continue its publication. The remaining parties observed their faith with the public, it is unnecessary to state, in the closing of the business.

The Northwestern Baptist was a semi-weekly paper, the pages of which were fourteen by ten and one-half inches that was published by "a committee," with Thomas Powell as editor, at the office of the Western Citizen, 124 Lake Street. This paper was the first religious publication in the city of Chicago and was, as its name indicates, devoted to the interest and advance of the Baptist denomination. It had for its motto: "Earnestly contend for the faith which was once delivered unto the saints." The initial number was issued September 15, 1842, and the last September 15, 1844, subsequent to which date it was removed from

this city. THE CHICAGO REPUBLICAN was issued on December 14, 1842, as a weekly newspaper, by A. R. Niblo, from Harmon and Loomis's buildings, corner of Clark and South Water streets, late the American office. Its size was sixteen by twenty-two inches per page, four pages of six columns each. This newspaper was established to create a public sentiment that should tend to re-elect President Tyler to office, and likewise it was contemplated that the paper should act as "a power behind the throne" in the disposition of the offices in the gift of the Executive. The paper is stated to have been sold in June, 1843, to Messrs. Cleveland and Gregory, the latter gentleman retiring from its management subsequently, leaving F. W. Cleveland its sole manager. The paper is supposed to have lived about a year. Mr. Niblo removed to Oswego, Kendall County, and commenced the publication of the Kendall County Free Press. After holding several county offices, Mr. Niblo was killed on the Pittsburgh & Fort Wayne Railroad at Washington, Ohio, June 22, 1858, being Postmaster at Newark, Kendall Co., Ill., at the time of his death.

The Western Citizen was first issued in 1842, from 143 Lake Street, every Thursday, by Zebina Eastman and Asa B. Brown, with Zebina Eastman as editor. As might be inferred from the fact that the war-horse

Z Easthraw

of abolitionism occupied the sanctum, the Western Citizen was an anti-slavery paper. In 1841 Mr. Eastman, with Hooper Warren, had published the "Genius of Liberty" at Lowell, LaSalle County, and upon the suspension of that paper Mr. Eastman came to Chicago and was a compositor in the American office until a short time before the publication of the Western Citizen. In 1845 the office was moved to 63 Lake Street, and Eastman and D. Davidson were associated in its publication. In 1849 the firm became Eastman & J. McClellan, and so remained until 1852, when Mr. Eastman was sole publisher and proprietor. In 1853 the Western Citizen died, it having been maintained by Mr. Eastman more for principle than profit, and to sow those seeds of emancipation and personal liberty that arrived at their rich fruition in the Emancipation Proclamation of our martyred President in 1863. The struggle of Mr. Eastman, the sacrifices of time and money he made in the cause of liberty, the unremunerated and arduous exertions he displayed, well qualified him for the office of

"A nerve o'er which might sweep
"The else unfelt oppressions of this earth."

The business office was destroyed by fire May, 1850.

THE YOUTHS' GAZETTE, a juvenile paper, was started by K. K. Jones May 18, 1843, and ceased to exist on the 26th of July following.

THE BETTER COVENANT was first published simultaneously at Rockford, and St. Charles, Ill., by Rev. Seth Barnes and William Rounseville, on January 6, 1842, in the interest of the Universalist denomination,

Im Rounawille

and was issued weekly. On February 2, 1843, the Rev. Mr. Barnes became sole editor and proprietor. The printing of the paper was at first done exclusively in Rockford, but a printing press, etc., being purchased of Zebina Eastman, the establishment was moved to St. Charles, where it remained for a short time, and on April 6, 1843, was removed to Chicago, the number of the paper being Volume II, Number 14, Mr. Barnes being still editor and proprietor, and Charles Stedman the printer. This initial number, issued in Chicago, contains the following announcement: "This paper is now located in Chicago, and here we intend to remain so long as we are interested in the publication of this paper. Our office at present is on the corner of Water and Wells streets, entrance from Water Street." On the 18th of May, 1843, the office was on Randolph Street, west of Chapman's building; and on the 24th of August, 1843, A. P. Spencer is announced as the printer. On March 7, 1844, the Rev. William Rounseville appeared as assistant editor, and this gentleman assumed the editorship and proprietorship of the paper on September 5, 1844, the Rev. Seth Barnes retiring from his connection with the Better Covenant, on account of chronic inflammation of the eyes. On November 21, 1844, it was announced that Cyrus B, Ingham had become co-proprietor with Mr. Rounseville, and on June 5, 1845, the former gentleman assumed the sole proprie-

Cyms B. Ingham

torship of the paper, with the office at 99 Lake Street. Mr. Ingham thus narrates his experience with the Better Covenant: "I continued the paper until the fall of 1847, when I sold the list to John A. Gurley, of the Star in the West, of Cincinnati, Ohio, During a portion of the time several clergymen of the denomination were engaged as assistant editors. At one time the names of W. E. Manley, George W. Lawrence, F. J. Briggs and D. P. Bailey appeared as editors. The last year of its publication S. P. Skinner, at the time pastor of the Society at Chicago, had editorial charge. \* \* \* It may be remarked that all these years Illinois and Chicago was without a railroad, and that during this time the Mexican War was passed through, and financially the Red Dog and other fictitious currency became worthless. Some of these years the people of the country were all sick; not enough well ones to care for the sick. At some times a load of wheat or pork could not be sold in Chicago for money.

\* \* \* On the whole the old Better Covenant was a losing affair. I went into it with about \$1,800 means, and went out of it over \$1,000 in debt, with no assets but a worthless subscription account; five years of labor and life were spent, and it took me ten years more before I was able to clear off the old score." Thus terminated the first chapter of the existence of the Better Covenant; but it will be perceived that it be-came resuscitated in the Star and Covenant by the subscription list of the Star in the West the paper to which the subscription list of this paper was transferred by Mr. Ingham being incorporated with that paper in the New Covenant, and the union of these two papers being designated the Star and Covenant, a narration of which will be found in the proper chronological period pertaining to that event.

THE NEW COVENANT was first issued in January, 1848, by Rev. W. E. Manley and Rev. J. M. Day, as a weekly newspaper and an advocate of the Universalist denomination. Mr. Manley thus briefly recounts the existence of the paper: "Knowing, as I thought I did, that the Better Covenant had failed through mismanagement, I, and a brother-in-law, Rev. J. M. Day, started the New Covenant in the spring of 1848. As Mr. Day

W. E. Manly.

had a wife and family and I had none at least no wife, as she died the previous September, I did the traveling and he remained in the city. After about a year he withdrew, and I sold out to Rev. S. P. Skinner. He

published the paper, with indifferent success pecuniarily, but was himself a most excellent editor. He sold to L. B. Mason' in 1855. Mr. Mason conducted the paper beyond the period of which this volume treats.

The CHICAGO DEMOCRATIC ADVOCATE AND COM-MERCIAL ADVERTISER was started February 3, 1844, by Messrs. Ellis & Fergus, publishers and proprietors, in the Saloon Building. It was a weekly paper, issued on

Saturday during the earlier part of its existence, and on Tuesday during its latter issuance. Its size, Mr. Robert Fergus states, was twenty-four by thirty-four inches and contained six wide columns to the page. The last number was issued in January, 1846. It was nominally without an editor, but such able men as Norman

B. Judd, William B. Ogden, Ebenezer Peck, Isaac N. Arnold, and others, furnished editorials. It was the corporation newspaper in 1844 and 1845, and the discontinuance of the corporation patronage may have pre-

cipitated the discontinuance of the paper.

THE ILLINOIS MEDICAL AND SURGICAL JOURNAL, the first medical journal issued in Chicago, was com-menced in April, 1844, in the interests of the faculty of Rush Medical College, with Dr. J. V. Z. Blaney as the editor, the issue comprising sixteen pages and printed by Ellis & Fergus, book and job printers, at the Saloon Building. The two first volumes were issued monthly, but in April, 1846, a new series was commenced and the Journal was christened The Illinois and Indiana Medical and Surgical Journal, with an editorial staff comprising Doctors James V. Z. Blanev, Daniel Brainard, William B. Herrick, and John Evans, and published in Chicago by Ellis & Fergus, and in Indianapolis by C. B. Davis. The issue was made bi-monthly. To recount the struggles against adverse fortune that this Journal underwent is impossible; the dubitations of the printer, whose bills were frequently more prominent in his mind by their continuity than their liquidation; the faith of the editors-when did an editor ever lose faith in his publication?-and the numerous corps of the early medical practitioners and students of our city, who aided the Journal to obtain recognized value among the medical fraternity by their contributions, all are recorded in the memories of the associates of this periodical, but to attempt their recital would be futile. In 1848 the cognomen of the publication again underwent a transformation, appearing for the two months of April and May as Volume 1, Number 1, of The Northwestern Medical and Surgical Journal, but with the same editorial management as the preceding numbers, and published by William Ellis, at Chicago, and John D. Defrees, at Indianapolis. In 1849 the names of W. B. Herrick, M. D., and John Evans, M. D., appeared as the editors, and J. W. Duzan, Chicago and Indianapolis, as the printer and publisher, and the subsequent year John Evans, M. D., and Edwin G. Meek, M. D., comprised the editorial staff, and C. A. Swan, Chicago and Indianapolis, was the accredited printer. The same editors appeared in 1851, but with James J. Langdon, Chicago and Indianapolis, as printer. In 1852 Dr. John Evans was sole editor and Langdon & Rounds, Chicago and Indianapolis, were the printers. That year Dr. Evans subsequently Governor of Colorado, sold his interest in the Journal for five acres of land on the West Side, and with the increase of value in Chicago real estate, this plot of land afterward became of the value of \$5,000,000; but Dr. Evans had parted with it long before its accession of valuation. In May, 1852, another new series was commenced, the issue being

monthly and numerically designated as Volume I, Number 1; Volume II ending with Number 8 in December, 1853, with W. B. Herrick, M. D., as editor, assisted by H. A. Johnson, A. M., M. D., and with Ballantyne & Co. as printers and publishers, in the new post-office building, corner of Clark and Randolph streets, opposite the Sherman House. Dr. N. S. Davis succeeded Dr. Herrick as chief editor in May, 1854, Dr. H. A. Johnson continuing as assistant editor; the publication being in the hands of A. B. Case, book and job printer, Chicago, who in 1856 was succeeded by Robert Fergus as printer and publisher. In 1857 N. S. Davis, M. D., had sole editorial charge of the Journal and the publishing was done at the "Chronotype" book and job office, Barnet & Clarke, printers. The December number, 1857, terminated this issue of the magazine under the name of The Northwestern Medical and Surgical Journal. Relative to the gentleman who had the sole charge of the Journal at that time, an extract from the Northwestern Christian Advocate of June 1, 1853, will give the estimation in which he was held by his fellow-citizens: "Speaking of Prof. Davis, we may not here suppress an expression of that admiration of his character, which, in common with many others, we have so often His learning and professional skill are not, as is so often the case, employed for mere purposes of money-getting; but amidst the pressing engagements of the duties of a professorship and a private practice he finds time-takes time-to labor with all the efficiency of his superior qualifications in the great reforms of the day. In the columns of our City Press, and our popular lecture-rooms he is to be found, for example, advancing the cause of temperance, and exploring the long and dark train of evils that have their rise in the fontal curse of our race."

THE GEM OF THE PRAIRIE Was begun May 20, 1844, by K. K. Jones and James S. Beach, from their office in the Commercial Building, 65 Lake Street, and purported to furnish literary miscellany and general intelligence, on four pages, of sixteen and one-fourth by twenty-one and one-half inches, for \$1.50 per annum, the issue being weekly. William H. Bushnell, now of Washington, D. C., was general contributor. After about a year's management Messrs. Jones & Beach sold the paper to J. Campbell and T. A. Stewart, who continued business at the "old stand," and after a short editorial and proprietary career by this company, Mr. Campbell retired. Thomas A. Stewart, subsequently of the Tribune, continued it under his individual management until the latter part of 1846, when he associated with him James Kelley. In May, 1850, the editors were John E. Wheeler, John L. Scripps, afterward of the Democratic Press, and T. A. Stewart; Stewart & Co. were the publishers. In July, 1850, John E. Wheeler retired, leaving Messrs. Scripps & Stewart as editors, and Stewart, Waite & Co., publishers. In 1847, the Gem had been purchased by the management of the Tribune, and was issued until 1852 from that office, when it became wholly merged in the Tribune. Among the contributors to this paper were: Joseph K. C. Forrest, Mrs. Mary Clarkson Hoard, E. A. Guilbert, Lila F. Trask, Joseph Vial Smith, the Misses Collins daughters of J. H. Collins, B. F. Taylor, and W. H. Bushnell.

THE GARLAND OF THE WEST was projected by Robert N. Garrett and Nelson W. Fuller. But one copy was issued, July 30, 1845.

THE SPIRIT OF TEMPERANCE REFORM was started

in 1845 by J. E. Ware, but soon died.

THE WESTERN MAGAZINE, the first literary maga-

zine published in Chicago, was issued in October, 1845, by Rounseville & Co. In September, 1846, John Jay Moon purchased the concern, and published two numbers, when the periodical ended its brief life.

The Chicago Daily News, a Liberty paper, had a short existence, from the latter part of 1845 to January 6, 1846, under the management of Eastman & Davidson. This was the first daily issued without a weekly edition. S. W. Chapel was assistant editor.

The Chicago Volksfreund, the pioneer German paper in this city, was begun in December, 1845, by Robert B. Hoeffgen, as a weekly. It was continued until the spring of 1848. J. J. Waldburger was an editorial writer thereon.

The Illinois Staats Zeitung was established in April, 1848, by Robert Bernhard Hoeffgen, as a weekly newspaper, the amount of capital invested in the enterprise being about two hundred dollars; but in those primitive days the energy, mental and muscular, of the editor and publisher, atoned for lack of funds, and the one-man power that comprised the editorial staff was frequently the same individual momentum that wielded the lever upon the "man-killer" press. Mr. Hoeffgen's staff consisted of a boy, who received the emolument of seventy-five cents a day; and the editor, after writing his articles, locking up his forms and going to press, took the edition under his arm and distributed it to his subscribers. Shortly after its establishment, Dr. Hellmuth took the editorial chair, and under the management of this gentleman the Staats Zeitung commenced to manifest its political potentiality, and to champion and elaborate those principles that were afterward the tenets of the Republican party. In December, 1848, Arno Voss became the editor, and he, in 1849, was succeeded by Herman Kriege, whose name has become widely known by his work, "The Fathers of the Republic." and who, years afterward, became insane, and died December 31, 1850, in New York City. Under the direction of Mr. Kriege the issue was made semi-weekly, and then tri-weekly; and the circulation was accredited, in round numbers, at one thousand. At that time George Schneider was at St. Louis, engaged in the publication of a daily newspaper entitled the Neue Zeit, a paper with anti-slavery tendencies. His office being burned down about the time that Mr. Hoeffgen solicited Mr. Schneider to take the editorial management of the Staats Zeitung, the latter gentle-

Ger Wheniam

man accepted the proffer, and on August 25, 1851, took possession of the sanctum and increased the issue of the paper to a daily imprint. Toward the end of 1852 the paper was enlarged and George Hillgaertner became one of the editors. This gentleman was one of the refugees of 1840, and came with Dr. Gottfried Kinkle to Chicago, where a large meeting was convoked to welcome them; Mr. Hillgaertner married a sister of Arno Voss and settled permanently in Chicago. During that year Mr. Schneider purchased a half-interest in the paper and became co-publisher and proprietor with Mr. Hoeffgen. In 1854, the publication of the Sunday Zeitung was commenced, the first Sunday edition of a daily newspaper issued in Chicago; and in this year Edward Schlaeger was also made a member of the editoral staff. This gentleman had commenced the publication of the Deutsche Amerikaner, a daily, in 1854, antagonistic to

the Nebraska bill, but the fulminations of the Staats Zeitung against that bill were so tense, forcible and pertinent that there was no public need for another paper enunciating the same principles as the Zeitung. Amerikaner was discontinued. On the 29th of January, 1854. George Schneider convoked the first meeting to oppose the Nebraska bill and the extension of slavery. The meeting was held at Warner's Hall, on Randolph street, near Clark, and was probably the first meeting publicly held for this purpose in the United States. At that meeting resolutions were passed embodying the sense of the participants in that demonstration. A copy of these resolutions was sent to Hon. John Wentworth, then member of Congress, and he, recognizing the voice of the people and their wishes in the matter, voted adversely to the Nebraska bill. His was the first Democratic vote cast in the House against that celebrated measure. With how much reason the Staats Zeitung claims the inaugural movement that resulted in the formation of the Republican party, its historical adherance to the Buffalo platform and its hostility to the Nebraska bill and slavery will demonstrate without comment. During that year also an attack was made upon the Staats Zeitung by a mob the establishment being then at No. 12 Wells Street) and numbers of citizens proffered assistance to resist the attack; but Mr. Schneider said that while he controlled the paper he would defend it, and the determined front presented by that gentleman and his assistants, who were all armed, cowed the mob and they retired without perpetrating any violence. To revert to an item that concerned the newspaper per se in this year, it is a matter of fact that Dr. Aaron Gibbs, who was a fierce anti-slavery man, collected such a multiplicity of advertisements that an extra had to to be issued in order to provide space for their insertion. Subsequently H. Beinder became incorporated with the editorial staff; as did Daniel Hertle, a refugee of 1849, who was one of the most accomplished writers ever upon the paper. Edward Remack then was appointed editor of the Sonntag Zeitung, then designated Die Westen, and his caustic and witty articles will long be remembered by the readers of the paper. He was also noted as a musical and dramatic critic, in which role he had hardly a superior. He left Chicago and settled in New York City, where he died. In 1855, another ineffective demonstration in mob force was made against the paper, growing out of political feeling; but as in the former instance, no damage resulted to the Staats Zeitung; the armed neutrality of the paper forming a bulwark, whereon the turbid waves of discontent dashed into a mere spray of threats. The Staats Zeitung lent its voice in calling the first Editorial Convention, held at Decatur in February, 1856, which was attended by that noble son of the great State of Illinois, Abraham Lincoln. At that convention the native American party were strongly represented by adherents of the party as delegates; yet that organization framed resolutions inimical to slavery, and favorable to foreign-born citizens, despite the native American disciples. How much, or how little, of this result is ascribable to the influence of the newspaper is, of course, an open question, but the bases of those resolutions were tenaciously and unwaveringly championed by the paper; therefore, it is only just to accredit the Staats Zeitung with having wielded some power that assisted in this consummation; the more especially as Mr. Schneider, the editor of the paper, was present and argued untiringly for the resolutions he had introduced. Govenor Palmer, Abraham Lincoln, Norman B. Judd. B. C. Cooke, and others, favored those resolutions and

they were passed amid a tumult of excitement, under the special advocacy of Abraham Lincoln, who stated to his old Whig friends (the majority of whom at that time were in the Native American party, that "the resolutions of Mr. Schneider contained nothing which had not been said in the Declaration of Independence.' The State Convention at Decatur called the Bloomington Convention of 1856, and there resolutions of similar liberal character were passed. There Mr. Schneider was elected Delegate-at-Large, to the Philadelphia Convention, where John C. Fremont was nominated as a candidate for the presidency. It is known to history that the party called the North American (a euphemism for Native American) party, had their National Convention in session at the same time and anticipated and desired a co-operation with the new party, whose nucleus was formed by the adherents of the resolutions adverse to slavery and in favor of the foreign-born American citizen. To prevent any such amalgamation, the Illinois delegates, Palmer, Schneider, Judd, and others, at once rallied their forces and compromised on the election of Henry Lane, of Indiana, for president of the convention, who pledged himself to support the Illinois resolutions; and the committee on platform was organized with that view, which committee incorporated those resolutions in the platform of the new party. When the report came before the convention the utmost turbulence prevailed, and after the section favoring the Illinois resolutions was read, even such a man as Thaddeus Stevens arose and denounced them as an insult to the great American party of Pennsylvania, and moved their rejection by special amendment. The Illinois delegates had friends in most of the Western delegations, and, pending any decision upon Mr. Stevens' resolution, it was determined that, should such amendments be passed, a demonstration should be made of leaving the convention en masse; but the president, Mr. Lane of Indiana, on the vote of the convention, declared the resolutions adopted amid the greatest uproar from the dismayed North (or Native) Americans.\* The German-American party claim that this epoch was the birth of the National Republican party, and was a decisive check to the Democratic party in the Northwestern States, because the door was opened to affiliation in the new party by foreign-born citizens in those States. In consequence the Old Line pro-slavery) Whigs joined the Democratic party, and the liberal portion cast their lot in with the Republicans. It is now generally conceded that without this division the question of slavery would not have had the decision of the people as soon as it had, and the new party in its conflict for ascendancy in the State and the final issue upon the battle-field, would have been without the co-operation of the liberal portion of the Democratic party. As another result, two-thirds of the German papers all over the Northern States joined the new liberalized party, and shortly thereafter the effects were demonstrated at the popular elections in the Northern States. The Staats Zeitung by its indomitable zeal and unwavering championship, converted most of the Germans to the new faith. Its editors were prominent among the most influential speakers at the various meetings where the politics of the day were discussed, during the memorable Fremont campaign.

March 31, 1856, the Common Council empowered

<sup>\*</sup> It may be contended that this recital is rather recounting the history of American politics than the life of a newspaper. But it must be remembered that Mr. Schneider during this period was the chief editor of the paper, and by his action the exponent of its principles. The utterances of Mr. Schneider as a delegate were the writings of that gentleman in the Statat Zeitungs, their sims and intetests in civil polity were identical, and to view one disassociated from the other would be injustice to both.

NAMILED

NOTIFICATION OF THE STATE OF THE ST

the Staats Zeitung to do the public printing in the German language. (See Democratic Press of that date.)

Explanatory of the lack of minutiæ in the history of this paper, it is necessary to state that no earlier number than one of 1861 is known to be extant; hence a description of the size, appearance, etc., of the early edition of the paper is impossible.

THE CHICAGO COMMERCIAL ADVERTISER WAS COMnenced by Alfred Dutch as a weekly, February 3, 1847. In an autobiographical sketch (furnished by the courtesy of T. Herbert Whipple, Mr. Dutch says: "He

alfred Dutch

(Alfred Dutch) started out with the position that our political, financial, fiducial and business matters were all wrong and corrupt; that an entire change in our public men and public measures only, would save us from irretrievable ruin, and that men having character and an interest at stake must enter upon this business, like business men, in a business manner. \* \* \* To his able and indefatigable labors for the system of corporations may be ascribed our admirable and magnificent lines of railroads which constitute the pride, the boast and the riches of Illinois, and the means by which a wise and sensible people could undertake the most grand, stupendous and magnificent enterprises, and carry them through to the credit, honor and glory of the State, and to the happiness and comfort of our people. There is one great service which Mr. Dutch rendered the State during his editorial and public labors which has never been duly appreciated and acknowledged. This is, his instrumentality in obtaining from Congress the magnificent grant of lands for the Illinois Central Railroad, and in saving those lands afterward from the grasp of the vandals." \* \* \* The Maine Law had been passed in quite a number of the States. A temperance epidemic raged over the face of the land. It was fashionable among churchmen, politicians, temperate men and inebriates. The Maine Law had been carried everywhere else, and thousands of dollars were offered to be bet that it would be carried by forty thousand majority in this State. "Mr. Dutch said if this question were fairly presented to the people the bill would be voted down. He entered the lists alone, with nearly or quite all the clergymen, presses and dema-gogues against him. He argued the question with dignity, candor and power. The paper was circulated and read in almost every family in the State during the campaign of six weeks. His opponents heaped upon him mountains of personal invective, which he never heeded, but discussed the whole subject with the greatest of calmness, appealing to the reason and common sense, and not to the passions of his readers, and the returns exhibited fifteen thousand majority against the ' About 1849 the issuance was made daily, triweekly and weekly. Financial difficulties, however, constantly supervening, the issue was anything but regular, and frequent hiatuses occurred during the course of its publication. One of these occurred in March, 1853, when Frank Sherman and other creditors seized the type, etc., and ejected it into the street and an adjacent stable. In the latter part of April it was re-established, but only to linger a little longer, expiring that year.

The Western Herald was first issued on April 1, 1846, by Rev. J. B. Walker and B. F. Worrall, as an antislavery, anti-masonic, temperance paper and an advocate of all the principles of the Society of Friends that decry wrong or injury to individuals or things. The

Jas, 88, mackon

issue was made upon a monetary basis created by a subscription raised by Rev. R. W. Patterson, pastor of the Second Presbyterian Church, the donations to which were principally from that Church; and upon a theological basis of enunciating the doctrines of the New-School Presbyterians and the Congregationalists, whose interests and dogmas were at that time almost identical. The "staff" of the paper was the Rev. Mr. Walker, editor, Mr. Worrall, printer, and at their office on Wells Street was also printed three sides of the Watchman of the Prairie the first recorded "patent" paper the matter upon these three pages being common to both papers. Upon the blank pages of their three-sided "patent" the Baptists subsequently expounded their denominational views, and upon the blank page resulting to them, from their division of the typographical labors, the New-School Presbyterians and Congregationalists elaborated their theology; both papers being issued

In 1847, the name of the paper was changed to Herald of the Prairies.

In 1848, James Shaw was assistant editor—In August, 1849, the paper was sold to J. Ambrose Wight and William Bross; the former gentleman now being a minister of the Presbyterian denomination and a D. D., and the latter an ex-Lieutenant-Governor of this State; and by them the name was changed to the Prairie Herald,

Min Doll

the co-operative arrangement with the Watchman of the Prairie being continued. Rev. G. S. F. Savage, of St. Charles, Ill., and the Rev. A. L. Chapin, of Beloit, Wis., were appointed corresponding editors. In November, 1851, Mr. Bross sold his interest to Mr. Wight, who continued the paper until March, 1853, when he disposed of the subscription list to Rev. John C. Holbrook for \$1,000, the sum received being \$200 more than the paper had been offered for sale for a few weeks previously. That gentleman changed its name to the Congregational Herald, and issued the first number exclusively in the Congregationalist interest on April 7, 1853. Rev. J. M. Davis was made associate editor, which position he held until August 2, 1853, when he vacated the sanctum to accept the pastorate of the Congregational Church in Rutland, Mass. The corresponding editors were J. J. Miter, John Lewis, O. Emerson, Jr., W. Salter, H. D. Kitchell, L. Smith Hobart, S. Peet, G. S. F. Savage, F. Bascom, J. B. Walker, and M. A. Jewett. In 1854 the editors were Rev. J. C. Holbrook subsequently superintendent of Home Missions

for the State of New York, and Rev. N. H. Eggleston. Mr. Holbrook was, on July 3, 1856, installed as pastor of the Congregational Church, Dubuque, Iowa, but his name remained as editor of the Herald until 1856. Subsequently connected with the paper as editors were Rev. G. W. Perkins who died while editor of this paper and pastor of the First Congregational Church, November 13, 1856, W. A. Nichols, W. W. Patton, J. E. Roy, S. C. Bartlett, Samuel Wolcott and Darius E. Jones, until in 1857, when Rev. H. L. Hammond assumed exclusive charge. After the dissolution of the combination plan of denominational publication, pursued anterior to the issue of the Congregational Herald, the Herald firmly championed the cause of the Congregationalists, and persistently maintained its antagonism to slavery or any complicity therewith in any shape or manner, and strenuously advocated the establishment of the Theological Seminary, as a necessity to the Congregational churches in the Northwest. In April, 1854, after several preliminary efforts, a meeting was held in the rooms of the Herald, with Philo Carpenter as chairman, and thereat, consequent upon the logical reasoning and strenuous advocacy of Rev. G. W. Perkins, the Seminary was decided upon. At this, and other meetings it assumed determinate shape. Under the auspices of the editors of this paper, the triennial convention of 1854 was called, and they were prime movers in the organization of the board of directors for the Theological Seminary in March, 1855, with Philo Carpenter and G. W. Perkins among the members. Of the death of Mr. Perkins, Rev. E. P. Goodwin, D. D., in his sermon before the First Congregational Church, on May 21, 1876, thus speaks: "I cannot take the time here to set forth in fitting terms the character and the work of this man of God. And there is the less need of this since the Church with touching and grateful appreciation has spread upon its records a most loving testimonial of his rare ability and worth. Indeed I have yet to see that eulogium upon any man's character, or life, or work, that for affectionateness of spirit, range of qualities admired, and glowing emphasis of encomium, is to be named with this tribute to the first pastor of this Church. If Mr. Perkins was the half of what is there set forth, either as a man or a minister, he must have been a marvel, a kind of Boanerges and Barnabas combined-such as the Church and the world seldom see. If you can only say of my Brother Patton and myself, when our work is done, that we were not unworthy to be his successors, it will be eulogy enough." It should be added, that a marble tablet suitably inscribed was provided by vote of the Church, and placed in the vestibule of the house of worship.

In 1856, a Herald fund was established, to be made up of contributions to the amount of \$10,000, for the continuation of the paper, and the profits were promised to be given to the Chicago Theological Seminary. Between \$7,000 and \$8,000 were subscribed, which re-invigorated the paper, then suffering from financial marasmus, and enabled it to exist longer than the period

treated of in this volume.

As a matter of adventitious, as well as relevant, history, the following, from the pen of the Rev. J. Ambrose Wight, will be found of interest: "I arrived in Chicago in September, 1836, by stage from Bennington, Vt., to Albany, N. Y., by railroad to Utica, the cars being in compartments, with two opposite seats in a compartment; by canal thence to Buffalo; by steamboat Columbus to Detroit, and by stage, so-called, by way of euphemism, to Chicago; each mode from Utica being the worst. The journey consumed fourteen days,

including a Sunday at Rochester and another at Niles. I stopped at the 'Tremont, a two-story wood building, corner of Lake and Clark streets; the steps to its stairs were high and the chamber floor uncarpeted. While looking for employ, it was suggested by a Democrat, that I take the Chicago Democrat off the hands of Mr. Calhoun, and run it. I replied that I was a Whig; the answer was that 'editing was a profession;' a remark

which I have not fathomed to this day.

"I spent three weeks in November with a surveying party, on the Illinois & Michigan Canal, under leader-ship of E. D. Talcott, and was offered a place as assistant engineer; but had already engaged in a mercantile enterprise with John Wright, the partnership including his son, Timothy, with whom I started, the 7th of December, on foot, carrying an axe on shoulder, for Rock River. We settled at Rockton, and our trade at that point lasted until the death of the elder partner, in 1839. I then went to Rockford, where, in 1842-43, I made my first editorial venture, with the Winnebago Forum, the first ancestor of the Rockford Register. It was not a paying institution, and 1 listened to a proposition of John S. Wright, son of my mercantile partner, to enter upon the editorship of the Prairie Farmer. This I did in May, 1843, and so continued with one brief interval, until January, 1856. Soon after my connection with the paper, Mr. Wright left for New York and Washington for three weeks. The three weeks became eleven months; the effect of which was to throw the whole management of the paper upon me, both as publisher and editor. So it continued until the year 1851, Mr. Wright's name remained as editor and publisher, but his editorial work was confined to the educational department, for which he occasionally wrote. He did not claim any considerable acquaintance with agriculture, having, I think, never worked a day upon a farm in his life. But he was a man quick to see a need or an opportunity, and had commenced the Farmer in 1841, and had been its sole editor until my connection with it. \* \* \* \* In the summer of 1849, Hon, William Bross, who had been joined with S. C. Griggs in the book business, but had become separated from the firm, persuaded me to purchase with him the Herald of the Prairie, of Rev. J. B. Walker, and enter upon its publication; he to manage the business and 1 to do the chief editing. We entered upon the work in August, 1849, and continued together until November, 1851, when Mr. Bross sold his interest to me. I carried it on until March, 1853, when I sold the list of subscribers to Rev. J. C. Holbrook, and discontinued the paper. \* \* \* After the sale of the list to Mr. Holbrook, a new paper in the interest of the Congregationalists was started and continued for some nine years, called the Congregational Herald, which cost something each year above its receipts. But under none of its publishers, or names, was it a success. About the time, or before our purchase of it, the two denominations began to pull apart. Various causes were concerned in this. The great anti-slavery contest was on hand, and Chicago was a sort of Western headquarters of that agitation. That agitation divided society, both secular and religious, and take what ground you would, you displeased somebody. Nor was the displeasure slight. It was characterized by a bitterness hardly conceivable now. After my connection with the Herald with Mr. Bross in 1849, I did the chief editing of both papers, the Herald and the Farmer, for a time, say for that and the next year, till 1851."

In 1846 Robert Wilson published the DAILY CAVA-LIER, a penny paper. After it had been in existence a short time Rev. William Rounseville made a contract to

Comment of the section of the sectio

run it six weeks, commencing September 7, 1846, with the privilege of purchasing it at the expiration of that period. During this probationary period Messrs. Ellis and Fergus printed the paper. It had also a tri-weekly and weekly issue, twenty-five by eighteen and one-half inches in size, of four pages. Mr. Rounseville states: "At the end of six weeks I was ready to take it, but owing to a misunderstanding in the terms of sale, Wilson refused to give it up, broke into the office and took possession, and issued it for a short time, when it closed up." As appears by a notice in the Weekly Democrat of April 27, 1847, its death occurred shortly anterior to that date, and the Cavalier rested with Charles I.

Rev. William Rounseville, after his unsuccessful attempt with the Daily Cavalier, in 1846, issued the MORNING MAIL, but that proved unprofitable and was shortly thereafter given up. From a contemporaneous notice it appears to have subsided into a dead letter

about April 27, 1847.

THE CHICAGO ARIEL was published weekly for a short time, in 1846, by C. H. Boner; with Edward Augustus as editor.

THE DOLLAR WEEKLY, by William Duane Wilson,

was issued three or four months, in 1846.

THE VALLEY WATCHMAN, J. McChesney, publisher, lived but a brief period in 1846 or early in 1847.

THE NORTHWESTERN EDUCATOR, a monthly, by James L. Enos and D. S. Curtiss, was begun in September, 1847, and lasted two years.

THE LIBERTY TREE, an abolition monthly, was issued by Eastman & Davison, in 1846, with Zebina Eastman

as editor. It was published two years.

THE CHICAGO TRIBUNE commenced its issue on Thursday, July 10, 1847, in the third story of a building on the corner of Lake and LaSalle streets, one room being adequate for all the requirements of its limited eirculation. The gentlemen who officiated at the baptismal font were Joseph K. C. Forrest, James J. Kelly, and John E. Wheeler. The name Tribune was suggested by Mr. Forrest, and, after some little opposition by his co-adjutors, was adopted. The ideas that actuated that gentleman in the bestowal of the cognomen are thus enunciated by him: "The origin and establishment of the Chicago Tribune were the initiation of an entirely new departure in not only journalism, but politics, in Chicago and the Northwest. The creation of the Republican party is as much due to the establishment of the Chicago Tribune, as to any other one eause. In 1846, the two great parties that divided the country were in a peculiar and anomalous condition. The Whig party had been thoroughly defeated in the election of 1844, mainly through the disposition of its candidate, Henry Clay, to look in opposite directions or to compromise on the great issue between freedom and slavery, then gradually looming into importance, and which was finally precipitated upon the country by the results of the Mexican War. The question of the annexation of Texas, which, it was contended, would erect a 'Gibraltar for Slavery in the South,' was also agitating the public mind; and it certainly appeared that, from the chaos of defeated politicians and unsettled views, a party could be created embodying those principles and tenets that were the platform of the Republican party; and as a nucleus around which such a party could be formed, the name Tribune was given; and although Mr. Forrest retired from the paper on September 27, 1847, the impetus imparted by the name has aggregated, until it is the mighty enunciator of those doctrines prophetically conceived by its sponsor in 1847. It has been carried along on what may be

ealled 'that stream of Providence' which so often compels men and parties to be governed by events, which once having received an impetus in a given direction, are for ever after forced to the adoption of such ends as were originally proposed and provided for them." The first edition of the Tribune was but four hundred copies, worked off by one of the editors, as pressman, upon a Washington hand-press; but every stroke of the lever was annealing the substructure upon which was erected the power and influence that has not alone decided the fate of this city, but of the Nation. From the Tribune, that had such an humble origin, have been uttered dicta that have controlled the destinies of parties and individuals of prominence in the country, and infused the people with that patriotism which bore such glorious results in the internecine contest. In July, 1847, Mr. Kelly, owing to failing health, retired, selling his interest to Thomas A. Stewart, and was several years subsequently a successful leather merchant. Mr. Forrest dissolved his connection with the paper in September; this gentleman not alone being an editor at the time, but an unordained clergyman of the Swedenborgian denomination. Mr. Stewart, the new editor, speedily realized some of the unpleasantness attendant upon an editorial career, by receiving a challenge from Captain Bigelow, commandant of the United States vessel then stationed at this port. Mr. Stewart had editorially stated that Captain Bigelow ought to tow merchant vessels into the harbor, and the Captain, deeming such an assertion insulting to the naval dignity, sent a challenge to "Tom" Stewart, which he published in the paper as an item of pleasing intelligence. "The pen was mightier than the sword," for the latter was never imbued in Mr. Stewart's gore, and the bellicose Captain subsequently towed belated merchant vessels into Chicago harbor.

In 1847, The Gem of the Prairie was purchased by the inaugurators of the Tribune, and these editorial lapidaries used the type, etc., on the new paper, continuing the Gem as the weekly edition of the Tribune. There is a weekly Tribune dated February 1, 1849, in the possession of the Chicago Historical Society; hence the issue of the Gem as the weekly edition of the Tribune ceased prior to that date. It was, however, issued as a literary journal until 1852, when it beeame wholly absorbed by the Tribune. August 23, 1848, John L. Scripps purchased a one-third interest, the firm becoming Wheeler, Stewart & Scripps. On May 22, 1849, the office was entirely destroyed by fire, but the paper was issued two days subsequently. December 6th of that year an arangement was made whereby regular telegraphic dispatches were received by the Tribune, a pioneer movement in Chicago journalism. February 20, 1849, the first number of the weekly edition was issued. In May, 1850, the Tribune was published at the office of the Prairie Herald. The first number known to be extant is that of December 28, 1850, published by John E. Wheeler, John L. Seripps, and Thomas A. Stewart, at 171/2 Lake Street. The paper was a folio, thirteen and three-quarters by nineteen and a half inches per page. Mr. Wheeler sold his interest June 30, 1851, to Thomas J. Waite, who assumed the duties of business manager. On June 12, 1852, a syndicate of leading Whig politicians purchased the share of Mr. Scripps, and William Duane Wilson became editor. Morning and evening editions were published, the latter being soon discontinued. August 26, 1852, Mr. Waite died, and his interest was purchased by Henry Fowler. March 23, 1853, General Wilson's interest was purchased by Henry

Fowler, Timothy Wright and General J. D. Webster. On June 18, 1853, Joseph Medill came from Cleveland and purchased a share in the paper, whereupon the issuance was made under the auspices of Wright, Medill & Company, and Stephen N. Staples is specified in the directory for 1853-54 as assistant editor. On July 21, 1855, Thomas A. Stewart retired from the

closeph Medree

partnership, and September 23, Dr. C. H. Ray and J. C. Vaughan were the occupants of the chair editorial. At the same time Alfred Cowles became a member of the firm, which was thus composed of Joseph Medill, Dr. C. H. Ray, Timothy Wright, J. D. Webster, John C. Vaughan and Alfred Cowles. March 26, 1857, Mr. Vaughan withdrew and the partnership name became

Ray, Medill & Company.

The first number of the WATCHMAN OF THE PRAIRIES was issued on the 10th of August, 1847, by Rev. Luther Stone in the interest of the Baptist denomination, and was the first weekly Baptist newspaper published in Chicago. Messrs. Walker and Worrel were its first printers, at No. 171 Lake Street, second story. The size of the paper was twenty-three and a half by eighteen inches, containing seven columns. Until about 1849 the paper was printed by this firm, when Wright & Bross became its publishers. Mr. Stone, having perceived the schisms and dissension that the great question of slavery was producing among the Baptists, raised the standard of the "Watchman of the Prairies" around which the anti-slavery members of the denomination could rally, and at the same time endeavor to prove the illegality and anti-Christianity of slavery. As customary with all pioneer editors, the work attendant upon the establishment and maintenance of the paper was most arduous and unremittent. Mr. Stone labored indefatigably and with undaunted perseverance, despite the many obstacles he encountered. The success which attended his efforts is a matter of historic record. The first issue announces the transfer of the accounts of the Western Star to its hooks. Three weeks elapsed between the issue of the initiatory number and the second number, when the paper was continued without any hiatus until February 22, 1853. Then the editor determined upon taking a respite from his protracted and severe work. Immediately subsequent to this date Mr. Stone took a trip to the East, contemplating the purchase of new material, etc., but receiving a proposition from Dr. J. C. Burroughs, Levi D. Boone and A. D. Titsworth to purchase the paper, he transferred the subscription lists to those gentlemen. On August 31, 1853, a committee of the Fox River Association, consisting of Rev. J. C. Burroughs, chairman, and O. Wilson, Rollin Anderson, A. D. Titsworth and Dr. Levi D. Boone, members, issued the first number of the Christian Times, of which paper Rev. J. C. Burroughs was the chief, and H. J. Weston and A. J. Joslyn assistant editors. On November 24 of this year the paper was sold to the Revs. Leroy Church and J. A. Smith, D. D., the latter gentleman becoming editor-in-chief, which position he still retains. The office of the paper was located at No. 7 Clark Street. On November 8, 1854, Rev. J. A. Smith sold his interest to the Rev. J. F. Childs, and the proprietary firm became Church & Childs. On November 15 the office was removed to No. 16 LaSalle

Street. On August 29, 1855, Rev. Mr. Childs sold his interest to Mr. Church, who was sole proprietor until, after various changes a little later on, Edward Goodman became half proprietor this gentleman having been connected with the paper since its first issue as the Christian Timesi, and the firm name of the publishers became Church & Goodman. Of the influence ex-

erted by this paper, of its large circulation and its eminent adaptability to the requirements of the needs of the denomination whose interests it so ably conserves, no eulogium is required; the fact that as the Baptist denomination has augmented the circulation of the paper has increased is one proof, and that none are found

who carp at the tenets expounded, or the homilectics set forth, is another and more conclusive evidence of the paper fully answering the needs of the class of which it is a typographical representative.

THE PORCUPINE, by Charles Bowen and Thomas Bradbury, was a short-lived paper which dates in the

winter of 1847-48.

THE AMERICAN ODD FELLOW, the first organ of secret societies published in Chicago, existed in 1848, with J. L. Enos and Rev. William Rounseville as its

THE NORTHWESTERN JOURNAL OF HOMEOP-ATHIA was a monthly journal of a partly scientific and partly popular character, and was the first published in Chicago advocating the science of Homeopathy. The first number was issued in October, 1848, by George E. Shipman, editor and proprietor, and was printed by Whitmarsh & Fulton, at 131 Lake Street. The last number was issued in September, 1852, and was not discontinued for lack of funds, as a number of the proprietor's friends proffered him the means to continue its publication; but he thought that if those for whose benefit it was published did not think the journal of sufficient value to contribute subscriptions adequate to its maintenance, they could do without it. Its issue was consequently suspended.

THE LADY'S WESTERN MAGAZINE, Charles L. Wilson, publisher; B. F. Taylor and Rev. J. S. Hurlbut, editors; was issued for a few months from December,

1848.

THE CHICAGO DOLLAR NEWSPAPER, a literary weekly, edited by J. R. Bull, was begun March 17, 1849, but

was discontinued the same year.

THE CHICAGO TEMPERANCE BATTLE-Axe, a weekly, by C. J. Sellon and D. D. Driscoll, was published in

1849, for a short time.

THE DEMOCRATIC ARGUS, daily and weekly, was started in August, 1850, by B. W. Seaton and W. W. Peck. Nothing of importance is remembered concerning

this paper.

The Eclectic Journal of Education and Lit-ERARY REVIEW: C. F. Bartlett, editor; was first issued as a monthly in June, 1850. In April, 1851, Dr. N. S. Davis became its editor, but the magazine lived only a short time.

THE COMMERCIAL REGISTER, a weekly, by J. F. Ballantyne, was one of the issues during a part of 1850.

In January, 1852, a monthly called THE CHICAGO LITERARY BUDGET was issued by W. W. Danenhower, editor and proprietor, in the interest of his book and news depot. January, 1853, it was changed into a subscription weekly, devoted to literature and general miscellany, whereof B. F. Taylor was editor. April 1, 1854, T. Herbert Whipple was designated as associate editor, but really performed the editorial duties of the paper, and also wrote quite a successful novelette, enti-

tled Ethzelda, or Sunbeams and Shadows, that was afterward published by Rufus Blanchard, being probably the first of that species of literary production written, printed and published in Chicago. It is likewise authoritatively stated that the first music printed from movable music type was set in the Literary Budget composing

Mayo Danenhouser

room by Joseph Cockroft, the words to the music being by Francis Clarke. S. P. Rounds for a long time printed the title page for this paper, which, in 1855, was merged in the Weekly Native Citizen, published also by Mr. Danenhower.

THE CHRISTIAN ERA, Rev. Epaphras Goodman, editor, was given a place in the list of unsuccessful efforts

for 1852.

THE WESTERN TABLET was published by Daniel

Dan! OHara

O'Hara, February 7, 1852, as a Catholic literary period-

ical, and lasted for three years.

THE CHICAGO DAILY EXPRESS AND COMMERCIAL REGISTER, an independent daily penny paper, was begun June 11, 1852, by J. Q. A. Wood and W. J. Patterson.

THE WEEKLY EXPRESS, J. F. Ballantyne & Co., lasted

one year, from some time in 1852.

THE DAILY TIMES AND CITIZEN, a Free-Soil paper, by Zebina Eastman, ran from some date in 1852 to July,

FRIHED'S BANNERET, the first Norwegian paper in Chicago, was established in 1852, by Mouritzon & Kjoss, and printed from materials formerly used on the Nordlyset, published in 1847, at Norway, Racine Co., Wis. Despite the utmost economy and energy on the part of the publishers, the new paper lived but eleven months, and the office was sold to the Staats Zeitung. Several other Norwegian papers were attempted here prior to 1857, but their names, even, cannot be recalled

at present.

THE DAILY DEMOCRATIC PRESS was first issued on September 16, 1852, by John L. Scripps and William Bross. The paper was started exclusively upon its own merits, and without the usual prerequisite to newspaper publication—a subscription list. As Governor Bross remarks: "It was established in the interest of the city, the State and the great Northwest, and without any view of making politics the standard of the paper, and the advancement of individual politicians the aim of its existence." As its title indicates, the Press acknowledged allegiance to the then dominant political party, but was fair and unprejudiced in its conduct toward all. One of the especial features of the paper was its commercial department, although in all its work ability was evinced. A few days after the first issue of the paper, the office was moved to No. 45 Clark Street, over R. K. Swift's Bank, and from this place the first number of the weekly edition was issued. Here occurred that episode that is a matter of oral tradition among the older journalists. The religious views of Governor

Bross are well known, and the work requisite for the issuing of a daily paper that was of necessity performed upon Sunday, was a constant source of animadversion by that gentleman. Mr. Scripps was working hard one Sunday upon editorials, etc., and Mr. Bross, entering the sanctum, remonstrated with him for breaking the Sabbath. Mr. Scripps said, "Now, good Deacon, I have worked from five this morning, and shall probably continue until nine this evening, consequently I have made no break in the Sabbath-it is a whole day." On March 16, 1853, the paper was enlarged, and September 16, 1854, Barton W. Spears, then recently of the Ohio Statesman, and for many years one of the editors of the Monroe Michigan Commercial, who was a practical printer, became associated with the firm, the title becoming Scripps, Bross & Spears. May 8, 1857, the heading was changed in form and arrangement; the words Chicago and Press being upon either side of an oval around a vignette of a printing press, and upon the upper part of the oval was the word Daily, and upon the lower part, Democratic. June 13, 1857, the vignette was again altered, having a press in the center, a locomotive and cars upon the right, and a steamboat upon the left of the press; above the press upon a ribbon was Daily in large letters, and below the press, on another ribbon, the word Democratic in small type. This, presumptively, marked the decadence of democratic principles in the newspaper, and the acquirement of those Republican tenets it steadfastly expounded.

SLOAN'S GARDEN CITY was first issued in 1853, by Oscar B. Sloan, as a weekly newspaper, in the interest of his patent medicines principally, and as an oracle upon literary matter secondarily. The paper lasted two or three years and was ably edited, having in its columns many meritorious stories and miscellaneous contributions. William H. Bushnell wrote a serial for this paper, entitled *The Prairie Fire*, that was extremely read and admired. Robert Fergus states that the size of this paper was twenty-two by thirty-two inches, eight pages, and was printed by him during its early existence; but that afterward Charles Scott & Co., per-

formed the requisite typographical work.

HORNER'S CHICAGO AND WESTERN GUIDE, a monthly published in 1853 by W. B. Horner, purported to contain all information for traveling by railroad, steamboat and stage, from Chicago to every town in the Northwest and to any important city in the United

THE CHICAGO EVANGELIST\* was published in the earlier part of April, 1853, by an association of clergymen of the Presbyterian denomination, the resident editors being Revs. H. Curtis and R. W. Patterson, and the associate editors, G. W. Gale, S. G. Speers, W. H. Spencer, A. Eddy and S. D. Pitkin. The tenets of this weekly organ were those of the New School of the Presbyterians. April 19, 1854, Rev. Joseph Gaston Wilson took editorial charge of the paper, it being stated in a notice of this change, that Messrs. Curtis and Patterson had only occupied the editorial chair until other arrangements could be perfected. The Northwestern Christian Advocate thus commends upon its discontinuance: "This able contemporary the organ of the Presbyterian Church in the Northwest, we see by its last issue | June 27, 1855), is to be merged into the New York Evangelist, which hereafter will have a Northwestern editor in this city. The Chicago Evangelist had reached the twelfth number of its third volume, was an able and spirited journal, and is discontinued for want of means to make

<sup>\*</sup> It is probable that the first announcements of this project spoke of it as The Christian Witness, but no issue was made with this title.

it in size, editorial strength, etc., what a Church paper should be, and its management deem absorption by a magnificent sheet more honorable than struggling along, making no well-defined mark." Rev. Charles P. Bush was Western editor for the New York Evangelist, appointed in the spring of 1856. The directory for 1853–54 designates John T. Wentworth as publisher of the Chicago Evangelist.

THE YOUTH'S WESTERN BANNER, a juvenile monthly, devoted to temperance, morality and religion, published by Isaac C. Smith and Oliver C. Fordham, was issued in August, 1853, with Smith & Co. as editors.

It was continued for only a short time.

THE CHRISTIAN BANKER, a folio of twelve by nine and a half inches to the page, was issued January 5, 1853, by Seth Paine and John M. Holmes. But eight numbers of this novelty in literature were printed, and these appeared irregularly. Seth Paine issued this paper from the back room of his bank on Clark Street, and the paper was intended as an elaboration of the Bank of Utopia he was going to conduct, and as an advertisement of the actual bank he managed. ciated with Mr. Paine in the Bank were John M. Holmes and Ira B. Eddy. These gentlemen also had some interest in the paper. The bank, Mr. Paine asserted, was named the Bank of Chicago, but as its influence became felt and its power became augmented, it would be called the Bank of the People, and as it still fartheradvanced in cosmopolitan finance and depositary accretion it would be called the Bank of God. Mr. Eddy states that July 9, 1853, it broke as the Bank of Chicago, and the paper shortly afterward subsided. Mr. Paine was some time thereafter sent to a lunatic asylum; how far he was qualified for a residence in that institution during his editorship of this paper is unknown. He subsequently went to Lake Zurich, established the "Stables of Humanity" there and issued the Lake Zurich Banker from that place. There are many who contend that Mr. Paine was not qualified naturally for his inhabitancy of the asylum for the short time that he was there; that he was merely hyper-reformatory and perhaps illogical in the nature of his schemes for the amelioration of the human race. Others again, notably those who lost money by his bank, refused to accredit him with the possession of any virtues and stagmatize him by all descriptions of uncomplimentary, and probably unjust epithets. Mr. Paine was associated with Theron Norson, in 1839, in the dry-goods business in this city. Ira B. Eddy was also one of Chicago's early settlers, he having been engaged in the hardware business during the primitive epoch of the Garden City.

THE CHRISTIAN SHOEMAKER was issued by F. V. Pitney in 1853 as a travesty upon. The Christian Banker, and was published for a short time only.

THE NORTHWESTERN CHRISTIAN ADVOCATE was first issued on January 5, 1853, from the office No. 63 Randolph Street, as a weekly newspaper, with James V. Watson, editor, and William M. Doughty, agent. It was published by Swormstedt & Poe, for the Northwestern Conferences of the Methodist Episcopal Church, and printed by Charles Philbrick. Prior to the regular publication of the paper, a prospectus had been issued in September, 1852, containing substantially the same matter as that which appeared in the first number. The editor, Rev. J. V. Watson, who resided in Adrain, Mich., before he assumed charge of the paper, was one of the ablest and wittiest of editors, and was a martyr to asthma; constantly apprehending that this disease would cause his demise. The paper which he edited was a six-column folio, eighteen by twenty-five inches to the page;

was rigidly anti-slavery; tenaciously anti-spiritualism, and an unflinching and fearless advocate of Methodism in the Northwest; true to its name. The paper maintained its equable and successful career without change until October 17, 1856, when the Rev. J. V. Watson died of pulmonary consumption. The Press were unanimous in their tributes to his editorial ability. the nobility of his manhood and the exalted nature of his Christian manhood. November 5, 1856, a new editor was announced, the Rev. Thomas M. Eddy, of the Southeastern Indiana Conference, he having been called from the Indianapolis District where he was traveling, as Presiding Elder, when elected to this important position by the Conference. November 4, 1857, when Mr. Eddy had just celebrated one year's occupancy of the editorial tripod, the office of the newspaper was moved to 66 Washington Street.

In addition to the exposition of creeds and the elaboration of dogmas, the religious press, as well as the secular, find it necessary to obtain subscribers in sufficient numbers, who demand the mental food furnished by the paper, to pay for the expenses of its publication; although the system pursued by the Methodist Episcopal Church of promulgating the interests of the several advocates of their ecclesiastical polity, removes from those papers a number of the obstacles that impede the financial progress of a secular paper. It is, however, a matter of record that the Northwestern Christian Advocate has been unusually successful in its career as a newspaper and as a champion of the Church whose tenets it propounds, elaborates and defends, and Bishop Ames, in alluding to the vast numbers of Methodists in the Northwestern States, ascribed their zeal and numerical strength to the influence exerted by this paper.

The reason for the establishment and maintenance of the organs of the Methodist Episcopal Church, ascribed by Dr. Arthur Edwards,\* is so pertinent and trite that it is given as advanced by that gentleman:

"Methodism prints. There is no doubt of that fact. Why she prints is explained very naturally. John Wesley was a seer. When he was not praying or preaching, he was staring into the face of a printed page. Amid his prodigious labors for the Church, he did an immense amount of reading. Few men in literature have been such judges of books as was our founder. He knew the good by instinct, and repelled the bad book as an alert conscience rebukes advancing sin. The invented printing-press with its rude appliances came-but not by chance-in the very nick of time to make Luther's work possible. When God sent that greatest ecclesiastical event since the advent of Christ-Methodism into the world, the improved printing-press and cheaper book made John Wesley's work practicable. Therefore, just as great railway magnates outfit their own 'special cars,' so Wesley fitted up his own private carriage that he might read comfortably while he flew over the Kingdom. Presently, dissatisfied with books as they were, he began to write and re-write and edit books for his people. Next in order, he began to own presses, which he employed to carry help, suggestion, warning and zeal to his rapidly multiplying societies. Some active minds then, as also in modern times, wondered why Methodism did not content itself with what other people printed. When our Book Concern was in full operation nearly fifty years ago, it was proposed to abolish our Church presses and confine our reading to that which others would contract to print for us. Even now it is occasionally said that our Church might as well operate railroads and conduct banks as to own

<sup>\*</sup> METHODISM AND LITERATURE; by F. A. Archibald, 1882.

and superintend printing offices. The suggestion would be valid if the financial results of railroading and banking and printing were the central thought and motive. We do print, on the same philosophy that occasionally moves a Church or Sunday school to charter a train for a specific excursion and for definite results. When a Methodist party makes its plans for a day, and wishes to control the hours of starting and return, and particularly desires to determine who shall be passengers and favored guests, it goes into the railway business, induced by the same motives that sanction the permanent existence of distinctive Methodist printing. We get a suggestive hint in the fact that two literary institutions in this country possess a catalogue of over seven hundred separate volumes of books written in opposition to Methodism. We happen to know that this large list does not contain all extant anti-Weslevan literature. These volumes were written under the stimulus of men who did not love our Church, and the physical fact of the printing proves that the kingdom of printing-ink must needs be taken by Methodist violence. Methodism was young, and the Methodists were too poor to buy dear books written in their defense. A hundred considerations led Wesley to supply books from his English presses for our people, and equally led our early workers to organize printing facilities for American Methodists long before they began to build and dedicate houses of worship. We cannot forget that the Frenchy flavor that tainted English society and literature after the restoration of Charles compelled Wesley to provide cleaner things for his people. The entire tide was against evangelical Christianity. society and the press have pure features in this country, the credit must be shared with the influence of the Wesleyan printing presses which came to evangelize the New World."

The following is taken from the earliest issue of the Advocate, as an evidence of the talent of the editor, and an exposition of a part of the principles upon which he actorized description to the principles.

which he contemplated conducting the paper:

"We can never suffer the doctrines of our Church to be challenged in our columns, or our discipline to be assailed. But to any contribution that evolves, teaches and enforces the former, or even proposes improvements in the latter, we shall never feel at liberty to close our columns. We fear nothing, but hope everything, from the freedom of speech. We shall speak, ourselves, freely, and shall never be found fettering the lips of others. We shall never be found a stickler for things morally indifferent, magnifying the 'mint and the anise,' canting, and pandering to a fossilizing conservatism, sneaking into the coverts of non-commitalism, or mounted upon a hobby of ultra progressionism. We shall never be found so visionary as to hope to escape censure, so accustomed to it that it will not grieve us, or so reckless as intentionally to deserve it. Of the persons who have a right to be heard in our pages, of the appropriateness of the language in which their communications are clothed, of the suitableness of their cogitations to promote truth and righteousness, we are to be the judge. Delicate responsibility! We assume it."

In the issue of February 23, 1853, there is an article upon a social gathering, held at the residence of D. M. Bradley, of the Chicago Democrat office, wherein Mr. Bradley is designated the oldest resident "knight of the quill" in the city. The editor, in recounting the incidents of the evening, states that "all felt, and many said, amen, to the prayer of the esteemed pastor present, which in spirit resembled one we once heard from a good brother in Michigan on a similar occasion: 'We thank Thee, O Lord, that one thing is not good; it is not good for man to be alone.' Brother Bradley deserves well of the Church for the interest he has taken, and aid he has rendered, personally and with his pen, in the establishment of the Northwestern Book Concern." Volume III, Number 1, of the date January 3,

1855, came out in a new dress of typography, and with a new heading, Northwestern Christian Advocate.

Recurring to the death of Rev. J. V. Watson, as one of the most marked events in the history of the Advocate prior to 1858, the incomplete editorial hereto appended, with the editorial comments of his surviving co-laborer, evinces the pertinaceous adherence to his duty of him, who, while in the very clutch of the "grim reaper," thought so earnestly of an appeal for the service of his Master; the last effort of Mr. Watson's life being an entreaty for the united assistance from Christians to further the enlightenment of their benighted fellow-creatures.

### OUR MISSIONARY TREASURY.

"Brethren, we tremble every time we mention these words. Not indeed that we are upon the verge of bankruptcy. We believe our Zion, as yet, has taken hold of no burden that it cannot lift; but we now and then hear curtailment talked of. Well, whom shall we call home? Where shall we commence this curtailment? How much will it promote the honor of the Church and the glory of God? Help, brethren, help! This will never do. We must aply the discipline in raising funds for this holy purpose, to the very letter, and the work will be done, aye, more than done. Means should be resorted to extraordinary where the ordinary cannot meet the emergency immediately. Gold and silver, brethren! It belongeth to the Lord and for the sake of millions ready to perish, let it be put into the treasury of the Lord. The cause of missions is the cause of causes. It is the Church's noble right arm. O let not its strength be enfeebled! Where is the one who has not a dollar for the treasury of the Lord in this emergency? We long to hear from the communications of our able secretary a more liberal tone of spirit on this subject. We have said we trembled when we mentioned the words which head this article. Well, we have. have trembled for the blessing of God upon the Church. We have trembled for his blessing upon our baskets and store. We must bring all the tithes of the Lord into the Lord's house. 'To him that hath shall be given; to him that hath not shall be taken away even that which he hath.'

I'The above are among the dying words of the late beloved editor of this paper. On the evening before his death he dictated to the writer of these lines about half a column of matter for this issue, of which the above is a part. Though in great and increasing bodily weakness for months, it was a relief to him to feel that he was still serving the Church, and he continued to labor until the last, dictating from three to five columns per week for his sheet. In our last were five columns from him. This week his labors were commenced by the preparation of the short article headed 'Want of Sectional Independence.' But his tongue faltered and for the first (time) his paper is 'short of editorial.' When writing for him the above, we were conscious of his near dissolution, and those earnest words, so slowly and faintly spoken, sounded to us like the faltering notes of the dying swan, rather, as they were, like soul-breathings from the spirit world; like pleadings from the upper Canaan for the work of grace below. 'Help, brethren, help!' still sounds in our ears. Before this plea was in type, the soul of the pleader was before the Throne.'—Northwestern Christian Advocate, Octo-

ber 22, 1856.]

THE OLIVE BRANCH OF THE WEST was published for a short time in 1853 by Rev. J. R. Balme, pastor of the Salem Baptist Church.

The Chicago Homeopath, a monthly popular journal of homeopathy, was started in January, 1853, by Drs. D. S. Smith, S. W. Graves and R. Ludlam, and was continued until December, 1856, being discontinued upon the completion of the third volume. The editors in January, 1854, were Drs. R. Ludlam and D. Alphonso Colton.

The Chicago Courant, an independent daily, was issued November 16, 1853, with William Duane Wilson as editor. On the 12th of April, 1854, the paper was enlarged, and a notice is extant of its existence upon May 31, 1854. About that time it passed into the hands of Messrs. Cook, Cameron & Patterson, and these gentlemen stopped the running of the Courant, and, in lieu of it, about July 4, 1854, issued Young America, a daily and weekly Democratic paper, with J. W. Patterson as editor. James W. Sheahan was at this

time in the East, and at the solicitation of the publishers of this paper came to Chicago. After some negotiations with these gentlemen, they sacrificed Young America to the manes of Americus Vespucci, and Mr. Sheahan, on August 20, 1854, issued the first number of the Chicago Times, a Democratic daily paper, from the office on LaSalle Street, next door to Jackson Hall, the old headquarters of "Long" John Wentworth. In the spring of 1856 the publishing was conducted by Cook, Cameron & Sheahan, with Mr. Sheahan in the editorial chair. In the autumn of the same year James W. Sheahan and Daniel Cameron were the editors and proprietors, and early in 1857 the office was removed to 112 Dearborn Street, when Andre Matteson became city editor. The files of the Times that were in the office of the paper were sent to the house of D. B Cooke & Co. to be bound, in 1857, and were destroyed in the fire that consumed that place of business October 19, 1857.

The Traveller, by James M. Chatfield, John Chatfield, Jr., William B. Doolittle and Lee Lars, is mentioned in the Directory of 1853.

THE HEMLANDET, DET GAMLA OCH DET NVA, was first published at Galesburg, Ill., in 1853, and removed to Chicago in 1854, with Rev. E. Norelius editor. It was a weekly newspaper, and the first published in the Swedish language in this city. the organ and advocate of the Swedish Lutheran Church, and was subsequently published by the Lutheran Publishing Society, with Rev. Erland Carleson as editor.

THE MAINE-LAW ALLIANCE, a temperance weekly, was published in the spring of 1854, by Hiram W. Jew-ell, with Rev B. E. Hale, Rev. F. Yates and Dr. Charles Jewett, editors. Rev. D. Crouch took Mr. Hale's place in August, 1854.

THE FREE WEST, by Goodman, Warren & Eastman, was published in 1854, and sold to the Tribune

in 1856.

THE SATURDAY EVENING MAIL, a temperance paper, George R. Graham, editor, was started in January, 1854, but soon died.

The Chicago Protestant was begun January 25, 1854, as a monthly; Hays & Thompson, publishers. It had a short career.

DEUTSCHE AMERIKANER, by George Schtaeger, lived for a short period in 1854. Mr. Schtaeger then went on the staff of the Staats Zeitung.

THE ATLANTIS, by Christian Essellen, a monthly,

saw the light dimly in 1854.

The Associated Press dispatches were furnished the Chicago dailies in November, 1854.

THE CHICAGO PATHFINDER, began its work April 21, 1855, as a weekly record of railroad and real estate transactions, under the editorship of W. B. Horner;

Horner & Crone, publishers.

THE CHICAGO BANK-NOTE LIST entered the field as a claimant for public patronage, July 17, 1855. Its columns were devoted to the reporting of matters financial, with an especial reference to the means of detecting counterfeits, and containing a report of the banks that were in embarrassed condition or had ceased to be solvent. It was published and edited by F. Granger Adams, banker, at No. 44 Clark Street. Information as to the duration of this paper is lacking, but it is a matter of record, from contemporaneous publications, that its semi-monthly issuance continued beyond the epoch treated of in this volume of History, as in the Directory for 1858, published January 1st, in that year, it is designated among the publications then extant; and a notice of the paper in June 3, 1857, being now in existence, wherein it is stated that it is issued on the 10th and 25th of every month, also monthly; the price of the former, being \$1.50 per annum, and of the latter, \$1.00 per annum.

THE ILLINOIS GAZETTEER AND IMMIGRANTS' WEST-ERN GUIDE, was published by Henry Greenbaum and T. W. Sampson, M. D., and edited by William Bross, A. M. This sheet was of similar size and make-up to the Democratic Press, and contained carefully collated statistics of manufactures, trades, commerce, etc., upon the first three pages and a map of Illinois and adjacent States upon the fourth. This was apparently but a sporadic and single publication, and appeared in August,

Beobachter von Michigan, a Douglas paper, was published weekly, in 1855, by Messrs. Committi and

Becker. It lived about a year.

The NATIVE AMERICAN, a daily, was started by William Weaver Danenhower, on September 7, 1855, in the interest of the Native American party, whereof Washington Wright was editor. A weekly edition was also published, and both were maintained until the first Wednesday in November, 1856, when they were discontinued. Mr. Danenhower is the father of Lieutenant J. W. Danenhower, the Arctic explorer, and Chicago, in addition to her many other causes for distinction, has the honor of being the birth-place of Lieuteneant Danenhower.

In 1855, R. P. Hamilton issued a paper designated

THE COURIER.

DER NATIONAL DEMOKRAT, a daily and weekly German newspaper, was first issued on October 15, 1855, by J. E. Committi publisher, with Dr. Ignatius Koch as editor in chief, and J. E. Committi as local editor. The office of the paper was at 55 LaSalle Street, near Randolph, and it was what, in those days, was called a "Douglas paper." In 1856, its publication was transferred to Michael Diversey; Dr. I. Koch and Louis Schade, editors. In this year Mr. Schade published a tri-weekly edition of the paper in English, but this arrangement lasted only two or three months. In 1857, Fritz Becker was the publisher, and the editors were Dr. I. Koch and Victor Froehlich. Beyond these meager details nothing is known of this paper, and for these the public is indebted principally to J. E. Committi. The office in 1857 was removed to 240 Randolph Street.

THE AGE AND LAND WE LIVE IN, was projected in 1855 by E. H. Hall & Co., but the magazine never appeared, and remained inchoate in the brains of its

The Western Crusader, a temperance weekly, was started in October, 1855; the title being changed to Northwestern Home Journal in June, 1856. Its chief editors were Rev. Thomas Williams and Orlo W. Strong. In 1857 James B. Merwin was editor. F. H. Benson & Co., publishers.

THE CHICAGO HERALD was issued from 93 Dearborn Street, in September, 1856, by T. R. Dawley, as a penny daily, with weekly edition. It ceased in 1857.

The Pen and Pencil, by T. R. Dawley, was a

J. R. Dawley

weekly art and story paper, contributed to by T. Herbert Whipple and others. It lived and died in 1856.

THE SUNDAY VACUNA, the first excessively Sunday paper in Chicago, was another of Mr. Dawley's unsuc-

cessful efforts in 1856.

The Western Garland, a literary monthly, issued simultaneously in Chicago, Louisville and St. Louis, founded by Mrs. Harriet C. Lindsey & Son, with R. R. Lindsey, editor, in this city, reached the third or fourth number here in 1856. Its history elsewhere is not obtainable.

THE COMMERCIAL BULLETIN AND NORTHWESTERN REPORTER, by C. H. Scriven and John J. Gallagher,

was published in 1856.

ROUNDS' PRINTERS' CABINET.—The typographical supply business out of which grew the Rounds' Printers' Cabinet, was founded by James J. Langdon, who was the foreman of the Journal office in 1848. Sterling P. Rounds was a sophomore of the job printing office of the Buffalo Commercial Advertiser, and while located in Racine, Wis., filling the "Old Oaken Bucket" with temperance stories and prohibitive arguments, received an invitation from Mr. Langdon to come to Chicago and go into business with him. Some time subsequentlyafter sinking his finances in a newspaper in Milwaukee -Mr. Rounds reached Chicago upon a borrowed capital of \$5.00 and went into business with Mr. Langdon, who, shortly thereafter, went to Prairie du Chien, Wis., and embarked in the horse-business; but finding that his horses were so many Pegasuses which lent wings to his circulating medium, Mr. Langdon returned to Chicago and again went into partnership with Mr. Rounds —who had carried on the business alone ad interim the firm name being Rounds & Langdon. In December, 1856, the first number of Rounds' Monthly Printers' Cabinet was issued, the size of its pages being twelve by seventeen and one-half inches, containing four pages and having four columns to the page. The irregularity in the issue of this paper made number four appear in May, 1857. The first number was prepared under the auspices of S. P. Rounds alone, but in October, 1857, the names of Rounds & Langdon appear as sponsors for its existence. In December, 1856, there was but one other journal in the United States that was devoted exclusively to the interests of the "art preservative"—the Typographic Advertiser; Rounds' Cabinet being the first of that character in the Northwest, the second in the United States in its date of issue, and the first monthly typographical journal in the Union.

THE PRAIRIE LEAF, a monthly, by D. B. Cooke & Co., 1856, was a literary and advertising periodical.

THE WESTERN JOURNAL OF MUSIC; William H. Currie, editor; R. G. Greene, publisher; lived in 1856.
THE FLOWER QUEEN was published in 1856.

THE DEMOCRATIC BUGLE, by Charles Lieb, was a

weekly which was in existence in 1856.

THE WESTERN ENTERPRISE, an agricultural weekly, by Porter Little, was brief lived and became merged in

the Prairie Farmer in 1856.

In 1857, a paper designated the Chicago Daily Union was issued by the Chicago Union Printing Company. Louis Schade was the ostensible editor; B. H. Mayers, the city editor, and T. Herbert Whipple, the news editor and proof-reader.

On February 21, 1857, an evening journal called the Chicago Daily Ledger, was published by Barnes, Stewart & Paine, with Seth Paine as editor. This eccentric sheet was printed at the machine shop of P. W.

Gates.

THE CHICAGO RECORD was issued by James Grant Wilson, editor and proprietor, as a monthly magazine devoted to religion, literature and the fine arts, on April

1, 1857. This journal was the first recognized advocate of the Episcopal Church in Chicago.

Cas Strauthilion

The Saturday Evening Chronotype was established, June 27, 1857, by Charles A. Washburne, editor and proprietor, as a literary paper of high order; but the panic prevented its success, and on September 26, 1857, it died.

In August, 1857, H. D. Emery sent out a specimen number of Emery's Journal of Agriculture, the first number of the regular issue of which paper was an-

nounced to appear January 1, 1858.

In 1857, Charles Hess published the Zeitgeist, a German weekly, of which Ernest Goeders was the editor. Its life is alleged to have been brief and erratic, and it was the exponent of ultra radical ideas.

THE NORTHWESTERN BANK NOTE AND COUNTERFEIT REPORTER is reported as having been published by Isaac A. Pool, in 1857. There is a possibility that this paper may have existed in 1853, as in the directory for that year appears a mention of a Bank Note Reportor, but neither editors nor publishers are named.

In March, 1857, James Grant Wilson, editor Carney & Wilson, publishers, began the publication of a monthly magazine designated the CHICAGO EXAMINER, devoted to literature, general and Church matters.

In 1857, Messrs. P. L. and J. H. Wells published a weekly paper called the Commercial Express, and also a commercial journal, daily, called the MORNING BULLETIN; both publications being issued in the mercantile and commercial interests of the city.

The Svenska Republikanaren was commenced in Galva, Ill., in 1855, and was moved to Chicago in 1857, with S. Cronsioe as editor. It was a secular, or liberal paper, founded as especially antagonistic to the Hem-

landet, by the Bishop Hill colony of Swedes.

In the spring of 1857, S. P. Rounds published the SUNDAY LEADER, the first exclusively Sunday newspaper issued in Chicago of any permanence. One of its distinguishing features was its chess column, edited by Lewis Paulson. Among other contributors, Andrew Shuman furnished a column isometimes two) every week; H. M. Hugunin supplied a column, and Rev. A. C. Barry gave "Whittlings from the Chimney Corner." Edward Bliss was the managing editor, and William H. Bushnell, one of the pioneer editors of Chicago, was sub-managing editor.

In 1857, subsequent to the establishment of the Sunday Leader, the SUNDAY HERALD was started in oppo-

sition thereto; it ran about a year.

THE TRESTLE BOARD was started by J. J. Clarkson about March, 1857, as editor and publisher, at No. 50 Clark Street, devoted to the interests of the Masonic

fraternity.

The Ashlar, a Masonic monthly magazine, owned and edited by Allyn Weston, was removed from Detroit to Chicago, in September, 1857; the first number printed in Chicago, by Charles Scott & Co., being the first first number of the third volume. It was, as its name implies, devoted to the interests of the Masonic fraternity, and was conducted with marked ability and careful conservation of the "lights, rites and benefits" pertaining to this powerful organization. The magazine was one of the oldest in the Northwest—the first number having been issued in September, 1855.

In 1857, Gallagher & Gilbert published the REAL

ESTATE NEWS LETTER AND INSURANCE MONITOR, monthly, and but for a very few months.

G. W. Yerby & Co., real estate dealers, in 1857, edited and published a few numbers of a monthly

called the REAL ESTATE REGISTER.

Higgins Brothers, in 1857, published the CHICAGO MUSICAL REVIEW, from 54 Randolph Street, of which C. M. Cady was the editor, and Pool & Spaulding the printers. The Review lasted but a short time.

THE CHICAGO MAGAZINE, published by John Gager & Co., and edited by Zebina Eastman, was devoted to literature, biography, historical reminiscence, etc., profusely illustrated with engravings relevant to the text. The first number was issued March, 1857, and therein it was specified that the projectors and publishers contemplated an exemplary longevity therefor, but after the issue of the March, April, May and June numbers, the July number was omitted, and with No. 5 in August, 1857, the Chicago Magazine suspended, greatly to the loss of the literary interests of the city, as it was ably conducted, and its historical sketches, biographies, etc., were exceedingly valuable and accurate.

LE JOURNAL DE L'ILLINOIS was first issued in Kankakee, as a weekly paper, on January 2, 1857, by A.

A. Grandpre

Grandpré and Claude Petit, this being the first French newspaper published in the State. In September of that year it was removed to Chicago, under the same management, the first number being issued in this city September 18, 1857; the first French newspaper published here. It then became a semi-weekly journal, and was so continued until December 18, 1857, when it was changed to a weekly, published on Friday. Upon July

Claud Setis

16, 1858, the publication was discontinued, the editors subsequently removing to Kankakee and publishing Le Courrier de l'Illinois.

It is not improbable that, owing to the scarcity of records, some newspapers have been omitted from the foregoing list. It will readily be understood how impracticable it is to trace out, from beneath the ruins of the fire of 1871, information concerning temporary issues. Should it be found that essential omissions have been made, the subsequent volumes of this work will afford a means of rectifying errors. The plan of this History necessitates the arbitrary closing of all sketches at the year 1857; and reference is here made to the future volumes for the completion of the chapter on the Ptess.

### PRINTERS, LITHOGRAPHERS, BOOKBINDERS AND STATIONERS.

In the following pages are given outlines of the founding of the printers and kindred mechanical arts in this city:

The first job printing done in the city was by John Calhoun, in 1833. The earliest carriers' address was issued by Mr. Calhoun January 1, 1836. Caricature cuts were inserted in the Democrat as early as 1840, and

humorously illustrated advertisements date from about that period.

The earliest printers in Chicago were undoubtedly the two apprentices whom John Calhoun describes in his autobiography as having been sent here in charge of his press and printing material. Their names are unknown; but in Mr. Calhoun's account book, in the possession of the Chicago Historical Society, appear the names of David Johnson, August 22, 1834; Ballard, October 6, 1834; Stevens, no date specified; Charles H. Sedgwick, September 6, 1835, and A. L. Osborn and James Mead, 1836; the dates given being those whereon settlement was made, and the price paid for typesetting being twenty-five cents per thousand ems; these -with John Calhoun himself-being therefore among the earliest printers in Chicago. After Mr. Calhoun had commenced the issue of his paper early settlers recall one Timothy C. Ellithorpe, as a compositor upon that paper who Mr. Eastman\* states, was a refugee from Canada, during the Rebellion, in which country he had commanded a company of the revolutionists. Another very early printer was Hooper Warren who edited his articles at the case. As his ideas took form in his brain they became words and sentences in the "stick," his lucubrations being put into type as Robert Fergus constructed his directory, without the customary intermediate use of copy. N. D. Woodville was another of the primitive compositors, and was a son-in-law of John Baptiste Beaubien. He was subsequently employed as copyist by L. P. Hilliard in the County Clerk's office, and is reputed to have died poor-as so many of the typographers have done and are doing. Thomas O. Davis, the editor of the first Chicago American, in 1836, was another early printer, and John Wentworth states that Abiel Smith worked as pressman on the first number of that paper issued, and subsequently worked at Mr. Wentworth's hand press, until the arrival of the power press. Daniel E. Sickles, whose name has been prominently associated with Washington and military annals, was an apprentice at Smith's office.

The oldest pamphlet extant, and the earliest of which there is any record, is one of thirty-six pages, and is "An Act to incorporate the City of Chicago, passed March 4, 1837. Chicago Printed at the office of the Chicago Democrat. 1837."† It is undetermined whether the second pamphlet was "An oration delivered on 4th July, 1839, at Peru, La Salle County, Illinois, by George W. Holley; printed at Chicago American Office, corner Clark and South Water streets, 1839; "‡ or the "Laws and Ordinances," ordered printed by the Common Council in 1839; an account of which appears under the portion of this article devoted to Directories. The printing of the oration appears to have been performed some time in July or August; as the manuscript was handed over to the printer July 10, 1839. The printing of the laws and ordinances was performed by Ellis & Fergus; Robert Fergus being the oldest Chicago printer

now living.

The first law book published in Chicago was "The Public and General Statute Laws of the State of Illinois," by Stephen F. Gale, in 1839; the introduction by the compiler—a Mr. Gates—being dated April, 1839. The book was printed and bound by O. C. B. Carter & Co., Roxbury, Mass., and a copy is in the Chicago Law Library.

<sup>\*\*</sup> Early Printers of Chicago" by Zebina Eastman in Rounds' Printers' clother, October, 1880. Other authorities state that F. T. Ellithorpe was the ct devant Republican from Canadian soil.

† In possession of Chicago Historical Society.

† Ibid.

ct account Republican from Canadian soil.

1 libid.

§ Copy in possession of Mrs. J. Murphy; widow of the proprietor of the Sauganash Hotel.

The next pamphlet appears to have been "A Eulogy upon the life and character of President William H. Harrison," delivered by G. A. O. Beaumont, May 14, 1841, reported in full in the Daily and Weekly American of that period, and which pamphlet was printed in that newspaper office. As described in the Bibliography of Ohio, by Peter G. Thomson, Cincinnati, 1880, it was a duodecimo of twelve pages. The first book written in this city was the History of Baptism by Rev. Isaac Taylor Hinton, an advertisement of which appears in the Daily American of May 1, 1840, and in the same paper under date September 28, 1840, it is stated as for sale. The first work compiled and printed in Chicago, was Jonathan Young Scammon's reports, that were in the hands of the binder, at Holcomb & Co.'s establishment, when it was destroyed by fire in December, 1840.\* The first lampoon discoverable, is one published in 1843, entitled:

#### THE CHARIVARI +

what took place and what didn't take place on the evening of January 19th, 1843, in the city of

JAPAN, KAMSCHATKA CO., ILLS.,

what was done and what wasn't done by the

SHEET IRON BAND

a full report of the apprehension of the rioters, and their examination, including what was said and what wasn't said on that occasion

By Rocky Mountain, Esq.

The whole embellished with an engraving to match.

The first book compiled, printed, bound and issued in Chicago, was the Directory for 1844, which was placed upon the market in the year 1843. The following list of directories, published anterior to 1858, is given for the information of Chicago bibliophiles:

\* Norris' Chicago Directory for 1844, compiled by J. Wellington Norris, printed by Ellis & Fergus, Saloon Building.

\* Norris' Chicago Directory for 1845-46, compiled by J. W. Norris, printed by J. Campbell & Co., Commercial Building, 65

\*Norris' Business Directory, for 1846; Eastman & Davison, printers, 63 Lake Street. [This directory was "set up" from all the fonts in the printing office.]

\*Norris Chicago Directory for 1846-47; Geer & Wilson, print-ers, Daily Journal Establishment, Saloon Building. \*Illinois State Register and Western Business Directory for 1847; Norris & Gardner, editors and proprietors; Geer & Wilson, printers, as above.

† Norris' Chicago Directory § for 1848-9, published by J. W. Norris and L. S. Taylor. Eastman & McClellan, printers, (Power Press, office of the Western Citizen) 63 Lake Street.

\*Chicago City Directory and Annual Advertiser for 1849-50, by O. P. Hatheway and J. H. Taylor; James J. Langdon, book and job printer, 161 Lake Street.

†Chicago City Directory for 1851, by W. W. Danenhower, printed by James J. Langdon, 161 Lake Street.

third floor.

†Chicago Directory for 1852-53, by Udall & Hopkins, printed by Langdon & Rounds, 161 Lake Street.

† Chicago Directory for 1853-54 by Hall & Smith, printed by Robert Fergus, book and job printer, 55 Clark Street.
† Chicago Directory for 1854-55, by Edward H. Hall & Co., printed by Robert Fergus, book and job printer, 55 Clark Street,

third floor.

\*The second edition was printed by Thomas G. Wells, Cambridge, 1841;
a copy of this edition is in the Chreago Law Library.

\*The firm of Campbell & Co. came to a premature dissolution; Mr. Campbell, becoming incensed at Mr. Norris (the Co.), forcibly ejected him from the office, and threatened to kick him if he looked back. Some gentlemen, discussing the matter with Mr. Norris, asked him if he emulated the example of Lot's wife; Mr. Norris replied; "No; I didn't look back!" This incident severed the copartnership. The published notice—April 15, 1835—specifies that I, Wellington Norris and James Campbell have this day dissolved their and after this date, and to select all dispose of the Chreago Directory from and after this date, and to select all days of the Chreago Chreatory from the company of the compiler.

+ Chicago Directory for 1855-56; E. 11. Hall, compiler; Robert Fergus, book and job printer, 189 Lake Street.

† The Northern Counties Gazeteer and Directory for 1855-56, brought down to November, 1855; E. II. IIall, compiler; printed by Robert Fergus, book and job printer, 189 Lake Street.

\* † Case & Co.'s Chicago Directory for 1856-57; John Gager & Co., publishers, 84 Dearborn Street. John Gager, compiler; A. B. Case and Charles Scott, printers; Culver, Page & Hoyne,

Husiness Directory of Chicago for October 1, 1856, published by John Gager & Co., to precede their City Directory, Solas, Zellis, Dow & Co., book and job printers, 148 Lake Street, over Keen & Lee's book-store.

Gager's Chicago City Directory for the year ending June 1, 1857; compiled by John Gager; John Dow, printer, 148 Lake Street; published by John Gager & Co., City Directory office.

The following account is taken from the introduction to Robert Fergus's Directory for 1839, re-published in 1876: "In September, 1839, the Common Council ordered the revision and printing, in pamphlet form, of the laws and ordinances of the city. The work was tendered to lMessrs. Rudd & Childs, printers, but they, not being able to find sufficient funds, offered to transfer the contract to the subscriber, who accepted and fulfilled it. There were six blank pages at the end, and Mr. Childs suggested the filling of them up with the names of the business men of the city, which was immediately done; no canvass was necessary, and the names were never written-each name, as thought of,

Edward H. Rudd

was forthwith set up by the subscriber, until the six pages were completed. It never was supposed that the names of all the business men of the city were included in this list, but the necessary pages were filled up, and the title given those names the Chicago Business Directory. There were no numbers on any street except Lake Street), at that time—the numbers now given are those of the present day [1876]." On the completion of the laws and ordinances, fifty copies were delivered to the city, and the sum of \$25 was ordered paid, January 27, 1840. See Common Council Proceedings, published in the Daily Chicago American, January 2 and 29, and February 22, 1840).\*\* About fifty copies were sold to the citizens at fifty cents per copy; the balance of the five hundred were never used in public. This old business directory was reprinted, with all its imperfections, in the Chicago Republican and in Hurlbut's "Antiquities." In this latter work there were a few additional errors made in its reproduction. Mr. Fergus states that for years the old business directory lay upon the imposing stone, and that as memory would recall some inhabitant of Chicago in 1839, his name would be set up and added to the nucleus upon the stone, until a proof was subsequently taken therefrom. As the directory was afterward presented to the public, it received the highest eulogium from old settlers for accuracy and lack of omissions, and is now one of the standard works of reference for early Chicago settlement.

In 1844, the third and fourth volumes of Scammon's Reports were printed by Ellis & Fergus; the first work of this kind that was completed and presented to the public.

The directories marked with \* are in the possession of R. T. Martin; those marked † are at the rooms of the Chicago Historical Society.

\* These two directories are for the same year; Case's having been published prior to that designated, Gager's as shown by names that appear in Case's as received "too late for classification," being in Gager's, alphabetically classified in the body of the work.

\* See Civy Treasurer's Quarterly Report for January, February and March, 1840. See also, Common Council Proceedings (in City Clerk's office), dated February as, 1840.

The first historical work is also the result of Ellis & Fergus's typographical skill; the pamphlet being of thirty-four pages, and entitled "The Massacre at Chicago, August 15, 1812, and of Some Preceding Events. It was printed in 1844. A copy is preserved in the Historical Library, Madison, Wis.

The narrative was transcribed in a small blank-book and was set from that manuscript; the narrative itself afterward being incorporated in Mrs. Kinzie's work, "Wau-bun," wherein also appeared a statement that the story of the massacre was first printed in 1836. This assertion Mr. Fergus pronounces erroneous, there having been no office capable of its production in that vear in Chicago, and no book-binder here to bind it. Mr. Fergus emphatically states that the narrative of the massacre was not published until the year 1844. John Wentworth makes the same statement in his able and exhaustive papers upon Fort Dearborn (Third paper, Fergus' Historical Series, and with two such authorities\* the matter would appear to be definitely decided.

The first volume of poems published in Chicago was "Miscellaneous poems, to which are added writings in prose," by William Asbury Kenyon. Printed by James Campbell & Co., 1845, sold by Brantigan & Keen, S. F. Gale & Co., W. W. Barlow & Co., and Comstock & Ackley. The Daily Journal of January 23, 1845, has an advertisement that Kenyon's poems are just published and for sale at 146 Lake Street, by

Brantigan & Keen.

The bibliopegic labor upon some of these books was performed by Ariel Bowman and Hugh Ross, the earliest of Chicago's book-binders. The typographical succession of this firm is: Ariel Bowman, who came to this city in 1840; Hugh Ross, who is specified in the directory for 1839 as a book-binder and paper-ruler; these gentlemen entered into a copartnership with their place of business at 35 Clark Street, Saloon Building, which was dissolved September 14, 1843, the firm being succeeded by J. A. Hoisington, with the place of business at Saloon Building, 45 Clark Street, opposite the City Hotel, who associated with him, about 1847, William Stacy, and the establishment was at 61 Clark Street, the business house being removed in 1850 to 79 Lake Street, Tremont Block. In 1852, Mr. Hoisington, who was a protégé of Mr. Bowman's, and his son J. A. M. Hoisington withdrew, and William Stacy continued the business at the corner of Lake and Clark streets. In 1854, Culver & Page bought out Mr. Stacy. The following year Mr. Hoyne became a member of the firm, and the house of Culver, Page & Hoyne became identified with Chicago's commercial interests. This concern in 1855 was the first in the United States that printed county record forms for the use of county officers, that since their introduction have been adopted in nearly every State in the Union. Gustavus Braunhold was the first book-binder who operated upon German books alone. He established the business in 1848, associating with him Charles Sonne, in 1850.

The first engraver in Chicago was Shuball D. Childs, who was engaged with Edward H. Rudd, at the Saloon Building, in engraving, book and job printing, in 1839, and some subsequent years; and with R. N. White, in engraving, from 1845 to 1853. Joseph E. Ware came to this city in 1840; the names of the following engravers are collated from the directories for the various

years whose dates supplement their names: Miss H. Case, Herman Bosse, 1849; Frank E. Thomas, S. D. Childs, junior, both employed with S. D. Childs, senior,

## J. D. Childs

1850: A. W. Morgan, 1851; E. H. Brown, G. W. Humphrey, Henry R. Kretschmann, A. Kretschmann, William James White, John Waller, D. Morse and Rudolph Zollinger, 1852; Reuben Carpenter, Goss and Abbott, Edward Entwistle and Adam Fox, 1853.

The earliest "Chicago Book and Stationery Store" was that of Aaron Russell, formerly of Boston, and Benjamin H. Clift, from Philadelphia, who advertised in the Democrat of August 26, 1834, that they intend opening a store of that description adjoining P. Carpenter's drug establishment, on Water Street. partnership was dissolved October 22, 1835, and Mr.

Wholips

Clift announced that he would continue the business. In the American of June 18, 1836, B. H. Clift advertised law, theological, medical and miscellaneous books, stationery and paper-hanging. T. O. Davis, the publisher of the American, also had books for sale June 8, 1835. Another early Chicago bookseller was Stephen F. Gale, who advertised a map of Cook County as for sale at his store, in the American of January 9, 1836. Augustus H. and Charles Burley were clerks at Stephen F. Gale's store in 1844, and the following year A. H. Burley became a partner of Gale's; in 1846 A. H. and C. Burley succeeded S. F. Gale at his old place of business, 106 Lake Street, moving to 122 Lake Street about 1848. This firm inaugurated the art-union system in Chicago, with some twenty paintings purchased "during the recent revolution in Paris" Journal, September 10, 1850, and which they disposed of by the sale of two hundred and fifty tickets at three dollars each, and a subsequent drawing on November 15, 1850. Joseph C. Brautigan and Joseph Keen had the Franklin Book Store in 1845, the firm also being designated Brantigan & Keen, the latter partner appearing to have succeeded to the business. He in turn was succeeded by Joseph Keen, junior, and William B. Keen, under the title of Keen & Brother, and they were succeeded by the firm of Keen & Lee. K. K. Jones had a periodical depot in

T. B. Carter, who had a book and stationery store in 1845, was also the earliest depositary of the Chicago Bible Society. W. W. Barlow & Co., booksellers, appear as the first in that business who make a specialty of school books, at 121 Lake Street, in the same year, and this firm was succeeded by William Bross\* & Co., at the same location, in 1847; the firm, in 1848, becoming Griggs, Bross & Co., and, in 1849, S. C. Griggs & Co. The first school book published in Chicago, was "Wells's English Grammar, No. 1, by W. H. Wells, A. M., published by Griggs, Bross & Co., 121 Lake Street," February 12, 1849. N. W. Jones had a periodical vending establishment, in 1845. J. W. Hooker, in

To Hon. John Wentworth, the oldest Chicago editor, and Robert Fergus, the oldest Chicago printer, the compiler of this chapter is under the greatest obligations for their pointsking assistance, their clear and graphic descriptions, their retentive and accurate memories, which have been exerted to funish missing data and "make the rough places plain" in the history of the Press.
† Two copies are in the library of the Chicago Historical Society.

<sup>\*</sup> The Hon. William Bross published the first extended Commercial Review of Chicago, in 1852.

1845, was bookseller and stationer at 152 Lake Street, and had the primal depository for Sunday school books. The first Catholic bookseller was Charles McDonnell, whose store was on Market Street, in 1845. J. S. Comstock and B. F. Ackley, were proprietors of a booksellers' and stationers' business in 1845, as was J. Johnson, at 59 Lake Street. The first printers' ware-room was established by Robert Fergus, in 1848. The first establishment for the exclusive sale of printing paper, etc., was that of Henry Butler and Joseph Hunt, in 1850. The first recorded book agent in this city, was Frederick Blecker, in 1853. The earliest Chicago disciples of Alois Senefelder, who invented lithography, in 1793, was Edward Mendel, who established his lithographic house at 170 Lake Street, 1853, by whom Charles Vermeire was employed the same year; and Henry Acheson and William H. Rodway, who were engaged in book and job printing in 1852, and announced themselves as lithographic printers in 1853.

A description of progress in the limner's art would be replete with arbitrary terms and phrases, and would convey but indefinite information to the general reader, without fac-similes of some of the products of the skill of the workmen. An inspection of the phototypes of early cuts of edifices reproduced in this volume, and of the later illustrations that appear herein, will, however, give some idea of the progress made by printers and

engravers.

The lithographic art progressed with the other arts and sciences in this city, and in the directory of 1857, John Gemmell, 132 Lake Street, exhibited a specimen of his skill. Even with the assistance which these efforts render to the art student, it is difficult to comprehend the progress of engraving in Chicago, simply from the fact that the majority of these engravings were made to order, and the skill of the artist was not displayed for the love of the art, but to render just so much work with the graver as would be adequate to the recompense he was to receive from his employer. A comparison of the efforts herein exhibited, with those of the present day, is sufficient to manifest the advance made, although the intermediate steps are incapable of demonstration or comprehension.

In 1842 S. D. Childs invented a printing press, which

was not generally adopted, however.

The oldest Swedish printer in Chicago, probably in the United States, is Nicholaus P. Armstrong, who came to this city in the autumn of 1854, and the next to Mr. Armstrong in point of residence in the city is Charles Johnson. The name of the first printer of the German language is lost to history; the first French printer was Claude Petit, who edited the Journal de l'Illinois, in 1857.

The first typographers' celebration of the birthday of Benjamin Franklin is narrated in the Democrat of January 19, 1848, whereat David M. Bradley, was chairman; Rev. Mr. Walker, chaplain; Benjamin Franklin Worrell, orator, and J. M. Moon, poet. Songs were sung by McConnell and Lombard; and speeches and toasts given by Alfred Dutch, George Davis, D. L. Gregg, Jonathan Young Scammon, William H. Bushnell, Richard L. Wilson, Calvin Butterfield, Robert Fergus, J. T. Bennett, J. S. Beach, Mortimer C. Misener, Joseph K. C. Forrest, T. A. Stewart, C. S. Abbott, James Campbell, H. K. Davis, W. T. West, J. E. Wheeler, A. M. Palley, K. K. Jones, Chauncey T. Gaston, and W. H. Austin.

The first music printed in Chicago was by Joseph Cockroft\* in 1854; the music composed by J. Dyhrenfurth, and the song, composed by Benjamin F. Taylor, for which the music was originated, was entitled, "It will all be Right in the Morning."

THE CHICAGO TYPE FOUNDRY, located at No. 43 Franklin Street, in 1855, was the first type foundry in the city, and the first type-casting there was done in 1856, by Nathan Harper, the foundry being then under the charge of C. G. Sheffield. The first "outfit" supplied by the foundry was in January, 1857, and consisted of a new "dress," of brevier and nonpariel, for the Springfield Journal, then published by Bailhache & Baker. In January, 1857, the place of business was moved to 90 Washington Street. In 1863, Scofield, Marder & Co. succeeded to the Chicago Type Foundry, and subsequently changed the proprietorship to Marder, Luse & Co. The first electrotyping performed in Chicago was also done at the Chicago Type Foundry.

THE PRINTERS' UNION was organized October 26, 1850, with the following officers: Carver Butterfield, president; Benjamin Franklin Worrell, vice-president; Mortimer C. Misener, secretary, and William H. Austin, treasurer; and the first meeting of the Union was held on November 30, 1850, at the hall of the Rhein Saloon. This confraternity was maintained until June, 1852, when a charter was obtained from the National Union for the Chicago Typographical Union, which succeeded the Printers' Union. The charter members were William H. Austin, Samuel S. Beach, A. W. Beard, Francis A. Belfoy, J. T. Bennett, A. P. Blakeslee, Charles F. Bliss, Charles Booth, J. I. C. Botsford, E. S. Bradley, Charles H. Brennan, F. W. Brooks, George E. Brown, Carver Butterfield, James Campbell, O. F. Carver, A. B. Case, W. H. Chappel, Dyer L. Cowdery, E. S. Davis, J. W. Deiggs, E. J. Farnum, C. W. Gardner, Fred Garside, F. G. Haight, Julius A. Hayes, Henry S. Hickok, Oscar M. Holcomb, A. S. Hopkins, D. B. Hopkins, G. H. Kennedy, Joel A. Kinney, William F. Knott, D. Lalande, C. B. Langley, James Maedonald, John F. Madison, Warren Miller, Mortimer C. Misener, T. R. Moroney, W. W. McCurdy, A. McCutcheon, William McEvoy, W. H. McWharter, George McWilliams, C. H. Philbrick, F. M. Porter, F. A. Ryan, Amos Smith, Thomas Smith, Alfred M. Talley, J. S. Thompson, B. W. Van Horn, James C. Weaver, J. E. Webb, W. P. Whiffen, Hiram Woodbury, J. P. Woodbury; and the primal officials of the Typographical Union were: Carver Butterfield, president; C. B. Langley, vice-president; J. P. Woodbury, recording secretary; Joel A. Kinney, treasurer. The wages received by the craft, directly subsequent to the formation of the Typographic Union, were twenty-five cents per thousand ems; job printers, eight dollars per week; foremen, ten dollars per week; this scale being about the rate that ruled at and after the institution of the Printers' Union in The question of combinative labor ameliorating the condition of the individual has engaged the attention of profound thinkers for many years; however well, or illy, trades-unions may have succeeded in other fields of labor, the fact remains that printers have been materially and permanently benefited by the Typographical Union; not alone in the maintenance of a higher scale of wages for the craft generally, but in the conservation and promotion of a higher morale of the operatives themselves. Printers of a few years since were notorious for the "transportation of the standard;" now the best workmen are distinguished for their sobriety and good citizenship, and inebriety and capability are no longer synonymous terms.

THE TYPOGRAPHICAL UNION has grown from a

<sup>\*</sup> Joseph Cockroft was awarded a silver medal for the first stereotyping does in Chicago, at the Fourth Annual Fair of the Chicago Mechanics' Institute, held in 1851. He did the stereotyping of the Journal office that year.

score of printers in 1850 to one thousand members in 1883, among whom are a number of competent females, who receive the same compensation as the men for their labors. Its business is such that the Union is obliged to establish its secretary in a permanent office, containing library and reading room, which was estab-This office is also an employment lished in 1882. bureau, to which the proprietors send for help, and where the unemployed wait such calls, and profitably spend the time in poring over the treasures the library affords. The present Union possesses one lot in Calvary, and another in Rose Hill Cemetery, the latter valued at about five thousand dollars; and the action of the Union, in its efforts for an increase in the scale of prices, has not been taken solely for the mere advance of cents per thousand ems, but has also had consideration for the interest of employers, and the providing good and skilled labor for those offices which are supplied by Union men. In the conflict between labor and capital, the results that would accrue from indiscreet efforts by those who are deficient in foresight, have been abrogated, and the intermediation of the Union between printers and newspapers and job offices, in times of dissension, has often been exerted with the most felicitous consequences; at the same time that the Union interposed its ægis of sodality to preclude undue advantage being taken of any concession by the printers.

Any statistical statement of the various amounts paid at specific times, per thousand ems, would convey no information, as the methods of measurement and the rules of allowance have been subject to many mutations. At the present time, a printer cannot make as much money setting a given number of ems at thirty cents per thousand, as he could a few years since at twenty-five cents, and the Chicago Typographical Union No. 16 is endeavoring to level such inequalities, and yet not over-ride the interests and ability of employers—stable benefit, not suicidal consequences, act-

uating its procedure.\*

THE PRINTERS' PROGRESS.—In addition to the array of newspapers and magazines that assumed form and substance from the inventive literary brains of residents of, and wayfarers in, this city under the defingers of the disciples of the typographical art, there were numbers of books published and printed in this city. The limits of this work will not permit even an epitomized notice of them; therefore none but the primary efforts in various specific branches of literature and printing have been particularly noticed, unless some especial peculiarity was observable, and then the work has been alluded to solely because of such idiosyncrasy

of mental effort or typography.

A history of the rise and progress of any art would be but a barren outline without some mention of the various persons who took part in the incidents; and unusual care has been exercised to gather the names of those who performed any of the many functions requisite to make a book, without the slightest effort to enumerate only the officers and let the rank and file rest in oblivion. Possibly many of the "comps" whose names appear in this chapter were more distinguished for "carrying the banner" than their proficiency in temperance, but the sentence or the paragraph they set may have elected a constable, demolished a candidate, or made a family happy by some newspaper household recipe; it is impossible to tell. They were, however,

For much information in this sketch the compiler is indebted to the courtesy of Samuel Rastall, the present secretary and treasurer of the Union (1833).

connected with the history of the Press, and hence publicity is given their names.

To return to a recapitulation of the early Chicago disciples of Faust, Gutenberg, Caxton and Franklin. As has been stated, the first printers here were the acolytes who arrived with Calhoun's press, "when the breaking waves dashed high on the stern" and mossy edge of Newberry and Dole's primitive wharf in 1833. Redmond Prindiville states that the early employés in the American office were: John Ellsworth, pressman and compositor; Abiel and Orson Smith, compositor; Edward H. Rudd, job printer and compositor; John Brooks, who married Sarah, daughter of Rev. Isaac Taylor Hinton, and subsequently became a Baptist minister; Redmond Prindiville, apprentice. The same authority states that William Stuart was editor, and Alexander Stuart assistant editor.

In an old number of the Commercial Advertiser (Hooper Warren's paper, printed by Edward H. Rudd, appears a prospectus signed by Alfred M. Talley, Edward Grattan, Andrew L. Osborn and Richard W. Iliff, stating that they would start a newspaper to be called the Chicago Daily Argus, and in this prospectus the signers designate themselves as "practical printers." The prospectus decides the date of their habitation of Chicago as being in 1836. Talley and Osborn were employed in the Democrat office. E. Grattan, in the Weekly American of May 27, 1837, signs a caution to printers not to come to Chicago, in response to an advertisement that appeared in the Democrat, offering positions to journeymen printers, as there are plenty in the city to perform all the work dependent upon the exercise of the art; but this prospectus is the sole authority for there ever having been a printer here named Iliff, and he, probably disappointed at the failure of the Argus to appear, also disappeared. David M. Bradley first entered the composing room of the Democrat in 1837, and was connected with that paper until his death. James Campbell, Zebina Eastman, F. T. Ellithorp, James Kelly, Charles N. Holcomb, John E. Wheeler, Jonathan Carver Butterfield and A. R. Niblo were also pioneers of the art preservative, and many of their names are to be found among the prominent editors of the early papers of the city.

The names of the printers and pressmen that follow are compiled from the several directories for the years indicated at the head of each paragraph. This classification has been followed until the year 1854, when nomadic printers began to swarm into the city; and, as it is tacitly conceded that a Chicagoan is not an "early settler" unless his residence antedates that year, deference for this ukase, and the limits of this chapter, have abrogated any individual mention of typographers

subsequent to the close of 1853.

1839. Eric Anderson, pressman; James S. Beach, with E. H. Rudd; David M. Bradley, foreman Democrat; J. Carver Butterfield, compositor American; James Campbell, compositor American; Timothy C. Ellithorp, compositor Democrat; Robert Fergus; Charles N. Holcomb, foreman American; William Holmes, compositor Democrat; James Kelly, compositor American; Abiel Smith, pressman Democrat; Orson Smith, compositor Democrat; Alexander Stuart, pressman American; Alfred M. Talley, compositor Democrat; William Taylor, compositor American; N. D. Woodville, compositor American.

The next directory that was issued is the one for 1844, but some names are necessary to be recorded between 1839 and that year; those of Kiler K. Jones, ap-

prentice, pressman and general utility boy in the office of the American; Mark B. Clancy, who worked upon Morris's Chicago Directory for 1845; William Ellis, subsequently partner of Robert Fergus, who arrived here August, 1840, and worked on the Tribune; also the following signers of a caution printed in the Weekly American of July 31, 1840, dated July 29, 1840, warning printers not to come to Chicago as there are sufficient workmen in the city to perform all the work required, viz.: A. M. Talley, Edward H. Rudd, Orson Smith, Abial Smith, Robert Fergus, Joe D. Brown, J. Carver Butterfield, James Campbell, A. R. Niblo and Z. Eastman. Hon. Knud Langland was probably the earliest printer of Norwegian typography in Chicago,

K. Langland

he having been here in 1843. This gentleman was not a regular printer, but worked at the case occasionally, his celebrity consisting in the able and forcible editorial articles he furnished to Norwegian publications. In that work he is accredited with having wielded more influence than any other writer in the Norwegian language.

In the following compilations when no specific character is given to the employment pursued by each person they were classed as printers; when the name of the paper or office they worked in was originally stated, it has been reproduced here, and though many of the printers, etc., were probably here before 1843 (when the 1844 directory was compiled no authentic record is extant concerning them.

1844:\* David M. Bradley; J. Carver Butterfield, Prairie Farmer; George E. Brown, Express; Norman Buell, Democrat; Ellis & Fergus, book and job printers, Saloon Building (the first job office in the city); William F. Gregory; Robert M. Hobson, Express; James Kelly, Western Citizen; A. R. Niblo; Abiel Smith, Democrat; A. P. Spencer, Better Covenant; H. J. Thomas, Western Citizen; Alfred M. Talley, Democrat; Jacob Whitmore, Western Citizen; N. D. Woodville, American.

1845: David M. Bradley; Norman Buell, Democrat; J. Carver Butterfield; Samuel S. Beach, Gem of the Prairie; J. T. Bennett, Citizen; C. H. Bowen, Democrat; Mark B. Clancy, Gem of the Prairie; J. S. Davis, Gem of the Prairie; Samuel Dempsey, Better Covenant; William F. Gregory, Journal; H. W Grogan, Gem of the Prairie; James C. Herrington, Democrat; F. I. Havs, Gem of the Prairie; James Kelly, Western Citizen; William C. Ladow, Better Covenant; William S. Lyman, at Ellis & Fergus's; C. Martling, Gem of the Prairie; Mortimer C. Mizener; Abiel Smith, Democrat; Lorenzo D. Swan, Gem of the Prairie; Alfred M. Talley, Democrat; H. J. Thomas, Western Citizen; E. B. Thomas, Advocate; N. D. Woodville, Journal; Thomas Whitmarsh; Russell Whitmore, Citizen.

A warning to printers against seeking work in Chicago was signed November 3, 1847, by H. K. Davis, William H. Austin, J. Sarrell, H. J. Thomas, Thomas C. Whitmarsh, James Campbell, J. A. Smythe, John P. Breese, Joel Rathburn, F. W. Brookes, A. P. Spencer, Franklin Fulton, F. I. Hays, James J. Langdon, N. W. Fuller, R. N. Garrett, Samuel S. Beach, A. Adams, Jr., W. F. Gregory, C. C. Moore, G. E. Brown, Charles S.

Abbott, N. C. Guernsey, H. A. Hough, David P. Daniels, William H. Worrell.

1848: A. Adams, Jr., John Amundson, pressman, David M Bradley, sub-editor, Franklin Fulton, Chauncey T. Gaston, Austin Sadler, Alfred M. Talley, W. T. West, Iver Wichington, pressman, Democrat; M. S. Barnes, James J. Clarkson, John Serelle, James P. Woodbury, New Covenant; Frederick Brooks, W. H. Austin, J. T. Bennett, J. E. Wheeler, Tribune: Charles S. Abbott, George E. Brown, C. H. Bowen, Charles F. Bliss, Oscar M. Holcomb, Mortimer C. Mizener, J. Madison Patten, Benjamin Sanford, Hiram Woodbury, Journal; Samuel S. Beach, Gem of the Prairie; Enos S. Bradley, Wilson Franks, N. W. Fuller, Francis T. Seely, pressman, Citizen; J. G. Glass, H. A. Hough, foreman, J. A. Smith, Ezra Wilkins, Commercial Advertiser; N. E. Guernsey, Prairie Farmer; Thomas Kimball, William Kirkengoll, W. H. Worrell, Campbell Wait, Herald of the Prairie; Anton Portman, Peoples' Friend; D. P. Daniel, J. W. Duzan, E. S. Davis, James Campbell, William Ellis, William Iver, pressman, K. K. Jones, Madeira, James Purcell, T. C. Whitmarsh; John Portman, printer and grocer, office undesignated.

The following lists comprise names that have not

heretofore been given:

1849: A.W. Adams, F.D. Austin, J. B. Dow, J. A. Hays, Rufus Tebbetts, William G. Travis, undesignated; Francis Belfoy, William McEvoy, Thomas Morony, Tribune; T. M. Crombie, Norman H. Eastman, S. J. Noble, Herald of the Prairie; Thomas Herndon, Battle-Axe; Thomas E. Clarkson, James E. Fielding, Joel A. Kinney, G. Martin, Journal; Robert Lees, New Covenant; N. C. Geer (of Cringle & Greer, land agents, in 1848), W. P. Gregg, G. F. Palmer, J. Tyson Smith, C. A. Swan, Commercial Advertiser; Daniel S. Merritt, Prairie Farmer; B. W. Van Horne, Democrat; David Martin, Citizen; P. K. Webster, Dollar.

1850: George Clark, Hans Kjos, Henry H. Kimball, Robert McCullock, William T. Nott, Amos Smith, A. B. Whiting, undesignated; Thomas R. Raymond, Herald of the Prairie; Chester L. Root, New Covenant; Jeremiah S. Thompson, Prairie Farmer; Charles Philbrick, Democrat; John Barker, Warren Johnson, S. B. Raymond, foreman, Citizen; Benjamin W. Seaton, foreman, Spofford D. McDonald, William T. Knott,

1851: John Emerson, William E. Foote, Henry Gibbs, C. F. Hardy, Warren Miller, undesignated; James Goodwille, Herald of the Prairies; C. D. Dickerson, foreman Journal; Philip J. Collins, New Covenant; Ole Gulliver, — Ruth, Democrat; Charles Dyer, Citizen; Frederick J. Garside, Commercial Advertiser.

1852: Albert Beard, Charles H. Brennan, D. L. Cowdery, James H. Davlin, Joseph Dusold, John M. Farquhar, Charles Foot, J. T. Fordham, William H. Foster, Abraham Frankhouser, Hans Johes probably Kjoss , Henry Kleinofer, William F. Knott, James Mc-Donald, W. H. McQuarter, James Millar, Edward Ryan, Mark Seymour, Thomas Smith, Isaac B. Smith, Charles Volchmann, John Walsh, Hooper Warren, L. B. Waterman, William E. Wilber, undesignated; Edward D. Barker, John F. Brown, Herald of the Prairies; Oscar F. Carver, Daniel B. Hopkins, George H. Kennedy, Edward W. L'Honnedieu, John F. Maddison, Henry M. Rogers, Tribune; Robert R. Davis, Thomas R. Hudd, Thomas Leicester, George W. McWilliams, Hiram Vanderbelt, pressman, John Woods, Citizen; Jacob Blum, Frederick Barnard, Charles E. Beach, Ira F. Bird, William H. Chappell, Edward Irwin, Cyrus B.

<sup>\*</sup> The names of several printers omitted in this directory list will be found as publishers, or in the portion of this chapter devoted to newspapers.

Langley, Journal; James Martin, Benjamin F. Monroe, New Covenant; George W. Blair, pressman, Frederick W. Brooks, J. Wickerson, pressman, Democrat; John Anderson, William H. Harkin, Alexander White, Argus; Frederick H. Blecker, John Wilson, Commercial Advertiser; F. A. Ryan, Democratic Press; Rudolph Julius, John Simon Frederick W. Storch, Staats Zeitung.

1853: James Austin, James Barnet, John Ballantyne, Edwin G. Barrows, Joseph T. Bennett, Charles H. Bingham, Robert Brunton, Patrick Conway, Clarendon Davison, O. C. Fordham, Clark Gieb, William Goodwin, Henry S. Hickok, J. M. Hoyt, K. C. Hunt, James King, Charles Kreckman, John Marshall, William McCarty, W. W. McCurdy, Duncan McDonald, A. J. Madden, William O'Brien, J. C. Parker, pressman, Joseph Parker, George Philbrick, S. G. Pitkin, Louis

Schell, John Shanks, Robert V. Shurley, L. G. Sinclair, Charles Slocum, Henry J. L. Stanwood, James E. Webb, undesignated; F. S. Emrick, George Harris Fergus, Garden City; James M. Chatfield, John Chatfield, Jr., William B. Doolittle, Lee Lars, Traveler; V. Hanf, foreman, Staats Zeitung; Hezekiah Chapin, Frank G. Haight, Lewis Knudson, pressman, Oliver H. Perry, G. Taylor, W. C. Wright, Democrat; F. F. Brown, William F. Brown, A. B. Case, foreman, Newell Case, Andrew Dunn, Charles O. Pratt, pressman, Democratic Press; Albert Auer, pressman, D. L. Logan, Tribune; Myron Amick, W. F. Beach, G. E. Brown, Jehiel Hart, pressman, H. W. Havens, J. Lyman, F. M. Porter, O. M. Pugh, Oleander Stone, George A. Treyser, Journal.

## THE BENCH AND BAR.

The prosperity of a people depends as much upon a wise interpretation as on a judicious framing of its laws. The advocate is as necessary as the lawgiver; the Bench and Bar as indispensable as the Governor and Legislature. Nowhere else has the legal profession exercised a more powerful influence in framing the laws and molding the destinies of the people than in the United States. Here they form the leading political class, being the most thoroughly educated in all that appertains to the civil life of the nation.

In the State of Illinois their influence has been paramount from the first. Nearly all the great names connected with its early history are also to be found on the roll of lawyers. They have been leaders of the people, not alone, as was to be expected, in the domain of law, but in every intellectual, moral, educational, charitable and even commercial enterprise. And the firm stand taken by the profession against repudiation, in the dark period of 1837 to 1842, was creditable to their judgment and worthy of the leadership they had tacitly assumed.

It is now half a century since Chicago began to have a Bench and Bar of her own, in 1833, and in every important crisis of her history since then, in each successive step of the petty hamlet toward metropolitan greatness, lawyers have been among her most active leaders and most influential counselors. They soon attained among the members of the profession throughout the State the prestige that always attaches to commercial centers, which the rapid growth and concentration of large interests here have exceptionally enhanced. wealth of clients, corporate and individual, has stimulated the powers of the profession, until to stand among one's brethren of the Chicago Bar, well toward the front with name untarnished, is perhaps the most enviable position that can be reached by a citizen.

THE JUDICIARY UNDER THE CONSTITUTION OF 1818.—The fourth article of the constitution of 1818 instituted a judiciary for the new State by the following

provisions:

I. The judicial power of this State shall be vested in one supreme court, and such inferior courts as the general assembly shall, from time to time ordain and establish.

The Supreme Court shall be holden at the seat of government, and shall have an appellate jurisdiction only, except in cases relating to the revenue, in cases of mandamus, and in such cases of impeachment as may be required to be tried before it.

3. The Supreme Court shall consist in a chief justice and three

associates, any two of whom shall form a quorum. The number of justices may, however, be increased by the General Assembly

after the year 1824.

4. The justices of the Supreme Court and the judges of the inferior courts shall be appointed by joint ballot of both branches of the general assembly, and commissioned by the governor and shall hold their offices during good behavior until the end of the first session of the general assembly, which shall be begun and held after the 1st day of January, in the year of our Lord 1824, at which time their commissions shall expire; and until the expiration of which time the said justices respectively, shall hold circuit courts in the several counties, in such manner and at such times, and shall have and exercise such jurisdiction as the General Assembly shall But ever after the aforesaid period the justices of the Supreme Court shall be commissioned during good behavior and the justices thereof shall not hold circuit courts, unless required by law.

5. The judges of the inferior courts shall hold their offices during good behavior, but for any reasonable cause, which shall not be sufficient ground for impeachment, both the judges of the supreme and inferior courts, shall be removed from office on the address of two-thirds of each branch of the General Assembly: Provided always, that no member of either house of the General Assembly nor any person connected with a member by consanguinity or affinity, shall be appointed to fill the vacancy occasioned by such removal. The said justices of the Supreme Court, during their temporary appointment, shall receive an annual salary of one thousand dollars, payable quarter-yearly out of the public treasury. The judges of the inferior courts, and the justices of the Supreme Court who may be appointed after the end of the first session of the General Assembly which shall be begun and held after the first day of January, in the year of our Lord 1824, shall have adequate and competent salaries, which shall not be diminished during their continuance in office.

6. The Supreme Court, or a majority of the justices thereof, the circuit courts or the justices thereof shall respectively appoint

7. All process, writs, and other proceedings shall run in the name of "The people of the State of Illinois." All prosecutions shall be carried on "In the name and by the authority of the people of the State of Illinois," and conclude "Against the peace and dignity of the same."

8. A competent number of justices of the peace shall be ap-pointed in each county, in such manner as the General Assembly may direct, whose time of service, power, and duties shall be regulated and defined by law. And justices of the peace, when so ap-

pointed, shall be commissioned by the governor.

Accordingly the State was divided into four judicial circuits, in which the chief justice and his three associates performed circuit duties until 1824. By an act of December 29, 1824, the State was divided into five judicial districts, and five circuit judges ordered to be . elected by the General Assembly. These were to perform all circuit duties, relieving the Supreme Court of that labor, and were to continue in office during good behavior, as provided in the constitution.

But this was soon regarded as a piece of legislative extravagance. Four judges of the Supreme Court at \$800 each, and five of the Circuit Court at \$600 each, or in all, \$6,200 annually. It was therefore repealed, January 12, 1827, and the State was again divided into four Circuit Court districts, to each of which was assigned one of the justices of the Supreme Court. Two years later, January 8, 1829, it was found necessary to create a fifth circuit, to include the whole region north of the Illinois River, and for it a judge was chosen by the General Assembly, the justices of the Supreme Court doing duty in the four circuits south of that

CHICAGO'S EARLIEST JUDICIARY.—Before treating of the Bench and Bar of Chicago in the stricter sense of judges and lawyers, assembling amid customary surroundings, made respectable by the inherent majesty of law, if not by outward pomp and court forms, it is thought proper to refer to the earliest representatives

and processes of law in the future city.

As in the traditional history of ancient nations, the warlike conqueror and founder of empire is always followed by the pacific lawgiver and civil organizer, even so by curious coincidence did it happen in the predestined metropolis of the Great West. Scarcely had the military outpost of Fort Dearborn been established, before a lawyer came here to reside; and as if yet further

to justify the parallelism, he came in the interests of order and justice. Reference is made to Charles Jouett, a lawyer of Virginia, and afterward judge in Kentucky and Arkansas, who came here in 1805, as the first Indian

Agent.

The earliest mention in the legal records of the State of a Chicago Justice of the Peace, is the following: "June 5, 1821, at the second term of the Commissioners Court of Pike County, upon motion of Abraham Beck, Judge of Probate, John Kinzie was recommended as a suitable person for Justice of the Peace." Chicago was then in Pike.

At a term of the Commissioners Court of Fulton County, held December 2, 1823, John Kinzie was again recommended for Justice of the Peace. Chicago was

then in Fulton.

Peoria County, including the region of Chicago, was set apart from Fulton County, January 13, 1825, and on the same day Austin Crocker and — Kinsey were confirmed by the State Senate as Justices of the Peace for the new county. There is no reason to doubt that "— Kinsey" was intended for John Kinzie, who, however, was not commissioned until July 28, 1825. He was, therefore, not only the first resident Justice in Chicago, but one of the first two confirmed for Peoria County. It seems probable, in the absence of any mention of his having performed the duties of the office, that the previous indorsements had not been followed by a formal appointment or commission.

Alexander Wolcott and Jean Baptiste Beaubien were made Justices September 10, 1825; and they and Kinzie were judges of election in Chicago precinct December 7, 1825. John L. Bogardus, of Peoria, Assessor of Chicago in 1825, was appointed Justice January 15,

1826.

JUSTICES MADE ELECTIVE.—By a law of December 30, 1826, Justices were made elective, and their term of office extended to four years. A supplemental act of February 9, 1827, continued in office those previously appointed until the election of successors. In Chicago, Wolcott and Beaubien were re-commissioned December 26, 1827, having been elected by the voters of the precinct, or perhaps continuing in vitue of the law referred to. There are on record at least five marriages by Beaubien, two in 1828, and three in 1830, but none by Wolcott; and no trials by either. John S. C. Hogan was elected July 24, and commissioned October 9, 1830; and Stephen Forbes was elected November 25, 1830.

Chicago was still in Peoria County.

Of the four Justices of Cook County, commissioned May 2, 1831, only one, William See, was a resident of Chicago. Another, Archibald Clybourne, did not reside in the Chicago of that day, although what was then his farm is now within the city limits. Russel E. Heacock became a Justice September 10, 1831; and was probably the first Justice before whom trials were held. Isaac Harmon was elected June 4, 1832; perhaps to succeed See. Justices Heacock and Harmon seemed to have served until August, 1835. They are both mentioned as Justices in the Chicago American of July 11, 1835; and Harmon was re-elected, August 9, 1835. Meanwhile John Dean Caton was elected Justice July 12, 1834, by one hundred and eighty-two votes out of a total of two hundred and twenty-nine, the remaining forty-seven being given to his competitor, Dr. Josiah C. Goodhue. He continued in office probably until August, 1835, and is said to have then given but little promise of the success which afterward marked his career as Justice of the Supreme Court of Illinois. E.

W. Casey was elected Justice of the Peace, August 9,

1835, but did not serve long.

The Circuit Court.—By an act of February 16, 1831, it was provided that "The counties of Cook, Lasalle, Putnam, Peoria, Fulton, Schuyler, Adams, Hancock, McDonough, Knox, Warren, Jo Daviess, Mercer, Rock Island and Henry shall constitute the Fifth Judicial Circuit \* \* Richard M. Young shall perform circuit duties in the Fifth Judicial Circuit. \* \* There shall be two terms of the Circuit Court held annually in each of the counties. \* \* In the county of Cook on the fourth Mondays in April and second Mondays in September.

It will be noticed that this circuit embraced such distant points as Galena, Quincy, Peoria and Chicago, and the fifteen above-named counties, now increased by

sub-division into thirty-nine.

The Constitution of 1818 only ordained that the Circuit Courts should have and exercise such jurisdiction as the General Assembly should by law provide; and by that body they had been endowed with jurisdiction in criminal and civil cases, and in the latter, both

at common law and in chancery.

EARLY TERMS, 1831-34.—There is no little uncertainty about the first terms of the Circuit Court in Chicago. As stated, the county of Cook was organized in the spring of 1831, and by the foregoing statute it was entitled to a September term. If reliance can be placed on a historical pamphlet on Chicago by Governor Bross, issued in 1858, such a term was held or provided for "at Fort Dearborn, in the brick house, and in the lower room of said house." At the funeral of Colonel Hamil-ton in 1860, Judge Manierre also stated that the first term was held in September, 1831. And again in 1832, in the same work of Mr. Bross, the Court of County Commissioners is on record as ordering that the Sheriff shall secure one or more rooms for the Circuit Court at the house of James Kinzie, "provided it can be done at a cost of not more than ten dollars." In confirmation of the view that such court was held, the same work states that Judge Young, accompanied from Galena by Lawyers Mills and Strode, brought tidings to Chicago of the disturbed state of the Indians, which culminated later in the Black Hawk War.

"In May, 1833," says Charles Ballance in his history of Peoria, "Judge Young made his appearance in the village of Peoria, and announced that he was on his way to Chicago to hold court. \* \* On this occasion I attended court at Chicago, partly to seek practice as

a lawyer, and partly to see the country.'

"The first term of the Circuit Court held in Cook County," says Hon. Thomas Hoyne, "was in September, 1833, by Hon. Richard M. Young. In 1834, he also held the term in May."\* This last, in the opinion of Hon. J. D. Caton, was the first term held here, or at least the first at which any law business was done. Except an appeal from some Justice Court, which was No. 1 on the docket of the Circuit Court of Cook County, a case tried by him, was the first ever tried in Chicago in any court of record; and this he is confident was at the May term in 1834. If this view is correct, although Judge Young may have come to Chicago on any or all of the years from 1831 to 1833, no regular court was held until the spring term of 1834, which in view of all the facts may be accepted as the verdict of history.

THE FIRST LAW OFFICE.—The first lawyer in Chicago to make a living by his profession alone was Giles Spring; and separated from him by a few days was

<sup>\* &</sup>quot;The Lawyer as a Pioneer."

John Dean Caton, who arrived June 19, 1833. There was but little law business in Chicago then, but not-withstanding untoward appearances, both rose to eminence and acquired wealth. Early in July, while they

1 Doctors

kept office as was facetiously said, "On the head of a barrel at the corner of Lake and Wells," Caton obtained his first case, which also proved to be Spring's, on the other side. It is here subjoined as "the first larceny case in Chicago;" that is, the reader need scarcely be told, the first to receive legal cognizance, for not a little stealing had been done from "Lo" and others, before that time.

In December, 1833, Mr. Caton rented of Dr. Temple the back room and attic of his "building" on Lake Street, converting the attic into a bedroom, and extending to Spring the courtesy of desk-room in the room below, which thus became the first law-office in Chi-

cago.

THE FIRST LARCENY CASE, -The first larceny case heard before a Justice of the Peace occurred in July, 1833. Mr. Hatch had been robbed of thirty-four dollars in Eastern currency, at the tavern, and hired Lawyer Caton to recover it. Suspicion rested on a fellow-boarder who was arrested by Constable Reed and taken before Squire Heacock for examination, followed by a large part of the population. The search had proved fruitless, and the prisoner was about to be released amid many jeers at the legal fledgling who had prosecuted the investigation. Just then Caton detected a suspicious lump, which distended the culprit's stocking, and making a hurried grab, brought forth the tell-tale roll of stolen bills. The constable took charge of the prisoner, who was duly arraigned the ensuing morning, with Spring and Hamilton as his lawyers, who obtained a change of venue to Squire Harmon, on the North Side. Afterward to satisfy the public interest in this first case, Harmon adjourned to the tavern on the West Side, where the public could hear the young lawyers to the best advantage. "The court-rooms in those days," says Arnold, "were always crowded. To go to court and listen to the witnesses and lawyers was among the chief amusements of the frontier settlements."

Fifty years later Judge Caton confessed that he had was convicted, but escaped punishment by the device of straw-bail, which seems to have been introduced into Chicago at the same time as its earliest jurisprudence. Caton obtained his fee of ten dollars out of the recovered money, but Spring and Hamilton were cheated out

of theirs by the runaway thief.

ADVENTURES OF A LAWYER IN SEARCH OF PRACTICE. — In the golden leisure of mature age Judge Caton has often found pleasure in relating the following stories:

"Clients were few, fees small and money running low, with board bills fast maturing. It was in that first July, and the proceeds of the first larceny case were gone or going fast, when we both hired out to carry the chain for a surveyor, who had just got a job on the North Side. Returning at noon, we learned from R. J. Hamilton that a party had been inquiring for a lawyer,

and, to avoid all partiality, it was agreed that he should follow us to our work in the afternoon. As he approached, blindly groping through the thick and high alders, which concealed us as we sat, while the choppers were clearing a lane for our operations, I saw that he was making straight for where Spring stood, when I dropped on each other the surveying pins 1 held in my hand, and, repeating the performance, succeeded in attracting his attention and directing his steps to where I sat. He secured my services, paying me in advance. Spring felt that he had been tricked and was a little sore, but actually got the best side of the case, being hired by John Bates, whom he enabled by interpleading to retain the property unattached, against which my client had hoped to obtain judgment. Spring got the larger fee and won the more substantial victory, though I had no difficulty in securing for my client a worthless judgment against an insolvent debtor, who was proved to have lost the ownership of the contested property.

"In August, 1833, there resided in Chicago six or seven free colored men, all of whom had come from free States. The law-givers of Illinois, however, had not contemplated such a contingency, the earlier population having come mostly from slave States. The laws had provided that if a negro was found in the State without free papers, he should be prosecuted and fined, and, if necessary, sold to pay the fine. Some enemy of the black man, or pro-slavery admirer of the black code, or believer in the blessings of the peculiar institution for the heaven-marked subject race, or possibly some aspirant for political preferment at the hands of the dominant party, which was largely under the control of the slave-holding aristocracy of the South, felt it to be his duty or his interest to prosecute these early representatives here of the proscribed race. J. D. Caton undertook their defense, and pleaded their case before the Court of County Commissioners. This was putting a very literal interpretation of judicial powers on the rather euphemistic term court as applied to the board of County Commissioners. But court was then the legal designation of that body, and the young lawyer overcame their natural modesty, or their unwillingness to assume a function hitherto unheard of. They ended by acceding to the learned jurist's exposition of the law, and as the highest accessible representatives of the judiciary of the sovereign State of Illinois, they granted to his grateful clients the required certificates of freedom, which were never questioned and passed for excellent free papers. Mr. Caton's fee was a dollar from each of the beneficiaries.'

First Chicago Divorce.—That term in May, 1834, "when," says Judge Caton, "we all first met together the unfinished loft of the old Mansion House, just north of where the Tremont now stands," is memorable for witnessing the initial steps in the first of a long and unfinished line of divorce suits in Chicago. The parties to the suit were Angeline Vaughan, petitioner, and Daniel W. Vaughan, respondent. The petition was dated April 12, and made returnable May 14, 1834, but the outcome has not been learned. They had been married July 9, 1831, the maiden name of the bride being Hebert.

FIRST MURDER TRIAL.—In the fall of 1834, in an unfinished store, about twenty feet by forty, on Dearborn Street, between Lake and Water, another term of the Circuit Court was held by Judge Young. It was his last term here as Circuit Judge, and the last in Chicago, while Cook County remained within the Fifth Judicial Circuit. It is memorable for trying the first murder case in Chicago, and yet more for the resulting

acquittal. An Irishman was arraigned for killing his wife; and his lawver, James H. Collins, succeeded in getting Judge Young to instruct the jury that if they could not find him guilty of murder, as indicted, it was their duty to acquit, which they did. They were inclined to bring a verdict of manslaughter, as there were circumstances which put the crime out of the grade of murder, but were misled by the instructions of the court and the wiles of the lawyer.

THE CIRCUIT-RIDERS OF THE LAW .- From 1831 to 1834, and indeed for several years afterward, a considerable part of the pleading and other law business of Cook County was done by the circuit-riders of the profession, of whom a few habitually accompanied the Judge from one county-seat to another, over the then sparsely-settled section of northern Illinois. were residents of Galena, Peoria, Quincy, or other distant points. The riding was on horseback, or by stage, buggy or wagon, over unimproved roads, running at intervals through miry swamps that were rendered passable only by the "corduroy" logs and saplings, loosely laid in the uncertain, yielding roadway, and across swollen streams unprovided with bridges.

"The practice of riding the circuit in those early days," says Judge Goodrich, "while it may be regarded as the knight-errantry of the profession, was an admirable training school to make ready and skillful prac-

Iraus- Shown

titioners. The want of books compelled reliance upon reason and leading principles. I doubt if a class of lawyers can be found anywhere, as ready and skillful special pleaders as the early practitioners upon the country circuits."

What could not conveniently be determined by authority had to be decided by the processes of individual reason. The elementary books and the comprehensive principles of general law formed a solid foundation; and the superstructure was largely their own reflections and deductions, all the more available and serviceable as the tools of their craft, because fashioned by each one for himself. The result was a body of lawyers, with powers of discrimination well developed, always ready to give an account of the knowledge that was in them, not in their books.

A few years later the traveling members of the Chicago Bar had similar experiences in their semi-annual journeyings to the United States courts at Springfield, or to such county courts in the interior as business called them to attend.

"I have known the trip to Springfield," says Mr. Arnold, "to take five days and nights, dragging dreari-

Isaac N. Arnold

ly through the mud and sleet; and there was an amount of discomfort, vexation and annoyance about it, sufficient to exhaust the patience of the most amiable. But the June journey was as agreeable as the December trip was repulsive. A four-in-hand, with splendid horses, the best of Troy coaches, good company, the exhilaration of great speed over an elastic road, much of it a turf of grass, often crushing under our wheels the most beautiful wild flowers; every grove fragrant with blossoms, framed in the richest green; our roads not fenced in by narrow lanes, but with freedom to choose our route; here and there a picturesque log cabin, covered with vines; boys and girls on their way to the log schools, and the lusty farmer digging his fortune out of the rich earth. Everything fresh and new, full of young life and enthusiasm, these June trips to Springfield would, I think, compare favorably even with those we make to-day in a luxurious Pullman car.\* But there were exceptions to these enjoyments. Sometimes torrents of rain would, in a few hours, so swell the stream that the log bridges and banks would be entirely submerged, and a stream, which a few hours before was nearly dry, became a foaming torrent. Fording at such times was never agreeable, and was some-

times a little dangerous."
"The judge," says Mr. Arnold,\* "usually sat upon a raised platform, with a pine or white wood board on which to write his notes. A small table on one side for the clerk, and around which were grouped the lawvers, too often, I must admit, with their feet on top of it. \* \* \* There was, in those days, great freedom in social intercourse; manners were at times rude, but genial, kind, and friendly. Each was ready to assist his fellow; and as none were rich, there was little envy or jealousy. The relations between the Bench and Bar were free and easy; and flashes of wit and humor and personal repartee were constantly passing from one to an-The court-rooms in those days were always crowded. At court were rehearsed and enacted the drama, the tragedy, and comedy of real life. The court-room answered for the theater, concert-hall, and opera of the older settlements. The judges and lawyers were the stars; and wit and humor, pathos and eloquence always had appreciative audiences. leading advocates had their partisans, personal and political, and the merits of each were canvassed in every cabin, school-house, and at every horse race, bee, and raising.

THE EARLY BAR.—At the close of 1834, while Chicago was still in the Fifth Circuit, the resident lawyers, though not yet formally associated as a Bar, had begun to assume respectable proportions. While the population was estimated all the way from four hundred to twelve hundred, the lawyers already numbered eleven-Heacock, Hamilton, Spring, Caton, Casey, Fullerton, Collins, James Grant, Grant Goodrich, Moore, and Morris. It is remarkable that so many of these should have risen to distinction, five having reached the Bench, and all having attained a respectable standing in the profession, and as public-spirited citizens in civil life, noted for intelligence, integrity, and varied substantial service to the young and struggling community. To none of them has there attached any taint of professional misconduct or neglect of duty, no venality as judge, or betrayal of client's interest as lawyer. The first two have already been noticed among the early settlers; and this is a fitting place to introduce such of the others as have passed away from earth, or removed from Chicago. Two members of the Bar of 1834, Judges Caton and Goodrich, still survive as honored citizens, and their lives will be sketched in a later volume. The only representative of the Bench of Chicago at this period was Judge Young.

\*" Reminiscences of the Illinois Bar, Forty Years Ago."

"Recollections of the Early Illinois and Chicago Bar," by Hon. I. N.

RICHARD M. YOUNG, the first Circuit Judge who held court in Chicago, was born in Kentucky toward the close of the last century. He emigrated early into southern Illinois, residing at Jonesboro, Union County, before as well as after the organization of that county in 1818. He was admitted to the Bar September 28, 1817; and he represented Union County in the Second General Assembly, 1820–22. By an act approved December 29, 1824, the State was divided into five judicial circuits, and he was commissioned Judge of the Third, January 19, 1825. This act was repealed January 12, 1827, and all judicial functions again devolved on the Chief Justice and the three Associate Justices of the

R. M. Young

Supreme Court, which abrogated Judge Young's office. Accordingly we find that "An act for the relief of Richard M. Young"—the payment probably of salary balance—was introduced in the Legislature January 11, 1827, and approved the 22d, by which \$58.40 were appropriated for that purpose. And it was enacted February 17, 1827, that he be paid "four State paper dollars a day" for sixteen days' service as clerk to an important committee of the House. In 1828 he was presidential elector on the Democratic ticket. By the judiciary act of January 8, 1829, a Fifth Circuit was created to include all that portion of the State lying north of the Illinois River; and Mr. Young was chosen its judge on the 12th, and commissioned on the 23d. About that time he removed to Quincy, within his judicial district. His duties were arduous, not so much for the volume of business to be done in any particular county, as for the number of counties he had to serve, the distance apart of the several county seats, and the absence of modern conveniences for traveling. He was in active correspondence with Governor Reynolds in April, 1832, in reference to the disturbed condition of northern Illinois, and urged the necessity of speedy and effective protection of the northern frontier against the Indians in the Black Hawk War. In the impeachment trial of Judge Theophilus W. Smith before the State Senate in the session of 1832-33, Judge Young was associated with the future Judges Breese and Ford, for the defense. He held the earliest terms of the Circuit Court in Chicago. By an act approved January 7. 1835, a Sixth Circuit was established which included Cook County, and Judge Young had no further occasion to ride his blooded Kentucky horse to distant Chicago, though there still remained ample exercise for his equestrian skill within the Fifth Circuit. At the session of the General Assembly in 1836-37, Judge Young was put in nomination for United States Senator, and elected over five competitors, December 14, 1836, for the full term, 1837–43. He resigned the judicial office January 2, and took his seat as Senator September 4, 1837. During his senatorial term he seldom made speeches, but was always ready to enforce a point or defend a principle in the interest of his constituents, such as the establishment of new post routes, the advocacy of pre-emption laws and the support of internal improvement measures. He was quite active and watchful on all questions likely to affect the State of Illinois; and his counsels were not without influence at home in directing the policy of the State toward the payment

of its debt. February 1, 1841, in his place in the Senate, he said: "The march of Illinois is forward; and if her legislative guardians at home shall promptly discharge their duty in the preservation of her credit at home and abroad, who cannot foretell that her destiny is no less than that of an empire State?" And, on the question of internal improvements he thus defined his position on the 26th of the same month: "I am willing to promote the interests of the West and South, the East and North, but I wish them to go hand in Let them all go together!" With ex-Governor Reynolds, he had been appointed State agent by Governor Carlan in 1839 to negotiate the sale of State bonds, with a view to push forward the internal improvements so ardently desired by the people of Illinois. He made a journey to Europe for that purpose, but he failed in his financial mission and returned to the discharge of his duties as Senator. Failing of re-election to the Senate, he was chosen an Associate Justice of the Supreme Court, January 14, 1843, and commissioned February 4th. He held the office until January 25, 1847, when he resigned. During this period he frequently held court in Chicago, and was favorably regarded by the Bar as well as by the Press and people. In 1847, he was appointed commissioner of the general land office, succeeding General Shields, and being succeeded by Justin Butterfield, June 21, 1849. In 1850-51, he was clerk of the House of Representatives at Washington. "For a number of years before his death," says Ballance,\* he was a claim agent in Washington City. But for some time before his death he was confined in an asylum for maniacs. \* \* \* If the story is true, he passed away many a day and night in a dungeon, under the torturing hands of fiends in human shape, in the great capital of the Nation; and yet for a long time so secretly, that a brother living in that city had no suspicion of it." Physically Judge Young was a tall, fine-looking man, large of stature and of dignified and attractive bearing. His intellectual ability was equal to filling any office respectably, although not with eclat, and coupled with his industrious and methodical habits made his legal and political attainments above the average of his day and his opportunities. His manners were gentle, courteous and entertaining; his feelings generous and sympathetic; his disposition amiable and unaggressive; and altogether he was eminently fitted to win and retain popular favor. His more able associates were often distanced when they became his competitors; although he never reached the highest position as a lawyer, judge or senator, he always commanded the respect and confidence of his constituents and the public. Of excellent personal habits and refined tastes, whatever he may have lacked in brilliancy was amply compensated for by his steady attention to duty, and his earnest purpose to promote the prosperity of the State. He had two daughters, of whom the elder, Matilda, was married at Washington, to R. A. Matthews, of Georgia, July 29, 1852.

GILES SPRING was born about 1807, in Massachusetts, whence he emigrated when a young man to the "Western Reserve" in Ohio. Having studied law at Ashtabula under the firm of Giddings & Wade—the historic Benjamin F. Wade and Joshua P. Giddings—he removed to Chicago in June, 1833. Here he practiced his profession until raised to the Bench, sixteen years later. Judge Caton thus refers to those early days: "Clients were scarce, but as there were but two of us to do the business the only rivalry between us was as to who could most zealously serve his client, with the

<sup>.</sup> History of Peoria, p. 64.

greatest courtesy and kindness to each other." The Justices of the Supreme Court did circuit duty in those days, and exclusively in the portion of the State south and east of the Illinois River. When, therefore, a young lawyer desired a license, it became necessary to make a pilgrimage to one or two southern county-seats and be examined by two Justices, and thus get authority to practice. It was not until January 24, 1835,\* that Mr. Spring was entered on the records of the Supreme Court as licensed, though he advertised location as a lawver in the fourth number of the Chicago Democrat, December 17, 1833. He had, however, been admitted to the Bar in Ohio, and only required to have his papers sent forward for record. He early obtained a good share of the Circuit Court as well as Justice Court practice; and was generally on one side or the other of all the more important early cases. In February, 1836, he formed a partnership with Grant Goodrich, which continued until his election to the Bench. By a rather singular coincidence the partners wedded life-partners on the same day, Sunday, July 24, 1836, at Westfield, Chautauqua Co., N. Y., Miss Levantia Budlong becoming Mrs. Spring. In the winter of 1836-37, Mr. Spring was in Vandalia, prosecuting the case of Harrington 7's Hubbard before the Supreme Court. This was the first important land case in this county, involving the title to the south forty-seven acres in what was called the Harrington tract in Section 32. It was specially important to Mr. Spring, because being paid with about a dozen acres of that land, it laid the foundation of his modest fortune. Mr. Spring was a prominent Whig, and for years at every convention received the nomination to the best of offices, and being personally popular always ran ahead of his ticket. In the spring of 1843 he was the Whig candidate for representative in Congress of the Chicago district, against the Democratic nominee, John Wentworth, whom he beat in the city by fifty-one votes, only to be overwhelmed in the district by a majority of one thousand six hundred and twenty-one for his opponent. Had his party not been in a condition of chronic minority, he would doubtless have attained to high political preferment; but it would probably have added nothing to his fame; for he was essentially a better lawyer than politician. In 1848 he was chosen City Attorney, and was a delegate to the Free-Soil convention of that year in Buffalo. In 1849 he was elected Judge of Cook County Court of common pleas, and held the office until his premature death, May 15, 1851. Several of his contemporaries have borne witness to his merits as a lawyer, Judge and citizen, all agreeing, with varied phraseology, in the following tribute by his former partner, Judge Goodrich, delivered thirty-two years afterward before the Chicago Historical Society:

"Spring was a phenomenon, a natural born lawyer. His education was quite limited, and he paid little respect to the rules of grammar; yet he could present a point of law to the court, and argue the facts of a case to the jury with a clearness and force seldom equaled. He seemed sometimes to have an intuitive knowledge of the law, and mastery of its profoundest and most subtle principles. His brain worked with the rapidity of lightning, and with the force of an engine. In argument he possessed a keenness of analysis, a force of compact, crushing logic which bore down all opposition. His language though sometimes homely was always forcible and strongly expressive of his thought. He was firm in attack but not often offensive. But his most

astonishing powers were exhibited when some new question arose in the progress of a trial. However suddenly it might be sprung, and however grave or abstruse in character, he would instantly and seemingly by a flash of intuition, grasp it with a skill and mastery of legal learning which seemed possible only to the most skilled preparation. His resources appeared exhaustless. \* \* It would be misleading to assume that these rare powers were the mere flashes of genius or intuition, for few men studied their cases, or the law involved in them, with more careful assiduity. His memory was marvelous; his discrimination searching and accurate. His method of studying a case made him complete master of all the law applicable and kindred to it, the reasons upon which it was based, and all the distinctions to be observed. He first consulted the elementary books, and made up his mind what the law ought to be, and then studied the cases in which the principles had been applied. Though he was not an orator, yet before a jury he rarely failed to carry them with him, in a case of anything like even chances. It was, however, in the argument of legal questions before the court, where his comprehensive knowledge of the principles of law, his clear sledge hammer logic, and his wonderful mental endowments shone most conspicuous. \* \* \* \* He was devoted to his clients and honorable in his practice, respected and admired by his professional brethren. As a Judge he was scrupulously impartial, upright and able. In some of his decisions, his genius and legal learning burst out in opinions so luminous and profound as to extort the admiration of the Bar. \* \* \* His faults were of that character which excited commiseration, while they did not destroy admiration for his virtues. He died I believe without an enemy. Colonel Linder, in his 'Reminiscences' says of him, and surviving contemporaries confirm the testimony-'He was a man of childlike simplicity of manners, as tender-hearted as a woman, and would have stepped aside to keep from treading on a worm.' He was, unfortunately, a victim to the free use of intoxicating liquors, which exercised upon him a peculiarly baleful influence, besides sometimes interfering with his official duties.\* He regarded himself as inextricably involved in the toils of his evil habit, and bewailed his misfortune, apparently unconscious of his power to remove it. He died at the age of forty-four, many years being lost of a life otherwise useful-another instance of the disastrous results of stimulating a brain and nervous system that were much better when left to more natural invigorants."

EDWARD W. CASEV, a native of New Hampshire, was in the order of arrival the fifth member of the Chicago Bar, and was deputy to R. J. Hamilton in 1833. He acted as secretary to him in his capacity of school commissioner at the sale of school lots, October 20 to 25, 1833. Early in the next year his literary, legal and clerical powers were brought into requisition by his townsmen in drafting a petition to the Postmaster-General, asking better mail facilities for the uneasy little town on the Chicago River, which even then was unwilling to be ignored, and eager "to push things." Mr. Casey was appointed corporation attorney August 18, and its clerk and collector December 19, 1834. His name appears on the Supreme Court register of lawyers licensed to practice, under date of January 7, 1835. It was while acting as attorney for the town that he prosecuted Richard Harper for vagrancy. The personal habits of the lawyer furnished occasion to the accused to make the demurrer, whether one vagrant could law-

<sup>\*</sup> There is often an interval of months, and sometimes of years, between the date of actual license to practice and that of record on the rolls of the Supreme Court.

<sup>\* &</sup>quot;Court is adjourned from day to day" says the Chicago Democrat of February 9, 1850, "by a spree of Judge Spring."

fully prosecute another. Mr. Casey formed a partnership with Buckner S. Morris August 7, 1835, and was elected Justice of the Peace two days latter, but does not appear to have served long in that capacity. That Morris & Casey did a fair share of the law business of the period may be inferred from the frequency with which their names recur in the scant records of those early years. Mr. Casey took an active part in the meetings and deliberations of November, 1836, which led to the petition for a city charter. The firm was dissolved on or before December 1, 1836, and Mr. Casey continued to practice here alone until some time in 1838, when his friends induced him to return East. In those early days the excessive use of liquor was almost universal. Here and there a professional man stood aloof from the mad whirl of excitement, but a large proportion of the young and brainy fell victims to the spirit of the times in their personal habits. Among them was Mr. Casey, whose life, however, happily teaches an important lesson in this regard. For no sooner had he broken with the associations of the frontier, and withdrawn to the purer atmosphere of a New England farm, than he corrected those mistakes of immature life and became a respectable and self controlled citizen. In the 2 Scam, he is said to have been residing at Concord, New Hampshire, in 1841, and in the Times of October 3, 1875, at Newburyport, Mass. "He was," says Judge Goodrich, "a thorough lawyer, a fine scholar a most amiable man, and a polished gentleman. Though he had acquired a good practice and had before him the highest promise of professional success, he abandoned his profession, returned to his Eastern home, and engaged in farming."

JAMES GRANT, born in North Carolina, December 12, 1812, was the sixth member of the Chicago Bar, was admitted to practice by the Supreme Court of Illinois, March 26, 1834, and arrived here "on the 23d of April" of that year. He was appointed State's Attorney, Jan-

James Grant,

uary 1, 1835. As early as January 30, 1836, he represented large real estate interests here, advertising for sale at that date 7,000 acres at the terminus of the Illinois & Michigan Canal, which belonged to Arthur Bronson of New York. About March 30, 1836, he formed a law partnership with Francis Peyton, and the firm, Grant & Peyton, continued until 1838. Mr. Grant removed to Iowa in 1839, where he rose to the position of Judge, and where he still survives, at Davenport, and honor to the Bar and Bench of two great States. Of late years he makes an annual pilgrimage to Chicago, to the reception of old settlers by the Calumet Club; but the fuller history of his life belongs to the State of his later adoption.

ALEXANDER N. FULLERTON was a native of Vermont, and there admitted to the Bar, arrived here between July and November, 1833, but nothing is known of his pursuits until 1835. Early in June of that year he was in partnership with Grant Goodrich; on the 19th he became a member of the first board of health, and three weeks later was appointed clerk of the board of Town Trustees. The firm of Fullerton & Goodrich was dissolved February 22, 1836, and after a year or two of little more than nominal connection with the profession, he finally drifted into commercial business, and was as

early as 1839 generally recognized as a lumber merchant. "Though a wellbred lawyer," says Judge Goodrich, "he was never actively engaged in practice, but devoted himself to the accumulation of wealth, and died pos-

A. Noulleston

sessed of a large fortune," September 29, 1880, aged seventy-six. He belonged therefore to the commercial rather than to the professional class of early settlers.

James H. Collins first became known to the citizens of early Chicago in February, 1834, when he formed a partnership with J. D. Caton, who had studied law under him, at Vernon, N. Y., two years before. He pulled up stakes in the fall of 1833, having been defeated on the Anti-Masonic ticket in his native State, set out for the West, and passing through Chicago in September, settled on "a claim" at Holderman's Grove, in what is now the southwestern corner of Kendall County, where a settlement had been begun some three years earlier. But the sufferings of the first winter convinced him that he was not cut out for a farmer. Indeed

Illus H. Collins

he was found at Levi Hill's tavern by Caton, January 3, 1834, with his feet badly frozen; and it was then arranged that on his recovery he would join Caton in Chicago. A year later, among the expenses of the town of Chicago, is an item of five dollars paid him for legal advice. The firm of Collins & Caton was dis-Afterward Mr. Collins formed solved in 1835. a partnership with Justin Butterfield, the first record of which is found under date of July 16, 1836, and which lasted until about 1845. In those early years of the Chicago Bar, the firm of Butterfield & Collins was the most conspicuous, being usually found engaged in every important lawsuit, on one side or the other. They were of the counsel for the General Government in the celebrated Beaubien land claim, and Collins bought several of the lots which many of the citizens had intended the old Colonel should bid in without opposition. Mr. Collins feeling satisfied that such an arrangement would accrue to the benefit of others rather than of Beaubien, bid on the lots, drawing upon himself much adverse criticism from Press and people. He was very obstinate in his opinions and was once committed for contempt by Judge Ford for refusing to submit to the court a document entrusted to him by a client, John Shrigley, High Constable, which he claimed was privileged. He was associated with Owen Lovejoy in the defense of the latter in 1842, in his celebrated trial for harboring a runaway slave, and did much toward securing his acquittal. After dissolving partnership with Butterfield he practiced his profession alone for seven or eight years, but in 1853 he formed a new partnership with E. S. Williams, who had studied law with Butterfield and himself several years before. He was "an early and most violent and extreme abolitionist, and in 1850 was the candidate of that party for Congress, receiving one thousand six hundred and seventy-three votes.' died in 1854 of cholera. "He was a good lawyer," says Arnold, "a man of perseverance, pluck and resolution, and as combative as an English bull-dog. \* \* \*

He was indefatigable, dogmatic, never giving up, and if the court decided one point against him, he was ready with another, and if that was overruled, still others. "He seems to me," says Goodrich, "never to have had one particle of genius, but was the hardest worker I ever saw. He bestowed upon the preparation of his cases the most thorough research and critical examination. Though often brought in professional conflict with him I always regarded him as my friend; and have the melancholy satisfaction of having attended him almost alone during the whole night of his fearful struggle with the cholera, until death relieved him of his sufferings." He had at least two daughters-Cornelia M., who was married to J. V. Smith, and who died at her father's house May 31, 1851, at the age of twenty; and Kate F., who was married May 15, 1855, to John M. Sharp.

Hen'ry Moore, a native of Concord, Mass., arrived in Chicago some time in 1834, being admitted to the Bar in Illinois December 8 of that year. He was the second of quite a line of deputies to Colonel Hamilton, Circuit Court clerk, a position he held until the fall of 1835, when his law practice required his attention. Early in 1836, he formed a partnership with F. A. Harding, which was dissolved May 19, 1837; and the firm of Moore & Harding turns up frequently in law business of the time. Mr. Moore was at the Circuit Court of Iroquois County on business May 16, 1836,

Henry Moon

when Judge Ford appointed him for the defense of the murderer "Morris." He "astonished" the prosecuting attorney, James Grant, by "the ability he manifested." "He relied," says Grant, "upon the insufficiency of circumstantial evidence; made the usual argument in such cases, but with much more than the usual ability.' In the fall of 1836 Mr. Moore was one of the prominent speakers at the Whig meeting in Chicago; and in December one of the representatives of Cook County at the Internal Improvement Convention held at Vandalia. In March, 1837, his name is on record as a trustee of Rush Medical College, and June 1 of same year he became law partner of E. G. Ryan. He obtained about that time from the Legislature the first charter for a gas company in Chicago; and was an active and prominent member of the Bar. He, however, found this moist and breezy climate rather unfavorable for his weak lungs, and on the approach of the winter of 1838-39, he sought alleviation in the genial climate of Havana, Cuba. He did not return to Chicago, but it is learned from "2 Scam." that he was a resident of Concord, Mass., in 1841, where he died before many years.

BUCKNER STITH MORRIS was born August 19, 1800, at Augusta, Ky., a village founded by his maternal grandfather, Philip Buckner, who had been a Captain in the War of Independence. The parents were Dickinson Morris, a native of Delaware, but at this time surveyor of Bracken County, Ky., and Frances Buckner, by birth a Virginian. Schools were few in Kentucky, and young Morris received his early education at home from his parents. He arrived at man's estate, and had worked some on farms before he conceived the idea of studying for the Bar. From 1824 to 1827 he devoted

to acquiring a knowledge of the profession, and was admitted to the Bar in the latter year. In 1830 he was elected to the Legislature, and was re-elected in 1832, being a Whig in politics, but never a blind partisan. In 1832 he married Miss Evilina Barker, of Mason County, Ky. At the close of his second term, in 1834, he came to Chicago, by way of the Wabash to Vincennes, and on horseback from that point. Returning for his family, he made a second trip in August, when he permanently settled here. He found less than forty houses on his arrival, and soon opened a law office. He is found advertised as a Chicago lawyer as early as July 9, 1835; and formed a partnership with E. W. Casey August 7, though his name does not appear on the records of the Supreme Court of Illinois as a licensed lawyer until December 7, 1835. Morris & Casey dissolved in the fall of 1836, and Morris & Scammon was formed December 5, 1836. This firm was also short-lived, as Mr. Morris was elected Mayor in the spring of 1838, and Alderman of the Sixth Ward in 1839. In 1840 he resumed more fully the practice of his profession, and formed a partnership, August 13, with William W. Brackett, which lasted about three years. With

Lincoln, in 1840, he was nominated presidential elector at large on the Whig ticket. In 1844 he was elected Alderman, but resigned before the close of the year, and was also president of the Hydraulic Company. In 1845 he formed a new firm with William M. Greenwood as partner, who was exchanged as early as March 16, 1846, for John J. Brown. His wife died in 1847, leaving two daughters; and in 1848 he became a Mason, eventually reaching the highest degree attainable in America. In 1850 he married Miss Eliza A. Stephenson, who died suddenly of heart disease in 1855, leaving one son, who,

however, lived to be only seven. The firm of Morris & Brown continued until the death of Brown in August, 1850, after which Grant Goodrich became partner for a short time. In 1852 he formed a new partnership, the firm being Morris, Hervey & Clarkson; and was the unsuccessful Whig candidate of that year for Secretary of State for Illinois. In 1853, Judge Hugh T. Dickey having resigned, Mr. Morris was elected to complete his term as Circuit Judge, and was commissioned May 24. The Green trial for wife murder was prosecuted before Judge Morris, and is said to have been the first case in this State in which scientific experts were accepted on the witness stand, Green's conviction being largely due to the testimony of Drs. Blaney and Bird to the presence of strychnine in the stomach of the deceased. His decisions in relation to that class of evidence have been often quoted, and have been incorporated in the medical jurisprudence of the State. He was tendered a nomination for re-election at the close of his term in 1855, which he declined and returned to his practice. He soon formed a new partnership, the firm being Morris & Blackburn in 1856, and Morris, Thomasson & Blackburn in 1857. In 1856 he married Mrs. M. E. Parrish, of Frankfort, Ky., a daughter of Edward Blackburn, and sister of Morris's two partners, Breckenridge F. and James Blackburn, and of the recent Governor of Kentucky, Dr. Luke Blackburn. In 1860 he was a candidate for Governor of Illinois on the Bell and Everett ticket, of which he was an early advocate, as a solution or postponement of the impending crisis. He claimed that a vote for Lincoln on the one hand or for Breckenridge on the other was a vote for civil war, as sectional feeling had reached a point where no other issue could reasonably be anticipated. The election of Bell and Everett alone could save the country. One of his regrets and a constant censure of Andrew Jackson was the breaking up of the United States Bank. He held that the cohesive power of a common financial system in holding the North and South together had not been duly weighed. His Southern origin and relationship with the Kentucky Blackburns, who were all violent Secessionists, as well as his acknowledged connection with "Sons of Liberty," but above all the heated state of the public mind which could brook nothing less than the most out-spoken Unionism, brought him into suspicion of disloyalty in 1864, in connection with the alleged Camp Douglas conspiracy. Mr. and Mrs. Morris were arrested with the other "conspirators," taken to Cincinnati, tried by court martial and acquitted. Judge Drummond thus testified to his loyalty; "I have been acquainted with Judge Morris for twenty-five years, and I think his reputation to be, as far as I know it, that of a loyal man. He was a strict advocate of what was the Crittenden compromise, and desired exceedingly that the difficulties between the two sections of the country should be settled amicably. \* \* \* I do not know what developments this trial may have produced, not having followed the evidence, but up to the time of his arrest I certainly should as soon have distrusted my own loyalty as that of Judge Morris," During his detention, which lasted several months, Mrs. Morris and himself received much kind attention at the hands of one of the female religious orders of the Roman Catholic Church, which eventually led both to give their adhesion to that communion. After their release in the spring of 1865, Judge Morris ceased to be an active member of the Bar, confining himself chiefly to his real estate interests and occasional law business for his friends. He died December 16, 1879, having

well entered on his eightieth year, and was buried from St. Mary's Catholic church. "Both these gentlemen," says the Hon. Thomas Hoyne, speaking of Judges Spring and Morris, "rose to high positions from the native force of their characters, and the possession of vigorous intellects. And what seemed singular in their case is, that in the absence of regular culture in the art of advocacy or oratory, they were among the most successful speakers of the day. In many respects they obtained in jury trials a pre-eminence in advocacy over their more highly favored brethren who had been sedulously prepared in universities and schools, both in

New York and New England." To this Judge Goodrich adds: "Having been a partner for a short time of Buckner S. Morris, I am justified in saying-and I think all who were acquainted with his professional capacity will agree with me-that he was no ordinary man. It is evident his general education, his professional reading and training had not been systematic or thorough, but he possessed good vigor of mind and strong common sense and sincerity of manner, which joined with a popular homeliness of expression, apt and striking comparisons, fervent zeal and apparent honesty of belief in the justice of his cause, made him a formidable opponent before a jury. In a desperate case he was remarkable, and the more desperate it was, the more conspicuous his powers became. He often carried his case by main strength against the law and the facts; and it became a common remark that in a bad case he had no equal. He was elected Judge of the circuit, but was better fitted for practice and served but a brief term on the Bench. In character he was simple as a child, tenderly sympathetic and kind, heartily good-natured, and genial in his manners. I doubt if the remembrance of any deceased member of the Chicago Bar is cherished with more unmixed sentiments of kindness than that of Judge Mor-"For native strength, I never saw his superior," says Mr. Beach; "his natural powers of oratory were truly great."

CIRCUIT COURT, 1835-36.—Thomas Ford, who had been Prosecuting, or State's Attorney, in the Fifth Judicial Circuit, was elected by the General Assembly as Judge of the newly created Sixth Circuit; but, by exchange, the first term in Chicago in 1835 was held by Judge Sidney Breese. It extended from May 25 to June 9, showing a marked increase in the business of the court. Before 1835, three or four days were sufficient to clear the meager docket, but thenceforward there never was any lack of business in Chicago courts. The judicial requirements of the place have always kept ahead of the legislative provision for its wants. No sooner have apparently ample facilities been secured than the city has leaped forward to double or treble the population contemplated, compelling a fresh enlargement of the judicial force. This term was the first in Chicago after it became part of the Sixth Circuit, and the first held anywhere by the recently elected Judge Breese, then in his thirty-fifth

year.

Chief-Justice Marshall died July 6, 1835, and the first formal meeting of the Chicago Bar was held in respect to his memory. The members present were Fullerton, Casey, Goodrich, Morris and Moore of those already mentioned, and Royal Stewart, a later accession.

The second term of the Circuit Court, in 1835, was held by Judge Stephen T. Logan, also in exchange with Judge Ford. It was opened the first Monday in October and closed on the 11th. By this time there were one hundred and three civil suits on the docket, and

seventy of these were determined at that term. Of the thirty-seven people's cases twenty-five were closednineteen were merely for non-attendance as jurors, of whom two were fined five dollars each; and twelve cases were continued. The case of most interest at

SECOND MURDER TRIAL.—The criminal under indictment gave the name of Joseph F. Morris, but it was afterwards stated that his real name was Joseph Thomasson. His victim's name was Felix Legre, and the murder was committed about twenty miles from Chicago on the road to Ottawa. The Grand Jury of Cook County found a true bill against Morris at the fall term of 1835, but by change of venue the case was carried to Iroquois County, where it was tried the en-Notwithstanding the most strenuous suing term. efforts, and an able defense on general principles, by Henry Moore, who had been assigned to him as counsel by Judge Ford, Morris was convicted on rather slender evidence, wholly circumstantial. He was the person last seen in company with the murdered man, and a knife was found in his possession which the recent employer of Legre fully identified as belonging to that unfortunate individual. He denied the killing, but acknowledged that he knew the guilty party, whose name, however, he steadily refused to divulge-a selfdeceiving evasion founded probably on the false name under which he was indicted. The implied chivalry and devotion to alleged principles was too fine-spun for a jury of pioneer settlers of Iroquois County, and they found him guilty of murder, though not without some hesitation. On May 19, Judge Ford sentenced him to be hanged June 10, 1836; and the sentence was faithfully carried into effect, though in the absence of a jail it required persistent watchfulness on the part of Sheriff Dunn of Iroquois County and his deputy, George Courtright. The substantial justice of the verdict has never been seriously questioned, but conviction on the evidence would be to-day improbable, if not hopeless.

Both these terms of the Circuit Court of Cook County in 1835, were held in the First Presbyterian church, then situated north of what is now the Sherman House, and fronting on Clark Street. The spring term of 1836 was held by Judge Ford in the same building, and extended from May 23 to June 4. There were two hundred and thirty civil cases, twenty-one criminal and thirteen chancery. Most of the people's cases were for constructive contempt through non-attendance as jurors. The two most important of them were for assault with intent to kill and both culprits were sent to the penitentiary, the first of a long and ever-widening band of convicts on that charge from Chicago. The most important civil suit was, perhaps, that of Harrington vs. Hubbard, the first land case in Cook County which was decided in favor of the defendant but on appeal to the Supreme Court that decision was reversed the ensuing winter at Vandalia,

The fall term of 1836 was held by the same Judge, and in the same building. In addressing the Grand Jury, James Grant, prosecuting attorney, dwelt specifically on the duty they owed the public in relation to trespassers upon the canal lands. The court re-enforced his remarks by reminding them that it was to these lands the public must look for the completion of the canal; and every tree stolen detracted from its value. Both speeches help to show how paramount in interest at that time to the people of Chicago was the longedfor canal and all its belongings. Several rogues were sent to the penitentiary at Alton as a result of this term

of court; and a score or more were indicted for trespassing on the canal lands; but a large part of the court business remained unfinished, and the need of additional judicial facilities, through new courts or more terms

of the Circuit Court, became apparent.

Among the most important of the civil cases tried at the fall term in 1836, was what is popularly known as the Beaubien land claim, which Judge Ford decided favorably to claimant. This decision was sustained by the Supreme Court of the State, but was reversed in 1839 by the Supreme Court of the United States. See Beaubien claim.

THE CHICAGO BAR AT THE ORGANIZATION OF THE CITY. - As at the close of 1834 Cook County was about to be transferred from the Fifth to the Sixth Cirenit, so now before the spring term of 1837, it became a part of the Seventh Circuit, to which amid frequent changes and numerous additions to the circuits in the State, it ever afterward belonged, until by the Constitution of 1870, the County of Cook was made one judicial circuit. A month after the establishment of the Seventh Judicial Circuit, Chicago was granted its charter of incorporation as a city, which is therefore appropriately made an era in the history of its Bench and Bar. Meanwhile the membership of the Chicago Bar had more than doubled, and biographical sketches of the accessions since the close of 1834, now deceased or departed from Chicago, are here subjoined.

ROYAL STEWART is on record as admitted to the Bar in Illinois January 8, 1835; and is found advertised as an attorney at Chicago on June 8, of the same year. How much longer he remained a resident is not clear, but his name disappears from the local records.

In 1841, however, he was residing at Syracuse, N. Y.,

as may be learned from 2 Scam.

WILLIAM H. BROWN, a lawyer and distinguished citizen, is treated elsewhere, as after his arrival in Chicago he became more distinguished as a banker.

JAMES CURTISS, more of a politician than a lawyer, and twice Mayor, will be found mentioned in the politi-

HANS CROCKER arrived in Chicago in 1834, and studied law for a time in the office of Collins & Caton. In 1836, he removed to Milwaukee, where he has since attained some prominence as a lawyer,\* but he was not admitted to practice while here, and does not properly

belong to the Bar of Chicago.

WILLIAM STUART, though not admitted to the Bar in Illinois until July 11, 1837, advertised as attorney and land agent as early as December 5, 1835. He never practiced much at the Bar, being at first a real estate man, and then a journalist. In August, 1836, he became partner of James Curtiss, and was appointed Town Attorney for a short time during the absence of James H. Collins, Curtiss & Stuart dissolved in October, 1837, and Mr. Stuart was publisher and editor of the Chicago American in 1839. He was appointed Postmaster by Harrison in 1841, and held that office until the close of the presidential term in March, 1845. In May of that year he formed a partnership with Charles H. Larrabee, but in 1846 he left Chicago for Binghamton, N. Y., where he also edited a newspaper and became twice Postmaster, and died a few years since.

EBENEZER PECK was born in Portland, Me., May 22, 1805, but received his earliest education at Peacham, Vt. While yet a lad, his parents removed to Canada, and some years later young Peck began the study of law in Montreal, where also he first practiced the profession. About 1826 he was married to Miss Caroline I. Walker,

<sup>\*</sup> A. T. Andreas's History of Milwaukee, 1881, page 1585.

at Peacham, Vt. In 1833 he rose to the dignity of King's Counsel for a district in Canada East, and was elected to the provincial Parliament on the Reform ticket. His party began to drift toward rebellion, and Counselor Peck removed to Chicago, where he arrived in the summer of 1835. About the middle of October, he is found associated with J. D. Caton, in the case of Geddis 28. Kercheval. "He made his mark at once," says Caton. "He showed that his study of the law had been systematic, while he evinced all the resources of tact, and sagacity and quickness of apprehension, so important in the successful trial of a cause before a jury. His ad-

EBENEZER PECK.

dress to the jury was forcible, and at times eloquent." From the first he took an active interest in politics, and was induced by Mr. Caton to join the Democratic party. October 28 he was appointed Town Clerk, and the ensuing month was chosen delegate to the first State Convention, which was held at Vandalia December 7, and at which the future Senator Douglas first began to attract public attention. Before leaving the capital, he was admitted to the Bar of Illinois, December 14. In the summer of 1836, he resigned the clerkship of the town, and a few months later became prominent in the movement for a city charter. At the meeting of November 25, he was appointed chairman of the committee to draft it, and December 9 reported the instrument, which with slight modifications was finally adopted by the Board of Town Trustees, and passed by the Legislature, March 4, 1837, as the charter of the future metropolis of the Northwest. Of this he and Caton have always been regarded the principal authors. In 1837, on the dissolution of the house of Jones, Clark & Co., Mr. Peck became a member of the succeeding firms of Jones, King & Co., and W. H. Stow & Co., iron founders. He was chosen one of the board of commission-

ers under the State internal improvement act of 1837. In 1838 he was elected from this Senatorial District to fill the unexpired term of Peter Pruyne, deceased, but resigned before the close of the term and became clerk of the internal improvement board in 1839. In the suspension of public improvements, which soon supervened, his position was neither exhaustive nor remunerative, and he was again elected to the Legislature in 1840, this time as representative. the re-organization of the State judiciary by the General Assembly February 15, 1841, he was chosen clerk by the Supreme Court some time before May 19. 1846 he formed a partnership with James A. Mc-Dougall, of Chicago, previously of Jacksonville, and later Attorney-General of the State, which continued as McDougall & Peck until the former went to California in 1849, when Peck became associated with Charles B. Hosmer. Meanwhile he had gone out of office as clerk of the Supreme Court when it was legislated out of existence by the adoption of the new constitution March 6, 1848. Charles Gilman, reporter of the Supreme Court, died July 24, 1849, and Mr. Peck was chosen to that office by the new court, and from that time the volumes were called Illinois Reports. His first appeared in 1850, and he numbered it XI, thus leaving room for the preceding ten-Breese's one, Scammon's four and Gilman's five. His own series closed with Volume XXX, in 1863. About 1850 he became interested in the new Democratic journal known as the Argus, the business connection being in the name of his eldest son, W. W. In 1853 his law firm became Peck, Hosmer & Wright, by the accession of Edward Wright, son-in-law of the senior member. In the memorable new departure of the Democratic party for the enlargement of the slave area, in 1853, by the repeal of the Missouri Compromise, established by their more prudent fathers a generation before, Mr. Peck abandoned his old party associations. In 1856 he became one of the ex-Democratic founders in Illinois of the party which has since become historic under the name of Republican. In the famous political debate between Lincoln and Douglas in 1858 Mr. Peck was deeply interested, and was elected on the new ticket as one of the four representatives of Cook County in the twentyfirst General Assembly, where he helped, by his experience and management, to establish the Republican party on a solid foundation in the State. In 1860 he labored for its success in the wider field of national politics. In April, 1863, he resigned as reporter to the Supreme Court of Illinois, and was appointed one of the judges of the Court of Claims at Washington by President Lincoln, whose friendship and intimacy he enjoyed and labored to repay by faithful advice and devoted service. In the heavy burdens of head and heart which fell to the President's lot he is known to have sought and valued the counsels of Judge Peck, whose experience as a politician specially commended his views. For many years there were but few men in Illinois who wielded a more extensive or powerful influence in political circles, and few were more active or adroit partisans. He held the judgeship under the successive administrations of Johnson and Grant, retiring in 1875 on full pay, at the age of seventy, when he returned to Chicago in broken health. His oldest son W. W., born in 1831, died at Washington, a Captain in the regular army, in 1862. Two years after the return to Chicago, the mother died, in 1877. The Judge survived his wife some four years. He died May 25, 1881, and was buried two days later from Unity church. Three children survived him-Charles F., bred a lawyer,

and admitted to the Bar of Illinois January 7, 1857, who removed to Washington about 1864, and became a member of the law firm of Hughes, Denver & Peck; Mrs. Edward Wright, and Mrs. Perry Trumbull, an adopted daughter. At the memorial meeting of the Bar, convened May 26, and adjourned to the 30th, when they again assembled, speeches were made by several of the Judge's late associates, from which are excerpted the following estimates of his character and powers:

"It could be truthfully said of Judge Peck," remarked Judge Drummond, "that he was an honest, self-reliant man, whose judgment and counsel went rarely astray." "A man," said B. C. Cook, chairman of committee on resolutions, "of earnest convictions and had the courage of his convictions, \* \* \* a judge whose decisions will stand as clear, profound, and faithful expositions of the law. \* \* \* He has left the impress of his character upon the eventful time in which he lived. His influence has been marked and beneficial in the history of the city, the State and the Nation."

\* \* \* "It was fortunate," says Judge Caton, "that
he was rarely wrong. Whenever his mind was fully
made up on any subject, I never knew him to change it, and this whether it were on a question of law or ethics, the use of a word or the structure of a sentence. \* \* It was not obstinacy, for he was anxious to be convinced and to agree with us. It was simply conviction, from which he would not be moved to oblige anybody." "Judge Peck," says Mr. Ashton, "was no ordinary man. As a lawyer and judge he had few superiors: as an adviser and counselor I doubt if he had his superior. He was not a 'case lawyer,' although when inclined, he was a fine advocate. He was a lawyer in the fullest sense of the term. \* \* \* He always reached his conclusions by analysis and from principle. \* \* \* He disliked the drudgery and routine of the office, but when necessary he could accomplish as much labor in a short time as any man I ever knew." "He was," said Judge Trumbull, "outspoken in his opinions, and never pretended what he was not. With hypocrisy, shams and deceit he had no patience. He was a man of great kindness of heart, full of sympathy and hospitality. \* \* \* His family circle was one of the happiest and brightest in which it was ever my privilege to mingle. Even in later life, when pain and sorrow came, and his physical system was broken by disease, his hope and cheerfulness did not forsake him. \* \* \* He lived a pure life, was kind, true and faithful in all its relations, and died an honest man."

ALONZO HUNTINGTON was born in Shaftsbury, Vt., September 1, 1805. He was a grandson of Amos Huntington, a Captain in the Revolutionary War, and on his mother's side a grand-nephew of Governor Galusha, of Vermont. After receiving his early education in the schools of his native State, he removed, in early manhood, to western New York, where he worked some years at his trade of mason, and afterward studied law under the Hon. I. T. Hatch, of Buffalo. In 1833, he returned to Vermont, where he married Patience Lorain Dyer, a native of Clarendon, Rutland County, and a sister of the well-known Dr. Charles V. Dyer, of Chicago. For two years after his marriage he resided in Wayne County, N. V., of which Lyons is the countyseat, when he removed to Chicago in the fall of 1835. He was chosen State's Attorney for the Seventh Circuit in 1837, his competitor, Albert G. Leary, a member of the Bar, being rejected by a majority of the General Assembly, because he was himself a member of that body. In 1839, Mr. Huntington was again chosen State's Attorney. Admitted to the Bar in New York, he is not found enrolled on the list of the Supreme Court of Illinois until January 14, 1840. The most remarkable criminal case prosecuted by him was the People 28. John Stone, for the murder of Mrs. Lucretia Thompson, at the spring term in 1840, and excited some rhe-

torical but undeserved animadversion as a prosecutor of the Press, for performing under the orders of the court the perfunctory duty of entering suit against the editor of the American for contempt. At the expiration of his second term in 1841, he resumed the practice of the profession as a member of the Chicago Bar. As prosecutor and advocate he was recognized as of great industry rather than great talents, of conscientious fidelity to the interests of his clients rather than oratorical ability, and of unquestioned integrity rather than showy pretension or display of legal lore. In his official posi-tion he was fairly successful, especially during his second term. To his neighbors and acquaintances he was cordial; to his family, kind, generous and self-sacrificing. To stand by his own was the cardinal principle of his life, and in the varied relations of son, brother, husband and father he has seldom been surpassed. He died at his home in Chicago, November 17, 1881, aged seventy-six years. His wife had preceded him twenty years, having died October 23, 1861, aged sixty. They had six children, of whom only two, a son and a daughter, survive. Henry Alonzo Huntington, the son, was born in Chicago, March 23, 1840, served as an officer in the Fourth United States Artillery in the Rebellion, and is

now better known as Major Huntington, of the editorial staff of the Chicago Tribune. The daughter, Frances, born in Chicago October 23, 1844, is the wife of Benjamin M. Wilson, of the law firm of Wilson & Collier, of this city.

JONATHAN YOUNG SCAMMON, also a member of the early Bar of Chicago, being admitted December 7, 1835, is sketched in the field of perhaps his greater fame as

an early banker.

Joseph N. Balestier was born in 1815 at Brattleboro, Vt., whence he emigrated to Chicago some time in 1835. He soon formed a partnership with Thomas R. Hubbard, and the firm is found advertising "money to loan" in the Chicago American of December 5, of that year. Both were recognized as lawyers though neither seems to have taken the trouble to obtain a license to practice in Illinois. In 1836, Mr. Balestier "realized \$500 per day," says Harriett Martineau, "by merely making out titles to land."\* Hubbard & Balestier advertised as a firm as late as August 16, 1837, and both appear in the reprinted "directory of 1839." 21, 1840, Mr. Balestier delivered before the Lyceum his now celebrated lecture "The Annals of Chicago," reprinted in 1876, with an introduction by himself, as No. I of the Fergus Historical Series. On or before September 25, 1840, he formed a new partnership with E. Webster Evans, a young lawyer, just arrived from the East. But within a year, September 23, 1841, we find Mr. Balestier advertised as a lawyer at No. 58 Wall Street, New York; and his Introduction to the Annals, already referred to, is dated Brattleboro, Vt., January 1, 1876, where he now resides.

THOMAS R. HUBBARD went to New York about 1839,

and became secretary to a banker.

GEORGE ANSON OLIVER BEAUMONT was born in Columbia, Tolland Co., Conn., about 1811. Reaching early manhood, he studied law at the New Haven law school, where he received a diploma, equivalent to a license to practice in the courts of the State. In 1836, accompanied by his mother, widowed in his infancy, he removed to Chicago. He formed a partnership with Mark Skinner August 6, 1836, and the firm held a respectable rank in the profession. Mr. Beaumont was not enrolled on the Supreme Court list as a licensed lawyer until December 11, 1839, though probably admitted to the Bar here as early as 1836. In 1842 he was appointed Commissioner in Bankruptcy for Cook County. On February 3, 1842, before the Young Men's Association, he delivered a lecture on "American Literature." In the spring of 1844 his health became impaired, and Mr. Skinner being appointed United States District Attorney, the firm was dissolved that summer. In the ensuing spring Mr. Beaumont was taken by his mother to the home of his youth, but the change did not avail, and he died of softening of the brain, December 18, 1845. He was a tall, slim man, of delicate organization, unfortunately subject from his youth to nervous disorders, which despite a fair intellect, an excellent education and industrious habits, retarded his professional progress; and although Mr. Beaumont attained respectable rank in the early Bar of Chicago, he made no permanent impression on the public mind, and his existence is almost forgotten.

Fisher Ames Harding, a native of Rhode Island, where he was born about 1812, and a graduate of Brown University made a brief sojourn in Chicago as a lawyer, though not on record as admitted to the Bar in Illinois. He is first mentioned here as disputant before the Lyceum, February 29, 1836, and next, as partner of Henry

\* Mrs. Martineau was very deaf and mistook \$50 for \$500.

Moore, March 12, of the same year. Moore & Harding dissolved May 19, 1837, and Mr. Harding became associated with Fletcher Webster. The firm of Webster & Harding soon removed to Detroit, Mich., where after a few years Mr. Harding became editor of the Detroit Daily Advertiser. He found in journalism a more congenial sphere, and filled the position of editor with distinguished credit until his early death in 1856.

FLETCHER WEBSTER, a son of Daniel Webster, born in 1812, and a graduate of Dartmouth, was as above stated the head of the law firm of Webster & Harding of Chicago for a brief interval in 1837, while residing at Peru; but as he was never enrolled among the licensed lawyers of Illinois, and as the firm soon removed to Detroit, his connection with the early Chicago Bar is

sufficiently noticed by this brief mention.

HENRY BROWN was born in Hebron, Tolland Co., Conn., May 13, 1789. The father, Daniel, was a commissary in General Greene's division, in the Revolutionary War, and was granted a pension for his services. He provided a liberal academic and collegiate education for at least two of his sons. Henry graduated at Yale, and when of age removed to New York, where he studied law, first at Albany under Abram VanVechten, afterward at Canadaigua under John Gregg, and finally under his own elder brother, Daniel, at Batavia. Admitted to the Bar about 1813, he settled at Cooperstown; and in 1816 was appointed Judge of Herkimer County. After quitting the Bench, about 1824, Judge Brown continued the practice of law in Cooperstown until he removed to Chicago in 1836. Mr. Brown was elected Justice of the Peace May 20, 1837, vice E. E. Hunter resigned. His son Andrew Jesse, born in Springfield, N. Y., in 1820, arrived in Chicago in 1837, and Mrs. Brown and four daughters followed,

Hung Brown

in 1838. In 1839, his term as Justice expired, and he returned to his profession, to which, and some literary work, he devoted the remainder of his life. He was chosen City Attorney in 1842, and appointed, in 1843, upon the resignation of George Manierre. In March of the later year he announced that he was preparing to publish a history of Illinois, which was issued in New York City in 1844, and on which he had spent a year. His name does not appear on the Illinois list of licensed lawyers until February 27, 1845. Later in that year he took into partnership his son, who had studied law with him but had removed to Sycamore, DeKalb County, where he was admitted to the Bar December 27, 1842, and who had returned to Chicago in 1845.

January 20, 1846, Judge Brown as president of the Lyceum, delivered an inaugural on "Chicago, Present and Future,"\* which has become historic, and which evinces deep thoughtfulness, great breadth of view and a quite marked foresight of Chicago's destiny. He died in 1849, three days after his sixty-first birthday, of cholera, being the first case in that year, and not suspected until after the disease had become epidemic. He was buried with Masonic honors, having stood high for many years in the confidence and respect of that fraternity. One of his earliest literary efforts was a defense of the order against the attacks of the anti-Masonic party, based on the alleged abduction of Mor-

\*Published as part of No. 6 of Fergus's Historical Series.

gan and other prejudices. It was published in Batavia while Mr. Brown resided there, forming a duodecimo of two hundred and forty pages. Judge Brown was one of the kindliest of men, very cordial in his intercourse with his fellows, and utterly devoid of pretension or vanity. All affectation of dignity and assumption of unnecessary gravity by others excited his ridicule, as he conceived such airs to be but an ingenious contrivance to conceal deficiency or impairment of brain power. Such was his habitual industry that during the greater portion of his life he labored at his duties or his studies sixteen hours out of the twenty-four. He was a man of the most extensive and varied reading, and had learned to cull flowers of fancy and gems of thought from all the literatures of mankind. He was of frank truthfulness and childlike candor, and was universally respected for his many excellent qualities of head and heart. He was large and imposing of stature, weighing over two hundred pounds, and of dignified appearance. In politics Judge Brown was a Democrat, and entertained Mr. Van Buren during his visit to Chicago, July 4, 1842, and with him became a Free-Soiler in 1848, but he was too transparent to be a successful politician, and too broad to be a blind partisan. Besides the son already mentioned, his wife and four daughters survived him. The eldest child, Cornelia A., born in Springfield, N. Y., August 12, 1818, married William H. Stickney, of Chicago, February 19, 1852. The second daughter, Julia, borne in Danube, Herkimer Co, N. Y., in 1822, married George W. Dole, of Chicago, March 30, 1853, and died October 16, 1865. Sarah, born June 13, 1824, married Dr. William Butterfield, October 23, 1844. Caroline, born August 1, 1826, married Thomas L. Forrest, July 10, 1848.

Francis Pevton, was a member of the early Bar of Chicago, though never formally enrolled as a lawyer in Illinois. He was a partner of James Grant in the spring of 1836. In the notable meeting of January, 1837, to promote internal improvements he was chairman of committee on resolutions. In May of the same year he was chosen member of the first board of school inspectors of the new city. In the winter of 1838–39, he was attorney for Colonel Beaubien in the final effort to secure his claim to the Fort Dearborn Reservation. He conducted some law business before the Circuit Court in the spring term of 1839, and was one of the speakers on the occasion of a notable excursion on the steamboat "Great Western," August 13, of that year. He afterward came here in 1840 to assist State's Attor-

ney Huntington in the Stone murder trial.

SAMUEL LISLE SMITH was born in Philadelphia in 1817, of wealthy parents. His early advantages, educational and social, were exceptionally good. Precociously talented, he had studied law at Yale and passed the examination entitling him to a diploma or license to practice before he was of sufficient age to receive it. In 1836 he came to Illinois to look after the interests of his father, who owned some choice tracts of land near Peru. With abundant resources drawn from the parental treasury, young Smith associated with the many gay pleasure-seeking young men who then thronged this Western center of speculation, and naturally fell into habits of life which somewhat marred his career. Returning East, he shook off this premature pursuit of pleasure, sought and obtained his diploma as a lawyer, and was married to a Miss Potts of Philadelphia. In 1838 he again set out for the West and settled in Chicago. He made his headquarters in the office of Butterfield & Collins, where he familiarized himself with the laws of Illinois. He gradually slipped into his

former convivial habits, and in 1839 was chosen City Attorney, a position which funished abundant occasion for the exercise of his genial and generous hospitality. Coupled with the continuous stream of his eloquence, wit and mimicry, his convivial spirit enhanced his popularity, while it did not seriously impair a fortune derived mainly from his father. He was at this time at the very height of his reputation as an orator. The Hon. I. N. Arnold, one of his hearers, at the Whig State Convention at Springfield, in 1840, thus refers to his powers: "I heard for the first time stump-speeches from Lincoln, Harden, Baker, and others, but the palm of eloquence was conceded to a young Chicago lawyer, S. Lisle Smith There was a charm, a fascination in his

SAMUEL LISLE SMITH.

speaking, a beauty of language and expression, a poetry of sentiment and of imagery, which in its way sup-pressed anything I had ever heard. His voice was His voice was music and his action studied and graceful. I have heard Webster, and Choate, and Crittenden, and Bates of Missouri; they were all greatly his superiors in power and vigor, and in their various departments of excellence, but for an after-dinner speech, a short eulogy or commemorative address, or upon any occasion when the speech was a part of the pageant, I never heard the equal of Lisle Smith." In 1844, he took an active interest in the presidential campaign, the third attempt of the Whigs to elect Henry Clay, of whom he was a great admirer and supporter. In 1847, at the River and Harbor Convention, at Chicago, he signally distinguished himself among some of the best speakers of the nation. Horace Greeley said he was "the star of the vast assembly, and stood without a rival;" and Henry Clay did not hesitate to write that Mr. Smith "was the greatest orator he had ever heard." His magnetic power over an audience, as testified by several surviving witnesses, was something wonderful,

his voice was sweet and clear, his fancy glowed with sublime and matchless imagery, and he was equally at home in pathos or invective. His language was not only choice but phenomenally exact, his memory absolutely marvelous, and his power of mimicry no less so. His imitations of Calhoun, Clay, Preston and Webster are said to have been so curiously life-like as to mislead those most familiar with the peculiarities of these great speakers. His keen sense of the ludicrous and grotesque, joined to a vast fund of humor and innate as well as acquired wit, filled the measure of his phenomenal adaptability to become a great orator. He lacked but two elements of the highest possible success in that line, a more portly physique and a less ardent pursuit of pleasure. He was handsome and graceful but small of stature, rather below the middle size, with a florid complexion and light hair. A third drawback has been found in his inherited wealth, but had he remained master of himself, this would not have proved an obstacle, but a valuable auxiliary. Besides the speeches mentioned, his addresses on the following occasions are singled out as specially noteworthy: At the organization of the Excelsior Association, or Sons of New York, the Society of the Sons of Penn, the Reception of Webster, the Irish Relief Meeting, the Obsequies of John Ouincy Adams, and of Henry Clay. Short-hand facilities were not extensive in the Chicago of his day, and it is said, "he never wrote a single word even at his greatest efforts," in enduring form, though we are assured his ordinary preparation embraced not only a rough sketch but a critical weighing of words, phrases and quotations. What is probably correct is that not a single speech was ever written out in full; nor was he so identified with any great law case as to have had either argument or speech preserved in any court record. Altogether his career was rather brilliant than powerful, and has had no influence on the jurisprudence of the State, though it deeply affected the memory, imagination and feeling of his contempotaries. He was genial, generous and hospitable; a kind neighbor, a good citizen and a thorough friend; a perfect gentleman, a ripe scholar and an eloquent advocate of whatever social, legal or political question he esponsed; a well-read lawyer and popular among his brethren, and at home a devoted husband and father. Had his selfcontrol been equal to his talents he might have risen to eminence; as it was, a feeling of regret, if not pity, mingles with enthusiasm of his admirers. He died of the prevailing epidemic, cholera, July 30, 1854, before he had reached the age of forty. wife and two sons survived him. Mrs. Smith was a daughter of the Rev. Dr. Potts of Philadelphia, and a sister of the perhaps better known Rev. Dr. Potts of New York. She died in August, 1871. "The memory of the eloquence of the gifted orator," said the Daily Press, in notice of his death, "will not soon fade from the public mind, which he could at any time sway with the wand of a magician. \* \* \* For those who mourn the sudden rupture of the most tender ties, there is no language to express their grief." In the Recorder's Court, a week later, the following resolutions were introduced by D. McIlroy and seconded by E. W. Tracy: "That in the death of S. Lisle Smith the profession have lost an eminent brother, distinguished for his superior education, his fine and practical intellect, and his elevated moral character; and the entire community, especially the poor, have lost an affectionate and sincere friend." "He was," says Judge Goodrich, "of medium height, a ruddy countenance, a large and finely formed head, a face that gave expression to the feeling

without words. His eyes were dark and shone out from under 'a square, projecting brow' luminous with the fires of intelligence, and when kindled by passion or the inspiration of his theme, they glowed with the emo-tions that stirred his soul. His motions were full of grace, his gestures eloquent in expression. In his voice there was a magic and charm beyond description. It was rich and sonorous, as flexible in tone and modulation as the melodies of a musical instrument, descending to the lowest tones and rising to the highest pitch without a break, as clear and ringing as an Alpine horn. He could startle with the tones of an angry god, or soothe with the softest cadence of rippling waters. His eloquence was faultless, his style chaste and classical, his language rich and copious, his illustrations apt and brilliant; and when he gave the reins to his imagination, he conjured up such marvelous forms of beauty, such enchanting creations of fancy, and clothed his thoughts and images in such elegance of expression, that his hearers were entranced with wonder and admiration. His speeches were not the mere affluence of sounding words which like the jingling of bells delight the ear, but do not move the heart. They were often full of profoundest thought, and rich in sentiment, and sometimes severely logical. He was admired by the great men of his day." A surviving admirer of Mr. Smith fully indorses this beautiful tribute of Judge Goodrich, and assures the writer that it is an entirely truthful characterization of the greatest orator Chicago has ever known.

JUSTIN BUTTERFIELD was born at Keene, N. H., in 1790. Educated in his earlier years at the common school, and prepared for college by the local minister, he entered Wiliams College in 1807, and about 1810 began the study of law under the future Judge Egbert Ten Eyck, at Watertown, N. Y. During these years of advanced education he eked out his scanty resources by teaching school in winter; and was admitted to the Bar in 1812. He began the practice of his profession in Adams, Jefferson Co., N. Y., where he soon exhibited that professional aggressiveness and courage so characteristic of his later career. In July, 1813, during the second British war, he sought to obtain the release by habeas corpus of his client, Samuel Stacey, Jr., a native of Madrid, in the adjoining county of St. Lawrence. Stacey was held several weeks by the military without trial on suspicion of disloyal intercourse with the enemy across the border. Mr. Butterfield served the writ on the commanding General, who evaded compliance, with the result to the young lawyer that his purely professional effort for a client reacted on his own reputation, his position being regarded as unpatriotic in the heated condition of the public mind.\* It was the remembrance of this blind prejudice which led him to exclaim, a generation later, when asked if he was opposed to the Mexican War: "No, sir! I oppose no war; I opposed one and it ruined me. Henceforth I'm for war, pesti-lence and famine!" He practiced some years in Sackett's Harbor, where he married about 1814. He then removed to New Orleans, where he quickly obtained a lucrative practice and high rank in his profession. In 1826 he returned to Jefferson County, N. Y., settling this time in Watertown, where he remained several years. In 1834 he came here to reconnoiter, soon returned to Watertown to wind up his business, and settled here permanently in 1835, forming a law partnership with James H. Collins as early as July 16 of that year. Mr. Butterfield soon became a recognized leader not only at the Bar, but in the broader relations of civil

<sup>\*</sup> Johnson's New York Reports, Vol. X., 327-33.

life. He was one of the trustees of Rush Medical College at its incorporation, March 25, 1837. The firm immediately attained a front rank in the profession. Collins was already well known, and it soon became evident that the new accession was fully his equal. Both were fine lawyers, in the maturity of their powers, the breadth of their experience and the depth and variety of their legal attainments. Nearly all the other members of the early Chicago Bar were young men, awaiting opportunity to flesh their maiden swords, and win reputation and power. Butterfield & Collins came to be recognized as at the head of the Bar, not alone in Chicago but in the State. Against the movement for the sus-

JUSTIN BUTTERFIELD.

pension of the Municipal Court in 1837, Mr. Butterfield, in common with nearly all the lawyers in the city, threw the weight of his influence. And in the conflict between the Bench and Bar of Chicago, which signalized the incumbency of Judge Pearson, 1837 to 1840, he took an active and characteristic part. It was he that in open court, November 11, 1839, held out to the indignant Judge the alternative papers, a bill of exceptions against his own rulings, to sign, or the mandamus of the Supreme Court of Illinois to obey. He was fined \$20.00 for contempt; but he was not to be cowed or browbeaten, and, with his associates of the Bar, the case was carried before the State Senate, where the political bias, if not the greater calmness of that quasijudicial body, saved the Judge from the sentence and penalties of impeachment and the wrath of his enemies. In 1841 Mr. Butterfield was made Prosecuting Attorney for the United States Judicial District of Illinois, which he held until the election of President Polk. In 1842 he drew up the canal bill, the main provisions of which had been previously settled in conference by Arthur Bronson, William B. Ogden, L. N. Arnold and himself.

and in virtue of which the holders of canal bonds were induced to advance \$1,600,000 wherewith to complete the canal. In 1843, through a misunderstanding about the division of income from his official position, the partnership between him and Mr. Collins was dissolved; and after the close of his official relations with the administration he took into partnership his son, Justin, Jr. In 1847 Erastus S. Williams, a law student of the old firm, and of late years better known as Judge Williams of the Circuit Court of Cook County, was added to the new firm. June 21, 1849, after the re-accession of the Whigs to power, he was appointed Commissioner of the General Land Office by President Taylor, A competitor for the position at that time was Abraham Lincoln, who was beaten, it is said, by the superior dispatch of Butterfield in reaching Washington by the northern route, but more correctly by the paramount influence of his friend Daniel Webster. In fact, Lincoln was then, or had recently been, in Washington as member of the Thirtieth Congress, and had the indorsement of the Illinois delegation, but the pressure of Mr. Webster was irresistible. While in this office he co-operated zealously with Senator Douglas toward securing for Illinois the land grant which became the subsidy of the Illinois Central Railroad, and indirectly through the seven per cent of its gross earnings made payable by its charter to the State, an efficient aid in restoring the credit of the common wealth and finally extinguishing its indebtedness. He held the position of Land Commissioner until disabled by paralysis in 1852. On his retirement he received from President Fillmore the highest praise for efficiency and ability in that office. He had introduced system and industry in the transaction of its business. He lingered some three years in an enfeebled condition, when he died at his home in Chicago, October 23, 1855, in his sixty-sixth year. His wife—before marriage Elizabeth Pierce, of Scoharie, N. Y.—and four children survived him. Two sons, Justin and Lewis, who had been bred to his own profession, had gone before. Lewis, born in 1817, and admitted to the Bar December 16, 1840, died in Chicago October 27, 1845. Justin, born in 1819, and admitted to the Bar June 10, 1840, died of consumption in Washington, March 5, 1852. His oldest son, George, an officer in the navy, died about 1850. The survivors were William, the first graduate of Rush Medical College; and three daughgraduate of tests in the state of the state memorial Bar-meeting held two days after his death, his associates thus expressed themselves: "Possessed of great clearness and sagacity of judgment, cautious and steady energy, a well-balanced independence, a just respect for authority, and at the same time an unflinching adherence to his own deliberate opinion of the law, he secured great respect as a lawyer. \* \* \* And the services of the deceased \* \* \* entitle him to the gratitude of his adopted State." "Justin Butterfield," says Arnold, "was one of the ablest, if not the very ablest lawyer we have ever had at the Chicago Bar. He was strong, logical, full of vigor and resources. In his style of argument, and in his personal appearance he was not unlike Daniel Webster, of whom he was a great admirer, and who was his model. He wielded the weapons of sarcasm and irony with crushing power, and was especially effective in invective. Great as he was before the Supreme Court, and

everywhere on questions of law, he lacked the tact and skill to be equally successful before a jury." "Mr, Butterfield's success in the profession," says Judge

# John My hotom

John M. Wilson, "resulted from what may be called the power of adaptation, always seizing upon the most effective mode of subserving the interest of his client. \* \* He possessed an intuitive appreciation of the strength and resources of his adversary, and was the last man to attempt to laugh a case out of court, unless the prosecution was feeble or the plaintiff and his case were open to the assaults of ridicule and sarcasm. \* \* \* He rarely indulged in flights of fancy, though he never failed to lighten up his addresses to court or jury with a caustic humor which was always effective, his manner giving a point and force to the words. The high position he attained was owing, as intimated, to his intuitive apprehension of the questions upon which cases must be decided, and by adapting his mode of attack or defense to the peculiar circumstances of each case." Mr. Butterfield possessed readiness in reply and aptness in retaliation, which with his professional skill and knowledge made him a formidable adversary and a desirable advocate. Many stories are told of his wit and humor, which need not be here repeated, as they only illustrate traits of character and manner already described.

ISAAC NEWTON ARNOLD was born in Hartwick, Otsego Co., N. Y., November 30, 1813. His parents were Dr George Washington, and Sophia Mason Arnold, who had removed thither from Rhode Island some fifteen years before. Besides the subject of this sketch they had two sons and four daughters, all of whom grew to maturity, except one boy who died in infancy. I. N. Arnold got his early education at the district school and the local academy. While procuring his later education after the age of fifteen, when he was thrown upon his own resources, and during his studies for the Bar, he made a frugal living by copying in the office of the surrogate, teaching a neighboring school, by office services for his law teachers, and finally by an occasional trial before a Justice of the Peace. He first studied law under Richard Cooper, of Cooperstown, and then under Judge E. B. Morehouse. He was admitted to the Bar in 1835, at the age of twentyone, and became the partner of his late teacher, Judge Morehouse. He soon found opportunity for his first triumph in a role in which his success afterward became quite marked, that of advocate for persons charged with capital offenses. A negro named Dacit was under indictment in Otsego County for fratricide, an unjust presumption of guilt seizing the public mind because the two brothers were believed to be rivals in love. Mr. Arnold became satisfied of the innocence of his client and secured his acquittal. As he approached his majority he concluded to go West, and in pursuit of this purpose he arrived in Chicago in October, 1836. He published his card as a lawyer as early as November 19, of that year. His chief source of income at first was his skill as a writer of real estate contracts, transfers and abstracts, in the office of Augustus Garrett, auctioneer and dealer in lots and lands, and afterward Mayor of the city. In those early days of almost frenzied activity in that line of speculation, Mr. Arnold often earned ten dollars a day in that capacity. He

soon obtained a share of the limited law business of the period, and in the American of February 18, 1837, he advertised that certain notes and accounts were in his hands for collection. In March he was chosen the first Clerk of the new city, a position which he soon found more onerous than remunerative; and which he resigned before October, to give his attention to his growing professional business. He had, meanwhile, formed a law partnership with Mahlon D. Ogden, of which the first mention made is dated August 16, 1837, though known to have been established some months earlier in the spring. With a colleague at headquarters, Mr. Arnold was now free to broaden the relations and spread the reputation of the firm by riding the circuit of the adjoining counties and attending the State and United States courts at the capital as elsewhere sketched in this work, chiefly from his writings. Arnold & Ogden soon came into public recognition, and were engaged on one side or the other in a very considerable proportion of the more important cases in this section. In those dark days of Illinois history, from 1836 to 1846, when men were sometimes elected to the Legislature on a more or less outspoken platform of repudiation, Mr. Arnold's position and views on the opposite side came to be recognized. He was known as an earnest pleader for saving the credit of the State by accepting in good faith the whole burden which had been so unwisely laid upon them by their representatives. Thenceforth he was universally regarded as a champion of public honor, a principled opponent of repudiation and of whatever else tended to weaken the purpose of the people to manfully pay the penalty of the internal improvement mania, which had been the cause of the mischief. In January, 1840, Mr. Arnold purchased for \$400, a lot in Fort Dearborn addition, which is perhaps worthy of mention in illustration of the great growth in value of Chicago real estate. With the not very expensive building erected thereon since the fire it now brings a rental of \$2,500. In the same year he was elected a member of the first board of inspectors under the school act of 1839, a position which his increasing public responsibilities soon forced him to relinquish. January 18, 1841, a public meeting was held in Chicago to promote direct taxation for the payment of interest on the State debt. Mr. Arnold was one of the signers to the call, as well as a prominent speaker at the meeting and chairman of the committee on resolutions. Notwithstanding these and similar evidences of an earnest solicitude, on the part of some of the best people of the State to maintain or repair the public credit, the Legislature, in February, passed a law which gave a right of redemption in all cases of land sold under mortgages and deeds of trust, whether in virtues of decrees at law or in equity, and provided that before any such sale the property should be appraised and should not be sold at less than two-thirds of such appraisal. As this legislation practically suspended the collection of debts, Mr. Arnold at once took the ground that it was unconstitutional, and carried two test cases to the Supreme Court of the United States where his views were confirmed and the obnoxious laws declared void. In April, 1841, he was appointed Master in Chancery by Judge T. W. Smith, a position he held until his election to the Legislature. Four months later, August 4, he was married at Batavia, N. Y., to Harriet Augusta, daughter of Dr. Trumbull Darrance, of Pittsfield, Mass. He was formally admitted to the Bar of Illinois, December 5, 1841, at one of his many professional visits to the capital, though he had been licensed some time before, and his New York license had secured him full

recognition from the first as a member of the earlier Chicago Bar. At the Democratic State Convention in 1842, he introduced a resolution committing that body to an explicit declaration against repudiation. It was seconded by Mr. Swan, of the Rock River district, but failed to receive the indorsement of the majority, Mr. Arnold received the nomination for representative of his district in the General Assembly and was elected. He resigned the office of Master in Chancery August 6. He had about this time received a letter from Arthur Bronson, of New York, a creditor of this State to a considerable amount, and informally representing the views of other creditors, which outlined the method of paving the canal debt by borrowing enough to complete it and pledging its future revenue to the payment of interest and principal of the old and new debt. At a conference some weeks later in Chicago between Mr. Bronson, William B. Ogden, I. N. Arnold and Justin Butterfield this design assumed more definite shape and was drafted by Mr. Butterfield as the famous canal bill, which contributed so effectually to restore the State credit and enhance the prosperity of Chicago. principles involved and the sustaining arguments were represented fully and forcibly by Mr. Arnold before the Mechanics' Institute, November 16, in a lecture on "The Legal and Moral Obligations of the State to pay its Debts, the Resources of Illinois, and the Means by which the Credit of the State may be Restored." In the session of 1842-43 he was chairman of the committee on finance, and introduced the canal bill already mentioned. By persistent efforts he was enabled to carry it through, but by only a very small majority. In 1844 he was again nominated and elected to the Legislature, and was presidential elector on the Democratic ticket. Toward the close of the year, upon the resignation of Justin Butterfield, his friends petitioned the administration for his appointment to the vacant place of District Attorney for Illinois, while another section of the party favored Mark Skinner. To promote harmony the appointment was given to D. L. Gregg, of Joliet. Meanwhile the loan of \$1,600,000 provided by the canal bill of the year before was delayed through the cautious hesitancy of the money lenders, who required additional and clearly specified guarantees from the Legislature, in all of which subsidiary work Mr. Arnold took an active part, having at length the satisfaction to see the whole matter amicably adjusted in 1845. At the close of his second term in the Legislature by its adjournment, March 3, 1845, he resumed the practice of his profession with new interest and increased success. In 1847 he dissolved partnership with Mr. Ogden, and after some months became associated with George W. Lay, Jr., in 1848. In that year, too, he threw his political fortunes and talents into the new Free-Soil party, and was a delegate to its national convention at Buffalo, and its State convention at Ottawa. He took an earnest and active part in the anti-slavery campaign, being one of the chief orators of the party of Illinois. In all the succeeding biennial campaigns his voice and influence were consistently opposed to the aggressions of the proslavery party, and in 1856 he was elected to the Legislature on that ticket. In that year, too, the firm of Arnold & Lay became Arnold, Larned & Lay by the accession of Edwin C. Larned. In the single session of the Twentieth General Assembly, January 5 to February 19, 1857, Mr. Arnold was chiefly distinguished for his elaborate and successful defense of Governor Bissell on the charge of ineligibility. In 1858 Mr. Arnold failed to receive the nomination for Congress at the Republican convention of this district, but labored earnestly for

the election of his successful competitor, John F. Farnsworth. In 1860, he defeated Mr. Farnsworth in the convention, and was elected to the Thirty-seventh, or War Congress, by fourteen thousand six hundred and sixty-three votes, or seventy-six votes over the presidential ticket. He was among the first representatives to arrive in Washington to participate in the inauguration of Lincoln March 4, 1861. From that time until the close in 1865 of his second Congressional term to which he was elected in 1862, he devoted all his time and energies to the cause of the Union and the support of the administration. His first speech in Congress was an enlogy of the deceased Douglas, with whom he had politically associated in Illinois in the earlier years of the public life of both. At the regular session in December Mr. Arnold was chairman of the committee on defense of the great lakes and rivers. In an able report to the House, in February, 1862, he strongly recommended that the Illinois & Michigan Canal be converted into a ship canal. He introduced a bill embodying this project, and in June urged its passage with much force in a strong speech. But despite his most strenuous efforts it was defeated when it came to a vote at the next session, though he made a second powerful speech in its behalf in January, 1863. In the next Congress, to which Mr. Arnold was elected in 1862, he was chairman of committee on roads and canals, and introduced a bill providing an appropriation of \$6,000,-000 with which to enlarge the Illinois & Michigan Canal. It passed the House February 2, 1865, but failed in the Senate. It was not, however, matters of mere local interest, however great, which chiefly occupied Mr. Arnold's attention during the momentous period of his Congressional career. Even the great question of internal improvements which for fifty years had en-listed the best efforts of the statesmen of Illinois and of Mr. Arnold since his arrival in the State twenty-five years before, was dwarfed into insignificance by the great national questions which now taxed to the utmost the best powers and ripest wisdom of the two War Congresses of which he was a member. It is a matter of national record that Mr. Arnold was among the earliest and most radicals upporters of the administration, and had the honor of being the first member of Congress to advocate the most sweeping of the war measures which many declared revolutionary and unconstitutional. Though a lawyer he saw at once that even the highest laws of peace should not give way to the stern arbitrament of war. The sword had been appealed to, and society's provisions for the opposite conditions of peace and war could not be simultaneously invoked. The unmasked assassin in vain cries out, "Thou shalt do no murder." Mr. Arnold advocated the abolition of slavery in the District of Columbia, the first link in the chain of measures which finally secured "Liberty throughout the land to all the inhabitants thereof." By this first act, about three thousand slaves obtained their freedom. March 24, 1862, he introduced the bill which prohibited slavery in every place directly subject to national jurisdiction, and which with some amendments became a law June 19, 1862. His first great speech in Congress May 22, urged as a legitimate war measure the liberation of the slaves of rebels, and the confiscation of all their other property. In the discussions which followed the President's emancipation proclamation, Mr. Arnold took an active part. The first debate began May 31, 1863, and the question was brought to a vote June 15, when it was found that ninety-three favored while sixty-five opposed grafting abolition on the statute book. On the assembling of Congress in December,

1863, it was felt by the friends of the administration that to give permanence to the results of the great proclamation it was necessary to pass supporting measures. January 6, 1864, Mr. Arnold made a speech in the House, on "The Power, Duty and Necessity of destroying Slavery in the Rebel States." February 15, 1864, Mr. Arnold, in the House, introduced the resolution, "That the Constitution should be so amended as to abolish slavery in the United States wherever it now exists, and to prohibit its existence in every part thereof forever" (See Cong. Globe, Vol. L, p. 659, which was adopted by a decided majority but fell short of the necessary two-thirds vote. In the further progress of the discussion until the resolution embodying the now historic thirteenth amendment was passed in the House, January 31, 1865, by one hundred and nineteen to fiftysix votes, Mr. Arnold took a conspicuous part. July 14, 1864, on his return to Chicago during adjournment of Congress, he was honored with a public reception by his constituents, to whom his career in Congress had proved very satisfactory, and a resolution of thanks for his able and faithful services was passed unanimously. He, however, declined a renomination; but strongly urged the renomination of President Lincoln, and labored indefatigably for his re-election, addressing a great number of meetings during the campaign, in Illinois, Wisconsin, Michigan, Ohio, Pennsylvania and New York, in earnest support of the man and his policy. His own Congressional career closed March 3, 1865. In 1860, his income from his profession was \$22,000; his expenses for four years as a member of Congress, though perhaps exceptionally frugal, and certainly not extravagant were about \$20,000 in excess of his salary. It seemed therefore the wiser course to withdraw, and save his modest fortune from speedy extinction. With a special predilection for literary composition, and a decided talent for historic research, besides a lawyer's power to weigh evidence and discern motive, supplemented by a very sincere admiration for his subject, he had set himself the task of writing the life of Lincoln and the story of the final overthow of slavery in the United States. To facilitate his labors the President proposed to appoint him United States Attorney for the District of Columbia, and auditor of the treasury for the post-office department, neither office requiring the incumbent's exclusive time.

Upon the assassination of Lincoln, the writing of the work became more urgent, and President Johnson appointed him to the auditorship only. He had, however, got so much farther away from Democracy than Mr. Johnson, that he soon ceased to be in sympathy with the new administration, and felt compelled to withdraw. In his letter of resignation he undertook to show Mr. Johnson how he was drifting from the principles of his "illustrious predecessor," and of the great party which had subdued the great Rebellion. Returning to Chicago in 1867, Mr. Arnold completed the History of Abraham Lincoln, which has a specific historical value because of the author's personal knowledge of, and sympathetic admiration for the President, besides his own individual participation, and often conspicuous share in the great movement for the final overthow of slavery. He then turned his attention to collecting and compiling the speeches and State papers of Mr. Lincoln, when the great fire by sweeping away some \$200,000 worth of his productive property drove him again into professional life. He formed a partnership with Messrs. Higgins and Swett in 1872, and worked hard for two or three years, when his health gave way, and he again retired to private life and his favorite literary pursuits, which will be referred to hereafter.

JOHN DEAN CATON was born in the town of Monroe, Orange Co., N. Y., March 19, 1812. His father, Robert, had married his third wife, Hannah Dean, by whom he had four children, of whom the subject of this sketch was the third, and the first of two sons. He had had eleven children by his first wife, of whom ten were sons; and by his second, only one son and no daughter; so that John Dean was the twelfth son and fifteenth child of a progeny of sixteen. The father was born March 22, 1761, on the Potomac, in Virginia, where his father, also Robert, owned a plantation. This older Robert was an Irishman by birth, and had been in the English service, but had settled in Maryland some time before the Revolutionary War. The younger Robert, though only in his sixteenth year at the Declaration of Independence, took part in the struggle and settled on the Hudson at the close of the war. Here he became a preacher of the Society of Friends, and his third wife was the daughter of another preacher of that Society. He died in 1815, at a comparatively early age for the head of so numerous a family. When young Caton was four years old his mother, widowed a year before, moved to Oneida County, where a brother resided, with whom she and the children staid some months, and then rented from him a small place in Paris Township. Here the future Judge obtained the first rudiments of his education, attending the district school until he was nine years old. In 1821 one Solomon Ross, a Friend, took him to reside on his mountain farm near Smyrna, Chenango County, where the labor proved excessive for a child of his years, and whence after a nine weeks' detention, he was humanely conveyed thirty miles to his home by another Friend who sympathized in his desolation. Soon after he brought home the first fruits of his labors as a farm boy, at \$2.50 a month, being a quarter of beef thus earned from Captain Hubbard. At eleven, he worked for Mr. Sexton at \$3 a month, and was discharged for harrowing an unbroken sward, through a misapprehension of orders. With occasional and poorly paid work from different farmers, and attendance at school in the winter months, young Caton slowly climbed up to the age of fifteen. Pursuant to his father's wishes he was then put to a trade, that of harness-maker being selected. He soon grew weary of the business, and his eyes becoming accidentally inflamed, he easily procured his welcome dismissal from the "horse-tailor, Job Collins. Meanwhile his mother had removed to Utica, aided in part by such slender help as he had been able to give her, where he now rejoined her, in 1829. Here he spent nine months at the Academy, and made such proficiency as to be able to earn money at surveying and teaching before he was eighteen. He taught a district school near Ovid in the winter of 1829-30, and hired out to a neighboring farmer in the spring, but receiving a severe cut in the foot, he bade good-bye to farm, until he got one of his own some years later in Illinois. He now obtained his first knowledge of the classics at the school of Mr. Grosvenor, at Rome. He again taught a district school in the winter of 1830-31, and returned to Grosvenor's school in the spring. Meanwhile his ambition had been aroused, and he sought to become a lawyer, having already begun to pettifog in the local justice courts. In December, 1831, he entered the law office of Beardsley & Matteson, at Utica, as a student; afterward that of Wheeler Barnes at Rome, and later that of James H. Collins at Vernon. In 1833 he turned his face to the West, and while at White Pigeon, Mich.,

was invited by Irad Hill to take passage on his raft to St. Joseph, whence he came to Chicago on the Ariadne, under command of Captain Pickering, arriving in the outer harbor June 19, 1833. Here he soon began to pick up such petty cases as offered, some of which are referred to elsewhere. In his law business of that year should be mentioned his effort in behalf of some six free negroes, at a fee of perhaps of one dollar each. The law of Illinois required that free negroes should show their manumission papers, to entitle them to free circulation among the whites. The Chicago blacks of the period claimed to be born in the free States, but having no papers were subjected to annovance under the letter of the law from the hostility of such as were enemies of their race. Caton brought their case before the Court of County Commissioners, pleading with success that some court representing the sovereignty of the State must have the right of granting freedom papers to these unfortunates; and that their honorable body was such court. Though they may not have been able to find any constitutional or legislative grant of such powers their hearts yielded to the enthusiasm of the young lawver, and they authorized the issuing of the required papers. In the fall of 1833, Mr. Caton went to Pekin, Tazewell County, to be examined for admission to the Bar by Judge Lockwood, who thus addressed him at the close: "Young man, I shall give you a license, but you have a great deal to learn to make you a good lawyer. If you work hard, you will attain it; if you do not, you will be a failure. He then proceeded to Greenville, Bond County, and had his license indorsed by Judge Smith.\* January 1, 1834, he set out as guide to Dr. Temple, mail-contractor, on the first stage coach which left Chicago for Ottawa. In February, he formed a partnership with his former law-teacher, Collins. In May he attended the Circuit Court, and brought the first jury case, being the identical one in which he cheated his friend Spring out of a client but into a better fee, as elsewhere stated. Mr. Caton was elected Justice of the Peace, July 12, 1834, receiving one hundred and eighty-two votes out of a total of two hundred and twenty-nine, in a very active campaign, which left but a few if any votes unpolled. In the fall of 1834, he was ill for forty-seven days in the country at Colonel Warren's, and remembers of the court business of that term only the memorable case of uxoricide by an Irishman, whose acquittal was unexpectedly secured by the plea of Collins, on which the court instructed the jury, that if they could not find him guilty of murder in the first degree, as indicted, it was their duty not to bring in a verdict of manslaughter in any degree, but to acquit. On the 28th of July, 1835, Mr. Caton married Laura Adelaide, daughter of Jacob Sherrill, of New Hartford, Oneida Co., N. Y., whose affections he had won some few years before. In a contest with Isaac Harmon for the office of Probate Judge to succeed Richard J. Hamilton, Caton was defeated. In 1836, with N. B. Judd, he formed the firm of Caton & Judd; and in that year built the first dwelling within the school section, on the West Side, at the southeast corner of Harrison and Clinton streets. He took an active part in the movement for a city charter in November, 1836, representing the second district of the town in the meeting for consultation with trustees. The financial troubles of 1837 did not leave him unscathed; he lost not only most of his real estate but his

health also; and in 1838 he took refuge on a farm near Plainfield, which he had entered some years before, and of which he plowed a portion that year, and to which he moved his family in 1839. He kept up his law practice in three or four neighboring counties, being the first lawyer to bring suit in the Circuit Courts of Kane and Will counties, as he had previously been in Cook County. In 1840, again in conflict with Harmon. Having recovered his health he accepted the position of Associate Justice of the Supreme Court made vacant by the election of Judge Ford as Governor, his commission bearing date August 20, 1842. In the October term of that year, in Bureau County, the historic case of the People 78. Lovejoy for that "he did harbor, feed, secrete and clothe a certain slave girl, knowing her to be such." etc., was tried before the new Judge, who distinctly laid down the principle, new in that day, that "if a man voluntarily brings his slave into a free State the slave becomes free," which had much influence on the jury in acquitting Lovejoy. At the close of the legislative session in March, 1843, John M. Robinson, who had been United States Senator, 1835 to 1841, was elected to the vacant judgeship, but dying in April, Caton, after an intermission of only a month, was selected by Governor Ford, and at the next session of the General Assembly was elected by them, and served until the re-organization of the judiciary under the Constitution of 1848. He was then elected one of the three Justices of the Supreme Court December 4, 1848, who were to serve three, six and nine years, by which provision the election of one Justice every three years was secured. The sixyears term fell to Caton, and towards its close, on the resignation of Chief Justice Treat, in April, 1855, he succeeded the place of pre-eminence for the few remaining months. Being re-elected in June, 1855, for nine years, he again became head of the Bench on the resignation of Chief Justice Scates in 1857, and so continued until his own resignation, January 9, 1864, five months before the expiration of his term. To accompany an ailing daughter to Europe he laid aside the ermine which he had worn for over twenty-one years with honor to himself, credit to the Bench and satisfaction to the Bar and the people. Meanwhile he had become interested, in 1849, in what was then known as O'Reilly's telegraph, but which was organized as the Illinois & Mississippi Telegraph Company, of which he was chosen a director. In 1852 the company was on the verge of bankruptcy and was saved only by Judge Caton's business tact and fertility of resource. He proposed that the company should obtain from the General Assembly of Illinois an amendment to their charter authorizing an assessment, and the sale of the defaulting stock. The board concurred and elected him president and general superintendent with absolute power. He secured the necessary legislation, and obtained enough from an assessment of \$2.50 on each share, and the sales of defaulting shares, to meet the most pressing obligations; and devoted his spare time, without however the slightest infringement on his judicial functions. He studied the art of telegraphy, making himself an expert of that day; traveling in the Northern wilds to obtain a supply of cedar posts, negotiating with railroad companies in Illinois, Iowa and Minnesota for transportation, and placing his lines along their roads. The Weekly Democrat of November 3, 1853, thus refers to his activity at this period: "Judge Caton will soon be the telegraph king of the West. From all parts of Illinois we have reports of the system and energy with which the telegraph lines are managed, and of new vil-

<sup>\*</sup> On the Supreme Court list, his name does not appear until December

<sup>7, 1835. &</sup>quot;Judge Caton holds that this was the first term of the Circuit Court of Chicago in which any law histness was done. If Judge Voung was here earlier, he may have organized a grand jury, or only passed through.

lages being put in communication with the rest of mankind by means of the lightning wires." After some years the stock of the company began to pay dividends; and in 1867 its lines were leased to the Western Union Telegraph Company, Judge Caton retiring from the management. His pursuits since then have been a combination of literary and business enterprises, intermingled with the superintendence of his large farm, and the adornment of his city home on Calumet Avenue, and numerous journeys at home and abroad. His judicial decisions are scattered through twenty-seven volumes of Illinois Reports from Scammon III to Illinois XXX. In these he has stamped the impress of his mind indelibly on the jurisprudence of the State. They exhibit a man of industry in research, a writer of vigor and method, a thinker who is argumentative and discriminating, and occasionally original. A few of his decisions especially after experience had taught him to lop off redundency, would do credit to a Judge of any Bench, State or National. While not overladen with citations they are marked by deliberation and sound sense, and have stood the test of time. His early habits of self reliance impart a vigorous individuality, and his power of seizing essential points gives a clearness to his decisions that make them both readable and valuable. The best traits of his judicial style are reproduced in his other writings which cover antiquarian and scientific as well as purely literary and historical researches. He generally expresses his thought with clearness and precision, and as much condensation as is consistent with an easy, full and unaffected style. As an advocate he was not remarkable for readiness, requiring careful study to insure success. But his long experience as a Judge and man of affairs, enhanced by his later industry in the fields of literature, has developed a fair readiness for extemporaneous speaking, and some of his latest public addresses have been marked by the easy self-possession of a man long accustomed to the exercise of recognized and respected authority. His mind is rather active than brilliant; and he is properly regarded by himself and others as a man of patient industry, endowed with a good working mental apparatus rather than genius or phenomenal power. Of large and rugged frame, his brain is of similar type—brawn and brain being closely related. At this writing, he is in his seventy-second year, still hale and active, alternating between town and country, between literary investigations and business undertakings, between scientific inquiries and the pursuits of a country gentleman, surrounded by his flocks and herds, with no serious physical impairment except a dimness of vision produced by cataract which he hopes to have successfully removed in a few months. Mr. and Mrs. Caton are the parents of seven children, of whom three died in infancy, one at the age of five, and three survive. Of these one is a son, Arthur J., who is a lawyer, and two are daughters, Mrs. Norman Williams and Mrs. Charles E. Towne, whose husbands are lawyers. All these reside in their respective homes within the same inclosure as their parents, which seems the crowning glory of a life largely devoted to the welfare of the family.

Grant Goodrich, born in Milton Township, Saratoga Co., N. Y., August 11, 1812, is the eighth son and ninth child of Gideon and Eunice Warren Goodrich, and a direct descendant in the seventh generation from William Goodrich, who arrived in New England in 1630. In 1817 Gideon Goodrich removed with his family to Chautauqua County, N. Y., and here the subject of our sketch received his early education in his father's house, from a teacher whose pupils consisted

mainly of the Goodrich children. Some five years later young Goodrich went to live with a married sister at Westfield, in the same county, where he had an opportunity to get an inkling of the higher English branches and of the Greek and Latin classics under the guidance of a resident lawyer. About 1825 being it was thought predisposed to consumption, he took to lake navigation in the vessels of his brother, a shipowner of Portland Harbor on Lake Erie, whither his father had also removed. In 1827 with a physical system strengthened beyond expectation by the air and exercise of two years of seafaring life, young Goodrich, now in his sixteenth year, returned to Westfield to prosecute his studies at the Academy of that place. In 1830, he there entered the law office of Dixon & Smith; and in his twenty-second year set out for the West, arriving in Chicago, "early in May, 1834." Two months later he made a journey to Jacksonville, where he was examined and licensed by Judge Lockwood of the Supreme Court. As early as June, 1835, he formed a law partnership with A. N. Fullerton, which was chiefly devoted to the sale and renting of real estate, and was dissolved February 22, 1836. Within a few days Mr. Goodrich became the law partner of Giles Spring, and so continued until the election of the latter to the Bench in 1849. Both partners found wives at Westfield, where Goodrich had been long and favorably known, and where he had joined the Methodist Church in 1832. He married Miss Juliet Atwater, July 24, 1836. In common with almost every other enterprising citizen of the Chicago of 1837 the panic of that year found him involved on his own and others' account to the extent of \$60,000, which it took many years to clear off, but which he eventually paid without abatement. He not only advocated payment in full of all obligations by the State, city and individuals, but enforced the exhortation by example. In 1838, he was elected Alderman of the Sixth Ward, and was president of the Lyceum in 1839. The firm of Spring & Goodrich did a very respectable part of the law business of Chicago during the thirteen years of its continuance, the excellent personal habits of Mr. Goodrich being a valuable counterpoise to the unfortunate infirmity of Spring, while the legal ability of both commanded the confidence of clients. A short-lived partnership with Buckner S. Morris followed in 1850, and was dissolved in 1857, Mr. Goodrich practicing for a time alone. About this time he co-operated zealously with others for the establishment of the Northwestern University at Evanston. In 1852 he was partner of George Scoville, and in 1855 W. W. Farwell, now better known as Judge Farwell, joined them, the firm becoming Goodrich, Farwell & Scoville. In 1856 Sidney Smith took the place of Scoville, and the prestige of the firm was enhanced rather than diminished by the change, Goodrich, Farwell & Smith being universally recognized as a strong combination. In 1857, Mr. Goodrich's health gave way and under the advice of his physician he made a protracted tour of Europe, not returning home until the spring of 1859, when he was elected Associate Justice of the newly constituted Superior Court of Chicago, a position he retained until 1863, when he resumed his place in the law firm as constituted before his departure for Europe six years before.

In 1871, he lost considerable property by the fire, and it took about five years to recover from its results. In 1874 he withdrew from general practice, and has since devoted himself chiefly to the care of his property, and the encouragement of the various social, religious and benevolent interests of Chicago in which he has

borne a share for more than half a century. Originally a Whig, and later a free-soiler and abolitionist he drifted, easily into the Republican party, and was an earnest supporter of Lincoln's administration and the war for the Union. A temperance man on principle, he prefers high license to prohibition as a means of reducing the appalling volume of crime and poverty which spring from the liquor traffic. As a Judge he ranked among the most absolutely impartial and thoroughly informed on the Bench of this city; and no taint or suspicion of unfaithfulness or venality has ever attached to his career as Judge, lawyer or citizen. His wide business experience and excellent personal habits, as well as his extended knowledge of the principles of law and ready familiarity with the statutes of Illinois, together with his firmness of character and soundness of judgment, have made him not only a successful advocate but a very valuable counselor. Mr. and Mrs. Goodrich are the parents of four sons and one daughter. One son died at the age of twenty-six, a studious, well educated and promising lawyer. Another son is now a member of the Chicago Bar. A third son is a manufacturer in Boston, and the fourth is a real estate dealer here. The daughter settled in St. Louis, on her marriage, but on the death of her husband returned to her father's house. Now 1883 in his seventy-second year, and in the enjoyment of exceptional health and vigor, Mr. Goodrich can look back on a more successful and better rounded life than most men.

MARK SKINNER was born September 13, 1813, at Manchester. Bennington Co., Vt., where his father, Richard, a native of Connecticut, had settled as a law-yer in 1800. His mother was of the historic Pierpont family. The elder Skinner became professionally and politically prominent in the State of his adoption. He was Prosecuting Attorney and Probate Judge, Member of the Legislature and Governor, Representative in Congress, and Chief Justice of the State. Young Skinner had all the advantages of a good early education, followed by a careful preparation for college and com-

Mark Fruin

pleted by a course of study in Middlebury College, Vermont, which he entered in 1830, and from which he graduated in 1833, before he was quite twenty. His father died the same year, and he began his law studies under Judge Ezek Cowen at Saratoga Springs, and Nicholas Hill, afterward of Albany. He also spent a year at the New Haven Law School of Yale. He now determined to make Chicago his home and arrived here

in July, 1836.

He at once obtained admission to the Bar, and within a month formed a law partnership with Mr. Beaumont. In 1837 he was chosen one of the board of School Inspectors, and for many years he was a leading spirit in all that concerned the well-being and advancement of the school interests of Chicago. He was chosen City Attorney March 10, 1840, and on the resignation by Justin Butterfield of the office of U. S. District Attorney for Illinois, in 1844, Mr. Skinner was appointed to fill the vacancy, and an effort was made by his friends to secure him a more permanent occupancy of the position, but the friends of I. N. Arnold also bestirred themselves in the same direction. In the interests of harmony [Mr. Skinner peremptorily declined being a candidate in March, 1845,] the appointment was given

to D. L. Gregg, of Joliet. In 1846 Mr. Skinner was elected to the Legislature, and was appointed chairman of the committee on finance. He introduced a bill for refunding the State debt which was of great value, by definitely determining the extent of the debt, by introducing system and responsibility in its management, and by reducing six or eight different styles of bonds into one uniform and only authorized issue. In the apportionment of delegates to the State Convention of 1847, he labored with success to secure as the basis thereof the State census of 1845 rather than the United States census of 1840. By reason of the more rapid growth of Chicago and northern Illinois, a just representation and proper weight of influence in the coming convention could thus only have been secured. He was also instrumental at this time in securing the passage of an act to resume payment of interest on the State debt, which had been in default nearly ten years. Soon after the close of his legislative labors, March 1. 1847, he resumed the practice of his profession, forming a partnership with Thomas Hoyne, April 24. On the death of Judge Spring in May, 1851, Mr. Skinner became a candidate for the Bench of the Cook County Court of Common Pleas, and was elected over his competitor, John M. Wilson, for the remainder of Spring's term to June, 1853, when he declined a renomination, because of ill-health contracted through the excessive labors of that court. At his entrance on the duties of Judge, finding the calendar overladen, he sat continuously for seven months, cleared it up and kept ahead. With his retirement from the Bench, his previous withdrawal from political contention, and the interruption to professional practice incident to both episodes as well as the threatened physical infirmity, he turned his attention to the management of large financial operations, in which his success has been very marked. No one in Chicago, perhaps, has so largely represented nonresident capitalists or handled larger amounts of the borrowed money so extensively used in building the city. In 1858 he became a member of the Second Presbyterian Church. In the Rebellion period his services were conspicuous and valuable as first president of the Chicago Sanitary Commission, afterward named the Northwestern, from 1861 to 1864. He was also a member of the more general United States Sanitary Commission during the whole period of its existence. Besides his valuable services in that field he also gave to his country, in 1862, his eldest son Richard, who had just graduated at Yale, at the age of twenty, and who then entered the regular army as Second Lieutenant in the Tenth Infantry, and was killed before Petersburg. Va., June 22, 1864. Judge Skinner has been actively identified with nearly all the benevolent and reformatory enterprises of Chicago, and more especially with the Reform School, of which he was one of the original founders, and president of the first board of directors. With his usual energy and ability he made a businesslike investigation of all such institutions as were accessible for personal inspection and a diligent study from printed reports of the more famous reformatory institutions of England, France and Germany. His connection with the earlier railroads of Chicago as a director of the Galena & Chicago, and of the Chicago, Burlington & Quincy, was of no slight value to those enterprises by reason of his marked financial ability and the wisdom of his counsels as a lawyer and a man of busi-

ENOCH WEBSTER EVANS was born at Fryburg, Oxford Co., Me., in 1817, of William and Anne Webster, Evans. Getting his earlier education at the common

school and academy of Fryburg, he spent two years at Waterville College, and two at Dartmouth, where he graduated in the class of 1838. He studied law under Judge Chase, of Hopkinton, N. H., until the summer of 1840, when he set out for Chicago. Here he spent a few months in the office of Spring & Goodrich, and secured admission to the Bar, as is supposed, although his name does not appear on the Supreme Court list until March 14, 1842. He was partner with Joseph N. Balestier for a short time, Balestier & Evans being found advertised in the Daily American of September 25, 1840. He attracted some attention about the same time as a speaker at the Tippecanoe Club. He soon removed to Dixon, Ill., where for a time he was the partner of the late Judge Heaton, and from there to Kenosha, Wis., where he was married September 16, 1846, to Miss Caroline Hyde, daughter of a Mr. Hyde, of Darien, Genesee Co., N. Y. In 1858 he returned to Chicago, and was for a short time the law partner of James T. Hoyt, and still later, of Mr. Tousely. He was, however, better fitted for independent professional business than for partnership. There have been but few lawyers so devoted to the profession as Mr. Evans. He was a lawyer and nothing else, except a good citizen, a worthy man, and an excellent husband and father. ln 1871 he was urged by many of the most influential lawyers to become a candidate for Judge of the Circuit Court of Cook County, but declined. His more notable cases were Wilkinson 78. Chicago Tribune, and the Zeigenmeyer murder case. He was very extensively identified with suits for damages against corporations, especially the railroads and the city, in cases of personal injury, and his success in these was quite remarkable. He was naturally, or by force of habit, earnest, urgent and convincing as a speaker, and was usually able to marshal all his resources of pleading and argument, as well as persuasion and eloquence, as far as necessary for the success of his case, before a jury. But his power before the Supreme Court, or in chambers, was still more creditable to his ability as a thorough lawyer. He died September 2, 1879, leaving a wife, two sons and two daughters. The elder of the sons is William W., a lawyer, and the younger is Lewis H., a civil engineer. Of the daughters one is married and the other single. He was a regular attendant at St. John's Episcopal Church, especially while in charge of his friend, Dr. H. N. Powers, but was not a member of any Church. At the Bar meeting in commemoration of his death Calvin De Wolf, who had known him since 1840, said: "He was eminently worthy of admiration and esteem;" and the committee on resolutions declared: "That in the death of Mr. Evans the community had lost a most worthy and excellent citizen, a man of the highest integrity and honor, the Bar one of its brightest ornaments, the record of whose professional career during its entire length has never suffered blot or stain, and his widow and family a husband and father endeared to them by that devotedly affectionate attachment which renders home so worthy." "He was not," said Judge Moore, "an ordinary man, but one who ran over with earnestness for whatever he undertook. He was a lawyer of more than usual learning and intelligence. \* \* \* He was a man of majestic sentiment, who drew others to him.'

JAMES M. STRODE, faintly connected with Chicago in those earlier years, first as a circuit-riding attorney, then as State Senator, 1832 to 1836, with residence still at Galena, and then more closely from 1836 to 1840 as Register of the land-office here, and afterward as member of the Chicago Bar and Prosecuting Attorney

until 1848, belongs as such to a somewhat later period than 1837, when he was properly a Government official and not a practicing lawyer. Professionally he belonged about equally to the Bars of Jo Daviess, Cook, and Mc-Henry counties, successively.

Albert Greene Leary, who is thought to have been a native of Maryland, is first heard of in this section through the Chicago American of August 15, 1835. as a lawyer at Ottawa, implying that he must have been admitted to the Bar in some other State, as he is not enrolled in Illinois until March 2, 1837. He must have soon removed to Chicago or Cook County, as he was elected to represent the latter in the State Legislature on the repudiation ticket in 1836. On the 19th of November he notified his law customers to call on I. Y. Scammon during his own absence in the East, whence he returned in time for the first session of the Tenth General Assembly, at Vandalia, December 5, 1836, at which he or his friends in his behalf tried to procure his election as State's Attorney, but he was rejected in March, 1837, as ineligible, being a member of the General Assembly. At the close of the short extra session in July, he returned to practice in Chicago and advertised location August 16, 1837, but does not seem to have exercised much influence or made any impression on the public mind as a member of the Bar. In 1839, he lost his books and papers by fire. In 1840 he was again elected to the Legislature. The second session of the Twelfth General Assembly of Illinois closed March 1, 1841, and Mr. Leary again turned his attention to law, advertising as commissioner for Maryland April 9. He is again advertised as a lawyer in February, 1842. May 21, 1845, the death of his infant child at St. Louis is noticed in the Chicago Democrat; and his own of yellow fever at New Orleans, over eight years later, in the Chicago Weekly Democrat of August 27, 1853. He had married a niece of President Tyler, and their associations are judged to have been mainly Southern,

Mahlon Dickerson Ogden was born June 14, 1811, at Walton on the Delaware, in Delaware County, N. Y., where his father had settled about 1792. He was named for Mahlon Dickerson, United States Senator and Governor of New Jersey, with whom the father had been associated in early life. Young Ogden was educated in the district school, and later at Trinity College, Geneva, N. V., where he graduated about 1832. Soon afterward he removed to Columbia, Ohio, where he studied law under the future Justice Swayne until 1836, when he was admitted to the Bar. Meanwhile his elder brother, William B., had formed in Chicago the nucleus of a large business in real estate, as the representative of the American Land Company, of Frederick and Arthur Bronson and other Eastern investors in Chicago lots and Illinois lands. Hither Mahlon D, proceeded on a visit, and deciding to make it his future home, returned to Columbus, where he was married to Miss Kasson, and went back to Chicago in the spring of 1837, to settle. In accordance with an agreement formed at his previous visit he now entered into partnership with I. N. Arnold; and was admitted to the Bar of Illinois December 11, 1837. Mr. Ogden never had much to do with the court business of Arnold & Ogden, his taste running more in the line of office work, and especially to real estate, and disputed titles. For ten years the firm had charge of the law relations and legal papers of the business managed by William B. Ogden and later by Ogden & Jones. He resided in the old officers' quarters in Fort Dearborn for a few years after his arrival here, houses being still scarce; but removed about 1839 to the corner of Dearborn Avenue and Ontario Street, where he had built the home he occupied for twenty years. In 1841 he was elected Probate Judge or, as then styled, Justice of the Probate Court, and held the office for four years, acceptably to the general public. In 1845 he was elected Alderman of the Sixth Ward. In 1847 the partnership with Mr. Arnold was dissolved. Mr. Ogden became directly and exclusively identified with the business of his brother, and in 1849 obtained a partnership interest in the firm of Ogden, Jones & Co. In 1851 Mrs. Ogden died, leaving two children, Charles C., now a resident of Little Rock, Ark., and Mrs. William E. Strong, of this city. In 1856 the firm of Ogden, Jones & Co. became Ogden, Fleetwood & Co., involving no other change than the replacing of Jones by Fleetwood. In 1856 Mr. Ogden married Miss Frances Sheldon, a daughter of General Sheldon, a former resident of Delaware County, N. Y., but at this time of Janesville, Wis. In 1859 he erected on the block north of Washington Square, the residence which afterward became historic as the only building that escaped destruction on the North Side within the range of the great fire. In 1868, the firm was changed to Ogden, Sheldon & Co, in which he and Edwin H. Sheldon were general partners, and William B. Ogden was a special partner until his death. In 1871, in common with nearly all large owners of real estate in Chicago, he sustained heavy loss in the great fire. In 1872 he was elected Alderman in what was called "the strong" Common Council, he and other members of which had been induced to become candidates in opposition to a corrupt ring then in control of the city. The two years' public service thus rendered was the only deviation from private business he allowed himself since 1846. In his original profession he made very little money, but as soon as he went into business he grew rapidly rich. The shrinkage in real estate value which succeeded the panic of 1873, some outside ventures in Ohio manufactures, and the too free use of his credit to certain financial institutions of the city forced him, in 1878, to put his estate into liquidation. The city mansion, already referred to, passed out of his hands, and what had been for some years his summer residence at Elmhurst became the comfortable but much less pretentious home of himself and family. Here he died, February 13, 1880, of pneumonia, after a short illness, in the sixty-ninth year of his age. Mrs. Ogden and her three children, a daughter and two sons, besides the two children by his first wife, survive him. Mr. Ogden was a man of fine personal appearance, but of a delicate constitution, which his excellent habits so fostered that he reached almost the rounded term of three score years and ten. Of a firmness that was akin to obstinacy, of perfect integrity and truthfulness, and possessed of a most delicate sense of honesty, his character was above reproach. In religion, he was a faithful attendant at the services of the Episcopal Church of St. James for forty years before 1877, when he became a regular member. His fame is of the business, rather than the professional or public order. With the few exceptions mentioned, he took no part in public affairs or great public enterprises. His life was of the quiet, useful and industrious type. Possessed of a

useful and industrious type. Possessed of a pleasing address, good conversational powers and a genial temperament, he made hosts of friends. The enhanced value of Chicago realty since his estate was put in liquidation has resulted in giving his heirs a goodly inheritance, reinforced as it has been by their share of the larger estate of their uncle. EDWARD G. RVAN, born in Ireland in 1810, and an immigrant to this country before he was of age, arrived in Chicago in 1836, and advertised as a lawyer as early as December 10, of that year, though his name does not appear on the list of the Supreme Court until the 31st of that month, when he was present at its session in Vandalia on some Chicago law-suits. He formed a partnership with Henry Moore June 1, 1837, but the firm of Moore & Ryan was short-lived, the senior member leaving Chicago in 1838 for his health. Among other activities in 1837, Mr. Ryan took a decided stand against a movement of embarrassed debtors for the suspension of the Municipal Court of Chicago. One of the most earnest advocates of suspension, James Curtiss, having stated at a public meeting that he had

Ellen-

given up his law practice because unwilling to harass the impoverished people, Mr. Ryan exclaimed, "It is very apocryphal whether Mr. Curtiss has abandoned his practice, or his practice has abandoned him." After the separation from Henry Moore, Mr. Ryan became associated with Hugh T. Dickey, under the style of Ryan & Dickey, which was dissolved January 27, 1840. Mr. Ryan now turned his attention to journalism, becoming editor of the Tribune, the first number of which appeared April 4, 1840, and which he freely used in the conflict of the Chicago Bar with Judge Pearson. Being of an irascible disposition, Mr. Ryan made many enemies, which he seemed to regard as proof of intellectual prowess. Being also of a combative turn of mind, and withal full of an overweening self-esteem, he seemed to delight in persistent efforts to impress others with an equal appreciation of his assumed superiority. In 1842 he removed to Racine, and thenceforth his history belongs to Wisconsin, where he rose to eminence, becoming Chief Justice in 1874, because of his acknowledged probity and ability, notwithstanding the extreme unpopularity of his political views ten years before. He died October 19, 1880, reaching within twenty-five days of threescore years and ten.

PATRICK BALLINGALL, often assigned to this period, was then a student with Spring & Goodrich, and became a member of the Chicago Bar only after his return from DuPage County in 1843.

HUGH T. DICKEY is also similarly mentioned, al-

though not a resident until 1838.

NORMAN B. JUDD, an arrival of 1836, and partner with Caton as early as August, 1837, will be sketched elsewhere, about the period of the Civil War, when he achieved a national reputation.

GEORGE MANIERRE, an arrival of 1835, and Deputy Clerk of the Circuit Court and law student in 1836, was not admitted to the Bar until July 15, 1839, and belongs therefore to a somewhat later period.

The Hoyne

GEORGE W. MEEKER, a partner of Manierre, was like him a student in 1837, and admitted to the Bar half a year after him, December 16, 1839.

Thomas Hovne, also an arrival of 1837, and often spoken of as a member of the Bar of that year, was not admitted to practice until December 16, 1839, and will be more appropriately sketched at a later period.

COURTS OF CHICAGO, 1837 TO 1844.—By the act of February 4, 1837, a new circuit was established. It included Cook County, and was numbered the Seventh. For its Judge, John Pearson, of Danville, an obscure lawyer, admitted to the Bar December 5, 1833, was chosen by the Legislature. The selection proved very distasteful to the lawyers of Chicago, Hon. Thomas Hoyne, despite his judicial candor, writing of this event, more than a generation later, reflects a feeling of disappointment that at the time must have been intense. Judge Pearson, he says, "was known to be incompetent for the position, and to be sadly wanting in the qualities which make a good judge. His appointment had consequently been unpopular with the Chicago Bar from the beginning. The Democratic party was in power in the State, and John Pearson was a Democrat—he was a poor lawyer and an industrious office-seeker.

The spring term in 1837 was opened May 22, by Judge Pearson, with seven hundred cases on the docket. Before his arrival he had promulgated an elaborate, burdensome and perhaps somewhat arbitrary system of rules for the guidance of lawyers transacting business in his court, which did not tend to smooth the way to a favorable reception of himself, his methods, or his decisions by the Chicago Bar. But the urgency of impatient clients and the heavy docket rendered the dispatch of business a paramount object, and the indulgence of resentful feelings by either party to the impending conflict would have given an undesirable advantage to the opposite side. Thus both terms of the year 1837 passed without an outburst. In 1838, this sustained forbearance and self-restraint on both sides promised to establish a reconciliation, or at least a modus vivendi, which if not cordial would be mutually respectful, and the organ of the Whigs rather pointedly and encouragingly noted these indications.

But the sectional jealousy and political antagonism that had unhappily been set in motion by the appointment of Judge Pearson, even more than his alleged incompetency, would not suffer the accomplishment of so desirable a result, and the suppressed quarrel found vent in 1839. The spring term had been held, and the docket had again become so burdened by reason of the discontinuance of the Municipal Court that he anounced an extra term of the Circuit Court for the second Monday in May. It was at that special term, as related farther on, that the issue between the Bench and the Bar of Chicago took shape. Meanwhile two new courts had been created for Chicago by its charter of March 4, 1837.

THE FIRST MAYOR'S COURT.—Section 68 of the city charter provided, "That the Mayor \*\*\* shall have the same jurisdiction within the limits of said city \*\*\* as the Justices of the Peace, upon his conforming to the requirements \*\*\* regulating the office of the Justice of the Peace."

THE MUNICIPAL COURT,—It was by the establishment of this court more especially that relief was sought to be given to the administration of justice in Chicago. The accumulation of untried cases on the docket of the Circuit Court of Cook County, and the delay in civil suits, which amounted almost to a denial of justice, owing to the urgency and legal preference of criminal cases, had

rendered imperative some additional provision. The Constitution of 1818, in its Bill of Rights, Article VIII, Section 12, had provided against such a state of things in words which admirably summarized the fundamental purpose of laws and courts: "Every person within this State ought to find a certain remedy in the laws for all injuries or wrongs which he may receive in his person, property or character, he ought to obtain right and justice freely, and without being obliged to purchase it, completely and without denial, promptly and without delay, conformably to the laws."

Sections 69 to 82 of the charter are concerned with this court, the chief provisions being that it should have jurisdiction concurrent with the Circuit Court, in all matters, civil or criminal, arising within the city where either party is a resident. It should be held by one Judge, to be appointed by the General Assembly, commissioned by the Governor, to hold office during good behavior, and to be paid by the Common Council. His salary and the other expenses of his court were to be paid out of the docket fees, which were to be collected by the clerk and turned over to the City Treasurer. The clerk was to be appointed by the Judge; the jurors to be chosen by the Common Council, and summoned by the High Constable. His functions as an officer of this court within the city were the same as those of Sheriffs in their respective counties, and he was to be elected by the people, like other city officers, at the annual election. It was a court of record, with a seal, and its process was directed to the High Constable except where a defendant resided outside the city limits, when it was directed to the Sheriff. Its judgments had the same liens on real and personal estate as those of the Circuit Court, and all appeals from the Mayor or any other Justice of the Peace were to be taken to next Circuit or Municipal Court whose term came first. All rules not specially laid down were to conform to those of the Circuit Court, and all appeals to the Supreme Court were to be carried up in the same way as from the Circuit Court.

By a short supplementary act of July 21, 1837, it was further provided that "its Judge shall possess all and singular the powers, and he is hereby required to perform all judicial duties appertaining to the office of the Circuit Courts of this State, and to issue all such writs and process as is, or may hereafter, by statutory provisions, be made issuable from the Circuit Courts of this State."

For this Court, Hon. Thomas Ford, who had resigned as Judge of the Sixth Circuit in February, was selected by the Legislature. He had been Prosecuting Attorney in the Fifth Circuit, and Judge of the Sixth, when each successively included Cook County, and was favorably regarded by the Chicago Bar. He had acquired the reputation of being an excellent lawyer; and as a judge was a terror to evil-doers, while as a man he was a warm and devoted friend, or an equally bitter enemy. As a citizen and politician he belonged to the dominant Democratic party, but was too broad to be a partisan, and when Governor, 1842 to 1846, did not hesitate to break loose from the unwisdom of repudiation and stay laws, or to espouse, support and urge with all the influence of his position every measure calculated to build up the shattered credit of the State.

The terms of the Municipal Court began with every alternate month, and it was virtually in perpetual session. An attempt was made by the politicians to prevent the opening of this court, the circumstances of which are thus narrated by the late Hon. Thomas

Hoyne:

"It was a court of superior or general jurisdiction within the city. It was to be held that winter 1837-38 for the first time. It was a time of great pecuniary distress, and all obligations created during the speculative times were just maturing and unpaid, and there was no money to pay them. The dockets were crowded in both the Circuit and Municipal Courts, and something must be done. Some of the debtors resolved that no court should be held; a public meeting was called to prevent it. It was held at the New York House, a frame building on the north side of Lake Street, near Wells. It was held at evening in a long, low dining room lighted only by tallow candles. The chair was occupied by a State Senator, Peter Pruyne; James Curtiss, nominally a lawyer, but more of a Democratic politician, who had, practically, abandoned his profession, was active. But the principal advocate of suspension of the courts was a Judge of the Supreme Court of the State. Theophilus W. Smith. Upon the other side were Collins, Butterfield, Ryan, Scammon, Spring, Goodrich, M. D. Ogden, Arnold and others; and among them the Hon, William B. Ogden, the Mayor of the city, who was subsequently admitted to the Bar of this State February 6, 1841). We will count him in for he did manly service at that meeting in sustaining the law and its regular administration, and in repudiating and denouncing any interference with the courts. He was a noble, generous man, whose hand was seen in all public works. The battle was bitterly fought. It was shown by the opponents of courts that it meant ruin if they should be held, and judgments rendered against the debtors; that \$2,000,000 were then in suit against citizens which was equivalent to a sum of \$500 against every man, woman and child in Chicago. What was to be done? 'No one was to be benefited,' Curtiss said, 'but lawyers,' and he left that profession some time before. Then Ryan, a man of muscular frame, eyes large, wide open, as great lights in his luminous intellect, great as he ever was in debate, but then active, and in his wrath, like Mirabeau, 'fierce as ten furies and terrible as hell,' when he rose to the full height of his great argument, pointing to Curtiss, asked that body of debtors if that was the kind of a lawyer they expected to save them. If so, it had long been a question whether he had left the profession of law, or the law had left him; but of one thing they could be sure-that if he succeeded in his present unlawful attempt, he Ryan would guarantee them justice, and the sooner the law discharged that obligation the better it would be for the community. Butterfield, tall in stature, stern of countenance, denounced the Judge of the Supreme Court who could descend from that lofty seat of a sovereign people majestic as the law, to take a seat with an assassin and murderer of the law like Judge Lynch. Others followed; but the good sense of the meeting laid the resolutions on the table, and the courts were held, as they have been ever since,'

But the end was pot yet; and the contest was transferred to the Legislature. The court was too dispatchful, and debtors found that scarcely had their obligations matured before a judgment and execution were secured in the ever-sitting Municipal Court of Chicago. After only fifteen months of active usefulness, it was legislated out of existence, February 15, 1839, and all its business turned over to the Circuit Court which it had, as intended, so effectually relieved until a supposed political necessity demanded its repeal at the hands of the dominant party. Ten days later Judge Ford was commissioned as Judge of the Ninth Circuit.

ATTEMPT TO IMPEACH JUDGE PEARSON.—The increased burden thrown on his shoulders by the disestablishment of the Municipal Court had led Judge Pearson to hold the extra term in May, previously mentioned. It was at this special term that the dissidence between the Bench and Bar of Chicago became irreconcilable, by the refusal of the Judge to sign a bill of exceptions made by J. Y. Scammon, defendant's lawyer, in Phillips 28. Bristol. The Court unfortunately regarded the exceptions as inspired by a desire to embarrass and antagonize him, rather than an honest defense. In this he was doubtless deceived by his prejudices. The case was appealed by Mr. Scammon, and in virtue of a motion made by him before the Supreme Court, some weeks later, an alternative mandamus was granted commanding Judge Pearson to sign the bill of exceptions referred to, or show cause at next term of Supreme

Court why he did not.

November 11, 1839, as the protracted fall term of the Circuit Court was drawing to an end, Justin Butterfield, whose co-operation had been secured by Mr. Scammon, arose in his place, holding two papers, and, as the affidavit of the clerk, dated November 23, declared: "With marked politeness of manner handed one paper to the Judge, saying that it was a bill of exceptions in the case of Phillips vs. Bristol, tried at a former term. The Judge said, 'I did not sign that bill of exceptions,' to which Mr. Butterfield graciously replied, 'I am aware of that, sir, but here' presenting the other paper, 'is a writ of mandamus from the Supreme Court of this State commanding you to sign it. The Judge held the paper toward Mr. Butterfield, saying, Take it away, sir; to which he replied, 'It is directed to you, sir, and I will leave it with you; I have discharged my duty in serving it, and I will leave it with you.' It was at this point," continued Mr. Hoyne,\* "that the Court turned to me, as clerk, and said, 'Mr. Clerk, enter a fine of twenty dollars against Mr. Butterfield,' and then he threw the papers-the bill of exceptions and writ of mandamus—on the floor in front of the desk. He continued, looking at Butterfield, 'What do you mean, sir?' It was now that Butterfield, raising his voice, hitherto restrained, fired the first gun of what was to be a campaign. 'f mean, sir, to proceed against you by attachment, if you do not obey that writ.' The Judge, replying, cried out, 'Sit down, sir! Sit down, sir!' and to me, saying, ' Proceed with the record.'

"The record was read, the fine of twenty dollars entered up against Butterfield, and the court adjourned. The Judge was descending the Bench, and proceeding to pass through the Bar, when all the lawvers jumped to their feet; while Butterfield promptly marched up to Pearson, saying, 'Sir, you now have disgraced that Bench long enough. Sit down, sir, and let me beg you to immediately attend a meeting of this Bar, to be held instanter, in which we are about to try your case, and rid ourselves and the people, once for all, of your incompetency and ignorance!' The Judge left, but the Bar prepared an impeachment and that winter a long trial followed the presentation of articles before the House of Representatives at Springfield, where all the eloquence of the Bar was invoked, with that of others, to impeach Judge Pearson; but the House, which was largely composed of his political friends, refused to give

the impeachers a hearing.

"He, however, never recovered from the effects of this attack and prosecution. The party paraded him as a martyr, and it was said that he had achieved a triumph

<sup>&</sup>quot; The Lawyer as Pioneer," by Hon. Thomas Hoyne.

over Butterfield, Scammon, Collins, Spring, Skinner, and Goodrich, as they were old Federals and Whigs, and only wanted to be rid of an incorruptible judge, a Democrat who was not to be terrified by such enemies of the Constitution, the Democracy and the Union, Ryan, a life-long Democrat, established a newspaper called the Tribune, to drive Pearson from the Bench. Its leading articles were such as Junius might have written, animated by a spirit of determination to drag from the Bench a Jeffreys or a Scroggs. Pearson was finally disposed of by the party taking him up as a State Senator and electing him from the counties of Cook and Will, in 1840. And from thence, hitherto, the Bench has beeded the lesson, for there has arisen no other occasion for the violent and irrepressible conflict of a Bar and Bench so divided by ignorance and incompetency on one side, and great independence and intelligence upon the other.'

Besides the effort at impeachment, rendered abortive mainly by political influence, the Judge's case was also before the Supreme Court, where he neglected to appear in person, contenting himself with a written defense which he requested a friendly lawyer to file in his behalf. Among the points made therein was the plea, that were this procedure of the Chicago Bar to be sustained, any Judge could, "by a malicious, trifling set of lawyers, if such should be found in a circuit, leaguing against him, be compelled every term to appear in the Supreme Court, and take issue with them on countless bills of exceptions. \* \* \* In this way a combination of designing men might exhaust the means of any Judge in the State, or make him truckle to their will, or

Mr. Scammon made a second motion, before the Supreme Court, January 14, 1840, asking that an attachment might issue against Judge Pearson for neglecting to return the writ of alternative mandamus, or sign the bill of exceptions. The Supreme Court, through Judge Theophilus W. Smith, issued a peremptory mandamus that he should appear before it in person. In the spring term of the Circuit Court at Chicago, he again allowed his feelings to override his judgment, fining Mr. Stuart, editor of the American, \$100, for constructive contempt of court, based on certain adverse editorial criticism during the Stone murder-trial. On appeal, his decision against Stuart was reversed when reached by the Supreme Court in 1842.

compel a resignation for want of funds."

June 9, 1840, the motion for attachment was renewed, and the Court took until the next day to consider; but when the writ was placed in the hands of the Sheriff, it was found that the Judge had availed himself of the postponement and left Springfield. He was pursued and overtaken at Maysville, Clay County, while apparently making the best of his way to cross the border into Indiana. He was taken back to the capital and fined \$100 for contempt, which was refunded with interest by the Fifteenth General Assembly, in the session of 1846.

It was now thought best by his political friends to withdraw him from a conflict in which his adversaries had won all the points, and he was therefore put in nomination as State Senator for the district embracing Cook, Will, DuPage, Lake and McHenry counties, all within the Seventh Circuit, over which he presided as Judge. In July he made an unsuccessful attempt at Chicago to hold a meeting to indorse his candidature; but at the election in August it was found that the Democracy of the district had come up handsomely to the support of their "martyr," Cook County alone giving him 1,404 votes, and sent him triumphantly vindicated to the

Twelfth General Assembly of Illinois, for four years. He resigned the judgeship November 20, 1840.

At this distance of time there is little room to doubt that Judge Pearson through self-willed and obstinate was a well-meaning man and an upright Judge. He was by nature or education, either a warm friend or an uncompromising enemy. In Chicago he was thrown into official relations with a Bar, the leaders of which were politically opposed to him, at a time when party spirit, always too high for justice and candor, was especially intense. Added to this was a sort of intellectual resentment that a Judge from the Wabash country should have been selected to preside over a Bar whose brightest lights were emigrants from the Eastern States. Exhibiting but scant respect and no friendship, they aroused the indignant and unguarded antagonism of a man, among whose faults cunning and hypocrisy could not be counted, nor patience and magnanimity among his virtues. He died at Danville, May 30, 1875, leaving a handsome estate to his family.

THE STONE MURDER-TRIAL.—The most notable criminal trial during the incumbency of Judge Pearson was thus designated. The story of the crime and the execution of Stone is fully related elsewhere in this work. A point of some legal interest is the apparent weakness of the chain of circumstantial evidence upon which he was convicted of the murder of Mrs. Lucretia Thompson, as there set forth. A bit of flannel torn from a shirt which was proved to have belonged to the accused and which was found near the body of the victim, the burning by him of the clothes worn in the earlier part of the day of her disappearance, the club used as the instrument of killing to which still adhered, when found, a bunch of her hair, and a remembered threat by him against her virtue, sworn to by a single witness, in the absence of any circumstances pointing toward any other neighbor, were deemed sufficient to warrant a verdict of murder in the first degree. Nor has there ever been any doubt of its justice, although John Stone stolidly asserted his innocence to the last.

ATTEMPTS TO SUPPLY NEEDED COURT FACILITIES.— Within a year of the disestablishment of the Municipal Court of Chicago, it was recognized by the Legislature that something should be done to relieve the overloaded docket of Cook County. Toward the close of the second session of the Eleventh General Assembly on February 3, 1840, it was enacted that there should be in the county of Cook a term of the Circuit Court on the first Monday in August for the trial of criminal and chancery cases only. And it was specially provided that if the Judge of the Seventh Circuit should be unable to hold the March term in Chicago in 1841, he should there hold a term immediately after the spring term in Lake County, the last to be reached in the circuit. This law, however, by reason of failure to be returned in time by the council of revision did not go into effect until legally promulgated by the Secretary of State, at the close of the first session of the Twelfth General Assembly, December 5, 1842. It is of interest chiefly as showing the pressure of the problem how to give courts enough to Chicago.

SUPREME COURT JUSTICES AS CIRCUIT JUDGES.—
The Twelfth General Assembly, at its second session, for reasons which here need only to be characterized as political, by an act dated February 10, 1841, legislated out of office the Judges of the nine circuits into which the State had by that time become divided. In their stead were created five additional Justices of the Supreme Court, and upon the nine members of that court as thus re-organized were devolved all the Circuit

Court duties of the State, besides their associate duties as the Supreme Court, at the capital, twice a year. This arrangement remained undisturbed until the adoption of the Constitution of 1848. To the Seventh Circuit, including Cook County, was assigned Judge T. W. Smith, who opened the spring term at Chicago toward the close of April, 1841. On the docket were found one thousand and sixty cases. Of these, sixty-nine civil and six chancery were cases remaining over from the disestablished Municipal Court, while sixty-two criminal, fifty-one chancery, and eight hundred and seventy-two civil represent the unfinished business of the Circuit Court. The fall term in 1841 was also held by Judge Smith, but when the period of the spring term in 1842 came round he was too ill to hold a court, and as late as June 8 it was doubted whether he would ever be able to discharge his official duties. To keep Chicago court business within reach of judicial despatch, a special term was held by Stephen A. Douglas, July 18, 1842, the only time he served Chicago as Judge. There was a heavy docket of seven hundred and fifty cases, and but little civil business could be disposed of, because of the pressure on the court of the people's preferred criminal cases. All these terms since Pearson's in 1840 were held in the Chapman Building, corner of Randolph Street and what is now Fifth Avenue, but was then Wells Street, The fall term of 1842 was held by Judge Smith, who had meanwhile recovered. At this term an important decision was that lands in this State sold by the United States are not taxable until five years from date of patent, not date of sale, as has been contended. At this term, too, the Grand Jury found indictments for libel against Walters and Weber, editors of the State Register, at Springfield, and John Wentworth, of the Chicago Democrat, because of an editorial article which appeared in August in the State Register and was copied in the Democrat, containing libelous and scurrilous matter against Judge Smith. It was in the shape of charges and assertions of what was declared to be an act of corruption in an opinion given by him in the Supreme Court in January, 1842, and concurred in by a majority of Judges, in favor of purchases of canal lots in Chicago and Ottawa in 1836. By that decision a peremptory mandamus was awarded against the Canal Commissioners to compel them to admit those purchasers to the benefit of an act of the General Assembly of this State, passed in 1841 in their behalf. He was also charged with removing certain clerks of court in his circuit to gratify personal malignity. With bodily powers weakened by disease and feelings somewhat soured by these attacks it soon came to be understood that he contemplated an early retirement from the Bench. A meeting of the Chicago Bar was held November 25, at which, among others, the following resolution was passed: "That in the estimation of this Bar Hon. T. W. Smith possesses a high order of talent and legal attainments; that as a jurist and lawyer he is able and profound; that his conduct toward the members of this Bar, while on the Bench, has been courteous, gentlemanly, dignified and honorable." He resigned December 26, 1842.

In 1842, about fifty residents of Chicago availed themselves of the bankrupt law in the United States District Court, as Springfield. Unconscious of what the future held in store for the bankrupts of a later generation, there was much grumbling because it cost \$100 to get a discharge in bankruptcy, even where the case was not contested. The lawyers charged lifty dollars and the other expenses were fifty more. This year marks the point of greatest financial depression in Chi-

cago, which in a superficial view has been declared to have constituted "the harvest of the notary and law-yer," but it need scarcely be remarked that a period of general distress is fraught with counteracting draw-backs to even lawyers and notaries. June 19, 1843, the same United States Court issued a peremptory order, "That all applicants for benefit of bankrupt law perfect their application before the 20th of December next. Upon their failure to do so, the petition will be dismissed."

Meanwhile on February 14, 1843, three terms of the Circuit Court were provided for Cook County, on the fourth Monday in March, the third Monday in August, and the first Monday in November, of each year. And at the same session, it was enacted that the Supreme Court should hold only one term, to begin at the capital on the second Monday in December of each year.

Richard M. Young, of whom a biographical sketch is elsewhere given, was commissioned a Justice of the Supreme Court January 14, 1843, and assigned to the Seventh Circuit. He held several terms of the Circuit Court in Cook County until his second resignation in 1847. Although never rated very high as a jurist, he was always much esteemed here, and decidedly preferred to some of his colleagues by Bar and people. His clerk of court was Samuel Hoard.

In February, 1844, Representative Wentworth presented to Congress a petition of the Chicago Bar, asking that two terms of the United States courts be held in Chicago each year. At home his constituents were growing impatient of the law's delays, arising from the State's inadequate provision for the city's judicial wants by only three terms of the Circuit Court. A communication from "many citizens," written by a lawyer, who, however, rightly represented the public, appeared in the Weekly Democrat of October 16, asking that the next Legislature should establish a special court for Chicago. This request, supported by the public opinion of which it was the expression, was reinforced December 3, by Governor Ford's message to the General Assembly, in which he urged that increased judicial facilities should be extended to the growing commercial metropolis of the State. The Court of County Commissioners at this time took measures to enlarge and adapt the clerk and recorder's office to the additional purposes of a court-house.

By an act of February 21, 1845, the Fourteenth General Assembly ordained, "That there shall be, and is hereby created and established a Cook County Court. \* \* of record, with a seal and clerk, to be held by a judge to be chosen in the manner, and to hold office for the term of judges of courts of record in the State. \* \* Said court shall have jurisdiction concurrent with the Circuit Courts, \* \* and shall have exclusive jurisdiction in all appealed cases \* \* and in all cases of misdemeanor which are prosecuted by indictment, \* \* The Judge of said court shall hold four terms of said court in each year, in a building to be provided by the County Commissioners Court of said county, in the city of Chicago, commencing on the first Mondays in May, August, November and February, and shall continue each term until all the business before the court is disposed of. \* \* The clerk of said court shall be appointed by the Judge thereof. \* \* The grand and petit jurors shall be elected, and the Sheriff shall perform same duties as in the Circuit Court " Of this court, Hugh T. Dickey was chosen by the Legislature, the first Judge, and James Curtiss was by him appointed the first clerk. Judge Dickey opened the first term of the new court May 5, 1845, and at its close was thus favorably noticed by the Journal,

edited and owned by lawyers, but of the opposite school in politics: "Judge Dickey has during the session of the court shown himself a good lawyer, a sound reasoner, and a dignified, impartial Judge. The rules of the court were submitted to the Bar on the last day of the term, and meeting with their entire approbation were ordered printed." About ten days later, the Weekly Democrat of May 28, said: "He has made his court very popular, and the Bar would not consent to dispense with it or him, upon any terms whatever." The new court clearly met the wishes of the public at the outset, but as will be seen, its docket soon became clogged by the swift-swelling tide of law business in Chicago,

The most notable criminal case of the year 1845, in either court was the Fahey manslaughter, sufficiently

detailed elsewhere in this work.

At the close of the first year and fourth term of the Cook County Court, the Weekly Democrat of February 24, 1846, thus eulogized its presiding officer: "Judge Dickey grows in popularity every succeeding court he holds. His dignity, urbanity, and well-balanced legal mind commend him to all who have anything to do with the court." At their August term an agreed case in relation to assessment for protecting the lake shore was argued before him, and decided against the city. His court as well as the Circuit Court were kept busy with ever increasing judicial business of Chicago. Judge Caton supplied the place of Judge Young at one term of the Circuit Court in 1846, but as soon as the latter got well enough to hold court he presided at a special term, beginning June 15, and yet the docket was al-

Judge Young resigned January 25, 1847, to take office in Washington, and his successor, Jesse B. Thomas, Ir., was commissioned two days later. held the office until December 4, 1848, when the new judicial system provided by the constitution of that year went into force. By an act of the Legislature in the spring of 1847, with a view to harmonize the terms of the two courts in Chicago, the two terms of the County Court in August and November were replaced by one term in October. James Curtiss having been elected Mayor, his place as clerk of this court was filled by Louis D. Hoard, appointed thereto by Judge Dickey. The May term opened with three hundred and seventyeight cases on the docket; of these two hundred and sixty-eight were common law, fifty-seven chancery, and fifty-three people's cases, but none of any class possessed historic interest.

FIRST LAW SCHOOL IN CHICAGO. — On the first Monday in December, 1847, the first law institute, or school, was opened under the auspices and with the endorsement of the Bench and Bar of Chicago, by John J. Brown, a member of the Bar having a reputation for general scholarship as well as professional learning, and special proficiency as a jury advocate and orator. The announcement which appeared in the Daily Democrat of November 30, was rather grandiloquent and pretentious, but the comprehensive scope outlined perhaps not above his powers, when supplemented, as proposed, by lectures from members of the profession of acknowledged ability in special lines. Mr. Brown was a native of Virginia, settling at Danville, Ill., in 1839, had acquired some reputation in that section. He was the unsuccessful opponent of William Fithian for the State Senate in 1840, but was elected Representative to the same General Assembly. About 1846, he removed to Chicago, and after a year or more of practice here, projected his law school, as above. The impression made on the Bar of Chicago, and of the other sections of the Seventh Circuit where he became known, was quite favorable. He was regarded as an able advocate, scathing in sarcasm and merciless in vituperation. On the hustings as well as at the Bar he could give and take with the best. It was remarked, however, that his scope was really narrow, he adroitly using one or two lines of thought and anecdote, with almost endless variation. "He had his faults," says Linder, "as we all have, over which it is our duty to draw the veil of charity; but no foul blot or stain was ever fixed upon his character as a lawyer or as a man. \* \* He was an honor and an ornament to the Bar of Illinois." "He was naturally a retiring and misanthropic man," says Eastman. "the lenses through which he looked at life seemed to be ever clouded-the glimpses of sunshine rare. \* \* Had his natural temperament been different, had his health been better, had life been more roseate, he would, as the years rolled on, have made for himself a high and honored name. \* \* He was undoubtedly the great master of withering and remorseless irony when aroused, of satirical and scornful gibe, then at the Chicago Bar of sarcasm, that when given full rein had something almost sardonic in it. To this end, his vehement gestures, his eyes, his tall flexible person, and his leonine hair, all added emphasis, and woe to those upon whom the razor-like edge of his tongue fell when unbridled.'

The Judiciary by the Constitution of 1848.— The organizing clauses were as follows:

"The judicial power in this State shall be, and is hereby vested in one supreme court, in circuit courts, in county courts, and in justices of the peace, Provided, that inferior local courts, of civil and criminal jurisdiction, may be established by the General Assembly in the cities of this State, but such courts shall have a uniform organization and jurisdition in such cities.

2. "The Supreme Court shall consist of three Judges, two of whom shall form a quorum; and the concurrence of two of said

Judges shall in all cases be necessary to a decision.

"The State shall be divided into three grand divisions, as nearly equal as may be, and the qualified electors of each division shall elect one of the said Judges for the term of nine years.

"The State shall be divided into nine judicial circuits, in each of which one circuit judge shall be elected by the qualified electors thereof, who shall hold his office for the term of six years, and until his successor shall be commissioned and qualified: Provided, That the General Assembly may increase the number of circuits to meet the future exigencies of the State." They were increased accordingly to thirty before the Constitution of 1848 was replaced by that of 1870."

8. "There shall be two or more terms of the Circuit Court

held annually in each county of this State, at such times as shall be provided by law; and said courts shall have jurisdiction in all cases at law and equity; and in all cases of appeals from inferior courts."

courts.

16 to 19. "There shall be in each county a court to be called a county court. One county judge shall be elected by the qualified voters of each county, who shall hold his office for four years, and until his successor is elected and qualified. The jurisdiction of said court shall extend to all probate and such other jurisdiction as the General Assembly may confer in civil cases, and such criminal cases as may be prescribed by law, where the punishment is by fine only, not exceeding one hundred dollars. The County Judge, with such Justices of the Peace in each county as may be designated by law. shall hold terms for the transaction of county business," replacing the County Commissioners Court and Judge of Probate of the first Constitution, as well as the Probate Justices of later legislative in-

Some supplementary provisos were added in "the schedule," or appendix to this constitution; among others, these: "The ludges of the Supreme Court shall have and exercise the powers and jurisdiction conferred upon the present Judges of that court; and the said Judges of the Circuit Courts shall have and exercise the powers and jurisdiction conferred upon the Judges of those courts, subject to the provisions of this constitution. The Cook and Jo Daviess County Courts shall continue to exist, and the Judge and other officers of the same remain in office until otherwise provided by law."

THE PRE-EMPTION CLAIMS TO CANAL LAND .-- In January, 1848, the trustees of the Illinois & Michigan Canal brought suit against one Mr. Miller, before H. L. Rucker, Justice of the Peace. Sixteen other suits, differing only in the names of the defendants, depended on the result; some two hundred persons were directly interested. The claim was for one hundred and sixty acres to each original pre-emptor, or his later representative, on the canal lands, within what became the city limits, as elsewhere, by the general pre-emption acts of Congress. The canal trustees awarded two blocks to each, as a full equivalent for one hundred and sixty acres of common Government lands. This was not satisfactory to the claimants, and the question was taken into the courts. In this case against Miller, the canal trustees claimed rent for his land since January, 1847, at which time a two years' lease from them had expired. Miller's lawyers, Thomas Hoyne and Patrick Ballingall, undertook to show that he held his pre-emption right by virtue of settlement and improvements made in, and subsequent to 1836, that ignorant of his rights he signed a lease which the trustees presented to him in 1842, which lease was never legally executed; that the estoppel by taking a lease only applied during the existence of that instument, and did not prevent the pre-emptor from setting up his title under the laws of the State. The opinion of Judge Caton and other members of the Supreme Court were cited and presented to the jury by Mr. Hoyne. Two juries disagreed, and when the third was summoned the excitement ran very high, but when they returned a verdict for the defendant, popular enthusiasm knew no bounds. The question came up again, in another form, under Judge Spring, in 1851, and was again decided against the canal trustees, but the higher courts as will be seen eventually reversed these popular decisions of the lower courts.

THE FIRST UNITED STATES COURT at Chicago was opened in July, 1848, in the absence of Justice John McLean, of the Circuit Court, by Judge Nathaniel Pope of the District Court, with his son, William, as clerk. Some lawyers were licensed to practice before it, and other preliminary business done, but no case of importance is known to have occupied the attention of the court at that term.

The Constitution of 1848, as has been seen, restored the circuit judiciary abolished for partisan purposes in 1841, and transferred the election of all Judges from the General Assembly to the people. Judge Hugh T. Dickey, of the Cook County Court, was nominated for the Seventh Circuit by the Democrats, and was elected without opposition from the Whigs. He resigned his previous judgeship, and was commissioned as Circuit Judge December 4, 1848.

February 2, 1849, a decision was rendered in Washington by Justice Woodbury, of the Supreme Court, against the city of Chicago, in the case taken up by bill of injunction, and referring to the pretended right of the corporation to open and keep open the streets and alleys in the Fort Dearborn addition. The decision was in effect that the powers of the corporation did not extend over that region, and that the fee-simple to its streets and alleys was still vested in the United

states.

THE MAYOR'S COURT.—In his second inaugural message to the Common Council in March, 1849, Mayor Woodworth thus sketched the need of such a court: "Situated as we are on the main channel of communication between Western lakes and Southern rivers, there is found here a class of individuals, who, regarding the rights of none, are almost daily in the commission of

crime as a means of converting to their use the substance of their fellow-men. This state of things calls loudly for the organization of a well regulated police. It has been suggested by some that the Mayor should hold a court for the trial of persons charged with a violation of the city ordinances. If the Common Council desire the establishment of such a court, they will receive from me a willing co-operation."

In pursuance of that idea a Mayor's court was instituted as authorized by the city charter, and on April 26 it was ordered, and notice given to all police constables, that violators of any city ordinance be brought before the Mayor, daily, at 9 o'clock, in his of-

fice in the north room of the market.

COOK COUNTY COURT.—Giles Spring was elected to the judgeship made vacant by the resignation of Mr. Dickey, and was commissioned April 14, 1849. At the May term he found about four hundred civil, one hundred chancery and a proportionate number of criminal cases.

In June a term of the Circuit Court was held by Judge Dickey, but both courts, however efficiently presided over, were unequal to the complete dispatch of the accumulating judicial business of Chicago. A number of cases were determined at each successive term, but the rapid influx of trade and population outran the best speed of the courts, never remarkable for quick-

ness of procedure.

Early in July Judge Pope, of the United States Court, held the annual term provided to Chicago in the law-rooms of Buckner S. Morris, with William Pope as clerk; Archibald Williams, District Attorney; Benjamin Bond, Marshal, and George W. Meeker, Commissioner. The court adjourned August 11, having lasted some five weeks and disposed of over twenty-five important cases. Among others a marine case, which excited much interest at the time, was determined. In November, 1848, the propeller "Ontario" collided with the barque "Utica," on Lake Huron. The owners of the latter brought suit, and the court decreed to them for damages \$790.01 and costs.

At the October term of the Cook County Court, Judge Spring had the largest criminal docket since the establishment of the court in 1845. There were at the opening of court sixty-one cases, and the Grand Jury returned eight or ten additional indictments. By act of November 5,1849, the General Assembly ordered that to the title of Cook County Court should be added the This was designed to diswords of common pleas. tinguish Judge Spring's court from the County Courts of administration and probate established by the new constitution to replace the courts of county commissioners. The original County Courts, instituted by the act of 1845 were only two in number, for Cook and Jo Daviess counties, occasioned by the growth of Galena and Chicago, and were served by one judge. It was now provided by the new act that the Cook County Court of Common Pleas and the Circuit Court of Cook County should have equal and concurrent jurisdiction; that the terms of the former should begin on the first Mondays in February and September, and of the latter on the corresponding days in May and November, and that all appeals from justices should be taken to which ever term of either court came next after the date of such appeal.

The year 1850 was marked by the decease of several members of the judiciary, more or less connected with Chicago. Nathaniel Pope of the United States District Court, in January; Jesse B. Thomas, Jr., ex-Justice of the Supreme Court of Illinois, in February, and Thomas Ford, ex-Circuit Judge and ex-Governor, in November.

Isaac N. Arnold

NATHANIEL POPE .- Few if any of the men identified with the early history of Illinois, have exercised so potent an influence upon the destiny of Chicago as Judge Pope. The delegate of Illinois Territory in Congress in 1818, he conceived and executed that farsighted measure of statesmanship, demanded as he urged by National as well as State interests, of removing the northern boundary of Illinois from the "east and west line drawn through the southerly bend or extreme of Lake Michigan," to 42° 30", north latitude. It had hitherto been understood that if Congress decided to establish five rather than three States out of the "territory northwest of the Ohio," an alternative provided by the ordinance itself, the line referred to was the predetermined boundary between Illinois and the future State to the North. Mr. Pope set himself to work to secure a wider interpretation, and to enlist influential members in the support of his view, and succeeding in persuading Congress that the Ordiance of 1787 had itself empowered them to make the departure which he advocated. Among the results of the change introduced by him and ingrafted on the enabling act of April 18, 1818, authorizing the people of Illinois to form a State constitution, was the retention of Chicago within Illinois, instead of relegating it to the then Michigan Territory, and the later State of Wisconsin. An imperial city demands an imperial State as well as a local commercial location. But the story of Nathaniel Pope's life in its completeness belongs to the State of which he was one of the most notable founders, rather than to any single point within its borders. Indeed his most effective argument for the change he advocated was based on the broad ground of national interest, and the permanency of the Union, in which he claimed for Illinois a sort of keystone position, touching the Southern and Western States, through the Ohio and Mississippi, and the Northern and Eastern through the Great Lakes. Situated on the main channel of communication between Northern lakes and Western rivers, Illinois would hold together the wide-extending borders of the States.

Jesse B. Thomas, Jr., whose life covered the period from 1806 to 1850, was associated with the Bench and Bar of Chicago only during the last few years of his active work, while as a State officer he was more or less conspicuous since 1830. He was commissioned as Judge of the First Circuit March 20, 1837, and resigned in 1839. He was appointed Associate Justice of the Supreme Court August 16, 1843, to fill the place left vacant by the election of Stephen A. Douglas to the Twenty-eighth Congress. This he resigned two years later, and formed a law partnership with Patrick Ballingall; but was again appointed to the same office, to replace Judge Young, as stated. He had also filled the offices of State Senator, Attorney-general of the State, and Representative in the General Assembly. He died of erysipelas February 20, 1850, with a reputation—as official, lawyer, Judge and citizen-for integrity, worth and honor that have made his name respected throughout the State, which he had served faithfully and creditably, if not always brilliantly, in every field of labor to which he was summoned.

THOMAS FORD, although twice connected with the judiciary of Chicago, and still earlier associated with its Bench and Bar as Prosecuting Attorney of the Fifth Circuit, by reason of his later elevation to the Governorship of Illinois, belongs to the history of the State rather than the history of Chicago. The February term of the Court of Common Pleas was somewhat delayed by an illness of Judge Spring, but he soon made up

for lost time, being a man of great energy, bright intellect and quick perceptions. Successful in the dispatch of business, a number of his decisions were reversed, but perhaps no larger percentage than most of the lower courts. February 19, 1850, President Taylor commissioned Thomas Drummond, of Galena, to succeed Nathaniel Pope, deceased, as United States District Judge for Illinois. Mr. Drummond had been a member of the Legislature, 1840-42, was a Whig of pronounced convictions, and indorsed by two of the most prominent members of the party and of the Bar of Illinois-Edward D. Barker, of Galena, member of Congress, and Justin Butterfield, of Chicago, Commissioner of the General Land-office. The selection has ever since been regarded as an excellent one, and Judge Drummond entered at once on the discharge of his duties. He held a term of his court in Chicago in 1850; has continued to hold them of increasing length and in larger number for a generation, and happily the end is not yet. Though now entering upon his seventyfifth year, he holds his own among the jurists of the day, commanding universal respect for firmness, independence, courage and conscientiousness, as well as professional ability, judicial impartiality, and unbroken vigor of mind.

At the May term of the Circuit Court in 1850, among the many cases of no special interest was one of a class that perhaps deserves mention as a reminder to the reader of a particular phase of Chicago's growth. A verdict of \$575 was given the owners of the schooner "Jane" against the steamer "Sam Ward," for damage to the former in being run into by the latter vessel.

Police and Mayor's Courts.—In the comprehensive act of the Legislature, approved February 14, 1851, which was designed as supplementary to as well as amendatory of the city charter of March 4, 1837, in chapter twelve, sections eight and nine, are found these provisions relating to this subject: "The Common Council shall have power to designate two or more Justices of the Peace in any actions for the recovery of any fine or any ordinance, by-law, or police regulation of the City Council, anything in the laws of this State to the contrary notwithstanding. Such Justices shall have power to fine or imprison, or both, in their discretion, where discretion may be vested in them by the ordinance or regulation, or by this act. The Mayor may hold a police court.

"Execution may be issued immediately on the rendition of judgment. If the defendant in any such action have no goods or chattels, lands or tenements, whereof the judgment can be collected, the execution shall require the defendant to be imprisoned in close custody in the jail of Cook County, or bridewell, or house of correction, for a term not exceeding six months, in the discretion of the magistrate or court rendering judgment; and all persons who may be comitted under this section shall be confined one day for each fifty cents of such judgment and costs. All expenses incurred in prosecuting for the recovery of any penalty or forfeiture, when collected, shall be paid to the Treasurer for the use of the city."

At the February term of this court in 1851, the last at which he presided, Judge Spring delighted the hearts of the pre-emption claimants, by deciding for the plaintiffs in the cases of Daniel Brainard 18. Board of Trustees of Illinois & Michigan Canal, and of Thomas Dyer et al. 18, the same. At the May term of the Circuit Court another of these cases, Ellihu Granger 18. Canal Trustees, was similarly decided by Judge Dickey.

But at the June term of the Supreme Court at Ottawa, to which the two first-named cases were appealed, these decisions were reversed, Justices Treat and Trumbull

concurring, with Justice Caton dissenting.

The question at issue was whether the privilege of pre-emption was to be regarded as covering one hundred and sixty acres in a legally platted division of a town or city, as in the broader domain of unsettled Government lands. The lower court had decided substantially in the affirmative. The Supreme Court now reversed that decision, holding that the proper preemption privilege of persons whose claims were situated as described was that such lots or blocks, as the case might be, as were covered by their actual improvements, should be open to them as preferred purchasers at the appraised valuation. This was substantially the award made by the trustees themselves before the cases were taken into court; and when thus sustained by the highest court in the State, came to be accepted as eminently equitable. The public recognized that the decision was rather liberal than otherwise. The impetuous first pronouncement in favor of the claimants was amended by the sober second thought developed and fostered by the arguments before the courts.

The canal lands, through the munificence of Congress, had been withdrawn for a great natural object from the domain of the general pre-emption laws, and were at this time entirely amenable to State laws. A great public benefit was not to be marred by a strained sentimental interpretation of pre-emption privileges in favor of a few and against the broad commercial interests of the State, if not of the whole nation. Those who bought by pre-emption or at public sale, within a legally platted town or city, could only buy in such lots

or blocks as the law there recognized,

FIRST FUGITIVE SLAVE CASE,-On the 7th of June, 1851, before George W. Meeker, United States Commissioner, was arraigned one Morris Johnson, alleged to be a runaway slave. Crawford E. Smith, of Lafayette County, Mo., by power of attorney to Samuel S. Martin, of Chicago, had him arrested as his slave, William, who had escaped from his premises July 4, 1850. After a trial which occupied three days besides postponements, the prisoner was discharged on the 13th, ostensibly because of a discrepancy between the writ and the record. The former called for a copper-colored negro, five feet five inches in height, while the latter showed a dark enough negro to be called black, while he measured - possibly by a trick of the measure-five feet eight inches. His acquittal was largely due to the unpopularity of the law, and the unwillingness of the Bench, Bar and people of Chicago to act as negro-hunters for Southern slaveholders. Among other obstacles thrown in the way of the owner's representatives in this case, was the demand that they should prove by any other hearsay testimony that Missouri was a slave State! Had the decision been different, it is probable Crawford E. Smith would have been no nearer to getting possession of his chattel, as "the underground railroad" was at that time in active operation here.

At the September term of the Cook County Court of Common Pleas to the Bench of which he had been elected upon the death of Giles Spring, Judge Mark Skinner found an overloaded docket. The most important criminal case was "The People 28. Martin O'Brien," for the murder of Stephen Mahan. The trial lasted three days, and no other defense was made than that the prisoner acted in the heat of passion, and to redress an injury offered to one of his relatives by the de-

ceased. He was convicted of manslaughter, and sentenced to eight years in the penitentiary with ten days of each year in solitary confinement.

Judge Skinner sat almost continuously for seven months, including the regular term in February, 1852, cleared the docket of his court, and kept its business

under control for the remainder of his term.

The city had been for several months preparing to throw a bridge across the river on Lake Street, at considerable expense for those times, when in February, 1852, an injunction was asked of the United States District Court, which Judge Drummond refused. Navigation had its interests, and so had the city. The principle was understood to be that the right to navigate the river and the right to cross it by bridges are coexistent, and neither could be permitted to essentially impair, much less destroy the other. They were to be so harmonized as to afford the least possible obstruction or interruption to each other.

In September another murder case was tried before Judge Skinner, "The People 7s. John O'Neil, for the murder of Michael Brady." On Saturday, May 29, 1852, at 12 o'clock at night, Michael Brady, a blacksmith, residing on Indiana Street, corner of LaSalle, was killed by his neighbor, John O'Neil, a tinner. For some time there had been a standing quarrel between them. On the day of the murder, Brady called a little girl of O'Neil an opprobrious epithet. Swearing to be revenged, O'Neil waited at the door of Brady's house, and when the latter appeared, struck him over the head with a heavy club, fracturing his skull, and he expired in a few minutes. O'Neil fled, but was captured the next night, in a house ten miles out of town in the North Branch woods, by Owen Dougherty, Constable, accompanied by Daniel T. Wood, Deputy Sheriff. When he saw the officers he attempted to escape, but was seized

to five years in the penitentiary.

In virtue of the law of 1851, establishing a police court, Henry L. Rucker and Frederick A. Howe had been chosen by the Common Council as Police Justices, mainly for the trial of violations of city ordinances and the lower grade of criminal offenses. Besides these there were six other Justices of the Peace, two for each

by Dougherty, brought into town and lodged in jail. On

trial, he was convicted of manslaughter and sentenced

division of the city.

LEWIS C. KERCHEVAL.—One of the most singular characters of the early Bench and Bar of Chicago was the well-known and eccentric Justice of the Peace, L. C. Kercheval, who died, rather unexpectedly, December 8, 1852. Mr. Kercheval was for many years a member of the judicial fourth estate, hanging on the outer circle of the judiciary. Few Judges were more quick to note and resent a contempt or more ready to vindicate the honor of the court. In 1839 he was Inspector of Customs for the port of Chicago, in which office he was succeeded by George W. Dole, in June, 1841. Some time afterwards he was elected and commissioned a Justice of the Peace; and was for many years a conspicuous representative of his class. "He rises before me to-day," says Eastman, "as distinct as when I used to meet him in the streets, straight as a pine, unbending as an oak, defiant and tough as hickory; with his tall, muscular form, his grizzled hair, blue brass buttoned coat, and his soldier-like bearing, proud as Julius Cæsar, and imperious as the Czar, always neatly dressed, with cleanly shaved face, and—a rara avis in those muddy times—well polished boots."

He was a person of good natural intelligence and ability and took pride in his official station; but became badly demoralized by the high-living habits of the period. He slept in his office, kept no records, but tried to discharge his other duties as a Justice with fidelity and in accord with the dictates of natural honor.

PALLAS PHELPS was another quaint character of the period, and with mock dignity nicknamed by some wag of the Bar as "Chancellor" Phelps. He is said to have been here several years before 1840, and he is known to have been admitted to the Bar in 1843. He liked to try his cases in the newspapers, and dispensed with the luxury of an office. With even the best lawvers, cases were not numerous in those days, and Mr. Phelps was able to carry all the papers relating to his current business in his hat. Justin Butterfield, the acknowledged wit of the Chicago Bar, never missed an opportunity of playing on the eccentricities of Phelps. He made frequent references to his commodious office, "as big as all out doors," and would vary the joke by inquiring if he had any room to let. On rainy days when Chicago crossings were marvels of muddy consistency, the wit of the profession was wont to rally its butt, amid the plaudits of admiring listeners, about the beastly condition of his "office." When the first sprinkling cart was brought into requisition here, Butterfield on meeting Phelps saluted him with affected courtesy, which his dupe, proud of the attention, cordially reciprocated, saying, "A fine morning, your honor! A very fine morning!" "Yes, indeed," replied Butterfield, "and I am glad to find you improving the opportunity, Mr. Phelps, to have your office sprinkled." Whenever Phelps had a case, Mr. Butterfield would inquire, with mock gravity, which of the papers he was to try the case in, or before which of them he should file his brief. Mr. Phelps survived this period many years, and finally disappeared from public notice in the whirl and preoccupation of the great city.

CHICAGO COURTS 1853 TO 1857.—Early in January, 1853, the Chicago Hydraulic Company applied to the Circuit Court for an injunction against the Board of Water Commissioners to stop the further progress of the new water-works, in the South and West divisions, claiming the exclusive right under their charter to supply those sections. The same company had asked for a second injunction to prevent the city from collecting the water-tax. Judge Dickey rejected both petitions. The first could not be granted because exclusive privileges cannot be inferred, and their charter did not ex-pressly confer them. A government, municipal or other, does not debar itself by implication from granting a like power to other corporations. It only debars itself from hindering the first in the exercise of the privileges granted. And although a section of the act establishing the Water Commissioners imposed the obligation of buying the property of the Chicago Hydraulic Company it was not to be understood that such purchase was a condition precedent to the beginning of operations. The remedy of the complainants was by mandamus or other process, not by injunction. The right of the city to collect the water-tax, for similar reasons

could not be denied.

February 7, the first term for 1853 of the Cook County Court of Common Pleas, was held in the new court-house which had been begun eighteen months before, and Judge Skinner congratulating the Bar on the privilege of occupying their new room, where there was no fear of the walls or benches breaking down.

THE RECORDER'S COURT.—By an act, approved February 12, 1853, "an inferior court of civil and criminal jurisdiction, which shall be a court of record," was

established under the above name, having "concurrent jurisdiction within said city with the Circuit Court in all criminal cases, except treason and murder, and of civil cases where the amount in controversy shall not exceed one hundred dollars. \* \* \* Said Judge and Clerk shall be elected by the qualified voters of said city, and shall hold their offices five years. \* \* \* All recognizances, taken before any Judge, Justice or Magistrate in said city, in criminal cases, shall be made returnable to said Recorder's Court. \* \* \* All appeals from decisions of Justices of the Peace within said city shall be taken to said Recorder's Court. \* \* \* Appeals may be taken from said court to the Circuit Court of Cook County in all cases. \* \* \* The regular terms of said court shall be held on the first Monday of each month."

The first term of the Recorder's Court began April 4, 1853, with Robert S. Wilson as Judge and Philip A. Hoyne as clerk, both having been duly chosen by the votes of the people, at the regular city election of the previous month, as provided by act of February 12, es-

tablishing the court.

est court facilities.

March 28, 1853, before Judge Skinner of the Cook County Court of Common Pleas, was argued the request of James H. Collins for an injunction against the Illinois Central Railroad. The petitioner argued in his own behalf, aided by I. N. Arnold and J. M. Wilson, while James F. Joy, of Detroit, was instructed with the advocacy of the railroad's interest. That corporation had purchased from the General Government the made land south of the Government pier. To get to it they had to lay the railroad track through the edge of the lake, back of Mr. Collins's dwelling. He claimed the ownership to the middle of the lake and contested the rightof-way. The final result was that the railroad corporation paid off his claim, as well as the similar one of Charles Walker tried the following year. Several years later, by its "influence" with the General Assembly, it attempted to secure, as against the city as well as the General Government, the whole "lake front" and almost as broad an expanse of the lake itself as was claimed by Mr. Collins, originating a quadrilateral contention which has not yet been definitely determined.

By the expiration of Judge Skinner's term of office there arose a vacancy in the Cook County Court of Common Pleas, to which John M. Wilson was elected April 4, with Walter Kimball as clerk, and Daniel Mc Ilroy as Prosecuting Attorney. A special ferm of the court was held by the new Judge, beginning May 16, at which was found a large docket, notwithstanding his predecessor's great efforts to keep abreast of the business of his court. The truth is, Chicago's civil and criminal law business has always outstripped its great-

THE MAYOR'S COURT.—About the middle of April Mayor Gray began to hold his court regularly in the basement room on the southeast corner of the courthouse, which had been fitted up for the purpose, lightening the work of the Police Justices Rucker and Howe.

ening the work of the Police Justices Rucker and Howe.
About May 1, before Judge Drummond of the
United States Court was procured the first conviction
of a counterfeiter since the establishment of the court
here in 1848. Thomas Hoyne, who had been confirmed as District Attorney, March 22, was assisted by
Grant Goodrich in prosecuting this case to a successful
issue. The offender was James Campbell, and his
crime, the counterfeiting of United States gold coin.
Judge Dickey of the Seventh Judicial Circuit, whose
limits had meanwhile been restricted to the counties of
Cook and Lake, resigned his office because of the press-

ure of private and judicial business, to take effect April 4, 1853. Buckner S. Morris was chosen to fill the vacancy for the remainder of the term until 1855.

Before the United States Court in October was tried the celebrated accretion case known as William S. Johnston 73. William Jones et al. It was the fourth trial of the case, which had been decided, once for plaintiff, once for defendants, and once the jury had disagreed. It involved the title to about five acres of land, lying immediately north of the Government pier, in Kinzie's addition. It is all land thrown up by the action of the waters of Lake Michigan, created mainly by the extension of the pier into the lake. The right of the plaintiff to recover depends upon the claim that a portion of his lot, Number 34, in Kinzie's addition, when originally laid out touched the water on the old line of the lake shore. The defendants had been in possession of the property in dispute for some time, and William Jones purchased Lot 35 September 10, 1834, while the Johnston lot was purchased October 22, 1835. Both deeds were from Robert A. Kinzie. The case occupied the attention of the court for two or three weeks, and after four days' arguments from the learned counsel on both sides, the jury returned a verdict for the plaintiff. The case came up again seven years later.

EDWARD S. SHUMWAY, a member of the Chicago Bar, died at Essex, New York, September 24, 1853, aged thirty-five years. He was a brother of Horatio G., who had been in practice here some years, and whom he followed to Chicago. In 1852 they became partners, and Edward S. was admitted to the Bar in Illinois, June 24, 1853. His health failing, he sought rest and restoration in the home of his youth, with the above result.

A contention had arisen between the canal trustees and the city of Chicago as to which corporation should excavate the basin at the confluence of the North and South branches of the Chicago River. After having been in dispute some time the Supreme Court decided in January, 1854, through Judge Treat, that the canal trustees were not under any obligation to perform the work.

ALLEGED INELIGIBILITY OF A JUDGE.-The necessary papers to commence proceedings before the Cook County Court of Common Pleas against Robert S. Wilson, Judge of the Recorder's Court, were served on him January 7, 1854. A month later, February 9, the application for leave to file a quo warranto against Judge Wilson was argued before Judge John M. Wilson in chambers. William T. Burgess, relator, and John F. Farnsworth argued for the application, with Thomas Hoyne and Robert S. Blackwell against it. Robert S. Wilson for many years a resident of Ann Arbor, Mich., had come to Chicago in 1850, and was of the law firm of Wilson & Frink for two or three years, when, as has been seen, he was elected Judge of the newly created Recorder's Court in March, 1853. He had meanwhile administered justice with an energetic and impartial hand, and the prison and jail of Chicago had many inmates duly sentenced by him. But the question arose as to his eligibility to the office, not having been a resident here for five years before his election. The main points in the defense were that he was not a Judge under the constitution, and that were it otherwise the relator was not legally entitled to make application for the remedy.

In the case of the People, on relation of William T. Burgess 75, Robert S. Wilson, Judge of the Recorder's Court, for unlawfully intruding into and usurping the office of Recorder, Judge John M. Wilson decided against the motion for a quo warranto. The relator

proposed a stipulation to take the case to the Supreme Court, to which the Recorder signified his assent, provided that he could have assurance that a responsible person would appear to prosecute the case, and give security for costs. Two days later Mr. Burgess announced that the case would go up by appeal, under good and responsible bail to prosecute it with all due diligence. In November the Supreme Court affirmed the decision of the lower court, and Judge Wilson continued to discharge the duties of his office with almost universal acceptance. He was generally regarded as specially adapted by his energy and boldness for the judgeship of the Recorder's Court, in which he was a terror to evil doers.

It was provided by the Legislature, February 28, 1854, that Chicago should "pay all fines, expenses and charges for dieting, committing," etc., of all persons convicted by the Recorder's Court. And on February 15, 1855, an act was approved, by which it was ordered that its "rules of practice should conform as near as may be to the rules of practice in the Circuit Court. \* \* \* That in all cases where any suit, either at law or in chancery, shall be commenced in the Recorder's Court of the city of Chicago, and the amount in controversy shall exceed one hundred dollars," such suit might be "transferred to either the Circuit Court of Cook County or to the Cook County Court of Common Pleas," and "all further proceedings in said Recorder's Court shall thereupon cease."

April 18, 1854, Judge Drummond opened a term of the United State courts at his chambers in the Saloon Building; and at the same place a second term was opened by the same, October 3. Neither was a protracted session, and no case of historic interest marred

the uniformity of court routine.

Before the Circuit Court, in May, Judge Morris presiding, in the case of Charles Walker vs. the Illinois Central Railroad, a jury was empaneled on the 9th. The suit was similar to that of James H. Collins in the previous year against the same corporation. The railroad track was laid across Walker's water-lot on the shore, to reach the river. Eight days were occupied in taking testimony, and two in the closing arguments of counsel, when on the 20th, the jury returned a verdict of \$20,712 in favor of plaintiff for damages sustained by loss of land taken by the company for their track. A second claim for damages because of nearness of their depot, was denied, the jury being of opinion that the value of Walker's property was as likely to be enhanced as depreciated by that circumstance. The award by the commissioner, from which both parties had appealed, was \$47,800.

Three alleged fugitive slaves, thrown into jail in Chicago on a charge of assault, were taken to Springfield, on a writ of habeas corpus issued by Judge Treat of the Supreme Court, and discharged by him September 22, 1854. Their names were George and John Buchanan, and William M. Graub. Some ten weeks later Colonel Henry Wilton, United States Marshal, arrived in Chicago from Springfield, armed with four writs for the arrest of as many runaway slaves. He ordered out the Light Guards in anticipation of resistance and directed that Company A of the National Guard should be in readiness. The officer in command of the Light Guards took legal advice from ex-Judge Dickey, who assured him that Henry Wilton had no legal authority to issue such an order, whereupon the military withdrew and the Marshal returned to Springfield without the fugitives.

In the Court of Common Pleas an important land

case known as the ejectment suit of D. A. B. Newkirk 18. Rosella Chapron, and involving eighty acres of land in the region west of Ashland and south of North avenues, together with two hundred and forty acres outside the limits, of the estimated value of half a million dollars, was decided for the plaintiff by Judge John M. Wilson, October 6, 1854; and a copy of the opinion requested by the Bar for publication. But ten months later the Supreme Court, in session at Ottawa, reversed that decision.

The Bar lost three of its members by cholera in 1854. Two of these, J. H. Collins and S. L. Smith, have already been sketched. The third was Alexander

S. Prentiss

ALEXANDER S. Prentiss was born in Cooperstown, N. Y., in March, 1829. He was a son of Colonel John H. Prentiss, who died in 1861. He graduated at Hamilton College before he was twenty-one, studied law under Judge Deino, of Utica, and was admitted to the Bar in New York. In 1851 he came to Chicago, entered the law office of Collins & Williams to familiarize himself with the peculiarities of Illinois law, and was admitted to the Bar in this State, May 3, 1851. Some six months later he formed a partnership with Henry G. Miller, which was dissolved in February, 1853, after which he practised alone until his death, October 13, 1854. The occasion of his early death was due to the marked benevolence and self sacrifice in the presence of public calamity. "When," says Mr. Arnold, "Collins was struck down at the Bar of the Supreme Court, and so many were seeking safety in flight. he remained because he thought he could be of assistance to Mrs. Collins; and again, when Smith was taken, young Prentiss was found ministering to the suffering and afflicted.'

The rulings of Judge Morris in the case of George W. Green, for the alleged murder of his wife, covered some new points in the jurisprudence of Illinois, as it was the first case tried here, in which the testimony of experts as to the presence of poison, ascertained by chemical tests after death, was admitted in evidence.

The February term of the United States courts in Chicago, in 1855, was postponed from the 12th to the 19th, awaiting the act of Congress of the 13th, which divided Illinois into two districts. The criminal docket at that first term of what was thenceforth known as the Northern District of Illinois, embraced twenty-five entries, of which two were burglaries, one counterfeiting, one forgery, and the remainder, various minor offenses.

WILLIAM H. BRADLEY, of Galena, arrived in Chicago March 21, 1855, to fill the position of clerk of the United States courts by appointment of Judge Drummond, and has served in that capacity with general acceptance

to the present time.

The April term of the Recorder's Court began April 2, with one hundred and fifteen civil and sixty-three criminal cases on the docket. Since its establishment two years before, seven hundred and fifty three indictments had been disposed of, and one hundred and forty criminals sentenced. Of all the decisions from which appeals had been taken only one was reversed. For some months there had been more cases, civil and criminal, tried in the Recorder's Court of Chicago than in any court in the United States, except a few of the police courts of the larger cities. "We did," says Philip A. Hoyne, the then clerk, "a land-office business from 1854 to 1857."

BEER RIOTERS' TRIAL.—Before the Recorder's Court, June 15, 1855, the indictment found against four-teen of the participants in the "Beer Riot" of April 21,

was taken up, and the motion for separate trials overruled. There was some difficulty in getting a jury, and it was not completed until the 18th. Soon after the municipal election in March an issue was joined with the foreigners on the liquor question. March, Mayor Boone issued a proclamation notifying saloon-keepers that the ordinance requiring their places to be kept closed on the Sabbath would be strictly enforced. That was on Saturday; and on Sunday, the 18th, owing to the insufficiency of the notice, there were naturally many violations, and many arrests, but the next Sunday the saloons were very generally closed. At the trial of several of these saloon cases on Monday, March 26, before Justice H. L. Rucker, of the Police Court, the defendants raised the question of jurisdiction. They claimed that as these were criminal offenses, they could be prosecuted only by indictment; and that criminal cases cognizable by Police Court justices meant such cases only as that entire body of the judiciary, known to the Constitution as Justices of the Peace, might try and determine. A few days later, Justice Rucker decided that the Justices had a right to try saloon cases. Meanwhile, at a meeting of the Common Council, March 27, the license to sell liquor was fixed at \$300 from that date to July 1, 1856, when the prohibitory liquor law was to go into effect if sanctioned by the votes of the people at the preceding June election. Some dealers paid the fee and others gave up the business, but most preferred to test the question in the courts and before the people. Frequent meetings were held in North Market Hall by saloon-keepers and brewers, mostly Germans, urged on and encouraged by wholesale liquor dealers and the allied interests generally. They issued for gratuitous distribution a campaign paper known as the Anti-Prohibitionist. Meanwhile Rucker's decisions continued to be given in favor of the city with aggravating uniformity. Early in the contest it was announced in behalf of the defendants that whenever an adverse decision should be rendered, the case would be taken by successive appeals to the Supreme Court. A large number of these cases were to be tried on Friday, April 20, before Justice Rucker. During the week active preparations were made by the malcontents for a demonstration in force, either in the hope of overawing the court, or with a view perhaps to serve a sort of mob-law notice on the municipal administration just elected on the Know-Nothing ticket, that they should not expect to force their puritanical notions down the foreign throats, where beer and liquor had been wont to flow unburdened by so heavy a tax. On that day, about one hundred men, headed by a drummer, marched through some of the streets and took up a position on Randolph Street, opposite court-house square, where they remained until it was learned that the cases would not then be heard, as Mr. Rucker was out of town. On Saturday, April 21, the demonstration was repeated, when the crowd came into collision with the police, who had been ordered to disperse them. As the mob rounded the corner of Clark and Randolph streets about eleven o'clock, they were met by the officers of the law when about a dozen shots were fired by the more hasty spirits in the crowd. Peter Martin an alleged rioter, was killed; J. H. Reese and J. H. Kedzie, two unoffending citizens, were wounded; George W. Hunt, a policeman, was so severely injured in the arm that amputation became necessary, and Nathan Weston, another officer, was also dangerously wounded. Some seventy or eighty "rioters" were arrested and jailed, but only fourteen were held, indicted and brought to trial. The Light Guard, Flying Artillery, and a num-

ber of special policemen sworn in for the occasion, patrolled the streets for three or four days and nights until their own excitement, the alarm of the authorities and the apprehensions of non-combatants had subsided. The liquor-dealers published a card May 2, denying the allegation that the money contributed by them was designed to be used in resisting the laws; their purpose was to test the legality of the new license law, which was personally oppressive, and from a business point of view too restrictive of trade. The Anti-Prohibitionist, they also said, was published for a similarly broad and statesmenlike reason, to oppose an innovation unheard of in all history. The trial begun June 15, and closed June 30, with the acquittal of all except two, who had been more clearly identified with the alleged violence to the police, or had been more feebly defended. These were Farrell and Halleman, both Irishmen, who were sentenced to one year in the penitentiary, but were granted a new trial by Recorder Wilson, July 11, on the ground of interference with the jury by the constable in charge. They were not again brought to trial, it seeming little less than a travesty of justice that in a sedition notoriously German the only victims should be two Irishmen, accidentally caught in the crowd, without any evidence of previous affiliation with the malcontents.

A CONTESTED JUDICIAL ELECTION .- By an act of the Eighteenth General Assembly in 1854 a system of Police Magistrates was established for the whole State. At the municipal election in Chicago in 1855 Police Justices were voted for without reference to the new institution. It was supposed that Messrs, Ward, Akin and King were elected by a handsome majority, having each received about three thousand votes, and beating their competitors, Stickney, Magee and Howe. A few votes were cast for police magistrates, of which Calvin De Wolf received thirty, W. H. Stickney, twelve, and Nathan Allen, twelve. These received the commission of the Governor, as having been elected in conformity with the law of 1854. Mr. Stickney, having been one of the three unsuccessful candidates on the Police-Justice ticket, resigned March 17, not wishing to profit by a mere technicality. Mr. De Wolf was a Justice of the Peace at the time, and continued to act, the second commission being mere surplusage. Mr. Allen served under the commission for the West Side. G. Prendergast was substituted for Mr. Stickney as Police Magistrate for the North Side. Mr. De Wolf discharged the same functions on the South Side. The case was afterward taken by agreement to the Su-preme Court, which decided that either title for the office was legal, as the difference in words could lead to no misunderstanding of the official station to which the people aimed to elect. Accordingly it ordered that commissions should be issued to the three gentlemen who had received a majority of the popular vote, without prejudice to the three already commissioned. A double supply of Police Magistrates for the remainder of the term was thus instituted.

At the State judicial election in June George Manierre, an industrious and well-read member of the Chicago Bar, was chosen for the Bench of the Seventh Circuit, embracing then only the counties of Cook and Lake. He was commissioned as its Judge June 25, 1855, for six years. Cook County then had four terms of the Circuit Court annually. Two were regular or "trial" terms on the first Monday in May and the third Monday in November. Two were special or "vacation" terms on the first Mondays in March and October. With this extra provision the docket continued heavy, and Judge Manierre's extreme carefulness in weighing evidence,

while it guaranteed all possible safeguards against injustice, did not tend to decrease the rapidly increasing business of the Chicago courts.

At an adjourned term of the United States courts, extending from October 15 to December 8, 1855, it was found that they too, in less than eight years from their introduction here, were involved in the same destiny as the other Chicago courts, an overloaded docket. After disposing of one hundred and fifty-three cases, there remained four hundred and one in the Circuit, and ninety-eight in the District Court. Not only did the more able members of the Chicago Barfind frequent occasion to plead before these courts, but several eminent counsel from other cities were often in attendance. Among the most distinguished of these were Abraham Lincoln, O. H. Browning, Archibald Williams, Joel Manning, B. L. Edwards, Charles Ballance, E. N. Powell, H. M. Weed, A. L. Merriam, J. K. Cooper, N. H. Purple, W. F. Brian, J. W. Drury and James Grant.

At the January term of the Recorder's Court, in 1856, thirty-four convicts were sent to the penitentiary, and court adjourned to March, when there was a short term and a similar adjournment to May 5, when the Judge charged the Grand Jury especially against lottery tickets and gambling. Toward the close of the year it is again noted that this court kept its docket well cleared, there being but a few cases civil or criminal undisposed

of at the early close of the November term.

At the February term of the United States courts in 1856, two weeks were consumed in the famous case of Kingsbury 25. Brainard. The lot on the northeast corner of Clark and Randolph streets, where now stands the Ashland Block, had been leased to the defendant for twenty years by J. B. F. Russell, agent for the plaintiff, at an annual rental of \$2,000, of which half was to be actually paid and the other half retained as purchase were to revert to the owner of the lot. The plaintiff brought suit, on the ground that the agent had no right to grant so unusual a lease. The jury, however, found a verdict against him, becoming satisfied that some others had declined to accept the same offer, and that the lease had virtually been ratified before the rapid increase in values had shown its alleged injustice.

March 21, 1856, by a rule of court, Judge Drummond ordered three "adjourned" terms of the United States courts in Chicago, on the first Mondays of March, May and October, in each year, in addition to the two regular terms, on the first Monday in July and the third Monday in December, previously provided by act of Congress. At the October term in 1856, it was again noted that notwithstanding these apparently abundant provisions, there was a large docket in admiralty, chancery and common law, as well as patent cases.

GEORGE W. MEEKER was born in Elizabethtown, N. J., about 1817. In infancy one of his lower limbs was paralyzed, rendering necessary the use of crutches for the rest of his life; he was otherwise much above the average in manly beauty. Due attention was paid to the cultivation of his intellectual powers, and he became not only a well read lawyer, but a very thorough scholar, familiar with the English and French, as well as the Latin and Greek classics. He came to Chicago about 1837, and studied law with Spring & Goodrich until admitted to the Bar, December 16, 1839. As early as February 22, 1840, he is found in partnership with George Manierre, the firm having been formed about January 1. In the broader aspects of law, as well as in general information and the oversight of office work, Mr. Meeker was an efficient partner of the inde-

fatigable Mr. Manierre, but by reason of his physical infirmity he never ventured to address a jury, although naturally persuasive, and winning. About 1845 he was appointed United States Commissioner, from which he derived a considerable increase to his income for about ten years. He was appointed deputy by William Pope, clerk of the United States courts, in 1850, whereupon the partnership with Manierre was dissolved. He was an active member of the Law-Library Association, and became its secretary in 1854. Early in 1855 he surrendered his official position in these words: "Being unwilling to aid in enforcing the provisions of the fugitiveslave law, I hereby resign the office of United States Commissioner for a long time held by me." April 2, 1856, he was found dead in his room, having retired apparently in his usual health the previous evening. The coroner's jury returned the verdict, "Died of cerebral and pulmonary conjection." He was a favorite in general society, as well as with the profession; and a meeting of the Bar, on the day after his death, paid a generous and well deserved tribute to his memory.

In May, 1856, Judge Caton of the Supreme Court refused to grant an injunction to prevent the city of Chicago from raising the grade on Lake Street.

At a vacation term of the Circuit Court in October, Judge Manierre found on the docket of Cook County no less than one thousand three hundred and sixty-eight common-law, and two hundred and sixty-eight chancery cases.

POLICE COURT .- By an act of February 16, 1857. amendatory of the act of February 14, 1851, by which such courts first received State institution, among other changes, and emendations in various lines of municipal government police court legislation was more fully and carefully elaborated, the chief new features being as follows: "After the next municipal election, the Common Council of said city shall designate the two or more Justices of the Peace, now provided for under the act to which this is an amendment, \* \* for one year; \* \* one of them shall hold a session of said Police Court daily (Sundays excepted), at the city hall. \* \* The said justices may be compensated by a salary, to be fixed by the Common Council, to do the business of said Police Court, in lieu of all other compensation or fees whatever. \* \* There shall be elected by the people at the next municipal election, and biennially thereafter one police court clerk. \* \* He shall have a xfied salary, \* \* may appoint deputies. \* \* The Common Council, if it think proper, may by ordinance provide for the appointment of a prosecuting attorney for said Police Court. \* \* Appeals and change of venue may be taken from the Police Justices in all cases, the same as before other Justices of the Peace; but all such appeals shall hereafter be taken to the Recorder's Court of the City of Chicago."

PATRICK BALLINGALL, by birth a Scotchman, came to America while a young man, about the year 1833, and made his appearance in Chicago in that year, as in 1848 he incidentally claimed a residence of fifteen years. He, however, attracted no attention that is now traceable until February 13, 1835, when he is found on record as a disputant before the Athenxeum of that day. Of limited education, and no influence, notwithstanding his lofty aspirations, he first filled the modest position of bar-keeper. In 1836 he entered the law office of Spring & Goodrich as a student, remaining about two years, when he removed to DuPage County, where he is found filling several offices in 1839. He was chosen clerk of the Commissioners' Court, and appointed clerk of the Circuit Court by Judge Smith. He was elected secre-

tary of the Settlers' Society for Mutual Protection, October 28, 1839, which he resigned the ensuing spring. As a lawyer his name does not appear on the list of the Supreme Court until March 30, 1841, and he does not appear to have actively engaged in the practice of law until after the resignation of Judge Smith, December 26, 1842, when both established a law firm in Chicago. In 1845 Smith & Ballingall became Thomas & Ballingall, Judge Jesse B. Thomas taking the place of his deceased father-in-law, Judge Theophilus W. Smith. In that year too Mr. Ballingall became Prosecuting Attorney, and as such served with distinguished credit for many years, eliciting a very flattering published indorsement from Judge Dickey, March 4, 1848. In 1847 he was one of the Cook County delegates to the State Constitutional Convention at Springfield. About 1848 he formed a partnership with Daniel McIlroy, but from 1850 to his death in 1858 he practised alone. He was chosen City Attorney in 1854, but was beaten in 1855 by his "Know-Nothing" competitor. His wife survived him, and there were no children. His carly opportunities were not good, but he was naturally smart and quick, and grew to be a fairly effective lawyer within a rather narrow range, which was mainly that of a successful public prosecutor. Like several of his contemporaries he was too convivial in his habits, but unlike some he generally remained master of himself.

An alphabetical list of lawyers who practiced in

Chicago at the close of 1857 is here given:

Abbott, Abial R. Adams, Francis Akin, Andrew Allen, Nathan Anderson, Jonathan R. Andrick, Louis M. Anthony, Elliott Arnold, Isaac N Arrington, Alfred W. Asay, Edward G. Ashton, Samuel Ayer, Benjamin F. Bacon, Edward
Bacon, William P.
Bailey, George F. Baker, Samuel L. Baldwin, George W. Ballingall, Patrick Barker, Joseph N. Barnard, Daniel E. Barron, William T. Bass, Perkins Beattie, David C Beck, Romeyn T. Beckwith, Corydon Bell, Jo. W. Bentley, Cyrus Beveridge, John L. Bingham, LaFayette Bishop, Henry W. Blackburn, Breckenridge F. Blackwell, Robert S. Blodgett, Henry W. Bond, Lester L Brackett, William Bradley, Benjamin F. Bradley, William H. Brayman, Mason Brizee, George W. Bross, John A. Brown, Andrew J. Brown, J. Douglass Brown, Moses D. Brown, Thomas B. Brown, William H. Bryan, Thomas B. Buell, Ira W. Burgess, William T. Burnham, B. F.

Burnham, Dyer N. Cadman, William S. Cameron, Charles S. Cameron, William R. Carpenter, Richard B. Cassin, William D. Caulfield, Bernard G. Chester, Augustin Chickering, John W. Claflin, Isaac Clapp, James Clark, Henry A. Clarke, George R. Clarke, Henry W Clarkson, Joseph P. Clements, John F.
Clowry, Thomas
Coborn, Edwin
Conde, H. Clay
Cone, George W. I.
Cone, John E.
Conklin, Oliver M.
Conlider, Charles M. Coolidge, Charles M. Cornell, Paul Coventry, Alex C. Crocker, George F. Cuthbertson, John S. B. Daniel, Elias Dannenhower, William W. Davenport, Gideon W. Davis, Hasbrouck D. Davis, Lewis II. Davis, William II. Dent, Thomas Dent, Thomas
DePfuhl, Francis
Dewey, Edward M.
DeWolf, Calvin
DeWolf, William F
Dexter, Wirt
Dickey, Hugh T.
Dickey, T. Lyla Dickey, T. Lyle Dietze, Maurice Doggett, Theophilus M. Doolittle, Louis A. Douglass, John M. Dow, Samuel K. Drummond, Thomas Drummond, William W Dunning, Seth M. Eastman, David L.

Eddy, James W. Eldridge, Hamilton N. Ely, George Ennis, James Enos, Alanson W. Everett, John S. Farnsworth, John F. Farwell, William W. Felker, Samuel M. Felker, William S. Ferguson, Daniel C. Fitch, Henry S. Ford, Francis Forsythe, John Freer, Lemuel C. P. Foster, William N. Fuller, Melville W. Fuller, Samuel W. Fullerton, Alexander N. Gallup, Benjamin E. Garrison, Andrew Garry, Joseph E. Gibbons, John T. Gilbert, Samuel M. Gilbert, Turney S. Goodrich, Grant Goodwin, George P. Grant, Lewis E. Griffith, Robert E. Groves, James P. Groves, William A Guthrie, Samuel Hall, Charles J. Hall, William H. Hall, Winchester Hallett, Moses Hamilton, Richard J. Hamilton, Theodore B. Handley, Daniel R. Harrison, Carter H. Harrison, Nathan B. Harvey, Andrew Haven, Carlos Hawkins, Olney Hawley, Cyrus M. Hawley, Uriah R. Hayes, Samuel S. Helm, Henry T. Hennessy, Michael D. Herbert, George Herrisse, Henry Hervey, Robert Herrington, Augustus M. Higgins, Van Hollis Hill, James M. Hitchcock, Charles Hoffman, Francis A. Hogan, Michael W. Hoge, Thomas Hooke, Enoch G. Hooper, Ezekiel R. Hopkins, William Hosmer, Charles B. Howe, Francis S. Howe, Frederick A.

Howell, Nathaniel W. Hoyne, Thomas Hoyne, Philip A. Horst, James T. Horst, James T. Hudson, Henry S. Hughes, George R. H. Hull, Charles J. Huntington, Alonzo Huntington, John M. Hurd, Harvey B. Hyatt, Levinus II. Ingalls, George A. Irvin, Samuel A. James, Benjamin F. James, Benjamin F.
Jameson, John A.

## MEDICAL HISTORY.

In the following account of the medical practitioners of early Chicago, no attempt has been made to discriminate between those who were duly qualified physicians and those whose claim to the title was empirical. The fact that an individual represented himself, by announcement or advertisement, as prepared to heal diseases, has been accepted as prima facie evidence of his having some claim to enrollment among the followers of Galen or Æsculapius.

The earliest authentic account of the existence of a disciple of the medical profession is found in a muster roll of Capt. Nathan Heald's company of the First Infantry,\* for the two months from November 30, 1810, to December 31, 1810, wherein appears the name of

The Colu

John Cooper, surgeon's mate, appointed June 13, 1808; on duty at Fort Dearborn, December 31, 1810; the muster roll being certified to by Phillip O'Strander, Lieutenant commanding the company, and John Cooper.

Dr. Cooper was succeeded by Dr. Isaac Van Voorhis, one of the slain in the massacre of 1812, of whom the following account is given in the various works referred to:

Dr. Isaac Van Voorhis, born February 22, 1790; killed at the massacre at Fort Dearborn, August 15, 1812; unmarried.

The following extract is from the "Field-Book of the War of 1812," by Benson J. Lossing: "In the spring of 1812 the garrison at Fort Dearborn was commanded by Captain Nathan Heald, assisted by Lieutenant Linai T. Helm and Ensign George Ronan. The surgeon was Dr. Van Voorhis. The garrison consisted of fifty-four men. The massacre of Fort Dearborn, or Chicago, took place August 15, 1812. In this terrible tragedy in the wilderness, fifty-five years ago, twelve children, all the masculine citizens except Mr. Kenzie and his sons, Captain Wells, Ensign Ronan, Surgeon Van Voorhis, and twenty-six private soldiers, were murdered. Dr. Cooper, of Poughkeepsie, N. Y., was the immediate predecessor of Dr. Van Voorhis at Fort Dearborn. They were natives of the same town, Fishkill, Duchess County, and were class-mates. Van Voorhis was a young man of great powers. Dr. Cooper left the fort in 1811, tendered his resignation and left the army."

In an obituary notice published in the Political Index, November 17, 1812, at Newburg, Orange Co., N. Y., is the following: \* \* \* "Among the slain was Dr. Isaac Van Voorhis, of Fishkill, surgeon in the army. He was a young man of great merit, and received his early education at the academy in this village. He possessed an enterprising and cultivated mind, and was ardent in the support of the interest and honor of his

country." After the life of Dr. Van Voorhis had been sacrificed for his country, the services of a surgeon were needed to extract a ball from the arm of Mrs. Nathan Heald, and Mr. Kinzie requested an Indian chief, who

\*Fort Dearborn, Third Paper, by Hon. John Wentworth, Fergus Historical series; compiled from records in the War Department, Washington, D. C. † From "Notes on the ancestry of Major William Roe Van Voorhis," in possession of the Chicago Historical Society.

was reputed to be a medicine man, to perform the operation; but he declined, stating that qualms in the cardiac region precluded the exercise of his surgical skill. Mr. Kinzie then performed the operation, using his pen-knife for the purpose; thus identifying the Kinzie family with the surgical profession, in addition to the various other occurrences whereby this family are so intimately connected with the events that transpired in the history of Chicago, and placing John Kinzie on record as the operator in the first surgical operation in Chicago. Another amateur is stated to have been Monsieur du Pin, a trader, whose pharmaceutical and pathological knowledge was exercised to ameliorate the sickness of the captives in the hands of the Indians.

The next gentleman who was a member of the medical profession in Chicago was Dr. Alexander Wolcott, who was born February 14, 1790, at Windsor, Conn., being the son of the second Alexander and Frances Burbank Wolcott, and graduated at Yale College, in 1809.\* He was appointed surgeon's mate March 25, 1812,† and is designated in Schoolcraft's "American Lakes" (pp. 77 and 389) as having accompanied General Cass and Henry Schoolcraft in their voyages from May 26 to August 31, 1820; the services rendered by Dr. Wolcott being the subject of unstinted eulogium. Dr. Wolcott was the Indian Agent at Fort Dearborn in 1820, he having advanced in that year, in his official capacity, \$4,258.59‡ and in the year 1821 \$722.14\$ and "between the first of January and the 31st of August, 1822, there was employed by the superintendent of Indian trade, at Chicago, Alexander Wolcott, at \$108.33 per month." Dr. Wolcott married Ellen Marion Kinzie, the daughter of John Kinzie, as appears by the record in Lewiston, Fulton Co., Ill., "by John Hamlin, J. P., July 20, 1823, Alexander Wolcott and Ellen Marion Kinzie." The lady was born in 1805, being the first white child born in Chicago, the place of her birth being the home of John and Eleanor Kinzie on the North Side. Dr. Wolcott retained the position of Indian Agent until his death, in 1830, receiving, in 1826, the salary of \$1,300 per annum, as appears by the official register of the United States for that year. After his death his widow married Hon. George C. Bates, of Salt Lake City.
During the residence of Dr. Wolcott, there was

another medical practitioner at Fort Dearborn; Assistant Surgeon Thomas P. Hall, who is designated in the Army Register for 1823 as on duty at Chicago, and in the Register for the ensuing year as at New York Har-

From records in the War Department, a syllabus of which appears in Hon. John Wentworth's "Fort Dearborn," C. A. Finley is stated to have been assistant surgeon at the fort from October 3, 1828, until December 14, 1830; and the authority for his presence in that capacity appears to have been the following order:

ORDER No. 44. A. G. O., WASHINGTON, 19 Aug., 1828.

(Extract.) In conformity with the directions of the Secretary of War, the following movements of the troops will be made without delay:

\*Wolcott Genealogy; Chicago Historical Society. † American State Papers; Military affairs, Chicago Historical Society. † American State Papers, Indian affairs, Vol. 11., 312, Chicago Historical Society. § Ibid, p. 314. 1 lbid, p. 403.

1. Two companies of the 5th Regiment of Infantry to re-occupy Fort Dearborn, at the head of Lake Michigan.

1. \* \* \* The Surgeon-General to provide medical officers and suitable hospital, supplies for the posts to be established and By order of re-occupied.

MAJOR-GENERAL MACOMB.

(Signed) R. JONES, Adjutant General.

Companies A and I, of the 5th Infantry, being designated as having arrived on October 3, 1828, the reasonable presumption is that Dr. Finley was the medical officer designated by the Surgeon-General to accompany the troops to Fort Dearborn. Prior to the date that Dr. Finley is reported to have been relieved from duty at

the fort, Dr. Harmon arrived in Chicago.\*

Dr. Elijah Dewey Harmon was born August 20, 1782, in Bennington, Vt., and pursued his medical studies at Manchester, under the auspices of a celebrity in the profession named Benjamin Swift; commencing to practice in the fall of 1806, at Burlington, Vt. On October 30, 1808, Dr. Harmon married Miss Welthyan Loomis. During the war of 1812, he was a volunteer surgeon on board the "Saratoga," Commodore Mc-Donough's flag-ship, and was with that officer in the celebrated naval engagement of Plattsburg, September 11, 1814; returning to Burlington at the close of the war and resuming his practice. On January 22, 1816, Dr. Harmon was appointed Postmaster at Burlington, but how long he held the position is unknown. In 1829 the Doctor suffered some pecuniary reverses and resolved to attempt recuperation in the Great West. He arrived at Chicago in May, 1830; his family following him the succeeding year. He took the place of Dr. Finley, who was absent, and was installed at the fort as post surgeon, performing the duties of that office in addition to such private practice as was attainable in those days. On the night of the 10th of July, 1832, General Scott arrived with troops, on the steamer "Sheldon Thompson," among whom the cholera had manifested itself—six cases developing on the morning of July 9, subsequent to which the disease quickly attacked the whole command In consequence of this the two companies in the fort antecedent to the arrival of General Scott were isolated and placed under the charge of Dr. Harmon, who ascribed his success in the treatment of the cholera cases that broke out in the sequestered troops to abstinence from the use of calomel by him. During this period historians relate that a misunderstanding occurred between Dr. Harmon and the "old martinet," relative to the practice of the Doctor; General Scott requiring him to devote his medical skill exclusively to the military assigned to his charge, which the Doctor refused to do. In the winter of 1832, Dr. Harmon performed an amputation upon a half-breed Canadian, who had frozen his feet while transporting the mail upon horseback from Green Bay to Chicago; this being the first surgical operation of any importance performed. One foot and a portion of the other were successful removed. A case of rusty instruments, a library of about one hundred volumes and a stock of medicines brought from the Green Mountains, constituted the stock in trade of the Father of Medicine in Chicago. His residence was a cabin of hewn logs; his larder, a repository of flour, bacon and coffee. But the epigastric regions of pioneers do not long for paté de foic gras nor Chambertin or Tokay, and the doctor's practice increased and multiplied as rapidly as Jacob's cittle. Dr. Harmon pre-empted one hundred and forty acres of land, the northern boundary of which was in

the vicinity of Sixteenth Street, and upon a portion of which plot the home of the Burley family-1620 Indiana Avenue-is now situated. In 1834, Dr. Harmon migrated to Texas, and until the time of his death-Ianuary 3, 1869—divided his sojourns between that State and Chicago. Dr. Harmon had nine children, four of whom died in infancy. The remaining five are Charles Loomis Harmon, Isaac Dewey Harmon, Harriet Harmon, Lucretia Harmon, and Welthyan Loomis Harmon. In honor of the Doctor, Harmon Court received its

In Order No. 17, dated Adjutant-General's Office, Washington, February 23, 1832, Assistant Surgeon De-Camp, on duty at Madison Barracks, was assigned to duty at Fort Dearborn, and ordered to accompany the troops sent to that post. He appears upon the roster of the fort as having arrived thereat (with companies "G" and "I" of the Second Infantry, under command of Major William Whistler), on June 17, 1832; remaining until November 23, following. Dr. Samuel G. I. DeCamp was appointed Assistant Surgeon, October 10, 1823; promoted Surgeon December 1, 1833; retired from the army in 1862, and died at Saratoga, N. Y., September 8, 1871. From a report made by Dr. De-Camp during the prevalence of the cholera at Fort Dearborn in 1832, if would appear that he was engaged in the performance of his official duties at the time, and he states that one-fifth of the entire force of one thousand soldiers were admitted into the hospital within a week, afflicted with this frightful scourge. In the roster to which allusion has been heretofore made, it is remarked that "Fort Dearborn having become a general hospital, on the 11th July last (1832) no returns were rendered until its re-occupation."

On February 3, 1833, Assistant Surgeon Philip Maxwell is reported as having assumed his official duties at the fort. He was a witness to the Indian treaty on

September 26 of that year.

PHILIP MAXWELL was born at Guilford, Windham Co., Vt., April 3, 1799, and subsequent to his graduation, commenced the practice of medicine at Sackett's Harbor, N. Y. He temporarily relinquished practice upon being elected a member of the State Legislature. After his appointment and arrival in Chicago, as Assistant Surgeon, he remained in that military position until the abandonment of the fort on December 29, 1836. Dr. Maxwell was promoted to Surgeon, July 7, 1838, and subsequently served with General Zachary Taylor. After his resignation from the army, Dr. Maxwell practiced medicine in Chicago, being mentioned in Fergus's Directory for 1839 as at the garrison, and in the directories from 1844 to 1847, as a physician, with his office at the corner of Lake and Clark streets. In the directory for 1848, he is specified as being in partnership with Dr. Brock McVickar, subsequent directories not mentioning his association with any one in the practice of his profession. Dr. Maxwell is described as having been of stature approximating to the Anakim and to have been Falstaffian in his abdominal rotundity. In his jocundity, his geniality and the simulation of stern demeanor, beneath which he carried the kindest of hearts, he has been likened to "Lawrence Boythorn"— Charles Dickens's prototype of Walter Savage Landor. The Chicago Republican of September 13, 1868, thus justly speaks of Dr. Maxwell: "It is not easy to escape his name and influence in turning over the pages of twenty years of the growth of Chicago. He was one of nature's noblemen. He was of that choice material that God makes to follow the first rough work of the pioneers in laying the foundations of new society. By

<sup>\*</sup> These particulars were obtained by the courtesy of Mrs. A. G. Burley, a daughter of Dr. Harmon.

education and training, learned, urbane and intelligent, with an acute brain, a large heart, a warm hand, with a geniality that made sunshine wherever he went; quick to conceive, skillful to execute, Dr. Maxwell's name is upon the most solid pillar of our growth. From Chicago he went under Government orders to the Florida war, and thence returned only to civilian duties in which he here passed the rest of his life. His home was here for several years. Though often on our streets, and never relinquished as a citizen, he later removed to a beautiful country place, looking out on Geneva Lake, Wisconsin, where, since his death, a few years ago, his family still reside. Dr. Maxwell was a leading spirit here in the old garrison times. He mingled largely and controllingly in the growing social element." Dr. Maxwell died on the 5th of November, 1859, at the age of sixty years.

Dr. Valentine A. Boyer next entered the ranks of the medical pioneers, on May 12, 1832; and achieved military honors May 15, 1840, being then commissioned assistant surgeon of the City Guards, 60th Regiment,

on that date.

In 1832, Dr. Edmund Stoughton Kimberly arrived here. He was clerk of the town meeting to decide whether Chicago should be incorporated, and voted in favor of that measure. He was also elected Trustee of the town August 10, 1833. Dr. Kimberly died in Lake County, Ill., October 25, 1874, aged seventy-two years.

Dr. John Taylor Temple was an early practitioner in Chicago. He was a voter at the election held August 10, 1833. He graduated at the Middlebury College, Castleton, Vt., December 29, 1830. The first autopsy made in this city was performed by him. Dr. Temple, however, is more intimately identified with these early days by reason of his stage line than of his medical practice; he having secured the contract for carrying the mail between this city and Ottawa, and making the first trip January 1, 1834, on which occasion the Hon. John Dean Caton was a passenger. The bills for his stage line were printed at the Democrat office. An advertisement that appeared in the American on August 6, 1836, specifies that " John T. Temple & Co., are proprietors of a stage line from Chicago to Peoria; "that "the through trip is made in two days-to Ottawa the first day;" that "the stage leaves Chicago at four in the morning and arrives at Juliet\* in two," and that "seats can be taken at Markle's Exchange Coffee House." The same paper states, April 1, 1837, that Dr. Temple "has sold his stage line," and in another issue the Doctor advertises, November 17, 1840, that he "has resumed the practice of medicine at 214 Lake Street." Dr. Temple afterward became a homeopathic practitioner and founded the St. Louis school of homeopathic practice, dying in that city, February 24, 1877, at the ripe age of seventy-three years.

George F. Turner, assistant surgeon United States Army, was one of the witnesses to the Indian treaty at Chicago, on September 26, 1833. This officer was appointed to that rank on July 23, 1833; promoted to surgeon United States Army, January 1, 1840, and died at Corpus Christi, Texas, October 17, 1851.

died at Corpus Christi, Texas, October 17, 1854.

In the fall of 1833 Dr. William Bradshaw Egan came to the city and "commenced acting well his part;" to use the phraseology of his favorite author. In the Doctor's unfailing confidence in the future of Chicago; in the unhesitating manner with which he embarked his means upon the then ebb-tude of the city's prosperity, he was a typical pioneer. Dr. Egan was born near

\* In early days the name of Joliet was Juliet, and one of the early changes of "post-offices" states that the name of Juliet is to be changed to Romeo; the change appears to have never been made.

Lake Killarney, County Kerry, Ireland, September 28, 1808. At the age of fifteen he went to Lancashire, England, and commenced the study of surgery and medicine under the tuition of Dr. Maguire, also visiting the English metropolis in pursuit of medical knowledge. Returning to Dublin a few years afterward, he attended a course of medical lectures there and "walked" the Dublin Lying-in Hospital, and then embarked for

Molegan

Canada. Shortly after his arrival in Quebec, he obtained a situation as teacher in one of the schools in that city, and afterward was a preceptor in Montreal and New York, and in the grammer school of the University of Virginia, at which latter academic institution he also attended medical lectures for two terms. In the spring of 1830 he was licensed by the medical board of New Jersey, and inaugurated his professional career in Newark and New York. On January 21, 1832, he was married to Miss Emeline Mabbatt, who accompanied the Doctor in his pilgrimage to this city. On the 22d of August, 1834, Dr. Egan was appointed on the health committee for the South Division, and on the 4th of July, 1836, when the ground was broken for the construction of the Illinois & Michigan Canal, he was selected to deliver the oration. While he was performing this office he observed that at a spring near by were a large number of people. The spring had been naturalized by the addition of lemons, sugar and whisky. Turning to them, he said: "Drink deep, or taste not the Pierian spring; there shallow draughts intoxicate the brain, and drinking deeply sobers it again." It is understood that his advice was followed, with results other than those ascribed to the Pierian fount, Dr. Egan, during the primary years of his residence here, purchased the Tremont House block of General Beaubien, and thereon erected five houses, which were designated as Egan's Row. In his real estate transactions, the Doctor was conspicuous, and by connection with him in his operations many families laid the foundation for subsequent wealth and prosperity. In the adjustment of the canal claims by the Legislature of the session of 1841-42, the Doctor did excellent service. He was a delegate to the first Democratic convention held at Joliet, May 18, 1843; was Recorder of the city and county in 1844, and was a Representative to the State Legislature during the sessions of 1853-54. In his jocose temperament, his classical education, his kindly generosity and his trenchant sarcasm, he was an Orestes to the Pylades of Dr. Maxwell. Dr. Egan died in this city October 27, 1860.

Dr. Henry B. Clarke migrated to Chicago in 1833, and advertised in the American of February 18, 1837, that his office was at Collins & Butterfield's on Dearborn Street. His residence is stated to have been a large white house near the lake, about where Four-

teenth Street is now situated.

Dr. Henry Van Der Bogart graduated at the medical college in Fairfield, N. Y., in the winter of 1833; came to Chicago in the spring of 1834, and died at Naperville on April 8, 1835, aged twenty-five years.

Dr. W. Clarke appears to have been a resident here early in 1834, as a letter is advertised for him in the letter-list published in the Democrat in January of that year, and in the account books of Hibbard Porter \* this gentleman is debited with purchases made from June to December, 1834, comprising a coffee-mill, cord and cloth.

Dr. Peter Temple was an early practitioner in Chicago, and advertised in the Democrat of July 7, 1834, that he was located at Franklin Street, near Lake, adjacent to the dwelling of Dr. J. T. Temple, and was there to practice dentistry. In August, 1834, he became associated with Dr. John T. Temple in the practice of medicine, Dr. Peter Temple attending to such cases as were exclusively dental. A Dr. Temple is stated by Colbert to have been appointed on the first permanent Board of Health in Chicago June 19, 1835. † Dr. P. T. Temple is stated in the American to have been one of the executive committee of the Chicago Bible Society August 22, 1835, and Dr. Peter Temple was one of the secretaries of the canal meeting November 7, 1835. The latter left Chicago in 1837, and after practicing medicine according to the regular school for twenty years, was led to practice homeopathy through the influence of his brother. This gentleman is now 1883 a resident of Lexington, Mo.

Dr. William H. Kennicott was engaged in the dental art in 1834, an advertisement that appeared in the Democrat determining his presence here on May 25 of that year at the Eagle Tavern. He pursued the practice of dentistry for many years in this city. Of an old horse that belonged to him in early years the following anecdote is told: After a long career of usefulness the equine, becoming unfit for service, was turned loose to shift for himself, and, finding some

choice picking in the court-house square, he made that a resort. The citizens recognized the old animal and, compassionating his condition of marasmus, assembled and determined upon giving the veteran a donation party. At the appointed time they flocked to the square with provender and building material. A shed was constructed by the embryonic humane society, and the food stored therein. Then a procession was formed, with the equine beneficiary at its head, and after parading the streets to the martial music of a fife and drum, the steed was installed in his stable, where he existed until spring, when Death mounted the pale white horse, and rode him to the happy hunting grounds. Peace to his mane[s]

Dr. John W. Eldredge came to Chicago in the spring of 1834, a graduate of the medical college of Fairfield, N. Y. He was born in Hamilton, Washington Co., N. Y., October 2, 1808; commenced the practice of his profession in Puttsfield, Penn., continuing therein upon his arrival in Chicago, and has since his arrival been intimately identified with the measures relative to the prosperity, social, medical and political, of

mor. Eldudge

the city. Dr. Eldredge was married in Chicago in the year 1840 to Miss Sophia Holton, and has one daughter, Hette, the wife of George C. Clarke. The objection that Dr. Eldredge had to the least appearance of publicity or notoriety has been regarded by the compiler; but the life of the Doctor is too well known by the citizens of past and present Chicago to require comment. His works speak for themselves; and now that he has passed from our midst they remain the most durable monument to his memory. Dr. Eldredge relinquished the practice of his profession in 1868, after which he lived in the retirement of private life until the

date of his death, January 1, 1884.
Dr. Josiah C. Goodhue came from Canada about this period; and on September 1, 1835, was engaged with Dr. J. H. Barnard in the practice of the medical and surgical profession, with their office on Lake Street, three doors west of the Tremont House; and on February 15, 1836. Dr. Goodhue formed a copartnership with Dr. S. Z. Haven. Some time subsequently he removed to Rockford, Ill., where he died from the effects

of an accident.

Charles Volney Dyer, son of Daniel and Susan Olin Dyer, was born in Clarendon, Vt., on June 12, 1808, and was the youngest but one of ten children. When he entered college he pursued medical studies to the exclusion of the classical course, and graduated, December 29, 1830, with high honors at Middlebury College. In February, 1831, he commenced practice in Newark, Wayne Co., N. J. Leaving there he migrated to Chicago, where he arrived in August, 1835. In 1837, he married Louisa M. Gifford, of Elgin, from which union six children were born, three of whom still survive; Stella Louisa, born November 22, 1841, now Mrs. Loring; Charles Gifford, born December 29, 1845, and Louis, born September 30, 1851. In 1863, Abraham Lincoln, as a personal compliment to Dr. Dyer, gave him the appointment of Judge of the Mixed Court for the suppression of the African slave trade; Dr. Dyer having been, for years previously, one of the prominent

<sup>\*</sup> In possession of the Chicago Historical Society, † This was Dr. John T. Temple.

officers of the celebrated "Underground Railroad" of Chicago, and had helped in rescuing from slavery and the fangs of human blood-hounds who sought to overtake them, thousands of fugitives. To a resident of the State that gave birth to Abraham Lincoln, it would seem suffi-

Cha Notury Dyer

cient eulogy to say that a man was prominently connected with the underground railroad; no more grateful reflection can be entertained by Dr. Dyer's descendants, than that many former slaves can point to his grave and say "there lies the man who helped me to life and liberty." Judge Dyer died April 24, 1878, at the residence of his adopted daughter at Lake View, Lake Co., Ill.

In the American of May 28, 1836, Dr. D. S. Smith\* offered his services, in an advertisement dated May 25, 1836, at an office with S. Abell, on Lake Street, one door west of New York House; on August 16, 1837.

Dflmitto M. D.

the Doctor occupied an office adjoining Clarke's drug store on Clark Street, near Lake, first door north of Collins & Butterfield's office.

It has been found impracticable to chronometrically designate the physicians whose names appear as identified with the germinating metropolis at this period of its history; a fixed date, 1839, has therefore been selected; and those who were here at that time, or prior thereto, are mentioned in this paragraph with such data as is extant to determine the priority of their coming.

Mrs. Robertson, the first female obstetrician, was here in 1839, and for many years subsequently, and may justly be termed the feminine Hippocrates of Chicago. Dr. J. Jay Stuart, with J. D. Caton, second door east of Breese & Sheppard's, Lake Street, advertised in the American of June 11, 1836. Dr. Stuart, in 1848, was in partnership with H. K. W. Boardman, and died August 8, 1850. Dr. H. Spring died November 10, 1835, aged thirty-two; Dr. W. Spring advertised his office with G. Spring in the American of September 12, 1835; Dr. Levi D. Boone, a distant relative of the celebrated Daniel Boone, was here in June, 1836; was in partnership with Charles V. Dyer in 1839, and practiced for a long time in Chicago, subsequently entering the real estate business. Dr. W. G. Austin, on August, 7, 1835, in American, notified the citizens that he had commenced the practice of medicine, and opened an office on Lake Street, near the post-office; and that he practiced the botanic healing art, "which is not connected by ties of consanguinity to the Thompsonian system"a nice distinction. On December 5, 1835, Dr. Austin announced that he had vegetable medicines for dispensation on Lake Street, three doors east of Cooke's coffee-house, and on October 10, 1836, entered into partnership with Dr. W. B. Dodge, with their office on

\* For fuller particulars concerning Dr. Smith see the account of Homeopathy in Chicago in this chapter,

Lake Street, opposite Rice's coffee-house. This copartnership was dissolved April 3, 1837. Dr. John Brinkerhoff, subsequently of the firm of Brinkerhoff & Penton, druggists, cautioned persons against purchasing a note given by him in favor of Samuel Ressigne, in the American of December 3, 1836. Dr. J. H. Barnard advertised in the American of June 8, 1835, under date of June 3. Dr. J. C. Bradley, surgeon dentist, proffered his odontological ability in the same paper, under date of June 13, 1835, and was subsequently in business with Mr. Kennicott. In the Democrat of August 24, 1836, is an advertisement of Dr. Daniel Brainard, who proffered his services to citizens of Chicago and vicinity at his office, with John Dean Caton, on Dearborn Street, opposite the Tremont House. In the language of the Hon. John Dean Caton, is the following reminiscence of Dr. Brainard given: "About the first of September, 1835, Dr. Brainard rode up to my office, wearing pretty seedy clothes and mounted on a little Indian pony. He reported that he was nearly out of funds, and asked my advice as to the propriety of commencing practice here. We had been professional students together in Rome, N. Y., when he was there in the office of Dr. Pope. I knew him to have been an ambitious and studious young man, of great firmness and ability, and did not doubt that the three years since I had seen him had been profitably spent in acquiring a knowledge of his profession. I advised him to go to the Indian camp, where the Pottawatomies were gathered, preparatory to starting for their new location west of the Mississippi River, sell his pony, take a desk or rather a little table in my office, and put his shingle by the side of the door, promising to aid him, as best I could, in building up a business. During the first year the Doctor's practice did not enter those circles of which he was most ambitious. Indeed it was mostly confined to the poorest of the population, and he anxiously looked for a door which should give him admission to a better class of patients. While he answered every call, whether there was a prospect of remuneration or not, he felt that he was qualified to attend those who were able to pay him liberally for his services. At length the door was opened. A schooner was wrecked south of the town, on which were a man and his wife, who escaped with barely their clothes on their backs. They were rather simple people, and belonged to the lowest walks in life. They started for the country on foot, begging their way, and, when distant some twelve miles, encountered a party of men with a drove of horses, one of whom pretended that he was a Sheriff, and arrested them for improper purposes. When they were set at liberty, they returned to the town, and came to me for legal advice, the woman being about five months advanced in pregnancy. I commenced a suit for the redress of their grievances, and the Doctor took an active interest in their welfare. He procured for them a small house on the North Side, and made personal appeals to all the ladies in the neighborhood, for provision for their needs. Mrs. John H. Kinzie became particularly interested in their case, and paid frequent visits to the cabin with other ladies. The nervous system of the woman had been greatly shattered, and a miscarriage was constantly apprehended. The Doctor was unremitting in his attentions, and finally carried her through her confinement with marked success, exhibiting to the ladies who had taken so much interest in the patient a fine living child. This was the long desired opportunity, and it did not fail to produce its results. Dr. Brainard immediately became famous. His disinterested sympathy, his goodness of heart, his skillful

treatment and his marked success, were now the subject of comment in all circles. At my request Dr. Goodhue also visited the woman-as I desired to secure his additional testimony in the case-and he too became very favorably impressed with the talents and acquirements of the young practitioner, and extended to him a helping and efficient hand. During the winter of 1837-38, Dr. Brainard first communicated to me his project looking to the foundation of Rush College. In 1838, a laborer on the canal near Lockport, fractured his thigh, and before union had been completely effected, he came to Chicago on foot, where he found himself unable to walk further and quite destitute. He was taken to the poor-house, where he rapidly grew worse, the limb becoming excessive ædematous. A council of physicians was summoned, consisting of Drs. Brainard, Maxwell, Goodhue, Egan, and perhaps one or two others. All were agreed as to the necessity of amputation, but, while Brainard insisted that the operation should be performed at the hip-joint, the others urged that removal below the trochanters would answer equally well. The patient was about twenty-three years of age, had an excellent physique, and was, so far as known, of good habits. The operation was assigned to Brainard, and Goodhue was entrusted with the control of the femoral artery, as it emerges from the pelvis. This he was to accomplish with his thumbs; and he had as good thumbs as any man I ever knew. The moment the amputation was effected, Brainard passed one finger into the medullary cavity, and brought out upon it a portion of the medulla which, in the process of disorganization, had become black. As he exhibited it he looked at Goodhue, who simply nodded his head. Not a word was spoken by any one but the patient, and what he said no one knew. Brainard instantly took up the knife and again amputated, this time at the joint, after which the wound was dressed. The double operation occupied but a very short time. In about one month the wound had very nearly healed, only a granulating surface of about three-fourths of an inch in length at the upper corner discharged a healthy pus. I was present the last time the wound was dressed, and expected to see the patient speedily discharged as cured. But that night secondary hæmorrhage occurred, a large portion of the wound was opened afresh, and the patient died almost immediately. At the post-mortem section, an enormous mass of osseous tubercles was removed from the lungs, liver, and heart, and a large, bony neoplasm was found attached to the pelvic bones, and surrounding the femoral artery, so that the mouth of the latter remained patulous. A similar deposit, three inches in diameter, had been found about the fractured femur, and when this was sawn through, the line of demarkation between the neoplasm and the true bone was distinctly discernable.\* The operation was regarded as a success, and it completely established Dr. Brainard's reputation as a surgeon.

Daniel Brainard was born May 15, 1812, in Westernville, Oneida Co., N. Y. and graduated at Jefferson College Philadelphia in the year 1834; commencing the practice of medicine at Whitesboro, N. Y. Subsequent to his arrival at Chicago he visited Paris in 1839, and pursued his medical studies there; revisiting that city in 1852, when he was made an honorary member of the Société de Chirurgie de Paris, and of the Medical Society of the Canton of Geneva. At this time Dr. Brainard secured the valuable osteological collection which he placed in the museum of Rush Medical College, of which institution

he was the founder and indefatigable promoter. In 1854 he received the prize offered by the Medical Association of St. Louis for an excursus upon the treatment of ununited fractures—the mode elaborated in his treatise having since been adopted by the entire profession. Dr. Brainard's surgical reputation is not alone civic but continental; his scientific attainments were catholic, his literary ability eminent. His best monument is Rush Medical College, in whose interest he labored so indefatigably; his noblest eulogy the precedents he established by his skill. Dr. Brainard died of cholera, on October 10, 1866, at the Sherman House, aged fifty-

C. Carli announced himself as an M. D., in the Democrat of August 16, 1837; Lucius G. Dole is specified as an "eye-doctor," in the 1839 directory, and ten years subsequently appears as a botanical physician. Dr. Charles V. Dyer came to Chicago on the 23d of August, 1835, and was a candidate for State Representative the subsequent year, but was ineligible on account of the period of his residence not having embraced one year; he was elected Judge of Probate in 1837, and was commissioned surgeon, City Guards, Sixtieth Regiment, on May 15, 1840. Dr. Dyer died in this city, April 24, 1878. Dr. Charles H. Duck is registered in Fergus's directory for 1829, and was for sometime afterward a practitioner here. Dr. James Anson Dunn opened an office in Sherman's brick block, nearly opposite the Tremont House on November 25, 1835; after his arrival here from Buffalo, N. Y. Dr. John Herbert Foster is specified in the 1839 directory; having come to this city after participation in the Black Hawk War; remaining here until his death on May 18, 1874, at the age of seventy-nine. Dr. N. Gunn received mention in the newspapers of March, 1836. Dr. S. Z. Haven was one of the disputants before the Chicago Lyceum, February 27, 1836, and was in partnership with Dr. J. C. Goodhue, February, 15, 1836. Under date of August 24, 1836, Dr. R. J. Harvey advertised the inauguration of his practice in Chicago. Reuben B. Heacock is designated as a medical student with Dr. C. V. Dyer and Benjamin F. Hale, as a botanic physician in Fergus's directory for 1839. Dr. James R. Irvine, from Phila-delphia, specifies that he has opened an office, first door south of the corner of Lake and Wells, in the American of December 3, 1836. The primary hydropathic practitioner, as a proprietor of vapor baths, is given in 1839 directory, being John J. Keenan. Dr. Richard Murphy appears in the 1839 directory and pursued literary labors in this city for some time, but nothing is obtainable that identifies him with the medical profession here. The same work cites Dr. (Leonard) Proctor. This latter gentleman was married to Miss Frances Burbank, daughter of Henry Wolcott, and sister of Alexander Wolcott, county surveyor, by Rev. J. Harrington, January 7, 1841. Dr. John Mark Smith, brother of Hon. S. Lisle Smith, came to Chicago in the spring of 1837 and remained here until 1842. J. Oldham Sweetser, dentist, is accredited with a residence here in 1839; he advertised in the daily American during the year following. Prof. George C. Tew is designated as a phrenologist in the Fergus's directory; and appears to have been successful in his presentations of this science, as he was also here in 1844-45. Place is only given this follower of Gall and Spurzheim on account of his precedence in that branch of physiological science. Dr. Simeon Willard appears in the 1839 directory and advertised, July 13, 1840, in the Daily American. December 17, 1836, Dr. Joseph Walker, late physician of Philadelphia Hospital, advertised in the American; and on May 20, 1837,

<sup>\*</sup> In Early Medical Chicago, Dr. Hyde states that he was informed by Dr. Joseph W. Freer that this case was one of enchondroma of the femur.

Walker and Brainard advertised that they would always keep fresh vaccine matter. The following are designated as physicians in Fergus's directory for 1839; Dr J. T. Betts, Dr. S. B. Gay, Dr. Merrick, Dr. Moore, Dr. L.

Post, Dr. William Russell and Dr. Wood.

How much, or how little, many of these pioneer practitioners were identified with the material progress of Chicago, or in what manner their individual talent accelerated the growth of sciences is impossible to state. In cases where they became identified with any of the institutions that were evidences of scientific advancement, their names as such integers appear. Dr. Lucius Abbott is stated to have married Mrs. Margaret Helm, at Chicago, in 1836. No account appears of his having practiced in this city until 1845, and in that year he is stated to have returned to Connecticut, and have died there

A question arose in the course of the compilation of this history, whether it was just to those who were bona fide, qualified practitioners, to have mentioned with them those who may have been the veriest quacks; but how

is the citizen of Chicago of 1883 to decide?

In the pioneer days of medical practice, when the possible patients were few, the duties devolvent upon physicians were onerous and detractive from proficiency in their profession. Unless possessed of a competency, it was requisite for them to win bread for the sustenance of themselves and families, to eke out the slender honoraria obtainable from the sparsely settled country by agriculture, speculation, or trade; therefore, in some instances, it is not surprising that a physician's repute is greater because of achievement without the pale of medical science, than for his scientific diagnosis and practice consequent thereupon. It is certainly a moot question whether the enterprise of an individual in commerce, or the display of scientific attainment in a profession, most accelerates material progress in a city; in the early medical inhabitants of Chicago, however, they were usually, perforce, united.

As the population increased and the ills to which man is heir augmented in proportion, there was a larger scope for the exclusive exercise of medical skill and consequent ability to exist upon the fees received for such practice; thus, the practice which makes perfect was not alone attainable by the physician, but his mind being easier upon the subject of his means of subsistence he was enabled to devote more time to study; he was not compelled to abandon the scalpel for the spade to

fill the epigastric regions of his family.

The names of some of those who achieved distinction are given, who were in Chicago anterior to 1845; the establishment of Rush Medical College, in 1844, forming a medical center from which the rays of achievement were diffused. These ante-1844 physicians are James Van Zandt Blaney, H. H. Beardsley, Alfred W. Davisson, M. L. Knapp, John McLean, Matthew McIlwaine, C. A. F. Van Wattenwylle. Some other celebrities of the medical profession who have dwelt in Chicago during the epoch treated of in this volume are Nathan S. Davis, William B. Herrick, John Evans (subsequently Governor of Colorado), Graham N. Fitch, J. C. Dass (son of the celebrated Peter Dass, the Norwegian poet), H. A. Johnson, Brockholst McVickar, Joseph W. Freer, C. A. Helmuth, Erial McArthur, Edwin G. Meek, John E, and Patrick McGirr, Max Meyers, DeLaskie Miller, George Wallingford Wentworth, E. S. Carr, William H. Byford, John H. Rauch, Edwin Powell, Thomas Spencer, Edmund Andrews and others whose names occur in the recitals of various sub-topics in this chapter.

Joseph Warren Freer was born at Fort Ann, Wash-

ington Co., N. Y., July 10, 1816; removing to Chicago June 14, 1836, but shortly thereafter leaving the city to join his parents at Forked Creek, near Wilmington, 111. About 1846 he returned to Chicago, and commenced the pursuit of medical knowledge under the anspices of Dr. Brainard; graduating in the class of 1848-49 of Rush Medical College, in which institution he subsequently held several offices. Perhaps he did not originate much in surgery, but he suggested and practised several things of value. He is entitled to priority in suggestion of the use of collodion in erysipelas, burns, etc. So, also, the first publication of the use of adhesive plaster in fractures of the clavicle, a form of treatment, the advantages of which are not even yet fully appreciated by the profession, is due to him.

Dr. Freer died April 12, 1877. George Wallingford Wentworth was the son of Hon. Paul and Lydia (Cogswell) Wentworth, and was born on the 2d of November, 1820, at Sandwich, N. H., being the brother of Hon. John Wentworth, of this city. He was a matriculate of Dartmouth College in the years 1841 and 1842, but was compelled to relinquish his intention, in both instances, of proceeding with a collegiate course, and legal studies, on account of delicate health. In 1843 he came to Chicago and remained a year, during which time he performed some literary work for the Democrat; but his health remaining poor, he returned to the East and determined upon pursuing the study of medicine; and took courses of study at Concord, N. H., New York City and Philadelphia, becoming an alumnus of the latter city in 1847. Upon taking his degree, he returned to Chicago, and commenced practice at an office upon the west bank of the river, near the western end of the present Randolphstreet bridge. While the cholera prevailed in this city in 1849, the Alderman of the Sixth Ward resigned; and Dr. Wentworth's labors among the poor, and his faithful performance of the medical duties among those who required his professional services, so endeared him to the inhabitants of that ward that they unanimously requested him to fill the unexpired term of the resigned Alderman; and upon his consenting, he was elected therefor. At the ensuing election he was re-elected for the term of two years. In 1850 the cholera was again a visitant of this city, and during his efforts to ameliorate the condition of the afflicted and to perform his aldermanic duties, he was himself taken with the disease, and died at his office on August 14, 1850, after a sickness of only about ten hours. John Murphy, the landlord of the United States Hotel at which Dr. Wentworth boarded, called to see the Doctor about 7 A. M. and though himself in perfect health, was seized and died before Dr. Wentworth demised. Dr. Wentworth is alleged to have been the first physician in Chicago who commenced the practice of his profession upon the west side of the river. The Chicago Medical Society held a meeting, whereat they passed a deserved eulogium upon the character and services of Dr. Wentworth; especially testifying their esteem for his persistent and self-abnegating efforts to alleviate the sick and distressed, particularly during the epidemic to which he had fallen a victim, and that such effort had rendered it a matter of justice that his memory should be gratefully cherished by the citizens of Chicago. The Mayor called a special meeting of the Common Council, which likewise passed resolutions of respect and condolence. The Medical Society, and the Common Council, attenda ed the funeral of Dr. Wentworth in a body, subsequent to which his remains were taken to the family burial place at Concord, N. H., for interment.

Mrs. Lydia H. Sigourney, of Hartford, Conn., composed the following poem upon his death:

> Science doth mourn for thee, Who thus at opening day, Didst shroud thy manly head, and pass From her fair halls away. But poverty and pain Lament with deeper woe Their benefactor laid in dust, Where turf and wild flowers grow;

Lament his faithful care Their gushing tears that dried, And sought them in these dark abodes That few explored beside.

Yet better thus beloved, Ere faded prime, to fall, Affections pearl-drops on thy brow, And o'er thy sable pall.

The medical colleges and hygienic institutions of Chicago bear mute, though substantial, testimony to the medical prowess of her doctors, as her many hospitals, infirmaries and charitable institutions do to their benevolence and love for their species. These are as much evidences of their exerted endeavor, as the individual honor and fame that attaches to their names.

The early medical history may be accurately divided into three epochs: one, anterior to 1834, when individual, isolated effort characterized the medical fraternity; the second, from 1835 to 1844, when the various individuals commingled, established societies and medical sodalities; and the third epoch, subsequent to the establishment of Rush Medical College in 1844, when Chicago became a recognized center of medical instruction, and the alumni of this institution dispersed throughout the country, carrying the impress of their alma mater with them.

But two additional items remain to be mentioned in this chapter: one the names of three dentists, two representative Chicago men, Dr. Aaron Gibbs, who came here about 1845; Dr. James Kennicott, who commenced dental practice about 1848, and John C. Pride, a phenomenal dentist, who not alone extracted the offending molar or incisor, but gave instruction in vocal and piano music, thorough-bass, etc., in the year 1852. Also the name of John Webster deserves mention as the first hydropathic physician announcing himself as such in 1852; and W. Atkinson, in 1853, is the primal "confidential" physician.

EARLY DRUGGISTS,-The second item concerns those who provided the means, whereby the physicians were enabled to combat disease. The earliest pharmaceutist of Chicago was Philo Carpenter, who arrived here in July, 1832, shortly thereafter opening a variety and drug store on what is now known as Lake Street, near the eastern bank of the river; and subsequently removing to South Water Street. Early in 1833, Peter Pruyne \* and Edmund Stoughton Kimberly opened the second of Chicago's drug-stores. William Hull Clarke arrived in Chicago May 23, 1835, and opened a drug store with Abram F. Clarke. Under date of November 11, 1835, this firm advertised that they have opened a new drug store at the store formerly occupied by Kimball & Porter, corner of Water and Clark streets. This firm subsequently removed to 102 Lake Street; dissolving partnership March 1, 1841; W. H. entering into copartnership with Samuel C. Clarke, his brother, and remaining with him until about 1850. About 1855, W. H. Clarke became assistant engineer of the Chicago Board of Public Works, which position he retained until

\* On August 26, 1815, Mr. Peter Prnyne married Rebecca, only daughter of Silas W. Sherman.

his death in August, 1878. Frederick Thomas, in the American of June 8, 1835, advertised the proprietorship of the Chicago New Drug, Medical and Paint Store, on Water Street, two doors from the American office, near the drawbridge; and also advertised that he performed "bleeding, leeching and tooth-drawing;" thus establishing himself as Chicago's first barber-surgeon. In the American of January 16, 1836, under date of January 11, Mr. Thomas announced a copartnership with Thomas Jenkins, at a new store on Lake Street, one door west of Clark; for the sale of dry goods, groceries, paints, drugs and medicines; but the advertisement does not specify that the phlebotomical practice was maintained. On April 2, 1836, the partnership was dissolved, Mr. Thomas retiring. The names of the other early druggists are given in Fergus's directory of 1839: Edward R. Allen and Leroy M. Boyce; Leroy M. Boyce continuing the business alone at 121 Lake Street, July 10, 1840, and subsequently at 113 Lake Street; being succeeded, in 1851, by J. Sears, Jr., and E. R. Bay. Dr. E. Dewey, who advertised on July 1, 1840, as being at Apothecaries' Hall, Dearborn Street; Nelson Buchanan, and Sidney Sawyer, who were in business for a number of years subsequent to 1839.

## RUSH MEDICAL COLLEGE.

The act of incorporation for this institution was drawn by Drs. Daniel Brainard and Josiah C. Goodhue; was passed by the Legislature; and approved by the Governor on March 2, 1837. The Chicago Amer-

FIRST RUSH MEDICAL COLLEGE,

ican of March 25, 1837, commenting thereupon, states that "this act may be regarded as not the least of the favors which Chicago has received at the hands of the State. Being the first institution of the kind in Illinois, or indeed west of Cincinnati and Lexington, it must soon possess advantages of location which but few medical schools enjoy. With such a situation, if it receive the fostering care of the public, cannot fail to become an ornament and an honor to our infant city. The benefits resulting from the establishment of literary and scientific institutions in a community are very great,

The name selected, "Rush Medical College," seems particularly appropriate. It is intended as an honor to the memory of Benjamin Rush, that eminent physician and illustrious patriot, whose name is so dear to every American.

The following are the names of the trustees: Hon. Theopholus W. Smith, Dr. J. C. Goodhue, Rev. Isaac T. Hinton, Dr. John T. Temple, James H. Collins, Dr. Edmund S. Kimberly, Justin Butterfield, Ebenezer Peck, John H. Kinzie, John Wright, Henry Moore,

D. Be emand,

William B. Ogden, John D. Caton, Grant Goodrich, E. D. Taylor, all of Chicago; Rev. Seth S. Whitman, of Belvidere; Hon Thomas Ford, of Oregon City; and the Governor, and the presiding officers of the Senate and the House of Representatives, ex-officio members. In October, 1843, an organization was effected, and on the 24th of that month an announcement made that the first annual course of lectures would commence December 4, 1843, and continue sixteen weeks. The faculty were: Daniel Brainard, M. D., professor of anatomy and surgery; James V. Z. Blaney, M. D., professor of chemistry and materia medica; John McLean, M. D., professor of theory and practice of medicine; M. L. Knapp, M. D., professor of obstetrics. The ticket fees are announced as sixty dollars; dissecting ticket, five dollars; graduation fee, twenty dollars. The lectures were delivered in two small rooms situated on Clark Street. William Butterfield was the only graduate that year; an honorary degree being conferred upon Thomas P. Whipple and upon John McLean.

In 1844 the college building was erected by John M. Van Osdel, architect, at the southwest corner of Dearborn and Indiana streets. It was constructed of brick with stone facings and contained two large lecture

rooms, beside rooms for chemical, anatomical and other demonstrations. Its cost was about \$3,500.

The first lecture was delivered on December 11, 1844, in the new edifice, and the formal opening occurred on Friday, December 13, 1844; when, before a large and cultivated audience, the Rev. R. W. Patterson offered a prayer appropriate to the occasion, and Daniel Brainard, president of the faculty, delivered an able address. The Weekly Democrat of December 25, 1844, address. reviewing the opening exercises states: "Dr. Brainard, indeed, may almost be said to be the founder of this institution, and he and our citizens generally may well be proud of the intelligence and enterprise, which in so short a time have erected a beautiful and costly edifice dedicated to science, in which are already gathered about forty students from our own and neighboring States." The faculty in 1845 were Daniel Brainard, M. D., professor of surgery; Austin Flint, M. D., professor of institutes and practice of medicine; G. N. Fitch, M. D., professor of obstetrics and the diseases of women and children; James V. Z. Blaney, M. D., professor of chemistry and pharmacy; John McLean, M. D., professor of materia medica and therapeutics; W. B. Herrick, M. D., professor of anatomy. The directory for 1844 gives, in addition to the names of the four gentlemen who were the first faculty of the incipient college, A. W. Davisson, prosecutor to the professor of anatomy.

In 1846, the cabinets of morbid and general anatomy, materia medica, mineralogy, etc., were enlarged and a library of about six hundred volumes, for the convenience of students, formed. On December 24, 1846, a free dispensary was opened at the College, where advice and medicine were gratuitously dispensed and surgical cases treated and requisite operations performed with-

out charge.

On Wednesday evening, January 5, 1847, protoxide of nitrogen (laughing gas) was first administered in the presence of an audience, by Professor Blaney; and upon January 21, 1848, chloroform was first used as an anæsthetic in surgery, the hypnotic agent being administered and the operation subsequently performed by Dr. Brainard, assisted by Drs. Herrick and Blaney.

From October 28, 1847, to February 2, 1848, fortynine operations were performed by Dr. Brainard; who also performed the first recorded case of emasculation

during the session of 1849-50,

In October, 1850, Dr. Thomas Spencer, resigned the chair of the principles and practice of medicine, on account of ill-health, and the trustees of the College tendered him the honorary appointment of emeritus professor thereof in acknowledgment of their appreciation of his valuable services.

The Gem of the Prairie, of November 10, 1850, states that Mrs. Brockway, of Jonesville, Mich., arrived in this city to attend lectures in Rush Medical College; but no record is extant of this lady having become a matriculate. In 1852, the name Emily Blackwell, of Ohio, appears as a student of the session of 1852-53; but in consequence of the misogyny of the State Medical Society, the liberality of the college faculty was unable to grant a second course of lectures to Miss Blackwell, and she subsequently graduated at a medical college in Cleveland, Ohio.

In the interregnum of the collegiate terms of 1854 and 1855, the College was rebuilt and its interior remodeled and additional rooms were furnished for the museum\* and for post mortem examinations, the cost of such alterations being about \$15,000. This expense

<sup>\*</sup>Prof. Daniel Brainard made an extensive collection in Europe, which he deposited in the new museum.

and all others relevant to the institution, maintenance and alteration of the college were sustained by the various faculties of the institution; the faculty being, as Dr. J. Adams Allen remarked, "privileged to pay all expenses, after the manner of Mr. Pickwick and Messieurs Snodgrass, Tupman and Winkle; and, like them, have been subject to acrimony and animadversion as a reward for their expenditure." The only donation that had been made to Rush Medical College toward its establishment or support, was the lot originally given where-upon the first college was erected. This fact is but an additional evidence of the worthiness of the College to be honored by Chicago citizens, for the faculty have, from pure, disinterested love of their profession, devoted their money, time, energy and intellect to enhancing the profiency, and ability of the students of the college, with the most flattering results to themselves as professors, and to the college as a medical alma mater.

The following table \* exhibits the number of matriculates and graduates during the several collegiate

No	of Students.	Graduates

William Butterfield was the son of the Hon. Justin Butterfield, who is distinguished in the forensic annals of early Chicago. After Mr. Butterfield graduated he practiced his profession until February, 1847; on the 3d of March of that year, being commissioned Second Lieutenant of the United States Marine Corps, in which capacity he performed service during the Mexican War. During his stay in Mexico he became a confirmed invalid, from the climatic rigors. He resigned his com-mission on May 1, 1858. On August 5, 1861, he was commissioned Captain and Commissary of subsistence, and was stationed at Hannibal, Mo., from the autumn of 1861 until December, 1863; and at Rock Island, Ill., during the year 1864, resigning his commission on December 3, 1864. Subsequent to this period Dr. Butterfield led the simple life of a private citizen, dying on the 13th of January, 1878, aged fifty-seven

THE CHICAGO MEDICAL SOCIETY has become commingled, in the recollection of many of the early physicians of this city, with that of Cook County Medical Society. Medical societies arose, endured for a brief season, and passed away, in the early years of Chicago's existence, with such frequency that their nomenclature even is lost to recollection; but the first society that attained any prominence appears to have been the Cook County Medical Society-of which Dr. Levi D. Boone was secretary-whose first meeting was held at the office of the Chicago Insurance Company October 3, 1836. Subsequent to this Society, and anterior to 1857, the only one that achieved any protracted vitality was the Chi-

\* From the Sixteenth Annual Catalogue of Rush Medical College, for 1858-59. Chicago Historical Society.

† The Twenty-fourth Annual Catalogue had graduates differing in number from those specified above, as follows: !846-49, n; 1847-38, s) ; 1848-49, 18; 1849-59, 4; 1857-58, 3;

cago Medical Society,\* that was inaugurated some time during the first quarter of 1850; the first meeting having been held in a room on Randolph Street, near the corner of Clark, and was attended by a large num ber the prominent practitioners of the city, among whom were Drs. Daniel Brainard, Levi D. Boone, Brockholst McVickar, W. B. Herrick, John Evans, Edwin G. Meek, J. Herman Bird,\* J. V. Z. Blaney, Samuel W. Ritchey,† Philip Maxwell and Nathan S. Davis. At this meeting a committee was designated to prepare a constitution and by-laws, which was adopted at a subsequent meeting of the Society, held April 5, 1850; whereat officers were elected and the name of Chicago Medical Society adopted. Dr. Levi D. Boone was the first president of the Society, and Dr. John Evans was elected delegate to the American Medical Association; Dr. Evans attending the annual meeting of this Association in Cincinnati, in May, 1850, as representa-tive of the Chicago Society. Dr. Davis states that "Previous to the formation of this Society, the profession of the city had been so divided into rival factions that many thought it would be impossible to secure sufficient harmony of action to maintain a social organization among the members. To show that there was some reason for this opinion, I may mention that Dr. Brainard and several others who participated in the preliminary meetings, never attended a meeting after the first election of officers. And before the first six months had elapsed charges were preferred against a number for unprofessional conduct: who, instead of submitting to a trial in conformity to the by-laws, simply treated both the charges and the Society with contempt, which caused some others to abandon the meetings of the Society; and so lessened the number of the members who continued to attend, that after the second election of officers in April, 1851, no constitutional quorum could be

Drs. Bird, Blaney, Boone, Davis, Evans, Herrick, Meek, and two or three other physicians, continued to hold meetings at stated dates each month; although the meetings partook rather of the character of pathological sociables, than of autocrats of the medical profession, because of there being an insufficient number in attendance to poll votes requiring the presence of a quorum. The Society, though moribund, continued to exist, consequent upon the fidelity and persistence of these few gentlemen until the period for the annual election of officers in April, 1852. Prior to this meeting the secretary made strenuous efforts to convoke an adequate number of physicians for a quorum for the election of officers; and to amend the by-laws so that a smaller number than was therein designated would constitute a quorum for the transaction of business. Despite the energies of the secretary and the convocation of the quasi-members, but an insufficient number for the intent of the meeting were present; and these simply adjourned the Chicago Medical Society, and immediately constituted themselves the Cook County Medical Society; elected a physician-who was present, but who resided outside of Chicago-a member to give it a semblance of a Cook County organization; elected Dr. Erial McArthur, president, and Dr. H. A. Johnson, secretary; adopted a few simple rules for the government of the Society, and appointed Dr. Alonzo B. Palmer, delegate to the National Medical Association to convene at Richmond, Va., in the ensuing May. 1

\* "History of Chicago Medical Society," by Nathan S. Davis, M. D., in minutes of Society; a scrutiny of said minutes having been afforded by Dr. Liston H. Montgomery, secretary,

+ Graduates of Rush Medical College, class 1835-46.

† The Daily Democrat of April 7, 1852, states that this meeting was held at the office of Drs. Davis and Palmer, on April 5, 1852.

The transfusion of the Chicago, into the Cook County Medical Society, at this meeting, occasioned the anachronisms observable in the recitals of physicians as to the date of inception of the Society, The metamorphosed Society held its stated monthly meetings, whereat a gradual accession of attendance and interest was observable; and was annually represented by its accredited delegates, at the meetings of the American Medical Association and the Illinois State Medical Society, until September or October, 1858, when its membership included a large proportion of the active practitioners of the city-especially those in their medical youth. Being thus possessed of a civic clientele, that presaged well for the influence, growth, and stability of the Society, and the solitary member from the rural district having died: it was deemed advisable to rechange the name of the Society, to the Chicago Medical Society, as more expressive of the membership constituting it, and also to identify it with the original organization of which the Cook County Society had been a continuation. This was done by the unanimous voice of the members at the regular meeting of the Society held—presumably—in October, 1858.

Since that epoch the Chicago Medical Society has maintained its entity with a mutative membership and a corresponding degree of changeful success and prosperity. But the regular meetings have been held and attended to the manifest improvement of its members and the advancement of their professional knowledge and interests. The fire of 1871 made but a brief hiatus in the sessions, as Dr. Nathan S. Davis-the sole surviving, continuous member of the original body-invited the Society to meet at his residence on Wabash Avenue; after which the Society met in a court-room, that remained tenantable, in the partially incinerated courthouse; until more suitable and commodious quarters could be procured, during which period the growth of the Society, the professional skill and talent of its members and the beneficent influence exerted have made a notable mark in the medical annals of the city.

In September, 1857, the German Medical Society of Chicago was organized; with William Wagner, M. D., president; E. Schmidt, M. D., vice-president, and George D. Schloetzer, M. D., secretary.

The State Medical Society was first organized at Springfield, June 4, 1850, and Chicago received its meed of recognition by William B. Herrick, M. D., then professor of anatomy and physiology in Rush Medical College, being elected president, and Edwin G. Meek, M. D., being appointed one of the secretaries.

## HOMEOPATHY.

The discovery of homeopathy, as a distinctive specialty of medical practice, is conceded to Samuel Hahnemann, who became a systematic pathological heresiarch about 1810. But however ancient the phrase or system, its disciples have increased from the days of Ferdinand L. Wilsey—the first convert to homeopathy in the United States, in 1826—until now they are numbered by thousands.

The history of homeopathy in Chicago may be summarized in two words—effort and success. In any departure from an accepted dictum, the schismatic encounters intense opposition; this, the homeopathists have encountered, and their status at the present day is a stronger, more unerring and satisfactory testimonial than any eulogium that could be penned; and this success has been achieved notwithstanding the fact that in the ranks of the adherents of any novel tenet or dogma,

charlatans flock to the newly raised standard and cover the disciples with discredit because of their disreputable practices; which are as possible in a new body of medical practitioners, as of troops—merely from defective organization.

David Sheppard Smith, to whom belongs the honorable title of "Father of Western Homeopathy," arrived in Chicago in May, 1836; a graduate from the Jefferson Medical College in Philadelphia, of the class of 1836; and thus enjoys the honor of being the oldest medical practitioner now living (1883) in this city. Dr. Smith became convinced of the verity of the homeopathic practice in 1837, and pursued a further course of medical investigation. After unsuccessfully treating his oldest child according to the regular school, and achieving its cure by homeopathic treatment, early in 1843, he became a firm enunciator of the "similia similibus curantur" creed. In 1842, Dr. R. E. W. Adams came to Chicago, and became associated in the medical practice with Dr. Smith; and, after the latter gentleman embraced homeopathy, Dr. Adams also became a convert. In August, 1843, Dr. Aaron Pitney arrived in Chicago, and this triumvirate were the earliest homeopathists of this city.

Dr. David Sheppard Smith was born in Camden, N. I., on the 28th of April, 1816, and is the son of Isaac Smith, of Salem County, in that State. The immediate ancestors of Dr. Smith's mother were Welsh, and manifested in a high degree, the tenacity of purpose, determination of character and healthful physique that are characteristic of that nation. To these inherited qualities Dr. Smith united laborious and painstaking industry, and early exhibited intense desire for the best moral and intellectual culture; the first he received from his mother; the latter he obtained by persevering application. At the age of seventeen he entered the office of Dr. Isaac S. Mulford, as a medical student, and attended three courses of lectures at the Jefferson Medical College in Philadelphia; graduating from that justly celebrated school in 1836. In 1837, he returned to Camden, N. J., to visit his parents; and, at that time, became a catechumen of the Hahnemann school, and the investigations he pursued resulted in his embracing the tenets of this branch of medical science in 1843; Dr. Smith having returned to Illinois in 1838. The success that has attended his practice has been equaled by the advancement he has made in the scientific and social circles of Chicago. A man of great natural endowments, of sterling integrity, of comprehensive benevolence and undiscriminating humanity; the poor of the city learned the name of David Sheppard Smith as one whose heart was open to their appeals, and whose medical skill was always exercised to the healing of their diseases; - and this, too, at a time when the influential and wealthy made constant demands upon his services as a physician. His unremittent professional labors have twice necessitated the temporary relinquishment of his practice; the first time in 1856, when he removed to Waukegan; and the second in 1866, when he visited Europe. Dr. Smith married Miss Rebecca Ann Dennis, of Salem, New Jersey, in 1836. Four children resulted from this marriage, two of whom survive; one, Mrs. Whitehead, wife of Major F. F. Whitehead, U. S. A.; and the other Mrs. J. L. Ely, of New York City. Dr. Smith was president of the board of trustees of the Hahnemann Medical College from its inception; and had conferred upon him, by the Homeopathic Medical College of Cleveland, an honorary degree in 1856. In 1857 he was elected general secretary of the American Institute of Homeopathy; and, in 1858, was selected as

president, and in 1865, as treasurer, of this national institution of physicians; and the conferring of these honors on this typical Chicago physician are but a fitting

tribute to him.

Dr. John Taylor Temple, to whom reference is made elsewhere in this chapter, became a convert to homeopathy about 1842, under the tutelage of Dr. D. S. Smith, and commenced practicing at Galena, that vear. Dr. Temple was born in Virginia in 1804, and married the daughter of the Rev. Dr. Staughton (who delivered the address of welcome to General LaFayette at Castle Garden, in 1822), when he was about twentytwo years old. His eldest daughter, Leonora M. Temple, is the widow of the Hon. Thomas Hoyne. Three

other J. Temple

other daughters - Elizabeth, Marcella and Josephineare living, as is one son, John Howard Temple. About 1845, Dr. Temple made the overland trip to California, a difficult journey in those days, and deemed almost as venturesome as a voyage to find the survivors of an Arctic exploration would be now. In the very early days of Chicago's history the Doctor, during his pere-grinations, discovered copper in the Lake Superior region; excavated three sections of earthwork of the Illinois & Michigan Canal; and, with John M. VanOsdel, applied new machinery for pumping water in the works of the canal. Dr. Temple was a proficient geologist, botanist and chemist, and had one of those comprehensive and discriminative minds that instinctively descry the salient points of any topic or project. He was a restless, earnest, indefatigable worker, and whatever he did, he did with all his might; whether it was an anatomical demonstration, or duck-hunting; the latter amusement being a favorite one with the Doctor, he being an ardent devotee of the rod and gun. His life was an example to the men of his time; his death a loss to the scientific professions, and the society wherein he

JAMES STERLING BEACH, who was a printer during the early days of Chicago, determined on abandoning the stick for the scalpel; and, in 1843, commenced reading medicine with Dr. Aaron Pitney. In July, 1846, Dr. Beach commenced practicing, somewhat before his course of study had qualified him to do so—according to the Doctor's statement-but in any case of undecided diagnosis he submitted the point in question to his preceptor, and acted according to his decision. It is per-tinent to remark here, that Dr. Beach's strong point in his medical career has been the unfailing accuracy in diagnosing the diseases of his patients. One other fact

remains to be stated, in connection with his early entry into the ranks of practicing physicians, that he was compelled to fill a hiatus in the corps of physicians occasioned by so many of them being sick with typhoid fever, when that disease was epidemic in 1846. Dr. Beach was born in Detroit, Mich., February 24, 1826, and came to Chicago in July, 1838; was married to

Miss Helen M. Stone in September, 1847; practiced with Dr. William Pierce, at 53 Randolph Street, in 1849; and was elected Coroner in 1854; completed the term of James Andrews, as Sheriff, in 1856; and graduated from the Cleveland Homeopathic College the class of 1856-57. After Dr. Beach commenced the practice of medicine he abandoned all literary pursuits, either in the manufacture of "copy" or its transmutation to the "galley" ere it sailed before the public as printed matter. The Doctor has an extensive practice; and his cheery, jocund manner enlivens a sick-room fully as potentially as his skill alleviates the suffering of his

The other homeopathic practitioners of early Chicago, who achieved reputation in their profession and remained in the city, are: George E. Shipman, Henry Kirke White Boardman, D. Alphonso Colton, Gaylord D. Beebe, Nicholas Francis Cooke, Reuben Ludlam and Alvan Edmund Small. There were, of course, many other practitioners, but they only coruscated for

a brief period in the homeopathic orbit.

Henry Kirke White Boardman came to Chicago in the fall of 1846, and practiced medicine according to the old school until 1851; when he became a homeopathist. He was a graduate of the Jefferson Medical College of Philadelphia, and was a student of the celebrated Dr. Mütter. The distinguishing feature of Dr. Boardman's practice was his surgery; in this branch he had few compeers. He was married; and died about

GAYLORD D. BEEBE was born May 28, 1835, at Palmyra, Wayne Co., N. Y. His father was a farmer in rather indigent circumstances; and being unable to provide the means to furnish his son with a liberal education, the latter determined upon leaving home and endeavoring to gratify his thirst for knowledge. In this project he was opposed by his father, and sustained by

JAY Lube

his mother-a noble Christian woman-and acting upon her advice and following his own intense desire, Dr. Beebe, at the age of seventeen, attended the Genesee Wesleyan Seminary; studied hard and worked harder in laboring for farmers and teaching school during vacations, and, by economy, not alone paid for his tuition but saved enough money to support himself while studying medicine. He pursued his medical studies for one year in Rochester, N. Y., and then entered Albany Medical College. During his occupancy of this institution he read medicine with Dr. Pratt, a leading homeopathic physician. He pursued a full course of study at the Albany College and graduated with great credit. the Albany College and graduated with great credit. He then went through his complete curriculum at the Homeopathic School of Medicine at Philadelphia; graduating therefrom in 1857; subsequent to which he settled in Chicago, and very shortly afterward was associated in homeopathic practice with Dr. A. E. Small; a conclusive evidence of his medical proficiency. At the outbreak of the Civil War, President Lincoln commissioned him as brigade surgeon, but when he presented himself before the State Medical Board for examination for this military position, they declined catechising him, simply because he was a homeopathist. Dr. Beebe then went to Washington, carrying with him

a numerously-signed petition, asking for the appointment of a homeopathic surgeon, and the action of the officials there rendered his application a species of test case. Dr. Beebe procured an order from President Lincoln, decreeing that he should be examined, and presented himself before a board imbued with prejudice, not alone against homeopathy, but against Dr. Beebe individually. His examination was consequently unusually rigorous, but his scientific knowledge was equal to the occasion. He triumphantly underwent the ordeal, and received his appointment as brigade surgeon. He was assigned to the command of General Hunter in Kansas, and while on duty there was once arrested by some Federal troops who mistook him for the celebrated Quantrell. He occupied several important positions upon the medical staff, until-when medical director of the Fourteenth Army Corps—he was compelled to resign on account of ill-health, in April, 1863, superinduced by unremittent labor and over exertion. Dr. Beebe then returned to Chicago and resumed his civic practice, continuing therein until 1868, when his chronic cardiac affection recurred, and compelled the relinquishment of his practice, until 1874, when he resumed his office practice only, which he continued until the hypertrophy and dilatation of the heart, with which he had been so long afflicted, prostrated him in his last sickness in April, 1877; from which disease he died on the 11th day of that month. Dr. Beebe was married in 1863, to Miss Mary Brewster, of Erie, Penn. Dr. Beebe was a close, earnest and aggressive student in applying medical expedients that commended themselves to his reasoning faculties. He was the first to use sulpho-carbolate of sodium as a preventive in scarlet fever; and although he made no claim to the discovery of this agent, as a prophylactic, yet the world is indebted to him for its primary appliances, and the initial step to demonstrate the efficacy of this substance. Dr. Beebe was also the first to introduce the method of torsion in ovarian diseases, in place of the old clamps and ligatures. As a surgeon he was probably unexcelled in the profession, and the success that attended his intestinal operations is a matter of surgical emulation to the present day; one distinctive feature of such surgery being his fortuitous use of disinfectants to preclude gangrene. He made a special study of this class of drugs, and contended to the day of his death that carbolic acid was a sovereign remedy for cancer, but that the danger attendant upon its use was such as to prevent its general adoption. The successful utilization of phenic acid, however, has demonstrated that the jeopardy was principally attributable to the chemical impurity of carbolic acid, and has revived and strengthened the claim Dr. Beebe originally made. His most successful operation was one performed upon a Mrs. Childs, of Lee Centre, Ill., and was one wherein strangulated hernia had produced mortification of the abdominal viscera. In the operation a large quantity of the viscera was excised; and in commenting upon this phenomenal case, that medical authority of the world, the London Lancet, said, "that since this operation life was never to be despaired of under any circumstances." An affectionate and just tribute is paid to him by Dr. N. F. Cooke, in the dedication of his work, "Antiseptic Medication:" "To the memory of Gaylord D. Beebe, the great surgeon whose genius foretold all that is herein demonstrated; this book is dedicated, by his life-long friend and co-labor-

The names of the gentlemen that have been cited are not to be considered as embracing all of Hahnemann's followers who have flourished in Chicago, but only as those who have become fused into the history of homeopathy in this city. They formed the medical Macedonian phalanx that penetrated opposition, that received the brunt of the affray; and the survivors of which little coterie now enjoy the merited fruits of their perseverance and earnestness of purpose. They are a hardy, working assemblage of pugnacious pathological pioneers, and, like the pilgrim fathers of Mrs. Hemans, "have left unstained what there they" formed: freedom to practice medicine according to the convictions of the individual.

One obstacle encountered by the new school can be discerned by reading the following open letters that appeared in the Northwestern Journal of Homeopathy for October, 1850:

DR. Shipman: During the session of 1849 and 1850 I attended a course of lectures at the Rush Medical College in Chicago, and was desirous of attending the ensuing course, and receiving the honors of the College, as I should have been entitled to do had none but the ordinary tests of qualification been applied to me. But wishing to have the matter fully undestood previous to securing tickets for another course, I addressed the following to the Secretary of the faculty, and received the accompanying reply:

St. Charles, Ill., September 12, 1850.

Dr. N.S. Davis—Sir: I am a homeopathist from a conviction of the truth of the principles and the efficacy of the practice of homeopathia. With these views, will you graduate me if I comply with the ordinary requisitions of the facult?

Yours, etc.,
M. DANIEL COE.

CHICAGO, September 16, 1850.

MR. DANIEL COE—Dear Sir: I am directed to inform you that the faculty of Rush Medical College will not recommend you to the trustees for a degree so long as they have any reason to suppose that you entertain the doctrines, and intend to trifle with human life on the principles you avow in your letter. To do otherwise would involve both nattles in the prosessit inconsistency.

wise would involve both parties in the grossest inconsistency,
Very respectfully yours,
N. S. DAVIS,
Secretary of the Faculty of Rush Medicai College.

There is no need of recounting the various arguments used pro and con relative to this correspondence; it demonstrated, however, that homeopathists could not graduate from Rush Medical College; and the fact must have been apparent to them of the necessity for a college of their own, where the adherents of the homeopathic school could pursue the requisite course of study and graduate as doctors of medicine. To discuss the necessities of the new school of medicine, a homeopathic convention was convened, and the Gem of the Prairie thus commented upon the science whose adherents were about to assemble: "That although oldschool practitioners at first regarded the 'infinitesimal philosophy' as a delusion, and that it was still regarded by the great body of them as a system of quackery, it had gained a strong position, and was growing daily, both in this country and in England. In fact, it recognized homeopathy as something which could not be ignored or sneered out of existence."

A preliminary meeting was held at the office of Messrs Skinner and Hoyne,\* at the corner of Lake and Dearborn streets, on June 3d, 1851. Prof. L. Dodge, of Cleveland, was called to the chair, and Dr. T. G. Constock, of St. Louis, appointed secretary. The special design of the meeting was announced to bethe formation of a Western homeopathic association. A committee on credentials was appointed, consisting of D. S. Smith, M. D., Chicago; L. M. Tracy, M. D., Milwaukee, and George E. Shipman, M. D., Chicago, who presented the following resolution as a basis of the action of the convention:

\*Hon. Jonathan Young Scammon, Hon. William B. Ogden and Hon. Thomas Hoyne were among the earliest of the homeopathic laymen.

Resolved, That those present shall be considered members of his convention who have conformed to the existing medical institutions of the country, or who have been engaged in the practice of medicine five years, (being avowed believers in, and practitioners of, homeopathy.) or who shall have passed an examination before

he committee.

This resolution was passed, and, under its provisions, the following gentlemen were reported by the committee as qualified to seats in the convention: Lewis Dodge, M. D., Cleveland; T. G. Comstock, M. D., St. Louis; H. C. Foote, M. D., Galesburg; A. Giles, M. D., Southport, Wis.; Dr. M. D. Coe, St. Charles; Dr. A. P. Holt, Lyndon; Dr. William Vallette, Elgin; Dr. W. C. Barker, Waukegan; D. S. Smith, M. D., Chicago; L. M. Tracy, M. D., Milwankee; George E. Shipman, M. D., Chicago.

The convention met at Warner's Hall on the following day, and Dr. I. S. P. Lord, Batavia; John Granger, M. D., St. Louis; Thomas J. Vastine, M. D., St. Louis; Prof. Charles D. Williams, M. D., Cleveland; John Wheeler, M. D., Cleveland; M. S. Carr, M. D., Peoria; Dr. N. Clark Burnham, Peoria; E. H. Kennedy, M. D., Galena; D. T. Brown, M. D., Waukesha; G. W. Crittenden, M. D., Janesville; E. H. Clapp, M. D., Farmington, were reported to the convention and elected members By-laws and constitution were drafted and adopted and the "Western Institute of Homeopathy" thereby created. The following officers of the Institute were then unanimously elected: L. M. Tracy, M. D., Milwaukee, president; D. S. Smith, M. D., Chicago; T. G. Comstock, M. D., St. Louis; Lewis Dodge, M. D., Cleveland, and A. Giles, M. D., Southport, vice-presidents; George E. Shipman, M. D. Chicago, secretary. On the evening of June 5, Prof. Lewis Dodge delivered an address before the Institute and a public audience.

The antagonism between the two medical schools remained quiescent, until the friends of homeopathy considered that official recognition was due the practitioners thereof, and on March 14, 1857, a petition numerously signed by prominent citizens of Chicago, was presented to the Common Council, requesting that some portion of the new City Hospital might be allotted to the homeopathic physicians, for the treatment of patients according to their school of practice. The petition was referred to the Board of Health, and this body, upon July 9, 1857, appointed two medical and surgical boards for the City Hospital, constituted as

follows:

Allopathic Board:—Consulting physicians: Drs. N. S. Davis and G. K. Amerman; physicians and surgeons, Drs. R. N. Isham, John Craig, DeLaskie Miller, W. Wagner, L. P. Poer, Course, L. Schlotter.

Wagner, J. P. Ross, George D. Schloetzer.

Honeopathic Board:—Consulting physicians: Drs. A. E. Small and A. Pitney; physicians and surgeons, Drs. H. K. W. Boardman, Reuben Ludlam, D. Alphonso Colton, S. Seymour, N. F. Cooke, George E. Shipman.

To the first board, three-fourths of the hospital were albited; to the latter board, one-fourth. But the designation "Allopathic Board" caused a perfect Pandora's box of discussion and objection. The regular physicians objected to being called a board of "other diseases" iallos, other; pathos, disease); and also to practice with those whom they classified as irregular practitioners. Correspondence abounded; pamphlets were prolific; the Cook County Medical Society denounced the homeopathists, perhaps a little "ex cathedra;" and the homeopathists creeted bulwarks of statistical facts against which the darts of the regulars hurtled harmlessly; one pamphleteer getting rather worsted because of a Hellenic typographical error. In fact, the Montagues and Capulets of the medical pro-

fession had a decided tourney, and the Board of Health, unable to discern any way of bridging the pathological abyss and of acceding to the petition referred to them, took refuge in inaction; and the hospital remained, not alone unprovided with physicians, but without furniture. The Common Council also evaded the issue by declaring the city too poor to make the expenditures requisite for the establishment of the hospital, and then, in 1858, leased the building to some "regular" physicians, who established therein a public hospital, cared for the county poor and gave clinical demonstrations, principally to the students of Rush Medical College. In 1863 the General Government confiscated the building and transformed it into a general hospital, with Surgeon Brockholst McVickar in charge, and with George K. Amerman and J. P. Ross, as acting assistant surgeons. The hospital was shortly afterward changed in its scope of treatment, and soldiers afflicted with ophthalmic or auricular diseases were alone received there; Dr. Joseph S. Hildreth being in charge; the hospital remaining under his administration until the close of the civil war, when it became the DeMarr Eye and Ear Hospital; subsequent to which it became the County Hospital.

HOMEOPATHIC PHARMACY.—The first homeopathic pharmacy was established by Dr. David Sheppard Smith, at his office, in 1844. The rapid growth of homeopathic practice necessitated the establishment of a depot in Chicago, and Dr. Smith procured a supply of the medicines of this school, which he furnished to his brother physicians as required. The pharmacy was an unpretentious affair, but was fully adequate to the purpose for which it was designed; enabling the homeopathic practitioners to prescribe "secundum artem," for their patients. About 1854, Dr. Reuben Ludlam became associated with Dr. Smith, and the business amounted to several thousands of dollars annually. In 1856, Dr. George E. Shipman started a pharmacy at 94 La Salle Street, but the management was, shortly after its inception, transferred to C. S. Halsey, who removed the pharmacy to 108 Wells Street, and associated with him Benjamin Cowell, Jr. No homeopathic dispensary appears to have been regularly established before the

year 1858.

The first Homeopathic Hospital was established in 1854, by Dr. George E. Shipman, at 20 Kinzie Street, a little east of State; the funds being supplied by private subscription. .. The impetus to the founding of the hospital was given by Madame Wright, who promised Dr. Shipman \$1,000 a year toward the maintenance of the hospital, if it was established. Dr. S. W. Graves, a homeopathic physician, was among the first of those who died in the hospital; he being seized with the cholera while in attendance upon his patients and, having neither intimate friends nor relatives in the city, went to the hospital. Of this physician it is authoritatively stated, that, in the unremitting exercise of his duties among those afflicted with the cholera, he went almost without sleep for fourteen nights and partook of the merest snatches of food, taken irregularly; and thus from the enfeebled condition of his constitution, fell an easy prey to the disease; a martyr to his profession. In January, 1855, Mrs. Peter Nelson, assumed the position of matron of the institution, which she retained until its close. In the commencement of May, 1855, a species of "ex post facto" organization of the hospital was made by a meeting of homeopathic physicians, held at the office of Dr. D. S. Smith, on LaSalle Street, near Madison; the site of which office is now occupied by the Mercantile Building. At this meeting J. H. Dunham was president, Dr. D. S. Smith, vice-president, and Dr. George E. Shipman, secretary. The following gentlemen were elected to attend the patients at Dr. Shipman's hospital: Physicians: George E. Shipman, D. S.

Smith and Reuben Ludlam.

Surgeons: H. K. W. Boardman and L. A. Douglass. The following gentlemen were also appointed a Board of Directors; J. H. Dunham, Hon. J. M. Wilson, Hon. Norman B. Judd, Orrington Lunt, J. S. Doggett, Dr. D. S. Smith, Dr. George E. Shipman, George A. Gibbs, William H. Brown and Thomas Hoyne.

In addition to the physicians thus appointed, and who took monthly tours of service in the performance of their duties, a large proportion of the other homeopathic physicians, then in the city, attended the patients, and so successful was this exercise of their skill, that of three hundred and twenty-one patients treated in the twenty-eight months prior to the closing of the hospital, but nine died; and of twenty-seven small-pox cases, clinically treated, but one terminated fatally, and this

case was the first admitted to the hospital.

Upon the death of Mrs. Wright, her trustees could not recognize the verbal arrangement made with Dr. Shipman, and the homeopathists of those days being but a small fraction of the population of the city, the treasury became depleted. A vain effort was made by the attending physicians to tide over the financial dearth by contributing \$500 of their own sparse funds, the rent of the hospital also having augmented from nothing to \$1,000 per annum. Dr. Shipman therefore determined upon its suspension, and on May 1, 1857, the hospital was permanently closed.

HAHNEMANN COLLEGE.—As recounted in the history of homeopathy, the urgent need for a homeopathic college was early experienced by the practitioners of that science, and David Sheppard Smith determined on supplying the want. Accordingly, in 1853, a draft for a charter was sent to a member of the Legislature of this State, in whose hands it failed of fruition. Dr. Smith then went to Springfield and endeavored to find the missing charter, contemplating making a personal effort to secure its legalization, but the charter was nowhere to be found. Meeting Hon, Thomas Hoyne, Dr. Smith explained the predicament, and Mr. Hoyne took the Doctor to the law-office of Abraham Lincoln, where Dr. Smith drafted a new charter, and exerted himself to achieve its passage; which was accomplished in January, 1855. The trustees under the act of incorporation were: D. S. Smith, M. D., Hon. Thomas Hoyne,\* Orrinton Lunt, George A. Gibbs, Joseph B. Doggett, George E. Shipman, M. D., Hon. John M. Wilson, William H. Brown, Hon. Norman B. Judd, and J. H. Dunham. The trustees upon organization installed J. H. Dunham, as president; D. S. Smith, M. D., as vice-president, and George E. Shipman, M. D., as secretary and treasurer.

<sup>\*</sup> Dr. Smith and Mr. Hoyne were de facto the Hahnemann College for may years, but the infusion of new material into the board, gave it an accession of modern vitality, and imparted the vigorous growth it now enjoys.

# THE DRAMA, MUSIC, LITERATURE AND ART.

## EARLY AMUSEMENTS.

To mock reality with puny show; to counterfeit emotion, and enact such scenes as thrill the human heart, are means of recreation from the constant theme of how to gain subsistence, as old as history. The monarch and the serf, the savage, the savant,-all grades which go to make the total sum of social life,

find entertainment in dramatic art.

It is gratifying to record that the first systematic venture in the way of diversion, by the residents of Chicago, was of an intellectual character. During the winter of 1831-32 a debating society was formed by the few white men then in this section, most of whom were located at the fort. Col. J. B. Beaubien was chosen president of the society. There is no record of the transactions of this body preserved, and mention can be here made only on traditionary statement.

The little band of pioneers who braved the hardships of life in a new country, depended upon their own resources for entertainment. Charles Cleaver, who

came to Chicago in 1833, remarks:

"Some of the young folks would like to know what amusements there were, and how we spent our evenings. The storekeepers played checkers, while waiting for customers, and, after closing, played cards. religiously inclined went to prayer-meeting at least once a week. Then when boarders and travelers were satisfied as to the inner man in the old Sauganash hotel, Mark Beaubien would bring out his fiddle and play, for those who wished to trip the light fantastic toe. To be sure, there were no theatres, no concert-halls, or reading-rooms. \* \* \* The fact is, in the winter of 1833-34, amusements of any kind were few and far between, although we made the most of what there were.'

In 1834 instructive and entertaining meetings were held by the Chicago Lyceum, although those assemblies partook but slightly of the nature of amusements.

The first public entertainment given by a professional performer in Chicago, and to which an admission fee was charged, took place February 24, 1834. Readers will observe that this statement conflicts with several historical sketches already published, but our proof is indisputable. The information is gained from the Chicago Democrat, which was established November 26, 1833. In its issue of February 18, 1834, appeared the following advertisement:

## EXHIBITION.

"Joy hath its limits. We but borrow one hour of mirth from months of sorrow.

The ladies and gentlemen of Chicago are most respectfully informed that Mr. Bowers, Professeur de Tours Amusant, has arrived in town and will give an exhibition at the house of Mr. D. Graves on Monday evening next [February 24].

Mr. Bowers will fully personate Monsieur Chaubert, the cele-brated Fire King, who so much astonished the people of Europe, and go through his wonderful Chemical Performance. draw a red hot iron across his tongue, hands, etc., and will partake of a comfortable warm supper by eating fire-balls, burning sealing-wax, live coals of fire and melted lead. He will dip his fingers in

melted lead, and make use of a red hot iron to convey the same to his mouth.

PART SECOND.

Mr. Bowers will introduce many very amusing feats of Ventriloquism and Legerdemain, many of which are original and too numerous to mention. Admittance 50 cents, children half price. Performance to commence at early candle light. Seats will be reserved for ladies, and every attention paid to the comfort and convenience of the spectators. Tickets to be had at the bar.

The scene of this entertainment was the hostelry of Dexter Graves, known as the Mansion House, and

located at Nos. 84 and 86 Lake Street.

The next performances of which any record is preserved were given at the Travelers' Home, a hotel kept by Chester Ingersoll, on Wolf Point, during June, 1834. A traveling showman named Kenworthy announced, through the Democrat of June 10, the conclusion of his Chicago engagement in these words:

Mr. Kenworthy (the ventriloquist) respectfully requests the honor of a parting interview with his Chicago Iriends on Wednesday evening, June II, at "Bromback Hall," better known as the Travelers' Home. He will be at home at 7 o'clock P. M., and will offer for the amusement of his visitors his whims, stories, adventures, etc., of a ventriloquist, as embodied in his entertaining monologue of the Bromback Family.

During the next two years it is probable that professional showmen visited Chicago, as Bowers and Kenworthy did, but we have been able to find no direct proof of the presence of such men.

On Wednesday, September 14, 1836, the town was thrown into a fever of excitement by the arrival of the first circus, which was under the management of Oscar Stone, who was somewhat famous as an equestrian. An

eye-witness of that notable event relates:

"They pitched their tent on Lake Street. \* \* Just west, and adjoining, stood the old New York House \* \* a two-story building, with eaves to the street, in the style of country taverns of those days. \* \* In the rear stood its large barn, which was a necessary attachment to a hotel in Chicago at that time. As the circus tent stood a little way back from the street, it was near the barn, which was made use of as a convenience for passing the horses to and from the tent. The circus-I think it was called 'The Grand Equestrian Arena'was not so extensive as Barnum's, nor did it have separate tents for horses or anything else. But the performance was wonderful. One rider, by the name of Stone, was put forward by the management as the greatest living equestrian; and so he was, for aught the boys knew. In fact, we believed it implicitly. Mr. Stone, in closing the performance, would appear in Indian character. This was very thrilling; at least the advertisements said so. But the redeeming feature of the show—that upon which we dwelt with everrecurring pleasure and satisfaction-was the singing of 'Billy Barlow,' in costume."

The Chicago American of September 17, 1836, said: "A traveling circus has been some days in town, and is doing a fair business. It commenced Wednesday (September 14) and has been crowded to suffocation every afternoon and evening since. The length of time the company will spend with us depends upon patronage."

An admission fee of twenty-five cents was charged, and the youth of Chicago exercised the customary shrewdness in compassing the all-important end of securing the necessary sum daily. The exhibition was

continued for several weeks.

The American of November 5, 1836, remarked: "The Boston Arena Company have been exhibiting since last Tuesday (November 1), to crowded houses. It is the best establishment we have ever seen traveling the country." On referring this item to old residents, it is ascertained, with as great a degree of certainty as is possible to attain when memory alone is relied upon, that this circus was the same as that previously mentioned though under another name, and perhaps with increased attractions. One who attended the performances recalls the fact that two anaconda serpents were exhibited, being the first animals placed before the public in Chicago by professional showmen.

The fire of 1871 swept from existence nearly all of the the records, public and private, which had been gradually accumulating from the date of the founding of the city. Encountering such a grave calamity at the very outset of our work, it is not possible to proceed with the measure of detail, or the preciseness of statement, which usually characterizes historical methods. Among the irreparable losses was the destruction of a private diary kept by J. H. McVicker from the commencement of his dramatic career, and which, were it now available, would be invaluable in this connection. Relying, therefore, upon newspaper files and scanty official records, and, where these fail, upon that most treacherous of all aids, human recollection, the task of preparing an historical sketch of the drama in Chicago is undertaken.

As fortune would have it, among the papers stored in the original vault of the City Hall, prior to the conflagration, were a few of the applications for licenses desired by theatrical managers and showmen, covering a period of nine years from 1837. The despised vault proved to be the only compartment worthy of the name. The tempest of flame assailed its walls in vain, and from the ruins there were dragged forth a few faded papers, which now possess a double historic value. They are not only originals of early official documents; they are the few originals that passed the ordeal of October, 1871, and still exist.

By virtue of the restrictions contained in the charter of 1837, those persons who wished to give public entertainments were obliged to obtain a license, and pay for the privileges appertaining to the franchise a sum

determined upon by the Common Council.

The first application presented to the Council for permission to entertain a Chicago audience with dramatic performances is here quoted from the original document:

"To His Honor, the Mayor, and Members of the City Council;
—We, the undersigned (Messrs. Dean & McKinney), managers of
the Eagle-street Theater, Buffalo, N. Y., humbly petilition [sic] that
you will grant a license (or permite) [sic] to open a theater in some
suitable building within said city, for the term of one or more
months, as the business may answer—the sum affixed for license to be per week or for the season—to commence from the time of the opening of the theater.

"DEAN & MCKINNEY,
"per E. R. TROWERIDGE, Agent.

"The object of this early application is to some change, the Natural Expense of Bringing a company to this place, the Natural Expense of Bringing a company to this place, the Natural Expense of Bringing a company to this place, the Natural Expense of Bringing a company to the Natural Expense of Bringing a company to the Natural Expense of Bringing a company to this place, the Natural Expense of Bringing a company to this place, the Natural Expense of Bringing a company to this place, the Natural Expense of Bringing a company to this place, the Natural Expense of Bringing a company to this place, the Natural Expense of Bringing a company to this place, the Natural Expense of Bringing a company to this place, the Natural Expense of Bringing a company to this place, the Natural Expense of Bringing a company to this place, the Natural Expense of Bringing a company to the place, the Natural Expense of Bringing a company to the Park Theorem T

A memorandum upon this document reads: "Granted. \$100 per year." It will thus be observed that the Council ignored the request to state the sum demanded "per week or for the season." It was manifestly the purpose of Messrs Dean & McKinney to remain in Chicago but a short time, as an expedient to fill a summer date, and the amount demanded for a license was so great that, coupled possibly with the heavy expense of bringing a company from Buffalo, the managers determined not to undertake the hazardous experiment. Messrs. Dean & McKinney never brought a company to Chicago, and on the authority of an old resident, we state that Mr. McKinney managed a theater in Detroit, Mich., during the year 1837. It is not probable that he then visited Chicago in any capacity. Mr. Dean was here several years later, as will be shown, though not as a manager of a local theater. No money was paid into the city treasury by the firm referred to, and the first license authorized was never issued.

Second upon the list of applications stands the fol-

lowing.

" To the honorable Mare and Common Counsel of the City of Chicago: The petition of the undersigned subscriber of the city of Chicago respectfully represents—that your honorable body to grant him a licens to arect a Show of flying Horses for amusement and excise to all who may wish to patronise the same and your petitioner further says that it will be conducted in quiet and decent manner and therefore prays that your honorable body will grant the same.
"City of Chicago, June 6, Λ. D. 1837.
"CLARK S. BROWN.

Indorsed: "License granted 1 yr. \$50."

It is but just to the memory of Mr. Brown to state that it must have been an unconscious association of ideas, and not an intentional disrespect to a high functionary, which caused the lapse from the established rules of orthography, in the style and method of his address. There is no positive proof that the stand of flying horses was erected, although the prospective profits of such a venture were sufficient to induce a competitive application for a license by George Sigsby, whose promise that "no immorality shall be permitted," was not potent enough to command even passing comment by the Council. Mr. Sigsby's petition bears no memorandum of official action.

The fourth petition varied the nature of the amusement by introducing living equines; but, on the strength of memory alone, it is asserted that the extremely high license demanded prohibited the grand entrance of this circus into Chicago. The application reads thus:

"To the Hon, the Mayor and Aldermen of the City of Chicago.— The petition of J. N. Eldred showeth that it is the intention of your petitioner to open for exhibition in the city of Chicago a circus and menagerie, whereof he is proprietor, and therefore prays your honorable body to grant a license therefore. Your petitioner would call the attention of your honorable body to the circumstances of your petitioner being unable from the peculiar nature of his estab-lishment to remain long in any city, and therefore prays the license may be granted to him weekly. And your petitioner will ever pray, etc.

"J. N. Eldred,
"Agent, H. Eldred.

"26th June, 1837." Indorsed: "Granted by paying \$20 per week."

Not daunted by the misfortunes of their fellows, another firm made overtures at the shrine of anthority. The next petition reads:

"We the proprietors of the New York Arena do ask of the Mayr of the city of Chicaugo his honor for a permishion to exibit our Exhibition consisting of Natural & Artificial Curiosities together with acts of Horsemanship in the City of Chicaugo. "August 15, 1837.

"Messes. Hoadley & Latham.

Indorsed: "Granted at \$100 per month. "Granted August 27, 1837.

This fee could not be paid by the manager, in the then existing financial condition of the Arena, and it

wended its way hence without enlivening the youthful

element of Chicago.

THE FIRST THEATER.-A period is reached when the transient glories of the primitive arena, and even the giddy pleasures of the flying horse, pale before the dawning lights of the dramatic art. Chicago, then a city seven months old, was deficient in that essential feature of metropolitanism-an established place of amusement. The auction-room on Dearborn Street, where not only merchants but politicians and citizens generally most did congregate, no longer supplied a satisfactory degree of entertainment; and when, October 17, 1837, two venturesome men, Isherwood & McKenzie, announced their intention to open a theater, the proposition was hailed with approving demonstrations. A

an entry certifying to the payment of the sum, and demonstrating the sanguineness of the managers.

The only available building in Chicago at that time was the historic Sauganash Hotel, that famous edifice wherein so many weary pilgrims found rest and refreshment. The building stood on the southeast corner of Lake and Market streets, a locality convenient alike to transient sojourner and permanent resident.

In September, 1837, the proprietor of the hotel, John Murphy, moved into his new house, on the west side of the river, leaving the Sauganash tenantless. The spacious dining-room, wherein so many noted men had feasted upon the bounties of Mrs. Murphy's well-spread board, stood silently inviting. The managers were quick to take advantage of the opportunity to secure

Copyright secured by A. T. Andreas, 1884.

THE SAUGANASH HOTEL.

Where the first Dramatic Performance in Chicago was held.

literal copy of the petition presented to the Council, praying for a license to conduct a theater, is here given:

"The subscribers respectfully petition the Hon, the Mayor and Council of the city of Chicago for a license to perform plays in the city of Chicago. They respectfully represent that this establishment is intended to afford instruction as well as amusement; that they are encouraged and patronized by the leading portion of the inhabitants of the city, who are interested in their success; that they propose to remain here during the winter, and that, consequently, they make no calculation to receive more money in the city than what they shall expend during their stay, and they trust that, in affixing a rate for license, these facts may be taken into consideration. ISHERWOOD & MCKENZIE.

"Chicago Theater, October 17, 1837.
"The petitioners request this license for six months, if agreeable to the Board.'

Concurring in this request, the Council fixed the rate of license at \$125 yer year. This exceeded the amount deemed just and reasonable by the applicants, who protested, though without avail, against so burdensome a tax. The treasurer's report, however, contains

this house, and soon transformed the banquet-hall into a temple of dramatic art. Crude and uncomfortable as the appointments were, the entertainments given there possessed a charm which even modern tastes could not easily find reason to disparage; for where accessories fell short, the merits of the actors supplied a compensation for deficiencies. Those were the days when action alone, and not display by carpenter or scenic artist, held the public firm in its approval of the drama. Men judged of genius by the actor's power to portray human interest by force of intellectual strength.

The room was not a model of theatric beauty. At one end yawned a chimney, through whose open mouth the fire roared a welcome to the coming guest, and cheered the hearts of tired travelers, as, with quickened pace, they sought the genial warmth within. The house was built for entertainment of another sort, it is true, but ingenuity transformed the hall into a cosy playroom. Rough seats and chairs, upon the level floor,

where all men met in a spirit of equality; rude scenery, and smoking lamps-these were the most conspicuous characteristics of the furnishings. The censorious critic of to-day, who frowns disdainfully upon anachronisms and rails at the paucity of realistic effect, had no counterpart here in 1837. A play was a play, and so that the comedy was broad and the drama well enacted, what cared the audience if the same interior served for kitchen, parlor, palace-hall, the same wood scene did duty as a lovers' rendezvous and gloomy den whereto the villain lured his unsuspecting victim? When the lights burned low, it was because an agile boy blew out the tallowdips, or deftly dropped the row of lamps beneath the stage. What if the atmosphere was rank with smoke? It was but a foretaste of the city's air to-day. Here the drama had its birth, and here, obscured by the dust of half a century, lie facts which cannot be exhumed.

The exact date of the opening night is not remembered, but as the petition was written October 17, which in 1837 fell on Tuesday, the inference is reasonable that the house was inaugurated prior to the close of the month. The first play produced is also a matter of

HARRY ISHERWOOD.

doubt, but "The Idiot Witness," "The Stranger" and "The Carpenter of Rouen" were given early in the season. The bill was changed nightly.

It is stated that the capacity of the room was about three hundred, and the admission fee charged was seventy-five cents. The principal members of the company were H. Leicester, leading man; T. Sankey, old man; J. S. Wright, walking gentleman; Mr. Isherwood, scenic artist, and Mr. McKenzie, utility; Mrs. Ingersoll, leading lady, and one of the best actresses ever belonging to a Chicago stock company; Mrs. McKenzie, wife of the proprietor of the theater, and a lady of rare abilities; Madame Analine, danseuse and actress; and

Master Burk, juvenile parts and fancy dancer. There were, perhaps, others in the company, whose names are forgotten. An evening's performance consisted always of a drama and a farce, and sometimes as many as three pieces were given. The curtain was lifted usually at half-past seven, and was rarely dropped until the approach of midnight. Play-bills were printed on sheets of coarse paper, about six by twelve inches in size, and distributed throughout the town by carriers. Not one of these is extant.

It cannot be stated how long this season continued; but it is known that the theater was not kept open longer than six weeks. The company then proceeded on a tour through the South, possibly turning eastward as the winter advanced.

The old Sauganash Hotel, wherein the drama had its birth, was destroyed by fire March 3, 1851. The house was occupied at that time by B. F. Foster.

Harry Isherwood is still living (1884), and until within five years or so was employed as principal scenic artist at Wallack's New York theater. In a letter addressed to J. H. McVicker the veteran says:

NEW YORK CITY, December 10, 1883.

MR. J. H. MCVICKER, Dear Sir: - Your letter directed to Wallack's, dated November 30, did not come to hand until five days ago. I am no longer under the employ of Mr. Wallack, having quitted him five years ago. It would be very gratifying to me to aid your wishes in giving you an account of our doings during our stay in Chicago. Many years have rolled away, and unfortunately 1 possess a scant knowledge of what occurred at that time. In 1837 I arrived in Chicago, at night, and was driven to a hotel in the pelting rain.

The next morning it was still raining. Went out to take a view of the place. A plank road, about three feet wide, was in front of the building. I saw to my astonishment a flock of quail on the plank. I returned to the hotel, disappointed at what I saw of the town, and made up my mind that this was no place for a show. I told my landlord of my intention to return, but he advised me not to do so, and gave such a glowing account of what our success would be that he induced me to remain. We wandered, next day, all over to find a place that would answer my purpose. to be found. At length some one hit upon a place that would do. It was a queer-looking place. It had been a rough tavern, with an extension of about fifty feet in length added to it. It stood at some distance out on the prairie, solitary and alone. I arranged with the owner, and painted several pretty scenes. I then wrote to Mr. McKenzie, and he came. We opened either in November or December.\* I have no recollection of that opening. The company Consisted of Messrs, Sankey, Childs, Wright and others. A young Irishman, who made one of the party, became very unruly, and I was obliged to tell him to go. He replied: "Where can I go, with Lake Michigan roaring on one side and the bloody prairie wolves on the other?" The ladies of the company were Mrs. Ingersoll and Mrs. McKenzie. Of the plays, I can remember but one—"The Stranger." When the season was concluded, we took to the prairie, visiting most of the towns in the interior; returned to Chicago in the spring, and fitted up a new place. It was in the street leading to a bridge. Joseph Jefferson and his wife, with young Joe, joined us here. All else is mere oblivion. I must conclude this rambling epistle by saying, with King Lear, 'Von do me wrong to take me from the grave.' I am eighty years of age.

Jours Souty J. Vohenwood

The Rialto.—The next authentic record carries in sarrative onward to the spring of 1838, at which period the drama in Chicago assumed a more distinctive form. The experimental season proved a satisfactory

\* Mr. Isherwood's memory must be at fault. The license was granted in October.

one to the managers, and they concluded to return to this place, with the intention of establishing a permanent theater. In April Isherwood & McKenzie petitioned the Council as follows:

" CHICAGO, April 28, 1838.

"Dear Sirs: Intending to resume our theatrical amusements "Dear Sirs: Intending to resume our theatrical amusements in your city, we would respectfully solicit the action of your honorable body in reference to a license, granting us the privilege to 'strut and fret our [year] upon the stage,' for one year from and after the 1rth day of May, A. D. 1838. Intending (subject to your decision on this point) to make ourselves the permanent residents of your city, we have, at much expense and trouble, commenced the adapting and fitting up of the upper portion of the 'Rialto' (a room thirty by eighty) as a theater; and intend to fit it up in such a manner as to reflect credit mono our infant city. We trust such a manner as to reflect credit upon our infant city. We trust, under all the circumstances of the case, the license will be made as moderate as is consistent with justice. We should like, if possible, the exclusive privilege, but do not urge it. The early action of the exclusive privilege, but do not any high various your body on this subject is respectfully requested.

"We remain, gentlemen,

"Your obedient servants,

"ISHERWOOD & MCKENZIE."

The building referred to was a wooden structure, erected in 1833 or 1834, by John Bates, for an auctionroom. Prior to 1838 this place was used by various parties as an auction-room. According to J. M. Hannahs, "It was at the very center of business and resort; the only bridge on the main river being at that time at Dearborn Street, and one of the principal hotels, the Tremont House, being on the same block. The only eating-house, the City Refectory, as it was called, was on the east side of the street, nearly opposite the theater; and the auction-rooms, which, as before stated, were, previous to the establishment of this theater, the only place of amusement in the town, were in the immediate neighborhood. Above all, there was adjoining the theater the famous 'Eagle,' kept by Isaac Cook, which was the resort of politicians; and as every man was, in those days, a politician, it will be readily understood that the theater was at the center of gravity." Dr. Egan, the wit of the company, named the place the "Rialto," for obvious reasons. Thus, it will be seen, that although the Sauganash was the birthplace of dramatic art in Chicago, the Rialto was the nursery of the muse, and from within the walls of that historic pile issued the infant's feeble wails as it struggled for existence. The building stood on the west side of Dearborn, Nos. 8 and 10, between Lake and South Water streets, and was "a den of a place, looking more like a dismantled grist-mill than a temple of anybody. The gloomy entrance could have furnished the scenery for a nightmare, and the lights within were sepulchral enough to show up the coffin scene in 'Lucretia Borgia.' But for all this, those dingy old walls used to ring sometimes with renderings fine enough to grace grander Thespian temples; though there was a farce now and then somewhat broader than it was long." So wrote that genial critic, Benjamin F. Taylor, when subsequently commenting on those early days.

Manifestly the public quite agreed with Mr. Taylor on the subject of the Rialto as a theater site, for no sooner had the action of Messrs. Isherwood & Mc-Kenzie been made known than the following remon-

strance was sent to the Council:

"To the Honorable the Common Council of the City of Chicago: Your petitioners would represent to your honorable body that they Your petitioners would represent to your nonorable body that taey have understood that a petition is pending before your honorable body for the license of a theater, to be held and maintained in the room of the Rialto, which is a wooden building, and surrounded by wooden and combustible buildings. Your petitioners would further represent that theaters are subject to take fire, and [are] believed to be dangerous on that account to property in their vicinity, and that insurance cannot be obtained on property in their vicinity, except at greatly advanced premiums. And your petitioners do solemnly protest against the granting of such license to keep a theater in such building, and thereby endangering the property and lives of your petitioners.

"CHICAGO, May 1, 1838.

J. Young Scammon, E. G. Ryan, Henry Brown Thomas R. Hubbard, I. R. Gavin, Erastus Brown, C. Beers, H. B. Clarke, Walter Kimball, Alanson Follansbe, King, Walker & Co., A. N. Fullerton, B. F. Knapp, E. S. Kingsbury, S. Burton, Lewis N. Wood, A. Farnsworth, E. S. Brown,

William Osborn, Joseph L. Hanson, O. II. Thompson. Curtis Haven, William Jones, Mahlon Ayers, William H. Adams, J. Ballard, William H. Taylor, E. K. Rogers, Tuthill King, Nelson Tuttle, G. W. Merrill, I. H. Woodworth, J. A. Smith, B. W. Raymond, Giles Spring.

The matter was referred, by the Council, to a special committee, consisting of Messrs. H. L. Rucker, Eli B. Williams and Grant Goodrich, who were empowered to decide upon the propriety of issuing a license.

Grant Goodrich submitted a minority report, in which he forcibly expressed his opposition to the new theater. The basis of this antagonism was, primarily, the unsuitableness of the Rialto as a public hall, located as it was "in one of the most compact blocks in the city, composed chiefly of wooden buildings." Life was endangered on every occasion when an audience assembled within the fragile walls, and the enhanced liability to fire by the production of theatrical spectacles caused added apprehension of peril. But the objection which Mr. Goodrich urged more strongly, if possible, than the material danger, was the menace to the moral welfare of society by the permanent establishment of a theater in the city. He believed "that the ten-dencies of the performances of modern theaters were grossly demoralizing, destructive of principle," and that they "were the nurseries of crime." He regarded the project as an alarming assault on the stronghold of youthful rectitude; and while expressing favorable appreciation of the benefits to be derived from the presentation of Shaksperean plays, and the classical drama generally, he considered the likelihood to baser plays sufficiently potent in the controlling mind to justify the withholding of a license. The city treasury was, he admitted, in a condition to call for increased revenue, but no necessity was stern enough to offer a compensating excuse for this process of raising funds.

A majority of the committee, however, viewed the subject in a different light, as is shown by the appended report:

"To the Mayor, etc. The committee to whom was referred the petition of Messrs. Isherwood & MacKenzie, relative to the establishment of a theater in the city of Chicago, have examined into the subject, and a majority beg leave to report: that it is in-expedient, in examining into the subject referred to, to enter into an inquiry of the morality of the drama in general, or of its moral tendencies in this community. The moral world has long been divided on the first proposition; and your committee have no doubt but that such performances are approved by a large majority of the citizens of Chicago. It is true that the committee are advised that some opposition is made to the prayer of the petitioners, in consequence of the proposed locality of the theater; and should the subject be brought before the Council in a proper manner, your committee would feel bound to examine the subject, and give it such decision as the same demands; but in the subject referred to them, the committee see nothing to warrant an examination into the questions not involved in the matter before the Council. Your committee, therefore, would recommend that the prayer of the petitioners be granted and that they be licensed, under such restrictions

as the nature of the case may require; and that the license be fixed at the sum of one hundred and twenty-five dollars [per year].

11. L. RUCKER. "ELI B. WILLIAMS. "Committee."

Acting upon the judgment of the majority report, the Council granted the license prayed for, dating it from May 20,1838; but the tax imposed on the managers was fixed at \$100, instead of the sum recommended by

the majority of the committee.

Fortified by this official indorsement, Messrs. Isherwood & McKenzie fitted up an auditorium in the Rialto. with boxes, gallery and pit, supplying seatings for about four hundred persons. The stage furnishings were improvements on those of the Sauganash Theater, but they were scarcely worthy of commendation. Dropping the title Rialto, the place was renamed "The Chicago Theater," and a stock company of actors was employed, several of whom have since attained distinction in the profession.

The oldest copy of a play-bill we have been able to discover (a reproduction, not an original) is that which was issued on the occasion of a benefit tendered Mr. McKenzie by the citizens of the place. It is interesting particularly because of the names appended to the letter, showing who were then lovers of the drama and friends of the pioneer in dramatic art, as well as because of the company roster, which probably includes

the entire list.

Alexander McKenzie was an educated gentleman, as his letter of acceptance proves. He was devoted to the profession of his choice, and regarded his mission here as one far above the mere acquisition of wealth. The tone of the correspondence evinces a profound respect for him on the part of the public, and his reply conveys to us an impression of his real merit as a man, and of his conscientionsness as a manager.

"To ALEXANDER MCKENZIE, Esq., -Sir: The undersigned citizens of Chicago, entertaining a high estimate of your private worth and of your efforts to establish a theater in this city, which should recommend itself to public regard by the combination of amusement and instruction which it presents; and believing that in no theater in the Western country can a company be found more respectable in private life or more excellent as actors, than in the one under your charge, and feeling that, in this respect, as well as in the judicious selection of plays, you have contributed essentially to the pleasure and amusement of the public, desire that before you leave this city you will afford them an opportunity to testity their regard for you by appointing an evening for a benefit for yourself.

H. L. Rucker, J. M. Strode, B. S. Morris, S. Abell, J. Curtiss, R. J. Hamilton, E. D. Taylor, Nathan Allen, Mark Skinner, Julius Wadsworth, H. Loomis, T. R. Hubbard, N. A. McClure, S. T. Otis, I. M. Smith, A. Garrett, J. B. Hussely, G. A. Beaumont, C. H. Blair, G. Hungerford, Charles Walton, W. Mason, A. V. Knickerbocker, J. Jay Stuart, Hiram Pearsons, John Calhoun,

"CHICAGO, October 3, 1838,"

J. B. F. Russell, F. Peyton, Thomas Hoyne, J. Allen, George Kercheval, A. A. Humphrey, N. B. Judd, Charles E. Avery, H. G. Loomis, Thomas J. Dunkin, James A. Cox, Clifford S. Phillips, R. P. Woodworth, F. Faxton, W. H. Davis E. S. Kimberly, P. Nichols, E. Manierre, W. Wright, Thomas Davis, S. S. Bradley Frederick Baily, R. Gloss, D. W. C. Allen, H. O. Stone, C. T. Stanton.

"To Messrs. Rucker, Strode, Morris, etc.:—Gentlemen: I have the pleasure to acknowledge the receipt of a highly complimentary letter addressed to me by my fellow-citizens of Chicago, in which I am requested to name an evening for my benefit, on which my friends may have an opportunity of proving their regard for what they are pleased to term the histrionic ability and correct deportment of myself and company.

"I will not deny, gentlemen, that in assuming the highly responsible situation that I now occupy, I have strained every merve so to comport myself that my conduct should appear void of offense before my fellowmen. I have endeavored, so far as lay in my power, to present such plays as have a virtuous and moral tendency, inculcating sentiments that are calculated to rouse the love of what is noble, and the contempt of what is hase and mean. Looking upon the stage as the standard of our literary taste, the model of our public oratory, and the pride of our national amusement, I have allowed no pecuniary consideration to deter me from securing a company of comedians whose public reputation would be the surest guarantee that their conduct in private would never give the lie to the sentiments they nightly utter. I consider a good actor a very useful member of society; if he succeeds in uniting in the bosoms of hundreds a sympathetic admiration of virtue, abhorrence of vice, or derision of folly, his task is no mean one, when performed with ability. To do this he must have an eye to look upon nature with the poet and the painter; a mind that will enable him to discover the lights and shades of character in mankind; his knowledge of the world must be that of experience, his manners those of a gentleman, his acquirements above mediocrity.

"If in my endeavors to establish the drama in the State of Illinois, I have gratified my patrons in this city, I am amply repaid; and let me assure them that their kindness has fallen upon a heart that is like the wave to receive and the marble to retain the

impression.

"In conclusion, allow me to name Thursday evening the 18th inst., for my beneft, if that night will coincide with the views of those friends who have so kindly interested themselves on the occa-I remain, gentlemen, your obedient servant,

"ALEX. MCKENZIE.
"CHICAGO THEATER, October II, 1838."

With characteristic generosity, the company no sooner learned of the public desire to compliment Mr. McKenzie than they united in tendering their services on that occasion. In behalf of the company the following note was transmitted to the beneficiary:

"CHICAGO THEATER, October 10, 1838. "MR. MCKENZIE-Sir: Having been informed that the citizens of this place propose testifying their respect for the ability with which you have conducted the interests of the theater, by a complimentary henefit, the members of your company avail themselves of this opportunity to express their sense of your gentle-manly conduct as a manager, and the kindness they have received at your hands, by respectfully tendering their gratuitous services on the above occasion. Allow us to congratulate you on the able manner in which you have surmounted your many difficulties. conclusion we sincerely hope that prosperity may ever attend the establisher of the drama in the 'Far West.'
"Yours truly,
H. LEICESTER,

H. Leicester,
"G. C. Germon,
"T. Sankey,
"For the Company."

On the evening of the benefit performance, Mr. McKenzie issued the following play-bill:

## CHICAGO THEATER.

MR. MCKENZIE'S BENEFIT.

## MR, McKENZIE

Respectfully announces that, in compliance with a wish very generally expressed by his fellow-citizens of Chicago, he is induced to announce his Benefit, which will take place on

Thursday Evening, October 18, 1838,

When will be presented Sir E. L. Bulwer's play, in 5 acts, entitled THE LADY

LVONS!

## Or, Love and Pride.

Beausant ......Mr. Warren. Glavis......Mr. Germon,

Col. Damas	
Deschappelles Mr. Wright.	
GasparMr. Burk.	
Officer	
PaulineMrs. Ingersoll.	
Madame DeschappellesMrs. Jefferson.	
Widow MelnotteMrs. McKenzie.	

After the play, Master J. Jefferson will sing the comic song of

"Lord Lovel and Lady Nancy."

Mr. Germon will sing for the first time
"The Hunters of Kentucky."

The evening's Entertainment to conclude with, first time here,
THE TWO FRIENDS.

 Ambrose.
 Mr. Sankey.

 Herbert.
 Mr. Leicester.

 Valentine
 Mr. Warren.

 Elinor.
 Mrs. Ingersoll.

 Rose.
 Mrs. McKenzie.

The curtain will rise at 7 precisely.

The box plan is in charge of Mr. W. H. Davis (at the store of Mr. Hatch on Lake Street), who has consented to act as treasurer on this occasion, where seats and tickets may be procured.

The name of Mrs. Germon does not appear in the foregoing bill, but that lady, then a bride and only sev-

enteen years of age, was here in 1838.

The Jeffersons were the parents of Joseph Jefferson, famous now for his impersonation of "Rip Van Winkle," and characters in standard comedy. The elder Jefferson and his wife were, it is needless to observe, among the foremost actors of the time.

In a letter addressed to Manager J. H. McVicker, bearing date Christmas, 1882, written from St. Louis,

Joseph Jefferson, Jr., gave these facts:

"My father and his family arrived in Chicago, by way of the lakes, in a steamer, somewhere about May, in the year 1838. He came to join Alexander Mc-Kenzie my uncle) in the management of his new theater. \* \* \* The new theater was quite the pride of the city, and the idol of the manager; for it had one tier of boxes, and a gallery at the back. I don't think the seats of the dress-circle were stuffed, but I am almost sure that they were planed. The company consisted of H. Leicester, William Warren, James Wright, Charles Burk, Joseph Jefferson, Thomas Sankey, William Childs, Harry Isherwood, artist, Joseph Jefferson, Jr., Mrs. McKenzie, Mrs. Jefferson (my mother), Mrs. Ingersoll and Mrs. Jane Germon. I was the comic singer of this party, and 'small first villager;' now and then doing duty as a Roman senator, at the back, wrapped in a clean hotel sheet, with my head just peering over the profile banquet tables. I was just nine years old. I was found useful as Albert, Duke of York. In those days the audience used to throw money on the stage, either for comic songs or dances. And, oh! (with that thoughtful prudence which has characterized my after life how I used to lengthen out the verses. The stars during the season were: Mrs. McCluer, Dan Marble, and A. A. Adams. Some of the plays acted were: · Lady of Lyons,' 'The Stranger,' 'Rob Roy,' 'Damon and Pythias,' 'Wives as they Were,' and 'Sam Patch.' \* \* \* The city then had from three thousand to four thousand inhabitants; and I can remember following my father along the shore, when he went hunting on what is now Michigan Avenue." \*

J Jymm

It is probable that the season began on or about May 20, but as Chicago was then unable to support a theater during the quiet months of winter, when transient custom was light, the company ceased its labors soon after Mr. Kenzie's benefit. The company was taken to other towns, an itinerant season being indulged in. William Warren states that they visited Galena, Alton, and several places, traveling in open wagons. The weather was severe, and the rides were far from comfortable. During the winter of 1838–39 no theater was maintained here. In those days "stars" traveled without companies, depending on stock support.

A circus performance was licensed by the Council October 3, 1838, on the application of John Miller & Co. A tax of \$5.00 per night was imposed.

There is no mention of further dramatic entertainments by the local papers until the spring of 1839. The Daily American of April 17 editorially observed:

"Alexander McKenzie, Esq., the former worthy and enterprising manager of the theatrical company which have heretofore exhibited in this city, with so much credit and general satisfaction, has obtained a license from the Common Council to start his theater again, on payment of \$75, provided no fireworks are allowed in his theatrical exhibitions. We think that the special committee who reported in favor of the license have shown good sense and a practical philosophical view of such matters. We are aware that theaters are obnoxious to a respectable and intelligent part of every community, but they are permitted, and must be permitted, on the ground of general expediency, if for no other reason."

The sentiment against theatrical performances was a pronounced bar to financial success at that time, for the fickle goddess of fashion did not ordain the propriety of general attendance. It was not deemed wholly proper for ladies to attend, and patronage came largely from the transient element of society, which was attracted here during the summer months by the induce-

ments for speculation.

In the issue of May 13, 1839, the American published an announcement that Messrs. McKenzie & Jefferson, who had succeeded to the business of Messrs. Isherwood & McKenzie, were then on their way to Chicago, with a "popular" company, to spend the summer months, if sufficient encouragement was extended them. Mr. Jefferson, the elder, was then the stage manager, and to his skill and admirable judgment is attributed the prosperity, or at least the artistic excellence, of the season of 1839. Quoting from the American of May 13, it is ascertained that the firm possessed "a substantial and pleasant theater in this place, and one is erecting in Galena, to be completed in the fall. When theaters are conducted so as 'to shoot folly as it flies,' if they are not always successful in their design 'to raise the genius and to mend the heart, they still perform a valuable service in a very pleasant manner; and people will, in spite of cynics and moralizers to the contrary, lend them the light of their countenance."

On the 19th of August, 1839, the American stated that "Mr. Jefferson, the worthy actor, is now in Chicago, preparing entirely new scenery, and otherwise fitting up and improving the theater building for the arrival of the [Illinois Theatrical] Company. \* \* It is expected here in a short time, to remain during the fall, for the entertainment of the theater-going public."

The American of August 30 said: "The Illinois Theatrical Company re-open their theater in this city next Saturday night [August 31], with new scenery and decorations. The stock company we consider unsurpassed either in the East or West. The entertainment

begins with Colman's operatic piece, 'The Review, or the Wag of Windsor,' and closes with the farce of 'The Illustrious Stranger, or Buried Alive!'"

The season opened auspiciously, and merited commendatory notice in the American of September 3:

"The Chicago Theater, under the polishing skill of Mr. Jefferson, appears in a new and beautiful dressnewly and neatly painted and provided with a complete change of fresh and tasteful scenery. The appropriate motto, 'For useful mirth and salutary woe,' which looks down over the drop-curtain upon the auditory, conveys an idea of the useful tendencies of the legitimate drama, The company have now come here from the South, somewhat debilitated and depressed by sickness, but for the two nights of their performance in the city have sustained themselves, under the circumstances of the case, with remarkable spirit and general satisfaction. The interesting melodrama of 'The Warlock of the Glen,' and the farce of 'The Midnight Hour,' went off last night with admirable effect, to a respectable audience. Mr. A. Sullivan, a new actor on our boards, acquitted himself in a very creditable manner, as the noble II'arlock, and bids fair to be a popular actor and a valuable accession to the company. Mr. C. L. Green, also a new actor on our boards, performed the character of Scotch Andrew, the fisherman, in the place of Mr. William Warren, who was prevented from appearing through indisposition. Mr. Green, being called upon unexpectedly to sustain this new part, acquitted himself in an admirable manner. As a comic actor and singer he is also a valuable addition to the company. Mr. McKenzie, the manager, deserves much credit for his liberal and ambitious efforts to increase the attractions of his theater.'

The foregoing editorial comment is interesting in a double sense, as it preserves in authentic manner the names of several gentlemen afterward more or less famous in the profession, and as it is the first newspaper critique of a dramatic performance in this city. Crude and stilted though it be, it is the precursor of a distinctive department of newspaper work which to-day commands attention and respect throughout the

country.

Charles L. Green, the gentleman referred to, was an actor of sterling merit, and a man of noble traits. He subsequently became a popular comedian, and was an active member of J. B. Rice's company. During the cholera epidemic of 1849 he was seized with that ter-

rible disease, and died in this city.

It is evident that the American not only appreciated dramatic art, but also entertained advanced opinions concerning the mission of the stage. September 5 its editorial page contained, in all the dignity which dwelt in large type, an enunciation of its views, and a comparative statement of facts, which is indicative of public sentiment at that time. It said:

"This evening is to be performed the highly interesting drama 'Isabelle, or Woman's Life, to conclude with 'The Spectre Bridgeroom, or A Ghost in Spite of Himself.' Between the performances Mr. Greene C. Germon will sing 'Rory O'More,' a very good song and very well sung-in fact, we think it a better song than even the celebrated 'Lass O'Gowry.' Why do not the fair ladies of our city lend the theater, occasionally, the light of their countenance? The play of 'Isabelle, or Woman's Life' this evening will give them a fair and appropriate opportunity. There is a police in attendance, whose duty it is to preserve strict order and decorum in the theater. If the ladies are waiting for fashtonable precedents, we will inform them that at Springfield, in this State, the theater was attended generally by the beauty and fashion of the fair sex, and by the gentlemen of the place of all official dignities, from Judges of the Supreme Court down. This has been the case, we believe, also in other places of the State, at St. Louis and in the East. The theater at Springfield presented not a tithe of the inducements for attendance of the Chicago Theater. There the seats were of rough boards, without backs to them, and there were no divisions into boxes, etc., but still the theater was almost nightly crowded. Here is an example set by the capital of the State. If we believed that the tendency of the legitimate drama, as being exhibited in this city, was demoralizing, corrupting or injurious, we would be among the last to recommend it to the favor of the public. But we believe the exhibitions to exert no injurious influence, but on the contrary they afford an innocent and instructive recreation. We are in favor of having everything suppressed in a play which is calculated to suffuse a blush over the cheek of genuine and unaffected modesty, or to call forth the coarse laugh and disgusting applause of those whose vulgar tastes are best pleased with obscenities. For this reason we are opposed also to the habit of throwing out, extemporaneously, obscene witticisms which, while they catch the laugh of some, are very offensive to ladies and gentlemen in their attendance, and which, by keeping away the ladies and the more respectable portion of the gentlemen who would attend, deter more from than they attract to the theater. We like always to see wit, whether legitimately in the play or happily introduced on the spur of the occasion, but we want it to be chaste, and salty enough to preserve its purity. These remarks are all dictated for the best interests of the theater, and we trust will have that effect.'

These indirect allusions to a weakness, too prevalent in the early days of the drama, indicate that even the excellent comedians of the Illinois Theatrical Company sometimes forgot the more delicate obligations of their calling; but the most noteworthy clause in the article is that which proves that Chicago did not then regard the theater as a fashionable place of amusement. But the advice of the local journal was not without effect, as will be seen in the following extract, of September 7:

"The first night of Mr. Dempster's engagementthe celebrated vocalist from the Nobility Concerts, London, New York and Philadelphia-went off last evening to a large and highly delighted audience. 'Dear Land of my Birth.' 'John Anderson, my Jo,' etc., were exquisite songs, exquisitely sung, to piano forte accompaniment. \* \* The performances of the evening were generally capital. The laughable comedy, 'Simpson & Co.' was played with admirable spirit and success. We doubt whether Madame La Trappe has a better representative on any American board than Mrs. Jefferson, \* \* Master Jefferson sang a comic song in which he won silver, if not golden, opinions." \*

It was customary in those days to manifest approval by throwing money on the stage. The company was composed of Mr. and Mrs. Joseph Jefferson, Master Joe Jefferson, Mrs. Ingersoll, Mrs. McKenzie, A. Sullivan, C. L. Green, William Warren, T. Sankey, Mr. and Mrs. G. C. Germon, H. Leicester, Mr. Mason, Mrs. Mc-

Kenzie and Mrs. McCluer.

September 14 witnessed the first presentation of "Oliver Twist," with Mrs. Germon as Oliver; Mr, Warren as Bill Dawkins as the part was then called, Mr. Sankey as Fagan and Mrs. McKenzie as Nancy. The American spoke warmly of the performance, and remarked that the "front seats and boxes were lighted up with the beauty and smiles of the fair sex." Thus, it will be seen, the potent influence of the press, when directed as a medium to demonstrate the fashonableness of the theater, worked marvels in one short week. No longer were the actors dependent upon the flaring footlights for illumining encouragement. The smiles and beauty of the fair sex brightened the scene and cheered the susceptible hearts of the unmarried disci-

ples of Thalia and Melpomene.

Public sentiment demanded a frequent change of bill. The number of regular attendants was small, and pecuniary interest compelled a constant variation of the attractions. Such enjoyable dramas and comedies as "The Golden Farmer, or Vell, vot of it?" "The Sleeping Draught." "The Magpie and the Maid," were given during the first weeks of this season. Between the plays Master Jefferson convulsed the audience with vocal selections, in character dress. Among these are remembered the touching ditties of "Titum-ti" and "The Steam Leg."

But with the appearance of the ladies and that better element among the sterner portions of society, as encouragers of the drama, came a demand for more finished effort. September 19 beheld Goldsmith's comedy "She Stoops to Conquer," with Mr. Leicester as leading man; September 20, "Jane Shore" was given; September 21, "The Lady of Lyons," and from that time on, until the engagement terminated, the bills were

of a standard character.

The first spectacular play ever given in Chicago was enacted September 23, 1839. The American observed:

"The interesting drama of 'Cherry and Fairstar, or the Children of Cyprus,' was received by a full and applauding house. The new scenery and decorations were rich, tasteful and beautiful, and reflect much credit on the skill and ingenuity of Mr. Jefferson, the artist. The dresses were new, beautiful and appropriate. The plot and incidents of the drama are very interesting, and increase, to the last, the curiosity and applauses sic of the spectators. The original music and chorussus sic) added much to the variety and animation of the performance. The blossoming of the Aloe was a beautiful and ingenious scenic representation. So were the moving, or dancing, waters, and especially the splendid Grecian Galley, at the conclusion of the second act, with Cherry, Fairstar, Topac, Sanguinbeck and Hassanbad on board, entirely filling up the stage. We think the play as rich and interesting a one as the company have yet got up. We were glad to see so many spectators to witness the triumph of the Western drama. Already was the leaven working which was destined to transform the sodden lump of public disapproval into a light and wholesome nourishment for the general mind. Cheered by the presence of the higher social element, the management provided a direct and special entrance to the theater, for the accommodation of those ladies who dreaded to encounter the bustling crowd. This delicate attention was appreciated, for in its issue of September 26, the American gallantly remarked: "The beautiful play of 'Cherry and Fairstar' went off last night to a very fair house—the fairest, considering the number of ladies present, of the season.

The patronage bestowed upon the Chicago Theater aroused a commendable desire to inaugurate a season of the higher drama, and to not only win, but to retain, the friendly interest of the public. Heretofore the chief aim appears to have been the securing of an audience irrespective of its intellectual caliber; or, at most, to break down the barrier of distrust which autocratic Fashion arbitrarily erected at the portal. This accom-

plished, and Fashion having waved its wand above the footlights, the company determined to convince the world of prejudice that evil held no rightful dominion in the realm of the sock and buskin.

September 26, that beautiful poem "Damon and Pythias" appealed for the first time to a Chicago audience. Mr. H. Leicester impersonated the noble statesman; Mrs. G. C. Germon drew the tear of pity as fair

'alanthe.

From grave to gay, within the actor's province as in life, is but one step. Next upon the stage which echoed to the words of masterful devotion at friendship's shrine, comes William Warren, the fun and laughter-provoking child of Thalia, who in the comedy "Is it a Lie?" gave four distinct impersonations.

Turn down the lights, and let them dimly glow on gloomy "Fazio," which held the boards October 4, with Mrs. McCluer as the passionate Bianca. Turn up the lights again, for here comes Charles Kemble Mason, fierce of look, to tame the shrew, and show Chicago how Petruchio can crack the whip about the heels of luckless serv-

itors.

Four days have passed, and now we see the truculent Petruchio transformed into the love-bedazzled Romeo; for Mason could put an antic disposition on as readily as Bianca could smooth her jealous frowns to sigh as Juliet. And be it known on good authority that these emotions touched the public heart and filled the

house with sympathizing auditors.

October 10 a benefit was given Mr. Mason, on which occasion he assumed the Scottish kilt, and murdered Duncan, at the instance of the wife whose fierce ambition dried up nature's founts and changed the patient Juliet into a fiend. But that same night the mimic whirligig of time brought swift revenge; for from the bloody battlements of Dunsinane the mind takes rapid flight, on swift imagination's tireless wings, and gazes smilingly upon the balmy skies of Italy. The warlike thane has donned the grotesque garb of humorous Petruchio; the startled eyes of Mrs. McCluer, which but a moment since looked glassily as consience racked her soul, now flash defiance on her hated lord. But the comments of the local critic afford an opportunity for quiet smiles to-day, for with no word of praise for either leading part, he says "the witch scene and the music went off admirably," in "Macbeth;" and, possibly with a view to cultivating realistic effects, during the "waits" between the plays, he approved of Mr. Mason's recital of "Tom O'Shanter." In those days an audience demanded quantity, it seems, regardless of what modern minds conceive as proper.

"Hamlet" pursued his melancholy way October 15, for the first time in this city; and two nights later, "The Merchant of Venice" was given. It proves, at least, the versatility of both Mr. Mason and Mrs. McCluer, who sustained, "remarkably well," this wide range of character within so brief a period. "Pizarro," with Mr. Sullivan as Rollo and Mrs. Germon as Cora, was given

October 21.

The Illinois Theatrical Company terminated their asson November 2. A benefit was given Mr. Warren, Mrs. Ingersoll and Mr. Jefferson respectively, during the last week of the engagement, and "large houses of beauty and fashion attended." Mrs. Ingersoll remained in the city, to give lessons in dancing, but the company moved East. This season must be regarded as the most brilliant of any prior to the opening of Rice's theater in 1847. It presented for the first time standard dramas, in the lines of tragedy and comedy, introduced five Shaksperean plays, brought out the first spectacular

effect, and distributed the roles among a company composed of ladies and gentlemen, many of whom afterward became prominent members of the profession. Locally, the influence of the work performed was widereaching, for not only was prejudice overcome to a considerable degree, but an improved taste created among the avowed patrons of the art which was never afterward eradicated. The season of 1839 will rank in the history of the drama in Chicago as the natal period of a higher standard in judgment.

Among the frequent visitors to this theater was Samuel S. Beach, from whom we have received the fol-

lowing recollections:

"The company introduced to the citizens of Chicago, in the year 1839, by Messrs. McKenzie & Jefferson, was one of remarkable ability and unprecedented strength in all the departments of the drama. The subsequent eminence of every prominent member of that famous company sustains this opinion. The pioneers of theatrical representations in Chicago reflected distinguished honor upon their profession as artists of pronounced merit, and challenged the admiration of the best citizens of the young city by their cultured manners and high sense of personal honor. The ladies and gentlemen composing this grand old company deserve a conspicuous place in the history of early amusements in this marvelous city.

"It must be remembered that the theater of 1839 was handicapped by all the prejudices that had existed against the stage from time immemorial. It had not received that recognition as a powerful and indispensable public instructor conceded to it at this day. The true mission of the drama, as the highest possible form of public amusement, was little understood and less appreciated by the great majority of fifty years ago; and the grand future of the theater was far beyond the reaches of their comprehension. It required a company similar in construction to our favorites, possessing great individual strength, to overcome those long-existing antipathies to dramatic exhibitions, and prepare the way for that cultured judgment that characterizes the Chicago audiences of the present time. Every play presented by this company was rendered in a most acceptable and conscientious manner. Without the aid of the gilded surroundings, rich wardrobes, magnificent scenery and elaborate appointments that are common adjuncts of the modern stage, our pioneers were forced to rely solely upon the sterling merits of each actor, if they would 'hold the mirror up to nature.' The standard comedies and musical dramas displayed the company to its greatest advantage. The delicate shades and lights of life were touched by master hands. The ensemble was nearly perfect, and is rarely equaled by modern companies.

"I shall briefly refer to the chief characteristics of the leading members of that noteworthy organization. The proprietors, Messrs. McKenzie & Jefferson, were managers in the most enlarged sense of that term, and not theatrical adventurers like many of the present time. To executive abilities of high order were united a sincere devotion to their profession and an experience of rare value, attained in the best schools of classic acting, which gave the widest scope to their intelligent appreciation of what was needed to elevate the stage. The purpose was to place the theater among the honored institutions of our enlarging civilization. After leaving Chicago, at the close of the season, in 1839, they visited Galena, in this State, and Nashville, Tenn., with a majority of their Chicago company. Mr. McKenzie, I be-

lieve, died in Nashville, a few years later. Neither of them ever returned to this city as managers.

"I have no information to impart concerning Mr. Leicester, after he left Chicago. During his stay here he held the position of leading tragedian in the company, and was a most admirable actor.

Greene C. Germon was an actor of light comedy parts, and one of the finest vocalists of the time. He died in this city in either 1852 or 1853. Mr. Germon became the most famous impersonator of Uncle Tom, in Uncle Tom's Cabin, and used to sing the pathetic melodies with a depth of feeling and beauty of expression never surpassed. He was to have made his reappearance in that character on the night of his death,

"Mr. Sankey, the delineator of old man parts, was the peer of any actor; a gentleman of consummate ability, possessing the requisites of greatness, and would have undoubtedly attained high rank in his line of work had he not met with death by drowning, near New Orleans, in 1840. His sudden death was a great loss to the early stage. His mind was of superior quality, his methods were cultured, and his facial expressions were as varied as his conception of art was true.

"Charles Burke, a son of Mrs. Jefferson by a former husband, died of consumption in New York, sometime in the fifties. Mr. Burke was the superior of William

E. Burton in his best days.

"Mrs. Ingersoll, the leading lady, was gifted with a fine presence and abilities of high order. The characters assumed by her were acceptably interpreted. During the season of 1839 Mrs. Ingersoll was much out of health, and did not often appear. Upon such occasions the leading roles were assumed by Mrs. McKenzie, who was a most painstaking artist. Mrs. Ingersoll subsequently married J. S. Wright, both of whom are still living.

"Mrs. Joseph Jefferson, the comedienne of the company, was one of the most charming ladies that ever adorned the stage. Slight of form, graceful of action, earnest in manner, a sweet singer, she captivated her audiences upon every appearance. With the citizens of long ago she was an especial favorite, and is remembered by every one who knew her then with the most profound respect and admiration, not only for the marked abilities displayed in her professional work, but also for the beautiful simplicity and quiet dignity of her private life. The subsequent eminence of her two sons amply testify to the faithful manner in which she discharged her motherly duties.

"For more than a generation Mr. Warren has been a member of the Boston Museum Company, and one of

the greatest favorites on the American stage."

The time was not ripe, however, for the continuance of a superior theatrical company in Chicago. With a population of but 4,800, it was not possible to maintain a regular place of amusement, and upon the departure of McKenzie & Jefferson's company came a period of reaction, which may properly be termed the subsidence of the art here. From such meager sources as broken files of newspapers and stray correspondence—the only available indices of the times—little satisfaction can be gained. Those men who have attempted to write sketches of the drama in Chicago have but cursorily alladed to the seven years following, from 1840 to 1847, as "completely obscured," or as "worthy only of briefest mention." This convenient method of covering a doubtful period was less laborious than the one employed by us, although it must be admitted that the results attained by more patient research are not wholly

satisfactory. It may be summarized that with the departure of McKenzie & Jefferson's company a reaction set in, and many years elapsed before the drama was properly revived.

Howe & Sands's Circus obtained a license in 1839,

but the document bears no date.

Some time in March, 1842, Mrs. Mary C. Porter played an engagement here, without obtaining the formal permission of the city authorities. April 4 she petitioned the Council to grant a license, and also urged the abandonment of a suit brought against her by the city for violating the ordinance. No record of action is preserved; but from the fact that April 9, on the occasion of a benefit performance, such significant plays as "The Stranger," "A Manager in Distress," and a "Day in Paris," were given, we are left to infer that chance alone did not dictate the selection of her bill.

On the 23d of the same month H. B. Nelson's company opened a season which lasted until May 7 follow-

ing

August 4, 1842, a license was granted Messrs. Lyne & Powell for a season of one month's duration at the

Rialto.

In their application they referred to the hardness of the times and the lack of patronage. Governed, perhaps, by motives of generosity, or, possibly, by visions of agreeable diversion at nominal cost, the city fathers voted to issue a license for the pattry sum of \$815. The theatrical company consisted of Messrs. Powell, Lyne, Hastings, Graham, Sharp and Jackson; Mesdames Powell, Hastings and Ramsey. Among the dramas produced were "George Barnwell," "The Apostate," and "The Fratricide," but the engagement was an unprofitable one.

Dan Marble played an engagement in Chicago August 30, 1842, with Mrs. Sillisbe as the leading lady, in "Black-Eyed Susan" and "Forest Rose." In spite of the effectiveness of Mr. Marble's acting patronage was discouragingly light. The American remarked: "We are aware that a considerable portion of our community will not countenance a theater, no matter how talented

its members."

Benjamin F. Taylor writes thus concerning those

early days, and the appearance of Mr. Marble:

"It was in that dusty old trap [the Rialto], I think, that I saw Dan Marble, for the first and only time. The play was 'Black-Eyed Susan,' and Marble's admirable William melted the house as if it had been something in a crucible. It was, in its way, the perfection and sim-plicity of nature. The audience was a little mixed. There were the fellows that in New York would have 'Killed for Keiser'-the 'wake-me-up-when-Kirbydies' stripe. There were a small handful of half-breeds, a sprinkling of lieutenants from the army, one or two worn-out paymasters. The pit was full of sailors, with occasionally a wharf-rat; but for fresh-water tars there was a wonderful effusion of salt water. Even the always conscious dress-circle flickered with any number of white cambric mops; and when the play took the right turn at last, the 'gods' applauded until the spiders swung in their webs and the mice in the walls were whist. Even the chaps that spent their time in the interludes in bawling 'boots' and 'supe,' and eating peanuts, mopped out the corners of their eyes with their dirty knuckles; and had the theatrical management furnished soap as well as sorrow, some of them might have put a better face on the matter. I can see the central figures in that dress circle to-day. Hands that I think of have shriveled out of the white kids they wore that night. The blue dress coats and buff vests have been

laid aside for other and stranger wear. Yonder, crowned with iron-gray Jacksonian hair, is the stately form of Colonel Kercheval. The man near him, with large, luminous eyes, is Hon. Giles Spring, owner of one of the finest judicial minds that ever graced the State. Beyond him is Dr. Maxwell, with a step as light as that of a wisp of a girl, for all of his two hundred and odd pounds of solid flesh. Close by are E. W. Tracy and George W. Meeker, and Dr. Stuart, and—but why keep on calling the dead man's roll? Some of the beauty as well as the manhood of the young city was there, and brightened up the dull old place like moonlight—but what matters it? The foot-lights are out, the players departed, and the air is full of dust withal. Down with the curtain."

The American, commenting on Mr. Marble's work in "Luke, the Laborer," September 3, said: "He proved that humor and pathos were not inseparable, but may be to a remarkable extent united in the same person."

But even this astonishing discovery failed to move the more confirmed opponents of the theater, and Mr. Marble's venture in Chicago is now recalled as much

more of an artistic than a financial triumph.

A benefit was extended Mrs. Powell, September 14, which is historically noteworthy from the fact that it was also the occasion of the debut of "a gentleman of this city," the first to appeal to the public for local approval. The gentleman so mysteriously referred to by the American, and whose name was carefully excluded from the bills, was George Brier, noted in private life for the excellence of the ice cream he dispensed to the citizens. The play selected was Othello, and the performance was by no means a bad one, notwithstanding the silence of the Press upon that subject. But the American did not fail to preserve a glimpse of the state of dramatic education at that period; for in its preliminary announcement of this initial performance of the tragedy here, that faithful chronicler of the time suggestively said: "The audience would be much gratified by Mrs. Powell singing 'Strike the Light Guitar,' which she sings so admirably." Imagine Desdemona springing from beneath the fatal pillow, flushed with the violence of dodging an amateur Othello's vigorous efforts to appear realistic in the death scene, and skipping gaily to the footlights as she caught the key of "Strike the Light Guitar!

In the fall of 1842 a theater was opened in Chapman's Building, which was located on the southwest corner of Wells (Fith Avenue) and Randolph streets, under the management of Mr. Hastings, and was declared by the American to be in a "flourishing condition," because of "the indefatigable exertions of the manager." It was stocked with "new and splendid

scenery."

A local theatrical society, known as the "Thespian," was formed in 1842, and in November addressed the following petition to the Council:

"To the Honorable Mayor, etc.: The Thespian Society respectfully represent that they are desirous of giving public exhibitions of a theatrical character occasionally—say once in two weeks. This Society is made up of young men belonging in the city, and they respectfully ask the privilege of giving such exhibitions without being required to pay for a license.

"CH. T. THORMER."

It is said that the Society enjoyed a brilliant existance for a time, until, in a moment of unguarded generosity, the properties belonging thereto were loaned to a traveling company, who carried them into "the provinces" and forgot to restore them to the rightful owners.

S. H. Nichols & Co.'s circus performed here for four

days beginning August 4, 1843. A license of \$50 was demanded.

John S. Potter, "formerly manager of the Louisville and Cincinnati theaters," as his announcement informed the public, petitioned the Council for permission to open the Chicago Theater August 9, 1843. He assured the honorable body that he had arrived in the city with a "talented and respectable company;" that he designed coming to Chicago every year, and that he would conduct his theater "respectably." In consideration of these promises he was permitted to proceed at an expense of \$25 per month, "in advance."

It has been remarked by some wise observer of natural phenomena that coming events cast their shadows before. No one will be surprised, therefore, to learn that, on February 14, 1844, the city of Chicago marveled at the intellectual wonders of a phenomenal pig, which had been advanced in learning under the tutelage of T. E. Osburn. It is not recorded that this porcine paragon predicted the proud eminence destined to be attained here by his race, but is it unreasonable to fancy its doing so? Mr. Osburn demonstrated his own distinctness from the nature of his pet by consenting to devote the proceeds of one entertainment to the assistance of the Ladies' Benevolent Society.

November 7, 1844, David Lewis craved official per-

mission to play in the theater building.

A Museum was sought to be established in November, 1844, on the petition of S. Sercomb, E. Price, E. W. Hadley and A. B. Lewis, who desired the right to found a "permanent" institution, wherein the "wonders of nature, the beauties of art, and the relics of antiquity" might be exhibited to the public. The projectors requested a free license, or one demanding no further compensation than "the necessary perquisites to the proper officer issuing the same." Inasmuch as the request was granted November 21, it is a safe inference that the potential effects of the pass system were felt as long ago as 1844, and the foundations of the pioneer museum were duly laid.

A theatrical company, under the management of Herr Hatch and A. Clare, played a brief engagement in November, 1844, but they reported the houses to be "generally so thin" that a reduction of license to one dollar per night was urgently desired. The Council promptly tabled the petition, and allowed the former rule to stand. The profits of this engagement may be comprehended when it is learned that, on the assurance of the managers, "it took all the proceeds to pay the

license."

June 15, 1845, Howe & Mabie's circus performed here, and remained four days, paying \$10 per day license.

Prior to August, 1845, the sum charged by the Council for a show license was wholly discretionary with that body, but on the 29th of that month an ordinance was passed fixing the minimum at \$5 a performance and the maximum at \$50. The Mayor was empowered to act in the absence of the Council. This step was evidently taken to forestall impecunious managers in their insidious assaults upon the weak side of councilmen, through the medium of passes.

The Western Museum.—In 1845 a museum was established in the Commercial buildings, No. 73 Lake Street, a few doors east of the Tremont House. An advertisement of the institution, published in the local papers of that date, assured the public that there were to be found the "best collection of specimens in natural history in the West, including an extensive variety in geology, mineralogy, chronology and ornithology. In addi-

tion are several groups of wax figures and a superior collection of cosmoramic views." The special attractions of the place consisted of concerts, lectures and explanatory descriptions of the objects on exhibition. Automatic figures, "designed to entertain and instruct," performed their harmless and monotonous duties, and nothing was introduced within the walls of the museum which was not "in strict accordance with propriety, morality and religion." Instrumental music enlivened the scene of peaceful divertisement. The fee charged for admission was but twenty-five cents, and, owing probably to the highly instructive purposes of the director, who sought apparently to do good to others, children were allowed to gaze unmolested at the rarities for the sum of one shilling. On the 15th of November, 1845, Henry Fuller, manager of the museum, petitioned the Council to remove the license tax from his house, urging in support of his plea that the museum was strictly "a place of instruction," and therefore should not be compelled to pay a license fee. This petition was coldly received by the Council, and promptly denied. In spite of this refusal, the musuem continued its precarious life, and February 13, 1846, again appealed for more liberal treatment at the hands of the Council. So grave a matter naturally involved much painful deliberation, and it was not until the 26th of that month that the board voted to remove the license tax, conditioned upon the managers agreeing to admit no transient entertainments to their hall. Theatrical performances were also prohibited therein without additional contributions to the general funds. The museum was then under the management of Henry Fuller and S. Sercomb, who exhibited their collection in a building on the corner of Dearborn and Randolph streets, in Hodgson's building, which was subsequently converted into a hotel.

The partial concession made by the Council did not conform with the wishes or ideas of those gentlemen, and a second application was made at a date not far removed from the first referred to, in which it was asserted that they "would be under the necessity of closing the museum unless theatrical performances could be given free of license." The petition was referred to a special committee of the Council, who

reported:

"We feel that the efforts of Messrs. Fuller & Sercomb to establish a museum have not been properly appreciated by the citizens, and that they have not afforded that encouragement and patronage which the merits of the museum demand. Your committee find that the museum already embraces a very interesting collection of animals, insects, birds and minerals, together with a variety of artificial curiosities well worthy the attention of the citizens and the patronage of the city, and constituting a nucleus upon which, if adequately encouraged, a museum will grow up credit able to the city and profitable to the proprietors."

The committee, to confirm the sentiment expressed by them, proposed the following, which was received:

"Resolved, That, in the opinion of the Common Council, the Museum of Messrs. Fuller & Sercomb is worthy of the support and patronage of the citizens of Chicago and the country generally; and that all persons having natural or artificial curiosities be respectfully invited to make contributions of the same to the Museum."

An order was passed granting the Museum a license for six months at the nominal fee of five dollars for the entire period. This action by the Council is, we believe, the first official indorsement of a place of public amusement in this city, and demonstrates that, however loth the city fathers may have been to grant free license

to theatrical companies, they were not impervious to the effect of an educational argument, even when the instructive medium was dressed in the garb of playactor. Various entertainments of a theatrical, or semitheatrical, nature were given in this Museum, from time to time. The Democrat of October 12, 1846, remarked that "Winchell, the drollerist, is in town, and performs at the Museum, this evening. When here six years ago the people would have it that there was nobody in the city but him." Miss Porter and Mr. Gilbert also played here, but the announcement is all that can be recorded now. The presence of J. C. Hough's company is vaguely recalled, and possibly other organizations visited Chicago during the years 1840-46.

RICE'S FIRST THEATER .- The year 1847 marks an epoch in the dramatic history of Chicago, for then it was that John B. Rice decided to return to theatrical management, and adopted Chicago as his future home. While to Isherwood, McKenzie and Jefferson belongs the honor of introducing the drama in its peripatetic form, yet to John B. Rice is due the credit and distinction of giving to this noble art a local habitation and a name. The former men were the precursors of the great results, which now are one of the chief badges of Chicago's metropolitanism, but the latter is the man to whom must be accorded the title of founder of the drama as a distinctive feature of the city's greatness.

Mr. Rice had about determined to retire from the stage, with which he had been identified in the East, when his attention was directed to this place, by a sanguine friend. He concluded to investigate the field, and with that purpose in mind, came to Chicago in the spring of 1847. While here he gave a public entertainment in the dining-room of the hotel where he was stopping. So favorably was he impressed with the prospect, and so firmly convinced of Chicago's future development, that he at once arranged for the construction of a theater building. The Democrat of May 11, 1847, said:

"Mr. Rice, of Buffalo, has contracted with one of our oldest and most substantial mechanics, Alderman Updike, to erect a frame building, forty by eighty, on the corner of Dearborn and Randolph streets, Mr. Rice comes here with an excellent reputation as a theater manager. There is no doubt now but Chicago

will have a theater."

The site chosen was not upon the corner of Dearborn and Randolph streets, however, but on the south side of Randolph, one or two lots east of the southeast

corner of those streets.

Pending the slow processes of erection in those days, let us digress from the theme long enough to observe the presence here of the Grand Olympic Arena and United States Circus, an institution whose polysyllabical title was invented by E. F. Mabie & Co. It was proudly asserted that no less than one hundred and fifty men and horses composed this stupendous organization. A new brass band was named as one of the many delightful features, somewhat contrary to modern conceptions of attractiveness, when the more surfeited taste regards newness as a questionable quality in bands. Among the performers were: M. Buckley, W. Waterman, the "beautiful female equestrian," Laura Buckley, and "the astonishing bare-back rider," young Henry Buckley, with various other notables of greater or lesser degree. The circus cast the city into a state of intense excitement for three days, beginning May 22.

A moving diorama, representing the burning of Warsaw, was placed on exhibition, in the public hall of

the Saloon Building, May 26, 1847.

Returning to the subject of Rice's theater, from our casual diversions at the circus and diorama, we discover that six weeks have sped by, since the announcement was first made. The little theater has assumed the form and dimensions of an imposing edifice to our retrospective eyes. We saunter into a neighboring hotel, and, picking up the Democrat of June 22, read: "The new theater building on Randolph Street, which is now nearly finished, is worthy a visit. The economy of the interior arrangement is excellent, the stage is roomy and well designed for its purpose, the pit will be a very comfortable and convenient place, while the boxes would tempt any one to spend an evening there." Piqued with curiosity, we are about to visit the inviting place, when other duties interpose. The days fly by. Again the Democrat appears. We learn with pleasure that, "Mr. Rice will open his theater on the 28th day of June. The internal arrangements of the new theater, now nearly completed, are admirable. A full view of the stage can be obtained from every part of the house, and the plan of the old Coliseum has been followed. The boxes are elegantly furnished and fitted up with carpets and settees, rather resembling a boudoir, or private sitting-room in a gentleman's house, than an apartment in a place of public resort. The building has been completed in six weeks. A new era is unquestionably dawning in the theatrical world in this city, and under the efficient management of Mr. Rice, assisted by his talented corps, we shall always have, in the language of Dan Marble, 'Something new, something rich and something rare.' The scenic accompaniments are said to be beautiful, being the joint production of two distinguished artists.'

The company engaged by Mr. Rice consisted of Edwin Harris, leading man; Mrs. Hunt (now Mrs. John Drew), leading lady; James Carroll, G. W. Phillimore, George Mossop, Mr. Meeker, Jerry Merrifield, Mrs. John B. Rice, and Miss Homer, the latter being proficient as a dancer; for at that time, and for many years later, the public demanded a divertisement of this sort between plays. The scarcity of actors and the limited revenue of the little theater caused strange and amusing doubling up of parts, at this early period of the drama, and it was no uncommon thing for one actor to assume several characters in the same play. The Common Council imposed a license fee of \$25 per

month upon this theater.

On the evening of June 28, 1847, the opening performances at Rice's Theater took place. The play given was the ever popular one called the "The Four Sisters," in which Mrs. Hunt impersonated the quadruple role. Dan Marble was engaged as the "star" attraction, and carried the leading male part. Of this eventful night the Journal said, in its issue of June 29:

"The new theater last evening was crowded with a large and delighted audience. Mrs. Hunt never played better. Dan Marble never gave greater satisfaction. The performance, and the good order preserved, was just what could be expected under the efficient management of Rice. The numbers that could not gain admittance last evening will be pleased to see by the announcement that Mrs. Hunt and Mr. Marble appear again this evening; and if they be not both complained of to-day, for the injuries occasioned by throwing last night's audience into convulsions, we apprehend the friends of the parties will be there to know the reason.

The inaugural exercises consisted of the delivery of an address, from the pen of G. W. Phillimore, by Mr.

Harris, which is quoted:

In early Greece, where Pæans, sweetly sung, Told a young world Art's lyre was newly strung; And Reason, starting from chaotic dreams, Threw o'er the classic land her sunny beams. Commercial enterprise next caught the ray And showed to Industry the golden way Fleets rode the wave, while fabrics filled the loom, And sculpture decked the temple and the tomb. The muse is heard, Helicon radiant flows, And from the silvery fount the Drama rose Handmaid to Science in the march of mind, Thalia moves free, lively, unconfined, Nor pauses she to bless a favored clime, But sheds on all an influence sublime. Sometimes she rears a wild, fantastic throne To soothe the savage of the torrid zone-Hushes the death-wail, breaks the blood-stained lance, Persuades to peace and leads the mazy dance. Amid the rigor of the Polar storm At times is seen her mirth-inspiring form, Lighting a northern winter's gloomy hours, And decking icebergs with her gayest flowers. Where the domed city rises o'er the plain There holds the Drama a distinguished reign. Where waved the prairie, now behold the town, See Art and Industry adventure crown. Hither she comes, and in her gayest mood-A buskined Hamadryad of the wood. Of mental wealth the goddess ownes a mine, And unalloyed her golden numbers shine. Be it our task, as we dispense her treasures, To see instruction mingle with your pleasures.

(To the audience:)

Americans rejoice! the time foretold has come, And you may glory in your fruitful home. Genius of History, inscribe thy page With the bright deeds that mark the passing age, Tell how a valiant few, a Spartan band, Scattered the myriads of a hostile land. How with one hand America scourged a foe, The other open at the cry of woe. South'ard her war ships thundered o'er the main, South and her war sinps infinitely does not have Morthward they navigate with golden grain. See how gaunt Europe, famished and opprest, Sued to the growing giant of the West; Nor sued in vain for freely was it given, Overplus bounty of benignant Heaven, Charity,\* first of virtues, mild-eyed maid, Thy acts munificent are all self paid. And if some fell by battles' sweeping breath, Record the numbers snatched from wasting death.

(To the boxes:)

And now to you, to whom each rolling sun

Brings the results of enterprise begun; Who see the fruits that bounteous heaven decrees Traverse the bosom of your inland seas, View growing ports adorn the flashing strand, Where takes the Tar the toil-brown Farmer's hand, Commerce and Agriculture, side by side, United stand, our country's glorious pride. Nature's true noblemen such union brings-Direct their patent from the King of Kings. Appreciate these gifts dispensed by you, And render thanks where all our praise is due.

(To the pit:)

From keel to truck, "a-taunto" for the trip, Our anchor's stowed, all clear for working ship. A skillful pilot in dramatic water, Our anxious skipper takes the weather quarter, On board of any craft beneath his care Safe is the passage, bountiful the fare. His crew, picked hands, all eager for the cause, Vour smiles their bounty, wages your applause. Then say "good time," and bid propitious gales Press in our wake and fill our spreading sails.

The Democrat of June 29 said:

"Last night our theater opened with a rush. Those who were late needed a pilot to get through the crowd. If Mr. Rice intends keeping his present company, the large new building so honorably and so enterprisingly

\* Note.—Referring to the \$10,000 given that year by Chicago to the starving people in Scotland and Ireland.

erected, will have to be enlarged. Our city is under great obligation to Mr. Rice for his enterprise. The dress circle was the most brilliant ever brought out by any entertainment in our city. Dan Marble is here, and everybody knows him. Mrs. Hunt made herself known last night, and will never be forgotten. Rice proved himself a splendid actor, as well as theater builder. In fine, Chicago can boast of being ahead of any city of twice its size in the theatrical line.

A nightly change of bill was made. On the evening succeeding the opening, Mr. Harris impersonated The Stranger, and Mrs. Hunt gave her fine rendering of Mrs. Haller. Mr. Marble, who had won much favor in the character of Sam Patch, presented that peculiar individual as he was supposed to have appeared while in France. The local press assured its readers that both Mrs. Hunt and Mr. Marble "threw the audience in tears," though from very different reasons.

Mr. Marble's engagement lasted until July 10, during which he delighted the public with such plays as "The Backwoodsman," "Forest Rose," "Stage-struck Vankee," "Black-Eyed Susan," etc. On the 10th, a benefit was given him. Commenting upon this event,

the Democrat said:

" No person has been so solicitous of the welfare of the stage and has done more to build up the drama in Chicago than Dan Marble. Nearly ten years ago, entirely unsupported by other actors, and with every disadvantage, he came here and played, and ever since has made his periodical visits, when other actors of his rank could not be induced to come here. He was the pioneer in giving character to the theater in the West, and deserves liberally of Western people. He is the first actor in the comic line, and was received with great eclat in the old country.'

While Mr. Marble was deserving of commendation both as an actor of merit and a man of liberal instincts, we cannot but feel, that the award of highest distinction, as regards the founding of the drama in Chicago, should be bestowed upon McKenzie & Jefferson, rather than on Mr. Marble, whose work was that of a transient

" star," not a local manager.

Rice's stock company proved a very satisfactory one, and speedily overcame, to a degree, the prejudice against the theater as a means of diversion. The Journal of July 1, 1847, observed: "We notice a large number of ladies-the beauty and fashion of the city-in nightly attendance." Again, on the 10th of July, it said: "We are aware that many, and conscientiously we doubt not, utterly proscribe the theater; but we have to learn that this proscription may not be carried to an extreme. For we believe that many a sin has been unjustly charged to the stage, the result of association, which in itself proves nothing, save that a reform in society generally, is demanded. In the case of the new theater, but few of these evils are attendant, and while we discountenance anything of an immoral tendency that may attach to the drama, we take pleasure in commending what is commendable."

T. D. Rice, the famous negro character impersonator, who gained notoriety in Europe and America as "Jim Crow," appeared July 12, as the special attraction at Rice's Theater. It should be remembered that this actor was not related to Manager J. B. Rice. The engagement of "Daddy" Rice, as he was popularly called, continued until July 17. The plays in which he appeared were "The Mummy," "Jumbo Jum," and a burlesque called "Otello."

The company received several valued additions during July. On the 12th of that month Mr. and Mrs. Jerry

Merrifield, comedian and vocalist, first appeared; and on the 22d Mrs. J. B. Rice's name was placed upon the bills. The opening piece, in those days was usually of an emotional character, and the evening's performance concluded with a farce or two. Among the many plays were "The Wife," "The Youthful Queen," "Perfection," and similar standards, in which Mrs. Hunt sustained the leading roles. Christy's Minstrels were here July 22, and remained one week, as an after performance. Among the dramas in which Mrs. Hunt achieved success, was "Clari, the Maid of Milan." The Journal, which rarely noticed the theater editorially, said: "The domestic drama of 'Clari' was enthusiastically applauded. Mrs. Hunt played with her usual grace and spirit. It seems to us, however, that in all the characters she has delineated, from the indignant Queen [Christine of Sweden] to the wronged and suffering maiden, there is a trace of something that belongs to no one of them, stamping them with a certain degree of similarity. This, doubtless, results from the variety of characters in which she appears. Mr. Phillemore's action and expression were well conceived and executed. Mr. Harris, as the Duke, evinced study." It would tax the mental and physical ability of any actress, we imag-

ine, to present a new play every night.

On the 28th of July Mrs. Hunt played Claude Melnotte to Mrs. Rice's Pauline. One of the most popular of Mrs. Rice's characters was Nancy Scraggs, in the play of "Uncle Sam," and proved her versatility by supporting Mrs. Hunt in such dramas as "Jane Shore" and "The Hunchback," and then assuming the leading comedy lines in an eccentric farce. The Journal gave a flattering notice of Mrs. Hunt's Julia, which was

said to be the finest work she had done.

James E. Murdoch first appeared in Chicago, at Rice's Theater, August 2, 1847, in "Hamlet," with Mrs. Hunt as Ophelia, Mrs. Rice as Queen, Mr. Harris as the Ghost, and Mr. Mossop as Laertes. The Journal said: "Murdoch's Hamlet was a grand and vivid conception, most powerfully embodied and realized in action, expression, tone. There was more than the resemblance of a soul in Murdoch's acting-the heart and soul itself. The performance of Mrs. Hunt, as Ophelia, was touchingly beautiful." The repertory included "Romeo and Juliet," "Macbeth," "Pizarro," and possibly other plays, though there is no mention of others. The Democrat of August 5, 1847, said: "The play of 'Macbeth' went off last evening, all parts being executed in the most splendid manner. The audience were well pleased, and they all speak of the play and players as excellent. \* \* Mr. Murdoch and Mrs. Hunt executed their parts in the perfection of the art. The approval of "Macbeth," as "an excellent play," indicates an advancement in public taste; and the execution of the parts sustained by the leading actors was doubtless designed to have no concealed insinuation that the roles were "murdered."

E. S. Conner was the next addition to the company, in August. He played "Richelieu," with Mrs. Hunt as Julia de Mortimer, and Mrs. Rice as François.

George Ryer, the fashionable tailor at that time, left the bench for the stage in the summer of 1847, appearing in "Hamlet." A benefit was tendered him September 1, on which occasion he re-appeared in that character. September 20, Mr. Ryer played Iago to Mr. Harris's Othello.

Mrs. Rice assumed the part of Rachael, in "The Journal, with more elaborateness than was ordinarily bestowed on plays here.

Jewess," which was put on the stage, according to the

"Full of pageant-the imposing rites of oriental worship, the banner-bearing trains, the rich and georgeous costumes, the solemn chants, and withal the fearful punishment of that elder time-there is yet much of strongly marked character in the play. The rude nature of the Jew was brought out with startling distinctness and softly relieved by the truthful, proud, yet forgiving spirit of Rachael, which Mrs. Rice impersonates with grace, feeling and effect."

The Democrat was stricken with amazement at the presentation of "Mazeppa," September 22, and ex-

"No one but our enterprising Mr. Rice would ever have thought of playing 'Mazeppa' on the stage of Chicago. And then he does it so well as to attract the encomiums and wonder of all. To take a living horse, and one of our own 'sucker' horses, too, and make him run over a stage in the second story, is doing wonders for a new country.'

Mrs. Hunt was absent from the company during a part of the summer. Her place as leading lady being

filled by Mrs. Rice. She returned October 5.

Miss Julia Dean made her first appearance in Chicago, October 5, but the repertory cannot be given, owing to a hiatus in the newspaper files. This excellent actress was one of the most popular ladies on the stage, in standard emotional roles.

The season of 1847 terminated November 27. The several members of the company, in accordance with custom, received complimentary benefits during the last week or two; and on the final night, Mr. Rice was remembered by his friends. The programme included Jerrold's drama, "The Rent Day," the farce "Used Up," and musical selections by Mossop, Merrifield and the entire company in the Star Spangled Banner. Throughout the season Miss Homer continued to receive applause for her artistic dancing.

The first season at Rice's was, viewed in a modern light, moderately remunerative, and encouraged the

manager to persevere in his efforts.

The incidental amusements of the year 1847 were concerts at the Saloon Building, during July, by the Antonio family; June & Turner's circus, September 23, and Rockwell & Co.'s circus during that month. Littlewood & Robinson occupied the theater in the Rialto as a dancing hall, at this period.

A museum and theater was conducted by Dr. E. Mooney, at 71 Lake Street, during the winter of 1847-48. Farces and light plays were given. The first amusement furnished in 1848 was by Winchell, who gave an entertainment at the court house April 3.

Prior to the close of the season Mr. Rice visited Milwaukee, and arranged to take his company there for this winter. The venture proved a profitable one.

Mr. Rice re-opened his Chicago theater May 1, 1848. The company included Mrs. Rice, Mrs. Price, Miss Willis, Edwin Harris, Mr. and Mrs. Merrifield, James Carroll, Mr. Clifford, George Mossop, D. Sandford, William Taylor, C. H. Wilson, and J. W. Burgess. The orchestra was under the direction of C. Brookton; the scenery was painted by J. D. Beckwith, and M. Conklin was treasurer. Mr. Rice enlarged and improved his house during the winter. Dan Marble opened the season of 1848, on May 1, in "Sam Patch in France" and "The Wool Dealer." The farce of "Hunting a Turtle" was also given.

The evening of May 2, 1848, witnessed the first appearance in Chicago of James H. McVicker, who impersonated Mr. Smith, in the farce of "My Neighbor's Wife;" and of Mrs. McVicker as Louisa, in the Yankee comedy of "Hue and Cry," with Dan Marble as Lot Sap Sago. J. Greene also made his bow on this occasion. Mr. Marble concluded the bill with "All the World's a Stage." The next evening Mrs. J. Greene made her debut. Mr. Marble remained until May 13, appearing each evening in a different character.

Julia Dean began an engagement May 15, in "The Hunchback," and while here gave "Evadne," "Fazio," "The Wife," "Love's Sacrifice" and her round of impersonations. One of the strongest characters assumed

by this lady was that of Lucretia Borgia.

Mrs. Hunt resumed her place as leading lady May 31. Edwin Forrest made his first appearance in Chicago Thursday, June 8, 1848, in "Othello," supported by Augustus W. Fenno, Mrs. Hunt, Mrs. Rice, Mr. Mc-Vicker and the stock company. This engagement was announced as his farewell to the Chicago stage, he having determined to retire permanently to private life. On Friday evening Mr. Forrest played "Hamlet," and on Saturday evening "Macbeth." The week beginning June 12 saw the great tragedian in "Richelieu," ginius," "Lady of Lyons," " Jack Cade," "Damon and Pythias," with "Jack Cade" again on Saturday, the 17th. The latter play was one in which he was never equaled by any actor. The final week of this eventful period was devoted to "Metamora," "The Gladiator" and "King Lear," the engagement closing Friday night, June 23. The occasion was made memorable by the delivery of what afterward became known, among the enemies of this great man, as his "loop-hole speech." When called before the curtain, at the conclusion of the

play, Mr. Forrest spoke nearly as follows: "I thank you, ladies and gentlemen, for this mark of your approbation, and I cannot withhold the expression of my gratification, that the Drama finds especial favor among you - long may it continue to do so. Wherever civilization has spread its humanizing influence, the Drama has been upheld by the wise, and the good, and although from time to time, it has been bitterly assailed by intolerance, bigotry and fanaticism-for it is much easier to condemn than to appreciate—and so scowling bigots still denounce the theater, as they once denounced the inspired teaching of Galileo; yet it has triumphantly withstood their attacks, and will continue so to do, so long as there is taste and refinement in the world to appreciate the genius of Shakspere, or, so long as man is composed of those elements, which the great bard of 'all time' has so truthfully depicted. The Drama then has an indestructible existence - for it is the offspring of immortal MIND. It is more impressive in its teachings than any other medium of instruction for it speaks at once to the ear, the eye, the heart and to the understanding, with most persuasive and convincing art. To say that the theater is liable to abuses, is to say nothing more than what is equally applicable to any other institution in the world, civil or religious. It is for you, therefore, to guard against such abuses, by indignantly frowning down any attempt to pervert the stage from its legitimate mission, the object of which is to show how peaceful and pleasant is the practice of virtue, how unhappy and hideous the practice of vice. And now, ladies and gentlemen, though I shall never again have the pleasure to appear before you in the difficult art which I have so diligently pursued, yet my interest in the progress and success of the Drama will cease only with my life-and while from the loop-hole of my retirement I hope hereafter to survey the still increasing growth and prosperity of your lake-born, beautiful city, I shall look also to find that the Drama is held in corresponding estimation among you.'

Mr. Forrest's intentions were honest. He expected at that time to leave the dramatic field forever, but circumstances forced him to again return, after an absence of eighteen years. The final appearances of this master of tragic art will be found recorded in the subsequent pages of this work, under the period of 1866 and 1868.

Mrs. Hunt was married to Mr. George Mossop June 25, 1848, and appeared in "Fortunio" and "The

Happy Man" June 26.

The current of events flowed smoothly on, with no especially noteworthy incidents, until the summer was

wellnigh gone.

Junius Brutus Booth for the first time graced the Chicago stage September 18, 1848. He remained here two weeks, playing meanwhile to audiences surpassing any before assembled in Rice's Theater, and portraying as he alone could do the marvelous subtleties of "Richard III," "Shylock," and other Shaksperean characters. Mr. Booth's complimentary benefit was given September 30, when he appeared as Shylock, and as John Dumps in a farce called "The Ways of Windsor."

Barney Williams began an engagement October 3,

which was his first season in this city.

The principal actors of the stock company were given benefits, prior to the closing of the regular term. Mrs. Rice appeared as Meg Merrilies October 23, and Mrs. Mossop chose the comedy of "The Jealous Wife" for her own benefit. The season terminated November 25, and the company opened the new Milwaukee the-

ater November 29, 1848.

The principal amusements during the year, besides the performances at Rice's, were Mabie's circus, which gave a three days' exhibition, beginning May 8; Winter's chemical dioramas at the Saloon, May 29; General Tom Thumb at the court-house, June 2; and the regular exhibitions at Mooney's Museum, 73 Lake Street. Minstrelsy was introduced at this place by Prater's Genuine Virginia Minstrels and the "real-natured" Kentucky Minstrels, as they were called, during the summer. The manager of the museum was himself a curiosity. On the 8th of November, David Kennison, the sole surviving member of the Boston Tea Party, was installed as nominal manager. His advertisement read:

"I have taken the Museum in this city, which I was obliged to do in order to get a comfortable living, as my pension is so small it scarcely affords the comforts of life. If I live until the 17th of November, 1848, I shall be 112 years old, and I intend making a donation party on that day at the Museum. I have fought in several battles for my country. All I ask of the generous public is to call at the Museum on the 17th of November, which is my birthday, and donate to me what they think I deserve."

It is unfortunate that no authentic account of the proceedings of the 17th can be found, for the amount donated might serve as a criterion of Chicago's estimate

of a patriot's services.

The season of 1849, at Rice's Theater, began April 16. The auditorium was bright with fresh paint, and a new drop-curtain, by J. D. Beckwith, representing Byron's "Dream," added to the attractiveness of the place. Mrs. Mossop was the leading lady for a brief time, but bade farewell to Chicago May 12, selecting for her last appearance "Agnes DeVere, or the Wife's Revenge," and "St. Patrick's Eve." The Democrat spoke of her departure with regret, and said, "When such ladies as Mesdames Mossop and Rice honor the stage, the prejudices of all reasonable persons will be

greatly mollified, and the drama become all that its best friends could wish it to be.

The death of Dan Marble, at Louisville, Ky., in the spring of 1849, from cholera, deprived the stage of one

of its most popular comedians.

That terrible scourge, the cholera, swept over the country in 1849, and brought desolation to many a home in Chicago. The public mind became depressed with grief and fear, opening the way more surely to the ravages of the insidious invader. Melancholy was conducive to the fatal assaults of this disease, and many able writers at that time advised the employment of all available means to temper the mind in lighter vein. With this thought in view, the Democrat suggestively remarked, under date of May 24:

"The only place of amusement we now have in the city is the theater, and, so far as talent and character are concerned, it is supported by better actors than any theater of twice its size in the United States. Mr. Rice has just engaged two very justly popular actresses. Mrs. M. Jones has been for several years the leading lady in the principal theaters of New York, New Orleans, and other large cities. She is just from New Orleans, and is now on her way to fill a summer engagement in New York. She will appear to-night as Kate O'Brien, in the drama called 'Perfection.' Miss Julia Turnbull lacks only the merit of fashion of being a foreigner to be extolled as the best dancer upon the American boards. She appears to-night in no less than three dances, during the plays of 'Lola Montez' and 'Spirit of the Fountain.'"

Miss Turnbull soon became a favorite with the public here. The stock company was composed of nearly all of the people here in 1848, among whom Mrs. Rice, Mr. Harris, and Mr. McVicker were the most promiinent. From time to time new faces were seen, for brief seasons. The conspicuous names were: N. B. Clarke, Mr. Holland, and Mr. Jamieson. Miss Julia Dean and Barney Williams returned, in their respective roles, and C. D. Pitt made his debut before a Chicago audience. The occasion of Mr. Pitt's benefit, August 31, was rendered notable by the address of Stephen A. Douglas, Thomas Hoyne, P. Maxwell, and more than a hundred other leading citizens, who united in offering him a complimentary night. The plays selected were "Bertram," and "The Taming of the Shrew."

Mr. McVicker's benefit, September 17, furnished the opportunity to produce, for the first time here, W. E. Burton's drama, "Ellen Wareham." The evening's bill also included: "The Artful Dodger," and "Sweethearts and Wives," with the beneficiary in all the

James E. Murdoch played an engagement terminating November 10, 1849, at Rice's. A fac-simile of the play-bill is here reproduced. This is the earliest copy of a bill which has come into our possession, and was furnished by A. H. Burley, who obtained it from Miss Harriet M. Gale, of Exeter, N. H.

The season closed in November, and a review of the principal bills shows that the regular company of 1849 contained Mr. and Mrs. Rice, Mr. and Mrs. J. H. Mc-Vicker, Mr. and Mrs. D. Clifford, Mrs. Coleman Pope, Joseph W. Burgess, N. B. Clarke, William Meeker, J. H. Warwick, C. H. Wilson. Mr. Beaver, and J. D. Beckwith, scenic artists. Perry Marshall served as treasurer.

The Museum on Lake Street, already referred to, passed into the possession of Thomas Buckley, in June, 1849, who refitted it. A "lecture room," as it was called, was attached to this place of amusement, wherein

Doors open at half-past 6 o'clock; Curtein will rise at a quarter-past 7 precisely, JOURNAL'S PRINT 107, LAKE ST., CHICAGO

entertainments of semi-dramatic character were given. Music, professional dancing, and farces were the principal features. On Saturday afternoons a special performance was provided for the benefit of families and school children. This was the beginning of the matinee system in Chicago. Among the attractions advertised for the Museum were a group of figures in wax representing the Judgment of Solomon and also a figure said to represent Queen Victoria.

Mabie's circus gave four performances, beginning May 2, 1849, and Crane & Co.'s circus was here July

2, 3 and 4 of that year.

Mrs. John B. Rice withdrew from the stage early in the season of 1850. This event called out many exceedingly kind notices from the Press, one of which we quote. The Gem of the Prairie, under date May 4,

1850, said:

"We noticed some time since the formal withdrawal of Mrs. J. B. Rice from the Milwaukee stage, and took occasion at that time to express our admiration not only of the actress but of the woman, in all the relations of private life. Since the opening of the theater here, for the present season, Mrs. Rice has appeared nightly, to the gratification of her numerous friends. We learn, however, it is a pleasure that will be of but short duration, as she has determined to retire wholly from the stage in a very few days. The theater-going public will regret to learn the fact; but the motive which determines her course will doubtless prove satisfactory to all-a desire to devote her undivided attention to the care and training of her children. This is the first duty in importance, and Mrs. Rice has not forgotten it in the excitement and applause of the stage. We understand that there is a general wish among her friends to give her, on the occasion of her withdrawal, a complimentary benefit, that shall in some measure express their warm admiration of her talents as an actress, and their esteem for the many virtues which are exemplified in her private life."

N. B. Clarke was leading man and stage manager at

Rice's, in 1850.

Mr. and Mrs. Barney Williams were here in July, of

that year.

James E. Murdoch, supported by Miss Eliza Logan, presented a repertory consisting of tragedy and comedy,

during the two weeks beginning July 15.

BURNING OF RICE'S THEATER.—The evening of July 30, 1850, was the most startlingly memorable in the history of this theater. A company composed of Miss Eliza Brienti, Miss Helen Mathews, Mr. Guibelei, Mr. Manvers and a home-chorus, aided by a local orchestra, introduced opera for the first time in Chicago. The event was one, however, which did not call forth a large audience The little theater was far from being crowded. The curtain rose upon the pleasing scene of "La Sonnambula," and all went well, promising a most satisfactory inauguration of this advanced phase of dramatic endeavor. In the midst of the opera, however, the appalling cry of fire rang through the house. The audience started to their feet in terror. No signs of disaster were discernable, and for an instant it was believed the alarm was false. A moment later the warning cry was heard again, and serious injury to many might have ensued, had it not been for the presence of mind evinced by Manager Rice. Hastening to the footlights he cried, "Sit down! Sit down! Do you think I would permit a fire to occur in my theater? Sit down! and, obedient to his command, the panic-stricken people paused, half assured by the peremptory tone that all was safe. But, while Mr. Rice was still standing on the stage, some one from the prompter's place said, "Mr. Rice, the theater is on fire?" The alarm spread, and soon the building was cleared of its audience. J. H. McVicker was on the stage at the time. He began to pull down scenery, hoping to save something; but the flames spread so rapidly that everybody was driven away. Mr. McVicker hastened to his rooms, a few doors from the theater. Before he could reach there, that building was also on fire, and he was compelled to go to the Sherman house in his stage costume. He lost everything except the clothes then worn by him.

The cause of the alarm was the burning of stables on Dearborn Street, in the rear of the theater, owned and occupied by J. T. Kelley. So rapid was the progress of the fire that the audience were scarcely in the street before the stage of the theater was enveloped in flames. The firemen labored bravely to suppress the fire, but did not gain mastery over it until one-half the block was laid in ruins. The theater was totally destroyed, involving a loss of \$4,000 to Mr. Rice. Added to this material annihilation of his property was the interruption of business, and although the sum named seems inconsiderable at the present day, its real character is better understood when we take into account the fact that all things are relative. The disaster was a serious blow to Mr. Rice. It checked a prosperous career by summarily closing the season and disbanding the company in his employ.

But even great calamities have their humorous phases. A story is told at the expense of a somewhat noted character of those times, whom the chronicler refers to as Mr. B. From the Journal of that period we

quote the following:

"Mr. B. and a small party of jolly English friends, who had been dining out, concluded to patronize the opera that evening, and Mr. B., whose rotundity was considerably better filled with the sparkle than the rest, had taken a front seat, and was saluting the song and sentiment of the occasion at every 'wait,' with unbounded applause, by clapping his hands and vociferating 'bravo!' Presently, like an electric shock, came the cry of 'fire!' The audience started suddenly for the doorway, though their retreat was checked to good order by Mr. Rice, who was on the stage at the time. Then all was confusion, and each member of the company, in endeavoring to save the properties, was rushing backward and forward across the stage. Mcanwhile our friends outside had missed their comrade, and thinking perhaps he might have been injured, one of them stepped up to the boxes, just as the fire was bursting through the end of the building, in volumes, and Rice was crossing the stage with a sidescene on his shoulder. There sat Mr. B., solitary and alone, on the front seat, in perfect ecstacies at the performance, shouting 'Bravo! bravo! the most splendid imitation of a fire I ever saw!'"

The public sympathized (?) with Mr. Rice in his loss, and a movement was made to give him a complimentary benefit at the City Hall. The members of the opera company, and those who could sing of the regular company, volunteered. The profundity of the alleged sympathy was manifested by the numbers—who remained away from the concert; for when the receipts were counted, it was known that the munificent sum of

sixty dollars had been taken at the door!

The opera company visited Milwaukee, where a brief season of their so-called Italian opera was given. The lines were rendered in Italian by those of the party who could speak that tongue, and in English by those who could not.

Mr. Rice took the majority of his own stock to Milwaukee, in August, and played to light business until January, 1851, when he terminated his labors there. Mrs. Mossop was with Mr. Rice at Milwaukee in September.

Meanwhile, undaunted by the destruction of his Chicago house and the wretched returns for his Milwaukee endeavors, Mr. Rice at once set about building a theater in this city. A lot on Dearborn Street, south of Randolph, wherein Launder's livery stable formerly stood, was purchased, and arrangements at once made to construct a brick theater. The building was eighty by one hundred feet in size.

Prior to the opening of the Milwaukee Theater, Mr. McVicker, Mr. Archer, and other members of the company started on a provincial tour, hoping thereby to relieve present pecuniary distress. They played at Aurora, Naperville, St. Charles, and other towns, returning to Chicago August 19. Mrs. Coleman Pope went

to Boston and Miss Mathews to New York.

An incident is related by Mr. McVicker which illustrates the trials of those days. The price of admission in country towns was but twenty-five cents. While in St. Charles one of the citizens waited on Mr. McVicker, who was regarded as manager, although the company was a commonwealth affair, and said, "See here, my family is five in number—the old woman and three children; the oldest eight and the youngest four. So I think you ought to let me see the show for a dollar.' Mr. McVicker assented. The next day his patron returned, and said, "See here, your show put my boy asleep, last night, and he didn't see any of it; so I think you ought to give me back a quarter." McVicker argued that he had received but twenty cents each; but the man silenced him by saying, "Well, I know; but its worth twenty-five cents to carry a boy home when he's asleep!" The quarter was refunded.

TREMONT HALL was fitted up after the burning of Rice's Theater, and used by local and traveling companies. This hall was located in the Tremont House, and was a large dancing-room, facing on Lake Street,

over the dining-room of the hotel.

The Bateman children, Kate and Ellen, then but five and seven years of age respectively, first appeared in Chicago, at Tremont Hall, November 18, 1850, and gave three performances. The opening bill embraced a wide range of characters. The precocious girls were supported by a company in comedies, and gave costume scenes from "The Merchant of Venice," "Macbeth," and "Richard III." The plays produced were, "Old and Young," with Kate in the quadruple role of Matilda, Gobbleton, Hector, and Tuffington, while Ellen impersonated Peter; and "Swiss Cottage," with Ellen as Natz Teik, and Kate as Lissette. The length of this entertainment alone is sufficient to exhaust the strongest actress, and when the youthfulness of these marvelous children is considered, it becomes painful to contemplate. The following evening the bill was repeated. November 23, at a benefit performance, there were given a scene from "Macbeth," and the plays "Paul Pry," and "A Day after the Fair."

After the burning of the theater, dramatic affairs naturally waned for a time, and nothing of importance transpired subsequent to the departure of the Batemans.

RICE'S SECOND THEATER.—John B. Rice completed his second theater in January, 1851. The building stood on Dearborn Street, between Randolph and Washington streets, eighty feet front by one hundred in depth. It was of brick, with cornices of galvanized iron. The cost of the structure was \$11,000. Those who devised and erected the edifice, under Mr. Rice's supervision,

were: J. M. Van Osdel, architect; C. & W. Price, masons, and Updike & Sollett, builders. The stage scenery and drop curtain were painted by J. D. Beckwith; the stage machinery by Morris & Watson. The orchestra was under the direction of Mr. Le Brun.

The company contained Mr. and Mrs. Rice, Mr. and Mrs. McVicker, Mr. Hann, Mr. Warwick, Mr. Archer, and Mr. and Mrs. Gilbert, the latter being also dancers. Mr. McVicker at this time became Mr. Rice's stage

manager.

Manager McVicker, in his lecture entitled "The Press, the Pulpit, and the Stage," relates an incident of the days which taxed both the ingenuity and the ability

of actors to their utmost. He says:

"In Chicago, during my time, some good old days have passed. No manager was ever more loyal to his patrons than J. B. Rice, who built the first regular theater in this city in 1847. His companies were necessarily small, but he expected each member to be competent to act many parts and set the example by doing so himself. He would act two or three important characters in a play, and if numbers were wanted he would throw a black cloak over his other dress and act the mob with a spirit that would appal the villain of the play. He was a general actor and thoroughly understood the requirements of his profession and how to surmount difficulties. He would argue and convince an ordinary star that it was better to hang William, in the drama of 'Black-Eyed Susan,' from the limb of a tree than from the yard-arm of His Majesty's shipwhen he had no ship in the theater. In time I became his stage manager. On one occasion 'Othello' was to be given, but when night came I learned that the leading man who was to personate Othello had gone out to dine with a party of gentlemen at a suburban hotel, and could not possibly be back in time to commence the play. Rice was a stickler for giving his audience the play the bill announced, and as I had heard him say he had acted everything in Buffalo, I went to his room where he was dressing for the Duke, and without letting him know the situation I said: 'Mr. Rice, did you ever act Othello?' He looked up with a pride which can only be appreciated by a professional when able to say that he has acted an important Shaksperean character, and replied: 'Yes, in Skaneateles.' 'Well,' said I, 'now you shall have a chance in Chicago,' and then I told him how matters stood. He expostulated-would rather dismiss the audience-but he had made me his manager and I would be obeyed. Othello was announced and the audience must not be disappointed while it was in my power to give the play. He desired me to apologize to the audience, but I argued that would only attract attention to his weak points, and the audience would discover them soon enough. I did not believe in advance apologies. He dressed for Othello; I, in addition to Roderigo, with the aid of wigs and robes, assumed the characters of the Duke and Desdemona's uncle, and the play went on, Rice acting Othello and swearing at the leading man. He knew most of the lines and, like a well-trained actor, had the faculty of omitting that which he did not know in a pleasing manner. He labored through three acts, when the absent Othello appeared upon the scene. I told him to prepare to finish the play, and I notified Rice that I had no further use for his services that night, as Mr. McFarland would finish the part. He was thankful and resigned, and so the audience had two Othellos, one for the first three acts weighing about two hundred and forty pounds, and for the last acts one weighing about one hundred and fifty pounds. A short time since my

attention was called to this incident by an old playgoer, who had just witnessed Salvini as Othello, saying: 'Mack, Salvini is good, but no Othello has ever satisfied me since I saw Rice and McFarland in the part. That was a realistic Othello-a fine, noble looking one in the first part of the play, and a thin, cadaverous one at the end, making it appear as if the Moor had lost flesh when his domestic troubles began. Salvini cannot reach that point of excellence.' Chicago has grown so rapidly that the primitive and mature days of the drama 'tread upon each other's heels,' and I am frequently asked by the old play-goers, who now feel like retiring before the play is over, if we have as much fun at the theaters now as in the 'good old times?' We do, but of a different kind. Much of the mirth in new places is of a personal character, a familiarity between actor and audience, which disappears with age and large populations. Early impressions cling to us; the flavor of a peach is better during the first decade of our existence than when we are three-score. The peach is as good, perhaps better, but we have lost our taste, and frequently blame it on the fruit. So, with many, the good old days of the drama are those of youth and familiarity, and can be found now by those who emigrate to Dakota, Leadville, or New Mexico; but those who remain at home will, upon observation, find that in all its appurtenances and comforts, in all its illusions and effects, in all that makes the theater attractive, the stage of to-day exceeds its forerunner in brilliancy as much as the electric light outshines the tallow dip.

The new house was opened to the public February 3, 1851. The curtain rose upon the assembled company, who sang the Star Spangled Banner, after which Mrs. Rice delivered an address prepared for the occasion, but of which no copy is extant. The bill contained three plays: "Love in Humble Life," "Captain of the

Watch," and "The Dumb Belle."

Mrs. Rice, it will be noticed, for a time resumed her place upon the stage, this year, as leading lady.

Mrs. Louisa Mossop, who had for several months been starring, was married to Mr. John F. Drew, at

Albany, N. Y., January 26, 1851.

After the death of Dan Marble, Mr. McVicker conceived the idea of purchasing from his widow the plays and costumes of the "great Yankee comedian," and during the winter of 1851 carried it into effect. In this move he was heartily seconded by Mr. Rice, who kindly set apart a week which was wholly devoted to the production of the plays, in which Mr. McVicker assumed the Yankee characters. Meeting with a success which was as flattering as, perhaps, well deserved, in the rendition of the new comedy parts he had assumed, Mr. McVicker resolved to retire from the stock company and venture before Eastern audiences as a star. His popularity in the West was acknowledged, and the Press of this city bestowed upon him the warmest praise. The last months of his stay in Chicago were devoted to hard study and careful preparation. He appeared nightly in a round of comedy parts that would astonish modern actors, but attained so marked a degree of success in them that adverse criticism was almost unknown. The undertaking proved a wise one, for Mr. McVicker soon became a favorite in Eastern cities. The New York Mirror, in August, 1851, remarked: "Mr. J. H. Mc-Vicker, formerly of the Chicago Theater, who has been playing an engagement at the National, in this city, has made himself highly popular at this house, and very deservedly so. He is a man of talent, and will become the best representative of Yankee characters on the

stage, if we are not much mistaken." Mr. McVicker continued as a Vankee star in this country until 1855, when he went to Europe, playing twelve weeks in London. He then returned home and assumed the management of the "People's Theater" in St. Louis, which position he continued to hold until, in 1857, he returned to Chicago to build his first theater.

In March of 1851 the old and vexing question of high license came up again. It was now fixed at \$25 per month. As it was no inconsiderable tax upon Mr. Rice's resources, he presented a petition to the City Council asking a reduction of only \$5 per month from the sum he was then paying. The prayer of the petitioner was not granted; whereupon the Daily Journal took occasion to inquire of the Common Council whether or not it wouldn't be well to confiscate Mr. Rice's property at once and be done with it.

Among the leading plays which in that month held the boards, were "The Drunkard," played March 26, on the occasion of a benefit being tendered to Mrs. Mc-Vicker, "The Jewess," on the 27th, "Carpenter of Rouen" and "Beacon of Death," "Lady of the Lake,"

"Macbeth" and others.

March 6, 1852, F. S. Buxton, a prominent man at Rice's was given a benefit, at which "The Cricket on the Hearth," and a farcical afterpiece satirizing the woman's rights question were played, Mrs. Coleman Pope taking the leading female characters. Mrs. Pope's benefit, March 29, was the occasion of that lady's appearance as Nina Sforza, in a tragedy of that name, and as Mrs. Lyonel Lynx, in "Married Life." The ability of an actress in those days was tested in so crucial a manner.

Susan and Kate Denin were complimented by a benefit, under the especial patronage of Mayor Gurnee and one hundred citizens, April 24, after a successful

engagement at Rice's.

The theater was given up to vaudeville entertainments for a time in May. On the 17th of that month Mrs. Warner, the tragedienne, began a round of legitimate dramas—"Winter's Tale," Macbeth." "The Hunchback," "Ingomar," and "The Stranger." The supporting company included Mrs. J. B. Rice, Mrs. Coleman Pope, Mrs. Frary, Mrs. Marble, Mrs. Farron, Mr. Buxton, Mr. Hann, Mr. Warwick, and Mr. Samuel Myers.

Miss Julia Dean, supported by H. A. Perry and Mr. Dean, her father, opened a season May 31. The same evening Mr. and Mrs. McMillan, comedians, made their first appearance in Chicago. Mr. and Mrs. Dan-

forth were engaged at that time as dancers.

The Democrat of June 14, 1852, paid the following tribute to Mr. Hann, on the occasion of his benefit and last appearance, at that date: "Mr. Hann has now been for two years Mr. Rice's leading stock actor, and during that time has won his way to a popularity and sterling reputation which is seldom the lot of a stock actor to enjoy. He is preferred by many to most of the stars who visit us."

Mr. Hanley succeeded Mr. Hann in the company. The sensational drama is not a modern incubus upon art. As early as July 7, 1852, a play called "The Cattle Stealers," introducing trained dogs and partially trained actors, was given at Rice's. Various changes were rung on this combination plan, and the impersonation of an ape was successfully achieved by one of this company, which was managed by Messrs. Cony &

Benjamin DeBar began a star engagement here July

22, supported by M'lle. Valle. Among their plays were: "The Disowned," "Esmeralda," "Peter Wilkins," and

"The Bronze Horse."

Joseph Parker, the comedian, was at this house in July, and Mrs. Julia Bennett, the genteel comedienne, played a star engagement during August. Mr. Couldock was also billed for a short season, in Shaksperean tragedy.

J. H. McVicker returned to Chicago, as a star, August 31, 1852, in "The People's Candidate," with "a first-rate political stump speech and patriotic song," supported by Mrs. McVicker, Mrs. Rice, and the full company. The Democrat of September 8, said:

"Mr. McVicker's engagement has proved very successful, and he may now be considered one of the most attractive stars we have. The theater has been crowded. But while we admit 'Mac' to be a host in himself, we must say that he has received no little aid from the appearance of his wife. Although she is not starred in the bills, she has hosts of admirers. Her voice is not powerful, but there is a sweetness of tone that entrances the hearers, while the depth of feeling she transmits to language leads them to believe they are gazing at reality."

The number of stars then traveling was very small. Miss Dean made her appearance here as often as three or four times a year. Mr. Neaffie, the tragedian, appeared October 21, 1852, and J. B. Roberts November 8. "The Corsican Brothers" was a popular success with both of these actors, and their repertory included "Ham-

let," "Macbeth," and leading tragedies.

A benefit was given, November 22, 1852, the fire company, at which Mr. Kerrigan made his debut, and "acquitted himself creditably." Over \$200 was realized.

Among the favorite members of the stock company during the fall of 1852, were J. G. Hanley, H. T. Stone

and Mr. and Mrs. Ryner.

December 13, 1852, was presented "a new play called 'Uncle Tom's Cabin,' dramatized by Mrs. Anna Marble." The cast was as follows: George Harris, Mr. Hanley; Uncle Tom, Mr. McMillan; Shelby, Mr. Myers; Haley, Mr. Rice; Sambo, Mr. Stone; Wilson, Mr. Wright; Cassie, Mrs. Ryner; Emeline, Mrs. Putnam; Eliza, Mrs. Hanley; Mrs. Shelby, Mrs. Marble; Legree, Mr. Ryner. Topsy and Marks were not given, nor were the bloodhounds and donkey thought of. The play made a decided hit, running about three weeks, which was an unprecedented time in those days of rapid changes.

In 1852 the first German theater was erected in Chicago on West Randolph Street near Canal. Its exstence, however, was so brief that it scarcely figures at all in the development of the drama here, as it burned

early in the following year.

The season of 1853 opened at Rice's, February 28; the programme for the first night, was first the comedy, "Married Life," followed by "The Jacobite," the whole concluding with a mask ball. In this entertainment Mr. McVicker appeared in three different characters. The roster of the leading attractions for the year were March 5, "Paul Pry," Mr. McVicker in the leading role, "Ingomar, the Barbarian," with H. A. Perry as Ingomar; 7th, "Sweethearts and Wives," with Mr. McVicker as Billy Lackaday, the afterpiece was "Family Ties, or the Will of Uncle Josh;" 8th, "The Wife" and "The Toodles;" oth, "Much Ado about Nothing" and the "Peoples' Candidate;" 12th a new play first presentation in this city, "Writing on the Wall;" the leading characters were: Box Smithers, H. A. Perry;

Fergusson Trotter, Mr. McVicker; Margaret Elton, Mrs. Ryan; Lotty Smithers, Mrs. Rice. P. T. Barnum's museum and menagerie was here July 25. The leading features of Mr. Barnum's show at that time were a lot of wax statuary, the renowned Tom Thumb, and a man born without arms in the museum department, while the menagerie was made up of a small collection of animals, among which was a cage of performing lions, under the control of Pierce, the lion tamer. At the same date, Miss Julia Bennett began an engagement at Rice's, lasting until August 1, closing with a benefit performance for herself. July 23 a complimentary benefit was tendered Mrs. Rice; the "Heir at Law" being the piece presented on this occasion, closing with the amusing farce "Box and Cox." August 16, Julia Dean appeared in the "Hunchback," playing a week's engagement. September 10, Mr. and Mrs. W. J. Florence in the drama "Ireland as it Is" and "The Limerick Boy," and on the 26th of the month Miss "Charlotte Loyette" made her first appearance in this city at Rice's. On the 15th J. M. Mitchell, a young actor from Southern's Theater, New York, made his first bow to a Chicago audience, as Cecil Claud, the young fisherman in a new play, the "Smugglers of Northumberland;" the 28th a benefit was tendered to Mrs. Marble, at which her daughter, Miss Mary Marble, made her first appearance on any stage as Madelaine in "The Child of the Regiment." At the same performance Mr. and Mrs. Florence also appeared in a comedy, "Irish Assurance." Of the acting of Miss Marble the daily Journal said:

"The debut of this young lady was most creditable. On her first appearance she was greeted by the spontaneous cheers of the andience, and as the play proceeded she was loudly applauded. The two songs, which were given with great sweetness and beauty, were encored, and at the conclusion of the piece Miss Marble was called before the curtain, when Mr. Rice tendered his thanks for the warm welcome which had been given her, on her entrance into a profession of which she had now become a permanent member.

"Taken altogether, the first appearance of this young lady—yet scarce fifteen—affords abundant promise of a bright future, and with proper study and application, claims to no second place in the profession, may be ex-

pected for her."

October 1 was the occasion of a farewell benefittendered the Florences, and on the 3d is noted the return of Mr. and Mrs. McVicker in their play "Home of the West," concluding with the farce "Hue and Cry." On the 12th Mr. Neaffic began an engagement, playing "Macbeth," until the 25th. The month closed with an entertainment given by the Italian Opera Company. November 8 Mr. Couldock began a week's engagement, opening with "Willow Copse," and playing successively, "Hamlet," "Othello," "Richelieu" and "Betrothal." December 10 it was announced through the Press that the play of "Uncle Tom's Cabin," having been

December 10 it was announced through the Fress that the play of "Uncle Tom's Cabin," having been through a six weeks' course of preparation, would shortly be presented with new and realistic scenic effects, to contain also a panorama of the Mississippi, painted by the scenic artist R. D. Smith. The 12th, Christie's Nightingale Serenaders appeared at North Market Hall, and on the 28th a performance was given at Rice's for the benefit of Engine Company No. 1. The programme on this occasion was the rendition of a new drama, the "King and the Freebooter," after which was presented the comedy "Lend me Five Shillings," concluding with the farce, "Hidden Thoughts or Fashionable Society."

January 4 and 5, 1854, Campbell's Minstrels were

at Tremont Hall. This company was a popular one, and at that time had among its members such well-known talent as Luke West, Matt Peel, Joe Murphy, and others of scarcely less notoriety in the profession; the 12th Miss A. D. Hart closed an engagement at Rice's in which she had appeared as Clari in the "Maid of Milan," also in a new play "The Farmer's Daughter," in which she took the leading character. In February, little Cordelia Howard, the talented child actress, left this city to fulfill an engagement in Philadelphia. The Florences were also here in that month, closing their engagement on the 25th, with a benefit performance. Early in March came Maggie Mitchell who, as the critics then said, "united a very charming person with spirited and graceful acting." On the 3d of the month, the occasion of her last appearance here, she was presented by her friends with a handsome gold watch. April 8, the Marsh Troupe began, at Tremont Hall, the presentation of a new dramatization of "Uncle Tom's Cabin," by George L. Aiken. The play as then given contained six acts, nine tableaux and thirty-three scenes. The cast was as follows:

Infant Woman Geureneau Eva
Little Mary MarshLittle Harry
Master A. MarshAunt Ophelia
Mrs. Marsh
Mr. Marsh, Uncle Tom
Mr. G. C. Germon
Mr. Le Moyne
Mr. DouglassLagree
Mr. Lennox
Mrs. Lennox
Mrs. G. C. Germon

The company was a good one, and on the opening night Tremont Hall was packed with a delighted audience; but the following day trouble arose between the manager of the company and Mr. Couch, the proprietor of the hall, which resulted in an abrupt termination of the company's engagement.

May 11 Butler's Circus opened for a short season on Lake Street, between Wabash Avenue and State Street. June 12, 13 and 14, the circus and menagerie of E. T. & J. Mabie, exhibited at the corner of State and Polk streets; and on the 23d and 24th of the month Dan Stone's Railroad Circus and Hippodrome also spread its canvas within the "city's gates."

June 21, Miss Kimberly appeared at Rice's in "Hamlet." This lady was a talented actress, and met with a hearty reception in her delineation of this and other parts, at the hands of her Chicago audiences. The Democratic Press said: "Her personation of 'Hamlet' was stamped with the spirit of genius." On the 26th, at the request of Mayor Wilkinson and many other prominent citizens, she repeated her performance in this play on the Friday (June 30) following. On the 27th, Mrs. Hayne appeared in the "Priestess." July 2, Maggie Mitchell began a two-weeks engagement at Rice's, her second appearance in this city. The 21st, Sir William Don, an eminent comedian, held the boards a short season, playing to crowded and delighted audiences. The Press said: "Sir William Don possesses an inexhaustible fund of comic humor, which, after the manner of Leicester, Buckstone, Burton and Placide, cannot fail to betray the most obstinate stoic into a hearty laugh. We know not when we have enjoyed so unrestrained and refreshing a bravo! bravo! as we had on Tuesday night, on seeing him perform in the play of a 'Rough Diamond.' On the 23d, a complimentary benefit was given to Mrs. John B. Rice, at which the following persons appeared: Sir William Don, Mr. Warren, Mrs. Rice's brother, and

Miss Thomain of the Boston Museum; the principal pieces, from which selections were presented were "The Heir at Law" and "Rough Diamond." At that time Miss Eliza Logan was in the second week of a successful engagement, playing in Sheridan's comedy, "School for Scandal." Concerning this lady the Daily Press said: "In passages betraying the strong passions of scorn, hate and revenge, she is very effective in voice, expression and gesture; but in the exhibition of the more tender emotions she does not do so well."

August 13, John Brougham, the eminent English comedian, began an engagement at Rice's, playing in

the standard English comedies of the day.

September 5, a notice appeared in the Democratic Press, that Phelps's Burlesque Ethiopian Opera House (Warner's Hall, 104 Randolph Street, would be opened on the 8th of the month for the production of minstrel concerts, under the direction of Daniel D. Emmett; L. Phelps, proprietor. The 10th, Mr. and Mrs. W. J. Florence began a season of two weeks at Rice's, playing to large and appreciative audiences.

October 9, just before the rise of the curtain, the manager announced from the stage the death of Mr. Artemus, one of the company, in consequence of which no performance could be given. The 15th, Miss Caroline Richings and her father were at Rice's. L. G. Butler's North American Circus opened Novebmer 29 for a short season, on the grounds corner of Lake

Street and Wabash Avenue.

In the Democratic Press of January 20, 1855, is found the following notice which, without comment, explains itself: "Little Cordelia Howard has reached Chicago, and commences an engagement on the 22d at the theater. She played Eva, in "Uncle Tom" for one-hundred nights in New York, and has also won laurels as Little Katy in "Hot Corn," and the Strawberry Girl in "Fashion and Famine."

February 19 the Sable Melodists, in connection with the panorama "A Voyage to Europe," began a week's

engagement at North Market Hall.

Early in March the Florences played another engagement at Rice's, their last appearance in this country before their departure to Europe, so said the bills. The latter part of the month brought the Richings again, father and daughter, playing "Clari, the Maid of Milan," and "Court Favors."

The first circus of the season, Spalding & Rogers's Combined Attractions, made its appearance April 11, showing four days at corner of Clark and Adams streets. Under date of May 3, the Press had the following notice: "Metropolitan Hall has been taken by some enterprising individual, who is constructing a stage at the north end. Under the name of Metropolitan Atheneum, it will be opened May 7, by Mrs. Macready, in dramatic readings."

The music was furnished by an orchestra, engaged from New York, for this new place of amusement.

On that same date, Mr. Anderson, the tragedian, began an engagement at Rice's theater. May ro Mr. Samuel Myers of Rice's theater was married in this city to Miss Mary Marble, who it will be remembered, was the daughter of Dan Marble, the eminent comedian. The nuptial knot was tied by Rev. Mr. Hibbard, a Chicago clergyman. On the 18th Mr. Collins, the celebrated Irish comedian and vocalist, was at the Atheneum, and on the following evening Mr. Anderson closed his engagement at Rice's. The 26th Cordelia Howard the comedienne, began an engagement at the theater, and on the same date Bachus's Minstrels were billed at the Atheneum.

June 1, the Great Western Railroad Circus put in an appearance, showing four days; on the same date, Mrs. Julia Dean Hayne was announced in an engagement at the theater; the 13th a poem from the pen of Ben. F. Taylor, of the Journal, was spoken, by Mr. McFarland, as an address of welcome to an excursion party, the guests at the city-from Burlington and Quincy; the play on this occasion was the "Lady of Lyons," Mrs. Julia Dean Hayne, appearing in the part of Pauline. On the 21st Sands, Nathan & Co's American Circus, exhibited on the grounds usually allotted to tent shows, corner of Lake Street and Wabash Avenue.

July 3 and 4, came VanAmburgh's Menagerie and Dan Stone's Circus, combined with Tyler's Indian Exhibition, followed on the 30th of the month by the Great Western. July 31, Mr. Frank Conway and wife began a short season at the theater, in a range of Shakes-

perean characters.

An hiatus, now occurs, until in October, when the records again show what was occurring in the amusement world. The 26th of the month, Miss Richings the comedienne and vocalist was at Rice's, being succeeded on the 29th by Miss E. L. Davenport and Miss

Fanny Vining,

November 10, the papers announced that North's National Ampihtheater was nearly finished. This building, which was situated on Monroe Street between Clark and South Wells (now Fifth Avenue), was a wooden structure, two stories in height, ninety feet front by two hundred and six feet in depth, and was built by Levi J. North and Harry Turner. The main entrance was eighteen feet wide, besides which were two stairways, each eight feet wide, leading to the boxes in the gallery. Its seating capacity was three thousand and sixty-two persons; it had a performing ring forty-two feet in diameter, and the building was lighted by onehundred and twenty gas jets. In the rear were the accommodations for the company, also stabling quarters for an entire stud of horses. The amphitheater was opened on the 19th of the month, when it became for its class, a popular place of amusement.

December 5, a performance for the benefit of Mr. Myers was given at the theater; performances were given during the month by the Slvik Company; Christmas night a benefit was given to John McNally the doorkeeper of the theater, which position he had held for five years. The bill for the evening was "The

Game of Love," and "Ladies Beware."

January 22, 1856, as pectacular piece "Cinderella,". with forty children in fairy or gala dresses, and a droll afterpiece, "The Cavalry," was announced at North's Amphitheater, to run until further notice.

February 7, Neaffie appeared at Rice's in the "Corsican Brothers." The Ethiopean Opera House, under the management of Dan Emmett, Frank Lumbard, musical director, was also giving nightly entertainments, in burlesque opera and negro minstrelsy; the 13th, Mr. Neaffie was playing at Rice's in "Jack Cade;" on the 18th Couldock began an engagement in "Richelieu;" the Florences were here on the 25th.

March 17 is noted the engagement of the Misses

Denin at the theater.

April 4, at the Atheneum a complimentary benefit was given to Mr. and Mrs. D. L. Scott; on the 7th, Miss Eliza Logan, the tragedienne, began an engagement at Rice's; she was a popular and pleasing actress and a favorite with Chicago people.

A German theater was opened on the 19th, in a new building, at the corner of Wells and Indiana Streets; several stars, among the number Mme. Kenkel and

M'île Dremmel, and a strong stock company werc engaged; the piece for the opening night was one of Schiller's dramas, "Love and Intrigue;" it was well presented, so said the critics, producing a decided sensation and at once establishing the claims of the company to public favor; beginning on the 28th, and continuing the week following, were Campbell's Minstrels, numbering fourteen performers, at Metropolitan Hall.

May 5, Christy's Minstrels were billed at the Amphitheater, and the following day Merhling & Co.'s Circus exhibited on Lake Street, opposite the American House. This was followed by Sands, Nathan & Co.'s Circus, exhibiting at corner of Lake Street and Wabash Avenue, May 26, 27 and 28. June 11 and 12 came still another, this time Raymond & Van Amburgh's Circus and Menagerie; on account of the immense size of the tent, which was three hundred feet long by one hundred feet in width, the show was compelled to make its stand at the corner of State and Harrison streets, where more ground could be obtained. The Hutchison family were at Metropolitan Hall on the 30th, and the week following, while at the same time Maggie Mitchell was playing to crowded houses at Rice's theater. July 2, three circus shows were in the city; one, Herr Driesback & Co., on Clark between Polk and Harrison, the other Butler's Great Western, on Lake Street, near the City Hotel, and the third the United States Circus of Older & Co., at Lake Street and Wabash Avenue. The same day Colonel Wood opened a museum, containing eight living wonders, at 101 Lake Street. The 19th, 20th, and 21st brought June's French Circus; the 24th, Mr. Pfeiffer, a German actor of note in his own country, made his first appearance in this city, in a play presenting a period in the life of Schiller, the poet.

The Democratic Press of the 28th had the follow-

"NEW THEATER.—The demand of the amusementseekers, for a more commodious theater than the one built for the Chicago of five years ago-quite a different place from the Chicago of to-day-is about to be satisfied. North's Theater has been leased and remodeled, and will be opened August 4, by the lessee, Charles Thorne.

The company comprised Mr. and Mrs. Thorne, Charles Thorne, Jr., Mr. McClosky, and L. G. Mestayer; Miss Emily Thorne, Miss Cogswell, Miss Hanson and Miss Julia Smith, from the New York and Philadelphia theaters; also D. H. Howard, from Laura Keene's New York Theater, and C. Wilson, formerly of Rice's Theater. The piece for the opening night was the well known comedy, "The Honeymoon" with the following cast:

Duke	., Mr. Charles Thorne
Rolando	Mr. Mestayer
Jacques	Mr. Johnson
Count	
Balthazie	
Lopez	Mr. I. Crouta
Campillo	Mr. C. Wilson
Juliana	
Volante	Miss Emily Thorne
Lamoria	
zamora	

After the comedy, was given a grand National Jubilee performance, commencing with the singing of the "Marseillaise," by Miss Thorne with a full chorus. The "Star Spangled Banner," by Mestayer, St. Maui, and Miss Thorne, with the latter attired as the Goddess of Liberty, concluding with "Hail Columbia" by the whole company. The evening's performance concluded with the comedy of "Simpson & Co."

But the adage of "There's many a slip 'twixt the cup and the lip," proved but too true in the case of the opening performance of the new theater. On the evening in question, fully one thousand people assembled in front of the theater, either expecting to attend the performance, or to learn why the doors were not opened. They found, however, a card posted by Mr. Thorne which read as follows:

" To the Citizens of Chicago and the Public in General;

This is to inform the public why I do not open the Amphitheater on Monroe Street as I intended and advertised-and I now make an appeal to the people. I leased the building of Mr. Harvey, the agent of North, up to October I, certain, with a notice on either side, to quit after that date. I have gone ahead in good faith. I have fitted the house in good and costly style, at an outlay of \$2,500, and now, when everything was finished, between twelve o'clock at night and five in the morning, men under the direction of Mr. Harvey, agent of L. J. North & Co., proceeded to take possession of all my effects. I am a stranger in this city, but an American. I am aware that I have recourse to law, but I have a company of twenty-five persons on my hands, and you, fellow-citizens, all know the law's delays. I throw myself for sympathy and protection on the citizens of Chicago.

"C. R. THORNE"

To this card Mr. Harvey replied with another, reading as follows:

"The statement of Mr. Thorne is untrue in every material assertion. C. R. Thorne never had a lease of North's National Amphitheater, he never had legal possession of the building, and neither I nor any one by my direction has taken possession of any neither I nor any one by my uncertain the feets or private property of C. R. Thorne.
"Andrew Harvey."

Whether all this war of words was only a shrewd advertising dodge on the part of Mr. Thorne, aided and abetted by Mr. Harvey, or whether bona fide legal difficulties had arisen, does not clearly appear. At any rate, whatever was the difficulty, everything was satisfactorily adjusted, and on August 12 the new theater was opened with great *eclat*, the programme already given being produced in full. On the 28th a benefit performance was given to Mr. Mestayer, at which Miss Kate Denin appeared in the play of "The Wife." The following day the Daily Press, speaking of the National, as this theater was now called, said: "The National is having an auspicious season thus far, which demonstrates that Chicago has become too large to be satisfied with one small theater and an illiberal management. Miss Kate Denin plays again to-night as Julia in the 'Hunchback,' and will, no doubt, be greeted with as large an audience as on last evening. The performance will conclude with the 'Irish Emigrant.'"

August 21, General Tom Thumb began a week's

engagement at South Market Hall.

September I the bill at the National for the week following was "Love and Murder," "The Soldier's Daughter," and "The Irish Suitor." The 12th was the occasion of a benefit performance tendered to Miss Thorne; the bill was first, "Asmodeus or Little Devil's Share," followed with the comedy, "My Sister Kate,"

and concluding with "A Capital Match."

The 17th, Buckley & Co's National Circus exhibited at the corner of Clark and Adams streets. During that week Campbell's Minstrels were playing at Metropolitan Hall; Billy Newcomb was at that time a member of the company. On the 19th Dan Emmett, the proprietor of the variety show bearing his name, and located at 104 Randolph Street, announced for sale the lease, fixtures, scenery, etc., of his establishment. His reasons for offering his property for sale are quaintly put in his own words thus: "I have entered into an agreement to quit the profession, whereby I can realize more than if I were to remain in the minstrel profession all my life, with all the success I could desire." It is

scarcely necessary to add that Mr. Emmett did not at that time retire from minstrelsy, as in later years he achieved the reputation which placed him at the very head of the profession. On the 21st John E. Owens made his first appearance in this city at the National; and on the 29th Mr. Collins, the Irish comedian and vocalist, commenced an engagement at the same theater, playing in the comedy, "The Nervous Man and the Man of Nerve,'

October 1, Spaulding & Rogers's North American Circus was first on the list of attractions; on the 5th "Hamlet" was on at Rice's, with Mr. Ledley in the leading part, and Mr. McVicker as the Grave-digger. On the 7th Mr. Thorne's company played the last performance at the National under his management; the next night they appeared at Metropolitan Hall playing "The Irish Ambassador." The reasons for the change above mentioned are apparent from the following notice taken

from the Daily Press of October 18:

"Within the last few weeks, North's Amphitheatre has been enlarged, two tiers of seats have been added looking toward the ring and stage, also a dress circle and gallery capable together of seating three thousand persons, have replaced the old arrangements. The ring for equestrian performances is the same size as before. Behind it the building is to be finished into a spacious stage, green room, property room and all the adjuncts of a first-class theater. It is Mr. North's intention to combine the attractions of the circle with those of the stage. The performance will generally commence with feats of the ring, and close with plays on the stage."

On the 28th of the month Miss Emma Stanley, in her celebrated "Lyric Drawing-room Entertainments, was billed at Metropolitan Hall, and at the same time Miss Logan was playing to good houses at Rice's Theater. November 16 Yankee Robinson opened what he called his Atheneum, at the German Theater on Kinzie The same date also marks the opening of Street. North's New Amphitheatre. On the 29th at Rice's was announced the engagement of Chanfrau in "In and Out of Place:" December 1, at Kinzie Hall was the the English Gymnastic and Pantomime Troop. During this month the performances at North's Amphitheatre were of the most popular character, drawing crowded audiences night after night. The 2d, Chanfrau was again at the Chicago Theater playing in the "Widow's Victim or the Stage Struck Baker;" on the 9th he was followed by Miss Kate Denin in the "Lady of Lyons," Miss Denin appearing as Claude Melnotte, and Miss Woodbury as Pauline. For the remainder of the year the leading attractions at this theater were, on the 12th, "Bride of Lammermoor" and the "Gypsy Farmer;" 15th, "Ernest Maltravers, or a Father's Curse;" 17th, the "Idiot Witness, or the Murder of the Heath;" 18th, "A Grandmother's Pet; " 19th, "A Momentous Question, or a Woman's Faith;" an afterpiece on this occasion was a three act drama by Major Richarson entitled, "The Massacre of Fort Dearborn." On the 23d appeared Mr. and Mrs. Locke, in "True Love Never Runs " Smooth; " 24th, the same company in " Hermit of the Rocks.

William McFarland was manager of Rice's Theater in 1856.

Public sentiment was no less divided in those days than in the earlier moments of the drama here. A strong feeling of opposition was encountered by managers, who were obliged to contend against the disadvantage of limited numbers in point of attendance. As an indication of this phase of antagonism, we quote from the Congregational Herald of October 2, 1856, which editorially said, as counsel to the parents of those who were

attracted to the growing city of Chicago:

"We advise your sons who come to reside in the city not to attend the theater. Should they tell you that they must attend a few times in order to know what it is, we think it will not be difficult to show them that they have no need to attend for this reason. \* \* \* No judicious parent would recommend his son to visit a liquor saloon a few times, and participate in its carousals, in order to know what it is. He surely would not advise him to try his hand at the gambling table, till he had for himself experienced the effect of winning and losing, of cheating and lying. Nor could such a father advise his son even once to enter a den of ill-fame, that he might know from observation and experience what it is; and the same reasons which would dispense with an experimental knowledge in these cases would also excuse him from attending the theater even once. Not that the theater is, of necessity, so low a place as these others, and yet the same reasoning holds equally pertinent and conclusive. There is no reason that one should visit, in order to know, while the influence of the first visit might be such as would never be shaken off. The first visit would, in most cases, lead to a second, and the second might introduce the series with all its train of cause and consequence. \* \* If, as many parents do, you have taught them [the sons] that it is always best they should touch and taste and see for themselves, even though the touch should be defiling, the taste poisonous and the sight polluting, they will doubtless on their taking up their residence in the city, feel at liberty to 'go the rounds;' and if they do so, when they have been once, they will be still more in-clined to repeat the circuit. This is the law, and if your sons do not follow it, they will come under the exceptions and not the rule. We, therefore, cordially invite them not to go the first time. Visits to such places are a poor investment of time, and, in the most favorable issue, bring no gain, but are often attended with incalculable loss. If entire bankruptcy of character and entire ruin of soul for time and eternity do not ensue in the case of your son, his will be one of the favored cases. \* \* We need men who, from principle, will be more diligent in business than others; and yet who, in their diligence, will not bow down to the God of this world. \* \* We need more than Christian statesmen. \* \* We need more who can stand at the very head of their departments in business, and at the same time be the support of all good institutions. \* But the foundations of such a character can never be laid in the theater.'

C. W. Couldock, supported by Miss Woodbury and Mrs. Pennoyer, opened the year 1857 at Rice's, as Luke Fielding in the "Willow Copse." His repertory included "Richelieu," "Othello," "The Iron Chest," "Lear," and "School of Reform;" but in the character of Luke Fielding the most popular success was attained. This play was originally played by Madame Celeste; but when she saw Mr. Couldock in the leading role, she at once sent the manuscript to him as a token of her profound appreciation of his acting, and never afterward appeared in it.

The company, regularly employed in 1857, contained Mr. and Mrs. McFarland, Mrs. Marble, Mrs. Altemus, Mrs. Pennoyer, Mrs. Linden, Miss Woodbury, Mr. Wright and Mr. Myers. The house was leased February 23 by Perry Marshall, and managed by J. G.

The stars who held dates during the year, were J. W. Wallack, Jr., January 26; Mr. and Mrs. Florence,

February 10; Maggie Mitchell, for three weeks from February 23, with a constant change of bill, which did not include "Fanchon," as this was several years prior to her success in that character; Mrs. Farrem, March 16; Miss Irving, March 18; J. H. Hackett, March 30, in Rip Van Winkle, Falstaff and farces; Mr. Neafie, in tragedy, April 14; J. S. Wright, in comedy, with "Yankee" Robinson in his company; Lola Montez, who failed as an actress, April 28, in the play "Lola Montez in Bavaria," "Follies of a Night" and "Rosalie Boget;" Ione Davenport, May 18; Couldock, as Louis XI, June 8; the Raval family and Blondin, July 1; Mr. and Mrs. Conway, August 3; F. S. Chanfrau, August 31; John Brougham, as Micawber, October 19; Mr. and Mrs. J. W. Wallack, October 26.

Rice's theater then changed hands, William McFarland becoming its lessee and manager, and U. P. Harris treasurer. The season of 1857-58 opened in November, 1857, with "The Corsican Brothers." Frank Lumbard sang the Star Spangled Banner, a song so popular with the actors and audiences that, from the night Mr. Hardinge first sang it at the Baltimore Theater, October 19, 1819, no theater could be opened, apparently, without

the introduction of the stirring melody.

The election of McVicker's Theater in 1857 (for history of which see second volume of this work) and the opening of Metropolitan and Bryan halls, attracted the more popular companies from this house. It gradually lost its hold on public favor, and in 1861 was converted into a business block.

The first regular bill-poster in the city, of whom mention is made, was S. C. A. Lattridge, who was in

business in 1852.

### MUSIC.

The history of music, in a high professional sense, begins at a comparatively recent date, subsequent to the period treated of in this volume, although in an amateur way it is coeval with the settlement of the city. Take from Mark Beaubien his famous fiddle and you deprive his memory of one of the most conspicuous adjuncts of

his primitive life.

On the authority of statements made by Gurdon S. Hubbard and Hon. John Wentworth, it is recorded that the first piano brought to Chicago was the property of John B. Beaubien, probably in 1834. Soon after that date Mrs. J. B. F. Russell, Mrs. J. H. Kinzie and Samuel Brooks brought pianos here; to which number, as time rolled on, others were added by those who, besides their love for music, possessed the means to enable them to become the owners of instruments so costly as were pianos in those times. Undoubtedly the first musical organization in this city was the Chicago Harmonic Society, although the exact date of this institution cannot be ascertained. It was, however, as early as December, 1835; for on the 11th of that month it gave its first concert at the Presbyterian church, the proceeds going to the benefit of the association. As this was also without question the first public concert given in Chicago, the programme on that occasion is not without interest. It was as follows:

 PART SECOND.

Soldier tired-Celebrated movement in Artaxerxes, The Muleteers-Duet.

La Flora Mozart.

Canadian Boat song—Glee for three voices.

"Away with Melancholy," variations—Violin Obligato... Lewis.

Deep Blue Sea—Glee for three voices.

Dead March in the Oratorio of Saul.

Schoolmaster-Glee for three voices-Basso Obligato-Violoncello Acompaniment.

To commence at half past six.

How long this society flourished it has also been impossible to ascertain, but its life was probably of short duration. In January, 1836, the records show that it gave its second concert at the Presbyterian church; after this it is not mentioned.

With the coming of Isherwood & McKenzie, the theatrical managers in 1837 singing became more popular; for between the plays, of which there were usually three given each night, ballet dancing and vocalization relieved the tediousness of "the waits." Among the most popular singers of those days was Joseph Jefferson, Jr., then a lad of about ten years. With the removal of the theater to the Rialto, on Dearborn Street, began not only the foundation of the drama in Chicago, but also of the musical art. The year 1839 was the most remarkable of any, from the settlement of Chicago to 1847, in point of dramatic representation; and music necessarily received from the prosperity of this kindred

art a consequential benefit.

Among the very early notable managers who visited Chicago with a musical company was P. T. Barnum, who brought Master Diamond, a negro delineator, thirteen years of age, "Yankee" Jenkins, a tenor singer, Signor Marriotte and Falocinni. Three concerts were given at the Saloon, November 25, 26, and 27, 1840. John A. Still entertained the public at the Saloon, August 17, 1841, and during the dramatic engagement of Miss Porter and Mrs. Duff, at the theater, in March, 1842, music formed a special feature of the performances. The Chicago Sacred Music Society was instituted February 13, 1842. The officers were: B. W. Raymond, president; Benjamin Smith, secretary; T. B. Carter, treasurer; Seth P. Warren, C. A. Collier, directors; W. H. Brown, E. Smith, executive committee. During the summer of 1842 Mrs. Powell played an engagement at the theater, and, although a tragedienne of no mean ability, that lady won the favor of her audience by her excellent singing. In fact, the local press of that time suggested the advisability of her lessening the tragic intensity of "Othello," on the occasion of the production of that play, September 14, by the rendering of "Strike the Light Guitar" between the acts. It is not recorded, however, whether the lady accepted the advice or not. H. Cramer, who resided on Clark Street, between Washington and Madison, and Charles Sofftje, who lived with John H. Kinzie, were professional instructors in music in 1844. One T. B. Carter is also spoken of as the first singing master in Chicago, and although no date is given of his labors in this field of instruction, yet he was doubtless here several years before either of the gentlemen above mentioned. Mrs. Strangman, organist at the Catholic church, gave a concert at the Saloon, January 5, 1843. The record for 1845 shows that the Slater sisters, performers on the viola and violoncello, appeared at the Saloon January 23. In May Mr. Cutter and his company were at the Western Museum, and on the 12th of that month gave a concert at the Saloon. Master Howard, who was declared to be the "young Ole Bull," demonstrated his facility with the violin, at the Saloon, May 15, and Mr.

Hazelton conducted a concert December 22. Concerts were also given in this city, during the year by others whose names cannot now be recalled.

Hazelton and Clemens did much to foster musical tastes during the winter of 1845-46, and by repeated public entertainments of genuine merit, encouraged vocal and instrumental culture. Concerning the character of their entertainments, the Democrat, of February 18, has the following:

"Hazelton and Clemens's concert came off last night (February 17, 1846), and the audience, which was large, was delighted with the performance; and if it is creditable to our community to patronize these efforts to excel and please on the part of our city, the performance was still more so as to the performers. It was announced that the concert would be repeated again with variations, in both vocal and instrumental pieces, when those who lost the opportunity of hearing the rich melody last night, and those who enjoyed it, will avail themselves of the rich treat.

An anonymous correspondent of the Democrat,

under date of May 5, 1846, also wrote:

"I had the pleasure of being present at a private concert given by Mr. Hazelton and his juvenile choir, at the City Saloon, on last Saturday afternoon (April 26), and may safely say that all present were highly delighted. The Newhall family give high promise of becoming splendid vocalists. The two little nightingales, one only five and the other six years old, are charming creatures, and reflect great credit on their zealous and experienced instructor.

A society called the Choral Union was formed in 1846, with the following officers: A. D. Sturtevant, president; A. S. Downs, secretary; J. Johnson, first leader; S. P. Warner, second leader; J. A. Hosington, third leader The organization continued about two years.

A benefit was given Samuel Johnson, at the Universalist church July 2, 1847, on which occasion the programme was composed principally of ballads and glees. Mr. Wall, the blind harper, was at the Saloon July 15. A more imposing entertainment was that given at the court-house December 21, under Signor Martinez's direction. An orchestra of twelve pieces furnished the instrumental portion of the programme, and "a young lady, a celebrated vocalist from the East," whose name is lost to history in this connection, sang. The Signor himself astonished and delighted all by "holding a guitar in each hand and performing Mozart's melodies, waltzes, overtures and other popular airs." A "soiree musicale" was given by theb and of the steamer "Louisiana," five in number, at the Saloon, December 17; a "grand concert on the piano," at the theater, by B. Auguste Bode, December 27; and a plain concert by A. R. Dempster, assisted by local amateur talent, at the Saloon, January 5, 1847. A repetition of this performance was requested by the citizens, January 19.

The Alleghanians, a troupe famous in their day, first sang here December 7, 1848. In May, 1848, a musical convention, composed of delegates from the various religious denominations in the city, was held in the First Baptist church. The object of the convention was to discuss for adoption the best measures for securing the advantages of a general musical education of the young of the city; the adoption of the study of music in the public schools, and the mode of conducting singing in church services. The officers of the convention, which met on the 9th, were: George Davis, president; L. D. Boone and S. P. Warner, vice-presidents; B. W. Thomas, secretary. A committee consisting of L. D. Boone, George Brown, S. D. Breed, C. B. Nelson and D. S. Lockwood, submitted the following resolutions, which were adopted as the sentiments of the convention:

I. Resolved, That music is naturally in the soul, and if properly exercised, is one of the most powerful of all means used for the elevation, spiritually, of mankind.

private schools, and it is the duty of those who have the management of them to provide for said instruction.

3. That exercise in vocal music is conducive to health, and all who have at heart the physical, as well as the spiritual welfare of mankind, will advocate its study.

4. That like all choice blessings which are bestowed on mankind, through the beneficence of God, music, as well as other gifts, must be cultivated to insure the benefits resulting therefrom.

5. That the "musical ear," when possessed to any degree, may

be improved by study, but cannot be produced where originally deficient.

6. That it is the duty of choirs to study sacred music, and assist in imparting to religious services that spirit of devotion which their duty properly performed enables them to do.

It was also resolved that, in the opinion of the convention, congregational singing was the most desirable method to be employed by religious bodies.

The Misses Newhall and Perry sang at Market

Hall, March 22, 1849.

Professor Nathan Dye's first juvenile concert, consisting of sacred music, was given at the First Baptist church, April 3, 1849. Rev. J. B. Tucker delivered a lecture on the importance of instructing children in the elements and practice of vocal music, during the even-

The Empire Minstrels, a company composed of E. D. Palmer, J. F. Taunt, G. G. Snyder, I. Gardiner, E. L. Baker, R. H. Sliter, J. H. Goodrich, G. W. Vining, musical director, Williams & Hubbard, proprietors, gave an entertainment at the city hall, May 15, 1849. special attraction was Sliter's "appearance in his popular rattlesnake jig statue dance and Lucy Long in char-

The Alleghanians returned May 25, 1849, and the Columbians first sang July 15 and 16, at the City Hall. Conrad Charles Reisenger, a pupil of Ole Bull, was here in August, and David G. Griswold, aided by amateur vocalists, gave an elaborate concert September 27.

Mozart Society was formed December 4, 1849, by the members of the late Choral Union; C. N. Holden, president. At the initial meeting, the constitution of the defunct organization was adopted, with the exception of the name of the society. The officers elected were: George Davis, president; A. D. Sturtevant, secretary and treasurer; A. Runyon, C. N. Holden, S. Johnson, executive committe; W. N. Dunham, first director; Frank Lumbard, second director; W. B. Aiken, third director. It should here be noted, that George Davis, whose name has already been mentioned in connection with several of the earlier leading musical organizations, was always an active and indefatigable worker in promoting the advancement of musical culture in the city. He was himself a pleasing and popular singer, and was highly esteemed as a man and citizen by all who knew him.

During 1850 concerts were given by various travelling companies. Joseph Burke, violinist; Richard Hoffman, pianist, and George Davis, vocalist, were at the court-house June 28, The Original Ethiopian Serenaders sang at the city hall September 24. A concert-room was opened in the Tremont House, called Tremont Music Hall, in October, This room was one hundred by forty in size, and seventeen feet in height, and was "lighted by forty-eight burners in massive chandeliers." The inauguration took place on the 24th of that month, by the first concert of the Philharmonic Society under Julius Dyhrenfurth. This society which had just been organized was a most promising institution, and the first concert, given on the occasion just mentioned, was the first of a series of eight subscription entertainments given with the object of placing the organization on a permanent financial basis. Following

is the programme presented at the opening of this new hall:

1. Potpourri-Fille du Regiment. Orchestra.

The "Chicago Waltz". Lensen.
Composed for the occasion.—Orchestra.
Vocal Trio.....Messrs. Davis, Lumbard and Dunham.

Polka—French Song......Lensen.
Orchestra.

Orchestra.

November 20, the Alleghanians were at Tremont Hall, and December 6 and 7 Van Wormer's Minstrels. A company bearing up under the terrific name of the Campanologians, with Herr Freebertshyer and his three sons gave a performance. Mrs. Reignolds, and her daughter, Miss C. M. Reignolds, sang in concert December 23, and on the 26th, Frank Lumbard's Glee Club delighted the public.

In 1851, the Baker family was the first troupe to appear, singing at Tremont Hall January 2. On the same date Julius Dyhrenfurth began a series of promenade concerts on Tuesday evening of each week at the City Hall. The order of exercises at these concerts was first music, then promenading, after which dancing closed the entertainment. It was not long until the young people became more interested in dancing than in the music and came so late to the concerts that Mr. Dyhrenfurth wisely discontuedt hmie.n

The Kilmiste family, consisting of father and three daughters, gave a concert at Warner's Hall January 1, 1852. Mr. Weinman also gave subscription concerts in Dearborn Park during the summer evenings of 1851 and 1852. The second series of Prof. Julius Dyhrenfurth's subscription or Philharmonic concerts began January 5, 1852, at Tremont Hall, and entertainments were given from time to time, at brief intervals during the year. Among the number Henry Ahner also gave a

series of concerts at Old Metropolitan Hall.

The professional musical events of the year 1852 were: February 2, Malone Raymond and family, Tremont Hall; the Blakely family, February 7, at Tremont Hall; Rose Jacques, vocalist, Henry Squires, tenor, and Herr Brandeis, in concert at Tremont Hall, April 5, an occasion remembered as one of the most satisfactory to the public of those early days; Miss Greenfield, "The Black Swan," April 22, at Tremont Hall; Kunkel's Minstrels, at City Hall, May 13, 14 and 15; Catherine Hayes, in concerts, at Tremont Hall, June 21 and 23; Alfred Howard, the violinist, whose first appearance here was in 1845, when but a lad, July 12; Monsieur and Madame Thillon, Frederick Holmes and Mr. Hudson, at Tremont Hall, July 16, in concerts; Mrs. Emma G. Bostwick, who became a favorite with Chicago people, assisted in concert August 2, by Henry Appy, the noted violinist, Felix J. Eben, flutist, and and Herr Herold, pianist, a pupil of Mendelssohn; Nathan Dye's music class, August 5, at the Indiana-street Methodist Episcopal church; Mrs. Bostwick's second concert, at Tremont Hall, August 6, on which event the Democrat said: "Mrs. Bostwick has achieved one of the greatest triumphs ever obtained by a public singer in this city." Felix Simon, violinist, August 16; the Baker family, at Tremont Hall, August 16; Mr. Kemmerer's juvenile class of two hundred pupils, September 30, at the City Hall; Campbell's Minstrels, Tremont Hall, October 4 and 5; a musical convention,

MUSIC.

directed by William B. Bradbury, and lasting three days, at Warner's Hall, beginning October 26; Campbell's Minstrels, return engagement, October 15 and 16; John Mnir, the Scottish vocalist, aided by Mr. and Mrs. Kerrigan, November 6; and Well's Minstrels, beginning

December 8, lasting one week.

FIRST OPERA IN CHICAGO. - The first opera season in Chicago was inaugurated under what were far from flattering auspices, and its duration was confined to a very small part of a single evening's entertainment. On the evening of July 30, 1850, an opera company consisting of Mr. Manvers, Mr. Guibelei, Mr. Lippert and Miss Brienti, assisted by a home-chorus and orchestra, began the first season of opera ever given, or rather ever attempted, in this city. The piece for the opening night was "Sonnambula," and the place of presentation Rice's first theater, located on Randolph Street. A fair audience was present to witness this initial performance and everything had progressed smoothly until the rising of the curtain on the second act. At this juncture the alarm of fire was given, and in an hour's time, the theater in which the opera was progressing lay in ashes, involving a loss to its owners of over \$4,000.\* Thus abruptly terminated, before it had even fairly begun, the first opera season in Chicago. Undaunted by his illfortunes, Mr. Rice soon purchased a lot on Dearborn Street, and immediately began the erection of a new theater. From this time until in October, 1853, no operas were given. The second season of this class of entertainments began in Rice's new theater on the 27th of October, 1853, and lasted one week. The company was the Italian Opera Troupe from New York. In the Democratic Press preceding the opening of the season the following card from the manager of the troupe is found:

"The undersigned, acting in the name and in behalf of Ma-dame De Vries and Signor L'Arditi, known by the name and style of the Artists' Association, has the honor of calling the attention of the musical community and of the citizens of Chicago in general, to the fact that he has made arrangements with Mr. Rice, the manager, to have the Italian Opera Troupe on Thursday evening, October 27, at the Chicago Theater, to perform the opera, in three acts of "Lucia di Lammermoor." The undersigned begs leave to introduce the following artists: The grand prima donna, Signorina R. De Vries, the favorite tenor, Signor Pozzolini, the tenor Signor Arnoldi, the comprimaria, Mme. Sidenbourg, late of Madame Albani's troupe, the unrivaled baritone, Signor Taffenelli, and the eminent basso, Signor Calletti. Also a grand and efficient chorus, and grand orchestra. This great company numbers over forty members, the whole under the most able direction of the distinguished maestro, Signor L'Arditti.

C. POGLIANI.

The leading characters in the opera were cast as fol-

vo.	
Lucia	Signora R. De Vries.
Elgardo	Signor Pozzolini.
Lord Asthoro	
Lord Aurthur Bouchsland	
Raimond	Signor Candi.

This was no doubt a meritorious company of artists and were well received by both press and public.

Among the musical events for the year 1853, none equaled in importance the coming of those justly celebrated characters in the musical world, Adelina Patti and Ole Bull. These famous artists made each their first appearance in this city, at Tremont Music Hall, April 21, of that year. The season of this company consisted of three concerts given April 21, 23, and 26. The appended programme of the opening night illustrates the excellent character of the entertainments.

PART I.

Madame Sontag's celebrated Cavatina from "Lindi di Chamonni"
"Tluce di quest' anima," sung by Adelina Patti,
 The Mother's Prayer. A Fantasia Religeoso, composed and

The Mother's Prayer. A Pannon-executed by Ole Bull.

"Ah non giungi," the eelebrated Rondo Finelle from "La Son-nainbula," sung by Adelina Patti.

Paganini's famous Witch Dance, performed by Ole Bull.

PART 11.

Particia

formed by Maurice Strakosch. Comin' through the Rye," the favorite Scotch ballad, sung by

Adelina Patti.

Grand National Fantasia, for the violin, alone performed by Ole Bull.

Jenny Lind's "Echo Song," sung by Adalina Patti. "The Carnival of Venice," by Ole Bull.

Tickets of admission to these concerts were one and two dollars, and with each one was given a certificate, bearing the number corresponding to the ticket. These certificates were to remain in the hands of the original holders, and established their ownership to their seats. In May following, Ole Bull and his company returned and gave a concert in the same hall, for the benefit of the Norwegian Lutheran Church; the affair was a success, netting five hundred dollars to the beneficiary. On the 18th of June, an excellent home concert was given at Warner's Hall by the pupils of Henry Lippert, who was, at that time, a popular and efficient teacher of music in Chicago. On June 29, Signorina Balbina Steffamore, a prima donna, assisted by Mrs. Amelia Patti Strakosch, and the wonderful boy violinist, Paul Julien, appeared at Tremont Hall two nights, June 29 and 30.

In November was announced the revival of the subscription concerts of the Philharmonic Society, under the direction of Christoper Plagge. In that month the New York Italian Opera Company returned, singing this time only in operatic selections. On the last night of their stay they gave a "grand sacred concert." Early in March, 1854, the Blakey family appeared at Tremont Hall, and on the 21st, 23d and 25th of the month Ole Bull and Adelina Patti gave a series of their popular performances at the same place. In May the Philharmonic Society held its yearly meeting for the election of officers. Charles N. Holden was re-chosen as president; the other officers were A. D. Tittsworth, vicepresident; R. G. Green, treasurer; and I. D. Cole, librarian. The directors of the society were J. W. Bogue, Henry Johnson. C. H. Lawrens, J. Q. Thompson, A. D. Tittsworth, J. T. Jewett, C. O. Thompson and W. H. Rice. This organization was at this time in a flourishing condition, having in January and February of this year given a series of concerts which, aside from being popular and pleasing entertainments, had netted it handsome financial returns. On the 24th of May the Germanic Musical Society gave a concert at Tremont Hall, in which appeared in solo parts M'lle Caroline Lehman, a vocalist from his Majesty's Theater at Copenhagen, Carl Zarrhn, flutist, W. Meyers, English horn, I. Shuetz, clarionetist, and F. Thriede, bassoonist. September 21, the Philharmonic Society gave a re-union in the First Baptist church, on which occasion the musical exercises were conducted by Prof. Carl Bergmann, subsequently one of America's noted musicians, the newly elected director of the association. On the 26th the new Metropolitan Hall was opened with a concert by Frank Lumbard, assisted by the best musical talent in the city, including instrumental selections by the Garden City Band. Of this new hall, and this the initial performance, the editor of the Press said, "This is the finest hall in the city. We would rather hear Frank Lumbard and his assistants sing one evening in plain

I. Overture from Rossini's Grand Opera of "William Tell," performed by M. Strakosch.
